Lindsay Post says: The Lindsay Board of Education are seriously "up against it" in the matter of competent teachers and good salaries. The question that rudely confronts them is this: if they are to have thoroughly good, qualified teachers, they must assuredly "go down in their hip," as the saying is, and lift the salaries a notch or two.

To See the Big Parade.

For the big parade day, in connection with the I.O.O.F. Grand Lodge Convention at Toronto on September 19th, a special train will leave Peterborough at 7.45 a.m., via Canadian Pacific Railway. A splendid chance to see the big parade, take in the races in the afternoon, and the opera in the evening. This special train will leave Toronto, returning at 12 o'clock p.m. Tickets for the round trip $2.55.

Hundreds of Baptists Here.

It is expected that between 350 and 500 delegates will attend the annual convention of Baptist Churches in Ontario and Quebec, held here from October 17th to 23rd. The Murray street Baptist church will be official headquarters. One of the most important questions to be considered will be that of holding a Dominion convention.

First Bear of the Season.

On Saturday the first bear of the season was on exhibition at Mr. J. Mervin's meat market. Bruin who weighed nearly 200 pounds, was shot by Mr. John Howett at Black Duck Creek, a spot in close proximity to Burleigh Falls and known to hundreds of Stony Lake annual outers.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.
Cal at the College or address

WM. PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Special harvest festival service was conducted in St. John's church yesterday.

—It now seems that the Front Varies canal outer will be at Fraserboro.

—A present will be given every twenty-five cent purchase of school books at Times Bookstore.

—The Collegiate Institute Corps has been reorganized, with Lieut. Hodgson of the 57th as instructor-in-gun.

—The special music rendered yesterday in St. John's Harvest thanksgiving services was of a very high order.

—[illegible] from Peterborough [illegible] Monday morning [illegible] back to day. Wheat is [illegible] market.

—Peterborough's population according to the assessors' returns will reach 15,000 this year compared with 14,091 last year.

—Yesterday afternoon Rev. J. G. Brady gave an interesting address to the Y.M.C.A. His subject being "The Marks of a True Man."

—A number of the employes of the Cutting Works left Saturday afternoon on a Ray Roy for a day's outing, with Hastings as their point of destination.

—The next meeting of the deanery of Northumberland and Peterborough, will be held in St. John's church, Lakefield, on Monday and Tuesday, October 15 and 16.

—It is rumored that Belleville will play pro. hockey this winter. Belleville is determined to get out of their Rip Van Winkle trance, even if they have to hire men to wake them.

—Work on the new roller skating rink, Charlotte street, was begun Saturday. The supporting rafters laid and about ten feet of the planking, the whole length of the rink were nailed down.

—Mr. Ed. Young of Harwood, who was in the city Saturday, states the fishing is good, large takes being in daily occurrence, but as far as duck shooting is concerned there is nothing doing as yet.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—New novelties in Japanese china, also fern pots, biscuit jars, muffin dishes, marmalade stands, sugar and cream sets and many other articles, too numerous to mention, all at very low prices considering the wear and beauty. Times Bookstore, Market Block.

—Western Excursions to Detroit, Bay City, Chicago, etc., via Canadian Pacific leaving Peterborough Sept. 20, 21 and 22nd, good to return until Oct. 8th. For tickets and all information see W. McIlroy, City Passenger Agent, 343 George street.

SOCIAL AND PERSONAL

—Mr. R. B. Munro spent Sunday in Tweed.

—Dr. A. J. Robertson, Norwood, was in the city on Saturday.

—Mr. George Chalmers has sent another large batch of men to the Algoma Commercial Company's camps.

—Mr. and Mrs. Fred Darcy, who have been spending the summer at Young's Point, have now returned to the city.

Stolen Horse is Recovered

It will be remembered that last Monday lost a horse and buggy, it transpiring later that a man named Moore had taken the outfit to Lindsay. Chief Bonzel telephoned the Lindsay police to look out for Moore. On Saturday the Lindsay police ascertained that the horse was there, and had been in one of the hotel stables since Monday afternoon. A man sent by Dr. McKercher, Saturday afternoon, to Lindsay identified the horse.

It seems that on his arrival at Lindsay, Moore stayed one night at one of the hotels and the next morning, leaving his horse in the stable, and stating that he would return for it, he took the train remarking that he was going to Port Perry.

The chief has communicated with the police at Port Perry, and if Moore can be found, he will be brought back to the city.

Is Dr. Turver From This City?

It will be remembered that in our Saturday's issue a detailed account of the suspected death of a Miss Gertrude Knight, who had been a patient in Dr. W. W. Turver's hospital at 101 Niagara street, Buffalo, N.Y., and of the arrest of the doctor.

It is now thought that Dr. W. W. Turver is a former Peterborough man, who some 35 or 40 years ago, was the proprietor of the Chisse House, afterwards known as the Grand Central Hotel. It is known that Mr. Turver, when he gave up medicine, and after graduating, operated a hospital in that city.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R. "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains, leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Ross S. Lewis, Passenger Agent, 10 King street east, Toronto.

POLICE NEWS

Daily Happenings in Court Room and Station.

At Saturday's police court, drunk was the most frequent charge on the docket in the absence of P. M. Dumble Mr. S. R. Armstrong held the reins of justice.

Chris Dives was assessed $2 for having absorbed too many frames of tangle-leg as was Edward O'Brien a Otonabee farmer. Edward showed evident signs of having enjoyed the immoderate jag one of his eyes being in mourning.

Joseph Rickaby once more bobbed up serenely. He had been fined at Friday's session to the tune of $1.00 for [illegible] drunk and once more faced the music Saturday on two charges. The first was for loitering on the street and obstructing the passage by interfering with passersby, and secondly for being drunk and disorderly. He pleaded not guilty to both charges and was remanded until next Friday.

George Frost who was gathered in Saturday night while drunk, spent Saturday in Cobdair No. 3 in the Hall. He was fined $3 and costs and will take his medicine at the court this morning.

The Abandoned Infant Claimed

Our readers will remember that Saturday's issue of The Times gave an account of an infan on Friday evening left in the door way of a Simcoe stree barber shop in a basket addressed, "For Mr. Jack Lefay," and that Lefay had mysteriously left town some days ago. On Saturday morning Mrs. Mary Donnelly of Millbrook, delivered herself up at the police station admitting it was she who left the infant. At the police court she was charged with unlawfully abandoning and exposing a child under the age of two years, thereby endangering its life.

Crown Attorney Wood said he understood that Mrs. Donnelly was willing to take the baby home and care for it. He was therefore willing to withdraw the charge.

Mrs. Donnelly said she did not know that it was a criminal offence, and she only left the infant for spite. The old time tale of man's infidelity and woman's weakness was told once more. By Mrs. Donnelly's story, Lefay had promised to marry her daughter, but said owing to his being a Roman Catholic, and the girl a Protestant, she was unable. However, on Mrs. Donnelly's refusing to accept so slim an excuse in so grave a matter and threatening arrest, the scoundrel skipped out for parts unknown. The girl in trouble is only 18 years of age. Mrs. Donnelly took the babe to Millbrook on Saturday.

House of Refuge Tenders Let

Mr. F. J. R. McPherson Awarded Plumbing, Heating and Wiring.

A special meeting of the County Council was held Saturday afternoon, during which, among other matters of business considered, the tenders for the plumbing, heating and lighting of the fine new House of Refuge at Lakefield, now rapidly approaching completion were let.

Only two tenders had been presented for each of the three lines of work noted above, viz., by two local firms. The tenders, with their respective amounts of each firm were as follows:

PLUMBING.

F. J. R. McPherson, $2,242.
MacGregor & Reid, $2,275.

HEATING.

F. J. R. McPherson, $1589.
MacGregor & Reid, $1930.

WIRING.

F. J. R. McPherson, $70.
MacGregor & Reid, $120.

The three contracts for plumbing, heating and wiring were let to F. J. R. McPherson, his tenders being in each case the lowest.

Many Will Go to Toronto Tomorrow.

It is expected that a very large number, especially of members of the Triple Link brethren will take in the cheap Toronto trip, of tomorrow (Tuesday) Wednesday, especially as tickets at only $1.25 for the round trip are good to return until Friday.

It is expected there will be from 15,000 to 20,000 visitors in Toronto this week in connection with the meeting of the Sovereign Grand Lodge. The parade on Wednesday will be the largest ever held in this this country under auspices of the I.O.O.F.

Foresters Attend Church.

Yesterday evening the members of Court Chemong No. 630, I.O.F., together with visiting brethren of other lodges of the order met at their hall at 408 George street, and marched in procession to St. Andrew's church, when Rev. Dr. Torrance delivered an eloquent and appropriate sermon. During the service Mr. George Crofton, of the Conservatory of Music, late of London, England, and Mrs. (Dr.) Prust, city, contributed greatly to the musical portion.

Directors Buy Stock.

At a special meeting of the Board of the Columbus Cobalt Silver Company, in which a number of Peterborough citizens are interested, the directors were so pleased with the new strike made last week in the mine, that they bought at par an additional block of stock. Development work is proceeding vigorously, and Mr. Daniel Simpson, managing director, will shortly leave Toronto for Cobalt to reside at the mine and personally superintend it.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects *in any condition of the system.*

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

A Great Snap.

The following list of books, nicely bound in cloth, will be sold a bargain at 18 cents each while they last. Also 100 25-cent books for 20 cents. Don't fail to take advantage of this snap to secure good reading at reduced prices.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfill all expectations if given ample time for completion.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

BUILDING BLOWN UP AND PEOPLE KILLED IN HAVANA

Six Persons Known to Be Dead and Many Injured as Result of Incendiaries' Work---Revolutionary Junta Accuses Palma Government of Murdering Member.

Havana, Sept. 18.—A violent explosion occurred here yesterday morning that wrecked two brick buildings. Six persons were killed and many wounded. No details of the case are yet to hand. An investigation is being made.

The explosion is thought to be the work of incendiaries.

The buildings at once caught fire. Dead and wounded are still being taken from the wreckage. The buildings were insured.

New York, Sept. 18.—The revolutionary Junta of New York has issued a proclamation giving the Liberal (or insurgent) persons for taking up arms against the Palma Government. The proclamation says:

"We have been careful not to overdraw the seriousness of the political situation in Cuba, and have made no charges that cannot be substantiated.

"We charge that President Palma obtained his election to office through fraud and intimidation, and by the denial to the Liberals of their right of suffrage.

"We charge that the Government of President Palma was directly responsible for the killing of Col. Enrique Villuendas, a member of the House of Representatives, at Cienfuegos, on September 23, 1905.

"We charge that President Palma has usurped the powers and functions of the governing bodies of the municipalities, and has annulled, arbitrarily and without warrant of law, the elections of Liberal officials, displacing them with members of his own political party, the Moderates.

"We charge that he has in like manner removed from the bench judges who refused to act in their judicial capacity according to his dictation. President Palma also has imprisoned without judicial proceedings members of the Liberal party because they protested against his dictatorial conduct.

"The Liberals have made continued peaceful appeals that their injuries be righted, but to all these the Government turned a deaf ear. Denied the constitutional rights for which the Cubans fought, bled, and died for nearly half a century, we decided that our only recourse was to again take up arms.

"We now ask only one thing, and that is that the illegal and fraudulent election of last December be annulled and a new election held, at which every Cuban citizen will be given a fair chance to vote."

In concluding the proclamation says: "That Palma is today the dictator of Cuba instead of Weyler," and declares that the men who surround him are the same who supported the Spanish regime, while patriotic Cubans were in the field fighting.

STOP HOSTILITIES.

Havana, Sept. 18.—At three o'clock yesterday afternoon President Palma issued the following decree:

"On the proposal of the Secretary of Public Works, the Acting Secretary of Government, I decree the following:

"Article 1—All campaign operations are suspended, and, as a consequence, all the forces of the Government will remain on the defensive in all the territory of the republic.

"Article 2—The Secretary of Government will see to the immediate carrying out of the above, issuing whatever orders are necessary for its execution.

(Signed)
"Tomas Estrada Palma.
(Countersigned).
"Rafael Montalvo,
"Secretary."

Senor Montalvo said that the issuing of the decree was the result of a request from the rebels that negotiations for peace be entered into. He added that these negotiations began Saturday afternoon. It is believed, however, that they began sooner, although the Government would not admit that President Roosevelt's letter had brought matters to a head. The Government is probably doubtful as to be possible result of Secretary Taft's mission. The sentiment in favor of peace in certain official quarters is a long. Nevertheless, an agreement between the contending factions would be a source of disappointment to a large number of persons who are desirous of American intervention.

NAVY GETS READY.

Washington, Sept. 18.—Preparations by the Navy Department for any emergency in Cuba continue, but no additional orders have been issued, despatching warships to Cuban waters. The Minneapolis and Newark are under rush orders to prepare for sea, but have not yet been sent away. The situation has not yet developed to a point where it is believed that battleships will be necessary.

See the Golden Message on last page.

Golden Wedding of Local Interest

The Dundalk Herald of Sept. 13 h, referring to a former resident of Otonabee township and a brother of Mrs. R. M. Matchett, East Ward, has the following concerning Mr. J. Neitherew:

"The home of Mr. and Mrs. Joseph Neitherew, of Melancthon, near Dundalk was the scene of a unique gathering on Wednesday, August 29th, when their children, grandchildren and other relatives, to the number of about eighty, gathered to celebrate the 50th anniversary of their wedding day.

Mr. Neitherew was born in the County of Cavan, Ireland. His father, John Neitherew settled in the township of Otonabee, County of Peterborough. Here Mr. Neitherew met the lady who was destined to become his wife, and fifty years ago was married to Jane Dunlap, daughter of John Dunlap, by Rev. Rogers, Presbyterian minister. They came to Melancthon in 1860. Eight children were born to them, all of whom are yet living and were present, leaving the circle still unbroken by death. They are: John, of Chicago. Wm. Thomas, of Dundalk; Jas. A., at home; Richard Percy on the old homestead; Mrs. Joseph Saulder of Melancthon; Miss John Gilroy of Chicago; Miss Henry A. Hewitt, Dundalk and Maurice at home.

"The proceedings were opened by Mr. T. Haverty, who congratulated Mr and Mrs. Neitherew, on having to enjoy health and strength on the occasion of their golden wedding.

"Miss Ella, daughter of Richard H. Neitherew, then read an address of congratulations from the friends of the aged couple.

"This was followed by presentation of the gold offerings, the gold pieces ranging from five dollars up to twenty.

Harry Palmer arrived with his camera and took photos of the parents and children alone, and then of the parents and children, wives and husbands and grandchildren, and also of the whole group.

The company then sat down to supper, after which the evening was spent in social enjoyment. The Dundalk Citizens' Silver Band drove out and rendered a choice program of music. The gathering broke up with music by the young people, Miss Mabel presiding at the organ.

Both Mr. and Mrs. Neitherew are enjoying good health."

Rheumatism is not incurable, southborn Yes! But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives rheumatism from the blood and then Rheumatism dies. We recommend and sell. at. J. D. Tully.

T. V. C. Navigation Company's Changes

Important Changes Made in Schedule Time of Above Line.

The Times yesterday was acquainted with the fact that an important change had been made in the schedule of the Trent Valley Navigation company's steamers.

The change is as follows, viz., that the steamer Empress, will give a single daily service from the 17th to the 19th instant, leaving Lakefield after arrival of morning train from Peterborough, returning to connect with the 5.40 train for Peterborough. After the 19th inst. notice is given trips for this season.

Simcoe Street to be Cleared

Work Laying Gas Mains Was Begun Yesterday and Will be Continued

The several complaints that have recently reached this journal concerning the delayed construction of Simcoe Street, by the heretofore seemingly endless delay in laying of the huge pipes laid along the thoroughfare.

These 12-inch pipes are the main feeders from the gas mains and will run along Simcoe street across Water and George to Aylmer. From Aylmer to Rubidge an eight-inch pipe will be put down and from Rubidge to Park a six-inch pipe.

The eight-inch main along Aylmer street has been completed and the Canadian General Electric Works have been connected.

S. A. Band on a Serenade Tour

The Salvation Army are making extensive preparations for their harvest home festival which commences next Saturday and continues until Tuesday night. The welcome of Brigadier and Mrs. Hargrave, the new officers for this province, will be held on Saturday evening.

Last night the Army Band began a three nights' series of serenades in order to obtain contributions towards the above object.

AUTUMNAL CATARRH

Disease Prevalent Now—Hyomei Will Cure It Quickly.

A great many people suffer more with catarrh during the fall months than at any other season of the year, as changes in weather seem to have a bad effect upon the disease.

At the first warning of catarrh, one should begin the use of Hyomei. A few days treatment will often prevent a serious attack of this distressing and annoying disease.

There is no stomach dosing with Hyomei. It cures catarrh by the simple and natural method of breathing medicated air into the nose, throat and lungs, in this way killing the germs of catarrhal poison, healing and soothing the irritated mucous membrane and entering the blood with the oxygen, thus driving all catarrh germs from the system.

If you have any of the ordinary catarrh symptoms, such as offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty to breathe, sneezing, huskiness, discharge from the nose, droppings in the throat, coughing spasms &c., begin the use of Hyomei at once.

A complete Hyomei outfit costs but $1.00, extra bottles 50c.

For sale by all dealers. The R. T. Booth Co., Buffalo, N.Y.

CANADA AND THE UNITED STATES

Water Commission to Settle Dispute Over International Line on Lake Erie

DR. KING TO MAKE REPORT

Both Countries Appoint Experts to Report—Friendly Offer to Canadian Commander.

Ottawa, September 18.—Another boundary dispute has developed between Canada and the United States. This time it is a water boundary. The disagreement is over the location of the international line of separation in Lake Erie. After seizures of American fishermen's nets for poaching, Secretary Schacht of the Keystone Fish Company of Erie, Pa., disputed the charge of trespass. Commander Dunn of the Canadian cruiser Vigilant, to avoid future disputes, offered to log off the distance from Erie to the international boundary and superintend the placing of gas buoys on it if the fish company would furnish the buoys. Mr Schacht forwarded this offer to the State Department at Washington, stating that the matter was one of importance, as there were forty to fifty boats sailing out of Erie liable to have their nets seized at any time, though they believed themselves to be on the southern side of the line. The State Department referred the case to the Secretary for War.

Acting Secretary of State Bacon, commenting on Captain Dunn's offer, called attention to a claim that the maps of the Ghent Commission were not accurately scaled, as Lake Erie was drawn wider than it really is, so logging off the distance from the north and the south shores on the Ghent Commission map to the international boundary would result in an over-lapping of some miles at the center of the lake.

The United States War Department referred the case to the International Waterways Commission, with instructions to the chairman, General Ernst, to make a report accompanied by maps showing the alleged differences between the international boundary through Lake Erie shown by the Ghent Commission maps and the boundary indicated by the United States lakes survey. The Canadian Government has instructed Dr. King, chairman of the Canadian section of the International Waterways Commission, to make a report on the matter, and to represent the Canadian side of the case.

Thus the friendly offer of a Canadian commander of a fishery protection vessels to a fishing company has brought a fine point of international difference to a head.

Miss E. Flynn is Now Mrs. A. Madden

Yesterday morning, in St. Peter's Cathedral, Miss Elizabeth Flynn, daughter of Mr. David Flynn, of Peterborough, became the bride of Mr. Alphonsus Madden, of this city. The ceremony was performed by Rev. Father McCall, at eight o'clock in the presence of a number of relatives and friends. The bride was attended by Miss Teresa Flynn and the groom was supported by Mr. Edward Flynn.

The happy couple left for western points on a wedding trip. On their return they will reside in Peterborough.

Another big Gold and Silver strike in Colorado. See last page.

If all dyspepsia sufferers knew what Dr. Shoop's Restorative would do for them, Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, blooting, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative. J. D. Tully.

Confirmation in St. John's

His Lordship the Bishop of Toronto will pay a visit to St. John's church about the middle of November to confer the apostolic rite of confirmation on a number of candidates. This will be a very interesting ceremony and will be attended with much solemnity and impressiveness.

Is Local Lady Dead in Ottawa?

It Is Feared Miss Loveday Died in Gilmour Hotel Fire, Ottawa.

Concerning the sad intelligence regarding the recent disastrous fire in the Gilmour Hotel, Ottawa, the news is rendered of particular local interest, by the fact that a Peterborough lady, Miss Jane Loveday, secretary of "Hazel Brae," or Barnardo Home of this city, is supposed to have perished in the flames.

It has been ascertained that Miss Loveday registered at the hotel about six o'clock on the evening of the fire, and although diligent search has been made, nothing can be learned of her since 8.30 o'clock Friday night. She has undoubtedly perished in the flames.

Miss Loveday went to Ottawa on Barnardo Home business on the noon train Friday, and registered that night at the Gilmour Hotel.

Miss Pierce, the superintendent of "Hazel Brae," has gone to Ottawa to assist in the search. Word was received here yesterday morning to the effect that the search for Miss Loveday had been in vain. After registering at the Gilmour, Miss Loveday went out to make some calls. The searching party has been able to follow her movements up to 8.30 o'clock, but since that time no trace of the missing lady can be discovered. It is presumed her, returning to her room in the hotel, she met her death in the fire. This is particularly cause of relief as her room was situated near the elevator shaft and thus exposed to imminent danger.

The walls are now in a dangerously threatening condition, and will have to be pulled down before search can be made in the still hot debris of the burnt building.

Miss Loveday had been a resident of Peterborough for a number of years, and had many warm friends. She was a native of Leicester, Eng., and had been secretary of Hazel Brae for the past seven years.

At St. Johns church on Sunday, prayer was offered for the inmates officials at the home.

Although hoping against hope, Miss Loveday's friends are anxiously looking for news of her escape.

Japan to Control Pacific Traffic

Sun Flag Will Fly Over Celebrated Palaces Afloat.

Yokohama, September 18.—The competition for the trade of the Pacific between the various steamship companies is exciting lively interest in Japan and China. Shipping men here are positive in the belief that the Japanese companies will force competitors out of business.

It is definitely understood that since the failure of the shipping subsidy bill in America, the Toyo Yusen Kaisha Company will buy the Pacific Mail Company. The fleet consists of the Mongolia, the Manchuria, the Korea, the Siberia and the China, all fine steamers of from 10,000 to 15,000 tons burden.

The sale of the Pacific Mail steamers will mean the practical disappearance of the American flag from the China seas. There will still be J. J. Hill's two steamers, the Dakota and the Minnesota, trading to Seattle. It is uncertain how long before the Japanese Government purchases these steamers also.

Practically the whole intercoast trade of China and Japan is in the hands of the Japanese.

FRUIT STORE ROBBED

Messrs. Minocolo Bros. Window Raised and Fruit Stolen.

A petty burglary was perpetrated Sunday morning at the store of Messrs. Minocolo Bros., on Hunter street. The burglar effected an entrance from the front window, which as is customary with fruit stores is able to be raised.

To the victims chagrin on the thief or thieves, the window would only raise a few inches and the guilty parties could get nothing but what was in the front of the window. This consisted mostly of pears, peaches, plums and grapes. The burglars stripped the window as far back as they could reach. The loss will be in the neighborhood of five dollars. Whilst this was not a fruitless attempt at burglary it is apparent that the burglar although taking the plum may have his pals peach on him.

MUCH CHEAPER

Grape-Nuts Accomplished What Ocean Travel and Medicine Could Not.

It's not what you eat, but what you digest that gives strength.

Many a man drags around year after year half dead, because his food is not digested and he takes first one kind of medicine and then another without relief—because medicines cannot take the place of well digested food, and never will.

Give nature a fair chance, as a prominent German-American of Chicago did, and if you're in a bad fix from stomach trouble, read what he says and try it on.

"About a year ago," he writes, "I was afflicted with stomach trouble which so enfeebled me I had to quit work. I grew so lean I was merely skin and bones.

"I had the advice of six different doctors and two college professors. One thought I had cancer of the stomach, another advised a change of climate, and recommended ocean travel. I decided to follow this last and went abroad for three months.

"But my health became worse and worse. The least amount of food caused me awful pain, and I obtained relief only by having my stomach pumped out.

"Nothing did me any good. Soon I could take no food at all except strained oat meal; then a time came when I could not even take that. I lost courage and prepared myself to die. At that time my wife brought me a package of Grape-Nuts, but I had no confidence in anything any longer.

"She finally persuaded me to taste a few spoonfuls of the new food and to my surprise I retained it, and had no distress. That made me feel fine and encouraged to make another trial for life. For several months I ate nothing else—every day a bowl of Grape-Nuts with cream, and thus I gained my health, my oldtime weight and am now as well as ever. I could not live without Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

"There's a reason." Read the little book, "The Road to Wellville," in pkgs.

CANADIAN MANUFACTURERS IN SESSION AT WINNIPEG

Over 250 Members Are in Attendance---During Their Stay They Will be Guests of the City

Winnipeg, Sept. 18.—Two hundred and fifty members of the Canadian Manufacturers' Association are now in this city to attend the 35th annual convention.

They will be the guests of the city while here, and a lengthy program has been arranged for their entertainment.

On Thursday morning the delegates will commence a tour of the West which will extend to the Pacific.

The session yesterday morning was given over to receiving reports from various sections; while in the afternoon reports from important committees were received.

"There has been a marked and steady advance during the year by our association in all its departments and undertaking," said Geo. Booth, the treasurer, after presenting his financial statement.

"I wish only to refer to a few features which I think should be emphasized. It will be observed that after providing fully for bad and doubtful debts and writing off $209 for depreciation on furniture that our surplus assets are $7,400.46, which is an increase over last year of $2,657.23.

"The receipts, which total $40,381, are $1,687 in excess of last year, and the expenditure which amounts to $39,259, is $382 less.

"Accounts owing the association for membership fees amount to $269, which is $63 less than the amount shown in the last annual statement. Advertisements and accounts owing amount to $2,239.6., which is $295.98 less than last year. These figures show that the collections are being well looked after.

"The association has no financial difficulties to fear, provided new work is not undertaken. My own opinion is, however, that the expenditure of the association has now become so large that there is not sufficient margin between our receipts and expenditure, and I think that the amendment to the constitution, which will be presented to this meeting, and which provides for a slight increase in the membership fees from firms employing between 50 and 100 hands, is in the right direction and should be supported. The increase in fees was defeated at the last annual meeting, and was generally approved of, and the bylaw that will be submitted was, in the opinion of the Finance Committee, the best method to adopt."

The Technical Education committee, who were continued in office for the purpose of memorializing the Dominion Government in regard to the appointment of a commission to report on the best method of establishing a comprehensive national system of technical education, submitted a summary of their year's work.

It was suggested that the committee be made a standing committee, not alone because of the desirability of co-operating with the anticipated Educational Commission, but because of the permanent need of caring for matters relating to industrial efficiency.

During the course of the civic reception at the Royal Alexandra Hotel last night, Mr. C. C. Ballantyne, of Montreal, the president, delivered his annual address.

A Great Mine, Says Col. Teters

The Well Known Mining Man Visits Property of the Golden Message Company at Sunshine and Says That it Has all the Indications of Making One of the Great Mines of the Country-Geological Conditions Most Favorable.

Mr. W. B. Teters, the veteran mining man, well known throughout the state and particularly in Boulder county, recently visited the property of the Golden Message Mining Company at Sunshine, and when questioned regarding his opinion of the great strike on the property, said: "Aside from the splendid showing of high-grade telluride and free gold ore throughout the Addison and St. Louis drifts, I find that the location, surroundings, geological and mineralogical conditions are most favorable for larger and permanent shoots of high-grade gold ores.

The property is not only contiguous to, but is surrounded on all sides by, producers of high-grade ores and is situated in the center of one of the richest mineral bearing zones in Boulder county.

The Sunshine zone extends from Balerat to Magnolia, and embraces such well-known mines as the Smuggler, Golden Age, American, Inter-Ocean, White Crow, Emancipation, Little Johnny, Ingram, Dines, Logan, and the well-known mines of Magnolia, which together have output many millions of dollars.

The Sunshine mineral zone narrows on the divide between Sunshine and Left Hand canon, and numerous gold-bearing veins cross and recross each other within the territory of the Golden Message Company and thereby form large bodies of workable ore like that in the St. Louis, which, across ten foot of the vein averages about $12 per ton.

Another important feature regarding this property is its position in relation to one of the great tunnelized dykes which have been an important factor in the mineralization and deposit of high values in so many of the mines of Boulder county.

One or those dykes has cut through the property and evidently has added largely to the rich mineralization of both the St. Louis and the Addison ore shoots, and will evidently show even better values when the dyke is reached. I believe that the Addison and St. Louis ore shoots will, if properly worked, certainly develop into one of the great mines of Boulder county."

FIRE AT FENELON FALLS

Mr. J. H. Brandon Loses Valuable Stock and Stables.

Fenelon Falls has had still another fire-fiasco and this time one whereby a gentlemen well known in this city was a heavy loser. On the night of September 14 h, about 11.30 flames were seen shooting in several places from the large stables belonging to Mr. J. H. Brandon, proprietor of an extensive flour mill at that village. An alarm was quickly sounded, and neighbors quickly turned out to assist the local firemen. Although there fortunately happened to be no wind blowing at the time, the fire had gained such headway that several stables were totally destroyed. Mr. Brandon also had five valuable horses and a bull burned to death. It is supposed the fire originated from some one smoking in the stables.

The amount of insurance has not yet been ascertained.

WRONG IDEA RIGHTED

Children's Aid Society Shelter Will Take in Infants if Necessary.

It seems that the local press, in reporting the facts of the recent deserted infant case of Simcoe street, were under a misapprehension as to rules governing that most commended charitable institution, "the Children's Shelter.

It was generally supposed that the Shelter would not take in infants under one year of age, but this Mr. Dennistoun, one of the leading spirits in this charity denies. He explains that although the Children's Aid Society prefers not to take in children of that delicate age, they would not see even an infant neglected. It is, however, manifestly impossible for our woman to look after infants as well as children over that age. When it does happen that an infant is taken in to the Shelter, a foster home is found for it at once and the society pays for its keep.

Officers of the society claim that a child under 12 months is safer in the arms of its own mother, unless the circumstances of the case are extreme. As long as the mother will give it any kind of proper attention, the infant will do much better with her than in the Shelter.

The rule governing children's ages is not stringent because the society will not see a little baby suffer, but it is preferrable to take children over a year old.

ATHLETIC WORLD

BY OUR SPORTING EDITOR

THE TURF.

Mr. Neville, the well-known horseman passed through the city yesterday en route for Lindsay, taking with him the celebrated stallions "Silver Star" and "Happy Muck." These horses will take part in the races in Scugogville, Silver Star is entered in the free for all, and Happy Muck in the 2.25 class. It is to be hoped that Neville will get at least "a look in."

BASEBALL.

Games played in the three big baseball leagues yesterday, resulted as follows:

Eastern.

Jersey City 5, Toronto 0.
Newark 0, Buffalo 4.
Baltimore 3, Rochester 2.
Providence 11, Montreal 2.

National.

Philadelphia 2, New York 10.

American.

Philadelphia 0, Chicago 4.
Boston 7, Detroit 2.
Washington 4, Cleveland 2.
New York 0, St. Louis 1.

A Bonifide and Gilt Edge Investment
In a MATURED MINE
—NOT A PROSPECT—

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company have worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 5 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions, the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—13 carloads or 1,300 tons—every ton of which went over 40.6 per cent copper, $5.00 in gold, and $30 in silver; and comes out above the 100 foot level. Can make no estimate on this property; they have 3 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. Seventy-five probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 250 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.

Agent Wanted. P. O. Box 621, Salt Lake City, Utah

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this. No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

WOOD

POINT ST. CHARLES

has installed a wood cutting and splitting machine, and is prepared to furnish Hard and Soft Wood, cut and split any length or size.

THE FRENCH IN CANADA

A French writer, Andre Siegfried, has recently written an exceedingly interesting book on Canada and its two races. It is M. Siegfried's opinion that there is no class of men more loyal to the British Empire than the French inhabitants of the Dominion, but this loyalty is maintained side by side with the rigid maintenance of a policy to continue at all hazards the use of the French language, to prevent marriage between the French and the English, and as far as possible to interdict social intercourse between these two races. The clerical hierarchy, which is the dominant power among the French inhabitants of the Dominion, is strenuously loyal to England and the British interests, because it realizes that it would be impossible for it to enjoy under any other form of government in the world the prestige and power that is accorded to it by the connection subsisting between Canada and England. The French inhabitants have no desire to strengthen the connection that binds them with the mother country through so-called imperialism, neither have they any wish to weaken that connection. They simply wish to remain as they are.

Do you want a Golden Message from the Sunshine District of Colorado. See last page.

Train Hold-Up in Illinoise Foiled

Peoria, Ills., Sept. 16.—Four masked men attempted to hold up a south-bound passenger train on the Rock Island Railroad two miles north of here late last night. Conductor Robert Murray disarmed one of the men after being struck on the head, and the robbers fled. There were 100 persons on the train.

The robbers placed railroad ties on the track and brought the train to a standstill. At the point of revolvers, they ordered the engineer and fireman to remain on the locomotive, and then ran to the front end of the smoking car. Conductor Robert Murray met them at the door. One of the bandits pointed a revolver at his face, but Murray struck the weapon, knocking it from the man's hands.

Murray was struck over the wrist and the head with a club, but the robbers became alarmed at the unexpected resistance, and fled. The passengers were not molested.

The train came on to Peoria and reported the affair.

Piles positively cured with Dr. Leop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Itching, painful, protruding or blind piles, disappear like magic. Sold by J. D. Tully.

The School Question Settled for Ever

New York, Sept. 16.—Monsignor Donato Sbarretti, apostolic delegate to Canada, sailed yesterday for Rome on the North German Lloyd steamer Kronprinz Louise. He has been the guest of the Jesuit Fathers in West Sixteenth street for several days.

The apostolic delegate has not been in Rome since the Pope has been elected, and although he goes chiefly to get his respects to Pius X. congratulations on the recent struggle for papal triumph, which was largely a triumph for himself personally and officially, it is hinted that he is to be promoted.

Whether this promotion will take the form of a more important diplomatic mission or his appointment to the sacred college of cardinals is not known. It is certain, however, that he has just now, after the triumph on the Canadian school question, a particular favorite at the Vatican.

Monsignor Sbarretti said through his secretary, the Rev. Dr. Alfred Sutton, that now the Canadian school question was settled he did not think it would be of any good to discuss it. It would do no good and the church in Canada was satisfied that it had won what it contended for in the new provinces of the Dominion.

He said he believed the separate schools would be a blessing for all denominations and that he did not expect the subject would be brought up again.

Gold and Silver Now Assured

Mine With Millions of Dollars Now in Sight.

When one considers investing in mining stocks the first thing to take under thorough judgment and investigation is whether the particular mine has really got the ore alleged and next whether those in charge of the operations are responsible and reliable men.

The Golden Message mine, acknowledged to be one of the very richest ever exploited in the gold producing State of Colorado, is now about to be worked to its fullest capacity. One of the richest strikes ever made in this western mining country is that of the Golden Message Mining Co., their telluride ore being probably the richest ever uncovered in Colorado. There is not only quality in the ore, but quantity almost unlimited. This company owns ten claims at Sunshine, the richest section of Boulder Country, and will undoubtedly result in making fortunes for those sagacious and lucky enough to purchase stock at the right time, which is before prices raise.

The Golden Message is not a mere promising prospect, but is a proven mine of extraordinary wealth. The Addison claim has been opened for over 100 feet and a vein 4 feet wide disclosed, which at a depth of 90 feet proves to have richer ore the lower the workmen go. The St. Louis claim is over 10 feet wide and is parallel to the Addison. To successfully and economically work this mine the company, which is incorporated for one million five hundred shares, of a par value of $1 each, is now, for a limited time only, selling stock at 25 cents per share, which will soon be raised to 50 cents. Here is a golden opportunity to get in on the ground floor and assure a comfortable income for life by a small investment. For full particulars write L. E. Eubanks, Secretary Treasurer, Golden Message Mining Co., Rooms 1 and 1, Rogers Block, Boulder, Colo.

Drowning Season Lessons.

The drowning season is now in full swing. In every paper one picks up, can be found pitiful stories of accidents to pleasure-seekers. Boys go out in sailing boats; they have not the slightest knowledge of the art of sailing. Many of them cannot swim. Of course, in case of an accident few of them manage to come home alive. There is one lesson to be learned,—don't go sailing until you can sail a boat. Even if you can sail a boat, it is reckless unless you can swim. Very often, of course, an athlete who can swim perfectly well is taken with cramps and loses his life, as really as if he had no knowledge of the art of swimming whatever.

A sad accident happened recently when young Twombly of a very well known Boston family, lost his life in New York, says The Montreal Standard, in illustration of the question discussed. His elders had done their full duty to him, for he was both an athlete and a good swimmer. But even good swimmers should not presume upon their knowledge. It is said that he had a cramp. Death from cramps very often means death from heart disease, or death from going into deadly peril in over-confidence.

There are several great truths to be remembered at this season of the year, and here are some of them: Learn to swim, teach your children to swim; and above all, teach them caution in taking chances with any of the forces of nature. Be bold, boys, but not too bold.

About Caterpillars.

Do any of the youngsters ever wonder why caterpillars have such a funny name? If they do, they decide, no doubt, that it has something to do with cats; and almost certainly they are right. The common explanation of "caterpillar" is that it is the old French "Chatepelose," which means literally "hairy cat," and is very like our "woolly bear." The last two syllables suggested the English "piller," a plunderer, and "caterpiller" was the regular spelling until the seventeenth century. Dr. Murray's Dictionary suggests that the word may have come straight from "cat" and "piller." It is noteworthy that a Lombard word for a caterpillar is "gatta" (cat), and a Swiss word "teufelskatz" (devil's cat), while a "catkin" is the vegetable imitation of the caterpillar.

An Every-Day Lesson.

"To thine own self be true." If the street-car conductor overlooks you hand him your nickel. If the grocery man undercharges you, call his attention to the fact. A feeling of strict honor and honesty is better than any amount of cash. If you know yourself to be a gentleman you can carry yourself as such and you can prove yourself to be such to your neighbors. If to your own self you are true you "cannot then be false to any man."

Good Blood

Good blood, good health; bad blood, bad health; there you have it. Why not help nature just a little and change the bad to the good? Bad blood to good blood; poor blood to rich blood! Ask your doctor how this applies to Ayer's Sarsaparilla, and how it applies to you! Could anything be more fair?

We have no secrets. Write the Doctor. J. C. Ayer Co., the Chemists of the Laboratory, Lowell, Mass.

HAVERGAL COLLEGE

TORONTO

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First Class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, L.L.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything must be donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. DOCTET.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Remember Mercury, Iodide Potash and Hot Springs will only suppress the symptoms—our NEW METHOD positively cures the blood diseases forever.

YOUNG OR MIDDLE AGED MEN—Nervousness, Lost Manhood, Varicocele, Errors have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,
Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

Seeing this, the man within dashed open the door on his side, sprang from the carriage, knocked down the post-boy who stood in his way, and struck straight across the heath, disappearing in a thicket a few hundred yards off.

Rose, left alone in the carriage, struggled to disembarrass herself of the heavy folds of the cloak that had been thrown over her head. She had just succeeded in freeing herself when she heard some one approach the window, and a rich, manly voice say:

"You are perfectly safe now, dear madame. Compose yourself, and in a few moments we shall offer you the rest and refreshment you so much need."

"The Duke of Bereseleigh!" exclaimed Lady Etheridge, in glad surprise, as she turned toward the window at which he stood.

"Yes, Lady Etheridge," he replied, entering the cab.

"Oh, Heaven be praised! What an escape I have had! But oh, what fortunate circumstance was it that sent you to my aid? It seems wonderful."

"No; it is very natural, my dear Lady Etheridge. An attack like that made upon your carriage could not for an hour remain a secret. A few minutes after your coach had been stopped and robbed, and you had been carried off, and your servants left gagged and bound upon the highway, they were found by some countrymen returning home from a frolic. As soon as they were set at liberty, they related all the particulars of the robbery and abduction. They were taken to the Magpie. Information was given to the authorities, and the whole constabulary force of the neighborhood was raised for the apprehension of the ruffians. A man, mounted on a swift horse, brought the intelligence to Bereseleigh about midnight. I ordered post horses, and taking an officer with me, started at once for the Magpie Inn, which seemed to be the centre of the investigation. I need not say that I was on my way thither when I met the cab that was hearing you away. And now, Lady Etheridge, pray excuse me a few moments. The principal miscreant has fled, but I must see to the security of the cabman, who, if he is not an accomplice, will be useful as a witness."

Then, with a bow, the duke left the cab and beckoned the officer, who now approached, with the cabman in custody.

The prisoner looked excessively frightened, and, without waiting to be questioned, began his defense:

"Please, your lordship, I was not I' fau't. The gent as hengaged my cab tole me 'ow 'e 'ad a crazy 'oman to carry hoff to the mad-'ouse, and 'ow 'e wanted to take 'er away in the night, to save exposing of 'er infirmities; and when 'e brought 'er and pat 'er hinto the carriage I and no suspicions; and when she growed violent I thought 'ow it was natural, seeing she was mad, and I agreed to hall else said, and tried to soothe 'er down like—didn't I now, my lady?" he concluded, appealing lugubriously to Lady Etheridge.

"I think it is very likely that he speaks the truth," said her ladyship.

"I trust that you will prove to have been a dupe rather than an accomplice. Did you know the person who engaged you in this nefarious business?" inquired the duke.

"Never set heyes on 'im before, your grace."

"Did not the fact of his being masked excite your suspicions as to the propriety of his actions?"

"No, your lordship's grace; because 'e said 'ow 'e wore the mask on account of the mad lady, 'o could not a bear the sight of 'im, though 'e was 'er brother, which we know as mad folks hoffen take a misliking agin their friends."

"Was he masked when he came to you to engage the cab?"

"No, your grace's lordship—I beg pardon—I mean your lordship's grace, 'e didn't no mask hon when 'e hengaged me."

"What sort of a looking man was he, then?"

"A tall, stoutish, fair-complected man, with light hair and whiskers; a sweet-spoken gent, with most the beautifullest smile as never I see; a gent as no one would think any hill on. 'E spoke as would 'ave made the tears run down your lordship's grace's cheek hof 'is pore mad sister. 'Ow could I know 'e was deceiving hof me, and a leading hof me hasting?"

Further questioning on the part of the duke led to no further information, and his grace said:

"You will have to go with us, and be examined by a magistrate, who is now at the Magpie, collecting evidence. Resume your seat on the box, and drive as quickly as possible to the Magpie Inn."

The man bowed, and went to obey, when the officer respectfully touching his hat, said:

"I beg your grace's pardon, but I think I can identify the man of whom the cabman speaks as a desperate person, of whom the constables have long been in search."

"You think so, from such a very general description as that of 'a tall, stoutish, light-complected gent?' Why, there are ten thousand men in London to suit that description. It might be you, for instance."

"Yes, your grace, that general description might suit, as you say, ten thousand men in town; but the particular description, 'a gent with very light hair and whiskers, a sweet spoken gent, with the most beautifullest smile as never I see,' and the rest of it taken together, could suit only Roberts," said the officer, respectfully.

"And, who is Roberts?"

"Your grace never heard of him by that name, but your grace will know him better as——" the officer stooped and whispered a name, at which the cheek of the duke grew pale with horror.

"No, it cannot be! has he ventured back?"

"Yes, your grace, he has been seen."

The Duke of Bereseleigh seemed so painfully interested as almost to have forgotten that Lady Etheridge was half fainting from need of food and rest, but suddenly arousing himself, he re-entered the cab, and gave the order to drive on.

A half hour's rapid drive brought them to the Magpie, where a group of idlers, brought together by the news of the robbery and abduction, were collected.

The Duke of Bereseleigh handed Lady Etheridge out and hurried her at once into the best parlor, where he placed her in charge of the landlady. The duke then returned to the room, where the magistrate was waiting, and where the cabman was already brought before him to give in his testimony. The man could only repeat what he had already told the duke; after which his words had been duly taken down in writing, he was set at liberty.

Meanwhile, Lady Etheridge having partaken of a slight repast and reposed herself upon a couch for half an hour, arose and gave audience to the Duke of Bereseleigh and the magistrate, who waited on her there, to receive her statement.

When she had circumstantially detailed all that had happened to her, the magistrate expressed his astonishment at events so much more complicated than had been suspected.

That the pretended deliverers were in league with the first assailants could not be doubted. But what the motive of the masked man could have been in carrying her off from the house in the wood could not be surmised.

The magistrate, having collected all the evidence possible from all the parties, took leave and withdrew.

Post horses were ordered, and Lady Etheridge, accompanied by the Duke of Bereseleigh, and attended by her servant, returned to London.

They reached Bereseleigh House at nightfall.

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

8% PREFERRED STOCK

16% ON THE PRICE GIVEN BELOW

50,000 SHARES OF PREFERRED STOCK

Cumulative from Date of Issue

of the BI-METALLIC TUNNEL AND MINING CO., of Silver Plume, Col., are now offered at 50 cents per share (par value, $1.00) for the purpose of developing its property. This will give an income of 16 per cent. on the amount invested from the date of purchase out of the first dividends declared and before the owner of the property can receive any income from his common stock. Work is now being done and it is expected to strike pay ore soon.

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 2,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel, when finished, will cut at a thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or recessions, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Investors Beware

of investing before investigating. THE GREAT WESTERN OIL, REFINERY & PIPE LINE CO., of Erie, Kansas, courts investigation, and we are anxious to get in touch with investors who are willing to be convinced.

The Company owns 81 acres of proven oil and gas land at the junction of two railroads, with side tracks to both. The Company owns without debt a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete, modern independent Refinery west of the Mississippi River. The Company owns its own gas wells (8 in number), which furnish fuel for the entire plant and is sufficient for a 5,000 barrel capacity, which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered to the public for subscription.

The Company owns leases on hundreds of acres of oil lands, with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different States, and the laws passed to protect the independent refinery against unfair competition, makes an investment in this Company one which is sure to bring large returns. In proof of this statement, will say that the Company one day recently shipped 21 car load lots of refined oil and by-products and on another day received orders for 42 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of the same, we can fill your order at

25 Cents Per Share

cash or installment, until said option is all sold out, which should be within a very short time.

We would suggest that you write us immediately for free particulars, copies of letters from bankers, etc., which will be sent free. We will also send you a copy of our book "Oil & Gold" if you wish it. This book gives history and statistics of the prominent Oil fields and Gold districts of the United States. Address

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $60,000.00; $36,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

Lincoln Mining and Milling Association,

Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 600,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 70 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

INDUSTRIAL AND MINING STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

ASK FOR THE

ALES AND PORTER

— OF —

THE DOMINION BREWERS COMPANY, LIMITED

They are finest and purest in the market
The WHITE LABEL BRAND is a specialty
To be had at all first class deals

Not a Prophecy--but a Certainty

THAT THE

Golden Message

IS JUST OPENING UP A PROPOSITION THAT WILL PRODUCE MILLIONS OF

GOLD AND SILVER

Over a million in sight and ore growing richer and larger. The mine is only in its infancy.	Our claims a e patented and in no way incumbered. TELURIUM. SYLVANITE, FREE GOLD decidedly in excess.	The great ore is being blocked out for hoisting and treating. A cyanide proposition.

If you want to buy a [illegible] stock that is backed by an excellent property, good management, and everything else that goes to make up a first-class money-making gold mining proposition, we invite your attention to the Golden Message Mining Company absolutely the best investment offered in this country today. You have probably made investments in the past on mere prospects only, where you were promised everything and received nothing. All we promise you is the fairest and squarest deal you ever had, and an investigation will prove to you that we state nothing but the absolute facts. Authorities agree that the telluride ore uncovered by the Golden Message Mining Company is [illegible] of the very richest ever discovered in the State of Colorado. The ore is not only rich, but the quantity is there. This company owns ten claims at Sunshine, the richest section of Boulder County, and promises to be the most talked about section in the mining world as a result of this recent strike.

When you buy this stock you are not buying cheap stock in a prospect. The ore shoot opened in the "Addison" claim for over 150 feet in four feet wide; a winze is sunk over 20 feet, showing richer ore as it goes down, and will continue to a depth of at least 500 feet. The ore shoot in the "St. Louis" is fully ten feet wide and parallels the "Addison." The length of these shoots has not been ascertained, there being a stronger showing of ore in breast of each drift as it is pushed forward.

We propose to equip this great property with a hoisting plant and a cyanide mill to economically handle the output right at the mines. Tests of the ore will be made and all possible precautions taken to secure the best machinery for properly treating the ore.

This company is incorporated for 1,500,000 shares of a par value of $1.00 each. If you want in while you can get stock below par, let us hear from you at once, for when the plant goes up the price will go with it, as we have over a million dollars' worth of ore ready to take out just as soon as we can erect a mill to treat it.

L. E. EUBANKS, Secretary-Treasurer,
The Golden Message Mining Company, Boulder, Colo.

Please send me full particulars regarding an investment in the stock of the Golden Message Mining Company. I am interested in your recent strike and desire further information.

Mr. John Storey Passes Away

Yesterday, Mr. J. A. Storey, of this city received word yesterday that his uncle, Mr. John Storey, of Port Hope, had passed away in Toronto, at the home of Mrs. Robert Little, his daughter.

The late Mr. Storey was about 77 years of age and was born in Newmarket. He was a successful farmer in Emily township and about twenty-eight years ago removed, with his family to Hamilton township, where he resided for some ten years. Since removing in 1903 to Port Hope. He left for Toronto recently on a visit to his daughter and while there passed away.

The late Mr. Storey was a Conservative in politics and a prominent member of the Methodist church. He leaves one son, Mr. James H. Storey, of Port Hope, and two daughters, Mrs. Robert Little, of Toronto, and Miss Mary Ann Storey, of Port Hope, with whom he resided.

The funeral will take place tomorrow afternoon. Interment will be made in Britannia cemetery, Derry West, where his wife and a daughter of the deceased are buried.

Mr. J. A. Storey, and his brother, Mr. Evans Storey, of Emily township, will attend the funeral of their uncle.

Miss M. McCarthy's Chef D'oeuvre

A picture, or rather portraits, artistically done in oils, and displaying the work of a master hand now hangs in the T.A.S. rooms on George street.

This picture, painted by Miss Minnie McCarthy, of this city, a daughter of Mrs. McCarthy, librarian of the T.A.S., presents in life-like manner the well-known and generally beloved features of Rev. Dr. O'Brien.

Miss McCarthy, although only a girl of some eighteen years of age, has already displayed a comprehensive grasp of the painters' art and will undoubtedly, before long make an enviable name for herself in the artistic world. The portrait of Rev. Dr. O'Brien displays a rare technique and mastery over the mystery of placing in proper combination, color, shading and expression, the facsimile of the rev. gentleman being almost startling in its likeness.

Miss McCarthy, in addition to her clever work in portraiture, has displayed a remarkable skill in other lines of painting, and numerous chef d'oeuvres of her brush can be seen at the T.A.S. rooms. Of late she has been receiving lessons in Toronto from the leading portrait painter of Canada.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R. "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Robt. S. Lewis, Pass'enger Agent, 10 King street east, Toronto.

Bishop O'Connor Home Wednesday.

Although expected sooner, owing to unavoidable circumstances, his Lordship Bishop O'Connor who, as before noted, is absent on his annual tour of inspection of the parishes in the diocese is expected home--on Wednesday of this week.

LOCAL INCIDENTS

By The Times Man on the Street

—County Council holds a special meeting on Friday.

—Book covers free to school children at Times Bookstore. Call today.

—The 57th Reg. Band had a practice last night in their rooms.

—The Salvation Army is [illegible] in quick time.

—The B.Y.P.U. of Murray street Baptist church met last night.

—Dunsmore, C.O.F. No. 80, met last night in their hall Simcoe street.

—The Y.P.S. of St. Andrew's church held its regular meeting last night.

—A present with every twenty-five cents purchase of school books at Times Bookstore.

—The [illegible] prayer service of Murray street Baptist church will be held on Wednesday evening.

—The Grand Railway Company is making [illegible] Park with those between Charlotte and King streets.

—The [illegible] of St. Andrew's church was held yesterday evening.

—See the fresh window display for bargains in fancy china suitable for wedding presents. Times Bookstore.

—The Y.M.C.A. orchestra will hold its first rehearsal of the season on Tuesday evening at 8 o'clock in the parlors.

—The 57th Reg. Band will meet Jackson Park tonight and again on Thursday night. This latter will end the season.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—At meeting of St. Paul's Young Men's Guild will be held this evening. Officers will be elected and other important work transacted.

—Messrs. R. Foster & Son, the local expressmen, yesterday had a Bell Telephone Co. desk instrument placed in their Charlotte street office.

—Does not the Ontario Government's action in forbidding cookmakers operating at fall fairs look as though our law makers advocated "race suicide."

—The 57th Regiment Band has been engaged to provide music on the second day of the Industrial Exhibition which will be held in Peterborough on Tuesday and Wednesday, Sept. 25th and 26th.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. It contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike peroxlatum. It soothes, heals, purifies, controls. Call at our store for free trial box. J.D. Tully.

—It takes the Lindsay police force five days to locate a stolen horse, concerning which they have due notice at once and right in their town, how long would it take a Lindsay cop to discover the whereabouts of a fire-grey block carried away and hidden on their wharff?

County Council in Special Session

That the energetic members of our local County Council are always active in the interests of their constituents and fellow citizens is an acknowledged fact, and is again proven by the fact that another meeting of that body will be held on Friday next, September 21st, to consider applications for the position of superintendent and matron of the new house of refuge, at Lakefield. It is expected that the appointments will be made without any difficulty, as there are several well qualified persons applying for the positions.

Murray Street Church Notes.

In preparation for the Great Baptist convention to be held next month, a meeting of the general committee in charge of arrangements will be held in Murray street Baptist church.

On Saturday afternoon a children's service will be held at three o'clock, with the pastor, Rev. F. J. Scott in charge. The service is for children between the ages of seven and seventeen.

Next Sunday will be rally day in the Murray street Sunday school. The services will be of a most interesting nature and will be in charge of Rev. Mr. Scott.

Port Hope Lady Badly Hurt.

The Port Hope Guide says: Mrs Butterfield, of Port Hope, met with an unfortunate and painful accident on Wednesday. She was in the cellar at the time, and in some unknown manner fell, striking the back of her head on the floor with great force. A large cut was inflicted, and her shoulder was badly bruised. Although suffering much pain at present, she is doing as well as can be expected especially when it is considered that she has reached the advanced age of ninety-one years.

Rev. Father Murphy Left Yesterday.

Rev. Father Murphy, a former resident of this city, who preached at two masses in St. Peter's cathedral on Sunday morning, and delivered most eloquent and impressive sermons, returned yesterday morning to his home in Dallas, Texas. The rev. father received a most cordial welcome from his many former friends during his visit here.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 10c. and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr Pierce's Golden Medical Discovery will be mailed *free* to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either, This fact puts it in a *class all by itself*, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowles and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

SOCIAL AND PERSONAL

—Mr. Frank White left yesterday for Parry Sound.

—Mr. R. L. McGill, Toronto, is a guest at the Oriental.

—Mr. F Lynn Wixon, Ingersoll, was in the city yesterday on business.

—Mr. J. W. Latimer, Peterborough, was in town yesterday on business.—Lindsay Post.

—John Doran, a former Guelph hotel keeper, died Sunday in St. Joseph's Hospital.

—Mr. H. B. Kenny, Fenelon Falls, was in the city yesterday a guest at the Snowden House.

—Mr. Thos. Carson has returned home after spending a couple of week's vacation in Toronto.

—Mr. G. Bedford and daughter, Campbellford, were registered at the Snowden House yesterday.

—Mr. Wm. Manning of Sackville street, Toronto, is the guest of his uncle, Mr. Geo. Manning, 625 Water street.

—Mr. Fred Wyatt, foreman of the Times, Vancouver, B.C. is visiting his brother, Mr. Joseph Wyatt, tailor, East Ward.

—Master Aubrey Darcy, of Burleigh Falls, is visiting his uncle and aunt, Mr. and Mrs. Fred Darcy, George street.

—Miss Adamson, violin soloist, of Toronto, arrived in the city yesterday and commenced her duties at the Conservatory of Music.

—Mr. and Mrs. C. L. Wethey, of Toronto, passed through the city yesterday on their way to Wellock's, where they will spend a few days.

—Dr. McKercher leaves this morning on a three weeks' vacation to Toronto and Petrolea, his home. The doctor will also spend some time at the Springs at Mount Clemens.

—Mr. C. Foster Orr of the Toronto Mail & Empire, was a guest at the White House. Mr. Orr is here to boom the circulation of the great Conservative organ, and reports much success.

—Lindsay Post says: Mr. W. A. Burnham, of Peterborough, transacted business in town today.—Messrs. D. W. Carlon and F. Sheehan, of Peterborough, were guests at the Simpson House yesterday.

—Yesterday Toronto was well represented at the Oriental, their being registered from that city the following: Messrs. R. Matthews, J. Munro, R. L. McGill, F. Floyd, R. R. Sanderson, H. G. McCutcheon, W. J. Greenshield, Chas. F. Prescott, A. J. Waite, G. E. Sells, E. J. Phillips, Mr. and Mrs. H. L. Wething, H. Josses, Geo. A. Stone, J. E. Dueodles and others.

Do You Seek Health?

Consult Dr. Hamilton And You Will Be Shown the Way.

Thousands are in the same boat—all sickly, bilious and feeling far from well.

Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness arrives you should cleanse and purify the system with Dr. Hamilton's Pills.

At once you'll feel their mighty influence building up weak spots, clearing out disease, and putting you again on your feet.

These purely vegetable pills change your tired, worn-out condition to one of health and vigor, because they supply the body with nourishing blood that builds up and enlivens the entire system.

Mr. John Whitley, of Stanwood, P.O., Ont., knows the merit of Dr. Hamilton's Pills, and says: "I wouldn't be alive today had it not been for Dr. Hamilton's Pills. Last winter I was sick with grippe, and when spring came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times, but I didn't get any help till I tried Dr. Hamilton's Pills. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my appetite. The bilious attacks and rheumatic pains gradually departed, and Dr. Hamilton's Pills made a new man of me. I proved their merit, and proclaim them a medicine for all men."

If better health and prompt recovery are important, get Dr. Hamilton's Pills of Mandrake and Butternut today. At all dealers, 25c per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

POLICE NEWS

Daily Happenings in Court Room and Station.

Mr. S. R. Armstrong, J.P., yesterday wielded the broken pointed sword of justice and with it lopped off $7 for the city treasury. The $7 was made up of $5 paid by a local mechanic, with a military past, for a "Sunday" drunk and $2 contributed by George Trotter for the same offence. The $5 discrimination in George's favor was that his was only an ordinary week-day jag which, whilst costing as much to acquire, came cheaper in the police court. Each delinquent was allowed ten days in which to gather up the simoleons.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 221 PETERBOROUGH, ONTARIO, WEDNESDAY, SEPTEMBER 19, 1906. PRICE TWO CENTS

C.P.R. STEAMER BRINGS BIG CARGO OF MAIL

Empress of India Does Her Share Toward Drawing London and Hong Kong Closer--- A Record Broken.

Vancouver, B.C., Sept. 19. — Our from Hong Kong, through the China Sea and the Straits of Formosa to the Chinese port of Woosung, and and across the Yellow Sea and the inland waters of Japan to Japanese ports, the C.P.R steamship Empress of India steamed across the Pacific to Victoria and Vancouver, where at six o'clock yesterday evening she was docked.

After an hour's delay in transferring the mails and passengers, the C.P.R. overseas mail special left on its run across the continent.

So finished the first gap in the westbound run under the new mail contract, which brings London and Hong Kong within thirty days of each other.

The Empress of India left Hong Kong at four p.m. on the 30th of August, and after waits of seven hours at Woosung, 24 hours at Nagasaki, two hours at Kobe, and about ten hours at Yokohama, she left for the West, which is so readily becoming merged into the East.

The time the Empress made across the Pacific, including stoppage, was 18 days and 10 hours, which also includes the day gained on the westbound passage.

The Empress of India made a splendid trip, notwithstanding that she encountered a couple of days of foul weather, which detained her so that she practically lost a night in making Victoria, and, consequently, was deprived of the advantages of an early quarantine. Otherwise she would have reached Vancouver promptly on time.

The call at Victoria was brief, thirty-five minutes only, and an hour after reaching Vancouver the overseas mail train of the C.P.R. started out through the Canadian Rockies, carrying the China mail across the continent, which is scheduled to reach Quebec next Friday afternoon at four o'clock, where the Empress of Britain is awaiting to take the last part of the mail-way around the globe run to Liverpool.

The Empress of India establishes a record between Hong Kong and Vancouver which, however, might have been cut down by herself at least 24 hours under other circumstances.

But in this long run, half-way around the globe, the C.P.R. Company, had made these allowances which will enable the "overseas mail" to steam into Quebec in plenty of time for the Empress of Britain to start out for the Old Country as scheduled.

The Empress of India brought over 59 first saloon, 33 second and 106 third, of whom 265 are Hindus.

There were 541 bags of mail, of which 238 were for Victoria and United States points south, 65 for Vancouver, and 238 for Europe.

Charter Given to P. Rolling Mills

A notice appears in the Ontario Gazette that their charter has been issued to the Peterborough Steel Rolling Mills. The provisional directors are as follows: Austin Dunn, Martin Connors, Robert Munro, and Robert Henry Jackson, Hotel Keepers; William Rudkins, Collector of Inland Revenue, Martin Augustine McNamara, Contractor; Robert Hamilton Fortye, Factory Manager; Francis John Jameson, Printing House Manager; William Ferguson, Hardware Merchant; Robert Stuart, Foreman; William Henry Hill, Insurance Agent; Frederick Lockhart Robinson, Liveryman, Alexander Elliott, Wholesale Merchant, all of the City of Peterborough.

URGE REPRISALS

Germany Should Retaliate if Preference is Granted Britain.

London, September 19. — Wilgerman newspapers reproduce an article from the Deutsche Volkswertschaftliche Korrespondenz, urging the Imperial Government to adopt reprisals against the Australian Government if it attempts to give a preference to English imports. Next to Britain, the Korrespondenz affirms, Germany is Australia's best customer, and claims that Germany should be treated on terms of equality with every other country.

Objects to Carts on Pavements

(To the Editor of The Times.)

Dear Sir,—Knowing that your paper always kindly opens its columns to those who have a grievance affecting the public, I venture to ask a few lines space for what may seem a small matter, but which is a growing and already public nuisance. I refer to the way in which boys with noisy hand propelled "express" carts seem to consider the pavements of our city as their play ground. Not a day goes by but what one or more boys are loudly in evidence coasting down the pavements of George St., seated on a loudly squeaking and louder rattling express cart which they partly propel by one leg, and partly by the pitch of the street. These carts, which make noise enough to make nervous persons sick, are driven in a manner that pedestrians are compelled to fly to let the boys go by. Yesterday, at the corner of Brock and George streets, a boy sitting on one of these carts, going on the pavement down grade south, was by assistance of an outstretched leg causing those walking to jump in order to save a collision. A little to the south of the Commercial Hotel the cart and boy ran into a old gentleman walking southward, knocking the old man over, and inflicting severe bruises.

The police should do one of two things either compel these carts, used for delivery purposes, either to keep to the road, as is compulsory in all other cities, or make those boys in charge of such vehicles draw them by the handle instead of coasting along careless as to the safety or comfort of passersby. If there is no by-law forbidding the use of our pavements for delivery carts, some such regulation should be passed.

Yours truly,
PEDESTRIAN.

Labor Required For the Dominion

6,273 Men Women, and Children are Needed in This Country.

London, September 18.—The Canadian Manufacturers' Association of Toronto have issued a statement here as to the labor requirements of the Dominion.

There are wanted:

Men	1,391
Women	1,251
Boys	405
Girls	1,185
Total	6,273

They are wanted for the following classes of work:

Agricultural implements, boots and shoes, brewery, brooms and brushes, canning, carriage building, clothing-making, blacksmiths, boiler machinery, general machinery, molding, stone-molding, tool-making, general iron and steel work, jewelry and silver work, tanning, harness-making, cabinet makers, pork packing, lithographing and engraving, tobacco and cigar making, woodware, and carpets.

Burkes' Peerage and the Hotel Clerk

New York, Sept. 18.—Whether they have been the victims of a joker or whether the shade of one of the British nobility really came to New York is something the members of the office staff of the Hotel Manhattan are trying to determine.

When a party of distinguished looking Englishmen came to the hotel on Thursday for a brief rest before continuing their journey to Canada one member of the party who was more distinguished looking than the other attracted the attention of the chief clerk, who asked a friend who had traveled whom the fine appearing gentleman was.

"Why, don't you know him?" asked the friend with evident surprise. "That is the Duke of Buckingham. Just passing through the city on the way to Montreal. Fine example of true British aristocracy, isn't he?"

Later in the day the man who collects names of the hotel arrivals was told by the young man behind the desk at the Manhattan about the Duke's short stay, and the nobleman's name went down on the news collector's list.

It was not until yesterday that somebody to whom the hotel clerk mentioned that the Duke of Buckingham had honored the hostelry with his presence remarked that the visit of the Duke of Buckingham certainly made one lose faith in the accuracy of Burke's Peerage. That authoritative volume states that the dukedom of Buckingham and Chandos became extinct March 20, 1889, on the death of Richard Plantagenet-Campbell Temple-nugent-Nugent Brydges-Chandos-Grenville, who departed this life without leaving male issue.

Mutiny on American Cruiser.

Norfolk, Va., September 19. — With the departure of the United States cruiser Cleveland from the navy yard Saturday afternoon, the story of mutinous conduct on the part of a number of her crew became public. A number of the crew objected to discipline of a master-at-arms and gave him an unmerciful beating. It is said the man was sent to the naval hospital here for treatment.

Miss Loveday's Body is Found

Mr. Owen, of Canadian Barnardo Homes Passes Through the City.

Mr. Owens, of Toronto, chief officer in charge of the Barnardo Homes in Canada, passed through the city on his way to Ottawa to assist Miss Pearce in her search for trace of the secretary of the Home, Miss Loveday, whose death by the Gilmour Hotel fire is now practically admitted. Mr. Owens arrived on the C.P.R. local, remaining over until the midnight train.

Mr. Owens was very deeply touched by the sad news which was given him at "Hazel Brae," concerning Miss Loveday, and he reluctantly admitted that there now seemed little or no doubt but the unfortunate lady has perished in the flames.

Several telegrams have been received from Miss Pearce, but they threw no new light on the situation.

It appears that the movements of Miss Loveday have been traced up to about 8.30 the night of the fire. She arrived at Ottawa between five and six o'clock, and went direct to the Gilmour, where the day clerk remembers seeing her register. She was well known by sight to the clerks at the hotel.

After her baggage had been sent to her room, No. 50, Miss Loveday left the hotel to make one or two calls in the city. First she called upon a Mrs. Pereira, and afterwards a Mrs. Watson, at the latter place stating that she thought she would take a car out to Hintonburg, where she wanted to see one of the home girls, Mrs. Watson, however, advised her not to go that night, as it would be late when she returned.

It has been ascertained since, that she did not go to Hintonburg, but the clerk at the Gilmour does not remember seeing her return to the hotel, as it was crowded with Fair visitors, and she would have no occasion to visit the office, since she had already registered. The chances seem to be that she returned to the hotel and retired early.

For the present Miss Harris, who has been Miss Loveday's assistant for the last four years, will take up the latter's work.

A despatch received from Ottawa yesterday, says that, after an exhaustive search, workmen yesterday morning found the remains of a body in the Gilmour Hotel ruins. It was only a stump about two feet one, terribly charred and whether that of a man or woman is not known yet.

It was picked up near the spot over which Miss Loveday's room, next to Miss O'Neill's, was situated, and it is thought to be the remains of either of these two ladies.

The work of searching for bodies of those who perished was in progress all day yesterday. No body recovered. A later despatch says is in all probability that of the lamented Peterborough lady. The burns and heads were gone, but the location of the trunk, is almost sure proof of its identity. The remains were taken to Roger's morgue on Bank street, where two others were taken yesterday.

SAVED BY A MIRACLE

Young Woman in New York Bay Had a Remarkable Escape From Drowning.

New York, Sept. 18.—Miss Fannie Day, a young department store employe of this city, who was one of a party of eight persons upset from a naphtha launch in the lower bay early Saturday, had the most remarkable escape from death by drowning that any human being probably had ever experienced.

Three of her companions were swept to the bottom when the launch, with disabled engines, was crased into by a mud scow.

Miss Day had gone down, with the rest, and upon nothing being seen of her for hours afterward it was reported she had met death with the others.

But when the mud scow had been towed to its destination and the deck hands were adjusting the dumping apparatus at the bottom, they were startled almost out of their senses to find a handsomely dressed young woman in one of the pockets.

By one of those miracles which seem to guard some lives, Miss Day had been literally scooped out of the water by the dumping machinery which had been left open after the scow had discharged its last load at sea.

Rapid Work by Rapid Tool Co.

The New Building, and Improvements on the Old Being Pushed Ahead.

Yesterday a Times representative dropped into the premises of the Rapid Tool Co. East Ward. It is generally known that this company has secured the brick building, immediately across Hunter street east from the McAllister flour mills. The Tool Company, however, now has a staff of men placing an additional structure to the south of the former Ultimator building, the former being 75 and 50 feet in size.

Extensive alterations are also in progress in the old building. As one enters from Hunter street, they first enter the commodious offices of the new company; next comes the large packing room to the south of which is the polishing room, where the finishing touches will be given the unique "brits" made by the company. Down stairs, one first encounters the fitting up department to the north and to the south is the machine and die room.

To the south of the former Ultimator building there is rapidly being constructed the new premises, 75x40 feet as before noted. This building, of which the concrete foundations and piers are already laid, and the outside uprights placed, will for the present be of wooden construction, but of massive build. This will contain the forge room, tempering room and boiler room. The whole establishment will be run by electric power, but a large boiler is being installed for heating purposes.

It is of interest to note that, at present the main work of this recent addition to Peterborough's many factories, will be concentrated on the production of auger and other bits of a unique kind. The bits to be made running from three-six eighth of an inch upwards in size, will be the only ones of their kind made on this continent. The difference between the future Peterborough made bits and those of general use is that the former are adapted to boring holes in wood concurrently with the grain of such wood. Other bits when used in such work do not run straight or bore a clean straight hole. The boring end of the ordinary auger, for other bits is simply one sharp point leading to a single thread; so the bit to be made by the Rapid Tool Co., for boring and has really three points, a center point with two side points, each leading to a double thread which clears the way for the following larger twist.

The new factory will be run under superintendence of Mr. F. J. Creedon, a practical and skilled mechanic who formerly held a responsible position with the Irwin Auger Bit Co., a concern which annually turns out over one million bits.

Yesterday, Messrs. Jas. Davidson, W. Rudkins, W. J. Ferguson and other officers and directors of the company were over in the East Ward and inspected, with most satisfactory results, the progress being made in the improvements and building going on.

ALL EFFORTS FAILED

Son of President of Milwaukee Road Did Everything to Save Victim of Auto Accident.

Chicago, Sept. 18.—A despatch to the Tribune from Harland says: While George Earlinger, son of the president of the Milwaukee Road was driving his automobile on Sunday, he collided with Alfred Overland, a passing bicyclist.

The latter was thrown, picked up unconscious by Mr. Earlinger, and was rushed to a hotel in Mr. Earlinger's automobile, and a physician summoned.

The doctor found the man's skull fractured at the base of the brain.

A little later A. J. Earlinger, president of the Milwaukee Road, arrived at the hotel, and ordered every possible effort to save the man's life.

He ordered a special train from Milwaukee carrying Dr. Horace Manchester Brown to the stricken man's aid. It was all in vain, however, for Overman died yesterday.

His body will be sent to his former home in Ohio.

THREE RUNAWAYS

Got Mixed up in the Roadway, Placing Milk Dealer in Perilous Position.

London, Sept. 18.—Mr. Thomas Beattie, milk dealer, London township, was in a perilous predicament for a few minutes Saturday.

A passing fiend frightened several horses that had been left untied on King street, and they bolted.

Mr. Beattie jumped into the roadway and stopped one runaway. Just then another bolted, and the wheels of the two rigs were locked.

Mr. Beattie held on, and was dragged all over the road, when a third runaway became mixed up with the other two, Mr. Beattie lying in the center.

Finally the band stopped playing, and half a dozen men went to Mr. Beattie's assistance, and with much difficulty rescued him from his dangerous position.

WANTED TO KEEP THE BABY

Bride Found Child in Central Park, but Police Took Charge.

New York, Sept. 18.—Mrs. Annie Jahn, of Brockton, Mass., who is spending her honeymoon in this city, went for a walk with her husband in Central Park last night, and found a baby girl, two weeks old, lying on the steps in Belvidere Ramble. The infant was handsomely clothed.

Mrs Jahn fondled the baby for awhile and then took it to Policeman Kelly, of the Central Park police station.

"I wish I could keep that little angel," said the young woman, but Kelly told her he had no authority to allow her to take the child. It was taken to Bellevue hospital.

Movement of Grain is Heavy.

Winnipeg, September 19.—Good progress is being made at threshing throughout the West, and the movement of grain now is heavy. The receipts of wheat to date at different points is about 600,000,000 bushels.

ADVERTISE IN THE TIMES.

FOOTNOTE MAY NOT BE DISCUSSED AT MEETING

General Methodist Conference May Avoid the Debate on Amusements---The Temperance People Will Have to be More Liberal.

Montreal, Sept. 19.—The present Methodist General Conference will probably be unique in that there will be practically no discussion of the famous footnote about amusements. It is one of the questions which will probably be allowed to stand over in view of the projected union of the denominations. Besides there is great indecision on the question, which leads the members generally to welcome any reasonable excuse for delay.

"It is not a burning question," said a prominent member yesterday. "A couple of memorials are before the Discipline Committee, but have not yet been discussed. I would not be surprised, if it did not come before the conference at all."

"I am sorry that it is there," said a prominent clergyman, in referring to the footnote. "I am in a quandary. I don't want the footnote here, but to take it away would seem like letting down the bars and favoring those amusements. Therefore, I have time and again voted in favor of retention, which I really regret that the footnote is in existence."

A PROHIBITION PARTY.

The committee of the Methodist General Conference on Temperance, Prohibition, and Social Reform this morning discussed the question of a third political party in the Dominion Parliament. After considerable discussion the matter was referred back to the sub-committee.

Mayor Bell of Enderby urged that the time for activity by the temperance workers was at the nomination so they might have some voice in choosing the candidates instead of having to choose between two evils at election day. That would mean sending more men to convention, and thus more liberal subscriptions. The temperance people would have to learn to be more liberal.

CHURCH UNION REPORT.

The Church Union Committee yesterday morning re-drafted their report, so as to read that if the negotiations for union with the Anglican and Baptist churches be not readily acted on, the original negotiations with the Presbyterian and Congregational churches could be continued.

A MINORITY REPORT.

The committee of the superannuation complied its report yesterday. It is in favor of a schedule of graded annuities. A minority report in favor of an actuarial basis.

The Publishing Committee informally discussed the project of publishing a history of Methodism in Canada.

A SPECIAL COMMISSION.

Montreal, Sept. 19.—The question of theatres, cards, and dancing, oft discussed by the Methodist General Conference, is this year likely to be referred to a special commission, with instructions to report it at next General Conference, four years hence. Thus it is hoped by the committee in charge of same to obviate general discussion of the vexed questions at the present session, but this rests ultimately with the conference. At all events, there is little likelihood of the Church rules on the subject being amended at present.

Expects 100,000 Visitors in Toronto Today

Toronto, Sept. 19.—General M. A. Raney, the head of Oddfellowship militant, was interviewed at headquarters, Camp Wright, last evening.

"Our camp here is excellent in every particular," he said. "Over 2,800 chevaliers have already reported, and we expect many more. The accommodation provided is excellent."

"How many visiting Oddfellows do you expect for the week?" the General was asked.

"Between 35,000 and 45,000," was the prompt response. "Our record attendance was over 80,000 in Indianapolis in 1901.

"It is interesting to note that of the cannons that competed here yesterday afternoon, Toledo won the prize last year as Philadelphia, and Washington won in the two previous years in Baltimore and San Francisco."

STRICTLY MILITARY.

"The camp here is run on a strict military basis," commented Brigadier-General Adrian Hughes, of Baltimore, on the staff of the general commanding. "Taps are sounded each night at ten o'clock.

"Wednesday, with its great parade," he continued, "will see 100,000 visitors in Toronto for the day, several special trains have been arranged for.

"Let me add this on behalf of the staff. We are simply delighted with our entertainment. Canada, Ontario, and Toronto, are doing even more than we expected. We anticipated a good time, but the good people are surpassing our highest expectations."

COMPLETE AMBULANCE CORPS.

In connection with the militant camp an admirable and completely equipped ambulance corps is in operation. This is under the direction of Lieut.-Col. F. W. Plummer, M.D., with Dr. McGorisou as assistant. They conduct a perfectly equipped dispensary and hospital at the Rossin House, and their corps includes two graduated physicians and fifteen men, not including stretcher-bearers. These are uniformed in white, with the sign of the red cross. The hospital corps comes from the New England States, and has been much complimented. It is in the jurisdiction of General Bliss.

Hotelmen Fenced in Their Property

Tara, Sept. 19.—Last week Provincial Inspector Ayearst, for local option municipalities, arrived in Tara and proceeded to overhaul the hotels, securing liquor to the value of about $70.

In the police court Friday, both hotelkeepers pleaded guilty, and were fined $50 and costs each, and the liquor was destroyed.

On Saturday the hotelmen fenced in their property, and will not accommodate the travelling public in any way.

The temperance people held a meeting last night to arrange for taking care of travelers until such time as the hotelkeepers are ready to open their houses.

Find Princess Was Seaworthy

West Selkirk, Sept. 19.—At one p.m. yesterday the coroner's jury investigating the wreck of the steamer Princess on August 30, when five persons perished, returned this verdict:

"That the steamer was seaworthy, and it is our opinion that the said steamer foundered by springing a leak caused by striking on rocks when coming out of Poplar Point, or by working in the heavy seas which she encountered. The jury is also of the opinion that she struck a rock which she foundered, and that the steamer Princess was under-manned, being deficient of a second engineer.

"This jury recommends that all steamers be fully manned before leaving port; that the Dominion Government should appoint a thoroughly reliable man to inspect hulls apart from the machinery, and that more care should be taken in granting master and mate papers."

LIKE CANADA BANK SYSTEM

More Bouquets Come This Way from Chicago Papers.

Montreal, September 17.—The collapse of the Milwaukee Avenue Bank in Chicago is causing a great deal of discussion at present, and some comparisons between the American and Canadian banking systems. It is urged by many that the present Government inspection is not enough. The Record-Herald of Chicago admires the branch bank system of Canada. It says: "For relief, people denounce the wrongdoers, criticise the laws, and attack the administration of the laws. But swindling will not be prevented in the future by the denunciation, and the legal problems that are presented are puzzling. In a case of the sort there is, however, a suggestion that banking would be safer if it were more of a monopoly than it now is. Small, outlying institutions are valuable as a convenience, but they would offer far greater security and protection if they were managed from the large banking houses. In travelling about a Canadian city the American is struck by the number of branch banks that he sees. They are parts of splendid financial institutions that command universal confidence. They serve the purposes both of convenience and security, and they must be of great benefit to the people."

Popular Medical Fallacies.

"Popular Medical Fallacies," by Dr. Leonard Keene Hirshberg, of Johns Hopkins University, published in The American Magazine for October, corrects a number of untruths that many of us believe about sickness and cures. Dr. Hirshberg discusses boils, flaxseed poultices, sage and other old time teas, porous plasters, liver pads, liniments, bone-bleed, bad air, malaria, and so on. He concludes with a statement on. He concludes with a statement that medicine is destroying these delusions that fresh is bad to, and that the physicians are growing saner.

Indian and Squaw Were Drowned.

St. John, N.B., September 19.—Joseph Gabriel, a Milicent Indian, and his wife Mary, were drowned in the St. John River. With Joseph Sacobi, they left St. Mary's in a canoe to paddle some miles down the river; but their canoe capsized. Gabriel and his squaw sank without a struggle, but Sacobi climbed on the canoe, and, with his hands as paddles, reached shore.

A Bonifide and Gilt Edge Investment
In a MATURED MINE
NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.50 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—17 carloads or 1,300 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $150 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 8 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 35a Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.
United States Internal Revenue Collector, CAPT. GEO. H. WHEELOCK, Vice President.

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. All other you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting, medicine ever discovered.

No more spells of tiredness, but bounding, kingly health when you take Ferrozone, of which Mrs H S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, SEPTEMBER 19 1906

CANADIAN IMPERIALISTS

Hon. Frank Oliver, Minister of the Interior, in an interview said to a London newspaper representative: "We are all Imperialists in Canada." Mr Oliver meant by this, doubtless, that Canadians as a whole are very ardent in their sympathy for all things British. They prefer British connection to annexation to the United States. They like to see the Mother Country go ahead. They do not like to hear of any possible falling [illegible] commercial or manufacturing race in her competition with either the United States, or Germany, or with any other country. They want to see British prestige as great as ever, and British power grow in the world. Canadians are imperialists in this sense. They are proud of being a part of the empire, and they would like to see the empire grow still greater. To this end they are in favor of any beneficial steps that may be taken in the way of promoting trade within the empire. But while this is all true they are not of the class of swaggering imperialists who want to make the empire big so that they may overcrow everybody else. It is an empire great in peace and loving peace they admire, yet they also would have her strong in war when war is necessary to her defence. But there is no toadyism in Canada. No Canadian thinks so meanly of his own land as to put it second to any other on earth. He regards it as a son might who has achieved an estate which he esteems as highly as the paternal acres.

WHAT'S IN A NAME

There may be little in a name from the standpoint of Romeo and Juliet, but there may be a great deal when it comes down to geography. For instance, people talk of the Canadian North-West and the North-West Provinces, when in point of fact they mean Alberta and Saskatchewan, which are not and never were, in any sense of the word, North-West Canada. The real North-West is the Yukon. The true West of Canada is British Columbia. It is really time for a change in this respect for the present nomenclature is misleading. Nothing can be very much more absurd than for a British Columbian to say that he is going to the North-West when he means that he is going to a region hundreds of miles east. Everyone who has occasion to write much about the three provinces lying between the Rockies and the Great Lakes must have felt the embarrassment arising from the lack of a correct term to embrace the three of them. We speak of the Maritime Provinces, meaning thereby Nova Scotia, New Brunswick and Prince Edward Island. They are not maritime any more than British Columbia is; but they are in point of fact maritime, and the name was given to them before Confederation, so it may as well remain. There is rarely any need of grouping Ontario and Quebec in description, hence no need is felt of a special term applicable to both. But everyone feels the need of an expression that will describe Manitoba, Saskatchewan and Alberta without doing violence to the facts of geography. "The Middle West" has been suggested, but this is objectionable because it has already been appropriated by the United States to describe the country in the northern part of the Mississippi basin. Then, in point of fact, it is not the Middle West. Manitoba is really the middle province of the West, but of the whole Dominion. If we could say "Middle Canada" would serve very well, but would be misleading geographically speaking. Suppose we decide to say Middle Canada. That is what we do. Then we have a group of western Canada everyone would know as meaning the provinces of Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island, which would include all Canada east of Manitoba. Then we would have a group of western Canada which would mean the real West, namely British Columbia and the Yukon. The term "North-West" might be allowed to fall into disuse. It is not a very good name anyway, for it suggests remoteness and cold weather.

RICH MINING DISTRICT

The Chloride Gold Mining Company's Splendid Holdings

The A-B tunnel at the Samoa group of mines is now in over 300 feet, and it is estimated that it will reach the big Lucky Boy ledge in about 60 days. This piece of work is being watched with more interest than has ever been manifested in the mining developments of Mohave County, and rightly so, because it is proving that mining ores in this section is not a speculation and that money honestly and wisely spent will bring in large and quick returns. The first vein cut by the A-B tunnel shows values of over $[illegible] per ton. Shipments of ore from vein No. 2 in carload lots bring from $40.00 to $172.00 per ton, while assays on some of the ore run as high as $2,000.00. The ore in vein No. 3 assays over $30.00 per ton, but no drifting has yet been done. Vein No. 4 is a blind vein and has all the characteristics of the other veins, which are gold bearing true fissures, the ore in this vein assays over $60.00 per ton.

All the veins of the Samoa group run parallel with each other and follow the general course of the main mountain range, they strike for long distances and recent development proves that their treasure vaults or ore chutes extend to great depth. Their positions are nearly vertical and the ores can be easily and economically extracted.

Vein No. 5, of the Lucky Boy ledge, is opened up [illegible] feet in depth, at point where the A-B tunnel will cut it. Shipments of ore from that point have averaged over $70.00 per ton for three years and it is safe to say that the ore will run equally as well in the 1,500 feet that runs through the Samoa ground, as all indications are better than indications were 2,000 feet to the north.

This group of mines are owned by the Chloride Gold Mining Co., but veins Nos. 1, 3, 4 and 5 are leased to the A-B Gold Mining Co. This company has installed a large air and power plant and is using two large Ingersoll-Sargent air rock drills in the tunnel here. Vein No. 2 is being operated by the Chloride Gold Mining Co., and returns from ore taken from their vein is netting them over $240.00 per day.

The A-B tunnel commences at a point [illegible] feet above the level of the valley or 6,000 feet above sea level, and the A-B Co. is now contemplating driving another tunnel 500 feet below the present one or at a point 1,500 feet above the valley where the town of Chloride is [illegible]. The proposed tunnel will cut some of the veins at a depth of over 1,000 feet below the surface outcrops.

The gold bearing veins around Chloride offer to the mining man many advantages, as most of the veins can be prospected and developed by tunnels, which is, of course, the cheapest possible way of working mining properties. The mines here have an outlet to four or five of the large smelting plants, consequently a ready market is found for their ores. This, perhaps, as much as anything else, accounts for the activity in and around Chloride.

The smelter at Needles, Calif., 40 miles distant, is getting more ore for treatment than they can handle, and there is considerable talk among mining men of Mohave County of building a smelter at or near Chloride. A smelter at Chloride will mean much to the mines of the entire county, as they can then pay out in dividends what they are now paying for freight on their ores.

The New Dreadnought.

London, September 18.—The Dreadnought has gone into commission eleven months after her keel plates were laid. As she is a mammoth high-speed battleship of 14,000 tons, with turbine engines and novel armament, and with terrific concentration of gun power, this is a record achievement in shipbuilding. Her length is 520 feet; beam, 83 feet; draught (mean) 26 1-2 feet; armor belt, 11 inches; speed, 21 knots, armament, ten 12-inch guns and twenty-seven 12-pounders. Eight of the 12-inch guns can fire on the broadside, six ahead and six astern.

If You Suffer with Rheumatism

Dr. Shoop's Rheumatic Remedy Will Bring the Utmost Relief that Medicine Can.

The one remedy which many physicians rely upon to free the system of the Rheumatic Poisons which are the cause of all Rheumatism, Lumbago, Sciatica, Gout, is Dr. SHOOP'S RHEUMATIC REMEDY. Dr. Shoop spent twenty years in experimenting before he discovered the combined chemicals which made possible this almost always certain cure for Rheumatism, viz.: Not that Dr. SHOOP'S RHEUMATIC REMEDY can cure lame joints into flesh again—that is impossible. But it will drive from the blood the poisons which caused the pain and swelling. And then that is the end of the pain and swelling—the end of the suffering—the end of Rheumatism. This remedy never fails where a cure is possible. It is now put up in tablet or liquid form—ask for either. You who have suffered and are suffering today from pains and aches which you know to be Rheumatism; you who experience lameness or twinges of pain in damp weather; you who easily become stiff and lame with the slightest cause—just try DR. SHOOP'S RHEUMATIC CURE. It is just the kind of speedy help accomplishes results. Sold and recommended by

J. D. TULLY.

Half-Sick

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is not just the medicine you need.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

HAVERGAL COLLEGE

TORONTO

Reopens September 18th, 1906

PRINCIPAL—MISS KNOX.

First-class Honour University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, L.L.A., St Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Bowan Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfill all expectations if given ample time for completion.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment. Now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Bowles of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN—Imprudence at an early or later age years have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 150 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found.—Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

Lady Etheridge at once retired to bed to seek the uninterrupted rest she so much required. And the duke related to his mother all the particulars of the abduction and the rescue.

Feeling sure that Rose would require repose for many days, the duchess addressed a respectful letter to the queen, explaining the cause that inevitably delayed the honor Lady Etheridge desired of immediately waiting upon her majesty.

CHAPTER XXI.

Lady Etheridge remained quietly at home for a few days, neither making nor receiving visits.

Since the night of the abduction and rescue, no further intelligence had been gained of the perpetrators of the violence.

The Duke of Beresleigh's manner to Lady Etheridge was now so full of reverential tenderness that her ladyship was not surprised, when, seated in her boudoir one morning, she was interrupted by the entrance of her maid, with the words:

"My lady, his grace, the duke, sends his respects, and desires to know if your ladyship is disengaged and will receive him?"

"Certainly, show his grace in," replied Lady Etheridge, laying aside her book, and beginning to tremble with instinctive apprehension of the scene that was coming.

The duke entered. Lady Etheridge rose to receive him, pointed to a chair, and resumed her own seat.

"I hope I find you quite recovered from the effects of your late agitation?" said the duke, as he seated himself near her.

"Quite, I thank you. No effect remains but the pleasant one of a lively gratitude to my preserver," replied Rose, in a low voice.

"There was nothing to be grateful for. Would, indeed, that I could be as happy as to merit your—I dare not say gratitude, but—favor." He paused, in that embarrassment that must always attend the avowal of a deep love.

"I feel that I have much, very much, to be grateful for to all your grace's family, who were very kind to me while yet my prospects were very questionable. And as for the events of that fearful night, though they shook me so much, I would go through all that agony of terror again for the compensation it has brought me in the returning kindness of dear friends," said Rose, in a voice revibrating with her soul's deep emotion, and with her blue eyes full of tears.

Her words, her looks her tones, betraying the profound love of her own pure heart, thrilled him to the very depths of his soul. He could have thrown himself at her feet and covered her hands with passionate kisses; and though he restrained himself, his whole frame shook, and his voice trembled with the curbed passion of his soul, as he took her hand, and said:

"Lady Etheridge, you grievously misunderstand me if you suppose that since those days of our first acquaintance at Beresleigh Court my heart has changed, except in loving you more and more deeply day by day, Rose, dear Rose! I was a poor man, with only a barren title and a debt encumbered property to offer you. You were an inexperienced country girl, scarcely conscious of your advantages as the heiress of one of the oldest baronies and largest fortunes in England. I knew that were you once introduced into society, your beauty, rank and wealth would afford you the widest field of choice among the most distinguished suitors, who would be sure to lay their titles and their fortunes at your feet. You had no worldly father or managing mother to warn you of these things. Should I, then, take advantage of your isolation and inexperience to thrust myself between you and your most brilliant prospects? No, Rose, no. I saw you launched upon the sea of fashion, saw you greeted by the most illustrious personages in the kingdom, and with a heart waiting for your love, I kept aloof, for, Rose, I loved you so truly that I was willing to sacrifice my own happiness to your welfare, and [illegible] necessary, [illegible] from your emotion, and [illegible] her eyes full of tears, fal[illegible] for the words.

"[illegible] was generous, very noble, but if you had had more simple faith in a woman's heart, you would have saved us both some months of misunderstanding and pain."

"Nay, sweet one, had I prematurely thrust myself upon your favor, should have reproached myself for such egotistical precipitancy, and perhaps been haunted by the thought that I had intervened between you and a more brilliant destiny. But now that I have observed you through the season, and seen you discourage the advances of those whom the dowagers call 'the most desirable parties in town,' now Rose, I venture, with a free conscience, to lay my poor strawberry leaves at your feet."

For all answer, Rose silently placed her hand in his. He pressed that fair little hand to his lips, saying:

"And now, dear Rose, I will seek my mother and make her happy by sending her to embrace her daughter-in-law."

"No, not yet," murmured Rose, in a faint voice.

"Not yet, my love; what means my Rose?"

"I have shown you my heart, you know that it is all your own, and since that knowledge makes you happier, I do not regret that you possess it, but—"

She paused in the most painful embarrassment.

"But what, sweet Rose?"

"You do not know upon what an obscure brow it is that you offer to place the ducal coronet of Beresleigh."

"I do not understand you, dear Rose."

"Oh," she broke forth, vehemently, "I would the play were over!"

Her lover looked at her with a painful perplexity. She went on:

"The world calls me Lady Etheridge of Swinburne, but I am no more Baroness Etheridge than I am the Empress Catharine of Russia."

"O, dear Rose!"

"I am not; I feel that I am not."

"But the House of Lords——"

"Has made a mistake; not for the [illegible] time the highest tribunal in the [illegible] has done so."

"[illegible], the crown of evidence that would establish your rights was [illegible] to the satisfaction of [illegible] representative of the old [illegible] have you then, to [illegible] that a mistake has been made?"

"No material reason, perhaps, but a deep-seated original conviction that all [illegible] glory of mine is a mere [illegible] pageant. I am but a poor little [illegible] in the plumage of a glorious parrot, or a poor deer in the skin of a [illegible]; or a little player baroness who must sustain her part as well as she can until the play is done, and then sink into her real insignificance. But oh, what a heavy payment fate may exact for this masquerade with which she is amusing me. I can fancy how the world that offers me nothing but adulation now, will then follow my vanishing form with laughter and scorning. Some, I know, would pity the poor girl who had been made so great a fool of by fortune."

"Oh, Rose, could it be as your morbid imagination forbodes, could you be deprived of all the advantageous tributes of rank and wealth, believe it, to me you would ever be the same—ever the dearest treasure of my life," said the duke, earnestly.

"It will be as I said. I shall be plucked of all my borrowed plumage; stripped of all my false splendor; I shall be again the poor little Rose of former days, only a little wiser and sadder for my experience of these. I deem it necessary to tell you of this strong cou-

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST

HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces (except 8 and 26), not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15.0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $300 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorised publication of this advertisement will not be paid for.

GET IN ON GROUND FLOOR

Treasury Stock, Non-Assessable, for Limited Time Only at $1.00 per Share, on Easy Terms, in the

Loon Creek Mining and Investment Co.

We have all the requisites for successful mining. We have the ore, we have good roads, and our Directorate contains the best known men of the State. Our property is endorsed by the State Mine Inspector, and is in the same district as the rich "LOST PACKER" Mine.

8% PREFERRED STOCK

AT PAR MEANS

16% ON THE PRICE GIVEN BELOW

50,000 SHARES OF PREFERRED STOCK

Cumulative from Date of Issue

of the BI-METALLIC TUNNEL AND MINING CO., of Silver Plume, Col., are now offered at 50 cents per share (par value, $1.00) for the purpose of developing the property. This will give an income of 16 per cent. on the amount invested from the date of purchase out of the first dividends declared and before the owners of the property can receive any income from his common stock. Work is now being done and it is expected to strike pay ore soon.

CAPITAL STOCK, $1,000,000

500,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 3,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.50 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depths, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $185,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Investors Beware

of investing before investigating. THE GREAT WESTERN OIL REFINERY & PIPE LINE CO., of Erie, Kansas, courts investigation, and we are anxious to get in touch with investors who are willing to be convinced.

The Company owns 51 acres of proven oil and gas land at the junction of two railroads, with side tracks to both. The Company owns without debt a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete, modern independent Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number), which furnish fuel for the entire plant and is sufficient for a 5,000 barrel capacity, which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered to the public for subscription.

The Company owns leases on hdreds of acres of oil lands, with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different States, and the laws passed to protect the independent refiners against unfair competition, makes an investment in this Company one which is sure to bring large returns. In proof of this statement, will say that the Company one day recently shipped 21 car load lots of refined oil and by-products and on another day received orders for 43 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of the same, we can fill your order at

25 Cents Per Share

cash or installment, until said option is all sold out, which should be within a very short time.

We would suggest that you write us immediately for free particulars, copies of letters from bankers, etc., which will be sent free. We will also send you a copy of our book "Oil & Gold" if you wish it. This book gives history and statistics of the prominent Oil fields and Gold districts of the United States. Address

WANTED - A Few First Class Agents

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 600,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

Look For Blood Humors

They Crop Out Constantly, Showing the System Needs Purifying.

You're not satisfied with your looks. How can you be with such disfiguring pimples, such rough uneven skin?

Blood is full of humors and it's no wonder you look and feel poorly.

You are languid,
Appetite is miserable,
Sleep is hard to get,
Energy and vim are lacking.

High time to improve matters—but what's the proper remedy?

Experience proves that Dr. Hamilton's give instant effect. They tone the entire system, fortify the blood and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable extracts such as Mandrake and Butternut, and can be taken by young or old with absolute safety.

"I learnt something very valuable after using Dr. Hamilton's Pills," writes Miss Effie Thomson, of Meriden. "I used to have ugly pimples that much embarrassed me. The tonic and purifying effect of Dr. Hamilton's Pills completely restored me. My health is splendid and my complexion a great credit to this marvelous medicine."

Let your medicine be Dr. Hamilton's Pills. They do cure so thoroughly. Sold by all dealers. 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

LOCAL INCIDENTS

By The Times Man on the Street

—No police court yesterday.

—The Jewish New Year begins today.

—Thursday, October 18th, will be Thanksgiving Day.

—Book covers free to school children at Times Bookstore. Call today.

—St. Andrew's church weekly prayer meeting will be resumed this evening.

—A purse was picked up on the street yesterday. Owner can get it by proving property.

—A present with every twenty-five cent purchase of school books at Times Bookstore.

—The Young Men's Guild of St. Paul's and St. Luke's churches met last evening.

—See the south window display for bargains in fancy china suitable for wedding presents. Times Bookstore.

—The regular meeting of Companion Circle, Queen Alexandra, A.O.F., will be held in the O.E. hall this evening.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—The Young Men's Guild of St. Andrew's church met yesterday evening for the purpose of resuming work for the season. President F. Kerr occupied the chair.

—The Gull River Lumber Company have recently purchased the Ralphun Timber Limits in the Townships of Sherbourne and Stanhope, comprising over seventy square miles.

—It now transpires that Mr. John Storey, of Avonmore, whose death was chronicled in yesterday's issue, died of blood poisoning, the result of having a tooth drawn a few days before his death.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

LAKEFIELD FAIR

The dates of the Smith, Ennismore & Lakefield Agricultural Society's annual exhibition have been changed to Thursday and Friday, Sept. 27-28, to avoid conflict with Peterborough's dates.

This year the Fair will be held in the new grounds of the society a block west of the Presbyterian church in Lakefield. Prize lists, etc., can be obtained from W. Sherin, secretary, Lakefield, Ont.

CHEESE BOARD MEET

The Matter of Cooling Rooms to be Considered Today.

The Peterborough Cheese Board meets today and it is expected that there will be a large boarding. The registration of cheese today will likely be 400 or 500 boxes less than on the last sale day. The make is keeping up splendidly, compared with that of last year at this season.

In all probability a number of cool curing rooms will be established in the Peterborough district next spring. The plan that will probably be adopted is to have each factory have a cool-curing room of its own. It has been demonstrated at Brockville that the operations of cool curing rooms returns a handsome profit. The loss from shrinkage is greatly lessened by cool curing, and further, the cool cured cheese is beginning to bring higher prices than that cured in the ordinary way. The quality of the article is also considerably improved.

Football at the Local Fall Fair

Secretary Hall has received word from Lakehurst that the village will send a football team here to challenge for the R. R. Hall trophy. The games will be played at the Peterborough Industrial Exhibition. It is quite likely that four teams will be out for the cup this year. The Dominion Construction Company, the Quakers, Lakehurst and probably Bridgenorth, the last named team has not yet notified the secretary. These teams should provide excellent sport for the fair, and if all four are entered, there will have to be games both days.

F. A. Clarke Gets Good Assistant.

Mr. F. A. Clarke the enterprising George street furrier, has been fortunate enough to secure the services of Mr Wilmot Millner, of Brampton. Mr. Millner comes highly recommended, having been engaged in several of the largest retail fur stores in Canada as well as in one of the most important wholesale establishments.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 15c. and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

—Mr. Herring, inspector for the North American Life Insurance Co., was in the city yesterday calling on Mr. G. B. Stoneman, the company's district manager for Peterborough.

—The following deaf mutes of this city, Gerald O'Brien, Walter Charlebois, Winnifred Kennedy, Violet Lawson, Lila Lawson and Marion Harper, will leave for the Belleville Institute for Deaf and Dumb this morning.

Old Traveller on Last Visit

Mr. John Munro, After 18 Years on the Road Going Into Private Business.

The many friends and customers in this city of Mr. John Munro, of Toronto, who for the past eighteen years has regularly visited Peterborough, as millinery traveller for Messrs. John McCall & Co., and who was in the city yesterday, will be surprised to learn that this is his last business call here.

Mr. Munro has decided to enter private business, having bought a retail business on College street, Toronto. Mr. Munro has made a great many friends in this city during the many years that he has visited here, and they will join in wishing him success.

NEW COLL. INST. TEACHER

Miss Bauer of Goderich Now on Local Staff.

Owing in part upon an advertisement inserted by the Board of Education for another teacher, on the local Collegiate Institute staff, Miss Bauer, now connected with the Goderich Collegiate Institute, has been appointed a member of the teaching staff and will commence her duties in a couple of weeks. It will be remembered that when the local Collegiate opened on September 1st, it was found that another teacher would have to be secured, owing to the large increase of students. Notice has been received that Miss Bauer has accepted the position and has resigned from the Goderich Institute. Miss Bauer's home is in Hamilton and she comes highly recommended.

Miss Bauer will teach junior English, junior history, junior mathematics and several other subjects.

Church Parade by Diamond Lodge L.O.L.

Diamond L.O.L., No. 80, during their semi-monthly meeting with Worshipful Master Hartley in charge, decided to hold a church parade on November 4th, the committee and place to be chosen at the next meeting.

Notice of important business was given for next meeting, and the members are to be notified by mail.

The usual routine business was run off. Rev. A. H. Brace addressed the meeting and delivered the closing lecture.

The visiting brethren present were Bro. Hamilton, Nassau Lodge; Bro. Ritchie, Downer's Corners; Bro. Johnston, Toronto.

Will This City Get Rolling Mills?

It now seems as though Niagara Falls, Ont., is making a strong fight to get the Peterborough Steel Rolling Mills to locate there. The information comes from a director of the company, who says that Niagara Falls was not the only place which will contest with Peterborough for this industry. The inducements offered at Niagara Falls, include free sites, cheap power, etc., and the director said, were of a tempting nature.

Of course the result of the bylaw to be voted on, on Oct. 2nd, will materially decide who her Peterborough gets this important industry or not.

Work Done on New Establishment.

Yesterday plate glass mirrors were inserted in Mr. Peppas' new store, the former Palace Restaurant. This splendid new establishment will soon be ready for occupancy, and will be one of the handsomest on George street. From the tile flooring to a height of about four feet will be handsome natural birch panelled woodwork. Above this to a height of some eight feet, the walls will be surrounded entirely by plate glass mirrors reaching to a wooden frame work. Above this entirely round the store will be plate glass mirrors placed at an angle from the metal ceiling. This will give a most beautiful effect. The upper row of mirrors, those placed at an angle were yesterday placed by Mr. Barry, the carpenter in charge of this renovation.

MADE FROM NATIVE ROOTS.
SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines put up for sale through druggists for women's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

T. V. C. Navigation Company's Changes

Important Changes Made in Schedule Time of Above Line.

The Times yesterday was acquainted with the fact that an important change had been made in the schedule of the Trent Valley Navigation company's steamers.

The change is as follows, viz., that the steamer Empress, will give a single daily service from the 17th to the 19th instant, leaving Lakefield after arrival of morning train from Peterborough, returning to connect with the 4.40 train for Peterborough. After the 19th inst. notice is given that this steamer will discontinue her trips for this season.

Mr. Harry Blade Now a Benedict

The Smith's Falls Rideau Record has the following reference to Mr. Harry Blade, son of Mr. Arthur Blade, of this city: "Mr. Harry Blade, the representative for this district of the C.B.C. Corset Company, Toronto, and his bride, have taken up their residence at the Arlington. Mrs. Blade was formerly Mrs. Tucker, wife of the late J. A. Tucker, B.A., one of the best known of the young Canadian journalists, whose clever writings under the pen-name of "Lance," will be well remembered by all readers of Saturday Night. She is a daughter of Mr. W. J. Graham, collector of Inland Revenue at Owen Sound. The young couple were united in marriage at the home of the bride's brother, Mr. W. A. Graham, of Bloomfield, on Monday, September 3, by the Rev. Mr. Houck. Mr. and Mrs. Blade took a brief wedding trip, and on Saturday they arrived here and will make their home in town this winter.

State of Ohio, City of Toledo, } ss.
Lucas County. }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal.] A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Local Musician Helping Lindsay.

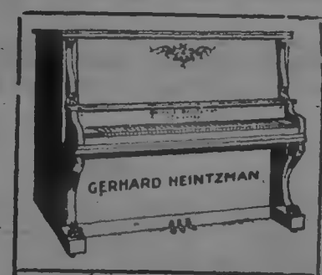
Mr. Greig, of this city, left yesterday evening for Lindsay, where he will join the Lindsay band and proceed with them to Toronto, to play at the big gathering of Oddfellows. He will return to Peterborough on Friday. Mr. Greig is a cornetist of much ability and will materially strengthen the Sylvester band for their Toronto engagement.

Presbytery Meets Next at Hastings.

The next quarterly meeting of the Peterborough Presbytery will be held in the Presbyterian church, Hastings, on Tuesday, October 2nd. Considerable business of an important character will come up at the session. It is learned that Rev. A. Bright, assistant preacher of St. Paul's and Knox churches, will be given ordination by the Presbytery.

Fun on the Y. W. C. A. Green.

A merry scene was that enacted on the Y.W.C.A. green yesterday evening, when the young women rooming there had a game of cross-tag. What with the laughter, yelling and understanding displayed by the accomplished young ladies the scene was one to impress itself on the minds of all observers.



Gerhard Heintzman PIANO

That beautiful mellow-resonant tone so like the cultured human voice, is frequently referred to by piano experts as the **Gerhard Heintzman Tone.**

A sensitively responsive touch, substantial construction and durability are also characteristic of the celebrated Gerhard Heintzman Piano.

Other Instruments taken in exchange and easy payment plan for those desiring it. Address the Manufacturers direct.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

PETITION FOR AN EIGHT FOOT CANAL CHANNEL

Local Board of Trade Requests the Minister of Railways and Canals for a Deepened Trent Valley Canal Throughout its Length.

Mr R R. Hall, the energetic member for West Peterborough, has taked the local Board of Trade, and his request has been adopted as shown below, to require Hon. Mr. Emmerson, Minister of Railways and Canals, to maintain an eight-foot continuous channel throughout the Trent Valley Canal. The local Board has submitted the following petition, viz.:

Honorable H. R. Emmerson, Minister of Railways and Canals, Ottawa, Ont.,

The petition of the Board of Trade of the City of Peterborough, humbly sheweth as follows:

1. That it is the settled policy of the Government of the Dominion of Canada to complete the construction of the Trent waterway between Georgian Bay and Lake Ontario so as to afford suitable transportation facilities as well in the interests of the Dominion of Canada as a whole, as in the interests of a large section of the Province of Ontario tributary to such waterway.

2. That the Transportation Commission, appointed by the Dominion Government has expressed the opinion in its report that one of the Canadian routes which should be taken and considered as one of the main Canadian routes by which the products of the West will reach ocean navigation is via Midland and the Trent waterway.

3. That the present completed portion of the Trent waterway between Lake Simcoe and Healey's Falls has been of incalculable benefit to every municipality tributary to such waterway and to the residents thereof in affording cheap transportation which will be many times increased when the whole system is completed.

4. That it has been amply demonstrated for upwards of at least two years that there is in fact an abundant supply of water throughout the entire season of navigation to maintaining under intelligent management a sufficiently high level of water in the lakes and rivers and in the reaches of the canal to provide for at least an eight-foot waterway when all necessary provisions are made and there is ample opportunity to further increase and maintain continuously such level by conserving the waters in the upper lakes tributary to Trent waterway.

5. That from information derived from actual surveys it has been ascertained that there is at least 636 square miles of surface area on the lakes in the Trent waterway basin which comprises upwards of 5,000 square miles.

6. That this Board is of the opinion that at a small cost inexpensive dams might be built at the mouths of the several lakes tributary to such waterway for the purpose of conserving the water in order to provide an abundant supply of water to cope with any possible dry season.

7. That in the opinion of this Board it is important that the reasonably high level of water which has been maintained in the several lakes, rivers and reaches of the canal during this past two years should be maintained in the future and if possible increased, in as much as it increased the safety, efficiency and economy of vessels operating on the canal.

8. That this Board is of the opinion that it would be cheaper to acquire the right to flood certain lands on the margin of the lakes and elsewhere than to expend the necessary amount of money to obtain a uniform channel of eight feet in depth by incurring more extraordinary cost in dredging at certain points on the line of the said waterway.

WHEREFORE your petitioners humbly pray that such steps may be taken by the Government of the Dominion of Canada as may be necessary to maintain such level of water in lakes, rivers and reaches of the canal as will maintain a continuous eight-foot channel of eight feet in depth throughout the entire season of navigation.

AND YOUR petitioners as in duty bound will ever pray.

A Times Letter Brings Results

To demonstrate in a small way the "Power of the Press," it might be noted that in Tuesday's issue of The Times, appeared a letter calling attention to the nuisance caused by boys coasting on noisy express waggons along the pavements on George street. Yesterday morning as a direct result of this letter, before nine o'clock, P. C. Newhall had warned three different boys he found with express carts on the pavements that should he or any other of he force catch them doing this again, they would at once be taken to the police station. There is a city bylaw restricting the pavements for pedestrians. This enforcement of the bylaw will save many a lady's dress from being spoiled and more people's nerves from being "knocked silly."

Local Medico Now in Grenada

Dr. E. Hatton an Old Peterboro' Boy Gives Interesting Account of St. George's Island W. I. I.

Yesterday a Times' representative had an interesting conversation with an old Peterborough boy, who now holds an important post under the British Government. The gentleman in question is Dr. Ed. Hatton, now of Grenada, St. George's Island, W. I.

The doctor, a son of the late Mr. D. G. Hatton, some years ago, police magistrate, and a leading lawyer of Peterborough, who has been in Grenada for a considerable number of years, is spending his vacation with his mother, Mrs. Hatton, Charlotte street.

Dr. Hatton, who on account of his distinguished career in his medical studies, and brilliant passing of the examinations required to attain the degree of M.D., which offered a position some years ago by the British Government, has now, not only by continued success in his practice but by seniority over the British medical staff in Grenada, been made head of the medical fraternity in that island. The position of head of the government medical staff makes Dr. Hatton, ex-officio, a member of the Island legislature.

In St. George's Island the government is practically an oligarchy, the members of the government not being elected by popular vote of the 79,000 inhabitants, but nominees of the Crown.

Dr. Hatton noted yesterday that he used to think that the expense of living in Grenada were higher than in his native town, Peterborough, but, since his return this summer, he considers that Peterborough is more expensive to live in than is Grenada. The town he lives in has some 5,000 inhabitants, the better off class of whom live outside the city on the hills. The formation of the island of St. George is of volcanic origin, the soil which is most productive is of marl and disintegrated and weather rotted rock. All their cereals, such as flour, wheat, oats, etc., and Irish potatoes, have to be imported from either England or the United States. The island is served by a semi-monthly mail-steamship service from England with a mail steamer every ten days from New York.

Dr. Hatton, when asked as to climate said that within the past few weeks he has experienced as great heat in Peterborough as they have in Grenada; however in Grenada there is practically no winter, only a "wet" and a "dry" season. All tropica fruits such as oranges, lemons, guavas, pine apples, alligator pears, mangoes etc. flourish in profusion. The one great trouble in agriculture or arboriculture is the rapidity with which weeds and undergrowth springs up, thus requiring constant vigilence. The main product of the country used to be sugar, but this has been abandoned, coco bean from which chocolate is made, being now the main product of the island.

Meat is plentiful and not much dearer than here; good chickens cost 6 pence, or 12 cents a pound, and beef and mutton somewhat cheaper than in Peterborough.

The doctor was somewhat disgusted when he went to buy some English cigarettes in Peterborough; a tin box full of English cigarettes that he could get in Grenada, (which has a 7 (1-2 per cent. tariff) for one shilling sells here at $1. In Grenada Jamaica cigars, fully equal to those made in Havana are sold cheap at about the same price as our ordinary domestic "Flor de Cabbage" cigars are retailed here.

Dr. Hatton, with Mrs. Hatton and their little boy sail from New York for Grenada on or about Oct. 17th.

A SERIOUS OFFENCE

Oliver Barr Charged With Committing Assault on Mrs. Peters of Galway.

One of the most serious offences charged recently against any one in this county is that against Oliver Barr of Galway township, near Kinmount who was brought to the city yesterday after having been arrested by County Constable Archie Moore, charged with having committed an indecent assault of Florence Peters, a married lady living in the same district. The assault is alleged to have taken place last Friday, whilst Mrs. Peter's husband was in Kinmount.

It is said that the prisoner committed the assault after a spirited defence made by his victim, who had been hoeing potatoes, and used the hoe in self defence.

Barr was remanded by County Magistrate Edmison and will be tried on Friday.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. It contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike preparation. It soothes, heals, purifies, cures. Call at our store for free trial box. J.D. Tully

Cheese Factories to Have Signs

Mr. Young, president of the local cheese board, during the meeting of that important body yesterday suggested that each factory owner in the district should have a sign bearing the name of the factory placed on the building where cheese is manufactured. This, he said, would be a guide to buyers passing through the country as it would not be necessary for them to stop and inquire to find out the name and the proprietor of a factory.

Mr. Young's suggestion seemed to be received with favor and no doubt many will act upon it.

Western Excursions to Detroit, Bay City, Grand Rapids, Chicago, etc., via Canadian Pacific Railway, take place on Sept 20th, 21st and 22nd. Good to return until Oct. 8th. See advertisement in this paper and secure tickets and all information from W. Mollroy, City Passenger Agent, or W. S. Dodd Depot Agent.

Miss G. N. Dennistoun Is Now a Matron

Important and Interesting Social Event Was Yesterday's Marriage.

Yesterday one of the most interesting society events that Peterborough has had for some months was the marriage celebrated at "Castle Knock" the residence of Mrs. Jas. Dennistoun, when her youngest daughter Miss Georgina Nina, was joined in the holy bonds of wedlock to Mr. Archibald Montgomery Russell, son of Mr. Hugh Russel of Montreal.

Everything went off most auspiciously, old Sol smiling in his kindliest manner on the fair young bride. The wedding, which was celebrated in the presence of a few invited guests, was performed by Rev. Dr Torrance, brother-in-law of the bride.

The large hall of Castle Knock in which the ceremony was celebrated had been most artistically and beautifully decorated by ferns and natura flowers. The bride was given away by her brother, Mr. R. M. Dennistoun. Gus previous to the ceremony, Miss Helen Davies sang "O Fair O Sweet, O Holy," and after the ceremony, "O Perfect Love."

The bride was attired in a rich gown of white tafetta mousseline, the bodice being of tucked silk with berths of Irish lace and high silk girdle. The skirt had a wide lace panel, trimmed with pleatings of silk. The costum was completed by a veil of rare old lace and orange blossoms. Miss Dennistoun carried a bouquet of white roses and lilies of the valley. The bride and bridegroom were unattended.

After the ceremony had been performed the invited guests, together with the main actors in this happy event, partook of refreshments and many rich goods of the guess saw them off, amid hearty felt congratulations at the G.T.R. station. The young couple will spend their honeymoon in Toronto and other western cities.

The bride's going away costume was a brown tailor made suit, of serge, with bolero colored silk blouse. Hatwas with large brown hat, adorned with feathers shading from brown to lemon colour. The gift to the bridegroom to the bride was a ruby and diamond ring.

Among the out of town guests were,—Mr. and Mrs. Hugh Russel parents of the bridegroom, Dr. Colin Russel, Mr. Blair Russels brothers, Mr. Herbert Mowat, Mr. J. F. Savage and Mr. W. Brainerd, of Montreal; Mr. and Mrs. H. Kirkpatrick, Miss Kirkpatrick, Mr. and Mrs. A. M. M Kirkpatrick, Mr. S. A. Macdonald, Mr. E. R. Peacock, Mr. Wm. Macdonald, Mr. H. H. Grubbe and Miss Bethune Baldwin, all of Toronto; Miss Dennistoun, aunt of the bride, and Mrs. Devlin, Perth; Miss Hale, of England; Miss Roper, Baltimore, Md.; Mrs. C. S. Hamilton, Port Hope; Mrs. J. R. Jones, Mr. and Mrs. Alexander Bain, Winnipeg; Mr. and Mrs. J. D. Noble, Detroit.

During the evening Mrs. Dennistoun entertained the wedding guests at dinner.

Mr. and Mrs. Russel will in a few days return to the city, and after a short visit here will leave for Montreal. Their future home will be at 29 St. Matthew street in that city.

Mr. J. G. Macklin Gets Good Position

Concerning a gentleman well known both professionally and personally in this city a Guelph dispatch says:

"Mr. J. G. Macklin, who has been divisional engineer of construction for the western 40 miles of the Guelph and Goderich Railway from Guelph (west, and who has pretty well wound up his work here, received the appointment yesterday of chief engineer of construction of the St. Mary's and Western Railway from Woodstock to St. Mary's. This will be built by a subsidiary company to the Canadian Pacific, and bonuses have been voted to it by the town of St. Mary's and a couple of intervening "townships."

A Nono-Uenarian's Birthday.

An interesting event was that in evidence Tuesday at the home of Mrs. Emma Cox, Wolfe street, when her 90th birthday was celebrated by some thirty of her descendants, from nieces to great grandchildren, who gathered at this venerable lady's residence. Mrs. Cox is an aunt of Senator Geo. Cox. Mrs. Cox has fifty-three direct descendants still present alive, including 18 great grandchildren, 26 grand children and eight children.

Local Clerk Gets Surprise Party

Aftermath of an Early Saturday Morning Market Square Disturbance.

Yesterday morning a Times representative happened to be in the police station as P. C. Newhall telephoned to a clerk in a George St. store, notifying the latter that his presence was required at the station at once in a few minutes as the aforesaid clerk, with smiling face but questioning eyes, appeared in that portal which leads to the enforced great chambers to the rear.

P. C. Newhall introduced the subject of his telephonic message by inquiring Mr. Clerk a summons, requiring the pleasure of his company at a police court matinee at nine a.m. Thursday. The clerk, seemingly taken somewhat aback, more with a glance than verbally, inquired what the trouble was. The officer quickly explained that, as the clerk in question was a member of the crowd that early Saturday morning last, raised a disturbance in the Market square, and at the same time broke into the patent medicine vendor's tent at the rear of a temporary stage there, and did several things neither according to the law of the land nor common Kuse, was wanted at the police court this morning.

The officer explicitely explained that having heard that the clerk in question, not content with interfering with the former whilst making an arrest at the time, had told several parties that he, the officer, was drunk at the time the arrest was made.

P. C. Newhall, who is known by all his acquaintances as an strictly abstemious, if not absolutely temperance man, plainly told Mr. Clerk what he had heard as to the latter's allegations and assured the clerk he, the clerk, would have ample opportunity, when placed in the witness box at this morning's trial, to substantiate his denial the statements made as to his, the officer's sobriety or otherwise last morning. The clerk, at first, attempted to deny having made such allegations, but this seemed, according, to information in possession of the officer, to be futile.

There will be a hot time in the old court this morning as many summonses against those alleged midnight desecrators of the city's peace and decency have been issued. They include two merchants doing business in the city.

It seems that the gang not content with "fussing Gim" on the patent medicine vendor's stage at 1.30 a.m. Saturday, entered the latter's tent, broke open one of his boxes, destroyed some of his property, and committed an act hardly to be described in a public school. It has been whispered that the crowd "squared" the medicine man for the damage done him, but they have still to face the music for their alleged disturbance.

A CHEESE RECORD

Yesterday at the Local Cheese Board Prices Were Raised to 13¼ Cts.

Yesterday morning the local Cheese Board met in the Ontario Bank chambers, and the meeting resulted in cheese soaring to the highest price ever reached here, viz., 13 1-8 cents as compared with 12 5-8 cents, the former record. This is not only a local record but a record, this year for Ontario.

3,60. boxes were boarded and all sold but those of six factories. Over 1000 boxes sold at 13 1-8c, and the balance went at figures slightly lower.

Morton opened the bidding at 12 1-2c. When after various bids Cook made the record price by bidding at 13 1-8c.

At this figure he secured the first selection and called the following factories (all of which sold), Indian River, East Emily, Trewern and Crown.

The next to went to Mr. Gillespie at the same figure, 13 1-8c. He secured the following: Auckhorn, Westwood, Withers and Central Smith.

Mr. Gillespie offered 13c. for further sales and the following factories sold: Benefort, Cavanville, Warminster, Warsaw, Lakefield, Pine Grove, Maple Leaf, Young's Point, Keene, Shearer, Laurel and Fleetwood.

Mr. Brereton at 13c. took the following factories: Myrtle, South Burleigh, Cedardale and Peterborough.

Oakdale, North Dummer, Ormonde and Brickley were called but did not sell.

Mr. Pleasant sold to Cook at 12 15-16.

Selwyn, Orkdale, North Dummer, Ormonde, (Brickley,) Benefort and Shamrock refused to sell at 13c.

Piles positively cured with Dr. Shoop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Itching, painful, protruding or blind piles disappear like magic. Sold by J. D. Tully.

MRS. CHADWICK WAS MOVED

When She Heard of the Illness of Her Mother—Wanted to Leave for Bedside.

Detroit, Mich., Sept. 20.—A Columbus, Ohio, despatch, where Mrs. Cassie Chadwick is confined in the State prison, says that when news of the fatal illness of Mrs. Mary A. Higley, at Woodstock, Ont., mother of Mrs. Chadwick, was communicated to the woman in the penitentiary, she immediately asked permission to go to the bedside of her mother, but this was refused.

This disclosed the true identity of Mrs. Chadwick by her own admission. She had refused heretofore to give any of her true history or birthplace, even denying that she had relatives in Canada.

Mrs. Chadwick was later told of the death of her mother.

Mr. R. J. Soden Branches Out.

Mr. R. J. Soden, the enterprising book store man, whose premises are now situated on Hunter street, has completed arrangements whereby he will, about the end of October, vacate the premises on George street now occupied by Sutcliffe & Sons, who are about to retire.

24th F. Battery Stores Inspection.

Major Leslie, of the Royal Canadian Horse Artillery, Kingston yesterday notified Major Young, commanding officer of the 24th Field Battery, that he will arrive today to inspect the stores, etc., of the 24th Field Battery at the East Ward drill shed.

AWFUL TYPHOON SWEEPS CITY OF HONG KONG

Scores of Small Craft Lost and Property Loss of Millions of Dollars Involved---Shipping Trade of District Paralyzed.

Manila, Sept. 20—Latest advices from Hong Kong state that 1,000 lives were lost during the typhoon and that the damage to property, public and private, will amount to millions of dollars. Twelve ships were sunk, 24 were stranded, seven were damaged, and one half of the native craft in port was sunk.

The shipping trade has been paralyzed through lack of lighters.

CAME WITHOUT WARNING.

The typhoon which swept this port yesterday, destroying a great number of vessels and causing much loss of life, was of a local nature. It came suddenly and without warning. The observatory had predicted moderate winds. Half an hour after the signal gun had been fired the storm was at its height. It lasted two hours. Most of the damage was wrought on the Kowloon Peninsula. Losses are estimated at several million dollars. Over one thousand sampans and junks are missing from Hong Kong alone. Wharves were swept away and houses collapsed. The military barracks are in ruins.

STEAMERS ASHORE.

The steamers Montcagle, Patabia, Heungshan, Wing Chai, Hermann Castellano, Tak Hing, Bunna Lukau, San Rosario, Siam Pakhong, Petrarch, Chun Lee, Sexta, Sunon, Chow Sin, Signal and Chinkai Maru are ashore. The American ship S. P. Hitchcock was also driven ashore, as were many of the launches that run about the harbor. The steamers Kwong Chow, Nan Cheong, Sonsogon and Kongroon were sunk. The steamers Apendale and Johanne are partly awash. The British reserve sloop Phoenix and a small gunboat, the Dongola are ashore. The British torpedo-boat destroyers Moorhen, Robin and Taku were damaged. The French torpedo-boat destroyer Fronde was wrecked and the Francisque is ashore. The guns of the Fronde were saved, but three petty officers and one seaman lost their lives. A Chinese revenue cruiser is ashore, and several indo-China and Manila liners narrowly escaped disaster.

STREWN WITH WRECKAGE.

The harbor is strewn with wreckage thrown up on the shore. Hundreds of Chinese boatmen and their families were saved by the bravery of the police and civilians, on several thousand of the Chinese waterdwellers have perished, many within short distances of the shore. The losses in lives and property among the Chinese were appalling. The police stations in Hong Kong are surrounded by Chinese identifying their dead. The families of the Hong Kong boatmen live night and day on their sampans, and thousands of these people are now homeless.

BISHOP OF VICTORIA MISSING.

The Chinese take the disaster calmly and show no manifestations of grief.

One launch that was capsized had 130 Chinese on board. They were all drowned.

The river steamer Fatshan drifted into collision with the French mail steamer. The entire Chinese crew climbed aboard the French steamer and left Captain Thomas, who was injured, one officer and the engineers to navigate the Fatshan to shelter, where she was blown ashore. The Bishop of Victoria, Dr. J. C. Hoare, was on his way to visit some neighboring islands when the storm broke, and is reported missing. His launch has been found floating bottom upwards. Many valuable steel lighters have been lost. Some of them were hurled ashore. Channels will have to be dug to permit some of the vessels ashore to be re-floated. The force of the wind and waves were such that some vessels were landed high and dry.

ESCAPED DAMAGE.

The Japanese steamer Soda Mara, rescued sixty-six natives and one English pilot as she was approaching Hong Kong. The English mail steamers, Delhi and Poona, escaped damage.

The British cruiser Terrible entered port yesterday afternoon and reported that she was her up to the harbor.

Sir Matthew Nathan, governor of Hong Kong, and the authorities are doing everything possible to render assistance.

Reports of fresh disasters are arriving every hour.

FEW EUROPEANS MISSING.

Only a few Europeans are missing. No reports are on hand to show how the fishing fleets and the ships outside the harbor fared.

Public opinion is incensed at the observatory for not reporting the approach of the typhoon. An enquiry has been demanded. For years past the observatory has been subjected to adverse comment, but on this occasion it is not believed to be blameable.

Rubber Baby at 21 Years

New York, Sept. 20.—The American says:—The death of Antonio Congro, the twenty-one-year-old son of Frank Congro, of No. 234 North Fifth street, Williamsburg, who was known as the "rubber baby" and had never developed more than any infant of one or two years, attracted much great attention from medical and scientific men that the funeral yesterday was delayed several hours in order to give them an opportunity to examine the body of this remarkable man-child.

Young Congro did not seem to have a bone in his body at the time of his birth, and remained in the same condition until his death. Sight was the only sense that the boy ever had. He could neither hear, talk, walk, stand nor move his limbs, and remained in a cradle unless taken up in the arms of his father or mother. He was fed with a spoon and seemed to enjoy good health until a few months ago, when an organic disease developed, which resulted in death.

Mr Congro would not permit an autopsy, but allowed many doctors and scientific men, who had frequently called to see the boy to examine the body. They were unable to give any explanation for the failure of natural development in the child.

Delighted With "Overseas" Flyer.

Glacier, B.C., Sept. 19.—During the dark hours of the night the Canadian Pacific "Overseas" fast train dashed along the furious reaches of the Fraser, crossed the gold range and when it arrived at Revelstoke, in the valley of the Columbia this morning, half an hour of the six hours' handicap in leaving Vancouver had been topped off. Excellent speed is being maintained and here in the heart of the Selkirks, the steep climb is being easily made. In this homeward flight of the Overseas Mail, an additional sleeper is necessary to accommodate the increased number of passengers, a large proportion of whom will go direct by the Empress of Britain from Quebec to Europe. These travellers from the far East express themselves as being more than delighted at the new service by which they are able to travel half way around the globe within 30 days. One of these who came from Hong Kong remarked to your correspondent that the route was a revelation to him in every way, the passage over the Pacific was extremely enjoyable and this land trip so far a constant surprise, while the resources of the Canadian Pacific seemed inexhaustible, and the service on land and sea so perfect that the long journey became merrily a delightful pleasure touring.

For Lindsay Fair By Auto-Bus

The Auto-bus will leave the Snowden House tomorrow at 9 a.m. to accommodate passengers wanting to visit the splendid Lindsay Fair. This will be the most enjoyable trip by automobile of the season. Only a limited number of tickets sold. Return tickets good until four p.m. on Saturday, only $1.25.

The auto-bus during Friday and Saturday will run regular trips from the Simpson House, Lindsay, to the fair grounds. Take in this grand September auto ride. Cheaper than railroad.

UNCLEAN COINS DOOMED

In France Copper Sous Will be Replaced by Bright and Sanitary Pieces.

Paris (Sept. 19.—Cleaner metal for small French coins is on the government's program.

Many complaints have been made of the existing copper sous, 10's 5 and 10 centime pieces. Hence they are doomed, and will be replaced by a whiter, cleaner and brighter coin of nickel, which will spoil neither the purse nor the pocket, the hand or glove.

In appearance, as far as engraving is concerned, it will have some resemblance to the 25 centime piece now in circulation.

Beginning next December, the bronze sou, will be retired gradually from circulation and replaced by the new style sou of whose comparatively sanitary characteristics much is said in praise.

Riots in Grenoble.

Grenoble, France, September 20.—Violent strike riots occurred here yesterday. A mob tore down the doors of a big factory, carried out the furniture of the establishment, piled it in the street and set it on fire. The mob proceeded to the police station, believing that two of their comrades were in prison there, broke into and sacked it and made a bonfire of the furniture and papers. The troops were able to disperse the mob only by the free use of their rifle butts.

Canadian Northern to Build in Toronto

Toronto, September 20.—According to D. D Mann, the management of the Canadian Northern Railway is contemplating the erection either in Toronto or Montreal of a system of repair shops for the eastern lines and for the manufacture of rolling stocks for all the lines of the system. The company is at present erecting in Winnipeg shops that are costing $450,000, and that will take about two years to erect. The eastern shops may cost a million.

A Bonifide and Gilt Edge Investment
In a MATURED MINE
—NOT A PROSPECT—

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 16 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 2 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $3.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—13 carloads or 1,300 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $100 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 750 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.
United States Internal Revenue Collector, CAPT. GEO. H. WHEELOCK, Vice President.
United States Deputy Marshal H. S. PAGE, Secretary.

Mining Expert J. E. MEYER, Assistant General Manager.

Main Office of the Company, Salt Lake City, Utah.
Address all communications to Assistant General Manager.

J. E. MEYER
Agent Wanted. P. O. Box 621, Salt Lake City, Utah

WHY SO WEARY?

Always Restless and Weak Isn't Natural—But It's Dangerous.

You have to work hard. This uses up lost of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Otl Lake: Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Poison & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, SEPTEMBER 20 1906

"BOY WANTED."

If you want to tackle a difficult proposition, try to hire a good body in Peterborough for work by the day or week or month. You can get them to work after or before school hours; but when you want one who will place himself at your disposal all day long, you are at the desired youth would himself express it, "up against it hard." There are enough boys in town. Nature has not been niggardly in that respect; but they are at school, which is, of course, where they ought to be.

And this is the deeply interesting feature of the case, for it proves that the people of Peterborough are all getting along so well that very few of them have to depend upon the earnings of their children. We pick up papers published elsewhere and read harrowing tales of child labor in factories for a mere pittance; and then a man, who wants half a dozen stout youths and is willing to pay them $15 to $20 a month each for wholesome out-of-door work, has to search in vain for them.

These are the sort of things that make one think that the people of Peterborough really do not appreciate how happily they are situated. We may not be enjoying a "boom," but a community of fifteen thousand people, in which you cannot hire a boy at wages, which not very long ago in many places would have been considered pretty good pay for a man, has, in the language of the much-desired boy aforesaid, "no kick comin'."

Rheumatism is not incurable, stubborn? Yes! But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives Rheumatism from the blood and then Rheumatism dies. We recommend and sell. St. J. D. Tully.

Speaking of those of our fellow human beings who are having a hard time in this world, mention may be made of Sam Gompers, who is endeavoring to select the members of the next United States Congress.

LEARN TO SING.

Those who are so situated that they can hear girls learning to sing may have had some doubt about the utility of such work, but they need have no more. A New York woman who had learned to sing has been visiting in South Dakota. She was roaming around when a mountain lion which though she looked good enough to eat came up behind her and struck her down. She screamed again and again, and, noticing that the lion seemed to listen to the reverberating tones of her voice, the woman began to sing, first feebly, but with gathering strength, and the lion made no move to injure her. After a long night of this, at daybreak the woman's husband, attracted to the spot by her singing, shot the animal, thereby putting an end to her fear and anxiety, although she is suffering from shock.

Of course some critics will say that this was astonished and not charmed by the woman's singing. So this as it may, the incident is another argument for women learning to sing, even though the neighbors may not appreciate the performance, and even though the Apocrypha says "Be not much taken with the efforts of a woman who is a singer."

PROFITABLE AGRICULTURE.

It is stated that within the last twelve years the aggregate value of the annual product of the farms of Ontario has been doubled. When it is asked how this has been done, it is replied that the result is due to two causes. One of them is the development of dairying and stock-breeding, the other the growth of population in the towns and cities which has given larger and better local markets, while the agriculturists have also adapted their methods so as to have more to sell than is required by the consumers in the Old World. Twelve or fifteen years ago the agriculturists in Ontario were struggling against the depression brought about by the low prices and restricted markets that the operation of the McKinley and Dingley tariffs had caused. The permanency of this improved situation seems assured, since the agriculturists of Ontario have learned the lesson that it costs no more to raise good stock than poor stock and that superior quality ensures a market at remunerative prices, while the inferior article finds little sale and then only at a price that leaves no margin of profit.

WINNIFRED PAYNE

Dispute Before Chancellor Boyd Over Treatment of Barnardo Girl.

Toronto, Sept. 19.—On the behalf of Dr. Barnardo's Home a writ was issued under the habeas corpus directing Curtis B. Brenner and wife yesterday to produce Winnifred Payne at Osgoode Hall. The plaintiffs maintained that Winnifred was "ill-treated and in a loathsome condition."

The child, accompanied by Mr. and Mrs. Brenner, was in the court to await her case. She was dressed neatly and looked far from being the victim of ill-treatment.

W. H. Blake, who appeared for the Barnardo Home, put in a motion to obtain custody of the child. He said that the Home had authority to bring the girl back, irrespective of the treatment she was receiving. He stated that when a person applied for one of the Barnardo children the application is granted under those conditions.

For the defendants, Mr. A. C. McMaster argued that Winnifred Payne was there and that she did not desire to return to the Barnardo Home but that she was perfectly satisfied with the treatment she had received from the Brenners. He wanted to bring in affidavits to that effect.

Mr. Blake argued that affidavits did not figure in the case, and wanted it settled there and then. Chancellor Boyd asked the defendant's solicitors if they would argue the case from Mr. Blake's standpoint, but upon their refusal, an enlargement was granted and the case will be brought up again on Friday. Mr. Blake wanted Winnifred to remain in the custody of the Home in the meantime, and the Chancellor did not deem the railway fare involved in the alternative any consideration.

GERMAN EMBASSY PROTESTS

Desire is that Greater Protection May be Granted German Subjects.

St. Petersburg, Sept. 20.—The insecurity of life and property in the Baltic Provinces, which culminated last Saturday in the murder of Herr Bush, a rich German manufacturer, and the leader of the German colony at Riga, has led the German Embassy here again to make energetic representations to the Foreign Office concerning the adoption of measures for the protection of German subjects.

Bush was killed by agents of the revolutionary organization engaged in levying tribute.

There are five thousand German subjects in Riga.

From Odessa, where the conditions are almost as bad as in the Baltic Provinces, the Embassies have been informed that guards have been furnished for the consulates and the residences of the various consuls.

The Ministries of the Interior, Justice and War, have each commissioned to investigate the recent massacre at Siedlce. The commissioners have been instructed to investigate especially the charges of unrestrained looting and killing by soldiers, and to fix the responsibility.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

—THE—
TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts."

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to long since all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $25 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE-AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

viction of mine with all the emphasis of swearing to a fact, so that you may know for a certainty that you are offering your ducal coronet, not to the Baroness Etheridge of Swinburne, but to a poor cottage girl who is forced to play that part for a season, and plays it ill enough, no doubt."

"And even if this were so, nay, grant for a moment that it is so, that you are the humble village maiden that you seemed a year ago, I tell you that I love and honor you beyond all other creatures; I entreat you to be my wife, and assure you that your acceptance of my suit will make me the happiest, as your rejection of it would leave me the most miserable among men. Now, dearest, give me your hand in token that you are mine."

"Not yet!"

"Not yet! What now, dearest Rose?"

"There are other things yet that you must hear before committing yourself."

"What can they be? Speak, dear Rose, for I do not understand to what you allude, and I am certain only of one thing—that nothing you have to tell shall separate us. You are mine only, and forever."

"Listen first. Supposing me to be that humble cottage girl that I was a year ago, and that I may be again a year hence; and granting that, as such, you thought me not unworthy to share your rank, still you would like to think that you had won the first love of my heart, for every man delights in believing that he possesses the first, as well as the only love, of the maiden whom he seeks to make his wife. Is it not so?"

"Rose, in the name of Heaven, what mean you?"

"That you, George, Duke of Beresleigh, had not the first love of the poor girl whom you ask to become your wife."

"Rose! Good Heaven, what is this you are about to tell me?"

"That poor Rose's heart was lost and won long before she knew the Duke of Beresleigh."

"Oh, girl, girl! how cruelly you have trifled with my happiness and your own peace! You love another!" exclaimed the duke, starting to his feet in great agitation.

"No, no, you mistake me—widely mistake me. I do not love another; that great delusion is long since quite over," said Rose, blushing at her own vehemence.

"Explain, explain, in the name of Heaven, explain!" cried her lover, hastily returning to his seat.

"Listen, then, and oh! listen patiently. Your agitation frightens and unnerves me," faltered Rose.

"Forgive me, dearest; I will be calm," replied her lover, controlling himself by an effort.

"Two years ago, when I was a poor village girl, living with my reputed mother, there came a stranger to our village. He was handsome, accomplished, and very fascinating. Under the name of William Lovel, he sought and made my acquaintance. I was a romantic dreamer, longing for a higher, freer, and more beautiful life than our sordid circumstances permitted. William Lovel appeared to me to be the embodiment of perfect beauty, wisdom and goodness—the being destined to lead me up to that higher life to which I aspired."

"Oh, heaven and earth, the old story—it is the old story," groaned the duke.

"He loaned me books, he gave me instruction, he cultivated my taste in art and literature, he sought and won my love—nay, do not start and frown—he won my love—no more."

"Go on, go on."

"You know the story of the ex-Baroness Etheridge, and know how I, unworthy that I was, arose upon that noble lady's fall."

"Yes, yes, dearest, I know the particulars of that event; proceed, proceed."

"It was while this noble lady was still called the Baroness Etheridge, and upon the day preceding that fixed for her wedding with Mr. Albert Hastings, that William Lovel came down to our village. He sought an interview with me, and persuaded me, weak girl that I was, to consent to a private marriage."

"And you consented? Unhappy girl!"

"Yes, I consented—weakly and wickedly consented to marry him clandestinely that same evening."

"Unfortunate child. Oh, Rose! Rose!"

"Bear with me. I consented, but I was providentially saved from the consummation of that folly, and, at the same time, forever cured of my dangerous infatuation."

"Thank Heaven for that. Go on—go on."

"That same afternoon upon which I promised to meet him at a later hour to be married, I was sent by my poor foster-mother with her last message to Lady Etheridge, at Swinburne Castle. I was shown up into the library, where the lady sat, with the title deeds of the Swinburne estates before her, waiting for the arrival of her betrothed husband, Albert Hastings, that she might put them in his hands, and endow him with the whole property. While I was still with the lady, the expected visitor entered, and in Albert Hastings, the betrothed husband of Lady Etheridge, I recognized William Lovel, my lover."

"Good Heaven!"

"I was saved! My misplaced love died hard, but it did die. The man who could at the same time deceive the noble lady who endowed him with her princely fortune, and the humble maiden who gave him her whole heart—the man who could deliberately plan the destruction of that confiding maiden upon the very eve of his marriage with that high-souled lady, was unworthy of regret, unworthy of resentment, unworthy of everything except total oblivion," said Rose, with a beautiful and majestic expression.

"Give me your dear hand! Rose, you are an angel."

Rose shook her head with a sad smile, and said:

"There never was a woman with more antecedents to acknowledge than I. There is yet another event that I must make known to you—an event connected with my earlier youth."

"What! another secret, dear Rose! a third secret?"

"A third secret!"

"I will not hear it! Only assure me that your hand and heart are now perfectly free, and that you are willing to bestow them upon my unworthy self, and I shall be happy."

"My hand and heart are free, and they are yours, if you want them; yet you should know this third secret of my life."

"I will not hear it! Dear Rose, you are mine as I am yours! Is it not so?"

For all answer she placed her hand in his.

He pressed that small, fair hand fervently to his lips.

"And yet I would that you would hear what I have yet to tell you," she said, very earnestly.

"No more, dear girl, no more! Thus to put you into the confessional were unmanly and ungenerous. What you have already told me is enough to prove the candor and purity of your heart. Say only that you are mine! Say it, dear Rose."

"I am yours."

* * * * *

The same day the Duchess of Beresleigh was informed of the engagement, and a few days after, the betrothal of the Duke of Beresleigh to the Baroness Etheridge, of Swinburne, was announced to the world.

CHAPTER XXII.

The announcement of the betrothal of the Duke of Beresleigh and the Baroness Etheridge, of Swinburne, surprised no one, for, as usual, the world knew all about the affair long before the parties most concerned knew anything of it.

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 1500x1500 feet. The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

1,000,000 Shares, Par Value, $1.00

Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 2,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Investors Beware

of investing before investigating. THE GREAT WESTERN OIL REFINERY & PIPE LINE CO., of Erie, Kansas, courts investigation, and we are anxious to get in touch with investors who are willing to be convinced.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads, with side tracks to both. The Company owns without debt a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete, modern independent Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number), which furnish fuel for the entire plant and is sufficient for a 5,000 barrel capacity, which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered to the public for subscription.

The Company owns leases on hdreds of acres of oil lands, with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different States, and the laws passed to protect the independent refiners against unfair competition, makes an investment in this Company one which is sure to bring large returns. In proof of this statement, will say that the Company one day recently shipped 21 car load lots of refined oil and by-products and on another day received orders for 42 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of the same, we can fill your order at

25 Cents Per Share

cash or installment, until said option is all sold out, which should be within a very short time.

We would suggest that you write us immediately for free particulars, copies of letters from bankers, etc., which will be sent free. We will also send you a copy of our book "Oil & Gold" if you wish it. This book gives history and statistics of the prominent Oil fields and Gold districts of the United States. Address:

511 D MACK BUILDING, DENVER, COLORADO

WANTED - A Few First Class Agents

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents par share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $40,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good; quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

House-Clean Your System!

Keep it Pure and Clean if You Desire Good Health.

The inside of your body requires attention just the same as the outside.

A great accumulation of effete matter is clinging to the various organs, and must be moved off.

Some gentle laxative and tonic should be used.

The system must be relieved of its burden if you are to enjoy a happy, healthy summer.

Physicians who have examined the formula of Dr. Hamilton's Mandrake and Butternut Pills say no medicine could be better.

Whether ill or not, thousands rely on Dr. Hamilton's Pills which are truly marvelous in preventing debility and sickness.

Begin Dr. Hamilton's Pills without delay. You'll feel stronger, eat heartier, digest better, sleep sounder, and gain more in weight.

Mr. Ed Maynard, an old resident of New Westminster, B. C., writes: "I don't say Dr. Hamilton's Pills will cure everything, but they made a quick job of building up my run-down system. I had kidney disease and constipation, and was wholly unfitted for work. Pains shot through my limbs and lodged in my back. Headaches often made me desperate. I had no appetite, an awful color, and felt despondent. Sometimes I was a little rheumatic. After a few days I began to mend, and kept up Dr. Hamilton's Pills till I was restored to my present tip-top condition."

Can you afford to miss the benefit of this marvel-working medicine? Think of it. All dealers sell Dr. Hamilton's Pills, 25c. per box, or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

At once, two maids and one cook, at Nicholls Hospital.

A Painter.

If you ever heard the Edison Phonograph, you would buy no other talking machine. You can hear them at the J. M. GREENE MUSIC CO., New Opera House Building.

Loyal True Blue Lodge.

The first regular meeting in September for the above lodge will be held tonight. All True Blues are requested to attend as special business will be transacted, and also the Blue and White degrees will be conferred on several. Any member of any other True Blue lodges are cordially welcomed. Meeting in Orange Hall on Simcoe street.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R. "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains, leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Robt. S. Lewis, Passenger Agent, 10 King street east, Toronto.

St. John's Church Notes.

A cordial invitation was extended yesterday by the St. Andrew's Brotherhood of St. John's church to men to attend the open meeting held in the school house.

St. John's choir meets for practice this week on Friday at 8 p.m., instead of Thursday, for this week.

Boys' special practice Saturday at 9 a.m.

Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Book covers free to school children at Times Bookstore. Call today.

—WANTED—A woman to do cleaning. For address apply to this office.

—Dr. Hill vs. Gov. ——— will now go to trial in Toronto in the ordinary way.

—The Government will raise McCracken's building wharf two and a half feet.

—A present with every twenty-five cents purchase of school books at Times Bookstore.

—See the south window display for boys' suits in fancy check suitable for wedding presents. Times Bookstore.

—Engineer Hall and caboose of the Toronto & Peterboro C.P.R. to take in the I.O.O.F. decoration in that city.

—We have just found a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—Last night at C. Nation's cafe cream was served on George cones. When the cones were finished the cream was also finished.

—A good rendition of the Harvest Anthem was held last night in St. Luke's church, with the organist Mr. J. L. Armstrong presiding.

—Mr. Sam Sharpe, 20 College street, who on Tuesday fell from the roof of Mr. W. Hamilton's new cable, breaking his arm is doing as well as could be expected.

—A Young's Point girl is said to have been allowed a $15 trousseau preparatory to her approaching marriage. This does not include a tin dipper or a duck saw.

—Yesterday morning Messrs. J. J. Turner & Sons, for the Cakebread Brewing & Malting Co., placed a handsome illuminated glass lantern in front of the Queen's Hotel.

—Smith street bridge is again in sad want of repairs. The planking is rotten, and 8,000 feet of plank are to be used in fixing the trouble. This is cheaper than a new bridge or an accident.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—The Peterborough Light & Power Co. are putting up two new style arc lamps near the power house. A committee of the City Council will inspect them when installed, with a view to choosing whether they or the old style will be used for city lighting.

SOCIAL AND PERSONAL

—Mr. Wm. Barnes left yesterday for his old home in Galt, for a visit with his parents.

—Mr. Clare Calcutt, the old time steamboat man has returned from his outing at Stony Lake.

—Mr. Robt. Lingard last night delighted the large assembly at Rebekah I.O.O.F. meeting with selections played on his graphophone.

—Miss Mollie Meldrum left yesterday afternoon on a visit to her young friend, Miss Isabella Smith, Chatham. She will return in about three weeks.

—Mr. Edg. Hartley, the wood calligraphist, has completed a most artistic sign for Calcutts' brewery kiln house. This sign is said to be the result of something under two years' work.

—It will be remembered that a few weeks ago the police found a hat and coat in Victoria Park, which for reasons best known to the owner are still unclaimed at the station. The owner does not evidently want them as he is now arrayed in garments that would make Solomon in all his glory look like a last year's sunflower.

LAKEFIELD FAIR

The dates of the Smith, Ennismore & Lakefield Agricultural Society's annual exhibition have been changed to Thursday and Friday, Sept. 27-28, to avoid conflict with Peterborough's dates.

This year the Fair will be held in the new grounds of the society a block west of the Presbyterian church in Lakefield. Prize lists, etc., can be obtained from W. Sherin, secretary, Lakefield, Ont.

Thanksgiving Tea in St. Andrew's.

The high tea which has for some years been so successfully held on Thanksgiving Day night by the Ladies' Aid Society of St. Andrew's church will again be held this year on October 18 h—the date of Thanksgiving Day.

Miss Little Sec'y of Y.W.C.A. Here.

Miss Little, travelling Secretary for the Y.W.C.A. will be here next Sunday afternoon at 4.15, and will speak on Bible study in the Y.W.C.A. rooms. All young women are cordially invited.

If all dyspepsia sufferers knew what Dr. Shoop's Restorative would do for them, Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative. J. D. Tully.

Local W. A. S. to Meet Sept. 24th

The annual meeting of the Women's Aid Association, Peterborough branch, will be held at the Y.W.C.A. on Monday, Sept. 24, at 7.30 p.m. Officers will be elected and reports present for the past year.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 10c. and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, nerves, feebler or irregular action of heart, palpitation, dizziness, headache, and kindred destructive signs of weakness.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything would eat would seem to be heavy like lead in my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery and stop taking the doctor's medicine. She bought me a bottle at it soon found that I began to improve, so I kept up the treatment. I took in flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be swindled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

BY-LAW NUMBER .....

A By-law to Aid the Peterborough Steel Rolling Mills Company, Limited.

Passed the day of 1906

WHEREAS the Peterborough Steel Rolling Mills Company (Limited) proposes to establish in the City of Peterborough, or adjacent thereto, a Rolling Mill and Iron Works and to erect substantial buildings and equip the same with the necessary plant at a cost of at least $45,000.00 and to employ therein on an average at least fifty hands, and has applied to the Council of the City of Peterborough for aid in establishing the same by a grant of a sum not exceeding $6,000.00 for or towards the purchase of a site for the said manufacturing establishment and for or towards procuring a railway siding thereto if necessary, and by granting partial exemption from taxation for a period of ten years by fixing the assessment of the said manufacturing establishment at the price paid for the said land.

AND WHEREAS it is desirable and in the public interest to encourage the promotion of the said industry as aforesaid.

AND WHEREAS it will be necessary to borrow the sum required for the purchase of the said land and for the said railway siding if necessary, which is not to exceed in all the said sum of Six thousand dollars, and which is the amount of the debt intended to be created by this By-law, by the issue of the debentures of the Corporation for the same.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll, being for the year 1906, is the sum of six million six hundred and sixty-three thousand six hundred and twenty-six dollars ($6,663,626).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts but including the debt of $293,800 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Two hundred and forty dollars ($240) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law, for paying the interest on the said sum of Six thousand dollars, and the sum of Two hundred and twelve dollars and seventeen cents ($212.17) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity; such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Four hundred and fifty-two dollars and seventeen cents ($452.17) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof.

2. It shall and may be lawful for the Corporation of the City of Peterborough to borrow a sum not exceeding the sum of Six thousand dollars and to issue the debentures of the Corporation for the same, such debentures to be sealed with the Corporate Seal of the said City of Peterborough and signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be payable within twenty years after the issue thereof and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by special rate upon all the rateable property in the City of Peterborough liable thereto the sum of Two hundred and forty dollars ($240), for payment of the interest on the said sum of Six thousand dollars ($6,000) if debentures for the said amount are issued or such less sum as may be sufficient to pay interest at the rate of four per centum per annum on the amount for which debentures are issued under this By-law, and the sum of Two hundred and twelve dollars and seventeen cents ($212.17) as a sinking fund for the payment of the said sum of Six thousand dollars at the maturity thereof if debentures for the said amount are issued or such less sum as may be sufficient with the estimated interest thereon at the rate of three and one-half per cent. also discharge the amount for which debentures are issued under this By-law when the same become payable, making together a sum not exceeding $452.17 to be raised annually for the purposes aforesaid.

4. The proceeds of the debentures to be issued under and pursuant to this By-law when sold, shall be given to the Peterborough Steel Rolling Mills Company (Limited) to aid the said Company in the promotion of the said manufacturing establishment by the payment of or on account of the purchase money of land within or adjacent to the limits of the Municipality of the City of Peterborough for the location of the said industry and to procure a railway siding thereto if necessary upon and only upon and subject to the terms and conditions hereinafter mentioned, and until the said conditions shall have been fully performed and satisfied, the said Company shall not be entitled to the said money or any part thereof or to any interest in or right to the same.

The conditions upon which the said grant shall be made are as follows:—

1. That the said Company shall obtain a good title in fee simple to suitable and sufficient land for the purpose of its manufacturing establishment within or adjacent to the limits of the City of Peterborough and shall, if the purchase price thereof should exceed the said sum of Six thousand dollars, make up the balance of such purchase price over Six thousand dollars.

2. That the said Company shall on or before the first day of April, 1906, erect, complete and equip with proper and sufficient plant and machinery on the said land so purchased substantial buildings suitable for its purposes which with the said buildings shall cost not less than $15,000.00 and shall on or before the said date have the said manufacturing establishment in running order and actual operation and employ therein at least fifty hands.

3. That the said Company shall execute an instrument, in form approved of by the City Solicitor, which may be registered against the said land providing that the said land shall be held by the said Company subject to the condition that in the event of the same within the period of ten years from the date of the payment over to the said Company of the amount paid to it under the terms of this By-law ceasing to be bona fide used as a Rolling Mill or Iron Works substantially in accordance with the capacity thereof for the period of twelve consecutive months, or ceasing to employ in said business at least an average of fifty hands for at least ten months in any year, that the said land and the buildings and machinery thereon shall become the absolute property of the Corporation of the City of Peterborough and free from any claim thereto or therein of the said Company or its assigns unless the said Company or its assigns shall within six months after such period of twelve months for which the said land shall have ceased to be used as aforesaid, pay the Corporation of the City of Peterborough the full sum paid by the said Corporation for or towards the purchase of the same and for the railway siding under the terms of this By-law.

PROVIDED ALWAYS that if the failure to so use the said land is due to strikes or to the destruction of the buildings or machinery by fire or tempest, the time during which the said land shall so cease to be used in consequence of such strikes or destruction of the buildings or machinery (not exceeding in either case one year) shall not be counted in the said period of twelve months which entitles the Corporation to the ownership of said land or to be paid the sum aforesaid.

4. PROVIDED the said Company shall erect, equip, occupy and use the said buildings on the said land within the time hereinbefore limited, the assessment of the said land used exclusively for manufacturing purposes and the building, plant, machinery and fixtures thereon used exclusively for manufacturing purposes on which the taxes to be levied shall, except as to school taxes, be fixed and remain fixed at the sum paid for the said land for a period of ten years, commencing on the first day of January, 1907, and the return and oath of the Assessor or Assessors in respect thereof shall be amended accordingly; but the said land shall also be liable for all frontage and local improvement assessments, rates and taxes, and taxes for school purposes that may be charged against the same—provided however that if the said Company shall at any time within the said term of ten years fail or neglect to carry on the said manufacturing business as above provided, for the time above stated, or shall fail or neglect to carry out any of the terms of this By-law or shall not have in its employment in said business at least an average of fifty hands for at least ten months in the year, then such fixed assessment shall cease and the said lands, buildings, plant, machinery and fixtures shall be assessed as provided by the Assessment Act then in force, and further provided that in the event of any petition being presented to the Council for any local improvement or the City Council desiring to construct any such work, the said Company will not take any action to oppose such petition or work, an agreement to this effect to be furnished by the the Company.

6. The said Company shall prior to the first day of March in each year file with the City Clerk a Statutory Declaration made by an officer of the Company who shall therein state his knowledge of the facts, proving that the Company has complied with and is observing all the terms, conditions and provisions of this By-law and those contained in the said instrument, and on the neglect of the said Company to furnish such declaration it shall be prima facie that such terms, conditions and provisions have not been performed, observed and kept.

7. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the second day of October, 1906, commencing at the hour of nine o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks respectively, that is to say:—

Polling Subdivision Number One—Place, at M. H. Haigh's store, No. 19 George street. Deputy Returning Officer, Josiah Robinson. Poll Clerk John R. Goodfellow.

Polling Subdivision Number Two—Place, L. Spry's shop, No. 210 Stewart street. Deputy Returning Officer, Joseph Lundy. Poll Clerk, Thomas Corkery.

Polling Subdivision Number Three—Place, F. L. Robinson's, No. 237 Charlotte street. Deputy Returning Officer, F. J. A. Hall. Poll Clerk, C. J. Seymour.

Polling Subdivision Number Four—Place, the City Council Chamber. Deputy Returning Officer, R. W. Erratt. Poll Clerk, T. H. McIlrath.

Polling Subdivision Number Five—Place, at store of A. J. Wayne, Jr., No. 356 Charlotte street. Deputy Returning Officer, J. M. Greene. Poll Clerk, Henry Greene.

Polling Subdivision Number Six—Place, J. & W. Metherall's shop, No. 444 Aylmer street. Deputy Returning Officer, J. R. Metherall. Poll Clerk, W. Metherall.

Polling Subdivision Number Seven—Place, John Jane's store, No. 69 McDonnell street. Deputy Returning Officer, John Irwin. Poll Clerk, D. H. Burritt.

Polling Subdivision Number Eight—Place, Wm. Lees' shop, Smith street. Deputy Returning Officer, William Lee. Poll Clerk, Edward Manning.

Polling Subdivision Number Nine—Place, E. H. Munro's residence, No. 198 Dublin street. Deputy Returning Officer, George H. Howson. Poll Clerk, F. Dumble.

Polling Subdivision Number Ten—Place, former Village Hall. Deputy Returning Officer, John Malone. Poll Clerk, John Kerr.

Polling Subdivision Number Eleven—Place, Mrs. Swanston's shop, Hunter street. Deputy Returning Officer, James McDonald. Poll Clerk, Robert Hamilton.

8. The third day of October, 1906, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

9. The first day of October, 1906, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the sixth day of September, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO. 223 PETERBOROUGH, ONTARIO, FRIDAY, SEPTEMBER 21, 1906. PRICE TWO CENTS

MR. COCKSHUTT PRES. OF MANUFACTURERS

Lloyd Harris of Brantford the Ontario Vice-President of the Manufacturers---Have 500 Millions Invested.

Winnipeg, Sept. 21.—The members of the Canadian Manufacturers' Association started on their trip west yesterday. Mr. Henry Cockshutt of Brantford was elected President by acclamation. Hon. J. D. Rolland, Montreal, was elected Vice-President, and the following Provincial Vice-Presidents were elected, namely: Ontario, Lloyd Harris, Brantford; Quebec, G. A. Vandry, Quebec; British Columbia, John Hendrie; Manitoba, L. C. McIntyre. New Brunswick, Charles J. Macdonald; Alberta, A. E. Cross, Calgary; Saskatchewan, E. J. Brooks, Regina.

The place of meeting for next year was left for executive action, but Vancouver appeared to be in general favor.

The newly-elected President, in the course of his remarks, said:

"The manufacturers have, as you know, made immense investments in plant and machinery coming near to $500,000,000, producing nearly five hundred millions of goods, employing hundreds of thousands of hands, and paying out in wages annually over $114,000,000. These employes in turn consume many millions of dollars' worth of farm products. Did you ever realize how closely we depend upon one another? Under these circumstances we ask that the industrial interests of Canada be carefully safeguarded, and that the Canadian markets be to as great an extent as possible saved for our own people, and where this is not possible that the Mother Country and sister colonies have the first privilege of refusal before passing our trade on to foreign nations.

DIVERSITY OF LABOR.

"It has been demonstrated that it is necessary to have diversity of labor and industry to make a great nation, to develop and sustain a great people. This is perhaps never better illustrated than at this time of the year in Canada, when the vast wheatfields of this country demand increased labor for harvesting the crops. At such times the maximum help is urgently needed, and then we organize great excursions and draw upon the supply of workers that are employed in the great industrial centres of Canada. These would not be forthcoming were it not for the fact that at other times of the year they have diversity of employment in other sections of this country. Agriculture, manufacturing, lumbering, mining and fisheries have been, and will likely continue to be, the foundation of Canada's advancement.

MEN OR MACHINES.

"Gentlemen, we are young as a country, and many of us are still young men, but have lived in strenuous days, and we have fought a hard fight. We have our country's prosperity at heart, and, as before stated, we must be either men or machines. We prefer to be men, and prefer to think that Canadians will always stand for the development of everything that will promote trade and commerce and uphold the physical and moral character of the citizens of our country. We can afford to be broad, and we can afford to be liberal and educate our people in the very best lines and help advance on the very best possible scale humanity as a whole. If this is accomplished we shall feel that the industrial life has been benefited, that our industrial marks will be enlarged, and that our country will advance in health, wealth and happiness. Let everybody share in the material progress that is being made, and push forward with determination, born in them by the inspiration that our country will go on to greater and better things."

LOOK OVER THE WALL

ALL BRITAIN CAN GET

London Leaders Comment on Ballantyne's Speech at Winnipeg—Text of Japanese Treaty.

London, Sept. 20.—"The more we hear of the Canadian offer the less it really resembles Chamberlain's romance," says the Leader, referring to Mr. Ballantyne's speech at Winnipeg. "We cannot get inside Canada ourselves, but are to have the satisfaction of looking over the wall and reflecting that foreign competitors cannot even do that."

Openings for women in Canada, says the Tribune, are many and ready at hand. Poultry raising and fruit preserving offer special inducements. The demand for hotel help is very great. Canada may possess drawbacks, but wages are good and hearts are warm.

A blue-book has been issued, containing the text of the British convention with Japan regarding the commercial relations of Canada and Japan. It provides the stipulation that the treaty of commerce and navigation of 1894 and supplementary convention of 1895 be applied to the Dominion.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday a packed audience gathered at the Labor Leathers Club, (cleept the police court.

The first case called was that of William Simpkins, charged with having been drunk and disorderly on Wednesday. William who is a recent importation, from Albion, was soaked $2, which he paid up in small change.

Joseph Rickerby was charged with having been drunk and disorderly on Sept. 14 Mr. O'Connell acting for the prisoner, pleaded not guilty. P. C. Newhall, in the witness box, said that Rickerby had been drunk on Simcoe street, on the date alleged; he saw Rickerby chasing two girls and another lady had hold of her hat Rickerby had caught hold of her. When he arrested Rickerby, a girl named Tibault said, "I am glad you are arrested." It was about 8.30 p. m. Laura Heard, whom he recognised in the court, had complained to him of Rickerby. The prisoner ran from the corner of Queen and Simcoe streets, to the Hunter street bridge, where he arrested him.

Here the magistrate said he would deal with the second charge against Rickerby viz., of loitering on the street and obstructing passersby.

Laura Heard, a young girl, said Rickerby had chased herself and a girl named Tibault, and had caught the latter by her coat. She knows Rickerby personally.

To Mr. O'Connell, she has known Rickerby for some time.

Miss Tibault, said she saw Rickerby that day and thinking that he was coming to speak to her she ran, as Rickerby was drunk. Rickerby took hold of her coat sleeve. Rickerby was fined $10, the chief asked that it be paid forthwith, as there was a fine outstanding already. However he was given ten days in which to pay it, his father guaranteeing the amount.

Mr. McPherson in His New Store

Mr. McPherson the George street plumber yesterday took possession of his future headquarters, the store recently occupied by Messrs. M. L. Henry & Co., grocers. That "Mac" is not letting the grass grow under his feet is shown by the fact that within a few minutes after getting the keys he had men at work tearing down the partition that formerly separated the liquor and grocery branches, and otherwise getting the place into shape for his business. Mr. McPherson to hurry matters also bought the remainder of the grocery stock of canned goods, etc., and last night was selling the goods out at any "old price" or as one customer said, "It's cheaper than stealing them." Mr. McPherson has a large consignment of goods on the way and expects to open by Oct. 1st. with a strictly first-class and up-to-date plumbing, bicycle and electrical supply emporium.

Local Artillery Yearly Inspection

Yesterday C. A. Long of the R.C.A., Ottawa, and Q.M.S. Jordan of Kingston were registered at the Oriental Hotel. These artillery men came here to make an annual tour of inspection. Shortly after arrival they started to work at the artillery armouries. They were assisted in their work of counting and examining all the artillery equipment by Serg. Thos. Guerin.

KILLS CATARRHAL GERMS

Hyomei's Healing Air Reaches Every Part of Nose, Throat and Lungs.

Hyomei is the only scientific and thorough way to cure catarrh. Stomach dosing does not reach the catarrhal germs in the air passages and cannot possibly drive them from the system. By breathing air medicated with Hyomei the germs in the nose, throat and lungs are killed and all traces of catarrhal poison are effectually driven out.

Some people may think that Hyomei is simply for catarrh of the head and throat, but it is equally effective in catarrh of the stomach, liver or kidneys. The catarrhal germs are in the mucous membrane and Hyomei not only kills the germs in the air passages, but enters the blood with the oxygen, thus killing the germs in the blood and freeing the whole system from catarrh.

Hyomei is sold under an absolute guarantee to refund the money unless it cures. A complete outfit costs but $1.00, extra bottles 50c.

For Sale by all dealers. The R. T. Booth Co., Buffalo, N.Y.

Canada's Greatest Actor.

The announcement of the production of "King Richard the Third," on Saturday, matinee and night, Sept. 22, with the eminent tragedian John Griffith, in the title role, promises a great deal to the admirers of Shakespearean drama. Nature has peculiarly fitted Mr. Griffith for this most strenuous of stage portraitures. He has the physical and mental qualities that are ideal for it; in fact, no actor since the days of the peerless Edwin Forrest is so well equipped for this complex and animated character. Mr. Griffith's supporting company is excellent, and his scenic, electrical and mechanical equipment will prove quite a revelation to local theatre goers. Unusual interest is manifested in this engagement and there is every indication of a packed house for John Griffith in "King Richard the Third."

The Black Dyke Band.

This splendid musical organization appeared in the Grand Opera house last night, to a rather light audience. The music, as might be expected, was very fine.

Western Excursions to Detroit, Bay City, Grand Rapids, Chicago, etc., via Canadian Pacific Railway, take place on Sept 20th, 21st and 22nd. Good to return until Oct. 8th. See advertisement in this paper and secure tickets and all information from W. Mollroy, City Passenger Agent, or W. S. Dodd Depot Agent.

THE OPERA TONIGHT

High Class Melodrama at the Grand Opera House This Evening.

"The Shadow Behind the Throne," a high class melodrama which has been pronounced everywhere that it has been seen by dramatic critics and theater-going public alike, to be the very best modern melodrame of many years, to be more magnificently staged as to scenery, costuming and strength of company, than any other melodrame ever presented, will be seen at the Grand Opera house, this evening. The locale of the play, by Alicia Ramsay and Rudolph De Cordova, is China, and the time is The uprising of the fanatical Boxers. This Oriental setting gives the authors and the costumer and the scenic artists opportunity, none of which have been neglected. Rudolph De Cordova, one of the authors, was a war correspondent for one of the great London dailies at the time of the Boxer troubles, and is an acknowledged authority on Chinese life, intrigue and villainy.

Briefly, the story of "The Shadow Behind the Throne" is that of a beautiful young American girl, who is the daughter of the American ambassador at Pekin, and who is loved by and loves an attache at her father's legation. The Chinese Viceroy, who is secretly the leader of the Boxers, also wants to marry the young American girl and through his machinations she is abducted and carried to the Viceroy's Palace, whence she is rescued by her lover, assisted by the Viceroy's chief adviser who is a Mandarin, but really an American citizen, and also through the aid of an American newspaper correspondent. There are thrills throughout the play, but they are natural thrills. There is no exaggeration, simply because the historical events upon which the play is based, were in themselves so sensational that exaggeration is unnecessary. A spirit of American determination and heroism pervades the whole and the romance is simply delightful. Prices, of admission, 25c, 35c, 50c and 75c.

Officers Elected For Boys' Dept.

Interesting Session of Boys' Department Y. M. C. A.

It has been decided to organize the Y.M.C.A. boys and intermediates committee, each with an executive of five members, co-operating with the general boys' committee. The following, are those elected for the ensuing year;

For boys' department;—

Chairman and leader in Bible study, meeting and foreign work.—Harold Payne.

Sec. Treas.—Frank Patterson.

Social and Educational department.—Jos. Pogson.

Physical.—H. Matthews.

Membership.—Grant Foster.

Intermediates.

Chairman—Fred Hall.

Sec. Treas.—Stanley Madill.

Social, etc.—John Evans.

Physical.—H. E. Stuby.

Membership.—Wilbert Yelland.

The boys' Friday meetings will continue and three Bible study groups will be organized.

Local Man Buys The Hasting Star

The press of Peterborough is weakened and that of Hastings equally strengthened by the purchase, and future management of that bright little sheet, the Hastings Star, by Mr. F. S. Hubbs, foreman of the Review press room.

Mr. Hubbs purchased the Star from Mr. T. E. Scriver and will take possession on October 1st. The Star under Mr. Hubbs' management, will doubtless continue to flourish. Mr. Hubbs will make several improvements to the plant. Many friends will learn of his departure from Peterborough with regret, but will join in wishing him success and in congratulating the citizens of Hastings upon getting a live man from a live city to educate them to a high standard.

LAKEFIELD FAIR

The dates of the Smith, Ennismore & Lakefield Agricultural Society's annual exhibition have been changed to Thursday and Friday, Sept. 27-28, to avoid conflict with Peterborough's dates.

This year the Fair will be held in the new grounds of the society a block west of the Presbyterian church in Lakefield. Prize lists, etc, can be obtained from W. Sherin, secretary, Lakefield, Ont.

C. P. R.'s NEW LINE

Mr. Leonard, Will Meet the Council's Manufacturers' Committee Next Week.

The Manufacturers' Committee of the City Council were to have met last night, but there were not sufficient members present to form a quorum. However, the committee's energetic chairman, Ald. McWilliams divulged the fact that he is in receipt of a letter from Mr. Leonard, assistant general manger of the C.P.R. eastern lines, saying that he will be coming west some time next week and will make a point of meeting the committee in connection with the Canadian Pacific's new line from Victoria Harbor, Georgian Bay. Ald. McWilliams has been working energetically to get the railway authorities to recognize the importance of this new grain route entering Peterborough on its way to the main line and if the desired grade can be secured everything indicates that Peterborough will be on the line of the accepted survey.

It appears that the C.P.R. must have for this new line a sufficient grade to assure them a maximum carrying capacity for a minimum amount of motive power.

This is important on account of the enormous grain traffic from the west to the eastern seaboard, and those conditions must prevail at all cost along the entire route of the proposed short cut "From Georgian Bay eastward." If Peterborough is to have connection with this new line, the desired grade must be maintained, and it is in the interest of this city that its citizens see to it that the railway company are not handicapped in any way in their effort to place Peterborough in direct connection with Victoria Harbor via the Canadian Pacific's new line.

The Fall Fair a Sure Success

The success of Peterborough's Fall Fair, weather permitting, is now absolutely assured. Every day brings in long strings of entries, and the secretary, Mr. F. J. A. Hall, says he never knew the fair to be so far advanced as it is at the present time. He is spending the greater part of his time in the interests of the exhibition.

Every committee is working hard and intelligently towards the completion of their work.

Appointments for the positions of constables, ticket sellers, gate keepers, etc., and no army of strong, capable men have already been made. The society will give the exhibitors every assistance possible in protecting their animals or exhibits of any kind.

"COFFEE DOESN'T HURT ME"

Tales That Are Told.

"I was one of the kind who wouldn't believe that coffee was hurting me," says a N.Y. woman.

"You just couldn't convince me its use was connected with the heart and stomach trouble I suffered from most all of the time. My trouble finally got so bad I had to live on milk and toast almost entirely for three or four years. Still I loved the coffee and wouldn't believe it could do such damage.

"What it needed was to quit coffee and take nourishment in such form my stomach could digest. I had read so much about Postum, the cereal coffee, but never thought it would fit my case until one day I decided to quit coffee and give it a trial and make sure about it. So I got a package and followed the directions.

"Soon I found I began to get better and was able to eat carefully selected foods without fear of pain or other distress and it was not long before I was really a new woman physically.

"Now I am healthy, hearty and sound, can eat anything and everything that comes along and I know this wonderful change is all due to my having quit coffee and go the big quantity of nourishment I needed through this delicious Postum in place of the dangerous coffee and tea.

"No wonder is why everyone don't give up the old coffee and the troubles that go with it and build themselves up as I have done, with 'Postum.'" Name given by Postum Co., Battle Creek, Mich.

Easy to prove by ten days' trial of Postum in place of coffee. The reward is big and "there's a reason."

Lindsay Visited by Mr. Lasell.

Our readers will remember that Mr. C. B. Lasalle, of New York, by getting out fire charts in this city netted the cloud brigade the handsome sum of $108 towards a firemen's Sick Benefit Fund. This gentleman, the Lindsay Watchman-Warder says is in that burg doing the same thing for the fire laddies of Scugogville. The Warder says in conclusion, Mr. Lasell has the endorsement of the mayor, Dr. E. A. Vrooman, and Chief Harry Bell, and is calling upon local manufacturers, merchants and financial institutions, soliciting advertising for the chart.

For the Stomach Heart and Kidneys

Dr. Shoop's Restorative is a Cause Cure—not a Symptom Cure.

It is a common mistake to take artificial stimulants for stomach troubles—or heart stimulants for weak heart—or so-called kidney remedies for diseased kidneys. These organs do not act separately or of their own accord—they have no control over themselves—and not once in 500 times is the sickness the fault of the organ. It is the fault of the nerves which control the organs—and only through these nerves can stomach, kidney or heart disorders be cured. Dr. Shoop, of Racine, Wisconsin, learned early in his medical experience that these inside nerves were the power nerves—that through them only was it possible to cure indigestion, heart trouble, bura, backache, insomnia, headache, heart weak nesses, and Bright's disease and all other affections of the kidneys. For all of these ailments are not separate sickness and are not to be treated as such. They are merely symptoms of nerve trouble and when the nerves are restored the symptoms and the sickness disappear. The remedy which Dr. Shoop prescribed for these ailing nerves is known as Dr. Shoop's Restorative. It relieves the pain and distress of kidney, stomach and heart troubles quicker even than those medicines designed simply to give temporary relief. Dr. Shoop's Restorative can now be had of druggists everywhere. For sale and recommended by

J. D. TULLY.

NO GROUND FOR DEAKIN'S PLAINT

Correspondence Shows Canada Did All She Could to Get Reciprocal Tariff---Canada For Freer Trade Relations.

Ottawa, Sept. 21.—When the correspondence is presented to the Dominion Parliament at the approaching session it will be seen how earnestly the Canadian authorities labored to establish preferential trade relations with the Australian Commonwealth and how little ground really exists for a statement attributed yesterday to Premier Deakin about Canada not having responded to the letters on the subject.

Canada's offer of preferential rate has been open to Australia ever since Hon. Mr. Fielding submitted the present Canadian tariff to Parliament nine years ago. But in addition to this standing offer, as it were, the Canadian authorities made it known that if Australia wished she could have a special arrangement that might be of more practical value to her exporters than the flat preference rate of 33 1-3 per cent. all around.

D. B. Ross, Canadian Commercial Agent, has been employed to press the matter upon the Commonwealth, and he has fulfilled his instructions most fully, so that one is quite warranted in saying that if Australia denied minimum Customs rates to Canadian importers it was done deliberately, and in the absence of any justification for this attitude of hostility toward Canadian business interests, our people can only suspect the motives back of the position that the Commonwealth statesmen have seen fit to adopt.

ACT ON IT SOME DAY.

President Roosevelt, whose International Waterways Commission was in session in Washington recently, suggested to the Canadian commissioners that it would be much to Canada's advantage if she had a representative of her own resident in Washington, whose services would be available in the negotiation of matters affecting Canada's interests. This suggestion has been made more than once already, and will no doubt be acted upon some day.

A Blackguard Chases a Girl

Trouble Owing to Tree Darkened Pavement on Sherbrooke Street.

A lady living on Sherbrooke street, yesterday called at The Times office and complained of the action of three men one night before last on that thoroughfare, asking us to call attention to the improper system of street lighting in vogue there as on other streets of the city.

Our informant, a lady of high standing in the city, noted that on Wednesday evening as a young girl was walking along Sherbrooke street on her way home, a buggy containing three men, drove to the edge of the pavement which was in partial darkness owing to the heavy shadow thrown by the trees. One of the men jumped out and deliberately ran after the girl, who terrified, fled as fast as she could run. Fortunately before this brute in human shape could catch her, the girl reached home and quickly forcing the front door open, arrived in the hall in a half fainting condition. The man then rejoined his companions in the buggy and drove off. The frightened girl was seriously upset by her misadventure and for some time it seemed as though she would collapse altogether.

Our informant, as have other citizens, was emphatic in her denunciation of the present system of electric lighting in streets whose sides have shade trees. The trees, owing to the well known fact of electric light impelling a dense shadow when its rays are intercepted, put the pavements, that portion of the streets where artificial light is required for protection of pedestrians, into almost complete, and certainly dangerous darkness. It is time that this city wakes up and adopts the system now used in more modern towns of pendant lights in or near the center of the streets, so that our sidewalks may be safe and comfortable for those walking out after dark.

Feminine Scrap on Brock Street

Speaking of John L. Sullivan, Jeffries, Fitzsimmons and Corbett and other pugilists, last night a scrap took place between nine and ten o'clock on Brock street, just in front of Fitzgerald's carriage factory, that would put all the prize fighters in the Shiddo Club.

Two young girls rooming on Water street, one called the other short, got into a dispute about something, and then the bangs and cosmetics flew, the smaller girl knocked her umbrella into a 1,711 pieces over her rival. In the meantime the gentlemen accompanying these two ladies calmly looked on. The scrap ended, as usual when women fight in this and make up.

A. O. F. At Home Was a Success

A very pleasant event was the social gathering given by Companion Circle, Queen Alexandria, No. 136 of the A.O.F., to Court Stanley No. 7680, of the same order. The at home, held in the fine hall of the Sons of England, was largely attended and almost enjoyable evening was spent.

Mr. E. J. McWilliams acted as chairman and the program consisted of vocal and instrumental music and recitations. The program included a piano solo by Miss M. Moss, a gramophone selection, a violin solo, efficiently rendered by Miss Webster, piano solo by Miss Ethel Goudenough, and a Scotch recitation by Miss Barr.

After the program, refreshments were served and a jolly social time spent.

Demetre Bros. to Open Restaurant.

Messrs Demetre Bros., proprietors of the fine fruit and confectionary store, corner of George and Charlotte streets, will in a few days open a fine new restaurant, with handsome individual tables, to the rear of their premises. Mr. Demetre, head of the firm is in the city attending to this important feature of the firm's business.

Identification Error Corrected

The Dr. W. W. Turver Arrested in Buffalo Was Not a Peterboro' Man.

In our issue of Sept. 17th, we published a query as to whether the Dr. Turver, arrested some days ago in Buffalo, N.Y., in connection with the alleged death of a girl in one of the doctor's two hospitals in that city, might not be Mr. Turver who, some 35 years ago, operated the Turner House, afterwards the Cassie House and more recently the Grand Central Hotel.

We were yesterday in receipt of a communication which speaks for itself, and endorses our statement as to the former Peterborough man having studied medicine and having practised medicine in Buffalo. The letter received reads as follows.

Editor Times, Peterborough;

Dear Sir,—You are in error in your item in today's Times, identifying Dr. W. W. Turver as a former resident of Peterborough. "Capt." Turver who at one time was landlord of the old Cassie Hotel, afterwards the Grand Central, did sundry medicine after leaving Peterborough, and practised some years in Buffalo, and died in that city some years ago, and his widow still resides there.

Yours truly,
SUBSCRIBER.

Chemong Park, Sept. 17th, 1906.

Mrs. James White Passed Away

Yesterday morning Mrs. James White, 223 Rink street, passed away at her residence. Mrs. White, who was universally respected by all who knew her, died after a long and serious illness. The deceased had resided in Peterborough practically all her life and had many friends. She is survived by her husband and one daughter, Miss Mary Laurine, who resides at home. A sister, Mrs. W. J. Wetherhead, and her mother, Mrs. Hugh Gormally, both of Toronto, also survive.

Deceased was a member of the Roman Catholic church. The funeral arrangements have not yet been made.

COWS HAD CIDER JAG

AND MILK SUFFERED

So the Town Went Dry and the Official Excuse Was the Cows Had Stomach Ache.

New Haven, Conn., Sept. 20.—William E. Hunter, a milkman at Naugatuck, sent word to his customers yesterday that he could not furnish them with milk as usual because his herd of cows had stomach ache. A milk famine in the town resulted, and hurry calls were sent to this city for milk to supply the babies and children.

Hunter has a fine herd of forty cows and usually they are well behave, but Tuesday afternoon some of the more frisky of the number leaped the pasture fence into an apple orchard on Mr. Hunter's farm, began feasting on the windfall apples, and were soon suffering from pain under their belts.

The remainder of the herd unable to withstand the temptation, tore down the fence and now only cleaned the ground of fallen apples, not ate all it reach as well. When Mr. Hunter went out to drive them to the stable all were found to be full. Late because of too much apple juice. In the morning the milk was unfit for use and Mr. Hunter says it may be several days before he can resume business."

"Holy Rollers" Influence Sends Cash.

Hastings Star says: A resident of Hastings last week received from a man at Carleton Place a cheque to cover an account which the former had given up hopes of ever getting. The "Holy Rollers" have been working in that district for over a month and the debtor had become a convert. Let the business men of Hastings send an invitation to the H.R.'s to come there. There is plenty of ground to work on.

A Eonifide and Gilt Edge Investment

In a MATURED MINE

—NOT A PROSPECT—

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 13 feet wide, do not know how deep, which assays from 3 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—12 carloads or 1,200 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 1 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Medell, 251 Markham street, Toronto, Ontario.

PALE AND ANXIOUS

Your Countenance Indicates the Body's Awful Struggle for Health

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 424 King St. East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c boxes or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

English Office—39 Fleet street, London, E. C.

TIMES PRINTING COMPANY,
Publishers and Proprietors,

UNION LABEL

PETERBOROUGH, SEPTEMBER 21 1906

WHAT IS PROSPERITY?

The Times is in receipt of a private letter from New Zealand, which would make intelligent persons stop and think. To get a clear conception of the country let us set forth a few facts.

The population is 800,000. The public debt of the country is $275,000,000, or more than $100 per capita. New Zealand is as near as could be to a pure democracy as interpreted by dominant labor unions, which control everything. If New Zealand were a system of state socialism and the state owned all in sight, this would be a large, a depressing public debt. The writer does not make clear what the state has to show for this great incumbrance.

The writer quotes from a report of the Premier of the colony, which claims that everything indicates the blissful condition of labor in the realm he exercises so much influence over. Among the most significant facts set out is that in ten years the deposits in savings banks in New Zealand have increased from $19,000,000 to $40,000,000. That looks like queer prosperity from our point of view. It is not much to double so low a figure as the base taken above is less than ten years. That the savings of nearly a million people should be at any time so small as either figure given for the colony would mean to our minds a state of severe depression.

Rents are exceedingly high in New Zealand as compared with wages. Wage earners have to pay 25 to 33 per cent. of their wages for lodgings. It is probable that the owner of the property which rents so high makes a very small profit out of his investment. At a mere glance it might seem otherwise, but with so large a public debt and the expenses of the government to be met mostly from a tax on land and improvements on them the tax collector must take a big slice out of the rents. There is no income from tariff, and the aggregate wealth of the country is small.

It is stated that wages have been forced up by artificial legislation made at the behest of the dominant labor unions, but short hours and high wages have had their inevitable effect. The price of every necessary of life has climbed up faster than wages. The result is that the wage earners are no nearer, but much further, from being able to make ends meet.

Instead of encouraging industry and thrift this labor-union legislation discourages them. No person is free to pursue his own course in earning a living. A man is not at liberty to work in his own garden excepting during working hours. If he works before hours or after hours, or on Sunday, he is liable to a heavy fine. It is slavery to mob government, pure and simple.

But the worst feature of all is the destruction of self-reliant, resolute manhood. Everything must be done by the letter of the law. Work so many hours, no more. Close your shops and stores at the clang of a bell. Rely on the government, not on yourself. The result is that the new generation is incompetent, shiftless, irresolute, improvident. All virile qualities have died out. There is no fixed purpose, no ambition, no determination. No young man starts out with strong will to carve out a career for himself. He "plugs" along at a job, takes his wages, "the most pay for the least work" is his motto. When a job gives out he betakes himself to the government office and demands that a new job be looked up for him.

There is the picture. Small industries and high taxes, high wages and low living. Low tariff and high prices for all that goes to make life possible, not to speak of comforts. High pay and low performance, with high cost on all you use. High restriction on all sorts of industries and enterprises and low manhood. The latter states that abject poverty is unknown. What, if it is? Mediocrity is stamped on all New Zealand, even on the souls and minds of all her people. The struggle for life, the struggle for mastery, a noble aim for to climb, to be something, is pref a a thousand times to this miserable low level of mediocrity. Let us be free to struggle if only some of us can mount to a higher plane of manhood. Let us even suffer if only noble ambitions are gratified in the strain of nerve, brain and muscle. Freedom to strive like man is better than to become menial dwarfs under the repressive coddling of a paternal government which holds its subjects in leading strings, as dependent at thirty as at five, or as at seventy. Give us manhood out of the struggle or let us perish in defeat if we prove ourselves unable to mount. Better perish early, a weakling eagle, than crawl forever as a worm.

A Difference of Five Millions

Ottawa, September 20.—The suit which the Quebec Government instituted some time ago to collect succession dues to the amount of $35,000 from the estate of the late E. B. Eddy opened in Hull yesterday and upon the examination of Mr. C. S. Cushman, manager of the estate, was adjourned till Friday, when arguments will be heard. The estate submitted a statement as to the value of the property left by Mr. Eddy, which was challenged by counsel for the Quebec Government.

There is a difference of five million dollars in the estimate of the value of the Hull mill and property, as made by the Quebec Government and the estate. The case is being heard by Judge Rochon.

Lucas County. }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal.] A. W. GLEASON,
Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

TOOK REFUGE IN TREES

Fifty People Drowned and Thousands of Cattle Lost.

Portsmouth, England, Sept. 20.—The despatch from Guadalajara yesterday states that the correspondent of the Jalisco Times at Nasatian wired this paper as follows:—

"Fifty-one persons were drowned in the recent floods in Santiago, Ixcluntle and adjacent districts in the territory of Tepi. The bodies, it is stated, were taken from the river. During the flood many persons took refuge in trees, remaining there until boats were sent to their rescue. It is reported that 500 people are homeless.

"Widespread damage has resulted from the inundation in Sinalo. Several river towns have been partly destroyed, thousands of cattle drowned, and crops in many sections."

Nervous? There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diplomas in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when "everything else" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations,
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfill all expectations if given ample time for completion.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms. Our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Moment" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Mountain, 91-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 150 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

Only Colonel Hastings was astonished, and Mr. Albert Hastings shocked.

"I thought she would have preferred to exercise her power a little longer before surrendering her liberty," said Colonel Hastings, musingly.

"I hoped she would not soon forget. I always loved that girl, and I believe that she loved me. I did not think that any woman's love could have expired so soon," said Mr Hastings, indignantly.

"Ah, my dear fellow, her passion did not go into a gentle decline in the natural way of such transitory feelings, it was put to a violent death!" said the colonel, with a shrug.

"Yes, by the shock she received in recognizing me at the castle. Well, it is all over now," sighed Albert Hastings.

"Pho! if there is one thing in this world more tiresome than another, it is to be obliged to repeat the same things over and over again to people upon whom you can make no sort of impression. Have I not told you that if, instead of the Duke of Beresleigh, it were a royal duke to whom she was contracted, I would, with a word, break the marriage off?"

Albert Hastings looked at his worthy father in incredulous astonishment.

"Yes—you doubt me; but wait a few days, and see if you do not have the breaking off of this intended marriage as publicly announced as its contraction was. I shall call upon Lady Etheridge to-day."

This conversation took place in the breakfast parlor at Hastings House, as the father and son sat over their coffee and muffins.

Colonel Hastings was as good as his word, and in the course of the same day presented himself at Beresleigh House, and sent in his card, with a request to see Lady Etheridge.

He received the answer that Lady Etheridge was engaged, and could not have the honor of seeing Colonel Hastings.

This was just what he had expected; so he went into a neighboring reading-room, whence he addressed a note to Lady Etheridge, to the effect that he wished to see her upon matters of the utmost importance, concerning herself mostly.

To this note he received an answer that any matters which Colonel Hastings had to communicate to Lady Etheridge must be addressed to her ladyship's solicitor.

Colonel Hastings was baffled for the time. He permitted a day to pass, and then addressed the following note to Lady Etheridge:

Hastings House, Sept. 12th, 18—.

Madam:—That which I have to communicate to your ladyship is a matter which you may not like to have confided even to your own solicitor, and which can be communicated to your ladyship alone. Abiding your ladyship's orders to wait upon you, I have the honor to be, madam, your obedient servant,

William Henry Hastings.

Rose took this note immediately to the duchess, who read it and laughed, saying:

"You are no daughter of Eve if you do not see the old gentleman, and find out what he means. See him, my love; see him; I confess to some curiosity."

Rose accordingly wrote a note to Colonel Hastings requesting him to call the succeeding day at twelve o'clock.

Punctually at noon the next day the colonel presented himself. He was shown at once into the library. Rose soon entered. This was the first occasion upon which Rose had ever met the father of her former lover. She advanced with cold dignity, saying:

"Colonel Hastings, I presume?"

"The same, madam. I have the honor of addressing Lady Etheridge?"

"Yes, sir. Will you be seated?"

"I thank you, madam," said the colonel, handing a chair to Lady Etheridge, and taking one for himself.

They sat down at opposite sides of the reading-table.

"You demanded an interview with me, sir; may I be informed for what purpose?" inquired Rose, coldly.

"I requested an interview with you, madam, in order to communicate a fact which came to my knowledge through my very intimate and confidential relations with the late baron, and which vitally concerns your present position and prospects."

"My—which concerns my present position and prospects! I do not understand you, sir."

"Your present position as Baroness Etheridge of Swinburne; your prospects, as the affianced wife of the Duke of Beresleigh."

"I am very sure that nothing which Colonel Hastings can have to communicate can in any way effect the one or the other," replied Rose, in so haughty a tone that the old gentleman lost some measure of his temper and self-control, as he said:

"We shall see that, madam. Your ladyship has heard of me, perhaps, as the lifelong, intimate friend of the late baron?"

Rose bowed, haughtily.

"You are also aware that I was left the guardian of the person and property of the young lady who was brought up as his heiress?"

Again Rose bowed in cold silence.

"You have also heard, perhaps, that upon the last day and night of the late baron's life, when he refused to see either physician or clergyman, he summoned me to his bedside, where I remained until he died?"

"I have heard so," said Rose, very coldly.

"On that last day and night of his life, the late Baron Etheridge of Swinburne confided to me a secret," said Colonel Hastings, pausing.

"Well, sir?"

"That secret, that fact, of which I am the only custodian, of which I only possess the proofs, would, if proclaimed, cast you down from your present high position to your former penury and obscurity," said the colonel, slowly, watching the face of Rose to see the effect which his words produced.

She turned a shade paler, but made no comment.

"You now know whether this secret concerns you or not," said the colonel, sarcastically.

"Pray go on, sir; play the play out," replied Rose.

"That secret, that fact, with all its proofs, which, once divulged, would cast you down from wealth and rank to poverty and obscurity, is mine alone! and whether it shall ever be divulged rests with me and you alone! I only have the power of dashing the coronet of Swinburne from your brow; you only have the choice of bidding me close my lips forever or open them upon this subject."

"Pray proceed, sir; tell me what is in your power to divulge, and the terms of your silence," said Rose, sarcastically.

"I will. The secret confided in me on his death-bed, by the late Baron Etheridge, of Swinburne, together with the proofs for establishing the fact, was the existence of another, the only true heir of the barony of Swinburne, before whose claims all others must shrivel up as stubble before the flame," said the colonel, solemnly.

"I am not surprised. It is just what my heart prophesied," thought Rose, within herself.

"You believe what I state, Lady Etheridge?"

"Yes, I believe it; I thoroughly believe it. Now, then, tell me the name of this rightful heir," said Rose, earnestly.

"Nay, Lady Etheridge; the name of that heir is a secret that I dare not confide, even to yourself, as yet."

"Very well; then tell me the terms upon which you will forever close your lips upon the subject of this supposed heir," said Rose, with a sarcasm so fine as to escape the apprehension of the obtuse intellect of Colonel Hastings.

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 150x1500 feet.

The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 5,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $3,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, thereby making them belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $60,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $35,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Investors Beware

of investing before investigating. THE GREAT WESTERN OIL REFINERY & PIPE LINE CO., of Erie, Kansas, courts investigation, and we are anxious to get in touch with investors who are willing to be convinced.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads, with side tracks to both. The Company owns without debt a 1,500 barrel per day capacity plant, running night and day, which is the largest, most complete, modern independent Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number), which furnish fuel for the entire plant and is sufficient for a 5,000 barrel capacity, which the Great Western proposes to have (in fact they are now increasing the capacity to 2,500 barrels per day) which is the reason that some of the capital stock is now offered to the public for subscription.

The Company owns leases on hdreds of acres of oil lands, with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different States, and the laws passed to protect the independent refinery against unfair competition, makes an investment in this Company one which is sure to bring large returns. In proof of this statement, will say that the Company one day recently shipped 21 car load lots of refined oil and by-products and on another day received orders for 43 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of the same, we can fill your order at

25 Cents Per Share

cash or installment, until said option is all sold out, which should be within a very short time.

We would suggest that you write us immediately for free particulars, copies of letters from bankers, etc., which will be sent free. We will also send you a copy of our book "Oil & Gold" if you wish it. This book gives history and statistics of the prominent Oil fields and Gold districts of the United States. Address:

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 30 to 50 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $3.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

These Medical Facts

You Can Study With Profit.

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of the transfusion of fluids through its component parts.

Up to a certain point the body has power to object to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay, and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable, contain no mercury, no bismuth, no injurious mineral ingredients of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved, and famous cures made every day by Dr. Hamilton's Pills, as this letter proves.

From Newfoundland, Miss Lillian Anthony, of Upper Gullies, Conception Bay, writes: "In praise of Dr. Hamilton's Pills, I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples, but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Insist on having only Dr. Hamilton's Pills, 25c. per box or five boxes for $1.00, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—County Council, special session, will open this morning at ten o'clock.

—A meeting of the Manufacturers' Committee was held last night.

—WANTED—A woman to do cleaning. For address apply to this office.

—The next sitting of the First Division Court will be held on Friday, October 12 h.

—A present with every twenty-five cent. purchase of school books at Times Bookstore.

—See the south window display for bargains in fancy china suitable for wedding presents.—Times Bookstore.

—The confirmation class of St. John's Church for confirmation will meet in this evening at eight o'clock.

—The pace for the village of Norwood this year is 23 3-10 but a half heat of 1 4 10 units compared with the pace of 1905.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—Mr. R. M. Roy has sold over 50,000 of his illustrated post cards during the summer season. This is how Peterborough people do business.

—Mr. Jas. Rogue, contractor for the new school has decided to prosecute all trespassers on the premises during the building operations.

—An enterprising sparrow has built his nest in a ceiling corner of the police court, and twitters cheerfully to the Weary Willies usually present.

—Mr Fred Wright, lately from England, will find something to his advantage by calling at the office of Messrs Thos. Patterson & Co., 161 Simcoe street.

—*Belleville Intelligencer says:* It seems to be settled that the terminus of the Trent Valley Canal will be at Trenton. That is where sensible people expected it to be.

—The Black Dike Band which played there last night are arrayed in a costume that would make the Queen of Sheba look like a dyed "Mother Hubbard" stuck on a clothes pole.

—"Harry Direct," Mr. H. Nesbitt's fast horse emerges in the free for all at the Lindsay Fair races. We venture to predict that *Harry Direct* will get a bunch of "coin" money, as usual.

—The shipments by car load from the Hastings G.T.R. station during the past week were as follows:—Three cars of hogs, one of apples, two of cheese, one of wheat and three of cattle.

—Why do not boys owning dogs broken to harness hurry up and make their entries for the Fall Fair! Good prizes and good fun await those who enter their dogs. Wake up boys and get "Rover's" name on the list.

—The general committee to make further arrangements regarding the reception and entertainment of delegates to the coming convention of Baptist churches of Ontario and Quebec, held a meeting yesterday evening.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—A yesterday's police court a witness, after admitting undre oath, he had had three glasses of beer, said that within a few minutes afterwards, he smelt liquor off a local policeman's breath. Those versed in such matters will regard this as a record in olfactory ability.

SOCIAL AND PERSONAL

—Mrs S. Dickson Hall will not receive until the latter part of October.

—Miss Cathcart, of Toronto, is a guest this week at Mr. E. A. Peck's.

—Messrs. Jas. O'Brien and James Lynch left yesterday for Saginaw, Mich.

—Mr. H. A. Perry and wife, of Schenectady, N.Y., are guests at the Oriental.

—Mrs. T. B. Maniere and son, Earle, are the guests of Mrs. W. C. McGregor, Lindsay.

—Miss Edith McCormick of Toronto, is a guest of Miss Kate Graham for a few days.

—Miss Lottie Middleton has returned after spending a week in Rochester with friends.

—Misses M. and A. Tate are spending a few days with friends in Peterborough.—Hastings Star.

—Mr. Robt. McCollum returned to the city yesterday after spending a week in Orillia on business.

—Mrs Jas. Dolan left yesterday afternoon on a six weeks' visit, accompanied by Miss Clara Connors to Chicago.

—Mr. Geo. Chalmers yesterday shipped another lot of men yesterday to Sault Ste. Marie, to work in the lumber camps.

—His Lordship Bishop O'Connor has returned after a three weeks visit to the northern portion of his diocese. Most of his time was spent between Parry Sound and the French River.

—Mr. Edward Ellmer, of Oakland, Cal., after an absence of 30 years is in the city renewing acquaintances with old friends. Mr. Ellmer was some 30 years ago a member of the Peterborough Fire Brigade.

—Mrs. J. R. Stratton yesterday afternoon was "at home" and a very large number of invited guests enjoyed the fair hostess' hospitality. The 57th Regiment Band, present by kind consent of Lt.-Col. Miller, discoursed sweet strains on the beautiful lawn of Strathormond. Several tents specially erected on the lawn made a bright and attractive route ensemble.

Fresh Air Fund for Peterboro.

It is altogether probable that a "Fresh Air" fund will be organized next summer in this city. If this is carried into execution it is likely, and right, that contributions towards so commendable a purpose will pour in. The Salvation Army may be asked to take charge of the fund and its disbursements.

Whose Say-so Is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Rennet Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Barlow, of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, irregularities, prolapsus or falling of the womb, retroversion and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of women's peculiar ailments, who frankly and confidingly takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special ailments and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is *free*. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing *only*; in cloth binding 50 stamps. Dr. Pierce's Pellets cure constipation.

BY-LAW NUMBER .....

A By-law to Aid the Rapid Tool Company, (Limited.)

Passed the day of 1906

WHEREAS the Rapid Tool Company (Limited) proposes to establish in the City of Peterborough a manufacturing establishment for the making of auger bits and other tools and to purchase the land and buildings formerly occupied by the Canadian Ultimator Company, being parts of lots 18, 19 and 21, south of Hunter street east, formerly Elizabeth street, according to Corporate plan 1A for the City of Peterborough, formerly known as the Village of Ashburnham, more particularly described as follows:—Commencing at the north west angle of said lot 21, thence southerly along the westerly limit of said lot 21 and in line with the same extended southerly across lot 19, thence in the same direction to a point 24 links southerly from the nothern boundary of said lot 18, thence easterly in a line parallel with the southern boundary of said lot 18 to the easterly boundary of said lot 18, thence northerly along the easterly boundary of said lot 18, 19 and 21 to the north east angle of said lot 21, thence westerly along the northern boundary of said lot 21 to the place of commencement, and to erect thereon additional buildings at a cost of at least Three thousand dollars, and to equip the same with the necessary plant and machinery at a cost of at least Sixteen thousand dollars, and to employ therein within six months after operations are commenced at least twenty-five hands, and has applied to the Council of the City of Peterborough for aid in establishing the same by a grant of Twelve hundred dollars, being the value of the said land so to be purchased, exclusive of the building thereon, and by granting partial exemption from taxation for a period of ten years by fixing the assessment of the said manufacturing establishment at the said sum of Twelve hundred dollars.

AND WHEREAS it is desirable and in the public interest to encourage the promotion of the said industry as aforesaid.

AND WHEREAS it will be necessary to borrow the sum of Twelve hundred dollars, the amount required as aforesaid, by the issue of debentures for the same, which said sum of Twelve hundred dollars is the amount of the debt intended to be created by this By-law.

AND WHEREAS the amount of the whole rateable property of the Municipality according to the last revised assessment roll, being for the year 1906, is the sum of Six million six hundred and sixty-three thousand six hundred and twenty-six dollars ($6,663,626).

AND WHEREAS the amount of the existing debentures debt of the Municipality, exclusive of local improvement debts out including the debt of $292,000 incurred for the purchase and improvement of the waterworks, is the sum of Seven hundred and four thousand and fifty-five dollars and nine cents ($704,055.09) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of Forty-eight dollars ($48) to be raised annually for a period of twenty years, the currency of the debentures to be issued under and by virtue of this By-law for paying the interest on the said debt, and the sum of Forty-two dollars and forty-five cents ($42.45) to be raised annually during the said period for providing a sinking fund for the payment of the same at maturity; such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes due, making in all the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually as aforesaid, by special rate on the whole rateable property of the Municipality.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF THEREFORE ENACTS AS FOLLOWS:—

1. This By-law shall take effect on the final passing thereof.

2. It shall and may be lawful for the Corporation of the City of Peterborough to borrow the sum of Twelve hundred dollars and to issue debentures of the Corporation for the same, such debentures to be sealed with the Corporate seal of the said City of Peterborough and signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust and to be payable within twenty years after the issue thereof and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures, by special rate upon all the rateable property in the City of Peterborough liable thereto, the sum of Forty-eight dollars ($48) for payment of the interest on the said debt and the sum of Forty-two dollars and forty-five cents ($42.45) as a sinking fund for the payment of the said debt at the maturity thereof when the said debentures become payable, making together the sum of Ninety dollars and forty-five cents ($90.45) to be raised annually for the purposes aforesaid.

4. The proceeds of the debentures to be issued under and pursuant to this By-law when sold shall be given to the Rapid Tool Company (Limited) to aid the said Company in the promotion of the said manufacturing establishment by the payment of the purchase money of the said land above described upon and only upon and subject to the terms and conditions hereinafter mentioned and until the said conditions shall have been fully performed and satisfied, the said Company shall not be entitled to the said money or any part thereof or to any interest in or right to the same.

The conditions upon which the said grant shall be made are as follows:—

1. That the said Company shall obtain a good title in fee simple to the said land free of all encumbrances.

2. That the said Company shall on or before the first day of January, 1907, erect on the said land an additional building suitable for its purposes at a cost of at least Three thousand dollars and instal in the same and in the building now on the said land at least Sixteen thousand dollars worth of plant and machinery suitable for the manufacture of auger bits and other tools, and shall on or before the said date have the said manufacturing establishment in running order and in actual operation and shall within six months thereafter employ therein at least twenty-five hands.

3. That the said Company shall execute an instrument, in form approved of by the City Solicitor, which may be registered against the said land, providing that the said land shall be held by the said Company subject to the conditions that in the event of the same, within the period of ten years from the date of the payment over to the said Company of the amount paid to it under the terms of this By-law, ceasing to be bona fide used for the manufacture of auger bits and other tools or other manufacturing business approved of by the City Council substantially in accordance with the capacity thereof for the period of twelve consecutive months, or ceasing to employ in said business at least an average of twenty-five hands for at least ten months in any year, that the said land and buildings and machinery thereon shall become the absolute property of the Corporation of the City of Peterborough and free from any claim thereto or therein of the said Company or its assigns unless the said Company or its assigns shall within six months after such period of twelve months for which the said land shall have ceased to be used as aforesaid pay the Corporation of the City of Peterborough the full sum of Twelve hundred dollars.

PROVIDED ALWAYS that if the failure to so use the said land is due to strikes or to the destruction of the buildings or machinery by fire or tempest, the time during which the said land shall so cease to be used in consequence of such strikes or destruction of the buildings or machinery (not exceeding in either case one year) shall not be counted in the said period of twelve months which entitles the Corporation to the ownership of said land or to be paid the sum aforesaid.

5. PROVIDED the said Company shall erect, equip, occupy and use the said buildings on the said land within the time hereinbefore limited, the assessment of the said land used exclusively for manufacturing purposes and the building, plant, machinery and fixtures thereon used exclusively for manufacturing purposes on which the taxes to be levied shall, except as to school taxes, be fixed and remain fixed at the sum of Twelve hundred dollars for a period of ten years, commencing on the first day of January, 1907, and the return and oath of the Assessor or Assessors in respect thereof shall be amended accordingly; but the said land shall also be liable for all frontage and local improvement assessments, rates and taxes, and taxes for school purposes that may be charged against the same—provided however that if the said Company shall at any time within the said term of ten years fail or neglect to carry on the said manufacturing business as above provided, for the time above stated, or shall fail or neglect to carry out any of the terms of this By-law or shall not have in its employment in said business at least an average of twenty-five hands for at least ten months in the year, then such fixed assessment shall cease and the said lands, buildings, plant, machinery and fixtures shall be assessed as provided by the Assessment Act then in force, and further provided that in the event of any petition being presented to the Council for any local improvement or the City Council desiring to construct any such work, the said Company will not take any action to oppose such petition or work, an agreement to this effect to be furnished by the the Company.

6. The said Company shall prior to the first day of March in each year file with the City Clerk a Statutory Declaration made by an officer of the Company who shall therein state his knowledge of the facts, proving that the Company has complied with and is observing all the terms, conditions and provisions of this By-law and those contained in the said instrument, and on the neglect of the said Company to furnish such declaration it shall be prima facie taken that such terms, conditions and provisions have not been performed, observed and kept.

7. The votes of the electors of the City of Peterborough qualified to vote upon By-laws for creating debts shall be taken upon this By-law on the second day of October, 1906, commencing at the hour of nine o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following places and before the following Deputy Returning Officers with the following Poll Clerks respectively, that is to say:—

Polling Subdivision Number One—Place, at M. H. Halpin's store, No. 19 George street. Deputy Returning Officer, Josiah Robinson. Poll Clerk, John R. Goodfellow.

Polling Subdivision Number Two—Place, L. Spry's shop, No. 210 Stewart street. Deputy Returning Officer, Joseph Lundy. Poll Clerk, Thomas Corkery.

Polling Subdivision Number Three—Place, F. L. Robinson's, No. 227 Charlotte street. Deputy Returning Officer, F. J. A. Hall. Poll Clerk, C. J. Seymour.

Polling Subdivision Number Four—Place, the City Council Chamber. Deputy Returning Officer, R. W. Ewett. Poll Clerk, T. B. McGrath.

Polling Subdivision Number Five—Place, at store of A. J. Warne, Jr., No. 356 Charlotte street. Deputy Returning Officer, J. M. Greene. Poll Clerk, Henry Greene.

Polling Subdivision Number Six—Place, J. & W. Metheral's shop, No. 464 Aylmer street. Deputy Returning Officer, J. R. Metheral. Poll Clerk, W. Metheral.

Polling Subdivision Number Seven—Place, John James' store, No. 242 McDonnell street. Deputy Returning Officer, John Irwin. Poll Clerk, D. H. Burritt.

Polling Subdivision Number Eight—Place, Wm. Lee's shop, Smith street. Deputy Returning Officer, William Lee. Poll Clerk, Edward Manning.

Polling Subdivision Number Nine—Place, E. H. Mann's residence, No. 198 Dublin street. Deputy Returning Officer, George H. Howson. Poll Clerk, F. Dumble.

Polling Subdivision Number Ten—Place, former Village Hall. Deputy Returning Officer, John Malone. Poll Clerk, John Kerr.

Polling Subdivision Number Eleven—Place, Mrs. Swanston's shop, Hunter street. Deputy Returning Officer, James McDonald. Poll Clerk, Robert Hamilton.

8. The third day of October, 1906, at the hour of twelve o'clock noon and the City Clerk's Office are hereby fixed as the time when, and the place where, the Clerk will sum up the number of votes given for and against the By-law.

9. The first day of October, 1906, at the hour of twelve o'clock noon and the office of the City Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in and promoting or opposing the passing of the By-law respectively.

Mayor.
Clerk.

NOTICE

Take notice that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the seventh day of September, 1906, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG,
City Clerk.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 224 PETERBOROUGH, ONTARIO, SATURDAY, SEPTEMBER 22, 1906. PRICE TWO CENTS

SIR WILFRID IN THE VANGUARD

Thomas Ogilvie Says the Premier Leads in Canadian Progress---Gap in the Fiscal Ladder.

London, Sept. 22.—The Manchester Guardian, commenting on the Canadian Manufacturers' Association meeting at Winnipeg, says: "They wish two things, a substantial preference for the Mother Country, and a minimum tariff which shall afford them adequate protection against the same Mother Country. We have no desire to question the benevolent feelings of Canadian manufacturers toward us. We have no doubt their two aims are, in their eyes, as transparently human as they are transparently simple. Still we cannot help feeling somewhat aggrieved at the manufacturers. It is not flattering to us to assume that none of us can see through the gap between these two rungs of the fiscal ladder."

HAS CANADA'S AFFECTIONS.

The Aberdeen Chamber of Commerce banquet to members of the Franco-Scottish Society was attended by a large number of prominent Frenchmen.

Mr. Thomas Ogilvie, proposing "The Parliaments of Great Britain and France," referred to the recent visit to Canada, and said he had carried away many impressions of the great resources of the country, and the breezy optimism, the splendid energy and enterprise of its people. One other impression was that the man who stood in the vanguard of Canadian progress, who enjoyed the confidence and respect, one might almost say the affection, of the Canadian people, was Sir Wilfrid Laurier.

THE PREMIER'S TACT.

Lord Aberdeen, responding to the toast "The Franco-Scottish Society," said he was indebted to Mr. Ogilvie for his reference to the manner in which that vast population of most excellent people—the French-Canadian—lived and flourished in loyal adherence to the British throne and Empire. When the Premier of Canada was in Paris some people thought it would be a little difficult for the Prime Minister of a great section of the British Empire to speak in appropriate terms, but Sir Wilfrid Laurier, with his skill, was quite equal to the occasion.

On the occasion, Lord Aberdeen referred to Sir Wilfrid was at a Paris banquet, and said, "L" as representing in some sense the intelligent regime in France, "I lift my glass in honor of the French Republic, and also in honor of my own Sovereign, King Edward, who is the friend of France."

An Old County Resident Dead

Norwood Register says: Ann Faux, relict of the late Oliver Buck, died at the residence of her son, Mr. Oliver Buck, about half a mile south east of Norwood, last Wednesday. She was one of the oldest persons living in the township, being in her ninety-fifth year. Mrs. Buck was born in one of the eastern counties of England, and was a life-long Methodist. During these later years she has been practically confined to her room, and, as the weariness of old age has increased, has longed for her departure to the better land. Her husband predeceased her by twelve years.

Deceased was the last of a family of eight—four boys and four girls. Of a family of ten, eight children survive her, viz., James H. and Oliver, of Asphodel township; George and Thomas and John, Mrs. Worden and Mrs. Brown, all of whom are living in Michigan, and Mrs. Downer, whose home is in Saskatchewan. The interment took place in the family plot at Norwood cemetery on Friday afternoon.

The bearers were Messrs. Thomas D., John D. and George Buck, John Wildman, Thomas McMillan and Geo. Jones. Rev. W. H. Adams, pastor of the Methodist church officiated.

Electric Lamps Were Inspected.

Last night the Fire, Water and Light Committee of the City Council met at the old power house of the Peterborough Light and Power Company to inspect the new arc lamps, preparatory to making a report to the Council at the next meeting on Oct. 1.

Local Policeman Goes to Orillia

Allegations were made by certain young men of the city, who were on trial Thursday morning, and most of whom were fined $2 each, for creating a disturbance last Saturday to the effect that P.C. Newhall was drunk when trying to quell the alleged disturbance they made. It will be remembered that the Police Magistrate took their evidence "cum grano salis," and notwithstanding the universality of their testimony plainly intimated that the very exactness and agreement of the testimony they gave was not without suspicion, fined several of them as noted.

As partial proof that the statements made regarding P.C. Newhall were not given very serious consideration it might be noted that he was sent last night to Orillia to bring a prisoner arrested in that town to Peterborough.

Piles positively cured with Dr. Leop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Itching, painful, protruding or blind piles, disappear like magic. Sold by J. D. Tully.

Ass't. G. M. of C.P.R. to Meet Council

At the committee meeting of the City Council Ald. McWilliams announced that he had received a letter from Mr. J. W. Leonard, Assistant General Manager of the Canadian Pacific Railway, to the effect that the latter gentlemen will be in Peterborough next week. He starts early in the week for a trip through Western Ontario, and will make every effort possible to meet the council of this city, or representatives of it, before he returns.

The visit of Mr. Leonard is in connection with the construction of the new C.P.R. line from the Georgian Bay to connect with the main line from Toronto to Montreal, and which it was announced recently would pass by Peterborough, and connect with the main line, west of or at Havelock.

Those in this city, best acquainted with matters of transportation have never taken seriously the rumored report that the C.P.R. would leave Peterborough off the new map to be made by the C.P.R., when their new line may be completed.

There is only one thing in this matter that is an absolute certainty and that is that the C.P.R. will do justice which means that "ceteris paribus" Peterborough will get the line.

Insurance Men to Meet Here

An important meeting of one of Canada's most important business institutions, by their representatives, will be held in this city on Sept. 26th when the Life Insurance Underwriters' Assurance Association gathers here.

It is expected that the meeting will be of a most interesting nature as a full report of the general meetings of the Underwriters' Association held in Toronto, will be presented by the local delegates. The object of the general meeting was to discuss resolutions to bring before the Royal Insurance Commission.

The meeting is called for 10.30 a. m., and will be held in the board room of the Toronto Savings and Loan Co.

SUN STROKE

Followed by Partial Starvation.

The effects of sun stroke upon the digestive system are often very severe, as well as upon the nerves.

An Ind. lady had a striking experience:

"Four years ago I was sun struck, and my stomach so congested it was terribly painful even to swallow liquids, and as nothing would stay on my stomach, I began to fear starvation. I finally became perfectly helpless and was given up by our physician.

"A neighbor told me how much good Grape-Nuts had done her husband, who suffered with dyspepsia, and her son with typhoid fever, so I began to use this wonderful food, and slowly began to recover until now I am strong and well again. I can eat anything I want, and think Grape-Nuts one of the greatest blessings that was ever given to suffering humanity.

"When I began to use Grape-Nuts I only weighed 118 lbs. Now I weigh 148, and the past four years have been a blessing almost beyond belief, and if I had not personal experience, I could hardly believe what I know is true. My nerves are steady, memory clear and I owe my fine condition to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

"There's a reason."

Salvation Army Gets Donations

Great Preparations Being Made for Their Harvest Festival.

Every thing in and about the local Salvation Army barracks, with the consequent bustle and business goes to show that great efforts are being made to ensure the Army's harvest festival being a success. Their festival will be held on Saturday, Sunday, Monday and Tuesday next. The building is being attractively decorated under the supervision of Staff-Capt. and Mrs. McAmmond. The following donations which will be sold on Monday night have been received and thankfully acknowledged, viz.:

Graniteware, from Thomas Davis Co., Montreal.

Box of soap, from Comfort Soap Co., Toronto.

Swiss flour, from the P. Mein Co., Toronto.

Cases Canada Flakes, from Peterborough Cereal Co.

Binder twine, from Canadian Cordage Co., Peterborough.

Wood, from the Peterborough Fuel & Cartage Co.

200 brick, from the Sanda one Brick Company.

An interesting feature of the festival will be the presence here of Brigadier Hargrave, an officer of 20 years standing, together with Mrs. Hargrave.

The brigadier, after five years service at the London, England headquarters, was transferred to Canada in 1895, and since then has held the positions of Chancellor of Central Ontario, Chancellor Eastern Ontario, territorial headquarters, provincial officer in Eastern Ontario, Pacific Provinces and in Western Ontario. Mrs. Hargrave has been an officer for 27 years, and travelled with Genera Booth in the early part of her career. In 1899 she was married to Brigadier Hargrave.

Brigadier and Mrs. Hargrave arrive on the 5.10 train Saturday afternoon and will be accorded a hearty welcome by the local corps.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. It contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike petrolatum. It soothes heals, purifies, controls. Call at our store for free trial box. J.D. Tully

Long Bros. Have Sold Their Stores

Important Business Change Whereby Old Established Firm Quits.

The old established, universally respected and successful firm of Long Bros., confectioners and caterers have sold out their two large George street establishments to Mr. T. H. Hooper, also a successful business man in the same line here.

Mr. Hooper has already taken possession of these two new additions to his already rapidly growing business. The new proprietor of this enlarged business will conduct his old stand, 327 George street and also the two additional stores. It is likely that the store at the corner of Brock street will be closed.

Thirty years ago, or in 1876, Messrs. Long Bros. commenced business in this city, occupying a stand two doors west of where W. H. Hamilton's grocery is now situated. They remained there for some a year and then removed to the stand where James Long has had charge of the business. The business prospered and in September, 1882, they bought from David Leney, the store at 414 George street, where Mr. Harry Long has had charge of the business.

It might, with interest, be noted that Mr. Hooper, who has purchased the twin establishments, was at one time an employe of Messrs. Long Bros. He learned the business with them and remained with the firm until nineteen years ago, when he went into business for himself.

The retirement of Long Bros. from business removes one of the oldest establishments of the city. It is further to be remarked that Mr. Hooper's offer, and consequent business deal came as a complete surprise to the Long Bros., who had no idea or intention of selling out a week ago.

Such enterprise as shown by Mr. Hooper cannot but result in his holdings and increasing the large business already so well known to be done by Messrs. Long Bros.

LAKEFIELD FAIR

The dates of the Smith, Ennismore & Lakefield Agricultural Society's annual exhibition have been changed to Thursday and Friday, Sept. 27-28, to avoid conflict with Peterborough's dates.

This year the Fair will be held in the new grounds of the society a block west of the Presbyterian church in Lakefield. Prize lists, etc., can be obtained from W. Sherin, secretary, Lakefield, Ont.

Music at St. John's.

On Sunday morning Mr. Ritchie, of Detroit, will sing the offertory solo, and (Mr and Mrs. Firth will sing in duet at the offertory at evening service.

Do you want a Golden Message from the Sunshine District of Colorado. See last page.

Applications for Refuge Matron

Yesterday morning the County Council, with Warden Johnson in the chair, and Messrs. Simson, Webster, Maloney, Garbutt, Shaw, Monague, Buck, Andrews and Carey, also present, went into executive session.

After County Clerk, Ed. Elliott had read the minutes of the last meeting a petition to the Minister of Railways and Canals, referring to the completion of the Trent Canal, similar to the one forwarded by the Peterborough Board of Trade, was read by Warden Johnston.

On motion by Councillors Shaw and Garbutt, the petition was received and referred to the Committee on Petitions.

Clerk Elliott pointed out that the petition was supposed to be from this council, and it looked peculiar to receive their own petition.

On this suggestion the motion was changed to read that the motion be considered by the Committee on Petitions re regulating the depth of water in the Trent Canal.

A communication was received from W. G. Robertson, stating that the Evens bridge was in a dangerous condition. Mr. Robertson wanted the east end of the bridge lowered so as to remove the danger. The Warden said it would only take a few dollars to do it, and he thought it had better be done.

The liability for accidents on the Evens bridge was left for solicitor E. A. Peck to decide, although Councillors Buck and Garbutt were of the opinion that the contractor, Mr. Conroy, was responsible yet, if ever he was.

Council adjourned at 11.45 until two o'clock.

During the afternoon session, Councillor Johnston, referring to clause 11 of the June session, concerning a grant of $100 to the township of Belmont for improving the Stony Lake road, provided that township contribute $50 and the Ontario Government $200, with an additional proviso that the petitioners for this grant furnish certain free labor, said he had given two men authority to look after this work, and agreed to give them $50 each. These men had put in a bill for $53.30 and $50 respectively each. The council agreed to pay the $53.30 excess.

Four applications were received for the position of superintendent and matron of the County House of Refuge. The salary connected with the positions is $560 for both, including free house, table, etc.

The applications received were from the following:

Thomas H. Wilson, Warsaw.
Henry Beavis, Hammer.
J. J. Crowe, North Dummer.
J. Paul, Lakefield.

On motion the council went into committee of the whole to discuss the appointment and regulations for maintenance.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday an elderly man named John Powers was charged with vagrancy at the police court, and after making a kick at the hard lines kismet had wound round his earthly career, almost smiled benignly when his Worship suggested the comforts and seclusion to be found amid the shady cloisters of Casa Jo Nesbitt, would about suit his complaint. After the court had adjourned John was released from temporary detention in a cell at the station, handed his warrant of commitment to jail, and after trying to "touch" the chief for a nickle "to get an eye-opener on the way up to the jail," walked up unaccompanied to his residence of the next three months. It might be noted that John's attempted touch for the nickle did not bear fruit the chief telling him it was against his principles to hand our coin to buy drink.

As an aftermath of the recent robbery of $15 from an old man, by name Sullivan, several youths of the city in a bus in the National Hotel yards on the night of August 8th, it is of interest to note that Earl Downey, 16 years of age, who skipped out for Chicago, a few days ago, returned to the city and was promptly arrested. Downey it seems was the "Big mutt" among the boys touching up Sullivan. Yesterday morning he was fined $5, the magistrate letting him off light rather than hurt his future prospects.

Yesterday morning about 9 o'clock P. C. Newhall arrested a young man named Frank Anglesia, on suspicion of being connected with the theft of a hat and other articles at the Montreal House, which took place a few days ago.

When brought into the station, Anglesia had on a nearly new christy stiff hat. On examination it was seen that the sweat band inside the hat had had a name cut out. When asked by the chief where he got the hat, Anglesia replied, "I bought it in Toronto." Unfortunately the hat had one of Lech & Sons labels pasted inside the crown.

Anglesia has been employed as a collector for the Metropolitan Life Assurance Co.

Whilst under examination by the police as to his whereabouts for the past few weeks, the prisoner said that he had been boarding until Monday last with a Mrs. Martin on London street; on Tuesday night he slept at the American House, Hunter street, and on Wednesday and Thursday nights at the Windsor Hotel.

Shortly after his arrest the police went to the Windsor Hotel, and in Anglesea's room discovered a dress-suit case, containing clothing stolen from the Mon real House and later on located an overcoat at "Mac's" the George street tailor, where the prisoner is alleged to have taken the garment for pressing. P. C. Newhall found the watch alleged to have been stolen from the Montreal House on the prisoner's person. While making a search of Anglesia's person in the police station, P.C. Newhall noticed the prisoner slip the watch chain inside his trousers. The jewellery, however, slipped down the prisoner's pant leg and then he, Anglesea, tried to hide it behind a pew that supports the roll bench. His case, tried by a special session was enlarged for one week.

A Short Time For Investment

Rare Opportunity to Get Stock in Paying Oil Refinery Cheap.

It is universally understood that more fortunes are made these days, and in quicker time in oil than by any other channel of investment. Oil is a commodity of general and absolutely necessary use, and the demand now is daily growing greater. Oil either crude, refined petroleum, naptha, gasoline is to assured demand and always commands a ready sale.

The Great Western Oil Refinery and Pipe Line Co., of Erie, Kansas, is one that not only offers a golden opportunity for those fortunate enough to purchase its stock on the ground floor at half price, for a specified limited time, but courts investigation as to its standing, properties and every detail connected with it. The company owns fifty-three acres of proven oil and gas lands, situated at the junction of two railroads with side tracks to both; this is an important factor as cheap and easy transportation is thus assured. The laws of Kansas protect the independent oil companies so that the great difficulty experienced in other states, where the Standard monopoly can crush out competition is eliminated.

This company is not selling stock on a prospect or chance as they own, free of all debt, a 1000-barrel per day capacity plant, running night and day. The company owns its own gas wells, and is thus provided with cheap fuel for its immense plant, and sufficient for a 5,000-barrel per day plant.

They now intend doubling their present plant, and are thus, for a limited time only, i.e., to October 1st, offering a block of stock par value 50 cents per share, at 25 cents per share. If orders are mailed before Oct. 1st for stock it will be sold at above noted at half price, on the basis of one-fifth down and one-fifth monthly for four months. It is expected by experts that this stock will soon be worth $1 a share and paying dividends.

For full particulars write at once to Wm. Fife & Co., 511D., Mack Building, Denver, Col.

On motion the council went into committee of the whole to discuss the appointment and regulations for maintenance.

ENCOURAGE LOCATION OF NEW INDUSTRIES

Reasons Advanced by Manufacturers' Com. Why Both Bylaws to Aid New Industries Should be Carried by a Substantial Majority.

The Manufacturers' Committee of the City Council met last night and decided to seek the circulation of the following reasons why the bylaws to aid the Steel Rolling Mills and the Rapid Tool Company, should be substantially supported by a majority vote of the ratepayers on October 2nd next.

It might be pointed out here that the success of both institutions as prosperous manufacturing concerns is assured beyond a doubt, and should Peterborough ratepayers vote these measures down, other municipalities are on the qui vive to secure the establishment within their jurisdiction of these exceedingly promising institutions. All ratepayers should turn out on October 2nd, and mark their ballot with a big X in favor of both bylaws, and thus secure for Peterborough two industries which can readily command elsewhere better inducements for location than this city is offering.

The following is the appeal of the City Manufacturing Committee, practically as endorsed by the Council in Committee of the Whole;

To the Freehold Electors of Peterborough;

Ladies and Gentlemen,—

In view of the great importance of the votes to be taken on October 2nd, on the bylaws to purchase sites for the Peterborough Steel Rolling Mills Company, and the Rapid Tool Company, the Manufacturers Committee of the Council desire to present to you an authoritive statement of the terms of each of the agreements, and the reasons which have led the Council to recommend the carrying of the bylaws. The material provisions of the agreements are as follows:—

STEEL ROLLING MILLS COMPANY

The company undertakes to erect buildings and machinery to cost at least $35,000, to employ an average of at least 50 hands, to be in operation by the 1st day of April, 1907, and to continue the operation of the works substantially according to the capacity thereof, and with an average of at least 50 hands, for the period of ten (10) years. In return therefore the city agrees to pay a site which shall not cost the city more than six thousand dollars ($6,000), and to fix the assessment at the price paid for the land for ten years if the land chosen costs more than six thousand dollars the company must pay the differences, if less, the city pays less. If the land found to be best suited to the company's business is not adjacent to a railway, adding the cost of getting a siding in may be included in the cost of the land, but in no case shall the city pay more than six thousand dollars. The cost to the city, if the maximum amount is required, will be $452.17 per annum, equal to 62.3 cents per thousand dollars of assessment per annum. The company will not receive the city's contributions until the plant is in operation as required by the agreements, and if they fail to carry on the work for the ten years their lands become forfeited to the town unless they repay the six thousand dollars now contributed. The city's interests are amply secured by an agreement equivalent to a mortgage registered against the lands of the company.

THE RAPID TOOL COMPANY.

This company agrees to erect buildings to cost, at least three thousand dollars and instal machinery to cost at least sixteen thousand dollars, to employ at least 25 hands and to continue the full operation of the plant for ten years. In return the city contributes twelve hundred dollars ($1200), which is the assessed value of the land, excluding buildings, which the company has secured on Hunter street east. Exactly similar provisions as in the preceding bylaw are made to insure the construction of the works and their operation for ten years, and to secure to the city the payment of the amount now advanced in the event of default. This bylaw will cost the ratepayers $90.45 per annum, equivalent to 1 1-3 cents per thousand dollars assessment per annum.

The committee has no hesitation in recommending the passing of these bylaws. Both industries are of the kind which employs only highly skilled and highly paid labor, and are such, as it is very greatly to the interests of the city to secure. We cannot afford in this period of great growth and keen competition among the towns and cities of this Province to pass any opportunity of strengthening our position as a leading manufacturing center. There can be no question about the security which the town holds in the event of either of the companies not being successful.

The establishment of these factories will mean more work for every mechanic and laborer, more trade for every merchant, greater conveniences in getting materials to many of our factories, and a general benefit to every person interested in the city. The factories will be established if a sufficient number of the ratepayers take the trouble to turn out to vote, and we would most strongly urge on every voter the importance of his casting his own vote.

St. Luke's Harvest Festival a Success

The harvest festival in St. Luke's church was, as usual a grand success. Among the visiting clergy present were; Rev. Canon Davidson, M. A. rector of St. John's; The Rev. Wm. Major, rector of All Saints'; Rev. E. W. Pickford, rector of Christ Church, Norwood, Rev. Canon Cody, of Toronto, and the Ven. Archdeacon Warren, B.A., of Lakefield.

The special preacher was Rev. Canon Cody, M.A., D.D., LL.D., rector of St. Paul's church, Toronto. His address was a marked feature of the service.

The church was prettily decorated with flowers, fruits and the products of the harvest, these being used extensively for the adornment, giving a very pretty effect.

The musical part of the service, under control of Prof. J. L. Armstrong, was most admirably rendered.

Canon Cody's address was eloquent, appropriate and listened to with great interest.

Rev. Mr. Langfeldt and the committee in charge have great reason for congratulation over the success of the festival.

Ennismore Line Now Completed

Peterboro' Can "Hello" With the Cross at Ennismore.

And now another link has been forged in the vast and useful chain whereby the Bell Telephone Company links together Peterborough and her outlying townships and villages as well as with the greater outside world. The fact that this company spends thousands of dollars in connecting outlying and distant rural districts, where the expense often overbalances the income is proof positive of their desire to serve the public and should be noted by those who are too often anxious to hurl the undeserved epithet of monopoly against one of Canada's greatest factors in her progress.

Yesterday the company completed the line between Ennismore and this city. The subscribers, outside the centre station at the "cross" are Rev. Father Fitzpatrick and Messrs. P. Scollard and Gormley.

Another big Gold and Silver strike in Colorado. See last page.

Hastings After Radiator Co.

Norwood Register says: A public meeting was held in Hastings on Monday of last week at which the subject of discussion was the bylaw to assist the Peterborough Radiator Company in establishing the works of the company in that town. There were about fifty persons present. Short addresses were given by a number of citizens. Those present seemed to be strongly in favor of the passing of the bylaw. The vote will be taken on Monday next.

Do You Easily Tire?

If a Day's Toil Exhausted Body or Brain, Find The Reason Why.

We all inherit a disposition to disease. With one it's consumption, another heart disease or perhaps nervousness.

At first you are languid, but as the fatigue increases, you lose appetite and spirit, feel as if work wasn't in your line.

Surely no clearer evidence of ill-health is needed.

Thousands have been in the same sickly condition; those who heeded not were sorry—those who used Dr. Hamilton's Pills were cured.

Your weakness proves germ life has eaten up the vitality of the blood, and a cleansing tonic like Dr. Hamilton's Pills is urgently needed.

At once your blood will redden and gain strength.

Digestion will so improve that additional nourishment will be supplied to all needy organs.

Surplus vigor will be instilled into the system till disease and weakness are completely driven out.

Truly wonderful in the tonic effect of Dr. Hamilton's Pills which are considered the best system purifier extant.

When you can renew your health with this safe vegetable remedy, the prescription of a noted physician, your duty is clear. Get Dr. Hamilton's Pills at once.

Remember this: It is the prescription of an eminent physician you use in taking Dr. Hamilton's Pills. Absolute safety and permanent results guaranteed in every case of languor, weakness, headache and debility.

Price 25c. per box or five boxes for $1.00, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn, U. S. A.

A Bonifide and Gilt Edge Investment
In a MATURED MINE
NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—13 carloads or 1,300 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 3 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 35 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.
United States Internal Revenue Collector, CAPT. GEO. H. WHEELOCK, Vice President.
United States Deputy Marshal H. E. PAGE, Secretary.

100 PER CENT. IMMEDIATE PROFIT!

LAST CHANCE

The Great Western Oil Refinery and Pipe Line Company, of Erie, Kans.

Courts investigation, and we are anxious to get in touch with investors who are willing to be convinced, but owing to the fact that our option expires October 1st, it is necessary that you send us your order immediately if you wish any of this 50 Cent stock at 25 Cents per share. Investigate 30 days and if not satisfied we will return your money in full. The thing to do now is to act, and act quickly.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads with side tracks to both. The company owns without debt, a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete modern Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number) which furnishes fuel for the entire plant and is sufficient for a 5,000 barrel capacity which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered the public for subscription.

We advise that you wire or mail your order today NOW!

The Company owns leases on hundreds of acres of oil lands with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different states and the laws passed to protect the independent refineries against unfair competition makes an investment in this company, one which is sure to bring large returns. In proof of this statement, will say that one day recently the Company shipped 21 car load lots of refined oil and by-products and on another day, received orders for 42 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of this stock, we can fill orders

At 25 Cents per Share

cash or installment of One-fifth Cash and One-fifth Monthly for four months, providing your letter bears the postmark of OCTOBER 1st or prior thereto We positively cannot fill your order unless it shows this postmark. Remember this and act accordingly.

Stock in the GREAT WESTERN OIL REFINERY AND PIPE LINE COMPANY, will soon be selling for $1.00 per share and paying dividends. You will NEVER again (no matter how long you live) have an opportunity to make a safer, surer investment.

UNION LABEL

PETERBOROUGH, SEPTEMBER 21 1906

PARLIAMENT TO MEET IN NOVEMBER

Parliament will meet in the third week of November if present arrangements hold good. There probably will be a two weeks' adjournment over Christmas and New Year's day. The tariff commissioners have made considerable progress with the proposed tariff bill. It is semi-officially given out that while the changes in the tariff will be numerous they will not be of a radical character, and that the prevailing idea is to increase Canada's trade with the mother country.

The government, finding the date of the proposed meeting of the colonial conference in London in May likely to conflict with the parliamentary session of 1907, suggested a change, but it appears that May suits a majority of those concerned, and as the session probably will last through June and well into July, there is some uncertainty as to the attendance of Canadian ministers at the conference.

The conference of provincial premiers, summoned to take place on the 8th of October, is to deal with the proposed readjustment of the subsidies payable to the provinces out of the federal treasury.

Rheumatism is not incurable, only beware! You that Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. 'Tis the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives them [illegible] from the blood and then Rheumatism dies. We recommend and sell. St. J. D. Tully.

How Long May Man Live?

(To the Editor of The Times.)

Sir,—Should a man living a normal life, live 100 years? The question is being raised again, I see. Well Flourens says that a normal animal lives five times the period of his growth. That would give man just a century of life. But Buffon says every animal lives six or seven times as long as it grows. This would give man a normal age of 120 to 140 years. The insurance tables, however, do not bestow such longevity. After all, what man lives a normal life? Old Parr lived to be 152, and then killed himself by going on a "tear" up in London. The great Harvey made the post-mortem examination of old Parr, and has left it on record that his viscera were all sound, the cartilages of the ribs had not ossified, and there was no obvious reason why he might not have lived for fifty years more if he had not kicked up his heels and tried to paint the town. Cut off in his prime at 152! What warning this is to elderly gentleman who try to "do up" the metropolis!

But, after all, human longevity is something apparently beyond all the theories of man. It confutes all his figures. It would seem that since the flood the average span of life has not changed. There were some extremely old persons in the days of Abraham, and there have been some wonderfully long-lived folk in modern times, but the Scriptural three-score-and-ten seems to be a good general rule—with the added years if they come "by reason of much strength."

There is an old Highland proverb that runs:

"Thrice the life of a dog is the life of a horse, thrice the life of a horse is the life of a man, thrice the life of a man is the life of a stag, thrice the life of a stag is the life of a crow."

One word more about longevity. I believe it can be produced or at least perpetuated by breeding, just as other qualities can. Go into a country graveyard and study the tombstones. You will find certain families gifted with remarkable longevity. And where these long-lived families have intermarried you will find that the longevity has been perpetuated.

VERITAS.

BACK TO ENGLAND

Remains of Rear Admiral Chichester Placed Aboard Battleship.

Gibraltar, Sept. 20.—The American squadron arrived here two days ahead of their time to assist in the ceremony of transferring the remains of Rear Admiral Sir Edward Chichester to England. The Americans landed a detachment to assist in the removal of the body to the British battleship Formidable, which left for England last night. Salutes were fired by the foreign fleets.

VICTIMS OF TOBACCO SMOKERS

Next to the Curse of Liquor Drinking—Respectable People Should Discountenance It—Legislation Should "Outlaw" It.

(To the Editor of The Times.)

Sir,—When one contemplates for a moment the carefulness of conditions which prevailed when the Gilmour hotel, of Ottawa, burned down, language is simply powerless to indicate more than a "mite" of its meaning.

Then when we consider that the roasting of alive people helpless in the grasp of sleep, and the destruction of valuable property was the result of some one carelessly throwing the "stub" of a cigar or a lighted match in the elevator well, every person, a tobacco user or not, should demand a reason why such a curse is not prohibited by law.

How the wretch, who is responsible for the untold loss of precious lives and valuable property, must feel his Satanic meanness when he heard of what took place as a result of the gratification of a filthy and universally condemned habit.

It is no exaggeration to say that there is not a man of sane mind, when controlled by his better judgment, to be found any where but will condemn the use of tobacco as a habit.

There is poison enough in one five cent plug to kill any person in a very few minutes' time, if this poison was extracted and taken at one time.

Apart from this fact, the danger to which property and life is continually exposed by live matches and cigar or cigarette stubs being thrown carelessly down, and the thrower generally looks for a corner or hole to throw them in, should have outlawed the habit years ago.

Probably nine-tenths of the fires devastating life and property in towns and cities, as well as those doing the same kind of misery-producing work in the rural districts, are the result of the tobacco smoking habit.

The five million dollar fire loss in Toronto, besides hotel and life and property losses in other places too numerous to mention, could be traced, by proper investigation, to some careless smoker of tobacco.

It is high time that this arm of the devil was chopped off and cast away from human society, and it will certainly cease to find a user, for you may put your tobacco out where the animals roam and even a hog will not touch it.

The government should be pealged on every side by the well-meaning people of our land, and learned the lesson that human life and valuable property is of far more account than revenue, no matter what the amount may be.

Let thinking people who use tobacco stop setting bad examples before the boys, the use of which does endless harm to the boys in many ways, and go in with an earnestness for legislation to prohibit the curse once and for all.

Thanks for valuable space, yours sincerely.

BUILDING AN EMPIRE

THE NEW METHOD PURSUED IN CANADIAN NORTHWEST.

Remarkable Tribute of a Writer in a New York Magazine—"Things Run Better Here," Say Americans in Canada—The Lure of the Wilderness—From Engineer to Grand Piano—Conquering the Last Frontier.

The leading article in "Success" Magazine of New York for August is one on the Canadian Northwest, called "Conquering the Last Frontier," by Samuel Merwin, and gives a graphic description of how an empire is there being built. Part I. of the article, entitled "Our Lost Empire" follows in part:

Definition number seven, in Webster's unabridged, of the transitive verb, "to lose," reads: "To fail to obtain or enjoy; to fail to gain or win." Twenty five years ago Canada was young and diffident. Today she is strong, rich, and a little proud. Then had we thought it worth while to make advances, it is difficult to say what might or might not have taken place. Now, there are half a million American settlers in Manitoba and Saskatchewan and Alberta, and, if you should ask them, you would find that they are not at all interested in the annexation question. "Things run rather better here," they say, "than in the States. The administration of justice is much more satisfactory. We see no advantage in changing."

If you have ever felt, as I rather fancy you have, that it is in you to explore strange, new countries for yourself, that you would not hesitate very long between going into something in the dry goods way and going into something in the empire-building way, you will do well to open the atlas to the map of North America and let loose your imagination in the splendidly romantic conquest of that Far Northwest which we know very little about, but which we shall, willy nilly, learn a good deal about before "Jim" Hill, and the new Grand Trunk Pacific and the Canadian Northern, and the Canadian Pacific, and the Dominion Government get through with it. They are building—while you wait,—an empire with which we, of these States, shall very shortly have to reckon.

New Method of Empire Building.

It is the first time an empire was ever built in just this way. The rifle has no place in the undertaking. Thanks to the century-long influence of the Hudson's Bay Co., the Indians and half-breeds are docile. Thanks to the Anglo-Saxon sense of order, and to the Royal Northwest Mounted Police, there are few or none of those "bad men" who have infested our frontiers. The conquering army is made up of farmers and cows and sheep and horses and ploughs and harvesting machines. The advance skirmishers, if you could see them at work, are hardy young men in rough clothes who carry transits and levels, and travel with pack horses or, in the depth of the winter, with pack dogs.

It is these hardy young men of the transit in whom we are most interested here. The farmer makes excellent foundation material, — the best there is, in fact; but like certain of the others of us he is neither very exciting nor very decorative. In small parties for reconnoissance work, in large parties for survey work, scattered over three thousand miles for construction work, the engineers are blazing the steel trails across the prairies and through the wilderness. Before many of them lies hardship, perhaps starvation. For the larger survey parties provisions are freighted out by Indians and cached where expert woodsmen can find them. But the small reconnoissance parties, plunging into the northwestern mountains for six months at a time, can carry only a few staples. When gun and rod fail, they must eat dog. In winter—and winter is winter up there,—they must roll up in a blanket or two and sleep under the stars. A Canadian Pacific engineer, poor Vance, was frozen to death west of Battleford two winters ago. I know an engineer who has slept under canvas when the camp thermometer registered fifty-six below zero. I know another engineer who thinks little, at forty below, of rolling up in a single Hudson Bay blanket on the snow. In summer this same country is hot, and, in places, dusty, and along the river bottoms the insect pests are all but unbearable. The minute and tedious work of surveying and map-making is relieved only by intervals of pushing through rough country, of building rafts in order to ferry supplies, instruments, and records across rivers, of cutting a way for pack horses through tangled windfalls, or, in winter, of "breaking trail" for the dogs.

The Lure of the Wilderness.

By way of recompense for this work the engineer, equipped with technical training and with years of hard experience, shares with the college professor the distinction of being the most highly underpaid of brain workers. A fat traveling salesman with a grin, a good story, or two, and a fund of questionable grammar, will draw from twice to ten times the salary.

And the curious thing is that they love the life, these lean, youngish men with the clear heads and the magnificent bodies. They will perhaps try to make you think they don't. They are a silent lot, as becomes men who pass their years in the wilderness or on the lonely, wind-swept prairies, and they are working for corporation directors whose business ears are not attuned to the call of the wild. But if you could drop into the Alberta Hotel at Edmonton, on some mild spring evening, and have a look at the assistant engineers and the instrument men who are booked to disappear toward the Rockies, within a day or two, for some six, eight, or ten months, you would see what I mean. The undying spirit of adventure is in their eyes; the half-conscious swagger of the soldier of fortune is in their stride. The same haunting desire that drove Stanley back to Africa, that drives the soldier to the wars or the sailor to the sea, is sending these men back to the wilderness.

$100,000,000 or So.

The spending out of hand of a hundred millions or so for railroad building through a new land obviously means something. Three new trunk lines are already under construction in Western Canada. Before long we shall be hearing a good deal about the foresight and the unflinching courage of the men who are standing back of these huge undertakings. But when you see this sort of thing in the papers, smile. A man would show about as much foresight in staking out a claim in the bullion room at the mint. In Manitoba, Saskatchewan, and Alberta Provinces there are more than two hundred thousand square miles of prairie land, most of it rich black loam, ready cleared for the plough. As much again awaits clearing. In the mountains are minerals and timber. Settlers are pouring in on every train to occupy this vast region. Towns and grain warehouses are springing up over night. Imagine the Mississippi and Missouri Valleys to settle over again under modern conditions. Imagine anything you like, and you will probably be within the facts.

It is nothing unusual for these prairies to yield a general average of 25 bushels of wheat to the acre, and 40 bushels of oats. Much of the wheat is of a higher grade than any now raised in our West, and it is frequently mixed with ours to bring ours up to standard. No, the wonder is that the pompous gentlemen in the tall hats didn't get their railroads through ten years ago. Add to this that all save the Hill undertaking are bolstered up with vast land grants, and, now and then, with cash subsidies, and the wonder grows.

No, the engineer is our man. Of the two types, the man who is risking other people's money is neither so picturesque nor so interesting as the man who is risking his life. It is the engineer who is conquering this last, and perhaps greatest, frontier.

Edmonton.

Edmonton is the jumping-off place for all North-Western Canada, the place where town and wilderness strike hands. Here in Washington Square the prosperous little city on the Upper Saskatchewan seems even farther away than its accredited 1,500 miles. It is 300 miles west of Winnipeg, and it is some little way north of that fifty-third parallel, beyond which, if one is to believe Mr. Rex Beach, the laws of God and man don't work very well. If one were to attempt the somewhat hazardous feat of walking due east from Edmonton, it would be found necessary to swim the upper waters of Hudson Bay before fetching up on the coast of Labrador. All this sounds very remote and inaccessible. It suggests rather the interior recesses of Greenland than the pastoral charms of an Iowa or an Illinois; and it carried away from New York, buttoned inside a prosaic waistcoat, what I took to be the emotions of the explorer, my ignorance was not, I prefer to think, unique.

A City of Contrasts.

Edmonton is a city of banks and a board of trade; of department stores a block long and a good many storeys high; of paved streets and brick and stone buildings; of well-to-do men in frock coats or in trim riding breeches and puttees; of prettily-gowned women; of the latest thing in automobiles, of clubs, churches, and polo grounds. All this speaks of the life of to-day. But jostling by the prosperous merchant or the English "younger son" is the half-breed in Stetson hat and silk-embroidered gauntlets, or the squaw with papoose bundled on her shoulders. The contrast, to one who has surrendered much of himself to the effete influence of our Atlantic States, is somewhat bewildering. One evening I strolled to the brink of the bluff and tried to straighten it out. Edmonton was the frontier; I knew that. But maps, with great "unexplored" patches on them, are not so convincing as they might be when one is in the living presence of clubs, and banks, and churches, and automobiles. Before me was the mile-wide valley, cut out square and deep from the yellow earth. The smoke from the lower town, thickened by a May mist, filled the valley to the brim, and in the moonlight it was luminous and faintly purple. Through this veil glistened the silver Saskatchewan, as it wound its leisurely way toward Hudson Bay. It was all very serene and very charming. At this moment it seemed, after all, as if I might be pretty close to those unexplored blank spaces. I should have liked to let my thoughts float off downstream through the mist to encounter the wild adventures of frontier times; but even if they could have slipped safely under the railroad bridge, they would have come up short against the very business-like log boom just below.

From Engineer to Grand Piano.

The wild days are almost over with; the frontier is losing ground every day. In the trading stores at Edmonton, the half-breeds sit, and smoke, and talk of the old days when the nomadic man on the Saskatchewan. Men talk that way of the rotting wharves at Portsmouth, of the ancient, faded glories of the Spanish main. When I heard this plaint, from the lips of a whimsical old trader, I gave up my hope of finding a frontier. I surrendered to the spirit of Jasper street, Prince Rupert, with its electric lights and its automobiles. I merely shook a listless head when a talkative young man put the age-old question, "What's your line?" So he was here, too! Behind a certain prosaic waistcoat, a spark had flickered out. After the engineer, the traveling man; after the traveling man, the steam plough; after the steam plough, the grand piano; that is the way they build up empires to-day.

THINK OF IT!

This Pretty Matron Had Headache and Backache—Her Condition Was Serious.

RELIEF IN PE-RU-NA.

MRS. M. BRICKNER.

99 Eleventh street, Milwaukee, Wis.

Peruna Drug M'f'g. Co.,

Dear Sirs:—A short time ago I found my condition very serious. I had headache, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."

—Mrs. M. Brickner.

The reason for so many failures to cure cases similar to the above is the fact that diseases peculiar to the pelvic organs are not commonly recognized as being caused by catarrh.

PELVIC DISEASE NOT RECOGNIZED AS CATARRH.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will relieve catarrh of the head will also relieve catarrh of the pelvic organs. Peruna relieves these cases simply because it relieves catarrh.

LOOK OVER THE WALL

London Leaders Comment on Hallantyne's Speech at Winnipeg—Text of Japanese Treaty.

London, Sept. 20.—"The more we hear of the Canadian offer the less it really resembles Chamberlain's romance," says the Leader, referring to Mr. Ballantyne's speech at Winnipeg. "We cannot do inside Canada ourselves, but are to have the satisfaction of looking over the wall and reflecting that foreign competitors cannot do that."

Openings for women in Canada, says the Tribune, are many and ready at hand. Poultry raising and fruit preserving offer special inducements. The demand for home help is very great. Canada may possess drawbacks, but wages are good and hearts are warm.

A blue-book has been issued containing the text of the Anglo-Japanese convention with Japan regarding the commercial relations of Canada and Japan. It provides the application to the dominion of the treaty of commerce and navigation of 1894 and supplementary convention of 1895 be applied to the Dominion.

ADV. RESPONSIBILITY.

Toronto Paper Discusses Rider of Verdict of Coroner's Jury in the Bridant Murder Case.

The coroner's jury in the Bridant case added this rider to their verdict: "We deprecate the publicity of certain advertisements in certain daily and other papers, which lead to these results." The responsibility of the newspapers might have been expressed in stronger language, says The Toronto Star. A newspaper ought to be held responsible for an advertisement which is an invitation to the commission of a crime, or which is published with fraudulent intent, if that intent is clear from the language, or is otherwise conveyed to the managers of the paper.

Further, there is no reason why a newspaper which knowingly assists in the commission of a crime, should be exempt from the law that punishes the criminal; and if the law does not already cover this case, legislation of that kind should be placed on the statute book.

Some of the magazines published in the United States adopt the policy of guaranteeing the good faith of their advertisements. It is commonly said that this could not be done in the case of a newspaper, which receives every day hundreds of small advertisements over the counter. An examination of the purpose of all these, it is contended, would be impossible. It is true that in the rapid handling of a great mass of business some advertisement of an improper or fraudulent kind might slip in unawares.

But if perfection is not attainable, that is no reason why a great deal should not be done. Many newspaper advertisements are similar to those appearing in the magazines. They are so extensive that they cannot escape notice and supervision; and in the negotiations which precede the contract there are opportunities for becoming acquainted with the character and standing of the advertiser. Many advertisements also appear repeatedly and regularly, and an impropriety which escapes the eye the first time may be detected afterwards. Facts showing fraud may be brought to the notice of the newspaper. In such cases the proprietors and managers of newspapers cannot divest themselves of responsibility.

Even without such a guarantee as is given by the American magazines to which we have referred the newspaper owes to its readers the duty of not lending itself to any plan for deceiving them, and this duty applies as well to advertisements as to any other part of the contents of the paper. It owes also to the community at large the duty of not furthering any crime or criminal practice, and this duty applies as well to the advertising columns as to any other part of the paper.

SLEEP HABITS OF ANIMALS.

The Monkey Never Loses Its Instinct of Fear.

"When a monkey sleeps he picks out the highest perch he can find," said an animal trainer. "When the only home of the monkey was a forest, he lived always in deadly fear of the lion. A live monkey is the choicest morsel on the menu of the king of beasts. Although the monkey is wise and knows that in a zoo the lions are securely caged, the fear is born in him and he sleeps on the high perch.

"The lioness, when free from family cares, is prone to lie on its back with its legs stretched up straight in the air and paws pendent. The lion, when the excitement of the day is gone, stretches itself out flatly on its side with paws turned in and twitches and throbs during its slumber a good deal like a dog. Gorillas and chimpanzees sleep with their hands over their heads. Bears, which have no fear, sleep in any position. The same is true of wolves.

"Animals of a cunning or cowardly nature, however, are always on the alert, even when asleep. A seal sleeps like a human being. Once in awhile a seal will sit up with its head on its chest, asleep in the water. Its ears are kept under so that he may hear the approach of an enemy, sound traveling with great distinctness under water."

Made It All Clear.

Berzelius, the Swedish chemist, made most of his laboratory experiments in his kitchen with his cook Anna as his only assistant. "What is your master?" asked one of his neighbors. "Oh, he is a chemist." "What's that? What does he do?" "Well, I will tell you. He has something in a big bottle, then he pours it into a smaller one and then again into quite a tiny bottle." "Well, and what then happens in it?" "Oh, then I throw it away."

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN—self-indulgent acts of later years have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question List and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bull Dog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141 50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

329 330 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the market. The capital stock of the Company is $1,000,000, divided into [illegible] million shares par value of one dollar each. All stock fully paid and assessable, with no personal liability whatever. The Company is officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 31-2 miles east the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, [illegible] acres in all.

I unhesitatingly recommend this stock to my clients, and will be [illegible] to furnish further information on application. In a few days a full [illegible] tion of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

Alberta's Youngest M. P. P.

James B. Holden, of Vermilion, who has been elected by acclamation to represent the Vermilion district in the Alberta Legislature, has the distinction of being the youngest member of the Legislature, being only 29 years of age. He was born in Binghampton, Simcoe County, Ont., being educated in the Public Schools of that village. When but a lad he was apprenticed to the milling trade. In 1905 he went West to try his fortune. He worked for a time in the flour mills of the Hon. Thomas Greenway in Crystal City, Man. Later he went to Alberta, and settled in Strathcona, and afterwards removed to Leduc, where he purchased grain. About one year ago he was appointed homestead inspector for the eastern part of the province. He settled on a homestead near Vegreville.

Honor For a Canadian.

Mr. H. F. Dawes, University of Toronto, who has been elected to the Wollaston research scholarship in physics at the Conville and Calus College, is a native of Woodstock, this province. He graduated from the university in 1904, and has since filled the post of assistant demonstrator in the department of physics. Mr. Dawes has been consistently carrying on research work, and this has been of such merit as to win him the distinction mentioned. The scholarship is valued at £120 a year. It is held for one year, and for a second year if the work is approved of, and is open to all British, colonial and American students.

FIRE THE BEST FILTER.

Boiling Water the Surest Way to Get Pure Water.

"All this talk about the need of filters, about people dying for lack of filtered water, amuses me," said a chemist. "For filtered water isn't necessarily pure water. Boiled water is a hundred times better.

"A filter, you see, does not free water from things dissolved in it, but only from things floating in it. For instance, if you mix a quart of whisky in a gallon of water and then filter the mixture it will come out colorless, the floating color particles having been left behind, but this colorless fluid will be quite as capable of intoxicating you now as it was before, for none of its dissolved alcohol will have disappeared.

"So with water that is polluted with sewage. All the undissolved portions of the sewage are removed by filtration and the water is left clear, tasteless and colorless, but the dissolved sewage is still present and in it may lurk billions of typhoid germs.

"Let those who complain about the lack of filters just turn in and boil their water. A cent's worth of fire will purify a gallon of water better than a $10,000,000 plant could do it."—St. Louis Globe-Democrat.

"It's funny," remarked Sandy Bowen, "how politics and love are so much alike. For instance, if you meet a bonnie girl and she gives you half a chance to kiss her you go in for free trade. However, after you get married and your wife's mother wants to embrace her newly acquired son-in-law you go in for protection. If your wife seeks an osculatory exchange you in time become a passive resister, and"—

"She turns out a home ruler if she has any sense," remarked Mrs. Bowen, who happened to overhear the conversation.—London Mail.

Odd Knives.

In a monastery in Ireland there is a very curious collection of knives of the sixteenth century, the blades of which have on one side the musical notes to the benediction of the table, or grace before meat, and on the other side the grace after meat. The set of these knives usually consisted of four. They were kept in an upright case of stamped leather and were placed before the singer.

Too Methodical.

"As for me," said Aunt Clarissa, "I haven't any use for a woman that takes three or four handkerchiefs with her when she goes to see one of those heart interest plays. She's too businesslike and calculating to be the genuine thing."—Chicago Tribune.

Something Wrong.

Mrs.—Am I still "the star of your life," as I was when you used to write love letters to me? Mr.—Of course, dear. Mrs.—I don't seem to be drawing a star salary, though.

Inherited Dollars.

The only reason some men escape social ostracism is because their fathers made enough money to buy them a ticket of admission.—Birmingham

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"Listen, then, Lady Etheridge—for Lady Etheridge you may remain to the end of your life, if you list. More than twelve months since, you were acquainted with my son, Mr. Albert Hastings—"

"Nay, I never knew Mr. Albert Hastings," replied Rose, haughtily.

"Very well, then; let that pass. More than a year ago you knew a person calling himself William Lovel."

"A traitor, who had no right to the name that he assumed."

"Albert Hastings loves you, loves you only, has loved you ever!" said Colonel Hastings, earnestly.

"You are wandering from the point, sir. Mr. Albert Hastings' sentiments can be of no importance whatever to me. That which I would learn from you is this—what are the terms upon which you propose to suppress the existence of the true heir of Swinburne?" inquired Rose, coldly.

"I will suppress the existence of the real heir of Swinburne, and leave you in possession of your fictitious rank and wealth, upon the conditions that you will at once break off your impending marriage with the Duke of Bereseleigh, and contract your hand to your first lover, my son, Mr. Albert Hastings," said the old gentleman firmly.

"Never!" exclaimed Rose, with impassioned emphasis. "Better any suffering than the sin of keeping the rightful heir out of the estate. Better any fate than the folly of joining my life with that of a doubly-dyed traitor as Albert Hastings has proved himself to be. To all of this I have one practical reply to make. I will immediately request the presence of the Duke of Bereseleigh here, and you shall repeat in his presence all that you have related to me," said Rose, pulling the bell-rope.

"Lady Etheridge, you are excited; calm yourself, pause, reflect," exclaimed Colonel Hastings, anxiously.

The door opened, and a footman appeared.

"Take my compliments to the Duke of Bereseleigh, and say that I request his grace to join us here."

"Lady Etheridge, you are mad! Countermand your order before it is too late," exclaimed the colonel, in an excited whisper.

But the servant had already bowed and withdrawn from the room, while the face of Lady Etheridge betrayed no signs of relenting.

"Nay, then, if you will be so frantic, I shall withdraw; yet I beseech you be careful; take time to reflect; do not commit yourself rashly; take time to weigh consequences, and, if you should come to a different decision, a note directed to my town house will always find me. Be cautious not to betray your own interests, and I, on my part, shall be careful to guard this secret for yet a few days longer.

Footsteps were now heard approaching, and the colonel, bowing deeply, hastily withdrew.

He had scarcely made his escape when the Duke of Bereseleigh entered.

Rose was walking excitedly up and down the floor.

"I thought to have found Colonel Hastings here."

"No, he has run away. He came hither to intimidate a woman, not to face a man," said Rose, excitedly.

The duke stood still and looked at her in amazement for a moment, and then, leading her to a seat, said:

"Sit down and compose yourself, dearest Rose, and tell me calmly what has occurred."

"First, it is as my heart prophesied, dear George, and I am not the heiress of Swinburne."

"Forgive the question, dearest Rose, and tell me what reason, beyond your own fancy, you have for saying so."

"The old man who had just left me has said so. He declares that when he attended my late father in his last hours, the baron confided to him the secret of the existence of an heir to the barony and castle of Swinburne, together with every proof necessary to establish his rights. Colonel Hastings offered to suppress these facts and destroy the proofs if I would marry his son, and threatened to produce the heir and establish his rights by the proofs in his possession, if I refused."

"And you, dearest, you replied to him as he deserved?"

"I requested him to say to your grace all that he had said to me, and I ran and sent a message requesting you to join us, whereupon Colonel Hastings hurried away."

"And what do you think of this strange communication, love?" inquired the duke, smiling.

"It confirms the prophetic feelings of my heart; I feel that it must be true," replied Rose, gravely.

"And I believe it to be essentially false! This man has probably heard of your morbid forebodings upon the subject of your inheritance, which is no secret to your friends, and he has sought to practice upon your credulity for his own purposes. That is all."

"But I credit this story, though I cannot trust him. And, believing the story as I do, pray tell me what must I do?"

"Nothing, simply nothing."

"Is there no way of compelling him to produce the heir and the proofs of which he speaks?"

"No way in the world that I know, unless you now the name of that heir."

"Can he not be compelled to divulge the name?"

"No, he cannot be compelled to give the name, or to produce the heir or the proofs even if such an heir and such proofs exist, which, I repeat, I do not believe. Your present policy is that which a great statesman has termed 'masterly inactivity.' If such an heir exists, let Colonel Hastings bring him forward and prove his claims to the barony of Swinburne, when you will at once yield up your possessions. I need not repeat to you that no change in your fortunes can work any change in my feelings or purposes toward you. You are, under all circumstances and vicissitudes, my promised wife, the future Duchess of Bereseleigh."

With a beaming smile Rose placed her hand in his, and they went forth together to join the duchess at dinner, who was curious to know the nature of Colonel Hastings' communication to Lady Etheridge. When made acquainted with the subject-matter of the conversation, her grace smiled sarcastical-

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

8% PREFERRED STOCK

AT PAR MEANS

16%

ON THE PRICE GIVEN BELOW

50,000 SHARES OF PREFERRED STOCK

Cumulative from Date of Issue

of the BI-METALLIC TUNNEL AND MINING CO., of Silver Plume, Col., are now offered at 50 cents per share (par value, $1.00) for the purpose of developing the property. This will give an income of 16 per cent. on the amount invested from the date of purchase out of the first dividends declared and before the owners of the property can receive any income from his common stock. Work is now being done and it is expected to strike pay ore soon.

CAPITAL STOCK, $1,000,000

200,000 Shares, Preferred (Treasury Stock)
800,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 2,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within less feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $80,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Investors Beware

of investing before investigating. THE GREAT WESTERN OIL REFINERY & PIPE LINE CO., of Erie, Kansas, courts investigation, and we are anxious to get in touch with investors who are willing to be convinced.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads, with side tracks to both. The Company owns without debt a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete, modern independent Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number), which furnish fuel for the entire plant and is sufficient for a 5,000 barrel capacity, which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered to the public for subscription.

The Company owns leases on hdreds of acres of oil lands, with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different States, and the laws passed to protect the independent refinery against unfair competition, makes an investment in this Company one which is sure to bring large returns. In proof of this statement, will say that the Company one day recently shipped 21 car load lots of refined oil and by-products and on another day received orders for 42 car load lots.

The Company is now selling this stock at 25 cents per share, but owing to the fact that we hold an option on a block of the same, we can fill your order at

25 Cents Per Share

cash or installment, until said option is all sold out, which should be within a very short time.

We would suggest that you write us immediately for free particulars, copies of letters from bankers, etc., which will be sent free. We will also send you a copy of our book "Oil & Gold" if you wish it. This book gives history and statistics of the prominent Oil fields and Gold districts of the United States. Address

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 600,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

Babes Out All Night While Coyotes Howl

Kamloops, B.C., Sept. 21.—The exciting search through the mountains for the three and five-year-old children of a man named Somerville, resulted in finding them. They had wandered six miles, and were exhausted. Though the rescuing party saw many bears and wolves, the children had escaped harm.

The town was thrown into a state of great excitement when it heard the little brother and sister were lost. Their mother was not disturbed until a little boy who had been with them returned from the hills, south of Kamloops, without his companions. It was found that the three children had followed a team along the Nicola road, but one became frightened, and returned, the others continuing. In answer to the mother's appeal for help, friends drove out to look for them, but, failing in their search, they returned, and the fire alarm was turned in. When the crowd assembled explanations were made, and hundreds of men armed with lanterns set out to to search the hills for the missing children.

The coyotes howled dismally in the hills when the fire whistle sounded, and fears for the safety of the little ones increased. All night parties searched diligently, covering many miles of ground, but it was not until an early hour this morning that they were found, nearly six miles from the city, lying fast asleep in the middle of the wagon road. The little girl had undressed, as though to go to bed, and wore only a little shirt, using her clothing as bed covering. Fortunately the night was not inclement, though chilly. The little ones were brought into town at seven o'clock apparently none the worse for their adventure.

AT TORONTO ISLAND.

How Editor of The Haileyburian Enjoyed Himself There.

The editor of The Haileyburian has been telling his readers of his visit to Toronto Island in this breezy style: "We again visited Hanlan's Island, and tried most of the sensations there. Amongst others we shot the chute. We boarded a car, which, after reaching impossible heights comes down with a rush. We met the rush, cheerfully, for we have run worse rapids than that. The descent of that decline might take away the breath of an innocent, but we, being somewhat above proof, were not disturbed in the least. We saw the same old 'merry-go-round' with clinging enthusiasts struck by the tune of "Beneath the Old Apple Tree." We would cut that old apple tree down if we owned it, but it seems to be a public affair, and hence, like little Washington, we dare not do it and tell a little lie. We saw many games of chance, which if played in Haileybury would draw down anathemas from the representatives of a prurient press. We saw semi-nude figures on the beach, and we rejoiced in that Haileybury had gone one better, and allowed the human form divine to be exposed to view without a vestige of clothing upon it. It proved to us how advanced we are . . . We saw a thing where you slide on a bag, and it seemed to have an exhilarating effect, for those who had slid down were ready to go up again, provided that they were possessed of the necessary five cents. We were sufficiently curious to go into the chamber of mysteries, which, by experience, we found to consist of a lot of mirrors set up, purely, for the purpose of distorting features that Nature had made ugly enough, without distortion. We watched our own cadaverous countenance with curiosity, and were shocked by the complications of the concave and convex."

Mental Discoveries.

Dr. A. H. Abbott of the University recently gave a lecture on "Experimental Investigation of Complex Mental Discoveries." At the outset the professor said that experimental investigation of the complex facts of man's existence was in its youth, particularly in Canada and the United States. The science of experimental psychology began as a serious science only between the years 1860 and 1870. So far as the sciences were concerned psychology was behind the times.

The professor discussed the complex elements of psychology, thinking, emotion and volition. He said psychology was attempting to discover how complex the complex mental states really were. In order to do this one essential factor was time, and he pictured on a screen some results from this method. He mentioned one general point; that from the psychology of elements it was reasonably clear that there were qualities, sensations, which were not dependent on physical or physiological conditions. Every mental state was not produced by brain processes. He used illustrations of lines and color to show that the task he set had something to do with the audience's experiences, and that if a task be set it would control the associations or imagination. Imagination gave the meaning to what was called real objects.

Dr. Abbott further illustrated his lecture to show that as in the investigation of thinking, so in the investigation of evidence, the task controlled the associations or imagination, and emotions were controlled by imagination.

EYE SIGHT SPECIALISTS

ADVERTISE IN THE TIMES.

HOW CONSUMPTION STARTS

Tired When You Waken—Languid All Day—Nerves Worn Out—Snap All Gone.

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up Then you catch tuberculosis.

Start today. Build up, get new nerve force, and overcome this process of decay. Use Ferrosone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrosone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain—Ferrosone restores failing strength from any cause. The experience of Mr. Thos. Dowd, of Schreiber, Ont., proves this.

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrosone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrosone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Alberta's Coat of Arms.

Conscious of their importance as an entity in the unity of the Dominion, the people of Alberta are pussling their heads as to the best coat of arms for the new province. The Lethbridge News, recalling the fact that the old Territorial shield contains an animal which may be either a polar bear or a white-haired gopher, crawling on a checkerboard, with four sheaves of wheat—not a very original idea—on a white ground underneath, suggests:—"Perhaps we might have a bucking bronche— and perhaps not. A white horse by the way is the oldest known emblem of the English invaders of Britain. As Scotland has the thistle, and Nova Scotia has three of them, we might choose a cactus. It excells the thistle both in the beauty of the flower and in the point it leads to the phrase, "Nemo me impune lacessit" Sugar beets again, might be not less original than wheat sheaves. Though Manitoba has not officially recorded the prairie anemone yet her people have already practically anticipated us in that choice, and as for the wild rose, it is found in profusion in every province from sea to sea. Some of our aboriginal citizens might be pleased with a Blackfoot warrior in eagle plumes, but Edmonton might put in a claim for a Galician in a fan-tailed sheepskin coat."

A Prepared Bull's Eye.

The recent inspection of the Canadian team at Bisley by the Duke of Connaught, recalls an incident that happened a few years ago at the opening of a new rifle range in the South of England. The Duke had been invited to fire the first shot, so he made his way to the 500 yards range, followed by the elite of the neighborhood. Arrived there, he raised his rifle to his shoulder, and after a moment's pause, pulled the trigger. The result, as was plain to everybody present, was a bad miss. The range officer, however, was equal to the occasion, and relieved rather an embarrassing pause by calmly ringing up the butts to ask the exact spot on the bull that had been hit. "Right in the centre, sir," came the prompt response from the mantlets, and, sure enough, when the target was brought down for inspection, there was the bullet hole right through the centre of the target. Subsequent inquiries conducted by the Duke showed, of course, that this hole had been carefully made the night before.

135 Miles Under Two Hours.

Recently, Sir William Van Horne has been smashing railway records. One evening his special train came in to Winnipeg from Brandon, a distance of 134 miles, under two hours, an average speed of 67 miles an hour. At one time the speed indicator registered 79 3-4 miles per hour for a stretch. A distance of 90 miles west of Portage la Prairie was covered in 73 minutes, an average speed of 78 miles per hour. On July 21 Sir William established the long-distance speed record for western lines, his train making the run between Moose Jaw and Winnipeg, 400 miles, in eight hours flat.

Places of Amusement.

The walls of stations on the new tube from Waterloo to Baker street are embellished with maps of London, on which, according to the index in a corner of them, "theatres and places of amusement" are printed in red. Among the places so indicated on the body of the maps are Holloway cattle market, the Foundling hospital, the courts of justice, the Bank of England and Spurgeon's tabernacle.—London Tribune.

Is He the Long Lost Charley Ross?

Galveston, Texas, Sept. 21.—William Van Hoge, of this city, says he is in receipt of the last link in the chain of evidence, proving his identity as the long lost Charley Ross.

Mrs. S. I. Livingstone, of St. Louis, furnished information of the identity of the woman who placed the abducted Ross child in the asylum, and declares she can prove that Van Hoge is the same child.

Joseph Wilkens, the aged and eccentric ranger who furnished the first connecting links, says he is positive the young man is Ross, but that the most prove it to the satisfaction of the Ross family, and that this can be done if the woman who placed the child in the asylum could be produced.

Mrs. Livingston says this woman is alive and that she can be induced to reveal the secret of how the child was delivered to her from the abductor's mother and Douglas, but she fears prosecution and is not inclined to make a public confession.

If all dyspepsia sufferers knew what Dr. Shoop's Restorative would do for them, Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative, J. D. Tully.

TORONTO SAVINGS AND LOAN COMPANY

HAVERGAL COLLEGE

TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

STONEY LAKE ROUTE

The Steamer "STONEY LAKE"

Str. Stoney Lake will leave Burleigh Falls at 1 o'clock in time to connect with the 4.40 train for Toronto. Returning leaves Lakefield on arrival of evening train for the Lakes.

The Steamer "MAJESTIC"

During July and August Str. Majestic will leave the Lakes each morning in time to connect with the 2.30 train for Peterborough; returning will leave Lakefield on the arrival of the 12.30 train for the Lakes.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

HEAD OFFICE: 59 YONGE STREET, TORONTO

Good as Gold

A Company with a Record.

The "London Life" has been conducting its business for over 30 years in a quiet, unostentatious manner, but with the greatest satisfaction to its policyholders.

For over 20 years with-profit policies have been issued, upon which the results are unexcelled.

Estimates of profits on rates now in force have been fully realized.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is deemed—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfill all expectations if given ample time for completion.

Times Printing Company

Not a Prophecy--but a Certainty

THAT THE

Golden Message

IS JUST OPENING UP A PROPOSITION THAT WILL PRODUCE MILLIONS OF

GOLD AND SILVER

Over a million in sight and ore growing richer and larger. The mine is only in its infancy.	Our claims are patented and in no way incumbered. TELURIUM, SYLVANITE, FREE GOLD decidedly in excess	The great ore is being blocked out for hoisting and treating. A cyanide proposition.

If you want to buy a mining stock that is backed by an excellent property, good management, and everything else that goes to make up a first-class money-making gold mining proposition, we invite your attention to the recent great strike that make the Golden Message Mining Company absolutely the best investment offered in this country today. You have probably made investments in the past on mere prospects only, where you were promised everything and received nothing. All we promise you is the fairest and squarest deal you ever had, and an investigation will prove to you that we state nothing but the absolute facts. Authorities agree that the telluride ore uncovered by the Golden Message Mining Company is some of the very richest ever discovered in the State of Colorado. The ore is not only rich, but the quantity is there. This company owns ten claims at Sunshine, the richest section of Boulder County, and promises to be the most talked about section in the mining world as a result of this recent strike.

When you buy this stock you are not buying cheap stock in a prospect. The ore shoot opened in the "Addison" claim for over 160 feet is four feet wide; a winze is sunk over 20 feet, showing richer ore as it goes down, and will continue to a depth of at least 500 feet. The ore shoot in the "St. Louis" is fully ten feet wide and parallels the "Addison." The length of these shoots has not been ascertained, there being a stronger showing of ore in breast of each drift as it is pushed forward.

We propose to equip this great property with a hoisting plant and a cyanide mill to economically handle the output right at the mines. Tests of the ore will be made and all possible precautions taken to secure the best machinery for properly treating the ore.

This company is incorporated for 1,500,500 shares of a par value of $1.00 each. If you want in while you can get stock below par, let us hear from you at once, for when the plant goes up the price will go with it, as we have over a million dollars' worth of ore ready to take out just as soon as we can erect a mill to treat it.

L. E. EUBANKS, Secretary-Treasurer,
The Golden Message Mining Company, Boulder, Colo.

Please send me full particulars regarding an investment in the stock of the Golden Message Mining Company. I am interested in your recent strike and desire further information.

New Name for the T. V. Canal

The Orillia Packet says: Hon. H. R. Emmerson and those with him seemed quite seriously of the opinion that a new and more appropriate name should be found for the Trent Valley Canal. It is easier, however, to point out shortcomings of the present name than to suggest a better one. The only alternative we have heard put forward—Kawartha Lakes canal—is open to the same objection as Trent Valley canal. It applies to only one section of the route. And that section is not of preponderating importance by any means. Lakes Simcoe and Couchiching are not included in what is termed the Kawartha Lakes system, and the residents on their shores would object to an effort to swallow up their separate identity in that generic term. Trent Valley canal has the sanction of long usage and historical associations, and a change should not be made unless a very much more comprehensive and suggestive name is available, which, without making it cumbersome, does not seem likely.

Reminder to Gentlemen.

Those who are Bald should visit Prof. Dorenwend, who will be at the Oriental Hotel on Tuesday, September 25, and see the many devices he has contrived and invented in the way of Wiggs and Toupees, of which over 75,000 are in use. In these days of progress personal appearance has a great deal to do with success in life, and the hair has everything to do with appearance. Call and see these fine goods.

Death of the Late Mr. Isaac Manning

A most deplorable accident was that so freely discussed and generally regretted yesterday, whereby Mr. Isaac Manning of Selwyn, lost his life on Thursday.

The late Mr. Manning, who was a brother of Dr. Manning the well known local dentist, on Thursday morning drove to Mr. Samuel Northey's farm to assist at a corn bee. Mr. Manning had just finished loading his wagon and was about to start for the corn cutting machine, when he noticed that one line was under the tongue of the wagon. Whilst trying to walk out on the tongue to free the line he slipped and fell, thus frightening the horses, which started to run away.

Mr. Manning was dragged along the ground for a distance and in some way became tangled up in the lines. The animals made straight for a pion which was in the field, and Mr. Manning's head struck the iron part with great force. This brought the excited animals to a stop and they started to back up. The deceased was between the two animals and they trampled all over him. One stepped on his face, another hoof went on his stomach and another on his breast.

Mr. John Fanning hurried to the injured man's assistance and endeavored to get him away from the horses' feet.

After the horses had been quieted down, and Mr. Manning's body extricated, it was found that his body was badly fractured, his face was cut and disfigured, his breast was caved in and his stomach was crushed. Besides, several ribs were torn away from the spine, as well as several other bones being broken or crushed.

Dr. Barker and Dr. Burgess, of Lakefield, and Dr. Greer, of Peterborough, were sent for, but the unfortunate man was injured beyond human aid, and passed away at 3.30 during the afternoon.

Mr. Manning was fifty-four years of age and had lived near Selwyn nearly all his life.

Deceased was a son of the late Samuel Manning. He was married many years ago and his wife survives him with their one child, Bert Manning, who lives at home. The funeral will be held today.

LOCAL INCIDENTS

By The Times Man on the Street

—WANTED—A woman to do cleaning. For address apply to this office.

—A present with every twenty-five cent. purchase of school books at Times Bookstore.

—The plough has already been applied to Burnham street, making ready for the sewer to be laid there.

—A large number of local citizens left yesterday morning for Lindsay to take in the races in Scugogville.

—The village of Warsaw has decided to abandon statute labor system, and repair its streets by money taken in from taxes.

—Mr. John Howard has begun the erection of a new residence on Burnham street. Alf. W. J. Johnston has the contract.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—The expense of having a vote taken in Hope township on local option was $139.83. Some of the councillors think this figure is rather high.

—Yesterday two holes in the Charlotte street bridge somewhat embarrassed traffic. The broken planks were marked by pieces of board stuck through the holes on end.

—The annual meeting of the Peterborough branch of the Woman's Art Association will be held in the Young Women's Christian Association building on Monday evening, Sept. 24th, at 7.30 o'clock.

—The directors of the Rapid Tool Co. met yesterday afternoon for the purpose of organization in connection with the bylaw which will be submitted on October 2nd, granting a free site and fixed assessment to the company.

—A children's service will be held this afternoon at the Murray street Baptist church at three o'clock. Children between the ages of seven and seventeen are requested to be present, Rev. F. J. Sco't, the pastor, will give an address.

—Those sending donations or baskets to the King's Daughters, who will serve dinner on the fair grounds on Tuesday and Wednesday of next week should send the same to Mr. W. H. Hamilton's grocery store, Simcoe street on Monday afternoon, or early on Tuesday morning next.

SOCIAL AND PERSONAL

—Rev. Father McColl spent yesterday in Lindsay.

—Miss Mollies Meldrum is visiting friends in Chatham.

—Mr. D. McEwan, of Brandon, Man., is in the city.

—Mr. Gordon, barrister, was in Toronto, yesterday on business.

—Mr. Thos. Keating left yesterday evening to visit friends in Saginaw, Mich.

—Mr. J. I. Fair spent Sunday in Peterborough with friends.—Millbrook Reporter.

—Messrs. Jas. S. Cook and J. A. Kerr, Belleville, were registered at Snowden House yesterday.

—Mr. R. M. Waddell has gone on a trip to Winnipeg, Brandon, St. Paul and other western cities.

—Norwood Register says: The Misses Mitchell, of Peterborough, are visiting at the home of Mr. John Knox.

—The Shadow Behind the Throne Co., who played in the local opera house last night, registered at the Orienta Hotel.

—Messrs. R. S. Jackson of the Crown Hotel, Chas. Dury, of the Queen's, and A. Rountree took in the Lindsay Fair yesterday.

—Mr. T. O'Connell and two children, of Rochester, N.Y., arrived in the city today to visit the former's mother, Mrs. M. O'Connell, Concession St.

—Mr. and Mrs. R. J. Winch, who have been spending the summer at their handsome cottage at Yarrow Brae, Stony Lake, have returned to the city.

—Rev. E. A. Langfeldt was in Picton yesterday, where he was the special preacher at the Harvest Festival of the Church of St. Mary Magdalene, of which Rev. W. L. Armitage is the vicar.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R. "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Robt. S. Lewis, Passenger Agent, 10 King street east, Toronto.

Canal Drain Contract Let.

The Canal drain is to be dug at last. The contract has been let by the township council to Mr. Hilton of Thorold, whose tender, the lowest, was for $12,600. The drain will be from four to five feet deep and will be about ten feet wide. It will drain about three thousand acres of land, situated in the northeast part of the township. The swamp is about seven miles long.

Hon. N. Monteith Cannot Come.

Hon. N. Monteith, Ontario Minister of Agriculture, will not be able to open the Peterborough Industrial Exhibition as hoped. While this is to be regretted the Fair directors will go ahead and the Fair will be a success nevertheless. The Fair will be a success on its own individual merits.

Western Excursions to Detroit, Bay City, Grand Rapids, Chicago, etc., via Canadian Pacific Railway, take place on Sept 20th, 21st and 22nd. Good to return until Oct. 8th. See advertisement in this paper and secure tickets and all information from W. Mellroy, City Passenger Agent, or W. S. Dodd Depot Agent.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping on the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, sickness or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 10c and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

St. Andrew's L. A. S. "At Home."

The Ladies' Aid Society of St. Andrew's church will hold an "At Home" to the members of the congregation in St. Andrew's hall on Tuesday evening, October 2d, from eight to ten o'clock. A cordial invitation is extended to all.

The Delineator For October.

The strongest feature of the October Delineator, aside from the fashions, which are splendidly shown, is the opening of the Countess von Arnhim's new serial story, "Fraulein Schmidt and Mr. Anstruther." It is now publicly announced that the Countess von Arnhim is the author of "Elizabeth and her German Garden." The serial features, "The Diary of a Baby," by Barry Pain, and "The Chauffeur and the Chaperon," by the Williamsons, merrily continue. J. J. Bell contributes another "Wee Macgreegor," episode, and other contributors of short stories are Ralph Henry Barbour, George Middleton, Florence E. Wilkinson and Fonsie A. Nedwill. John Vance Cheney is represented by a poem, "Hallowe'en." The Kitchen Department, under the direction of M. Jean Marie Devaux, presents the second course of "A Perfect Dinner," some receipes for Famous People," and seasonable advice about peppers, melons and grapes; the continuation of "A Culinary Dictionary," and the beginning of a series—"Around the World in Eighty Dishes." Seasonable suggestions for entertainments may be found in "The Practical Side of Amateur Theatricals," by Sarah Comstock, "A Party Party," and "Hallowe'en Merrymaking for Girls and Boys." Subjects of vital importance are treated in the papers, "Coloring a Life," by Lida A. Churchill, "The Art of Pleasing," by Edgar Saltus, "More Courtship After Marriage," and "A Royal Road to Perfect Memory," by William George Jordan. The departments, "The Moneymakers" and "The Wisdom of Many" contain many original, as well as sensible ideas.

VOL XXXIV. NO. 225 PETERBOROUGH, ONTARIO, MONDAY, SEPTEMBER 24, 1906. PRICE TWO CENTS

LATEST TERRORIST PLOT AIMED AT GRAND DUKE

Czar Was Not the Object of This Conspiracy to Murder---Bomb Throwers Destroy Evidence.

London, Sept. 23.—A despatch from Vienna to the Daily Telegraph yesterday says:

To members of the Russian revolutionary committee, escaping from St. Petersburg, arrived here on Wednesday. They declare that it is not true that the plot discovered at Peterhof was planned against Emperor Nicholas or his immediate family, and say it was entirely directed against Grand Duke Nicholas Nicholaivitch, who now holds all the thread of power, and Grand Duke Vladimir, who has returned to Russia under the strictest incognito.

Grand Duke Nicholas informed Gen. Dedulin, the commandant of the palace, who as his personal appointee, that he was firmly persuaded that revolutionists or allies of the revolutionary committee existed at Peterhof, for twice he had found death sentences on his writing table, and that Grand Duke Vladimir had received a similar missive the morning after his arrival, causing great surprise, as his return had been accomplished with the utmost secrecy.

Gen. Dedulin instituted a close search of Peterhof, examining all the officials and every apartment. While thus engaged he saw a group in the garden house, who fled at the general's approach. Guards pursued and arrested three men, two of whom were footmen in the service of Grand Duke Nicholas, and the other a palace gardener. One of the footmen had in his position a complete plan of the Peterhof Palace, with the doors and gates carefully marked.

The three men were taken to the fortress of St. Peter and St. Paul.

POLICE EXPLODE BOMB.

Tiflis, Sept. 23.—During a domiciliary research of suspected houses the police discovered in the apartments of a young man named D'Alelolli, a box containing printing mate.

Directly the box was touched it exploded and two detective inspectors and an assistant commissary of police were killed and another injured, and a soldier and policeman were wounded. The floor of the apartment collapsed, splinters injuring a mother and her child in the room below. Two other uncharged bombs were found in the apartment. Two men and two women were arrested.

DESTROYED EVIDENCE.

St. Petersburg, Sept. 23.—The suburb of St. Peterburg, adjoining the Narva gate was shaken by the explosion of a powerful bomb, which was thrown by one of three well-dressed men, and which tore an enormous hole in the ground and broke all the windows in the vicinity. There was no loss of life. The bomb throwers disappeared before the arrival of the police. As the bomb was thrown in an open space, from which the throwers had previously warned away all passersby and cab drivers, the event is explainable only on the supposition that the bomb had been intended for use in connection with the terrorist plot which was discovered at Peterhof, at the time of General Trepoff's funeral, and that the conspirators, finding that the police were hot upon their trail, decided to be rid of incriminating evidence.

Since the firm clutch of arrests in connection with the Peterhof plot, Sept. 15, the police have apprehended a large number of suspects, but no statement concerning the nature of the plot, nor as to how it was to be executed, has been obtainable.

A ROUND-UP.

Stockholm, Sept. 23.—Two Socialists and a number of Finns have been arrested here in consequence of the discovery of a quantity of dynamite in the house of the socialists.

The Finns were refugees who had taken lodgings with the Socialists.

EXECUTED AT ONCE.

Odessa Sept. 23.—The first field court-martial was held here yesterday and a terrorist Jew named Tarle was sentenced to death and executed for the killing of a policeman.

The court consisted of six officers of the army, whose names are kept secret.

Tarle was in a pitiful condition when brought before the court, from loss of blood from five wounds received before he was arrested.

After being sentenced he was carried to the prison yard and tied to a post. His last words were curses and expressions of contempt for his captors.

"You assassins," he cried; "you believe that with your organized attacks and field courts you can shoot down the whole of Young Russia. But be assured that there are bombs and revolvers enough to deliver this unfortunate country from you bloody stained hands. Now fire."

Three volleys were fired and Tarle fell dead.

At the present time there are many points of the greatest importance and urgency awaiting consideration. The disgraceful way in which the village is treated by the Grand Trunk Railway is one of them. It is littleshort of scandalous that a municipality which is admittedly one of the best paying terminii of that system should be treated as it is in the matter of accommodation. The village has borne patiently for years, the relegation of smokers to baggage cars, and the subordination of its passenger train time schedule to the exigencies of freight shunting. The matter has got altogether beyond a joke, and needs a speedy adjustment. There again important questions will loom up when the C.P.R. and the Peterborough Street Railway strike this village, as they inevitably will, at no distant date. A properly constituted board of management will be needed to meet representatives of these bodies for the discussion of matters relating to their entry into Lake field.

304 Lambs in One Single Lot

On Saturday afternoon residents of Water street were somewhat astonished at an unusual sight in the city or in fact the country. The largest individual flock of lambs that ever entered Peterborough, and also the choicest in quality was driven in for Mr. J. Mervin the dunter street meat market man. This lot included no less than 304 fine lambs, and came from within a few miles of Apsley. Mr. Mervin will eventually slaughter these lambs for his own trade, and thinks of lowering the price of mutton in the city.

Subjects for the Premiers' Meeting

Ottawa, September 24.—The conference between the representatives of the provinces and the federal government which will convene here on October 8th, will be the most important that has ever been held in Canada, and it is not at all improbable that as an outcome amendments to the British North America Act will be sought. The provincial representatives, it is said, will be sounded as to how they would regard the proposition to surrender power to subsidize railways, and the interest which they have in the sea coast and inland interests. With respect to the former the granting of subventions to railways has greatly impoverished most of the provinces, and has led to the creation of divided jurisdiction.

FAMILY RUNT

Kansas Man Says Coffee Made Him That.

"Coffee has been used in our family of eleven—father, mother, five sons and four daughters—for thirty years: I am the eldest of the boys and have always been considered the runt of the family and a coffee toper.

"I continued to drink it for years until I grew to be a man, and then I found I had stomach trouble, nervous headaches, poor circulation, was unable to do a full day's work, took medicine for this, that, the other thing, without the least benefit. In fact I only weighed 116 when I was 28.

"Then I changed from coffee to Postum being the first one in our family to do so. I noticed, as did the rest of the family, that I was surely gaining strength and flesh. Shortly after I was visiting my cousin, who said, 'You look much better—you're getting fat.'

"At breakfast his wife passed me a large sized cup of coffee, as she knew I was always such a coffee drinker but I said, 'No, thank you.'

"'What!' said my cousin, 'you quit coffee? What do you drink?'

"'Postum,' I said, 'or water, and I am well.' They did not know what Postum was, but my cousin had stomach trouble and could not sleep at night from drinking a large cup of coffee three times a day. He was glad to learn about Postum but said he never knew coffee hurt anyone.

"After understanding my condition and how I got well he knew what to do for himself. He discovered that coffee was the cause of his trouble as he never used tobacco or anything else of the kind. You should now see the change in him. We both believe that if persons who suffered from coffee drinking would stop and use Postum they could build back to health and happiness." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

POLICE NEWS

Daily Happenings in Court Room and Station.

It seems as though Mr. James Mongraw, the Simcoe street barber, is bound to have trouble over the genus "cow." It will be remembered a few weeks ago Mr. Mongraw purchased a cow in good faith that afterwards turned out to have been gotten from a young man, afterwards shown to have obtained it illegally. This animal Mr. Mongraw had to return to its owner. Now his own bona-fide domestic animal is said to have wandered by the light of the moon and to have played havoc with a neighbor's cabbages.

At Saturday's police court Mr. Alfd Mrs. Schwerdt and son, of Driscoll Terrace gave evidence to the effect that Mr. Jas. Mongraw's cow had been running at large and was destroying their cabbage.

Mrs. Schwert, on the box, said that on Tuesday last, the cow—a red one with no horns and a red star—had been in her garden. Mr. Mongraw's son, she said, took it home.

Her evidence was corroborated by her son.

Mr. Mongraw noted that he has pasture for his cow, but that she had gotten out one night. He saw eight or ten cabbage had been eaten in Mr. Schwerdt's garden, but was not certain that his cow had done the damage. He would have been quite willing to have paid for the goods if he had known about the matter. The magistrate ruled that he pay $1 to make up the damage done the cabbage.

John McCoy was charged with being drunk and disorderly. He pleaded guilty and was remanded till Tuesday.

With Dead Mother For Five Days

Child of Fourteen Months Almost Starved to Death in New York Tenement.

New York, September 24.—Weak and emaciated from starvation, Johnny Boyle, 14 months old, was found yesterday beside the corpse of his foster mother, Mrs. Catherine Bynham, a widow, in the kitchen of her small apartments in the rear of a Brooklyn building. She had evidently been dead five days. The baby evidently had spent hours of intense suffering, as, having eaten all the food in the room that he could reach, he was forced by the gnawings of hunger to gnaw the sawdust contents of a toy horse. Dishes and kitchen utensils within reach of his arms were shattered in his struggles for food. Mrs. Bynam's body and the child were found by her sister, who came by chance to make a visit. Mrs. Bynam probably had dropped dead from heart disease. The baby had been an inmate of a charitable institution and had been adopted by her.

Centralization in China.

Shanghai, September 24.—The council of army re-organization at Pekin has taken over the management of all the arsenals of the empire, which have hitherto been controlled by the respective provincial viceroys. This is a distinct step in the direction of military centralization.

Robbed Bavarian Mint.

Munich, September 24.—The Royal Bavarian mint was robbed yesterday evening of a sum equal to $23,500 in newly coined ten mark pieces. The thieves got into the mint by creeping through a dry underground canal which had been opened for cleaning.

Double Tracking Canadian Pacific

C.P.R. to be Double Tracked Throughout Quebec.

Montreal, September 22.—The Canadian Pacific Railway have decided to wait until next spring before commencing the work of double tracking their line between here and Quebec.

It was determined some little time ago to commence the work this autumn, but unforseen difficulties have come in the way. The increased facilities are required as a result of the ever growing passenger and freight traffic. The directors have voted $1,000,000 for strengthening the bridges between the two points, but it is believed that this is not nearly sufficient and that the smallness of the sum has much to do with the postponement of the double tracking. There are about seven large bridges, to say nothing of the many smaller ones and the various culverts. It may therefore be readily imagined that $1,000,000 will not go far towards strengthening all these, and at the same time widen them so that they will do for double tracking.

In connection with the carrying out of this work next spring, Quebec is to have a new station and freight yards.

"Princess" Alice to Hunt Bear

Duluth, Minn., Sept. 21.—It is reported here that Mrs. Alice Roosevelt-Longworth will chaperone a party of young ladies on a bear hunt near the town of Dovey, in the Western Mesaba range, some time during the latter part of the month or early in October.

John C. Greenway, superintendent of the United States Steel Corporation mines on the Western Mesaba range, a personal friend of the President, has many times urged him to come to Northern Minnesota to hunt bears.

His daughter has accepted in place of the President, it is said, and while her husband is campaigning in Ohio will spend a few days hunting bruin in company with some women friends.

Large Movement of Ontario Grain

Toronto, September 24.—It is estimated by Canadian Pacific and Grand Trunk Railway traffic experts that there are between 137,000,000 and 138,000,000 bushels of grain sown in Ontario which will have to be moved before the end of December. Wheat, oats, corn, peas and barley and beans are included in these figures.

Of this amount a portion will have to be taken to export points, such as Montreal, and will necessitate a long haul. The larger percentage, however, calculating on figures of former years, will only require short hauls, until it is prepared for export in the form of flour, prepared cereals and other manufactured foods and fodders.

Liberals in Spain Beat the Clericals

Madrid, Sept. 21.—The threatened Cabinet crisis is regarded as virtually over, although the exact nature of the disciplinary action which the Government will take against the Bishop of Tuy for his pastoral letter denying the civil marriage law has not been announced.

It is evident that the Liberal faction of the Cabinet, headed by Count Romanones, Minister of Justice, has been victorious.

The assembling of the Cortes has been fixed for October 20th or 22nd.

Model Bank on Canadian Plan.

Chicago, September 22.—From the ruins of the Milwaukee Avenue State Bank will rise in the near future a new bank, which James B. Forgan, who is to be chairman of the board of directors, declared yesterday, would be "absolutely unique in this country." It will be modelled on the Canadian, or so-called Scotch-English, plan, which makes the president of the bank subject at all times to the authority of the directorate's chairman.

Stensland Formerly a Thief.

Stavanger, September 23.—Paul O. Stensland was a thief before he left Norway forty years ago. In Stavanger the Chicago bank wrecker carned his wages as a country lad. His employers were general merchants, and he sold goods below the regular price, dividing the profits with dishonest customers. He was found out and discharged.

Seventeen Mutineers are Shot.

Helsingfors, September 22.—Seventeen marines, condemned to death for participation in the Sveaborg mutiny, were shot yesterday. The court-martial has sentenced eighty other sailors to various terms at hard labor or to serve with the disciplinary battalions. Eleven of the men tried were acquitted.

Shot While Carrying Gun

Thessalon, September 22. — Milton Leach, aged 22, accidentally shot himself near his home Monday evening. He borrowed a gun from a neighbor, and was on his way to return it when it was accidentally discharged.

Regarding Declaration of War.

Ghent, September 24.—The Institute of International Law has adopted a series of resolutions regarding declarations of war, prescribing that hostilities shall not begin without a previous unequivocal warning, either by a plain declaration or an official ultimatum.

Want the Dominion Exhibition.

Ottawa, September 24.—A concerted movement is going to be made by the Ottawa City Council, Board of Trade, and Exhibition Association to secure for Ottawa next year the Dominion Exhibition, with its grant of $60,000. A deputation will wait upon the Premier in connection with the matter in the course of a short time.

Killed Two in Bunk Car.

Pulaski, Wis., September 24.—A work train on the new line of the Northwestern road ran into a workmen's sleeping car last night, killing two and injuring fourteen other laborers.

DANGEROUS FIRE WAS QUICKLY QUELLED

Corner of George and Hunter Streets, Including Tully's Drug Store Threatened With Annihilation by the Fire Fiend.

Last night about 10.30 an alarm of fire brought out the brigade in quick time. The fire which for some time looked serious, was got under control in about an hour. It very evidently originated in the photograph gallery of D. Currie, over Minocoto's fruit store, Hunter street, just across from the Oriental Hotel. Two lines of hose were quickly brought to bear and after a time the fire upstairs seemed to be under control, but flames suddenly burst from the third storey window. Then the extension ladder was brought up and placed to this window. Then several of the fire ladies swarmed up the ladder and brought two streams of water on the flames. The smoke from the beginning of the fire was extraordinarily dense, volumes of it often filling the composing rooms of The Times, some two blocks away.

The top floor of the building where the fire occurred, is an empty mansard roof, and the great fear was that the flames would reach this inflammable structure, had the flames ever made any headway on this mansard it would have been next to impossible to save the building. As it was, volumes of smoke poured through the south-west corner of George and Hunter streets just above Tullys drug store.

About 11 o'clock the nozzle of one line of hose, just in front of Minocoto's fruit store got loose, and then the crowds lining the south side of Hunter street, fled in all directions to escape the stream that was shooting with tremendous velocity from the erratic hose.

Before 11.30 the flames were got under control, after a great amount of water had been poured on the fire.

The stairs leading down from Currie's photograph gallery were a miniature Niagara, some of the water pouring down them. Minocoto's store had quite three inches of water on the floor and many dollars worth of fruit and groceries were destroyed. It is altogether probable that customers of Princess's barber shop will get a wet reception today as water seemed to be pouring through the ceiling thereon as Minoco Bros. fortunately have a considerable amount of fruit in cold storage, which would otherwise have been destroyed. As it is they carry nearly enough insurance to cover their actual loss, but not that by delay and loss of business.

One or two rather amusing incidents, in addition to the runaway hosse were in evidence.

One excited individual having been sent by Chief Rutherford for some firemen for an axe to cut a way through to the attic, meeting among others a Methodist minister rushed up to him and asked: 'Have you got an axe or a saw about you?' An irreverent bystander remarked, "Why don't you ask him for a cork screw or a pocket flask."

Again, in the rush from the flying hose a young lady with her pet dog, with the crowd rushed away from the water. She fell and a well known local citizen rushed to her aid. The "pup" not comprehending the situation at once fastened its teeth in the pants of the lady's would-be-rescuer.

Some damage was caused by water to goods at the back of Tully's drug store.

During the progress of the fire Chief Rutherford had one of his hands badly cut by broken glass.

Skating Rink Floor Finished

On Saturday night the fine new birch floor that Mr. Thos. Irwin and a staff of seven men have been laying in the Charlotte street rink, for use in roller skating was almost completed. The floor would have been finished that night but for the kiln-dried birch lumber giving out before the job was done. This is one of the largest, and certainly the finest roller skating rink floors in the Dominion.

Each strip of the birch, all of which was specially selected, is tongued and grooved both on the bridges and at the ends of each plank, so that the whole floor is practically one piece. The birch is laid and nailed upon cedar sleepers, the latter being laid in dry leveled sand; this will do away with all vibration and eliminate the sound. The greater part of the rink is laid in two-inch strips, the two running out a narrow strip of the west side is finished in 2½-inch strips.

The rink contains some 9,000 feet of lumber, giving about 7,000 feet of skating surface. The discrepancy being caused by loss in the grooving. Each plank of the flooring is hollowed out at the lower side to prevent warping, when water is put on to making the skating rink. This system of making artificial ice upon a birch floor has been tried in Toronto and so warping of the floors has resulted.

ATHLETIC WORLD

BY CUB REPORTER

RUGBY.

That Rugby is going to have a great boom in Peterborough this fall is now certain. A large number of admirers of the game were over at Riverside Park saturday afternoon watching the Peterborough seniors and the C.G.E. City Leaguers having a work-out. Arthur Poe the Peterborough coach was present and gave the boys some useful points. Ross Craig was also present giving the C.G.E. some advice on the game. Despite the rain most of the seniors were out.

RUNNING.

The Examiner road race on Thanksgiving Day, from the Tremont House, Lakefield to the Examiner office, for a shield to be held one year, and valuable prizes given outright to the first two winners is attracting some considerable attention.

Mr. Wm. Todd has signified his intention of entering on the morning of Thanksgiving Day. Mr. Wm. McBurney, of Havelock, will also be found among the sprinters in the race.

Our local talent is still a little shy about entering, but will doubtless be on hand and give a hard tussle.

THE TURF.

A slight change has been made in the turf attractions of the Peterborough Industries Exhibition, which will doubtless make the races more attractive than ever. The 2.18 class race has been taken off and a free-for-all substituted, so that a large field of very fast horses will be found in the event which will be in mile heats instead of half-mile as in the case of the other races.

A Case of Investigation by S.P.C.A.

A case should be investigated by the Society for Prevention or Cruelty to animals was that of a lamb left in one of the Market Square pens from Friday afternoon until this morning, without food or water. All day yesterday the bleating and cries of the poor animal were hear rending. Several of the firemen supplied the lamb with water and Mrs. Fred Darcy, hearing the animal's cries in the third storey of the building adjoining The Times, supplied it with water. Such infernal cruelty should be investigated and punished.

LACROSSE

Cornwall defeated Winchester Saturday by a score of 5—4.

Will he Field a team? and the Tecumsehs defeated Nationals Saturday at the Toronto Island by a score of 8—5, before some 3000 enthusiasts. It was only in the last quarter that Tecumsehs forged ahead, the score standing at the end of the third quarter 5—4 in favor of Nationals.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "seem" is deemed—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

GEORGE STREET, PETERBOROUGH

Largest Lot of Pianos Here

The Greene Music Co. Bring in Fourteen Instruments in One Shipment.

Mr. J. M. Greene, the enterprising proprietor of the Opera House Music store, on Saturday received a carload of New Scale Williams Pianos, from Oshawa. Mr. Greene says that he believes this to be the first full carload of pianos ever shipped one firm in the city. He intends to have a procession this afternoon from the G.T.R. station to the company's warerooms, on George street. There are 14 instruments in all in the shipment and it will take seven drays to convey the instruments.

Argentina Increasing Armament.

Buenos Ayres, September 24.—According to the Macion, the Government proposes to expend $20,500,000 of the $22,500,000 which it has asked for, in purchasing three large ironclads, nine torpedo-boat destroyers, and 11 torpedo boats. The remaining $1,000,000, in addition to $2,000,000 voted last year, will be spent for mines, floating batteries, river gunboats and transports.

—A lady's hand satchel containing a small sum of money awaits a claimant at the police station.

SOMETIMES IT DOES!

A Hearty Meal Should Never Annoy or Distress

A hearty meal should give a sense of gratification and comfort. It should never annoy or distress. If you have indigestion and discomfort after eating, it shows that your digestive organs are weakened and they cannot properly care for the food which has been swallowed. If you cannot eat and digest with pleasure and comfort three good square, hearty meals each day, you need to use Mi-o-na stomach tablets.

Mi-o-na is as unlike the ordinary pepsin digestive tablet as the electric light is more valuable than a tallow dip. Mi-o-na cures indigestion or stomach trouble by strengthening and regulating the whole digestive system, thus enabling the organs to take care of the food, you eat without any distress or discomfort.

Use Mi-o-na for a few days and the nervousness, sleeplessness, general debility and weakness, backache, loss of appetite, headache and other ills that are caused by indigestion will be banished and you will feel well as ever.

Mi-o-na makes positive and lasting cures and is sold under an absolute guarantee that the money will be refunded unless the remedy cures. 50c per box.

For sale by all dealers. The R. T. Booth Co., Buffalo, N. Y.

The Injured Man is Doing Well

George Frost of Hastings Has Arm Cut Off at Local Station.

We are pleased to say that the young man Geo. Frost of Hastings, a Grand Trunk Railway brakeman, who had his arm cut off Saturday morning at the local depot, was reported late last night by the Nicholls hospital authorities as progressing as well as could be expected.

The young man whilst in pursuit of his duties about eight o'clock Saturday morning, was engaged in coupling two old fashioned link and pin coupled cars from an engine on the branch line to the freight shed, when, on account of the wet condition of the rims from the recent rain, he slipped and fell forward between the engine and car. In falling he tried to save himself with his right arm, but as the cars were moving the wheels of the first passed over his arm near the shoulder, almost severing it from his body, the limb only hanging by a shred of skin. Dr. Braddi was called to attend the injured man, and he was removed to the Nicholls hospital in the Dan Spencer ambulance.

Owing to the excessive loss of blood at the time of his accident, the worst was feared on Saturday, but as noted Mr. Frost is now doing well.

Toronto Firm Buys County Debentures

Messrs. the Wood, Grundy Company Secure $14,000 Worth.

Tenders for the purchase of debentures were opened on Saturday morning for the erection of the Evans and Keene bridges by the County Council. The Wood, Grundy Company, of Toronto, were the purchasers, getting the $14,000 debentures for $13,529, or a percentage of 96.35. Mr. Brent, representing the Canada Life and Aemilius Jarvis & Co., of Toronto, were the other tenderers.

Lakefield's New Board of Trade

Lakefield is ambitious and has now decided to have a local and strictly alive Board of Trade. One of the first and most important matters to be considered by this assembly of village solons is that of the entrance of the Peterborough Radial Railway into their burg. The News in its last issue refers to the matter, and says:—

A VAST INDUSTRY COMING

Peterborough, With the Assistance of Senator Cox Has Good Chances to Secure an Industry Employing Many Hundred Men.

The presence of Senator Geo. A. Cox in Peterborough on Saturday, was fraught with deep significance, and will possibly, in fact probably result in this city securing the location of a most important industry, one that will employ possibly one thousand men from the start.

Whilst The Times for obvious reasons is not at liberty, at present to publish full particulars as to this industry it might be mentioned that the industry in question will involve the employment of many hundred skilled mechanics, which will mean two or three thousand added to this city's population.

This industry had partially decided to locate in Western Ontario, but Senator Cox, ascertaining particulars as to this fact, at once telegraphed those in charge and subsequently meeting them in person persuaded the chief officers of the concern to visit Peterborough on Saturday last. The representatives of the industry with the Senator spent a good part of Saturday looking about the city and on Saturday night held a conjoint meeting with the Manufacturers' Committee of the City Council. The committee authorized Senator Cox to act in the matter and use his great influence towards getting the company to locate here.

Should the industry locate here and such now seems likely, they will require twenty acres of land. It is to be hoped that the city will be successful in this matter, as the securing of so vast an industry will not only make a great demand for homes and boom our mercantile community but will be a great advertisement for the city and assist in securing other factories of similar or even greater importance.

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy, I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

HEAT OF THE EARTH

It is promised by the scientists of high position that the internal heat of the earth may be utilized as a source of industrial power in the near future. A comparison of underground temperatures has been made recently, and a theoretical increase of one degree for every sixty feet has been determined. However, the earth's crust is hotter in some places than it is in others. A thermometer lowered into the wells near Pittsburg and Wheeling showed 120 degrees, while it was found that the temperature at the foot of the Calumet and Hecla mine, 4,908 feet deep, was only 100 degrees. According to Prof. Hallock, of Columbia University, hot water is now being drawn from a well and being used to heat a house in Boise City, Idaho, and he claims that it would not be hard to get steam from the bowels of the earth. The great difficulty is not in obtaining the steam, because that involves merely a little extra labor in boring, but in order to give the steam commercial value, a method must be provided for dropping the water to the hot area, allowing it time to heat, and yet having it returned to the earth's surface without interrupting its flow for a moment. Prof. Hallock has a scheme whereby the heat of the earth might be used commercially, and although the undertaking would be great, the cost would not be beyond the present standards.

A CANADIAN AT WASHINGTON

President Roosevelt, who is a business man, thinks that Canada should have a representative at Washington attached to the British Embassy. And why not? In what way would British interests suffer if there was a Canadian on the staff of the British Ambassador at the American Capital who would be amendable to his chief, but who would be especially charged with the care of Canadian interests? When Canadian questions come up, he would understand them. When the Ambassador had to act with regard to Canada, he could give him accurate and detailed information regarding the Canadian side of the affair. When communication was desired with the Canadian Government, he could act as the conduit without necessitating a long journey by way of London and through a maze of red tape.

No question of "independence" or political separation from the Empire would enter into such a plain business arrangement. It would be merely a measure of convenience by which the business of two neighboring business peoples would be furthered. Diplomatically, there need be no Canadian at Washington at all. He could do his work as a subordinate member of the staff of the British Embassy. That is, he could do his work in this position if a common sense, business view were taken of the affair, and he were given all the latitude and power necessary.

Those of us who are passionately attached to British connection and who desire to see Canada go into the long future as a nation within the circle of the British Empire, must take care to remove from this road every obstacle which may seem to render it difficult to travel to the wide-awake, bustling, business population which will infallibly inhabit and dominate this country. If the "hurry up" business men of Canada find the British connection is in the way when they want to do business with the equally alert business men of the United States, they will grow impatient with it, in spite of tradition and past glories and all the eloquence of those of us to whom sentiment is a thing of importance. British connection endeared itself to our fathers because it was of practical value to them. It has held its place in our esteem largely for the same reason; and it is now our business to hand it on to the coming generation with all its attractiveness unimpaired.

A THOUSAND CARS OF WHEAT

Bridge Collapse Block Them on Canadian Northern.

Port Arthur, September 22.—A thousand cars of wheat are in sidetracks on the Canadian Northern Railway, between Port Arthur and Winnipeg, as the result of the bridge collapse thirty miles west of here, on Monday. The blockade caused by the bridge, a hundred miles west of Port Arthur, had not been fairly cleared when this new disaster occurred. Every side track is filled with cars of wheat, and at least fifteen trains must be brought into the port before the blockade can be broken.

Repairs to the bridge are under way, but it will be the end of the week before a train may pass over it.

Just at this time the hold up is most unfortunate, as the farmers in the west were rushing their grain into the market and the railway was doing its best to keep the cars moving.

CONCESSIONS ARE UNWORTHY

Expects Retaliation by Foreign Countries as Result.

London, September 22.—The Chronicle's Melbourne correspondent says that the parliamentary struggle with the question of preference to Great Britain was renewed. Mr. McLean, protectionist, minister in Hon. Mr. Reid's coalition government, made a significant speech, describing the proposed concessions as miserably small and utterly unworthy of Australia. He regarded retaliation by foreign countries as probable.

Mr. Fraser, Labor protectionist, moved an amendment, deferring action until after the Imperial conference. Parliament must prorogue in October, therefore there was not time for the scheme to pass the same.

FAVOR ANNEXATION

Japanese Newspaper Comment Upon the Situation in Cuba.

Tokio, September 22.—The Jiji Shimpo, one of the leading newspapers of Japan declares that American interference in Cuba is inevitable and that the independence of the island is not beneficial to most of the people. It advises the United States to annex Cuba, reform its administration, and check corruption for the sake of practical humanity.

LAKEFIELD FAIR

The dates of the Smith, Ennismore & Lakefield Agricultural Society's annual exhibition have been changed to Thursday and Friday, Sept. 27-28, to avoid conflict with Peterborough's dates.

This year the Fair will be held in the new grounds of the society a block west of the Presbyterian church in Lakefield. Prize lists, etc., can be obtained from W. Sherin, secretary, Lakefield, Ont.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal.] A. W. GLEASON,
Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

Hard Coughs Have you forgotten that family history of yours, with its tendency to weak lungs? Your doctor has not, if you have!

He will tell you the special danger of hard coughs in your case. Then ask him what he thinks about your taking Ayer's Cherry Pectoral. If he says it is a good medicine, why not take it? We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, L.L.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

ESTABLISHED 25 YEARS.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 25 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 35 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

way to your lair? Roberts, you are the most imprudent man I ever knew for a coward."

"Epicure, epicure, dear Mac; not coward, but epicure; it is not danger or death that I dislike, but pain, dear Mac, pain; therefore, call me epicure, or voluptuary, if you like, but not coward," said Roberts, mildly.

"Very well, then; for an epicure you run more risks of hurting yourself than any one I ever knew."

"Nay, I am very cautious; I have not shown myself abroad by daylight since the adventure. But now tell me, what does the world outside say of it?"

"They give opinions as opposite as north and south. Of this, however, I can assure you, suspicion is far off the right track. Neither you nor I are suspected, so far as I have been able to discover. The particulars given by the young lady to the magistrates are of the general and unsatisfactory character. Her carriage attacked in the night on Hounslow Heath by thieves, not one of whom she could identify; herself rescued by two gentlemen, who called themselves Colonel M'Carthy and Captain Roberts, but whose faces she never distinctly saw, and taken through the darkness to a country house in the woods, somewhere off the road between Windsor and London, and finally carried off again thence by a man who wore a mask and spoke in whispers. Very interesting but very embarrassing all that! There may be two hundred unidentified footpads in England. There are, perhaps, two thousand gents who might answer to the description of Colonel M'Carthy and Captain Roberts, of the 11th infantry, though there happen to be no such officers in that gallant regiment. And lastly, as the preachers say, there are at least two score of old country houses in the woods off the road between London and Windsor, though there may be no such place as Howlet's Close found among the number. But there is one thing I cannot understand, Roberts."

"What is that?"

"Who the deuce it could have been that carried the young lady from the house in the woods, and so ruined my enterprise!"

"What?" inquired Roberts, abstractedly.

"I say, I cannot imagine who that man in the mask, who concealed himself in the young lady's room, and seized and carried her off by force, could have been, or what his motive could have been. I have been thinking of it ever since, and can make nothing of the matter—can you?"

"No, indeed, dear Mac; I never was intended by nature as a detective."

"In fact, I am more puzzled than the police; for the police are not puzzled at all. They who have not been able to identify either the first assailants, the rescuers, or the country house to which the young lady was taken, have quite hit upon the individual who carried her off thence," said Mac, looking wistfully at his companion, whose only comment was a smooth, serene—

"Indeed."

"Yes; they have quite made out the identity of the individual who carried Lady Etheridge off from the house in the woods! Now, who do you suppose they have made him out to be?"

"Upon my life I could not say, dear Mac," answered Roberts, with cheerful frankness.

"You!"

"Me?" inquired Roberts, with gay incredulity.

"You!"

"What nonsense, dear Mac! What should have put that into their remarkably stupid heads?" inquired Roberts, with an amused expression of countenance.

"The evidence of the cabman who was hired by the man to carry off the lady, and who described his employer as 'a tall, stoutish, light-complected gent, with light 'air and wiskers, and most the beautifullest smile as never I see!'"

"Ha, ha, ha! A description that would suit half a million of British gentlemen!" laughed Roberts, gayly.

"Exactly—precisely. Yet, you see, they could think of no one but yourself. It shows that they know you to be in England, and that they are in search of you. So, though of course they are ludicrously mistaken in supposing you to have been the masked man that carried off the beauty from the house in the woods, yet, as their attention is turned toward you, you had better leave England as soon as you can get off. In fact, I cannot imagine what madness it was that brought you back."

"The madness is comprised in one word—Helen."

"You, for another Helen, would lose another Troy."

"No more of that—to come to the point. Though our enterprise has, signally failed, yet I to presume the—hem!—nobleman, your patron, has liberally, or will liberally reward our zeal."

"Hush, for Heaven's sake. No. Had we succeeded in securing the beauty, and had she been persuaded to listen to his suit, I will not venture to say what we might not have expected from the gratitude and munificence of my noble patron, for with—hem!—nobles, success is the test of merit. But we failed, and failure is, with the same judges, the proof of demerit. And were we to acknowledge our deed, and claim reward for our zeal, we should be transported for our crime."

"Humph! it is a nice business this secret service of——nobles," said Roberts, with a good-natured smile.

"It was a failure, Roberts—a failure, and, as such, must be borne with philosophical coolness."

"And is the case quite hopeless with the young lady?"

"So hopeless that she will be married on the fourteenth of next month to his grace the Duke of Beresleigh."

"No!" exclaimed Roberts, betrayed into more energy of expression than was usual with him.

"Yes, certainly, it is publicly announced; but what is there so strange about that as to make you start up and exclaim in that way?"

"Rose Elmer—Lady Etheridge—Duchess of Beresleigh," murmured Roberts, musing deeply.

"Well, well, well, of course! All natural enough; the pair were understood to be engaged long before their betrothal was announced; but why it should affect you so strangely I cannot imagine," exclaimed Mac, in impatient surprise.

"Why, my dear Mac! Because such a marriage will disappoint your—noble—patron," replied Roberts, smoothly, having quite recovered his serenity.

"Pooh; that is not the reason. What do you take me for to impose such a story as that upon me?"

"Really, my dear Mac, this is one reason, though not the only one. The other is that I once knew this Rose Elmer as the daughter of a village laundress. And you will acknowledge that I have a right to be rather startled to hear that she is about to become a duchess."

"Hem! I doubt much whether that is the whole reason, either; but I will not press upon so very forbearing an antagonist. I will rather draw our conversation to a close. You sent for me, merely to know whether my noble patron would repay your unsuccessful efforts to serve him."

"I did, dear Mac."

"And I told you 'no,' for if the ill-fated enterprise should come to his knowledge, our patron, instead of rewarding our zeal, would punish our crimes and illustrate his own high sense of justice."

"Exactly, dear Mac; but what is the use of repeating painful truths?" said Roberts, sweetly.

"In order to come to a pleasant one, and to tell you that, although nothing is to be expected or hoped for from

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 5,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $80,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims of 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 16 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—13 carloads or 1,300 tons—every ton of which went over 40.5 per cent. copper, $6.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 350 Markham street, Toronto, Ontario.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $25,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, is proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $12 to $15 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold have been produced during last 40 years. It is surrounded by over 30 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 60 cents on September 1st. Buy now.

A GOOD CANADIAN REPRESENTATIVE WANTED

A Woman's Kidneys

What Doctors Notice and What They Don't.

Disease in the kidneys is one of the last ailments for which a doctor looks when treating women. This is a great mistake.

Women are very prone to kidney trouble and in fact many physicians attribute a woman's languor and ill health to a derangement of the genital organs, when it's simply plain kidney disease, and nothing else.

Many so supposed female complaints are either kidney or bladder diseases.

Sick kidneys of course cause associate organs sick also.

The result is back pains, bearing down sensations, utter weariness and headache.

But Dr. Hamilton's Pills go right to the spot.

They put life into the kidneys that makes a worn out woman feel like new.

Indirectly the blood and nervous centres are assisted by Dr. Hamilton's Pills, and the result is a proper performance of the function and a painless fulfilment of nature's command.

Thus it is that a woman can gain much happiness and abundant good health by the regular use of Dr. Hamilton's Pills.

From her home near Portland, Ont., Mr. A B. Coburn writes:

"For two years past I have been sickly and weak. My color was dull and sallow, and I felt exhausted and weary, as if all my strength were being eaten up with some hidden trouble. I heard of Dr. Hamilton's Pills and decided to use them. The change in a few days was surprising. They regulated my kidneys and bowels and cured all my suffering; today I am perfectly well."

You can rely on Dr. Hamilton's Pills with implicit confidence: their effect is wonderful. Sold by all dealers Price 25c. per box, five boxes for $1.00, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

LOCAL INCIDENTS

By The Times Man on the Street

—A present with every twenty-five cent purchase of school books at Times Bookstore.

—The trunk full of clothing stolen last Monday from a young lady in a Water street hotel has not yet been recovered.

—About one inch of rain fell during Friday night and Saturday. This is the first real rainstorm here since Aug. 23d.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—The salary for superintendent and matron for the Lakefield House of Refuge is $550 per annum. The former receives $300 and the latter $250.

—The report of the Building Committee of the new Collegiate Institute will be submitted to the Board at its meeting tomorrow night.

—Carpenter work on the new Hinton Carpet works is completed and carpenters to the number of 25 laid off. The work was well pushed through very quickly.

—A unique feature of the Lindsay Fair races was the use of the horses entered Friday on the pace round the couple of track with no driver in the sulky. The horse had its own record.

—The Lakefield News says: "The pressing need of more accommodation for the travelling public was shown on Tuesday evening when two Englishmen, recently out from the old country were unable to get proper accommodation for the night and had to bunk in a blacksmith shop.

Medal Presented to Heber Rogers

A most pleasing incident was the presentation in St. Luke's church choir last night, after close of the evening service, of the coveted distinction, the Royal Humane society bronze medal to Master Heber Rogers.

This medal which is only presented by the society after a most critical and thorough investigation into all circumstances connected with the cause for giving it, was in his particular case most fully deserved, as Heber Rogers, it will be remembered recently at great risk of his own life pluckily went to the rescue of two boys, who would but for his prompt and gallant action been drowned. After some appropriate words by Rev. E. A. Langfeldt, the rector, Mr. Duncan Walker, B.A., inspector of the local schools presented the medal to the brave winner.

Master Heber is a son of Mr. R. B. Rogers, East Ward, recently superintending engineer T.V.C., and constructor of the Lift Lock.

Reminder to Gentlemen.

Those who are Bald should visit Prof. Dorenwend, who will be at the Oriental Hotel on Tuesday, September 25, and see the many devices he has contrived and invented in the way of Wiggs and Toupees, of which over 75,000 are in use. In these days of progress personal appearance has a great deal to do with success in life, and the hair has everything to do with appearance. Call and see these fine goods.

Mr. H. Winch in Laughable Picture.

To show the fallibility of even the larger newspapers it might be noted that the Montreal Standard of last week, in an illustrated series of articles descriptive of Eastern township scenery, displays a photograph of Mr. Barry Winch's cottage at Stony Lake, with a life like and easily recognizable picture of the genial Barry's well known features. As might be expected where Mr. Winch is so in the carcase of a deer suspended by the cottage.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Robt. S. Lewis, Passenger Agent, 10 King street east, Toronto.

Loses Two Fingers at C.O.E. Co.

On Saturday a young man by name Allen, whilst working at a planing machine at the Canadian General Electric Works, by accident got one of his hands caught in the planer. He was so badly hurt that it was necessary to send for to the Nicholls hospital, when Dr. Young assisted by Dr. Hradd amputated two fingers of the injured hand. Allen will not be able to go to work for some days.

Mr. R. Gibbs Has New Hack.

Mr. Robt. Gibbs the local liveryman has added another handsome new rubber tired hack to his already complete outfit. The hack, which was made in Toronto has its wheels and gearing painted in an attractive design of red and black, while the body of the vehicle is black. The carriage is rubber-tired.

The Cook

Can't disappoint those who use

Grape-Nuts

FOOD

It is perfectly cooked at the factory.

Read "The Road to Wellville," in p

SOCIAL AND PERSONAL

—Mr. A. S. Buchard, of Lakefield, was in the city Saturday.

—Mr. John White, jr., of Midland, was a guest at the Oriental Saturday.

—Miss Sherry, of Norwood, is a guest of her friend, Miss Helen Davies.

—Mr. Garnet Greer and Mr. Archie Wood leave this morning for Queen's University, Kingston.

—The Rev. A. G. Brown, Lakefield preached in Park street church morning and evening, yesterday.

—Mr. George Tapley, one of the Peterborough Old Boys, is home from Toronto on a visit to his mother.

—Mr. Frank Walker, of the Quaker Oats Co., has gone to Richford, Vt., where he will be engaged for some time.

—Mr. Joseph Hazerstraw a leading farmer living near Omemee, died suddenly in bed at that village on Friday night.

—Messrs. Henry Cook of Perth, Scotland, and Jos. Dunwoodie, of Glasgow, Scotland, were in the city on Saturday, registered at the Oriental Hotel.

—Miss Hope Patterson leaves this morning for Kingston to attend Queen's University. Miss Hope will be missed by her many friends during the coming year.

—Mr. Joseph H. Louden, chief engineer of the steamer Norseman, who has been visiting his family on McDonnel street, leaves today for Midland, where he will join his boat.

—The annual meeting of the Peterborough Branch of the Women's Art Association will be held in The Young Women's Christian Association building this evening at 7.30

—Mrs. Haultain was in Peterborough on Wednesday attending the marriage of her sister, Miss Georgina N. Dennistoun to Mr. Archibald M. Russel of Montreal.—Port Hope Guide.

—Mrs (Rev.) J. C. Davidson, who has been at the Nicholls Hospital for some weeks returned home yesterday. Her many friends will be pleased to learn that Mrs. Davidson is looking well after her illness.

—Mr. Geo. E. Boulton, the well known coal dealer, of Buffalo, Miss Boulton, Buffalo, N.Y.; Mr. and Mrs. Fred H Wood, New York; Mr. and Mrs. W. J. Simpson, Rochester, N.Y., left yesterday morning for Gold Lake where they will spend a week in the Gold Lake Hunt Club's cottage.

—Mrs (Dr.) Morrison, Mrs. Thos. Barrie and Mr. Herbert Hamilton left Saturday morning for Sturgeon Falls, where they will attend the wedding of Miss Mabel Hamilton, daughter of Mr. Alexander Hamilton, to Mr. Donald Cameron of Calgary. The wedding will be celebrated on Wednesday.

Lindsay Police at Logger-Heads

Our readers will remember The Times noted a few days ago how it had taken the Lindsay Police force some days to locate a stolen horse and buggy, in one of their livery stables. The Post adverting to this non-Sherlock Holmes detective ability, says,

"The people and press of Peterborough, have been sweltering in considerable merriment because a horse stolen from a man in that town munched oats for a week in a stall in the Royal Hotel stable without being discovered by Lindsay police, who, it is stated, were informed of the theft, and also that the horse was in Lindsay.

It is not pleasant for our citizens to be told that their police officers are being made sport of, and be it evident should be inquired into by the police commissioner of the council. Strange things have occurred in the past, and there is strong justification for the belief that there is not—and never was—that perfect understanding and sympathy between the chief and his assistant that make for efficient service."

Get the Wires Off of George Street

It is to be hoped most profoundly that the City Council will not shut their eyes to advantages that every other progressive city strives for, viz., the disposing of Peterborough's unsightly and dangerous forest of poles and wires, by having them placed underground, at the Bell Telephone Company's expense. Not only is it desirable to get rid of the poles and wires, but on the adoption of the work of laying the wires underground, depends the addition of another fine building to the city. The Bell Company are only waiting to get the matter of underground wires definitely settled to begin work on their office building. The building means having hundreds of wires, so feared by firemen off George street, and relegated to a back street. This in itself is a matter worthy of consideration both by the city and the insurance companies.

Reserved Judgment in Dummer Case.

Judgment was reserved on Saturday morning in the boundary dispute question between Mrs. Cooper and Mr. Fred Calder, of Dummer township. The case began Friday and the evidence was just concluded Saturday morning.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 10c. and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

St. John's "Tea" on Oct. 9th.

The tea, which is to be tendered by St. John's Church to the members of the Ministerial Association and representative members of their respective congregations, has been arranged for Tuesday night, October 9, in St. John's school house.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R.V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from nature roots, taken from our American forests, he could produce a medicine which was marvellously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, sick or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, cool flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

I WILL GIVE

interest in some good mining claims to parties able to raise money to develop such claims.

E. P. FARNHAM,

P. O. Box 1061,

GOLDFIELD, NEVADA

All Should Take in the Fall Fair

Everything is now in readiness for the Peterborough Industrial Exhibition, which opens tomorrow. Secretary Hall reports that the entries are quite equal to that of former years and if some classes much superior. The poultry exhibition alone will be well worth a visit. The directors have worked like beavers, and it is now up to our citizens to show their appreciation of this labor of love by turning out en masse and attending the fair.

The result of this year's attendance will practically decide whether Peterborough will continue to hold her enviable position among towns and cities with snap enough to hold a good yearly local exhibition, or fall back into the ranks of the "has beens" in this respect. The fair is a good exhibition, the directors should be backed by their fellow townsmen, and as the directors cannot pay out thousands of dollars for prizes without the money to pay them, is every man, and his family at end at least one day and help along a good cause whilst enjoying a solid afternoon's amusement.

Temperance House For Lakefield

That Lakefield now, if no regretting the passage of local option there, is feeling the inconvenience and lack of trade consequently upon an enforced closing of its hotels is certain.

The News says:

We are informed that the house and premises lately owned by Mr. J. W. Stuart, has been sold to a syndicate of temperance advocates in the village, who will open it up as quickly as possible and operate it as a hotel on purely temperance lines. The stabling accommodation, which at present is meagre for the purposes of a hotel, will also be largely increased. The house will be placed under the charge of an experienced man and will be run at normal rates, and everything will be done to cater to the requirements of those who favor it with their patronage.

Twenty Minutes Time Enough?

To Cure the Worst Headache From Any Cause—New Reduction Method.

Most headaches and pains yield instantly to the new Reduction Method—Dr. Shoop's Twenty Minute Headache Cure. The cause for these pains is congestion—a rushing of blood to the nerve centers—which distends the veins to nearly the bursting point. Swollen and enlarged, these veins and capillaries exert an irritating pressure on the myriads of nerve branches and fibres. Then, there's a pain, and finally that excruciating, ocean-like aches. This new Reduction Method disperses the blood, distributes the overflow, and relieves it to the proper channels, from the nerve centers from all irritation—the pains and aches disappear because their cause has been removed. You may try a thousand and remedies—you may drug and stupefy the nerves into submission—but the remedy which brings prompt relief and permanent cure will be successful because it reduces the congestion—it must embody the Reduction Method. Medicine has thus found a way—simple and sure, yet the only way—to thoroughly overcome these attacks of Headache and Neuralgia. The effect of Dr. Shoop's Twenty Minute Headache Cure is prompt—perfectly suited to all forms of Headache and absolutely positive in every temperament. For sale and recommended by

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

VOL XXXIV. NO. 226 PETERBOROUGH, ONTARIO, TUESDAY, SEPTEMBER 25, 1906. PRICE TWO CENTS

SEWER FROM NEW SCHOOL NOW ASSURED

This Measure Was Settled by the Board of Works Last Night---Tenders for this Work to be Advertised for at Once.

The Board of Works of the City Council met last night when there were present, Chairman Ald. Hicks and Aldermen McIntyre, Johnston, Adams Graham, Ball, Elliott and Wilson.

A petition was received for a new sewer from the new South Ward school to Romaine street, and along Romaine to Locke streets. Being sufficiently signed this petition was granted. This sewer will be of 1800 feet length and from 6 to 8 1-2 feet deep.

Ald. Hicks offered that when a start is made to open Romaine street it will be necessary to open up several private properties in order to get material into the school. It transpired that a couple of weeks will elapse before this work can be started.

Ald. Graham moved, seconded by Ald. Wilson,—That tenders for the construction of the sewer from the new South Ward school to Romaine street, and thence to Lock street, be advertised for, and that the city engineer also submit an estimate for the same. Should the engineer's estimate be lower than any tender received, then the work to be done by day labor.—Carried.

These tenders must be in by five o'clock on Monday next.

Ald. Wilson moved, seconded by Ald. Johnston,—That the engineer report on the advisability of constructing a concrete bridge on Charlotte street.

A deputation waited upon the Board with a view to getting a sewer on Sherbrooke street. It appears that the cellars of residents on this street are frequently inundated with water. Regarding the matter of getting a sufficiently signed petition for this work it appears that so many of the property owners in this district live out of town and consequently lack sufficient interest to attach their signatures to a petition forwarded them for this work. All the resident property owners are in favor of the project.

Ald. McIntyre moved, seconded by Ald. Johnston,— That the construction of a sewer on Sherbrooke St., from Park street to the Monaghan Rd., be advertised at once.—Carried.

Mr. Stewart was present and asked for a sidewalk on Reid and London streets, which was promised last fall and has not yet been built. This he characterised as very unfair treatment.

Ald. Elliot moved, seconded by Ald. Wilson,—That one hundred and fourteen feet of sidewalk be built on London street, and a walk on Reid street from London to McDonnell street, also a crossing.—Carried.

The walk on London street will be undoubtedly constructed this year in order to meet Mr. Stewart's pressing needs; the one on Reid street may not be built till next year if the Board of Works have difficulty in carrying out the season's program.

Mr. R. J. Wolsenholm asked for a temporary sidewalk from present end of walk on Lafayette street to Chamberlain street.—This was granted.

James J. Goodwin asked for a roadway across Sherbrooke street, opposite his property.—This means a crossing over the drain, and was granted.

On motion of Ald. Graham, seconded by Ald. Elliott, a load of gravel will be put on Victoria street.

The Board then adjourned.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday afternoon Oliver Barr charged with an attempted indecent assault on Mrs. Florence Peters of Galway, was up before County Magistrate Geo. Edmison.

The plaintiff, Mrs. Peters, however, failed to appear to prosecute and the case was thus dismissed.

Mr. Kerr was present in the interests of the defendant, whilst County Crown Attorney R. E. Woods appeared for the prosecution.

At yesterday's police court Arthur Wark was charged with stealing $1.50 from Messrs. A. H. Stratton's Book Store. The case was enlarged until Wednesday.

Barn Destroyed, Man Stunned

It seems that lightning strikes both the just and the unjust, both in city and county. During the recent heavy thunder storm, the barns of Mr. Joseph Hancock, of Smith, were struck by lightning and completely destroyed. The total damage is estimated at $6,000 with only $1,500 insurance.

Mr. Hancock only arrived home from the city a few minutes before the fire.

The hired man put the horses in the barn and while he was closing the door afterwards the lightning struck the building and the man was knocked senseless. He soon recovered, however.

The barn which was struck was a new one, built on a modern plan with stone foundations and with the stables all in the basement. In this barn was stored 600 bushels of wheat, a large quantity of oats and barley, 110 bushels alsike clover, seed worth about $600, besides vehicles, harness, tools, machinery, and a number of young cattle, etc. The barn itself was easily worth $2,500.

The barn broke into flames as soon as the electric fluid struck it, and despite the hard work of Mr. Hancock and his man everything was destroyed by fire.

A second barn, somewhat smaller, containing 80 tons of hay and a lot of other farm produce caught fire, as did also a shed, and both were totally destroyed. The second barn and shed were valued at over $1000 besides the contents.

Fierce Dog Fight on George Street

Yesterday morning about 10.30 a fight between a "brindle" and a "white and yellow" bull dog attracted much attention from pedestrians on George and Brock streets. The fight began on George street near O'Brien's cigar store, and was continued in a running campaign up George street, to Brock and along Brock street to the front of Fitzgerald's carriage factory. In front of the factory the fight raged, the yellow and white having one ear torn off as though cut off by shears. Here Mr. Fitzgerald and others interfered; Mr. Fitzgerald during a clinch of the dogs, putting his foot on the brindle's throat to shut off its wind and thus end the fight. At last the owner of the yellow and white appeared on the scene and gathering up his pet under his arm, started to walk off with the dog. The brindle however, eager to renew the contest followed the man and his dog jumping up to try and grab its stepponent. To save being bitten, the owner of the yellow and white had to put his pet on the ground. A spirited fight again took place, until several onlookers stepped in and had the fight ended. Both dogs were very much the worse for their mixup.

Lehigh Valley Reduces Passenger Fares.

To take effect November 1st, or as soon thereafter as possible, the maximum rate per mile on the Lehigh Valley Railroad will be on the basis of 2 1-2 cents.

This will not change passenger rates now based on charge of less than 2 1-2 cents per mile.

Interchangeable mileage books, which are now sold at $30.00, will be sold at $25.00 with a rebate of $5.00 on each 1000 mile book instead of $10.00, as at present.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. It contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike petrolatum. It soothes, heals, purifies, controls. Call at our store for free trial box. J.D. Tully

St. Mark's Church Harvest Festival.

The Harvest Festival at St. Mark's church last Sunday was a great success. The church was crowded to the doors with a reverend congregation. Rev. Wm. Major, of All Saints' preached a very appropriate and eloquent sermon.

Hidden Treasure

The Gold is There

Lift the Rock.

Many a man and woman has yet to find the hidden flavor and value of POSTUM FOOD COFFEE because it was served long before being boiled long enough.

When Father, Mother, Sister or Brother feels the hurt of coffee and seeks to be well again and able to do things in this world, do your share Mr. or Mrs. Cook and see that the Postum is made right, and that's easy. Either put it in the pot and let it soak over night and then boil 10 or 12 minutes, or put it on fresh, a piece of butter the size of a pea in the pot to keep it from boiling over and then let it actually boil at the bubbling point for 15 minutes. Then you have Postum and not the common weak stuff too often prepared by a careless cook.

You, man, who have been poorly served, read this to your "wimmen folks" and ask for a Square Deal. If coffee congests your liver, ruins nerves and stomach and handicaps you in the race of life, quit it entirely and start on Postum.

The little stored-away elements that nature uses for the sure rebuilding of the lost gray matter in the nerve cells are in Postum.

Lift the rock and get the treasure. It's there, and "there's a reason" for

POSTUM

WANTS TO BE A NEW POPE

A Reform National Catholic Church of France

PRIESTS FAVOR NEW CREED

Father Maillon is Accused of Ambitions to Set Himself up as a French Pope

Paris, September 24.—Father Felix Maillou, a former chaplain of the Marseilles Hospital, who recently seceded from the Roman Catholic church, says that no fewer than 200 French parish priests, mostly in country districts, have sent in their adhesion to his "Reformed National Catholic church of France."

The tenets of the new church are: Complete parochial independence; clerical garb only to be worn during the celebration of divine service; priests to be at liberty to marry and to be elected to their parishes by the practicing Catholics of each parish; all priests to be subject to episcopal authority in matters of dogma; bishops to be elected to their sees by the parish priests and church wardens; priests to be at liberty to carry on any honorable profession or business to earn their living, and the Bible to be the sole basis of doctrinal teaching.

Father Maillou, however, is accused of being ambitious to set himself up as a sort of French pope.

A New Industry For Hastings

The Peterborough Steam Boiler and Radiator Co. Will Locate There.

The Peterborough Steam Boiler and Radiator Company, who were desirous to locate in Peterborough, brought in the absence of inducements commensurate with those offered other new industries sought location elsewhere, will establish their manufacturing plant in Hastings, where the company have been offered $5,000 with which to purchase a desirable site, and fixed assessment. The bylaw was voted on yesterday, and carried with but one vote against the measure. The company is capitalized at $50,000, subscribed to by both Peterborough and Hastings men. They will employ a large number of hands and everything points to a successful and prosperous future in the manufacture of boilers and radiators, for which there is an assured market.

If all dyspepsia sufferers knew why Dr. Shoop's Restorative would do for them: Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative. J. D. Tully.

VARIOUS CHURCH NOTES

METHODIST.

The Epworth League of Charlotte street church held an interesting meeting yesterday evening when a reception to new members was given.

An adjourned meeting of the Quarterly Official Board will be held tomorrow night.

On Friday night next the Ladies' Aid Society will tender a reception to the members of the congregation for the purpose of meeting Mrs. Manning.

On Sunday next Rev. Leonard Phelps, pastor of Queen street Methodist church, Lindsay, will occupy the pulpit of Charlotte St. church.

PRESBYTERIAN.

The class for new communicants met in St. Paul's church yesterday evening.

St. Paul's Home Missionary Society will meet in Knox church on Wednesday next at 3.30 o'clock.

The Mission Band of Knox church will hold a musical entertainment in that church on Friday evening next.

ANGLICAN.

Women's Guild of All Saints' church met yesterday evening to arrange for the entertainment at the annual congregational re-union.

Men's Guild met last night for the purpose of completing plans for the winter's work.

The Junior Auxiliary Society will meet Thursday afternoon after school.

Thursday evening the annual harvest home services will be held.

On Monday evening, Oct. 1st, the annual congregational reunion will be held in the basement of the church.

The B.Y.P.U. of Murray street Baptist church held a "Rally Social" yesterday evening. A good program has been prepared, and a most successful event was the result.

The Fall Fair Opens Today

Yesterday perhaps the busiest men in Peterborough were the officers and directors of the Fall Fair. It is now up to the citizens to make Peterborough's Industrial Exhibition a financial success.

The list of entries is away ahead of last year, and there is every prospect that the show will be a record one from every standpoint.

The grounds are in splendid condition and the stables have all been repaired. The police officers will be in charge of County Policeman Archie Moore. The different overseers have all been selected and every detail is complete, ready for the opening.

The horsemen are enthusiastic over the prospects for the races, which will be the best ever. The entries do not close until tonight.

The poultry show will be the biggest and best ever shown here. The number of entries already received are very encouraging and this department will be one of the largest exhibits on the grounds.

The main point is that every one should go down to the Fair whether by street car, automobile, shanks mare balloon or telemo oropathy.

Premier C.-B. Praises Natal's Moderation

Sends a Remarkable Letter in Which He Says Britain Stood Ready to Help Her.

Pietermaritzburg, Sept. 24.—A despatch from Lord Elgin addressed to the Governor of Natal, dated yesterday, expresses the Imperial Government's appreciation of the courage and self-reliance of Natal in meeting the recent emergency, and rejoices that the period of strain is ended.

The despatch continues: "The conduct of the troops was admirable, and was supported by the determination and self-restraint of both the Government and the people. The Imperial Government was prepared at any time to render assistance, but was glad that the necessity had not arisen.

"The judgment and moderation shown by the commutation of the court-martial sentence inspired the hope that peace would be re-established on a basis of justice and good feeling."

A person congratulation is conveyed to Sir Henry McCallum, the Governor, who, on behalf of the Natal Ministers, has sent an appreciative reply.

Rheumatism is not incurable, you bet! You! But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives rheumatism from the blood and then Rheumatism dies. We recommend and sell. It. J. D. Tully.

WOMEN ON MURDER CHARGE DECLARED TO BE INSANE

State Attorney, However, Will Try to Force a Trial.

Bellingham, Wash., Sept. 24.—Superior Judge Crater this morning ordered Esther Mitchell and Maud Hart Greffield, charged with murder in the first degree for killing George Mitchell, deported to Oregon by the sheriff. The order of the court was made upon the report of the insanity commission that both women were insane.

The sheriff is ordered to turn the women over to the superintendent of the Oregon Insane Asylum.

Prosecuting Attorney Mackintosh denounced the insanity commission and demanded that the women be tried, and will apply to the supreme court for a writ of prohibition preventing the deportation of the women.

The women are being deported under the statute passed by the last legislature providing that insane persons who are legal residents of one here state may be taken by the sheriff to the place from whence they came. The superintendent of the Oregon Insane Asylum, however, cannot confine the women without a legal order from the Oregon courts, and this will necessitate a hearing in Oregon. If found sane in Oregon they will have to be liberated.

THE WAY OUT

Change of Food Brought Success and Happiness.

An ambitious but delicate girl, after failing to go through school on account of nervousness and hysteria, found in Grape-Nuts the only thing that seemed to build her up and furnish her the peace of health.

"From infancy," she says, "I have not been strong. Being ambitious to learn at any cost, I finally got to the High School, but soon had to abandon my studies on account of nervous prostration and hysteria.

"My food did not agree with me, I grew thin and despondent. I could not enjoy the simplest social affair for I suffered constantly from nervousness in spite of all sorts of medicines.

"This wretched condition continued until I was twenty-five, when I became interested in the letters of those who had cases like mine and who were being cured by eating Grape-Nuts.

"I had little faith but procured a box and after the first dish I experienced a peculiar satisfied feeling that I had never gained from ordinary food. I slept and rested better that night and in a few days began to grow stronger.

"I had a new feeling of peace and restfulness. In a few weeks, to my great joy, the headaches and nervousness left me and life became bright and hopeful. I resumed my studies and later taught ten months with ease—of course using Grape-Nuts every day. It is now four years since I began to use Grape-Nuts, I am the mistress of a happy home and the old weakness has never returned." Name given by Postum Co., Battle Creek, Mich.

"There's a reason." Read the little book, "The Road to Wellville," in pkgs.

SOLDIERS CALLED OUT TO QUELL NEGRO RIOTS

Ten Thousand Men Attacked the Blacks in Atlanta---Thus Far the Known Dead Number Ten---City Comparatively Quiet.

Atlanta, Ga., Sept. 25.—The local situation at noon yesterday seemed more favorable than at any time since Saturday night. The authorities have dismissed and sent home all outside militia companies, excepting those belonging to the fifth regiment. This leaves one full regiment in charge.

Troops have been withdrawn from the streets until night, except for some guards posted at the hardware stores to protect them from possible raids.

The sale of firearms and ammunition has been ordered stopped, and all the saloons have been closed until further orders.

The lynching of Zeb Long, a negro, at East point, eight miles south of the city, has been the only event of excitement yesterday. Long was arrested yesterday, charged with disorderly conduct. He was taken from the jail after midnight and hanged in the woods half a mile from the center of the town. The particulars of the affair have not been ascertained, as no one will admit having been connected with the lynching. Long, so far as known, was not suspected of having assaulted any white woman.

The feature of the situation is the scarcity of negroes usually employed about the city.

The telegraph companies are advertising for white delivery clerks, and the post-office is experiencing great difficulty in delivering mail.

Domestic servants are frightened, and an exodus of large proportion of negroes from the city is reported.

ILLEGAL EXECUTIONS.

New York, Sept. 25.—The World today says: "Four thousand persons have been put to death without warrant of law in the United States in the last 25 years. Ninety-five per cent. of them were Negroes charged with assaults on white women. The methods of execution comprised hanging, shooting, flogging, drowning, burning at the stake and flaying. In one instance in Arkansas the victim's arms and legs were twisted from their sockets. As a rule, the more atrocious the crime the more atrocious the punishment.

"Before the wholesale lynching of Negroes in Atlanta on Saturday Louisiana and Alabama held the lynching record. But Georgia now goes to the head with some big like 55 victims.

"Georgia averaged about 28 murderers a year from 1901 up to the present year, the majority being by hanging or shooting."

Jealous Woman In Police Station

Yesterday afternoon an Englishman, whose name for obvious reasons we omit, accompanied by an English woman and a boy of about 16 years of age, called at the police station. P. C. Meharry, who was on duty at the station enquired their business. The woman at once started to get busy by saying, "Are you the chief? I don't care whether you are or not; but in any case I want this thing settled!"

P. C. Meharry somewhat embarrassed by her rapidly strung words, said, "Well, madam just tell me what the matter is and I'll try and see what I can do." Then the woman, at a 240 clip, proceeded to tell the officer that her husband, who works at a local hotel, did not come home when she wanted and, further, that he had not purchased tickets for the opera house, although the boy wanted to go to the show.

The "husband" explained that the woman was consumed by an inordinate jealousy and wanted him home at just such hours as suited her fancy, but, his present job in a hotel, forbade such pandering to the crazy imaginations of a jealous woman." He continued by saying, "You are not my wife, you are only my housekeeper anyway." The woman retorted smartly, "I am your lawful wife, and although this boy is only my step-son he wants to go to the show and I want the money for tickets."

However, the whole matter seemed to be a squabble between an inordinately jealous woman who wanted her "husband" tied by a true lover's knot to her apron strings and a man who could not leave his work to accommodate such fads as presented by her.

P. C Meharry, by the use of much diplomacy succeeded in getting the two to go home and bury the hatchet of jealousy, advising the woman to use a gad instead of theatre tickets on the boy.

Mr. Frank Mercer In New Business

The Toronto World of yesterday's issue contains a large two column wide portrait of Mr. Frank Mercer, an old Peterborough boy, and a brother-in-law of Mr. Robt. Neil, the Provincial known boot and shoe dealer.

The World gives quite a long account of Mr. Mercer, who formerly ran a fruit store on the site now occupied by Messrs. S. A. Oke & Bro., George street. According to the World's report Frank has secured control of the handsome Dolly Varden Foote-rite Bootshop at 110 Yonge street, Toronto. This leading Toronto daily says, "Mr. Mercer is perhaps the best equipped shoeman in Canada, his experience having had that variety which makes for progress and enterprise, etc. He is a brother of President Mercer (Andrew, also of this city) of the Semi-Ready Company in Montreal, etc."

The Times would congratulate Mr. Mercer on his progress in business and hopes he will succeed in his new enterprise.

DIED AT THE AGE OF 124

Germany's Oldest Inhabitant Passed Away Recently.

Berlin, September 24.—The death is announced, at the age of 124, of Christian Friedrich Biertumpfel, proprietor of a country inn near Jana. According to his relatives he was born in 1782, and participated in 1806 in the battle of Auerstadt.

He is believed to have been Germany's oldest man, and, perhaps, one of the oldest in Europe. His youngest son, who is still alive, is eighty years old, and the youngest grandson forty-nine.

Who Owns the Lamb on Market Square?

Our readers will remember that in yesterday's issue we called attention to the seemingly inhuman treatment of a sheep left since Friday night until last night in one of the market square pens, without food or water, and that the firemen and Mrs. F. Darcy had tended to its cries for proper attention.

Yesterday a Times representative finding that the poor animal was still confined in the pen, made enquiries as to ownership of the sheep, market clerk, Mr. Kennedy, Mr. Merrin and other local butchers, but all denied any knowledge of its ownership.

The market clerk thought that the sheep must have been sold by some farmer to a customer on the understanding that the animal be delivered at the market square, and that said customer had forgotten or neglected his end of the deal.

In any case this sheep, without proper food of water, except such as given as charity by the firemen or market clerk, is lying on a cement floor, while by covering, waiting to be claimed by its owner. Such carelessness, where a dumb animal is a sufferer should be severely punished.

WOMEN IN PRIZE FIGHT

Their Husbands Manage the Affair and Participate Too.

Brazil, Ind., Sept. 24.—Mrs. Cora McKenna and Mrs. Sarah Foster had been quarrelling and nagging each other for many weeks and several times have appeared in court charging each other with assault and battery. The husbands, grown weary of the quarrels, last night agreed at last to take the women to a field nearby and let them fight to a finish.

It was arranged that they should engage in a straight stand-up knockdown bout according to the rules of the prize ring. They dressed for the contest and for many rounds adhered to the rules, but finally they got angry and the affair ended in a rough-and-tumble scrimmage, and the husbands participated.

Mrs. Foster dealt the blow that put her antagonist down and out. The latter's husband, then, swung his wife with a black eye, a ruck Mrs. Foster a fearful blow. Today all parties were arrested and put under bond to appear when the women's wounds are healed.

AUTUMNAL CATARRH

Disease Prevalent Now—Hyomei Will Cure It Quickly.

A great many people suffer more with catarrh during the fall months than at any other season of the year, as changes in weather seem to have a bad effect upon the disease.

At the first warning of catarrh, one should begin the use of Hyomei. A few days' treatment will often prevent a serious attack of this distressing and annoying disease.

There is no stomach dosing with Hyomei. It cures catarrh by the simple and natural method of breathing medicated air into the nose, throat and lungs, in this way killing the germs of catarrhal poison, healing and soothing the irritated mucous membrane and restoring the blood with the oxygen, thus driving all catarrh germs from the system.

If you have any of the ordinary catarrh symptoms, such as offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty to breathe, sneezing, hoarseness, discharge from the nose, droppings in the throat, coughing spasms, &c., begin the use of Hyomei at once.

A complete Hyomei outfit costs but $1.00, extra bottles 50c.

For sale by all dealers. The R. T. Booth Co., Buffalo, N.Y.

TIREDNESS MEANS DANGER!

Indicates Faulty Blood and Worn-Out Nerves—Build Up, or Total Collapse will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is something wrong.

You need bracing up, need more nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 30, Ilderton, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite ran down. Ferrozone was the first to give me any help. I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) David Brown."

SPECIAL NOTICE—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, SEPTEMBER 24 1906

FRENCH CATHOLIC AGRESSOR

The bad feeling between the Irish Catholic and French-Canadian branches of the Roman Catholic church in Canada is by no means confined to Ottawa, says The News. For years the Irish Catholics of Ontario have been protesting against what the Ottawa petition describes as "French aggression and unwarrantable ecclesiastical methods." It is contended that the Quebec hierarchy send French bishops into Ontario and into the Eastern and Western Provinces, and make every place of power in the church a centre of French-Canadian influence and authority. They pursue with unchanging and inflexible purpose their one great object, which is to dominate the church in all the provinces and to dominate in national affairs. They have met their chief resistance at Ottawa. The Irish Catholics there have shown remarkable courage in their steady and determined resistance to the French bishops without any slackening of devotion to their church. They have asserted consistently and resolutely their right to educate their children under Irish Catholic and English-speaking influences, and as is now shown, have not hesitated to go to Rome itself for judgment.

PARTY POLITICS

As long as men are men, there will be political parties in the state, and the struggle between them will no simply be an effort of the ins to stay and the outs to get in. There will always be something—perhaps a great deal of that sort of thing, but on the whole the difference between political parties are substantial differences. To most questions there are two sides, but not to all. On the latter parties do not divide, although they may do so on the manner in which a question, universally approved, is handled by those charged with the administration of affairs. Hence on nearly everything there is ground for difference of opinion, and hence nearly every question, which arises, may be made a party one.

It is desirable that there should be party politics, if for no other reason than that it is undesirable that the control of the affairs of the people should not be vested too long in any set of men. Of course the only test as to the proper length of time a party should remain in power is public opinion, and when the people think the time for a change has come, it comes quite irrespective of the particular issue involved in the election.

But while there always will and ought to be party politics, we do not want party politics always. Some people think otherwise, and unless the newspapers supporting their party, are continually belaboring the other party they think they are being badly served. The best newspapers refrain from partisan discussion as much as they can. They endeavor to deal with public questions on their merits. The day of personalities in newspaper political controversy is also happily passing away. This is not to say that, when a public man deserves censure, he ought not to receive it, but only that the old-fashioned idea that a newspaper ought, in season and out, to belabor its political opponents has been abandoned in British and Canadian politics to a very great extent.

In Canada we have refused to follow the example of our neighbors and carry political differences into municipal matters. With them everything is political from their courts to the humblest official—that is, if there are any humble officials in the United States. Our plan is the better one. We restrict the scope of party politics and there cannot be much doubt that the result is better government.

HIS MOTHER'S OPINION.

Whilst walking down a crowded city street the other day
I heard a little urchin to a comrade turn and say:
"Say, Chimmy, lemme tell youse I'd be happy as a clam
If I only was de feller dat me mudder t'inks I am.

"She t'inks I am a wonder, an' she knows her little lad
Could never mix wit' nuttin' dat was ugly, mean, or bad.
Oh, lots o' times I sit an t'ink how nice 'twould be, gee whiz!
If a feller wuz de feller dat his mudder t'inks he is."

My friend, be yours a life of toil or undiluted joy,
You still can learn a lesson from this small, unlettered boy.
Don't aim to be an earthly saint, with eyes fixed on a star,
Just try to be the fellow that your mother thinks you are.
—"The Brighter Day."

LORNE MOUNTAIN.

Six Hundred Feet High It Was Explored by Governor of Its Name.

Lorne Mountain is one of the grandest of the Gatineau Mountains. It is situated on the east bank of the Gatineau River, one of the largest tributaries of the Ottawa, and is just across the river from the village of Cascades, Que. The village is fourteen miles from Ottawa by the Canadian Pacific Railway. The mountain is six hundred feet high, and from the crest of it a splendid view may be obtained of Ottawa and the surrounding country. The little church at Gatineau Point is plainly seen, but the most noticeable object is the Mackenzie tower of the Parliament Buildings, that seems to pierce the sky like a naked sword. The view toward the north is also very fine, and on a clear day a range of high hills crossing the country in an east and west line may be seen twenty miles away. Towards the west is King's Mountain, one of the highest peaks of a chain extending parallel with the Ottawa River as far as Lake Temiskaming.

When the Marquis of Lorne, now the Duke of Argyll, was Governor-General he and his retinue visited the district. His Excellency took a fancy to the mountain, and one day, with the help of a guide, they explored it to the top. Hence the name Lorne Mountain. To the residents of Cascades, who rise early enough a beautiful sight is visible every morning of summer. The mist from the river seems to cover the whole of the mountain, and until dispelled by the sun is a pretty sight. If the mist flows up stream the people say that the day will be fair, and if down they say it will be gloomy, with rain. The mist is, therefore, as good a weather prophet as Old Probs. himself.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal] A. W. GLEASON,
Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Body Found After Two Years.

Quebec, September 24.—The body of Captain Noel Allison, of the tug Two Brothers, who was drowned in Louise basin two years ago, was picked up in the river yesterday.

Warships Arrive at Havana.

Havana, September 23.—The United States battleships Louisiana and Virginia and the cruisers Cleveland and Tacoma arrived here this morning.

Transcontinental into Winnipeg.

Winnipeg, September 24.—A contract for building a line from the land selected for the G. T. P. shops, four miles east of St. Boniface, has been awarded, and within eight weeks G. T. P. engines will be running into Winnipeg.

Collision on Red River.

Winnipeg, September 24.—The steamer Alexandria collided with a barge in the Red River and sunk in seven feet of water. All hands made a jump on the barge and none were drowned. There were no passengers on board.

WANTED.

MEN FOR THE STRUCTURAL SHOP; riveters, punchers, bolters, and laying out men. None but first class men need apply. In replying refer to No. S. E. 1. The Locomotive & Machine Co., of Montreal, Limited, Montreal.

BIG G CURES in 1 to 5 days. Guaranteed not to stricture. Prevents Contagion. THE EVANS CHEMICAL CO. CINCINNATI, O. U.S.A.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75. Circular sent on request.

ADVERTISE IN THE TIMES.

Thin Blood nerves, general debility! We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks it will do for your case. Then do precisely as he says.

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory, and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of 10[illegible] of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Ehrum Ehrum Mountain, 9 1-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 152 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Marice, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,
Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

our patron, yet I will not permit you to suffer loss from an enterprise into which I was the means of drawing you. I came here with the express purpose of telling you all this, putting this fifty-pound note into your hand, and advising you to place as many miles of sea between yourself and England as you conveniently can, for your own good, and my safety, for you are just the fellow to turn king's evidence upon a pinch," added Mac, mentally.

"I thank you, dear Mac. You are very kind and thoughtful. I accept your bounty as a loan, to be repaid with interest some of these days."

"Of course, as a loan," replied Mac, very dryly, adding—"and now I must really wish you good-evening, or rather bid you good-by. I hope to hear from you from Quebec or Constantinople," said Mac, shaking hands with Roberts, and leaving the room.

Left alone, Roberts took two or three turns up and down the room, murmuring:

"Rose Elmer—Baroness Etheridge—Duchess Bereseleigh! high fortunes for the cottage girl! I could spoil that pretty sport if I chose to do so, or dared to show myself! Were but one man and one woman out of my way, what a prospect were opening to me! I must think! I must think! Here is a magnificent fortune, and perhaps a baron's coronet, within my very grasp, but that man who was a witness of my crime! and that woman, who is the living obstacle to my ambition! The woman may be easily disposed of, poor creature! but the man! the man! I must think. Can all these difficulties be overcome in time to permit me to appear and arrest this marriage? Scarcely! Well, let the marriage go on if it must, for a while, it will only give me a stronger hold upon her grace. Let her wear the strawberry leaves a little while; she will be none the worse, and as she is not Helen, I am not fastidious! Oh, Helen! Helen!"

CHAPTER XXII.

The marriage of the Duke of Bereseleigh and the Lady Etheridge of Swinburne came off with great eclat. The ceremony was performed in St. James' Chapel, in the presence of the elite of the aristocracy. The Bishop of London officiated. The bride was attended to the altar by the Ladies Wardour, the sisters of the bridegroom, and by Miss Elmer, her particular friend. After the ceremony the bridal party returned to Bereseleigh House, where a select party were entertained at breakfast.

Immediately after breakfast, the newly-married pair started for the Continent.

After the marriage and departure of the young duke and duchess, Miss Elmer's home with the Leaters was not so agreeable as it had been. Lady Leater, having nothing more to hope from Laura's influence over Rose in favor of Mr. Leater, treated the governess, not with disrespect—for no one durst do that—but with coolness.

Sir Vincent's manner, on the contrary, had grown so attentive as to be troublesome and embarrassing. Even Helen Ravenscroft had disappeared from view. Miss Elmer had neither seen nor heard from her since the day upon which they had last driven out together, when Mrs. Ravenscroft had thrown the letter from the carriage-window to the stranger who had followed them.

Ferdinand Cassinove kept on the "even tenor" of his laborious life—teaching all day, and reading law all the evening. His patron had grown cold to him; his occasional meetings with Laura Elmer were abridged. By a new regulation of Sir Vincent, the tutor and his solitary pupil took their meals alone together in their study. Well did Mr. Cassinove understand the reasons both of Sir Vincent's coolness to himself, and of his new regulation in regard to the schoolroom meals, and his heart burned with honest indignation. The chief solace of his life was now the daily "good-morning" and "good-night," when his hand met Laura's eyes in a passionate glance.

And Laura Elmer understood his motives perfectly. No word of love had been uttered between them; their mutual esteem and affection had spoken only through their eloquent eyes. Yet Laura Elmer knew that Ferdinand Cassinove retained his position, and endured a thousand humiliations, only for her sake. She was writing for several magazines of high character, and drawing a small, but sufficient, income from her literary works. She determined, at the close of her present engagement, to abandon forever the life of a governess, for which she felt that nature had never intended her, and to find some quiet, respectable lodgings, where she might live "independently by the productions of her pen."

In thinking of searching for lodgings in the wilderness of London, her thoughts naturally recurred to Mrs. Russel, the struggling young mother, in whose excellent character and unmerited misfortunes Cassinove had interested her sympathies. She remembered that Ruth Russel was engaged in the difficult task of trying to support her little family by keeping a small shop that would not succeed, and neat lodgings that would not let, and she resolved, at the first opportunity, to get the address of Mrs. Russel from Mr. Cassinove, with the view of inspecting her lodgings, and possibly becoming her tenant.

In the meantime, Miss Elmer addressed a note to Lady Leater, advising her ladyship of her intention to leave at the end of her term. And Laura's resignation was at once accepted, with a few conventional expressions of regret that the young ladies should lose the advantage of the instructions of so accomplished a teacher. And the news got abroad in the household that Miss Elmer was going away.

It was about this time, in the interval between the morning and the afternoon session, that Miss Elmer was sitting alone in the vacant schoolroom, when there came a rap at the door.

"Come in," said Miss Elmer, expecting to see a servant with a message from Sir Vincent or Lady Leater.

Mr. Cassinove entered the schoolroom.

His face was pale, and his voice vibrated with intense suppressed emotion, as he said:

"I hope you will pardon this intrusion, and give me a few moments' interview, Miss Elmer."

"Certainly, Mr. Cassinove; pray take a seat," she said, handing a chair, and resuming her own place at her desk.

With a bow, he declined to sit down; but standing before her, and resting one hand upon the back of the chair, he said:

"You are about to leave us, I hear, Miss Elmer?"

"In a few weeks—yes."

Forgive the question—for another situation?"

"No; when one has discovered that she is not fitted for a particular work, she should abandon it; and when she has found that for which she is best adapted, she should pursue it. I have clearly ascertained that I am not fitted either by ability or inclination for the life of a governess, since I can make myself neither very useful nor very happy in its duties; while I have some gift for scribbling, by which I can give more satisfaction, if not do more good. At least, it is my principal talent, and I purpose to give up teaching, take some quiet, pleasant lodgings, and maintain myself by my goose-quill, which already brings me an income sufficient for my few wants."

"You will be more independent, more retired and happier. I sincerely congratulate you on the change, Miss Elmer. The most humble life of liberty and seclusion is preferable to any life of dependence amid uncongenial associates. And since you speak of going into lodgings, will you permit me to

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

8% PREFERRED STOCK

AT PAR MEANS **16%** ON THE PRICE GIVEN BELOW

50,000 SHARES OF PREFERRED STOCK

Cumulative from Date of Issue

of the BI-METALLIC TUNNEL AND MINING CO., of Silver Plume, Col., are now offered at 50 cents per share (par value, $1.00) for the purpose of developing the property. This will give an income of 16 per cent. on the the amount invested from the date of purchase out of the first dividends declared and before the owner of the property can receive any income from his common stock. Work is now being done and it is expected to strike pay ore soon.

CAPITAL STOCK, $1,000,000

800,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 5,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $1.50 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $45,-000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 90 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—18 carloads or 1,300 tons—every ton of which went over 45.5 per cent. copper, $5.50 in gold, and $7.00 in silver, and comes out above the 100 foot level. We make no estimate on this property: they have 3 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 350 Markham street, Toronto, Ontario.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 50 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, securing quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 60 cents on September 1st. Buy now.

A GOOD CANADIAN REPRESENTATIVE WANTED

Sin Against Health

Why the Usefulness of All Organs is Destroyed by Costiveness.

Most important to health and comfort is proper action of the bowels.

By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, bring on nervousness and anaemia.

Habitual costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is exactly consistent with nature.

Not a drastic purgative—not even a pain or sensation of grip, because Dr. Hamilton's Pills are vegetable and free from irritating mineral substances found in so many widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring sure relief from headache, billousness and other manifestations of constipation.

Jas. McConnell of Walkerton writes: "Since I was comparatively a young man I have not enjoyed real good health.

"My appetite was good and strength kept up, yet I knew something was wrong.

"Frequently I took billious attacks and violent headaches. My stomach was disordered, skin was murky, under my eyes were heavy dark lines.

"Last winter I read through the 'Poison's almanac and decided my trouble was constipation. I used Dr Hamilton's Pills, and can hardly tell the help they have been. I am now as fresh, strong and well as a boy."

Just try the wonderful magic of Dr. Hamilton's Pills. Sold by all dealers 25c. per box, or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—There are still about ten families occupying cottages in Chemong Park.

—A present with every twenty-five cent. purchase of school books at Times Bookstore.

—The Bank of Toronto has opened branches at Bartford, Ontario, and Lanigenberg, Saskatchewan.

—The steamer White Lily brought in a cargo of wheat for the Central Mining Co. from Hall's Bridge yesterday.

—A special meeting of the Board of Education will take place at the secretary's office this evening at 8 o'clock.

—If you want to get a glimpse of Bruce Mines don't sit on the stove, but go over early in the morning and be sentenced winter is coming on hand.

—The Trent Valley Navigation Co. ran their special excursion steamer [illegible] Fair [illegible] arrived at Hall's Bridge at 7.30 a.m. on Friday.

—A large number of [illegible] and gentlemen [illegible] the [illegible] Y.W.C.A. [illegible] Thursday afternoon [illegible] society will be present and [illegible] address.

—The annual meeting of the Peterborough Branch of the Women's Art Association was held in the Young Women's Christian Association building yesterday.

—This is the last week of the nursing pictures at Jackson Park. Last night a large number of ladies and gentlemen wearing their coats took in this enjoyable attraction.

—A complimentary banquet was tendered Mr. Norman R. Stewart of the Wm. Hamilton Mfg. Co., at Longs Palm Gardens, preparatory to his departure to accept a position at Saginaw Mich.

—The W. Hamilton Mfg. Co. have just shipped a very large horizontal wheel setting to Kenora, for the Lake of the Woods Milling Company. The big piece of iron work is to be used in connection with the Keewatin Mills.

—A splendid new range arrived for Demetrie Bros., corner of George and Charlotte streets yesterday in readiness for the opening of their new restaurant next week. This range is one of the largest and most up-to-date in the city.

—Mr. O. A. Langley of Lakefield was in Toronto this week in Osgoode Hall, before the court of appeal, upon the argument of two appeals in Lakefield Cement Co. vs. Bryan. Defendants were ordered to pay plaintiffs costs and the amount of judgment.

Former Local Banker's Death

The Hamilton Spectator, referring to the father of Mr. A. MacKenzie who, in the absence of Mr. Hughes-Charles, last summer, acted as manager of the Bank of Commerce in this city, says concerning the late Mr. Innes MacKenzie, surveyor of customs, Hamilton.

Deceased was a native of Scotland, having been born in Ardersdale, Rossshire on Feb. 6, 1826. His father, Jas. Mackenzie, held a commission under George III. in the Clanalpine regiment of Fencibles infantry. After coming to this country he was connected as junior partner with Buchanan Mann & Mackenzie, one of the largest importers of dry goods and wholesale dry goods merchants in the country, having a warehouse at the the corner of King and Catharine streets, and offices on Main street, west of James street. Mr. Mackenzie became manager of the business, and held that position until the firm dissolved. He was then appointed surveyor of customs, a position which he filled with marked ability until the time of his death, with the exception of a few months.

The late Mr. Mackenzie was a sturdy Scotch Presbyterian.

Grand New York Excursion Thursday October 4th.

Tickets only $9.00 round trip, from Suspension Bridge, via Lehigh Valley R.R. "Take in the Vanderbilt Cup Races." Tickets good ten days. Good on regular express trains, leaving Suspension Bridge at 3.50 and 7.15 a.m., 7.15 and 8.43 p.m. For tickets call on or write Robt. S. Lewis, Passenger Agent, 10 King street east, Toronto.

Progress on C. P. R. Survey.

The C.P.R. surveyors surveying the line from Tweed to Toronto, consisting of 17 men have completed their work from Belleville to a short way west of Trenton. The survey enters the town near the old brewery and crosses the river south of the covered bridge, and, curving to the west, crosses the C.O.R. tracks near the Central Ontario station on its way towards Hendricks' farm and Brighton. The surveyors are now camped at Brighton.

Opera Glasses.

You may have looked through a glass darkly, or through a dark glass, but seeing will be believing if you rent our Opera Glasses when you come to the play. 10c. and 15c. per pair. J. M. GREENE MUSIC CO., entrance of Opera House.

Rev. Father McColl on Dresses.

Rev. Father McColl is now out with a strong denunciation of the immodest style of dressing too prevalent among women of the city. He specially denounces the appearance of women attending church in costumes displaying too much of their persons. His advice is possibly not without cause and may, it is to be hoped, bear fruit.

Piles positively cured with Dr. Hoop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Itching, painful, protruding or blind piles disappear like magic. Sold by J. D. Tully.

SOCIAL AND PERSONAL.

—His Lordship Bishop O'Connor was at Harwood on Sunday.

—Miss Sherry, of Norwood, is the guest of Miss Helen Davies, McDonnel street.

—Mrs. Aaron A. Cox, "Hillcrest," will receive on Wednesday afternoon, October 3.

—Frank A. Brenton and wife, Belleville, registered yesterday at the Snowden House.

—Mr James Skippon and family, of Lowestoft, England, arrived in the city yesterday.

—Mr Harry Wyatt of Medoc, is visiting his brother, Mr. Joseph Wyatt, East Ward.

—Mrs. A. Campbell of Peterborough, was visiting in the village this week.—Lakefield News.

—Mrs. G. A. Hodgson, Toronto, is the guest of Miss M. Steele, Bethune street, for a few days.

—Mr. W. Fleveille, Lindsay was in the city yesterday on business and registered at the Snowden House.

—Mr. Art. Jose, of the James Pringle Laundry Co., returned yesterday of a two weeks' vacation in Rochester, N.Y.

—Mr. and Mrs. Walter Howard and daughter, Miss E. Hall of Toronto, are in the city, the guests of Mr. and Mrs. J. R. Macbeth, Aylmer, S.

—Mr. John A. MacDonald of Chicago University, spent last week with his sister, Mrs Geo. J. Brumwell of the North Ward.—Lindsay Post.

—Mrs. Maurice Dugan of Kings Wharf is a victim of a bad runaway. She was thrown out of the rig and, owing to injuries to her spine is paralyzed from the chest down.

Safeguards in Large Hotels

Suggestions That Would Prevent Loss of Life in Hotel Fires.

In view of the disastrous Gilmour House fire in Ottawa, in which Miss Loveday of the Bermuda Home, lost her life there are a few pertinent suggestions to be made, the adoption of which would practically debar all chances of such a death dealing holocaust.

In cases of loss of life, when such might have been prevented or at least mitigated, it is no use to, metaphorically speaking, "lock the stable after the horse has been stolen," still there are stables which might be locked in time. To quit the metaphor certain precautions as suggested below would go a long way towards preventing loss of life in hotel fires. We think.

There should be a fire alarm in every bedroom, and the whole of these alarms should be operative by one touch from the hotel office.

There should be a civic fire alarm box in the office of every good-sized hotel, or at the door.

There should be a fire escape at the end of every upstairs corridor or hall, which opens upon the outer air.

It should be compulsory to keep a red light burning all and every night, wherever there is a fire escape or an avenue to one.

The foregoing precautions are possible in all existing buildings. In new buildings, there could be added:

Main stairs required in some other position than around the elevator shaft.

These things should be law in this country, and stringently enforced. Some of them can be enforced under existing law.

Actor Seen Here Was Killed.

George Glowe, whom our readers remembered to have seen in the "Dip of Death," with a circus here the summer before last, was killed at Irwin, Pa., on Sept. 18th. While Glowe's bicycle was going at a terrific pace two sections of the runway parted slightly. The wheel struck the gap and the structure collapsed. The rider was thrown to the ground amid the debris. He was picked up unconscious and died the same night.

St. Luke's Church Notes

The opening meeting of the Girls' Auxiliary will be held tonight at 8 o'clock.

The monthly business meeting of the W.A. will be held on Thursday at three o'clock.

The Mothers' Guild meets on Friday afternoon at 3 o'clock.

The members of the German Conversation Club will meet on Tuesday at 12.30 at the post office to attend their annual picnic.

Willie Hamilton Nearly Drowned.

A Cobourg despatch says.—"Through the heroic efforts of Ald. C. A. Munson, Willie Hamilton, a boy ten years of age, was saved from drowning Friday afternoon. Young Hamilton was riding a bicycle, on the corner pier, when he suddenly fell into the lake. Mr. Munson, only waiting to take off his coat plunged into the water and rescued the lad.

Peterboro' Goods for China.

Messrs J. J. Turner & Sons yesterday received a letter from Shanghai, China, requesting them to send copies of their catalogue and price lists, and intimated that there was every possibility of working up a good trade there. There is no doubt but what this enterprising local firm can accommodate the Chinks with what they want or otherwise.

Woodmen Back From Omemee.

Two bus loads of Sherwood Forest Camp No. 50, Woodmen of the World, who went to Omemee Sunday to unveil a monument erected by Omemee Camp to the memory of the late W. J. Switzer, were met there by a contingent from Lindsay. Those who went out to Omemee are loud in their praises of the way in which Omemee entertained them.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the reason, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and ulceration, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed *in plain English* on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

Mr. English of Keene is Dead

Mr. Robt. English, a well-known Keene merchant has passed away suddenly. It seems that Mr. English was sitting on his verandah, when he suddenly became ill and was dead in less than fifteen minutes. Heart failure was the cause of death.

Mr. English was sixty-six years of age, unmarried, and resided with his mother. He was born in Ennis, and was the eldest of a large family, only one of whom now remain, Mr. Fred English of Ottawa. He spent practically his whole life in Keene. The late Mr. English was widely known and had a large number of friends, to whom his sudden death will come as a great shock. In religion Mr. English was a Presbyterian and in politics a Conservative.

The funeral will take place today, interment taking place at Fife's cemetery, Otonabee.

Mrs. E. W. Morphet's Sister's Death.

Mrs. E. W. Morphet, Aylmer street, has received word of the death of her only sister, Mrs. J. W. Henry, of Rochester, N.Y. The late Mrs. Henry passed away at the residence of her son-in-law, Mr. V. Mellwain, who resides on Comfort street, Rochester, N.Y.

The funeral took place yesterday to the Rochester cemetery.

I WILL GIVE

Interest in some good mining claims to parties able to raise money to develop such claims.

P. O. Box 1061,
GOLDFIELD, NEVADA

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

PETERBOROUGH FAIR IS A GREAT SUCCESS

Exhibits Pour in Yesterday Afternoon, so That a Grand Show is Ensured---Cattle and Sheep Well Represented.

There have been carpers who have industriously spread the news that Peterborough's Industrial Exhibition of this year could not succeed. Such ridiculous rumors were emphatically shown to be absurd yesterday afternoon. It must be confessed that, during the morning, it looked as though the Fall Fair was going to be a "frost," still those who ran away with such an erroneous idea were called down "to a standstill," during the afternoon. When wagon after wagon arrived loaded with sheep, swine, poultry and other country exhibits.

It might be said right here that the Fair of this year is in every respect, as far as exhibits go, not only equal, but superior to any local Fair for years.

To begin with, the first thing to be considered is "how to get to the grounds?" This question is quickly answered by saying, and in truth, that the Peterborough Street Railway has a most complete and sufficient service adapted to the requirements of the Fair; there is no waiting for a car either coming or returning.

THE FAIR.

As one enters the gates, the first thing encountered is the poultry display. Here are long rows of coops filled with chickens of all breeds from bantam game to spangled Hamburg. An exhibitor from Lindsay who won some 30 prizes at the fall fair in that burg, has one of the best chicken displays ever seen in Peterborough.

THE KING'S DAUGHTERS.

After leaving the poultry exhibit, the next point of interest is a huge tent rented at $15 a day from J. J. Turner & Sons by the King's Daughters of St. John's church. These ladies, whose efforts are devoted solely to objects of charity, rented a large tent, as noted above, and are prepared to serve toothsome meals to all comers at a nominal price. In the tent are five or six long tables, amply supplied with silver ware, cutlery, china, glassware, etc., and as orders come in, will be burdened with the best the land provides. Some of our leading society leaders have also had of this enterprise, and yesterday a Times' representative was shown piles of luscious hams, boiled shoulders, roast beef, lamb, pork chops and all kinds of meats not to mention gallons of potatoes, tomatoes stewed and in fact, every thing that would appeal to a hungry man's or woman's department of the interior. It is now up to our citizens who patronize and all should, the local Fair, to go a meal or two, in the King's Daughters' tent.

EXHIBITS.

During the morning some "Doubting Toms" came up town prophesying that the Fair would be a failure owing to the slow way in which entries were coming in. It would have surprised some of these sceptics had they seen the procession of farmers' wagons that, towards three o'clock, brought in scores, if not hundreds of sheep, swine, poultry, etc.

It might be noted that, by five p.m., most of the stalls reserved for live stock were filled.

FINE ARTS.

The exhibit of fine arts this year, whilst not containing quite as numerous a quantity was acknowledged by the judges to be a way ahead of previous years in quality.

In the general Exhibition building Greene's Music store perhaps the most complete exhibit, it being a "time-up" between it and the Cordage Company's grand exhibit.

The display of fruits and flowers is somewhat smaller than last year but still were worth examination.

The American Cereal Co. have a good exhibit of Quaker Oats and other products of their mills.

In the exhibit upstairs in the Exhibition building is a quilt that got first prize. This quilt was crochet by a young man, by the name of Throop who owing to a physical defect, has laid on his back for the past 19 years.

The painting and pencil work in the fine arts department is well worth a visit.

AMUSEMENTS.

Apart from the exhibits the local fair presents many points of interest. To begin with the races of today are well worth travelling hundreds of miles, let alone, a street car trip to visit. As the races have already been fully described in The Times we might mention that they are as advertised and will be run fair, straight and for the money as previously advertised. Such men as Messrs Munroe, Brooks and Rountree in charge of the races ensures good attendance, good speed and fair treatment for all.

THE GYPSIES.

One of the most interesting features and one that appeals to the young ladies especially is the tent occupied by Queen Mary George, a direct descendant, and third granddaughter of Queen Alexandra of Egypt. This lady, dressed in a striking Oriental costume, in her tent, next to that of Messrs Turner & Sons tells one's fortune by the cards or a glass of water. Queen Mary is a genuine Gypsy. Her headquarters are in Dayton, O. and she and her following have exhibited in every city and town in the United States and Canada. Her route for next year includes Toronto, Ottawa, Almonte, Lindsay, and thence to Halifax. Yesterday many a young and (let it be whispered) older lady consulted this seeress of fortune. Queen Mary gives six words of one's fortune gratis.

It is now up to our citizens to show by their presence or absence whether the present successful Fair is to be continued or no.

The names of those deserving so much of their time towards making the local Fair a success are as follows:

T. E Bradburn, M.P.P., Hon.-Pres.
D. Hughes-Charles, Pres.
Alex Elliott, 1st. Vice-Pres.
E. M Elliott, 2nd Vice-Pres.
F. J A. Hall, Sec.-Treas.

HONORARY MEMBERS.

Hon Geo. A. Cox.
R. R Hall, M.P.

Wm. Anderson, M.P.P.
Ald. Mason.
Henry Best, Mayor.
T. J. Johnston, Warden.
J. W Flavelle.
R. A Morrow.
Ald. McWilliams.
F. R Wood.
H. Waddell.
Robert Stewart.
Rev. E. A. Langfeldt.
Ald. Adams.
Rev. Fathers McColl, Fitzpatrick, and Phelan.

DIRECTORS.

J. M Brooks, Wm. Collins, F. H. Dobbin, Geo. E. Elliott, K. Eardley-Wilmot, Robt. Fair, J. W. Garbutt, R. Hicks, Wm. Irwin, J. H Larmonth, R. J. Munro, W. B. Stewart, H. C Winch, R. Vance.

COMMITTEES OF MANAGEMENT.

Speeding in the Ring. — Messrs. Alex. Elliott, R. J. Munro, J. M. Brooks, and R. Hicks.
Horses (light) — Messrs. Geo. E. Elliott, W. B. Stewart.
Horses (heavy) Messrs. J. H. Garbutt and E. M. Elliott.
Cattle— Messrs. Dawson Kennedy, and Wm. Collins.
Sheep and Swine — Mr. Robert Vance.
Poultry—Mr. K. Eardley-Wilmot.
Agricultural Products and Garden Vegetables—Messrs. W. B. Stewart, J. H Garbutt.
Fruit—Mr. Alex. Elliott.
Fine Arts—Messrs. Robert Fair, Wm. Irwin, K. Eardley-Wilmot and J. M Brooks.
Dairy and Horticulture—Mr. Dawson Kennedy.
Domestic Manufactures — Messrs. Robert Fair, J. H. Larmonth, and J. M. Brooks.
General Superintendent—Mr. H. C. Winch.
Advertising — Messrs. R. Fair, F. R Dobbin and J. H. Larmonth.

NOTES OF THE FAIR.

Those visiting the Fair today need not encourage an attack of indigestion by swallowing their midday dinner in double 23 time. The Oriental hotel chef will help out, the "King's Daughters" at the Fair and give a dinner fit for Royalty right on the grounds.

The street car service yesterday was beyond criticism. No one had to wait over a few minutes either going to or returning from the Exhibition Grounds. Mr. Larmonth is deserving of great praise for the admirable way in which the company handles the crowds. Arrangements have been concluded whereby today those visiting the Fair grounds will get quick and ever ready service.

Mr. J. W. Lawless, proprietor of the National Hotel, yesterday helped out the King's Daughters at the Exhibition grounds by carving the meats served by the caterer. What Mr. Lawless does not know about the dissection of a joint is hard to learn.

Mr. Lawless yesterday took to the National Hotel and cooked, a 25-lb. joint of beef given to the King's Daughters in a raw state, and very kindly had it cooked for these ladies, sending it to the Fair grounds.

The King's Daughters yesterday sold 87 meals in the tent at the Exhibition grounds.

The races at the Fair today will be all filled, as 20 entries have now been received.

Ginseng Roots on Exhibition

There is an exhibit of Ginseng roots at the Peterborough Industrial Exhibition. The Ginseng shown is contained in four glass vases so as to show the whole plant.

Whilst the ginseng root is known to some of our readers there are hundreds who may not know its value or importance; Ginseng is a plant having roots somewhat like horseradish, but the material difference between the two is that ginseng is worth from $35 to $40 a pound in the markets of China. This root is used by the Celestials for flavoring stews, hashes, etc., such as "chop suey," etc.

The value of Ginseng is at present somewhat lowered owing to the Chinese Government prohibiting its importation in competition with the native growth.

The samples exhibited at the Fair are from Gilmour's ginseng garden's this city.

W. A. A. Meeting Most Successful

The annual meeting of the Women's Art Association held in the Y.W. C.A., was most successful and encouraging.

The annual report read by Secretary Miss Amy K. Bennett, was most satisfying to all present.

OFFICERS ELECTED.

After Miss Bertram, much to the disappointment of the members, had tendered her resignation as president the election of officers resulted as follows

Honorary President of the Woman's Art Association of Canada—Her Excellency the Countess Grey.
Hon. Pres. of Branch —Mrs. Dignam.
President—Miss Burton.
1st Vice-Pres.—Mrs. Hughes-Charles.
2nd Vice-Pres—Mrs. J. R. Stratton.
Secretary—Miss Amy K. Bennett.
Assistant Secretary— Miss O. K. Bradburn.
Treasurer—Miss Ackerman.
The following conveners of committees were appointed,—
Lecture—Mrs. Campbell.
Finance—Mrs. Dunsford.
Social—Mrs. Dennistoun.
Home Industries—Miss J. Hamilton.
Exhibition—Mrs. Charles.
Amateur Photography—Miss Halliday.
Archivist—Mrs. Palmer
Honorary members representatives having powers to vote were chosen as follows,—Mrs. Burnett, Mrs. A. H. Stratton, Miss Doble, Mrs. W. H. Hill, Mrs. Moorhouse, Mrs. R. F. McWilliams, Mrs. R. S. Davidson.

WINTERING IN FAR NORTH

Crews of Whalers Wintering at Herschell Island Well, and Supplies Plentiful.

Ottawa, September 25.—A report, dated May 27th, received from Inspector Howard, of the North-West Mounted Police, states that the crews of the United States whalers, which wintered at Herschell Island, of the mouth of the Mackenzie River, and at Baltic Island, farther eastward, are all well, and the receipt of deer meat in large quantities removes all fear of starvation. During the winter a boat steerer, on the Narwhal, named Westman, died of consumption. The schooner Olga has not been seen since last September, when she was in the neighborhood of Banks-land. The general opinion seemed to be that she would turn up this summer, as she was wintering too far away to communicate with other ships. The intention of the whaling fleet was to leave their winter quarters about the 6th of July and return about August 15th to meet the supply ship.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday morning the Merry Willie Club, together with representatives from the Dolittle League, had a "feast of reason and a flow of soul," at the Police Court.

The first case called was that of Adam Cox charged with allowing his cattle to run at large.

Mr R. F. McWilliams appeared for the defendant and pleaded not guilty. From the witnesses produced, however, Cox was found guilty and fined $5 and $2.60 costs.

George Barton, the first witness, said that he found nine cows in his garden last Tuesday morning about 4.30 p.m. They destroyed two bushels of tomatoes, ten pumpkins, three rows of beets, a large patch of beans, twenty-five heads of cabbage, some corn and a number of squashes. Witness valued the goods at about ten dollars.

"Do you know whose cows they were?" asked the magistrate.

Witness replied that Mr. Cox claimed the cows and said that he would make it right for him.

Mrs. Barton corroborated her husband's story.

Adam Cox said that when he got up on the Tuesday morning in question the cattle were lying inside the fence. This was about 4.30 a.m. Witness said he went down to the barn, fed his horses, and milked his two cows. When he returned to the house he noticed the other cows were out on the road and he went down and drove them in again. He did not own the cattle. He said that cows will not eat pumpkins unless they are broken. He also denied saying he would make it right with Barton.

David O'Connell was next examined. He said he saw cattle in Mr Barton's property on Tuesday morning between two and five o'clock.

Barton was allowed $5 as compensation and $2.60 as costs.

Camillo Dipapra, an Italian, was charged with being drunk, and discharged with a warning.

A man named McCoy was assessed $2 for being drunk.

Salvation Army's Festival Succeeds

The Salvation Army has cleared $45 as a result of the sale of the donations for the Harvest Festival. Everything sold with the exception of one brick, binder twine and cereals. No difficulty will be experienced in selling these however.

The harvest festival closed last night when the meeting was in charge of Mr. John Brokenshire, of the Dominion Immigration Army corps. Mr. Brokenshire was formerly a captain in the local corps and his many friends were glad of an opportunity of meeting him. He is visiting his sister, Mrs. R. Payne, Albert street.

400 Malays Bite Dust in Battle With Dutch

The Hague, Sept. 24.—An official despatch received here from Bali an island of the Malay Archipelago immediately east of Java, where for time past the Dutch have been conducting military operations against recalcitrant chiefs, reports the capture at Pasaur, capital of the vassal state of Badong, of two princes, their women and children.

The followers of the princes, numbering in all 400 men, were killed in attempting a desperate sortie.

The Dutch losses were four Europeans killed and ten wounded.

The Grand Opera Tonight.

"The cleanest-cut, cleverest, and by all means the most entrancing of all musical comedies," is the way in which some authoritative critics speak of "The Gingerbread Man," the new and successful musical comedy fantasy, by Ranken and Sloane, which will appear in the Grand Opera House in this city this evening. The cast is an all-star one, with such names as Miss Phelps, Gus Weinberg, Homer Lind, Ross Snow, Eddie Redway and Nellie Lynch as part of the compliment. The scenic environment is on an unusually massive scale, while the costume and chorus have already become famous. The chief characters in "The Gingerbread Man" are old friends of theater-goers, and amongst them are Simple Simon, Peter Piper, Margery Daw and Kris Kringle. There are still plenty of seats to be had. Prices 25c; 50c, 75c, $1.00 and $1.50.

Exciting Novel by Oppenheim.

Novel readers everywhere will be glad to have a tip on the brilliant new romance, "The Great Secret," by E. Phillips Oppenheim, author of "A Prince of Sinners," "The Mysterious Mr. Sabin" and other noted books. It is one of the most fascinating tales of mystery and action in recent fiction. If you read the first page you simply can't get away from the magic spell of the story till the mystery is solved in the last chapter.

Suppose you were quietly undressing in your room at a London hotel when suddenly a terrified man rushed in, locked your door, and told you that the men outside were going to kill him. Suppose you liked the man's looks, so that your fighting blood was up to defend him. What would you do when his enemies burst in your door and tried to drag him off without law or warrant? And suppose the man possessed some momentous secret which made him the victim of an international conspiracy, and that a beautiful American girl seemed to be one of the conspirators. Interesting, is it not? Well, that is only a hint of the first chapter, and the story carries one along in a whirlwind of mystified excitement to the end.

Mr. Oppenheim is a wizard with the pen. Americans are only beginning to realize that he is one of the greatest masters of exciting narratives in this decade. He is an Englishman with an American wife, and characters from both countries figure in the novels. "The Great Secret" is a marvel of its kind. The first installment will appear in the Sunday Magazine of The Chicago Record-Herald, September 30.

D. D. Mann and C. N. R. System

Five Hundred Miles of Track Will Represent the Season's Work.

Montreal, September 26.—Mr. D. D. Mann, of McKenzie and Mann, owners of the Canadian Northern Railway System, in an interview at the Windsor hotel, said that the construction work of the system has been going on very steadily during the past few months.

"About five hundred miles of track," he said, "will represent our work for this season. Of this there are about two hundred miles of the prairie west of Winnipeg, and about ninety miles in the direction of Hudson's Bay. In Ontario there are about 100 miles, the same amount in the Maritime provinces, and about fifty miles in Quebec.

"Is it your intention to run a line right through to Hudson's Bay?"

"I wouldn't say that. The branch I speak of is merely a short line to the Saskatchewan river in the direction of the bay, which is still over five hundred miles distant. When the construction work for this season is finally closed we will have completed about four thousand miles of track for ten years of the company's existence—that is a mile of track a day for nine of those years, and two a day for the last one."

HARVESTERS IN THE WEST

Canadian Pacific Railway Carried 22,850 This Season.

Winnipeg, September 25.—The official figures on the number of harvesters to arrive in this city on the many excursions this year, show that 22,850 persons were carried by the C. P. R., the net receipts, at $12 a ticket amounting to over $274,000.

Last year 16,335 harvesters were carried, the increase this year being 6,515. Altogether twelve excursions were run from the east, half of them during September. The number of harvesters carried is greatly in excess of previous years.

THE "GINGERBREAD MAN"

Articles Required to Stage This Famous Production.

Endless attention to detail and months of painstaking work are necessary to the production of a big musical extravaganza like "The Gingerbread Man," which will be seen here at the Grand Opera House this evening. A fair conception of the expense and care of preparing such a piece may be obtained from a general list of some of the things the cost money in "The Gingerbread Man:"

1 Air Ship.
1 Fiery Dragon.
1 Sleigh for Santa Claus.
1 Crescent Moon, strong enough to support a girl's weight.
8 Sets Reindeer Horns.
8 Durable Christmas trees made of green covered wire.
18 Harmonicas.
20 especially designed Costume Baskets.
28 Wigs for principals.
28 Electric Lamps.
36 Brunette Wigs for Chorus Girl changes.
38 Iron-bound, wicker-lined crates.
48 Pairs of Gloves.
52 Hats.
59 Blonde Wigs for chorus girl changes.
68 Head Dresses.
133 Trunks.
143 Pairs of Tights.
142 Artificial Roses.
144 Artificial Lilies.
240 Skirts in differently designed lots.
312 Pairs of Shoes.
480 Pairs of Stockings.
800 Photographs.

Prices of admission, 25c., 50c. 75c. $1.00 and $1.50. There are still plenty of seats for those who apply early.

Russia's New Port Arthur.

BOARD OF EDUCATION WANTS $21,000 MORE

Education Board Decides to go Ahead With the Long Talked of Collegiate Institute, and Want More Money for That Purpose.

Last night a special meeting of the Board of Education was held. Those present were, Chairman Ferguson, Pringle, Dumble, Hill, Dr. Burnham, Crane, Fair and Dr. Morrison.

The first business transacted was the production of the following letter:

To the Chairman of the Board of Education—

Gentlemen,—Your Collegiate Institute Committee beg leave to report—Your committee have caused new plans to be prepared for a new Collegiate Institute building. We have had in mind requirements of a modern school such as will afford all the accommodations absolutely required and the requirements insisted on by the Government to secure the payment of the Government grant.

Our people, by their former grant, sanctioned the erection of the school and the site chosen makes it imperative that the Board erect a building, which situated along site of the new armory, will be worthy of the city, the site and the surroundings.

The building is smaller and more compact than the former design, yet will supply 12 class rooms, a library, teachers' offices, besides a practical chemistry room, a physical laboratory, together with spacious halls and a full complement of cloak rooms, and an assembly room to seat 500 people, and while less elaborate than the former plan, will afford all that accommodation that will be required for many years. It is so designed that it may at a future date be added to if required.

The present Collegiate Institute building is rented from the Public School, and is required for Public School purposes. It is now insufficient for Collegiate Institute purposes and there is need for immediate action to accommodate the increasing demand for high school accommodation.

There are over 2,000 pupils in the city's public schools.

The letter then went on to show that the Board required $21,000 more to meet existing conditions. The letter was signed by Dr. Morrison.

After a short discussion as to the pay of a teacher desirous of going abroad to get a better training, the Board adjourned.

Before adjourning Mr. Crane moved that the Board ask the City Council to grant $21,000 additional toward erection of a new Collegiate Institute.

Mr Dumble noted that the petition had been called for considering a North Ward school.

Mr. Morrison moved that the Board meet the Council at the first favorable opportunity.

THE THRONE OF HOLLAND

Republic Thought Preferable to German Succession.

London, September 24.—The Times correspondent at Brussels quietly calls attention to a notable pronouncement in the Amsterdammer on the necessity of settling the succession to the Dutch throne, a question in which nothing less than Dutch independence is involved. It repudiates various suggestions made in the German press that the succession should pass to a princely German family, and states that Dutch leaders of opposite views have declared a preference for a republic rather than a monarchy under German influence.

THREATEN GENERAL STRIKE

May Be Used in Germany to Defend Democratic Institution.

Berlin, September 24.—Will the German socialist party organize a general strike to defend the empire's only democratic institution, the Reichstag franchise? This question will dominate the party's congress at Mannheim this week. The conservative clamor for a revision of the constitution, it is feared, will be crowned with success if Herr Bebel's three million adherents show an increase at the next election.

The socialist trade unions disapprove of a costly political strike, while the party leaders see no other means of opposing the ruling conservative clique.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

BASKBALL.

Jake Gettman of Buffalo, played 130 games for Buffalo during 1906 in centre field and at first base, and only made four errors. He had 387 chances, an average of about three a game.

• • • •

HOCKEY.

Hugh Ross, of the Smith's Falls hockey team, has left for Calgary, where he has been transferred to the Molson's Bank at that place. Ross was one of the stars of the Smith's Falls septet for several years.

• • • •

GOLF.

The Toronto Star says: Mr. Douglas Laird of the Toronto Golf Club, formerly captain of the Princeton University Golf Club, will shortly take up his residence in Peterborough. Mr. Lair will be a decided acquisition to Peterborough golfing talent, as he is considered one of the most promising amateur players in the country. Mr. Laird will be stationed in Peterborough for two years, then he goes to Chicago.

• • • •

FOOTBALL.

The handsome cup, presented by Mr. R. R. Hall, M.P., for competition among the football clubs for the county championship is in exhibition in the window of Mr. Alex. Gibson, George street.

• • • •

RUGBY.

The Peterborough Rugby team had another work-out in the Brock street rink last night, and the players are now in good shape for their first game, which will be played in Toronto against the Victorias of that city next Saturday.

STORY NOT CREDITED

Believed That Mrs. Beckett Perished in Gilmour Hotel Fire

Ottawa, September 26.—The story that Mrs. Agnes Beckett did not perish in the Gilmour hotel fire but was seen on the night the structure was destroyed is not credited by her friends and relatives. It is explained by the fact that there is another woman living in Ottawa who bears a strong resemblance to the woman who is believed by the majority of people to have perished in the flames. The search of the ruins has ceased, only three bodies having been found. The last body taken out has not been identified yet, but is probably that of Mrs. Beckett. A great deal of interest is centred in the fire inquest, which will be held this week, as it is expected that some interesting facts will be brought out.

Savignac Is Still Being Searched For

Ottawa, Sept. 26.—The police authorities are still searching for Lr. Joseph Savignac of Janeville, who disappeared last evening, after shooting his wife and mother-in-law, Mrs. Mitchell of Eastcompton, but up till noon today the fugitive had eluded their enquiries. The whole district, however, is being secured for the would-be murderer, and, unless he succeeded in catching a passing freight, it is difficult to see how he can remain long at large in this neighborhood, as he doctor is a man of unusually striking appearance.

Both women were shot twice in the back, but of the two, Mrs. Mitchell's injuries are considered the more serious, and will probably necessitate an operation. Mrs. Savignac, however, runs the risk of blood poisoning, but the hospital authorities are hopeful that the patients will recover.

The doctor is a man of breeding and culture. Thirteen years ago he became an ordained minister of the Presbyterian Church, and occupied for some time a pulpit at Monte Bello, removing thence to Lawrence, Mass. He filled a Baptist pulpit in the city for six months. Three years he ran the Turkish bath in Ottawa, but recently gave this up to become a wine agent.

MANCHURIAN RIVERS

Japanese Want Them Opened to Promote Trade.

Tokio, September 24.—In connection with the Russo-Japanese commercial treaty negotiations, the Tokio newspapers urge the opening of the Amur, Sungari and Nonni rivers as indispensable to the effective opening of trade of the towns of Northern Manchuria.

Sarnia Dismisses Entire Police Force.

Sarnia, Sept. 26.—At a meeting of the town council last night, the entire police force, consisting of a chief and four patrol men were dismissed, the dismissal to take effect on the 1st of October. A new force will be advertised for and put in on November first. The force was reorganized about eight months ago, Chief Jarvis being the only one of the old force remained in service. Jarvis has been chief about six years. It is claimed by the police committee that the men have been negligent in performing the night duties.

Trouble With Stratford's Books.

Stratford, September 24.—Early this year the city council engaged Auditor Neff to examine into the city's finances. He has found that for ten years hardly an audit has been made correctly.

The late collector had been either paying the city too much money or too little, more frequently the latter, the auditor's report containing an indictment of the tact displayed by the city clerk.

WE HAVE OUR
New Fall Goods
In now, and a Fine Selection They Are

New Fall OVERCOATS; New Fall SUITS, Ready-to-Wear; New Fall Tweed PANTS from $1.00 up; A most complete range of FALL AND WINTER UNDERWEAR from 50 cents up. A very fine line of HATS, CAPS and GENTS' FURNISHINGS.

100 PER CENT. IMMEDIATE PROFIT!

LAST CHANCE

The Great Western Oil Refinery and Pipe Line Company, of Erie, Kans.

Courts investigation, and we are anxious to get in touch with investors who are willing to be convinced, but owing to the fact that our option expires October 1st, it is necessary that you send us your order immediately if you wish any of this 50 Cent stock at 25 Cents per share. Investigate 30 days and if not satisfied we will return your money in full. The thing to do now is to act, and act quickly.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads with side tracks to both. The company owns without debt, a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete modern Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number) which furnishes fuel for the entire plant and is sufficient for a 5,000 barrel capacity which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered the public for subscription.

We advise that you wire or mail your order today NOW!

The Company owns leases on hundreds of acres of oil lands with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different states and the laws passed to protect the independent refineries against unfair competition makes an investment in this company, one which is sure to bring large returns. In proof of this statement, will say that one day recently the Company shipped 21 car load lots of refined oil and by-products and on another day, received orders for 42 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of this stock, we can fill orders

At 25 Cents per Share

cash or installment of One-fifth Cash and One-fifth Monthly for four months, providing your letter bears the postmark of OCTOBER 1st or prior thereto We positively cannot fill your order unless it shows this postmark. Remember this and act accordingly.

Stock in the GREAT WESTERN OIL REFINERY AND PIPE LINE COMPANY, will soon be selling for $1.00 per share and paying dividends. You will NEVER again (no matter how long you live) have an opportunity to make a safer, surer investment.

ADDRESS ALL LETTERS AND MAKE ALL REMITTANCES PAYABLE TO

WM. FIFE & CO., 511d Mack Bldg., Denver, Col.

REFERENCE: EDITOR THIS PAPER.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

OTTAWA SEPATATE SCHOOLS

English-speaking Roman Catholics of Ottawa have a real grievance. It is the the separate schools of the capital are monopolized by the French-Canadians, and that the English Catholics do not get a fair return for the school tax they pay. Redress against the injustice was sought first from Archbishop Duhamel, but as the sympathies of his grace rest rather with the French than with the English, nothing was done. Then an appeal was taken to Mgr. Sbarretti, papal legate in Canada. The Toronto News thinks that the question of ways and means proved too difficult even for the polished diplomacy of that eminent prelate. He has not suggested a remedy. Now, the case has been submitted to Mgr. Merry del Val at the Vatican for a ruling by the pope.

The appeal to his holiness speaks openly of "French aggression and unwarrantable ecclesiastical methods," and makes the accusation that the school population of the French people increases much more rapidly than their assessment, while the English Catholic assessment increases faster than the school population. As all separate school taxes go into one fund the disparity just explained works injustice to the English-speaking Catholics who are contributing largely to French schools from which they get no benefit.

From 1863 until 1905 the Separate school board of Ottawa was divided into two sections; the French section controlling the finances and management of the French schools, and the English section looking after the expenditure of taxes intended for the English schools. But in 1905 the archbishop dissolved this arrangement on the plea that it was illegal. Yet it was established in 1863 with his approval, and its operation worked no injustice either to French or English. But in the meantime the French population had increased, and in 1902 French children began to attend English separate schools in such numbers that some English children were refused admission. There has been an understanding for several years that the French should not interfere in the election of English trustees to the board, nor should the English meddle with the French elections. In 1902 this concordat was violated by the French, and the following year the double jurisdiction in the board was abolished, as above explained, on the plea of illegality. Since then the English separate schools have been overwhelmed by French pupils, and many English Catholics have withdrawn their children, and have sent them to public schools. If the pope is unable to restore to the English Catholics their right to certain exclusively English-speaking separate schools, the breach between the two races will become wider, and the large majority of English-speaking Catholics may enroll themselves as public school supporters. This, it is intimated to his holiness, would be an injury done to religion. It is said that the respect for ecclesiastical authority (meaning the archbishop), is fast disappearing, and the result may be disastrous to the church.

The situation as a whole, says The News, is illustrative of two things: (a) the tendency of the French-Canadian clergy to sink everything in the attempt to control all the Catholic institutions of the country, and make them aids in realizing a dream of national expansion, and (b) the disadvantage to the state in recognizing any but the public schools. A separate school system is a weakness that sooner or later will declare itself. In time—it may be many years, but in time—the people of this country will realize that the state-aided secular school is the bulwark of the nation, and that no denomination or sect should be allowed to break down that bulwark in any part by insisting on the giving of doctrinal instruction in school hours. The children of the nation should be, in educational matters, the wards of the state. Let them be instructed in religious topics at home or in the church. There is no danger of the country lapsing into paganism, nor is there any danger of a public school being hostile to any religious belief. Roman Catholics now attend the high schools of Ontario without their faith. Why could they not attend the public schools with equal safety? The real sufferers by this Ottawa disturbance are the children, and neglect of them now lessens the efficiency in life of the next generation of Canadian citizens.

Girl Was Ordered Out of Church

London, September 25.—A girl was ordered out of the Menai Bridge church last Sunday because she was not wearing a hat.

The service was being conducted by the curate, who saw that the girl's head was uncovered when he went into the pulpit to preach. He called a choir boy to him, and sent him to the girl with the request that she would leave the church and not return until she was properly dressed.

The girl at once got up and walked out, but she did not return.

It will be remembered that last year the vicar of Crantock, Newquay, Cornwall, closed his church as a protest against hatless women worshippers.

HEALTH FOR WOMEN

Mrs. Emma Daigle, of Moncton, N. B., Sends an Open Letter to All Sufferers.

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, gave me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn, U. S. A., and Kingston, Ont.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, L.L.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conventional advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141 50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309 310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

recommend to you my late landlady, Mrs. Russel?"

"Thank you; I was thinking of her."

"She is a gentle and refined woman, unfit to struggle through the world, and hence she does not succeed very well. She has now a pretty little house at Chelsea, the ground floor of which is occupied with her own little shop and family rooms. The upper floor comprises a suite of three or four neat rooms, that she would be glad to let. I think you would like both the landlady and her lodgings."

"I am quite sure that I should. Please give me her exact address," said Laura taking up a pencil.

Cassinove complied, and while Laura was taking down the address, he gazed upon her beautiful, bowed face as she bent over her desk, until his own face rapidly flushed and paled, and his breath came short and quick.

She heard—her ear caught that quick, convulsive breathing—and she impulsively looked up just as he stooped and took her hand, and bowing over it, uttered, in a tone scarcely above his breath, yet deep and vibrating with his soul's profound emotion:

"Laura Elmer, I love you. I love you with my whole heart, soul and spirit. I loved you the first hour that I looked upon your noble face. I have loved you with an ever-increasing power ever since, as I shall love you through all time and through all eternity. I have suppressed the utterance of my love for months, as I ought, perhaps, yet to have suppressed it for years, but I could not be silent longer; I could not stifle my feelings and live. And so I sought you to-day, Laura Elmer, not in selfishness, not in vanity, not in presumption; not to engage your heart or bind your hand to a poor man, who must yet struggle through many years of labor, privation and hardship before he can command a position which he would dare ask you to share. No, Laura Elmer, no; I sought you to say that my heart, my brain, my services, my whole life are all your own; to say that I consecrate myself, with all that I am or may become, with all that I have or may acquire, to your service for life and death and eternity, and count myself richer than a monarch, more blessed than an archangel, so you will but accept the offering."

He paused, still breathing low and quick, and raised his eyes, eloquent with emotion, to hers.

Her face, that had been averted, was now turned gently toward him, when, meeting her glances, he exclaimed:

"Oh, Heaven! your eyes are full of tears. You do not turn away. My worship is not all wasted. You accept the ovation. Oh, Laura, is it not so? Speak to me! Speak to me!"

He pacced both her hands in both of his, with a glance that told all he wished to know.

He caught those white hands and pressed them rapturously to his lips, to his heart, amid exclamations of love and delight that made him blind, deaf and insensible to all else on earth or in heaven, blind, deaf and insensible to the presence of Sir Vincent Lester, who had entered the schoolroom unannounced, and who now stood gazing upon this love scene with his dark and handsome face lowering with evil passions, until Laura Elmer raised her eyes, and with a slight exclamation recognized him and started to her feet.

"I beg your pardon, Miss Elmer; but if this had been another than the schoolroom I should not have entered unannounced," said the baronet, with piercing sarcasm.

Ferdinand Cassinove stood up, and taking the hand of Laura Elmer, confronted Sir Vincent with a proud and joyous expression upon his fine face saying:

"Sir Vincent Lester, I have the honor to announce to you my engagement to Miss Elmer, who has just blessed my life with the promise of her hand."

"I congratulate you, sir; though your somewhat formal announcement of so evident a fact seems rather a work of supererogation," said the baronet, with freezing hauteur.

Mr. Cassinove bowed coldly.

"And now, sir," continued Sir Vincent, "as the time of an engaged man must be much more valuable to himself than to any one else, I have to inform you that I must, from this day, deny myself your inestimable services, and authorize your departure from my house at your earliest convenience."

Again Cassinove bowed ceremoniously, saying:

"You have anticipated my wishes and purposes in this matter, Sir Vincent. My term is up to-morrow, when I shall relieve you of my presence."

"Pray do not feel obliged to serve to the end of the term for which you were engaged. I quite willingly release you from such an obligation, and promise that, whether you go to-day or to-morrow, the time of your departure shall make no difference in the amount of your wages—a consideration not wholly unimportant, I presume, to a young gentleman who is thinking of setting up an establishment. Therefore, stand not upon the order of your going, but go at once. If you hope to get another situation, however, do not come to me for a character. I cannot conscientiously recommend a tutor who passes his time in making love to the governess, and chooses the schoolroom as the theatre of his romantic drama!" sneered the baronet, whose face was black with suppressed rage. Then, turning to Laura Elmer, with a sarcastic bow, he said:

"I must again beg your pardon, Miss Elmer, for breaking in upon your very interesting little scene, and say, in apology for my indiscretion, that I would scarcely have expected to find the governess of the school so sentimentally employed."

And with a sardonic smile and bow he left the room.

Cassinove, with his dark eyes blazing with anger, started after him; but quick as lightning Laura Elmer sprang forward and caught his arm saying:

"Cassinove! Cassinove! Pause—control yourself!"

"He has insulted you! I must chastise him! I must and will! I would if he were the king!" exclaimed Cassinove, his whole countenance inflamed with indignation.

"No, no, Ferdinand, you will not, you must not. You will listen to me, and govern yourself. Remember that 'he who ruleth his own spirits is greater than he who taketh a city.' Anger is insensate, irrational. To yield to it is unworthy of a man; keep your own soul in peace; let this insulting baronet go. What is he to us that we should permit him to disturb our repose? To-morrow we shall be clear of him; to-day let us forget him. Come, you will yield to me this time?"

He turned toward her, and his anger all rolled away in a smile beaming with love, as he exclaimed:

"Yield to you, my love, my lady, my queen! Yield to you! Yes! my will, my life, my soul, should you require it of me."

A little longer she detained him, to be sure that his indignation was entirely calmed, and then she dismissed him and summoned her pupils.

CHAPTER XXIV.

When the afternoon lessons were over, Laura Elmer drove to Chelsea, to inspect the lodgings on the second floor of Mrs. Russel's little cottage. She found the landlady and the lodgings all that Mr. Cassinove had represented them to be.

The cottage was situated in a quiet, clean street, and had the advantage of a fine, shady garden in the rear. The first floor was occupied with a neat little shop in front, and with the landlady's own apartments in the back. The second floor comprised a clean, airy parlor, with white window curtains in front, and an equally clean and airy little chamber, with white draperies, in the back.

Mrs. Russel was the same pleasing

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for Patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15.0x1500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after 10 exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

800,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 2,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $3,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not afflicted by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Bi-Metallic Tunnel & Mining Co

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollars worth of indebtedness against its property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 80 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—18 carloads or 1,200 tons—every ton of which went over 40.5 per cent copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property; they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 350 Markham street, Toronto, Ontario.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $25,000.00 of Preferred Stock and $25,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 600,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

A GOOD CANADIAN REPRESENTATIVE WANTED

Beware of Mercury

You May Be Using This Harmful Drug and Not Know it.

A favorite method of administering this deleterious drug is in cathartic pills. Beware of "quick-result" articles they may do more harm than good.

Drastic cathartics will weaken the strongest. With old people they are a positive menace to life.

Merely to restore normal bowel action and gently stimulate the liver is all that the wise physician recommends.

To keep the system pure and clean, nothing is so effacious as the vegetable pills of Dr. Hamilton, which are composed of such herbs as mandrake, butternut and dandelion; they contain not an atom of any substance that could injure even an infant.

By their certain action on the Liver Dr. Hamilton's Pills cause bile to be secreted which forms the stimulus that moves the bowels: this is nature's own method and the best one.

Mr. R. Hamly, of French River, Ont., writes as follows: "I was inclined to bilious attacks and frequently was too ill to work. Most remedies purged and weakened my bowels, but Dr. Hamilton's Pills gently stimulated my liver, and by strengthening the stomach made a perfect cure. My health has been just splendid since I used Dr. Hamilton's Pills.

Get Dr. Hamilton's Pills from your druggist or storekeeper, 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

A G. T. R. Time Change.

There will be a change in the local G.T.R. time table on Monday. The evening train to Lakefield will be cancelled and the train which leaves here at 11.55 a.m. for that town will depart from the G.T.R. depot at 12.20 o'clock.

C. P. R. Official Here This Week.

A Montreal despatch of yesterday says: For some time certain interests at Peterborough have been urging the C.P.R. to extend the Victoria Harbor branch as far as that town. Mr. J. W. Leonard, assistant to the president, expects to go to Peterborough this week to discuss the project with influential persons there.

Sugar Beet Co. Case.

In regard to the Peterborough Sugar Beet Co., it might be noted that another winding up meeting was held yesterday morning before the Master in Chancery at the Court House. Some evidence was taken, but owing to the absence of some of the directors the hearing had to be adjourned until Tuesday of next week.

LOCAL INCIDENTS

By The Times Man on the Street

—The local Fair is a success.

—Mr. Eardley-Wilmot was a busy man yesterday looking after things at the Fair.

—Mr. A. E. Meadows of Port Hope has a fine exhibit of sheep of various breeds at the Fair.

—The Gilmour House, Ottawa, recently burnt down with a considerable loss of life, is to be rebuilt.

—The S.S. Water Lily will bring visitors to the Fair today from Harwood and other down the river points.

—By an oversight, we omitted to state that Mrs. (Hon.) Hamilton, pinned the medal on Master Hebor Rogers' coat on Sunday night.

—Mr. Harry Winch was everywhere yesterday all the time. What Harry does not know or does not do about a fall fair is hard to learn.

—Up to four o'clock yesterday afternoon, there were on exhibition specimens of Holstein, Poll Angus and Durham cattle at the Exhibition.

—The Charity Board of the city have a male child, two weeks old, for adoption. Applications will be received by Mr. F. Miller, charity officer.

—Another post office will be opened in the township of Widdifield. It is at Trout Lake, called "Trout Mills," with J. W. Banks as postmaster.

—The Board of Education held a special meeting yesterday evening to receive the report of the Building Committee in connection with the new Collegiate Institute building.

—The Midland Argus reports that proprietors of summer hotels along the Georgian Bay, report that the number of tourists cared for this season far exceeded former years.

—This morning The Oriental chef, by kind consent of Mr. Geo. Graham, will help out the King's Daughters in their refreshment booth. This ensures good meals for those attending.

—A young man named Coones while working in Kelly's saw mill, Bridgenorth, on Monday had part of the index finger of one of his hands severed by coming in contact with a saw.

—The regular monthly meeting of the Ladies' Auxiliary of the Y.M.C.A. will be held on Thursday afternoon at 3.30 o'clock at the Y.M.C.A. building. A full attendance is requested.

—The Water Lily brings in a good load of peas for Houdrey & Son on Thursday from Harwood, and on Friday a cargo of wheat from the several lake ports for the Central Milling Company.

—Mr. George J. Chalmers has received official notice of his appointment of wood ranger in this district, and with the request to report to the Department of Lands, Forests and Mines immediately.

—Mr. George Bennet yesterday, hardly had time to get a good square breath at the Fair. George said the fine arts display whilst not quite as large as in former years is away ahead in quality.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

A Wedding of Local Interest

Mrs. R. J. McPherson's Brother Now a Benedict.

A Brandon, Man., paper, referring to a son of Mr. M. H. McGeough the well-known Lindsay contractor, and a brother of Mrs. R. J. McPherson of this city, says:

On August 15 the marriage of Mr. M. H McGeough, of the Canadian Pacific, Winnipeg, to Miss Noreen C. Kelly, was solemnized at S. Augustine's church in this city.

The church was very prettily decorated for the occasion with ferns and cut flowers and the splendid choir was assisted by many of the local musicians as a compliment to the bride, who is closely connected with the musical circles in this city. Mrs. Gillespie-Cook presided at the organ.

After the ceremony the party repaired to the bride's residence on Fifteenth avenue, where breakfast was served, the Brandon orchestra furnishing delightful music.

Mr. and Mrs. McGeough left via Canadian Pacific for the south, visiting St. Paul, Minneapolis and other American cities.

The gifts to the popular young couple were numerous and beautiful, and many telegrams were received at the depot from many points in the west — mostly from station agents and members of the O.R.T., of which Mr. McGeough is a popular member. At Winnipeg they were met by many Lindsay old boys and also number of them were Mr. and Mrs. McGeough's guests at the Empire before their departure for the south.

More Men for Lumber Camps.

It now seems as though every unemployed man is going out to the lumber camps. On Monday night ten men were sent in the woods near Sault Ste. Marie to work for the Ontario Lumber Company and another gang left for North Bay to work for Holland & Graves. Another half dozen men engaged by the Peterborough Lumber Company left for the northern part of this county via train to Lakefield. Lumbermen state that it has been a good fall for working in the woods.

Union Barbers Compel Unionism.

The local tonsorial artists have elected a new vice-president in the person of Mr. Ed. Firth and a new recording secretary in Mr. Kingsbury. Three more candidates have been taken into the local union and another shop has also lowered its colors of independence. A committee was appointed to bring pressure upon the remaining non-union shops to compel them to enter the Union.

Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. * * * It is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs; especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot and Mandrake root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Robert A. Hare, M. D., of Medical Department, University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Hahnemann Medical College, Chicago; Prof. John M. Scudder, M. D. and Prof. John King, M. D., Authors of the American Dispensatory, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a *professional* endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

Cobourg Wants More Car Shops

The Cobourg Post says:

According to D. D. Mann, the management of the Canadian Northern Railway is contemplating the erection of a system of repairs shops for the eastern lines and for the manufacture of rolling stocks for all the lines of the system. The company is at present erecting in Winnipeg, shops that are costing $850,000, and that will take about two years to erect. The eastern shops will cost a million. As the proposed new line of the Canadian Northern is to be surveyed within a few miles of Cobourg, Mr. W. J. Grosser should get busy and try to have this great corporation locate their eastern shops in this town. With the prospect of the line tapping Cobourg, there is no better place in the east to erect extensive shops. The company would have no trouble in securing all the land required for the purpose and at a fair price.

Dr. Goldsmith Asked to Resign.

Word was received yesterday from Belleville that Dr. P. D. Goldsmith, for many years Government physician at the Deaf and Dumb Institute, Belleville, has been asked to resign. He received official notice from Dr. Pyne on Saturday that his servants would be no longer required. Dr. Goldsmith says he will refuse to resign and will demand an investigation. No reason was assigned for his dismissal. It is said Dr. Boyce stands next in line for the appointment to the position.

Carpers Will Be Cured.

There are a lot of people who go no further from their respective places of business than the nearest place of liquid or frozen refreshments, who are "knocking" the Fair. Let such jump on a street car and visit the grounds. Their decision would quickly result in saying 'Go to the Fair and whilst being instructed and amused be educated as to what this Province can and does produce.

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal.] A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

NOTICE

Take notice that the Municipal Council of the Corporation of the City of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of a sewer on Sherbrooke street, from Park street to the Monaghan road, and to assess upon the real property to be benefitted by such sewer, such proportion of the cost thereof as may be just, in accordance with the provisions of Sections 664 to 668 inclusive, of The Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such By-law or By-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking the said proposed work must do so on or before the 11th day of November, 1906.

Dated the 25th day of September, 1906.

S. R. ARMSTRONG,
Clerk.

SOCIAL AND PERSONAL

—Mr. George Davidson, of Woodstock, is in the city.

—Mr. A. E. Gregory, of Lindsay, was in the city yesterday.

—Mr. Peter Smith, of Hamilton, was in the city yesterday.

—Mr. J. Clarke, of Buffalo, is registered at the Snowden House.

—Mr. and Mrs. A. L. Davis, of Toronto, are spending a few days in the city.

—Mr. J. D. Paxton, of Port Perry, sheriff of Ontario County, was in the city yesterday.

—Mr. F. D. MacKay, general superintendent of the Canadian Machine Telephone Co., is in the city.

—Mr. Chambers and bride, of Lindsay, are in the city on their wedding trip, guests at the Oriental.

—Mr. T. H. Crowley, Peterborough's mining expert, was in town Saturday, taking in the fair.—Lindsay Post.

—Yesterday Mr. Redmond's locksmithing store on George street was closed, Mr. Redmond being at Pompeion Falls attending the funeral of his father.

Plumbing on House of Refuge.

County Councillor Garbutt, of Smith, chairman of the House of Refuge Committee reported yesterday that Mr. MacPherson, contractor for the plumbing and heating has got his men at work and now the interior work on the building is going rapidly ahead. Plumbers, lathers, plasters and carpenters are all working and the place is beginning to take on an appearance of a completed structure.

Thin Blood

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak nerves, general debility? We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks it will do for your case. Then do precisely as he says.

We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts."

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO 228 PETERBOROUGH, ONTARIO, THURSDAY, SEPTEMBER 27, 1906. PRICE TWO CENTS

THE LOCAL FAIR WAS THE BEST FOR YEARS

Despite Desparaging Rumors Yesterday's Fair Had More Entries, More Patronage and Contained More Points of Interest Then Anticipated.

The Peterborough Industrial Exhibition of this year exceeded all past records for years in the number and variety of exhibits. It must be a great satisfaction to the president and directors to see so grand and good a show in the face of a sub-current of opposition that has been only too much in evidence. The crowds yesterday of afternoon ran well into five thousand people.

It would be invidious to say which class of exhibits was the best; the only truthful way to describe the Fair of this year is to say that every class was well represented, and some of them better. In the line of sheep and hogs the exhibits of this year were somewhat weak. Last year Mr Colville of Newcastle, had a very large exhibition of hogs that were missing this year. In sheep W. Stillman of Smith, had the best collection on the grounds. His entry was nearly being frozen out. On Monday he went to the downtown office of the Exhibition, and was told he was too late to make his entries. However, on Tuesday evening, he, with Mr. Harry Neal, called on a Times representative, and the latter gentleman took Mr. Stillman's entry fees and got his entries placed.

At the Fair grounds all was a round of fun and merriment. From the two negroes, one of whom stuck his head through a hole in a canvas, and the other sold baseballs, 3 for 5 cents to throw at the wooly head of the former, saying, "Hit him on the head, hit him in the eye, break his nose, hit little Willie," as purchasers of balls threw them at the exposed head of the nigger behind be canvas, to the finest of the fine arts, all was well worth a visit and of greatest interest.

The show of fruits and vegetables was beyond criticism; pumpkins, squash, beets, apples, and canned fruits of all kinds were of a most superior quality.

Upstairs the ladies' section was especially good, the fancy goods, some of which were described in yesterday's issue, were well worth many a mile's travel to see.

Among the more important entries were those of the

CORDAGE COMPANY.

One large section of the Exhibition building was most tastefully and artistically decorated by the Peterborough Cordage Company. The floor of their booth was covered, like as though by a thick carpet with strands of Manilla hemp. It is interesting to see one take a strand or two of this hemp, fine as a woman's sewing cotton, double it and then see the operator try to break the strands. Much amusement was caused yesterday by "Smart Alecks," sure they could break this fine material between two fists. The man who thought he could break this thread of manilla would tug and pull until the substance fairly cut into his hands, but no a break. To show the enormous tensile strength of the Cordage Company's goods one had to see the huge coil of rope cable, about two and a half inches thick. This cable was woven in a kind of chain pattern of several strands of manilla rope and would hold several would-be-runaway engines. Mr. Roy, the local photographer, Yesterday told The Times that when his steam yacht was being pulled out of water, the Peterborough Fuel and Cartage Company, had four ropes of the ordinary sisal, and attached to them was a single rope of the Peterborough Cordage Company manufacture, less in thickness than any one of the four sisal ropes the Carriage Company used. When the pressure came, the single rope of the Peterborough Cordage Company held good, whilst the four other ropes snapped, i.e., one small rope of the Peterborough Cordage Co stood a strain more than equal to four times (and more than that) of other makes. The Cordage Company's exhibit of ropes were well worth a visit.

BERKSHIRE HOGS.

Messrs R. Vance & Son, of Cavan, Ida P.O., had a splendid exhibit of hogs, in fact the best of the improved English Berkshire class. Peterborough has seen for years. Messrs. Vance are of the progressive and up-to-date farming class, who are not content with what was good enough for their fathers, but who insist on having only the best of its kind.

Messrs. Vance & Son, made a noble exhibit of those fine bacon hogs, which was unsurpassable. In conversation with Mr. Vance, The Times learned that the hog now required, especially for bacon purposes, must have long, light shoulders and good jams. Messrs. Vance this year were again to the fore stronger than ever. Their herd, exhibited yesterday, was headed by "Kingston Royal," imported direct by the Duchess of Devonshire. Three sows, York Lodge Princess and Burlhom Duchess were entered in the aged sow class. They had five head under six months, that were to use a drover's expression, "Long and sweet."

In 30 years this firm has never met with defeat in the herd prize. Yesterday Messrs Vance & Son's prizes were as follows:

Aged boar, 1st prize.
Boar under 12, over six years, 1st.
Boar under 6 year, 1st and 2nd.
Sow, one year and over 1st and 2nd.
Sow under 6 months, 1st and 2nd.
Herd, 1st prize.

The judge said there was not a better pen at Toronto.

R. M. ROY.

Mr. R. M. Roy made four exhibits and took four firsts. A large sepia entitled "A good story," is not only a work of art, but is absolutely a truely true story. An old man from the back country came in "To get my pikters took." Mr. Roy with true artistic acumen, recognizing a good subject kept the old fellow talking, and by telling him a "good story," got the old man roaring with laughter and then gave his son the hintand the old man's laugh and all was immortalized.

Another picture worthy of note shows four different heads of the same child, i.e., in different moods and positions. These four are printed on one sheet of paper, and is a gem of photography.

For seven years Mr. Roy has exhibited photographs, and for these seven years has invariably captured all the first prizes. Some people erroneously think that owing to the superior excellence of Roy's photography that his prices are correspondingly high; this is a mistake, Roy's prices are the same as charged for inferior work. Whilst his results are on a par with Sarony and other photographers of international reputation.

HORSES.

In the gradica or class, in which Mr. J. M. Brooks was interested, much interest was taken by those posted in horse flesh. The exhibits made, with prizes awarded were as follows, with the respective owners of sons of gradicators:

R. J Weir, 1st prize, $30.
Wm. Crough, Emismore, 2nd prize $25.
Al. Northey, Smith, 3rd. $15.

The judge, Mr. Crow, said that the 1st prize colt has lots of quality and will develop into a splendid animal.

The second prize colt was extra fine but not quite as good action, otherwise as good as the first prize colt.

The third prize colt was almost equally good but a temporary injury disqualified him. In the fewest words Mr. Crow said that as a sire, Gradicator is all right.

J. B. TURNER & SONS.

The old reliable and progressive firm were as usual on deck with a display that would do credit, and possibly not be beat on at the Toronto or any world's fair.

Their principal exhibit was a double roofed ten xlor campers, hunters, clubs, or other use. The tent made out of extra thick and strong striped and handsome looking duck is absolutely portable and can, notwithstanding its vast size, be packed into a very handy space. This tent is made to order at short notice or can be supplied from stock. The tent is 15x25 feet, and was furnished in a way that would make many a drawing room look cheap. In the tent are dividing walls of canvas, thus making the tent a comfortable house as comfortable as one's private residence. This tent is furnished with windows, that by turning a couple of easily moved levers, come out completely, leaving a fly screen to ensure perfect comfort. The tent stands upon an easily moveable platform, and is furnished with expensive rugs. Such a tent makes camping out a luxury.

Besides this large, double-roof tent, Messrs Turner & Sons had several other tents of all kinds and sizes, adapted to every requirement, from a hunting party to a lawn tent. The enterprise of this firm is proverbial, and if other merchants would display as much enterprise, the Peterborough Industrial Exhibition would blossom like the roses in spring.

CREAM SEPARATORS.

Mr. F. J. Doughty, the enterprising local agent of the Empire Cream Separator, yesterday had his exhibit thronged by hundreds of keenly enquiring farmers, many of them experts. All who witnessed the manipulation of the Empire Separator, by Mr. Doughty, were simply amazed at the marvellous simplicity and thorough work done by this machine.

Owing to the lightness of the bowl, only weighing 53-4, it has been found necessary to put a brake on the machine otherwise it would run from 25 to 30 minutes after work has ceased at the handle.

One feature peculiar to and only to be found in the Empire Separator, is the upper or neck bearing, which is a simple device, but it has won for the Empire the name "Improved Frictionless," and has reduced the labor to a mere fraction of that required by any other separator it is simply a bushing locked on the neck of the spindle. As the bowl turns this bushing revolves on the balls encircling it.

Having a ball neck bearing, the only one on any make of separator that has proven to work satisfactorily, the Empire is thus placed in a class by itself. This reduces the friction to a minimum.

All farmers needing a separator can have the Empire left at their respective residences on trial gratis. As to skimming, the Empire is unsurpassed.

The Empire is simple in construction and easily washed, having no corrugating parts.

Mr. F. J. Doughty is district agent for the County of Peterborough. His address, that should be noted by all wanting or likely to want, a separator, is P.O. Box 942, Peterborough.

W. J. STILLMAN.

Mr W. J. Stillman, one of the most enterprising and up-to-date farmers in the township of Smith, yesterday had an exhibit that will doubtless establish his name, already well known, as a breeder of fine Cotswold sheep, and result in rapidly increasing orders for sheep from his flock.

Mr. Stillman, as noted elsewhere, came very near not getting his entries accepted through a misunderstanding on the part of those in charge of the Exhibition. His entry blanks duly filled out on Saturday afternoon were on Monday presented together with his admission fees, $4, at the downtown Exhibition office, and Mr Stillman was told he was "too late." However, a Times' representative hearing of the matter, and having the interests of the Fair at hear, took Mr. Stillman's money and entries, and although unable to get Mr Hall, the secretary, who was busy at the grounds, handed the same to Mr. Learmonth, one of the directors and got the entries placed.

The result was that Mr. Stillman showed in the Cotswold class of sheep, several first prizes for the six shown, as follows:

2 aged ewes, 1st prize.
2 shearlings, 1st prize.
2 ram lambs, 1st prize.
2 ewe lambs, 2nd prize.

Mr Stillman speaking of the Cotswold breed, said that they combine the best features of all grades of sheep, their specialty being the length and quality of the wool and are large sheep.

His flock is all registered and are of most excellent quality. Mr. Stillman is ready at all times at his farm on lot 20, con. 4, of Smith, to supply farmers or others wanting high grade sheep with splendid specimens for breeding purposes.

THE RACES.

The main factor in yesterday's entertainment, outside such exhibits as appealed to those present in particular, was the races. This feature of the Exhibition managed by Messrs. J. M. Brooks, A. Elliott and R. J. Munro, was a distinct success, all the races being conducted in a fair and impartial manner. The result of the horse races was as follows:

2.50 class—

Major Hamburg, H. Ashley	1	1	1
City Queen, E. Elmhurst	3	2	3
Pegg, Chas. Fife	6		udr.
Little Will, A. Elmhurst	5	4	4
Dr. Mack, Dr. Brand	7	7	2
Indian Girl, B. W. Weese	4	5	5
Little Girl, J. Elmhurst	2	3	

2.25 class—

Joe Allen, W. Simpson	1	1	1
Lady Hamburg, H. Ashley	2	2	2
Capt. Stubbs, H. Darcy	3	3	3
City Queen, W. Elmhurst	4	4	4

Free for all—

Tim, Alert, T. Mason	1	1	1
Minnie Keswick, G. Curtis	2	2	2
Miss Paisley, H. A. Crook	3		ds

Time—2.17, 2.19, 2.19.

The dog races created much amusement, the only trouble with these swift steeds was that one would get ahead of another, the hindermost dog would dig in and on catching up with its swifter opponent, make for its neck or any old place that a fang could be inserted. The race, however was most interesting.

WE HAVE OUR

New Fall Goods

In now, and a Fine Selection They Are

S. J. Sheridan

The Market Store, - 328 George St.

POLICE NEWS

Daily Happenings in Court Room and Station.

Arthur Weris, the boy who as noted in yesterday's issue, was charged with stealing $1.50 from his employer, Mr. A. H. Stratton, and was remanded on Monday, came up before the magistrate yesterday morning. He pleaded guilty, admitting that he not only took the money in question, but also other moneys.

The magistrate remarked that it was a sad confession, and the boy who began life by stealing and lying placed himself on the road to ruin. He gave the boy some good advice and allowed him to go on suspended sentence.

The young man arrested yesterday for an alleged picking of several men's pockets at the Fair grounds yesterday gained his relatives to come to his aid. The young man claims to have come here to peddle patent medicine, but acknowledges to have had no stock on arrival. He told a Times representative that he yesterday purchased one dozen bottles and some drugs from Mr. J. D. Tully, the George street druggist, preparatory to getting busy.

Old Peterboro' Boy at the Fair

Mr Chas. Rubidge, a son of the late Capt. Rubidge, R.N., and brother of Mrs. Archer, Rubidge street, who is spending a few days in the city, a guest of his sister, yesterday met a Times' representative at the Fair grounds. By a strange coincidence, Mr. Rubidge, who has for some years been a successful farmer in Michigan, happened to have in his pocket an illustrated bill of the Tuscola County Mich. Fall Fair, held on Sept. 25—28 h. The Americans certainly know how to advertise their fairs. The bill handed over to The Times by Mr. Rubidge, showed that, whilst Tuscola County Fair, does not begin to have as large a population to draw from as the City of Peterborough, their attractions are seemingly away ahead of those shown here. However, attractions or no the local Fair this year is a great success who her financially so or not, and the directors have every reason for self congratulation.

Frank Clarke to Open New Store

Mr. Frank Clark, an old Peterborough boy, who learned the jewellery business in Peterborough, and who for some years has carried on a successful jewellery business in Warkworth, Ont., has decided to open up a business in his native town.

Mr. Clarke will occupy the store at the corner of George and Brock streets, recently occupied by Mr. T. Hooper as a candy shop. Mr. Clark has been residing in the city for the past few weeks, having disposed of his business interests at Warkworth and Stirling.

He being a thoroughly posted business man acquainted with every detail of the jewellery business will doubtless make his mark here.

Motor Boat Goes 50 Miles an Hour

Paris, September 27.—A new motor boat, which in its speed tests travelled from forty to fifty miles an hour, is described by The Journal today.

In shape it is more like a small whale than anything else, for its bows are blunt and it tapers gradually from bow to stern. Its rudder too, is horizontal, like the flukes of a whale.

The vessel is about twenty-eight feet long and has a motor of 60 horse-power.

OLD RESIDENT DIES

Death of Mrs. John Gibbs After Living Fifty Years in Peterborough.

Yesterday morning about eight o'clock, a semi-centennial resident of Peterborough, in the person of Jane Rundle Hawkey, wife of Mr. John Gibbs, passed away at the age of 69 years, at 189 Brock street.

Mrs. Gibbs has been ill for about eight years and during the last seven weeks has been confined to her room. The cause of death was a nervous trouble, resulting in a gradual decline.

WONDERFUL SHOE POLISH.

An exhibit which created an exceptional amount of interest to many visitors of the Toronto and Ottawa Exhibitions is being shown here. People wondered at seeing shoes polished and immediately after actually being washed with water and being dried with a towel—proving that it, the polish, is waterproof, and also that it does not run off or soil the clothing under any condition.

The "Nugget" polishes, as they are called, are being introduced from England into this country, and with the certainty that they will, in a short time, be universally used by all classes.

It is important to state that these polishes keep the leather soft and pliable, and consequently will preventing cracking and hardening.

The "Nugget" polishes can be used on all kinds of leathers, fine and common, are as easily and simply applied as any other, and only the smallest quantity is to be used to produce the desired results.

The late Mrs. Gibbs was born in Cornwall, England, and came to Canada with her parents on Oct. 21, 1842, when five years old. She was married in this city, in 1857, to her surviving husband. The deceased lady was a Methodist in religion and leaves to mourn her death, a family of six children—four sons and two daughters. The sons are John, William, and Robert, of Peterborough, and Harry, of Detroit. The daughters are Mrs. T. C. Westlake and Mrs. G. H. Hutchinson, of this city. A brother, Richard Hawkey, of Cobourg. Richard Hawkey, of Cobourg, also survives, Mrs. Gibbs being the only other remaining one of the original family of six children.

The funeral will take place from 189 Brock street on Friday afternoon next at 2.30 o'clock to the Little Lake cemetery.

German Class Goes to Omemee

The German Conservation Club, so ably instructed by an efficient exponent of that language of gutterals and postponed verbs, the Rev. E. A. Langfeldt, in addition to absorbing a knowledge of the German language, at times take a little relaxation.

One of the outings of the class was that of Tuesday, when with the rector of St. Luke's church, they left the post office here at 12 o'clock, and reached Omemee by three o'clock. They enjoyed tea on the rectory lawn, Rev. J. H. Tenney and wife doing all in their power to make the visitors welcome. Several games of tennis were played on the grounds of Mrs. Thomas Stephenson, sr. A very pleasant evening was spent in music and singing and the visitors returned home at a seasonable hour.

If all dyspepsia sufferers knew what Dr. Shoop's Restorative would do for them, Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative, J. D. Tully.

Chemong Ball Players Win

The excursion from Chemong Village to Scugog Island and Port Perry, was a great success. The steamer Manita left her Indian wharf early in the morning, calling at all intervening points. Some of the people got off at Lindsay and took in the fair and had a splendid time. The rest of the excursionists landed at Scugog, where a hearty welcome was accorded. A tea was given in the town hall, and a concert after the tea. A free promenade from the hall to Port Perry was run. After which a baseball match was played between the Chemong boys and the Scugog team. The score stood 15 to 9 in favor of Chemong.

Quakers Defeat Dominion Construction Co.

Yesterday afternoon a fine game of football was played on the Exhibition grounds between the Quakers and the Dominion Construction Co. The latter company are engaged in erecting the Canadian General Electric Company's new buildings. A large and interested crowd gathered round the game and thoroughly enjoyed it. The Quakers won out by a score of 2—0. The Construction ists, while brawny and swift players have not had enough time yet to get their team work together, but will doubtless soon prove a strong combination. The Quakers' record and ability is too well known to require description.

Orders Bodies Exhumed.

Toronto, September 27.—An inquest has been ordered by County Crown Attorney Drayton, into mysterious death of Mrs. Fred Cook and her infant child at Highland Creek. The bodies will have to be exhumed, the remains of the woman being buried at Locust Hill, and those of the child in the backyard of the Cook home. The inquiry will likely be conducted at Markham village.

Rink open from 7.30 to 10 o'clock

UNITED STATES TO USE FORCE TO PACIFY CUBA

Secretary Taft Was Obstructed on Every Hand in His Efforts to Secure a Peaceable Solution That Would be Honorable to Pres. Palma.

Havana, Sept. 27.—Cuba, today, is practically without a government, and the landing of American forces to restore order in the island is believed to be the necessary outcome.

The moderate, or governing, party, last night decided to abdicate everything in the nature of national, provincial and municipal government, and thus force the hands of the American Peace Commissioners, and compel the United States to intervene for the second time in Cuba.

The Liberals, or Opposition party, denounce the action of the Palma Administration as treason but the conservative interests throughout the island welcome the idea of American intervention as being the only means of securing an orderly administration of the island's affairs for any length of time.

The government officials all admit that they prefer American intervention to seeing the Liberal party in power.

President Palma, in a special session of Congress, called for Friday, will formally present the resignations of himself and Vice-President Zendes Capote, but it is not certain that a quorum will be present.

The American commissioners have plainly signified their disgust at the conduct of the government officers, and have practically abandoned their efforts to restore order in the island, except by the use of force.

Secretary Taft has pointed out that the Cuban officials, instead of co-operating with the American commissioners, have engaged in every kind of obstruction with the object of continuing their control of the government, and have rejected terms of peace, proposed by the Americans, which were honorable to President Palma and his advisers.

Racial Sentiment Being Cooled

English Workmen not so Pliable as Foreigners.

Ottawa, September 27.—Closer acquaintance with English immigrants of the classes chiefly landed in Canada this year has tended to cool the enthusiasm of racial sentiment that previously burned so hotly throughout the dominion. Ernest Terry, one of the members of the Leeds (England) distress committee, came over to Canada to investigate conditions, and in reporting to his committee is compelled to confess English immigrants are not popular in the dominion. Employers, he says, would rather have Swedes, Russians, Germans, or even Italians, work for them than Englishmen, who are declared to be unused to doing what Canadians consider a fair day's labor, while the foreigners are.

Besides that, when the Englishman gets a few dollars in his pocket, as a general thing, he is apt to suddenly develop more independence than is conducive to the continuation of harmonious relations. In other words, he gets too drunk and does so too often to suit the ordinary Canadian wage-payer.

Mr. Terry also reports an unpleasant state of things on steamers conveying emigrants to Canada, such as greatly overcrowding quarters, wretched sleeping, eating, and lavatory accommodation, and badly cooked food, roughly served. He found the glowing accounts given of Canada by the emigration agents in England, government as well as private, must be largely discounted, the conditions of life being much more trying in Canada than in England, the housing problem such that it is almost impossible for the working classes to get shelter, the cost of living much higher, and the standard of living much lower than in England. The bringing of tens of tens of thousands of the distressed classes from England has enabled the English emigrants and the Canadian people to view each other at closer range, as it seems to be the fact that their regard for each other on the whole has not been increased by the process.

St. John's Y. P. Tennis Club

Mrs. R. J. Devey Wins the Ladies Single After a Well Contested Struggle.

On Nicholls Oval yesterday afternoon the above club held a final meeting. The principal event was the finals of the ladies' singles, adjourned from the tournament on Labor Day, between Mrs. R. J. Devey and Miss Smith. The scores were as follows:

Mrs. R. J. Devey, 6—3, 4—6, 6—2; Total 16.

Miss Smith, 3—6, 6—4, 2—6; Total 11.

The prize, a pretty beaded china jug, was presented by Miss Roberts, thus winding up a most enjoyable season.

South Monaghan Man's Sudden Death

Mr. Wm. Robertson, Passed Away After Few Hours' Illness.

The many friends of Mr. William Robertson, one of the leading and most universally respective farmers of this county, will regret to learn that this well known resident of the county passed away yesterday at his residence at Centreville. Mr. Robertson's death came, it might be said, almost unexpectedly as he was only ill for a few hours. His daughter, Miss Robertson of Reid street, left last night to assist in making arrangements for the obsequies.

Rheumatism is not incurable, quite born! You! But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives then rheumatism from the blood and then Rheumatism dies. We recommend and sell it. J. D. Tully.

British Tortured by Fierce Zulus

Terrible Acts Which Prompted the English Troops to Cry. "No Surrender!"

London, September 27.—Henry Tully, who has been nearly thirty years in South Africa, writes from Pietermaritzburg to his brother, Captain R. Tully, of South Shields, defending the troops operating in Natal against the charges of barbarity brought by Keir Hardie and some other M.P.'s.

He states that the very opposite was the case. The women and children were well taken care of, and only the natives who were found in arms against us were killed.

With regard to the other side of the picture, the writer says: "Brooks and Brown, of my old corps, the Natal Mounted Police, were most terribly mutilated. In the case of Veal, a non-combatant, he must have suffered awful torture. A native witness has confessed to us that the poor fellow was held down while the soles of his feet were cut off. He fainted, and when he came to was made to walk a distance, carrying a heavy load on his head.

"His right hand was cut off, and he had to salute himself with his dead hand. After that his eyes were gouged out and he was dismembered while still living. Can you wonder that the men of McKenzie's column, when they found his mutilated body, should cry out, 'Take no surrender, sir!'"

TO CONSTRUCT A CANAL

New Company to Apply for Incorporation.

Ottawa, September 27.—The Drainage Canal Company will make application at the approaching session of parliament for incorporation.

The new company will ask for power to construct a canal or system of canals so as to create a navigable waterway from a point on the Richelieu river south of the town of St. Johns, in the province of Quebec, thence northerly through St. Johns town and parish either to a point on the Richelieu river or alternatively turning westerly through the parish of St. Marguerite of Blairfindie, to the Montreal river, sufficient to enable vessels of deep draft to pass in safety through the same; to maintain, construct and operate all buildings, erections, terminals, wharves, docks, warehouses, drainage and other works and appliances for or in connection with the same; to produce and deal in electrical, water and other power of every kind, and all appliances in connection therewith; to exercise all rights of expropriation, as are granted by the Railway Act, 1903, together with all other powers necessary for or incident to the above purposes or any of them, and for a declaration that the said works shall be an undertaking for the general advantage of Canada.

COLONY OF JAPANESE

One is Likely to be Established South of Calgary.

Calgary, Alberta, September 27.—Several Japanese gentlemen are here for the purpose of bringing out a number of Japanese agriculturalists to settle on the irrigated lands to the south of this town. Their scheme is to purchase 50,000 or 100,000 acres, and at once go in for farming on an extensive scale. The people he will bring are well acquainted with farming on irrigated lands and he expects to settle one head of a family on each 75 acres.

R. B. Nagatany, of Kioto, Japan, is really at the back of the enterprise, although he is accompanied by several other Japanese gentlemen who between them will lay the whole plan before the Mikado in the hopes of obtaining from him the necessary financial assistance.

They state there will be no trouble in getting all the Japanese necessary to emigrate to Canada. In fact at the present time Canada is attracting considerable attention in that country owing to the large quantity of Canadian flour being sent there.

The Dominion government has already been approached on the matter and it is said every assistance possible will be granted the intending emigrants.

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, SEPTEMBER 20 1906

THE METHODIST ITINERANCY

The Methodist General conference has decided to adhere to the itinerant system for its ministers—a system which it certainly practised with marvellous success in the earlier days of the church. To the members of other churches who regard the permanent pastorate almost as a matter of course, it seems at times to be strange that the Methodists should insist upon moving their ministers at the end of an arbitrary term, regardless of the needs of any particular congregation. But, to the Methodists, this is the policy which has brought to their people on the poorer circuits the ministrations of their brightest minds; and there can be no doubt that they have made great gains at many a weak spot in the line of advance by the ability to bring into action at that point their heaviest artillery.

An extension of the old three year term was granted a few years ago, as a concession to the needs of some of the city churches; for it is in the cities that this order to "move on" produces its most undesirable effects. If it were not that there are a number churches in each of the larger cities, this would almost prevent a Methodist minister from gaining that popular appreciation from the floating masses, attached to no particular denomination, which is so great a power in the hands of the more settled clergy. Then the moral reform elements in a city get accustomed to the leadership of certain ministers; and their authority grows with the years. This field of usefulness is somewhat curtailed by the itinerant system, though—as we have said—a man may be moved from one church to another in the same city and so keep in touch with these fighting organizations.

But the experiences of the Methodist church is still plainly in favor of unlimbering its guns at frequent intervals and moving them to a new position on the firing line. They think it as important to keep the wings steady and to make the center strong. The experience of the men who are working the system should be conclusive, though we in the cities, who are concerned in strengthening our forces against the evil influences which are so tireless and so powerful may deeply regret the loss at a critical time of a "son of thunder" who has been heard from the pulpit of a Methodist church.

Arrested the Groom

Brockville, Sept. 26.—Within four hours of the ceremony Chas. Saggster, a prospective bridegroom of this town, was arrested today on a warrant sworn out by Mrs. Anthony White, charging him with improper conduct towards her 14-year-old daughter. The fellow was to have been married to another young lady, and preparations had all been completed for the ceremony. He denies the accusation, but was remanded for one week.

Piles positively cured with Dr. Hoop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Aching, painful, protruding or blind piles, disappear like magic. Sold by J. D. Daly.

HER HAT ON FIRE

London Lady Has an Exciting Experience.

London, Sept. 27.—Two London firemen had a unique experience, though going their regular line of duty. Mrs. Borland, wife of ex-Fireman Borland, had been shopping and was passing the Central fire station, when Firemen Mitchell and Belton, who were working near the door at the time, were astonished to see flames leaping from Mrs. Borland's hat.

They shouted to her, and ran to her assistance, but before they could reach her the entire hat, which was of very light material, was a mass of flames.

The firemen were quick to act, Mitchell knocked the hat from the lady's head, and then Borland smothered with his hands the burning pieces which were clinging to her dress.

Mrs. Borland is at a loss to account for the fire. It is thought that as she was walking along the street some person tossed a burning match out of an upper window, and that it set fire to the light muslin on the hat.

RICH FIND IN ARKANSAS

Lincoln Mining and Milling Company Report a Discovery Equal to Famous Joplin Region.

On August 15th the Lincoln Mining and Milling Company, consisting of Dr. Canada Wendell, president; Dr. John R. Barnett, secretary; Thomas Moran, treasurer, issued the following under date of August 15th:

"We are pleased to be able to say to you that all is progressing as well and even better than we anticipated. The work at the mines is going on continuously and so far with splendid results. The ore body has proven greater than we announced and the richness and purity of the ore has proven equally as good if not better than the $15,000.00 Forty Mine. We are confining our efforts to these two mines, though we have other properties that we consider as good. The Wendell Prospect, and of forty acres situated about four miles from these properties that we consider very valuable. It consists of a large hill, the base of which covers the forty, and all around this base are outcroppings of lead and zinc. Our mine superintendent considers this worth as much as either of the others. On our lands are also about 160 acres of good timber suitable for lumber purposes.

EXPECTATIONS CONFIRMED.

The following news was received Tuesday, August 28th, confirming all expectations.

Dr. Barnett received the following message from M. A. Chapman, mine superintendent for the Lincoln Mining & Milling Association, at Smithville, Ark.:

"Dr. John R. Barnett,
Lincoln, Ill.

My Dear Doctor:

Rejoice! Ring the bells! Blow the horns! The lost is found! I send you specimens of ore from Carbonate Hill shaft.

W. A. Chapman."

There is a field for investment in Arkansas and if you have spare change buy a small block of stock. It will grow in value as time passes.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Some Toronto yachtsmen had an object-lesson in the difference between Canadian and United States ideas of the behavior of a servant when a yacht from across the lake came into port the other evening. Two members of the Royal Canadian Yacht Club went out to pay a call of welcome on the skipper of the visiting yacht. Greetings were exchanged, and then the steward was called to deliver some liquid refreshments. When he brought the wet goods he was busily chewing on a big quid of tobacco, and to the horror of the visitors deliberately spat out a mouthful of tobacco juice upon the deck.

"John," protested the skipper of the yacht, "how often have I told you that you must not do that?"

"Say, boss," was the reply, "ain't I got a spitting interest in the boat?"

Then the Canadians collapsed.

The Simple Facts.

"Children," said the teacher, instructing the class in composition, "you should not attempt any flights of fancy, but simply be yourselves and write what is in you. Do not imitate any other person's writings or draw inspiration from outside sources."

As a result of this advice Tommy Wise turned out the following composition. "We should not attempt any flights of fancy, but write what is in us. In me there is my stummick, lungs, hart, liver, two apples, one piece of pie, one stick of lemon candy, and my dinner."—Calgary Herald.

Your Doctor

Ask your doctor how long he has known Ayer's Cherry Pectoral. Ask him if he uses it himself, in his own family. Ask him if he can recommend anything better for throat and lung troubles, such as hard coughs and colds, hoarseness, bronchitis, weak lungs. Do as he says, at any rate. We are willing.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

THE STILES INVESTMENT CO., Fiscal Agents.

309-310 Beals Building. Kansas City, Mo.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 1-3 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 139 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

were betrothed. She felt that this assurance should have calmed her spirits, and she wondered why it did not, and why, on the contrary, her soul was oppressed with a gloom that she could not shake off, and haunted with a presentiment of evil which she could by no means exercise. It was true she knew Lady Lester had no kindly feelings toward her, and also that Sir Vincent Lester hated Cassinove with the intense hatred of jealousy; but then Cassinove, as well as herself, was to leave the house upon the next day, and need never come into collision with the Lesters again.

Thus it could not have been the thought of their animosity that filled her soul with a sense of approaching calamity, vague and terrible as the forms that move through the valley of the shadow of death.

She lay tossing for hours in a state of restlessness that could not be soothed. She heard the latest domestics, one by one, retire to their beds. And long after that, "in the dead waste and middle of the night," her ears, sharpened by nervous excitement, heard the faintest sound in the empty street without or the silent house within. At length all without and within was as still as death. Even her strained sense of hearing could not catch the faintest sound.

The dead silence and darkness was almost suffocating to her preternaturally excited nerves on the qui vive of a sort of fearful expectancy.

It was while listening painfully through the deep silence, and gazing intently into the black darkness of her chamber, that a line of red lights, as from a candle, carried in the hall without, glided through the crevice at the bottom of her door, and traversed the length of her darkened chamber walls, and disappeared. At the same moment the stairs leading down to the next floor creaked slowly and softly as under the weight of some cautiously descending step.

Slight as this incident was, in the preternatural excitement of her nerves, it filled her soul with terror. It was in vain that she assured herself that there was nothing unnatural or alarming in the event, that the midnight walker was merely some domestic passing through the house on some harmless errand of his own. She could not be at rest; her heart stood still with horror! she listened intently as if for some knell of doom. She heard it.

"Murder! murder! murder! murd—"

There was no mistaking those fearful shrieks that broke upon the silent midnight hour, and died away in gurgling inarticulation.

She understood her presentiment now. She sprang from her bed in frantic haste, threw on her dressing-gown, and rushed out into the passage. The alarmed household, startled out of their deep sleep by those frenzied cries, were now in motion, and all hurrying, half-dressed, and with exclamations of astonishment, wonder and alarm, toward the chamber whence the cries proceeded. Almost maddened with excitement, Laura Elmer joined them, and the whole party poured into the chamber of Sir Vincent Lester.

There a scene met her view that seemed to congeal to ice every drop of her life-current.

Sir Vincent Lester lay wounded and dying in his bed, his heart's blood spouting in a thick jet from the wound in his side. With the convulsive grasp of the dying, he held Ferdinand Cassinove, who, pale, ghastly, and paralysed with horror, and clutching a poniard in his hand, bent over the murdered man, without attempting to escape.

"In the name of Heaven, what is the meaning of this?" exclaimed the butler, while ejaculations of amazement burst from the men, and shrieks of terror from the women.

"He has murdered me! he, he, the wretch!" exclaimed the dying man, starting up and tightening his grasp upon the young man's collar, while, with the violence of the action, the blood spouted in torrents from his mortal wound.

And the next instant the convulsive grasp relaxed, the falling hand fell, and the dying man dropped back upon his pillow—dead.

"For Heaven's sake run for a physician, some one! he may only have fainted," exclaimed Ferdinand Cassinove, waking as it were from the panic of horror that had bound his senses.

Then seeing all eyes fixed upon him in loathing and amazement, and not understanding the meaning of their gaze, yet not willing that a moment should be lost that might be of vital interest to the victim, he exclaimed, earnestly:

"Hasten! fly! for Heaven's sake fly for a physician! A moment may save or lose your master's life!"

Perceiving that no one offered to obey, while all continued to glare upon him in detestation and horror, he said to the butler:

"Watson, look to your master! You have some experience. Apply restoratives vigorously, while I hasten myself little lady that has already been described.

Miss Elmer was more than satisfied with the accommodations offered, and therefore she immediately engaged the apartments, promising to come and take possession in a few days.

When Miss Elmer then mentioned that Mr. Cassinove had recommended the house and the hostess, Mrs. Russel became enthusiastic in her expressions of gratitude for his kindness, admiration of his character, and aspirations for his welfare. Miss Elmer was delighted with her warm encomiums, and in this pleasing frame of mind she took leave.

She returned to Lester House in time for a late tea, and without having a second opportunity of conversing with Cassinove, she retired to her chamber.

Laura went to bed and tried to read herself to sleep, vainly, for she could neither fix her attention to the volume in her hand, nor compose herself to rest.

The day had been too full of excitements. Ferdinand Cassinove, whom in her secret heart she had long adored, had declared his love, and she had made him happy by accepting the true heart that he had laid at her feet. They to bring surgical help."

And he moved toward the door.

Here he was intercepted by the crowd of domestics, who, roused from their apathy of horror, roughly barred his way with exclamations of:

"No, you don't, though!"

"You'd cut and run, would you!"

"Don't you hope you may, you rascal!"

"Oh, won't you swing for it, though!"

"Hold on, you! Stay where you are, will you!"

"Don't let him get away! Seize holt on him, Jeemes!"

"Go for the perlice!"

The confusion was indescribable.

"Friends, what do you mean by hindering me? Let me pass. I must hurry at once to bring a physician. Don't you see that life and death hang upon every moment?" exclaimed Cassinove, in an agony of anxiety to save his enemy, if there should be yet a shadow of hope.

"Oh, yes, we know that your life or death hangs upon every instant, and you'll hang yourself pretty soon! Here comes Mr. Watson! hear what he says about it," said James, the ladies' footman.

Watson, the butler, who had been anxiously examining the condition of the baronet, now left the bedside and stood among his fellow-servants, pale as death.

"A physician should instantly be summoned," again began Cassinove

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $20 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

800,000 Shares, Common

1,000,000 Shares, Par Value, $1.00

Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 3,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims of 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 20 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 3 to 15 per cent. copper, $4.00 in gold, and from $1.00 to $3.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—15 carloads or 1,200 tons—every ton of which went over 60.5 per cent. copper, $4.00 in gold, and $4.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1902.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Medell, 250 Markham street, Toronto, Ontario.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $20,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, is proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $11 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $3.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $1 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, securing quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Great Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold have been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application. Price advances to 50 cents on September 1st. INDUSTRIAL AND MINING STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

What Does It Mean?

Dr. Hamilton Gives a Full and Satisfactory Explanation.

Look at your tongue!

Sometimes it's heavily coated sometimes it's clear and red.

Study this out and you'll find some interference with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated.

Strong cathartic pills act so destructively on the intestines as to provoke deathly sickness; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception, they neither gripe, cause sickly feeling or headache, yet they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty. Giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion. It's small wonder that such marvellous results accompany Dr. Hamilton's Pills.

Mr. Geo. O'Hagarty of Amherst, N. S., writes; "Last winter I worked in a lumber camp, and neglected my health I was dreadfully constipated and had a headache that fairly made me reel at times. I was sick and miserable, and hadn't the slightest ambition to work or stir around. I felt heavy and dull and had a bad taste in my mouth. I sent into the city for Dr. Hamilton's Pills, which I knew were good for my condition. They fixed me up very quickly and have kept me in good condition ever since. There are other men in the camp that use Dr. Hamilton's Pills also. They say they wouldn't be without the pills for ten times their price.

Every dealer in the land sells Dr. Hamilton's Pills—25c per box or five boxes for $1.00. By mail from N. C. Polson and Co., Hartford, Conn., U.S. A. and Kingston, Ont.

LOCAL INCIDENTS

By The Times Man on the Street

—Lindsay was well to the front in the splendid display of poultry.

—Yesterday the poultry display was the best ever seen in this city.

—The auto-bus took quite a number of visitors to the Fair yesterday.

—It is estimated that between four and five thousand visitors took in the Fair yesterday.

—Only one pickpocket was even suspected yesterday and P. C. Newhall quickly gathered him in.

—Messrs McCollum Bros., the Water street liverymen yesterday purchased a splendid new hack from Toronto.

—A county fair in a city of 15,000 to 16,000 population, and not a tale of robbery or crooked work tells volumes for the local Fair.

—Yesterday there was a good display of the new fuel, "Pea-." The display made by the Condensed Peat Fuel Co. attracted much attention.

—The gate receipts at yesterday's fall fair were about the same as those of last year. A good showing for a fair that so many citizens predicted, without reason, would be a failure.

—The Peterborough Radial Railway Co. yesterday had a most efficient service and handled the crowds most satisfactorily. Mr. Larmonth understands right down to the ground how to prepare for emergencies.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—Yesterday the local Street Car Company certainly did their duty in handling the crowds with quickness and despatch. Very little delay was caused and all on the cars expressed their opinion as to the promptitude and efficiency of the local street cars.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul, or feverish. It contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike petrolatum. It soothes heals, purifies, controls. Call at our store for free trial box. J.D. Tully

Mr. E. Dingman Physical Director

Well Qualified Man in Charge of Y. M. C. A. Physical Dept.

Mr. Ewart Dingman, of Berlin, has been appointed physical director for the Peterborough Y.M.C.A., and will arrive in the course of a week or ten days to assume his new duties.

Mr. Dingman was appointed to the position at a meeting of the Board of Directors a few days ago, but as he could not get away from his work the directors sent the chairman of the physical committee, Mr. G. L. Galley, to Berlin, to complete arrangements with Mr. Dingman.

Mr. Galley yesterday telegraphed that he had been successful in securing Mr. Dingman's services.

New Church at Chemong

Work has been commenced on the new Methodist church at the Indian village of Chemong. Mr. Quinn of Lakefield, the contractor, has a gang of men at work excavating for the foundation. The structure will be of brick and when completed will be a handsome edifice. It is being built between the old church and the town hall on the same property as the church now used.

It is expected that it will be ready for opening about the end of December, when the event will be suitably observed.

Omemee's Manse Partly Burnt

Yesterday morning shortly after midnight, Omemee had a real live and business like fire which threatened to destroy the Presbyterian manse.

Rev. J. M. Whitelaw and his family were awakened by the smoke and had narrow escapes, most of them getting out in their night robes.

The fire was confined to the kitchen, which was destroyed. The loss will be about $1,500. Insured in the Northern.

Good Meeting in Y. W. C. A.

There was a large turn out of the young women of this city at a meeting held in the Y.W.C.A. building, over which Mrs. (Dr.) Scott presided. After the Bible reading and prayer Mrs. Scott gave a hearty welcome to the girls, and introduced the new secretary, Miss Maycard, who spoke briefly of the need of earnest, prayerful co-operation on the part of all the members to making the Y. W.C.A. a success in every way.

Cummings Bros. In a Good Deal

Former Peterboro' Boys Clean up Good Money in a Timber Deal.

Messrs. J. G. and A. Cummings, sons of the late Matthew Cummings of Peterborough, who resided here until six or seven years ago, and are now located at Fernie, B.C., have recently disposed of some timber claims, clearing $10,000 on the deal. Reporting the transaction the Fernie Free Press says: "A timber deal was consummated this week by which nine claims on Wilson Creek, became the property of Messrs. Cahill and Telford, the Saskatoon capitalists, whose visit to this city was reported in these columns a few weeks ago. Six of these claims were staked by Messrs. J. G. Cummings, P.L.S., and his brother, A. Cummings, a couple of years ago. They are located on Wilson Creek, a tributary to the Elk, on the west side, a couple of miles north of Mitchell Creek. The timber, which is a few miles back from the river, is chiefly spruce, and is estimated to run between eighty and one hundred million feet.

The price paid for the claims is in the neighborhood of $15,000. The new owners regard the property as a good one either for speculation or operation, and they have not yet determined whether they will hold it or put a mill on it and commence manufacturing lumber. Messrs. Cummings are to be congratulated upon their good fortune in making this ready sale.

Burglar and a Pickpocket Caught

Tom Smith, yesterday broke into Mrs. Dunsford's residence on Simcoe street, and stole two bunches of keys, including a post office key, a silver watch, a carving set in case, and an undershirt, cork screw, some silk ribbon, collar buttons and other sundry articles.

The reason for this man's arrest was peddling without a license and the direct cause of suspicion was a post office key found on his person. P. C. Meharry found the man peddling on the market and brought him in skiddo time to the station. It transpires that whilst Mrs. Dunsford is in Europe, she had left the front door locked, but the bolt not shoved to. Smith will be up for trial this morning and be defended by Mr. Gordon.

M. M. Morrison, a pocket picker, was arrested at the Exhibition grounds yesterday afternoon by P. C. Newhall. The officer saw the man first outside the grounds with his arm under his coat, digging into bystanders' pockets. Newhall followed the man into the grounds, and again saw his hand at work taking or trying to take the contents of visitors' pockets. The arrest was made as Morrison was trying to rob several people who were looking at the show given by two negroes, one of whom let any one buying their baseballs for five cents, throw the same at his head as it protruded through a hole in a canvas screen some 20 feet away from the firing line. On Morrison's person were found $16 in bigs, and $1.90 in silver. He will come up for trial today.

Mr. J. Rutherford's Death Noted

Referring to the death of the late Mr. Joseph Rutherford, of Emily, whose death has already been noted in The Times, the Lindsay Post says:—

Very sudden and sad was the death of our most respected resident, Mr Joseph Rutherford, of East Emily aged 67, who went to bed at 10 p.m., and about two hours afterwards life was extinct from heart failure.

The deceased was a brother of Mr. Chas. Rutherford, who with his wife, were killed at Renfrew, about five years ago, and also had a brother who was found dead in the woods some time ago—a mystery. The cause of his death is now supposed to have been heart failure.

The deceased was a very gentle, inoffensive neighbor, and friend, a life long reformer in politics, and a consistent official of the Presbyterian Church. He leaves three daughters and two sons to mourn the loss of a kind father, besides friends at Fenelon Falls and other places.

Local Optionist Has His Rye Stolen.

Last Saturday night a prominent local option advocate from the township of Smith, drove into Lakefield. In his rig was a basket of grapes and a bottle of whiskey. Some one with more thirst than sense of honesty abstracted the bottle of "Oh be joyful," and proceeded to put the accursed stuff out of sight. When the prohibitionist discovered his loss there was blood on the face of the moon. The local optimist accused two men near his rig, of stealing the whiskey. Then it took all the efforts of the bystanders to prevent a scrap. Local optimists caught red-handed with the goods are inconsistent temperance advocates and should not kick when their private liquor supply is stolen.

Madge Graham Worked Hard

Miss Madge Graham of the Oriental Hotel, was one of the most persistent and successful saleswomen on the grounds. Miss Madge, kindly assisting the King's Daughters was here, there, and everywhere, and where she went tickets for meals in the King's Daughters' tents went like snow before a April sun. Miss Madge deserves great credit for the very effective service she rendered the King's Daughters, and is a worthy daughter of a father who himself is always to the front in helping charitable objects.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for woman's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine, especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist if this is not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through druggists for domestic use can show any such professional endorsement. This, of itself, is of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of the alcoholic compounds.

The "Favorite Prescription" cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drain and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal "examinations" are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of customs and mailing only, or $1 cents for a copy in flexible paper covers, or 50 cents for a cloth-bound copy. Address Dr. R. V. Pierce as above.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

SOCIAL AND PERSONAL

—Mr. O. G. Williamson, of Omemee, was a visitor in the city yesterday.

—Mr. and Mrs. T. F. Matthews leave this morning on a ten days' trip to Halifax and eastern cities.

—Mrs. E. H. Bartlett and her sister Miss Ida Shearer attended a wedding in Brampton yesterday, when Miss Lillian Bartlett, was married.

—Messrs. Hughes-Charles and Eardley-Wilmot, the local bank managers, yesterday had their hands full doing all in their power to make the Fair a success.

—Mr. T. O. Rush left yesterday by 5.15 C.P.R. for Toronto, where he was called by the corporation whose interests he represents, and also to complete business matters with some of the leading wholesale houses.

Miss Ella Condon Now Mrs. M. Carey

A pretty wedding took place yesterday morning at St. Joseph's church, Douro, when Miss Ella Condon, daughter of Mr. John R. Condon, of Douro, became the fair bride of Mr. Michael Carey, of Chandos. The ceremony was performed in the presence of a large number of friends by Rev. Father Galvin. The bride was assisted by her cousin, Miss Lottie O'Brien, of Peterborough, and was charmingly attired in a costume of steel grey, trimmed with white, and wore a white hat. The bridesmaid was attired in white. The groom was supported by Mr. John O'Brien, of Chandos.

Last night's reception was given to the happy couple at the home of the bride.

Mr. and Mrs. Carey, who are very popular in the vicinity where they reside, will live in Chandos.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

PRESIDENT.....HENRY H. ROGERS
VICE-PRESIDENT.....F. P. ADDICKS.
SECRETARY-TREASURER.....A. H. MELLIN.

DIRECTORS—A. C. Burrage, Boston; Anson R. Flower, New York; William Rockefeller, New York; Henry H. Rogers, New York; Henry H. Rogers, Jr., New York, James Stillman, New York—many of whom have helped to make Standard Oil the most successful industrial corporation in America, and whose efforts are now concentrated on making Amalgamated

THE PREMIER COPPER COMPANY

in existence.

In point of daily transactions Amalgamated is only exceeded by Union Pacific, a stock which has recently had a most phenomenal enhancement in market value—the dividend rate having been increased to 10 per cent. per annum — an issue on which my advices have been uniformly bullish.

What has taken place in Union Pacific is not only easily possible in Amalgamated, but highly probable as the earnings applicable to distribution in the form of dividends are conservatively estimated at 15 per cent. on an 18c Copper market, a metal in tremendous demand and the price of which is

STILL MOVING UPWARD

The present dividend rate on Amalgamated is 7 per cent., netting the investor, at present market price, something over 6 per cent., so when bought on margin it yields a profit over carrying charges—or, in other words, it more than

PAYS ITS BOARD

My advice to Speculators, Investors and Students of Value at this time is to leave to the other fellow the slow, inactive, dormant issues, the only movement in which too frequently is contrary to expectations, and at once begin accumulating a line of what now ranks second, but which is destined to quickly become

THE MARKET LEADER

My information on this is based on

FACTS OF THE SUREST NATURE

and I am of the firm belief that a further advance in Amalgamated to

120

IS ON THE EVE OF MATERIALIZATION

Buy it and by placing your order with the house of NORRIS P. BRYANT I will undertake to keep you fully informed on

ALL THAT'S DOING

The Bears and those misguided people who are following the prophets of evil and trying to make a killing by being short of this security should cover their short commitments at once—thus a little later avoiding being counted among the number who only too frequently commit

FINANCIAL SUICIDE

by selling that which they do not possess.

The big fortunes are made by those who get into good stocks and stay with them. Disregard temporary fluctuations, as they are inconsequential compared with maximum movements which the really successful people have a faculty of reaping the full benefit of.

The optimists are getting all the money, and as we are in the midst of what promises to develop into the

GREATEST BULL MARKET EVER KNOWN

you will be acting wisely in arraying yourself on the side of the makers of value and begin operations at once.

Amalgamated Copper is the owner of 51 per cent. of Anaconda, the world's greatest Copper Mine, and is my selection for the next big fortune maker.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 229 PETERBOROUGH, ONTARIO, FRIDAY, SEPTEMBER 28, 1906. PRICE TWO CENTS

AGREEMENT WITH THE BELL TELEPHONE CO'Y

Again Discussed by City Council and Company's Solicitor Last Night---No Decision Yet Reached.

The Committee of the Whole City Council met last night, when there were present, his Worship Mayor H. Best, and Aldermen Mason, Wilson, Elliott, Duncan, Graham, Hall, Johnston, McIntyre, McWilliams, Hicks and Tovey.

The council was mainly called together to meet Mr. Lawrence McFarland, of Montreal, solicitor of the Bell Telephone Co., in regard to the telephone company's proposition to bury their wires underground in the business portion of the city.

Mr. McFarland addressed the council, and expressed his previous acquiescence in all the terms of the draft agreement endorsed by the council under which the company might lay their wires underground, excepting the clauses securing to the city all privileges which may be due the municipality by reason of any future legislation governing telephone or power companies, and allowing for an appeal to the Board of Railway Commissioners for Canada on any question that may arise between the company and the city. Incidentally Mr. McFarland pointed out that the underground conduits would cost the company $10,000, and naturally they wished in undertaking such an expenditure to safeguard their interests in every way possible. Mr. McFarland said he had come prepared to give way to the city regarding the disputed clauses, although he thought their phraseology not sufficiently broad in fairness to the company. He submitted an amendment to these clauses, broader in their interpretation, and which he thought should meet the aim of the council also. Mr. McFarland's proposed wording of the last clause of the agreement read, "application should be made to the Board of Railway Commissioners only" as respects of new legislation coming into force respecting telephone companies, or if the company were in default in respect to their agreement with the city, or any other good cause."

The council objected to this reading of the clause as prohibiting the city from appealing to the Board of Railway Commissioners, unless through some breach by the company or some other "good cause." The city based upon a free hand to appeal to the Railway Committee at any time legislation should warrant the city so doing in their own interest.

Another clause ensuring to the city the privileges of any subsequent legislation in its phraseology applied to all the company's service instead of the underground connections only, which are the subject of the controversy. This the company objected to, and was not intended of the city.

This matter was on motion of Ald. Hicks, seconded by Ald. Wilson, referred to the city solicitor, to confer with Mr. McFarland today in an endeavor to arrive at an understanding satisfactory to both the city and the Bell Company.

Normal School Plans are Ready

The Toronto Globe of yesterday says:

"The Globe understands that the plans of the four new normal schools contemplated under this year's educational expansion program are ready for submission to the Cabinet for approval. As soon as this is obtained tenders will be called for and work on the schools will be commenced. Before Christmas it is hoped to have work on the whole four well under way. The schools, it will be remembered are to be located at Hamilton, Stratford, Peterborough and North Bay.

The Legislature at its last session made a preliminary vote of $150,000 for these schools, but as they are to cost $50,000 each an additional grant of $100,000 will be asked at the next session for their completion. This will be exclusive of the amount which the House will be asked to vote next session for other normal schools, the policy of the Government being, it is said, to have at least three more next year, in addition to those now contemplated.

Spellman & Lawless Appeal the Case

Important Judgment Looked for in Local Option Trial.

An appeal has been entered in the High Court against the decision of Police Magistrate Dumble in the case of the Crown against Lawless & Spellman, the Lakefield hotelmen. It will be remembered that a few weeks ago they were fined $100 in the local police court for a breach of the local option by-law. Mr. G. W. Hatton is acting for Lawless & Spellman, and the appeal will come up at Osgoode Hall, Toronto, on October 5th.

The case has been appealed on the ground that it was not within the jurisdiction of the police magistrate of the City of Peterborough. It is contended that the county police court was the proper place for the case to be tried.

This action is one in which great interest centers, and the decision from Toronto will be awaited with great expectancy.

Mr. Cook Writes About the Ponies

(To the Editor of The Times.)

Dear Sir,—In the Peterborough Examiner of Wednesday, appears a statement alleged to have been made by Dr. Johnston, to the effect that his reason for not starting his horses Hazel Bell, Miss Bell and Harry Direct, in the local races was that my horse, Miss Paisley, was entered. Now, before rushing into print about me and my horse, the doctor would do well to tell the real story of the race. At the Lindsay Fair the doctor ran Hazel Bell against my horse, as he also did at Kinmount.

Why does the doctor get so virtuous all of a sudden? Was his reason for not starting stated in the Examiner or because he did not want to lose his money? Was it not a little weakness in speed?

Yours truly,
H. A. COOK.

The Roller Rink Was Crowded

Peterboro's Most Recent Amusement Has Caught the Public's Whim.

About eight o'clock last night some surprise was caused by a detachment of the 57th Regt. Band, under Sergt Granger, marching down George street; however, it was soon learned that their destination was the roller skating rink where they played all evening. The rink quickly filled up with both onlookers and skaters.

The new roller rink last night rented their full complement of skates, 250 pairs, and had to deny over one hundred eager applicants for skates. The Peterborough Roller Skate Co. will, however, soon have several hundred more pairs of skates to accommodate customers. The galleries were well filled with spectators who thoroughly enjoyed the sport of watching the skaters, especially the new beginners.

To those who were present at the opening of the old roller skating rink that formerly was operated on Water street, it was most surprising the few falls that occurred last night. With from 200 to 250 people continuously on the rink there were not more than perhaps ten falls during the whole evening. The floor laid in birch lumber, some 9,000 square feet of the same laid on cedar sleepers, planted in sand, did no make one half the roar and noise that usually is heard in such places of amusements.

The rink was prettily decorated with flags and in a few days, as soon as such can be procured, there will be a lot of bunting added to the decorations. The floor of the new rink is beyond all doubt the best of its kind in Canada. Every board whilst being only two inches in width is tongued and grooved, both at the sides and ends, thus making a practically continuous and even sheet of skating surface without a crack or uneven surface.

Arrangements have been made whereby Mr. J. W. Henderson, and Mr. R. Agnew of Toronto, will be floor managers, and will be on hand mornings and afternoons, as well as evenings, and will be glad to give instructions.

It is proposed to have skating contests and, every evening a grand march at nine o'clock.

The skates supplied have ball bearing wheels and the back pair is placed so as to do away with the old fashioned ones is rendered practically impossible. The wheels are placed over rubber cushions, thus stopping all jar to the skater. The company have purchased and yesterday unpacked 250 pairs of skates. Coats, hats and other articles of wear will be checked for.

One thing that the company is determined on and clearly demonstrated last night is that the local roller skating rink will and shall be strictly high class. No smoking, loud talk, profane language or other objectionable feature will be allowed for one moment. The roller rink will be run so that even any little or big girl will be safe and well protected as though in a church.

Judging by last night's patronage the roller skating rink will be the drawing card of the city.

Mrs. Jas. Armstrong Passes Away

Another of our old and respected citizens in the person of Mrs. Ann Jane Armstrong, on Wednesday night passed away at the home of her daughter, Mrs. J. E. Davidson, 563 Aylmer street. Mrs. Armstrong was 84 years of age and had from childhood lived in Otonabee, until some 18 years ago, when she and her late husband moved to the East Ward, and later she made her home with her daughter, Mrs. Davidson.

The deceased was born in Ireland in 1822, and when quite young with her parents settled in the township of Otonabee.

The deceased was a member of the Methodist Church, and was a prominent worker in different branches of the church's work. Of late years her old age had prevented her from taking an active part.

Mrs. Armstrong is survived by two sons and one daughter. The sons are Thomas James, of Toronto, and J. H. S., of Olds, Alta. Mrs. Davidson is the only daughter.

The funeral will take place today at two o'clock, to Little Lake cemetery.

OBITUARY

Infant Son of Mr. and Mrs. J. J. Hickey Passes Away.

Thomas James Hickey, infant son of Mr. and Mrs. J. J. Hickey, 129 Elm street, died yesterday morning. The child was only four days old.

MRS. D. COUGHLIN, OPS.

The many friends of Mrs. D. Coughlin, of West Ops, will learn with deepest regret that she passed away on Thursday the 13th inst. Some months ago, the deceased lady received a stroke of paralysis which brought about her demise.

Mrs. Coughlin was born in the County Kerry, Ireland, in the year 1844. In 1851, with her parents, she emigrated to Canada, settling in the township of Clarke, where her father located a homestead. In April, 1868, she married Mr. Dennis Coughlin of this place, and in 1881 with her husband and family removed to Ops, township, where Mr. Coughlin lately purchased a magnificent farm near the town of Lindsay.

Smithtown Farmer Loses About $2

Yesterday afternoon in the Windsor Hotel, several local citizens were talking with a Smithtown farmer. They were telling how the farming community were making big profits etc. The farmer, like a few of his class, was disclaiming any prosperity in his line of business. "Why," he exclaimed, "look at corn, I only got 34 cents for a load brought to town yesterday."

One of the local men present assured him that the American Cereal Co. paid 36c. Yesterday. It is impossible in cold type to give proper emphasis and expression to the word "What!" When the farmer heard the price he had missed. He simply jumped a foot in the air, and fairly yelled, "What did I lose two cents a bushel on those 85 bushels!" It took some trouble to get his nervous system to normal condition.

SUBSCRIBE FOR THE TIMES.

POLICE NEWS

Daily Happenings in Court Room and Station.

At yesterday's court the young man, M. M. Morrison, charged with attempting to pick pockets at the Fair, as noted in yesterday's issue, was up for trial. Morrison was remanded until Thursday.

Mr. Gordon, who appeared for the accused asked "What bail will you allow the prisoner out on?"

"$500," remarked his worship.

"This man is a stranger in this city," remarked Mr. Gordon.

"Evidently," replied the magistrate.

As noted in yesterday's issue of The Times, the man Frank Smith, arrested Wednesday by P. C. McDarry for peddling without a license, and who by a bunch of keys found on his person, was identified as the burglar of Mrs. Clara Dunsford's house, 113 Simcoe street, was on trial at yesterday's session of the police court.

Smith pleaded guilty to breaking into the residence of Mrs. Dunsford and stealing the following articles—A carving set, a silver watch and case, a bunch of keys, a pair of gloves, a shirt, a fancy glass bowl, ribbon and a number of other articles.

The chief asked that judgment be reserved in this case for a week, to which the magistrate consented.

Smith informed the police that his home was in Toronto, and his worship remarked, "We'll send you back there," after intimating that his sentence would be, at least six months.

At yesterday's session of the police court, David McKnight, a Cavan agriculturist, was accused of being d. and d. David, in reply to a question by the magistrate, said, "Well if I'm fined I guess I'll have to put up." The sum assessed was placed at $2, without costs. As David did not have this sum left in his jeans he had to retire to the shady seclusion of cell No. 2.

Yesterday afternoon, P. C. Newbell "pinched" two York street Toronto Jews, who were peddling pongee silks on Brock street. They were fined at a special session of the police court in the sum of "one quid," each, which was paid.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

RUGBY.

"Biddy" Barr will referee the Peterborough vs. Victoria game tomorrow on Varsity campus.

* * * *

Last night a good work out of the Rugby club members was held at Brock street rink. Much interest was taken in this practice, it being the final one before the game with the Victorias on Varsity field, Saturday afternoon. The general public was denied admission.

* * * *

BASKETBALL.

A meeting of the Alert Basketball Club will be held at the Y.M.C.A. tomorrow evening for the purpose of reorganizing for the season. The Alerts won the city championship last year and are determined to win again this season. It is expected that there will be a large attendance at the meeting tomorrow.

* * * *

RUNNING.

The main feature of the Collegiate Institute annual sports, is their cross country race, which will be pulled off this afternoon. This is somewhat earlier than usual, but by so doing the sports are spread over a greater time. There are races for both senior and junior over the same route. A boy under 15 years on 1st of September, is eligible to enter the junior race. All others will only be allowed to enter the senior race. The senior race, will be started at 4.30 o'clock, while the juniors will start at 4.35. The route for the race is:—

Start at the corner of Murray and Water.

2. Cross the creek by the McDonnel street bridge.
3. Recross the creek by the Smith street bridge.
4. Turn at the corner of Smith and Water.
5. Return to the starting point.

Czar Being Well Protected.

London, September 27.—A despatch from Copenhagen says that information has been received from Helsingfors, Finland, that a Russian squadron is escorting the yacht Standart, on which the Czar and his family are making a cruise, giving the excursion a war-like appearance. The newspapers compare the squadron with Admiral Rojestvensky's armada. The Standart is surrounded day and night by torpedo boats. At night every passing vessel is closely investigated with searchlights.

Nevada the County of Gold

Rare Chance for Investment is an Assured Paying Gold Mine.

Nevada the wonderful producer of gold, silver and other metals is known by experts to contain deposits of gold that far exceed those of any other State in the Union. One thing that has somewhat handicapped the successful carrying on of many of even the richest mines, has been the expense of transportation. Now that railroads are being opened up all through the State, the mining industry will be more lucrative than ever.

The richest section of Nevada is acknowledged by all to be that surrounding Goldfield. Many new mines are being opened up to the southwest of Goldfield and among these two of the most promising are now being handled by Messrs. Lewis and Severance, the well-known and responsible fiscal agents of Los Angeles, Cal.

The properties they are now advertising are being developed by the Goldfield Tunnel and Mining Company, and are the Jessie Tunnel, a gold mine already on 375 feet, which leads to veins already proven to be rich in gold and silver and the Louve company are prospecting the Calumet and Nevada, a copper mine that already has a shaft sunk some 70 feet on a ledge which shows on assay per average of $40 per ton. The Calumet and Nevada claim is one of the richest in the State, an assay from one ledge alone having assayed as high as $96 per ton in copper.

Now these claims are not prospects but proven mines, and the fact of their being advertised does not mean merely a stock flotation, but that a legitimate mine development is brought before the public to secure funds for further increased facilities in operating these splendid properties. For a limited time only stock with a par value of $1 per share can be purchased at 25 cents per share as per ad. in another column. For full particulars write Messrs. Lewis & Severance, 320 H.W. Hellman Building, Los Angeles, Cal. A good local agent is wanted to handle this stock on commission.

WILL STAND BY CARNEGIE

Dunlop Tire Company Adopts the New Spelling in its Advertising.

Toronto, September 24—Andrew Carnegie's reformed spelling movement has made its first gain in Canada. The Dunlop Tire and Rubber Goods Company has adopted the rules proposed by the Simplified Spelling board, and all Dunlop advertising is now spelled in the new way. Those who are interested in what the big rubber company has to say about its goods will read how bicycle and automobile tires are "attacht" and "detacht," and that Dunlop rubber heels are "fixt" to the shoes.

If the Dunlop Company applies the simplified spelling in all its advertising and commercial literature the spelling reformers will secure considerable publicity in this country. The company advertises extensively through out Canada, and has branch houses from Vancouver to Prince Edward Island.

Irish Member For Canada

Ottawa, September 24—It is stated that Mr. Chas. Devlin, member for Galway, is about to resign his seat in the Imperial house, and that he will not return to Britain. It is said that Mr. Devlin will re-enter Canadian politics. The member for Galway was met as he was returning from an interview with Sir Wilfrid Laurier, and questioned regarding the statements referred to. Mr. Devlin was very polite and willing to talk upon every subject but his own plans. As to these he was evasive, but the interview drew the inference that before very long Mr. Devlin's voice would be heard once more at the sittings of the Canadian house.

Campbellford Fair Was Good

Yesterday the Campbellford fair fair was attended by several thousand people including many from this city. The exhibits were of a superior class.

THE RACES.

In the free for all, for $120, the results were as follows.

Hazel Bell, Dr. Johnston 1
Harry Direct, Harry Nesbit ... 2
Lady Gothard, Mr. Connors ... 3

The best time in this race was 2.21 1-4, a record for the track.

2.40 class;

Powell ... 1
May Bell, Dr. Johnston ... 2
Powell's stallion did his in 2.35.

SOUTHERN STATES EXPERIENCED TERRIFIC STORM

Tide Drives on Shore to an Unusual Height ---Wind Moved at a Velocity of Forty-Eight Miles an Hour.

New Orleans, Sept. 28.—For more than twelve hours a tropical hurrican has been blowing at a speed varying from 35 to 60 miles an hour.

The damage reported thus far is confined mostly to the havoc of the tide driven by the wind upon the gulf coast to an unusual height.

At the mouth of the Mississippi River pilots were compelled to abandon their tows.

Seventy-five Austrian fishermen and their families spent the night in boats on Bouliua canal to escape the water, which is rising over the lower Mississippi delta and threatening their cabins.

The rice fields are considerably damaged in this section.

No vessels have attempted to enter at the mouth of the Mississippi since Tuesday night, but are riding the storm in the open gulf.

A washout is reported on the Louisville & Nashville at Lake Catherine, and the New Orleans & Northeastern Railway reports its tracks under water at several places.

The damage in New Orleans is small so far. Lake Pontchartrain is five feet above the normal. The wind has swept away a few of the fishing shacks.

Three barges were sunk in the Mississippi River at South Port, above here.

Squandered Money on a Woman

Montreal, Sept. 28.—It is pretty well admitted in this city among the friends of J. S. Cather, defaulting teller of the Bank of British North America, that the man's downfall is due to the money squandered upon a woman who is now residing in New York City, and the police of that center are now on the lookout for her, anticipating that not far away she will be found.

It is generally admitted among the bank's officials that the shortage may be considerably upward of $25,000, a portion of which is guaranteed by a British guarantee company.

Cather is an Irishman by birth, coming out to Canada some years ago from Ireland, where he was employed in the Bank of Ireland.

PARIS TO OBSERVE SUNDAY

Movement is Gradually Gaining Ground.

Paris, September 27.—A strange metamorphosis seems to be coming over "gay Paris" in the way of Sunday observance. The papers, which up to the present time have ridiculed the possibility of Paris tolerating a Saxon Sunday, are gradually deviating in their opinions. Last Sunday many of the stores which have hitherto kept open on Sunday were closed and representatives of the working people made demonstrations before the stores remaining open. The entertainment committee trying to induce them to close used the cry of "Close in the name of the law."

SUSPECT AMERICAN YACHT

Thought It Is Trying to Smuggle Chinese.

Halifax, N. S., September 27.—A St. John's, Nfld., despatch says: An American yacht, claiming to hail from New York, left Placentia Saturday, having aboard fourteen Chinamen, who it is supposed she is trying to smuggle into Canadian or American ports. The colonial cruiser Neptune has been despatched in quest of her and has been instructed to seize her for alleged violation of the colonial laws in embarking passengers without a permit. This is the third yacht in these waters during the present summer to be suspected of this practice.

Import Scotch Laborers.

Quebec, September 28.—One hundred and fifty Scotch laborers who arrived here Monday night by the Donaldson line steamer Athenian, left by special train over the Quebec & Lake St. John Railway yesterday for La Tuque, on the St. Maurice, where they are engaged to work on the main line of the Transcontinental Railway. The La Tuque branch of the Lake St. John Railway will enable material and supplies to be forwarded for the work both east and west on the line of the Grand Trunk Pacific Railway. The Scotchmen who left for La Tuque yesterday are the first contingent of Scotch laborers imported for work on the railway, but others are expected to follow.

Troops and Rebels Fight at Baku.

Baku, trans-Caucasia, September 28.—There was an encounter between troops and revolutionists here yesterday in two restaurants frequented by terrorists. The troops, while attempting to search the buildings, were met by a revolver fire, which they answered with rifles, the fire lasting half an hour. The inhabitants today are in a state of panic, fearing that a renewal of the encounter may precipitate another racial rising.

Uprising in Southern Nigeria.

Lagos, West Africa, September 28.—In an uprising in Benin, South Nigeria, two Europeans have been killed. The British have had considerable trouble lately on account of the machinations of a native society called the "Silent Ones," the business of which is to excite the natives to rebellion.

Carried Policy for $10,000.

Ottawa, September 28.—Mrs. A. Beckett, believed to have perished in the Gilmour fire, carried a policy of insurance in the Equitable Life for $10,000. Messrs. Cavanhill & Kissock, of Montreal, wholesale milliners, are beneficiaries, together with Mr. C. W. Mitchell of this city, now on his way to England.

Rushing Troops From Philippines

Tokyo, September 26.—The American transport Logan has arrived at Nagasaki with 900 soldiers aboard from the Philippines with hurry orders to sail for San Francisco tomorrow. It is also rumored in Nagasaki that the troops in the Philippines are being partially mobilized for service in Cuba.

The Tokumin Shumbun says that the final solution of the Cuban imbroglio can only be annexation. Considering the geographical proximity and the political and economic relationship of the Island to the United States, the paper wonders why the Americans refrained from annexing it in 1898.

ATTEMPT ON BANKER'S LIFE

Somebody Sent an Infernal Machine to Jacob Schiff.

Philadelphia, September 27.—An infernal machine addressed to Jacob Schiff, a New York banker, was picked up on the street here today by a colored boy, who gave the package to a postman. The latter carried it to a sub-station and deposited it with the out-going mail. Supt. J. C. McKnight noticed that the wrapper was torn, and while handling it, he observed a grain of powder which fell from the box, and he immediately threw the package into a pail of water. Later it was examined and found to be an infernal machine of the most deadly character.

Tunnel to Begin at Windsor.

Windsor, September 28.—An application made by the Michigan Central Tunnel Company to the city council last night, asking for the use of current from the city for night work on shafts to be sunk on this side of the river, on which work is to be carried on day and night, indicate that the real work of construction of the tunnel will be begun on this side within a short time. A large amount of the preliminary work has already begun company's property.

Turkey Moves Forces.

Salonica, September 27.—Forty thousand troops will be stationed along the Bulgarian frontier in the direction of Palanka, with headquarters at Istib, ostensibly for manoeuvres. Another army corps will concentrate at Dammaibala, and three battalions of artillery will be sent to Merres.

Policeman Shot by Drunken Man.

Fort William, September 28.—Policeman Miller was shot by a drunken man whom he was arresting at Westport, the bullet going through his right side and inflicting a painful but not dangerous wound. The would-be murderer is now locked up awaiting trial.

COFFEE WAS IT

People Slowly Learn the Facts.

"All my life I have been such a slave to coffee that the very aroma of it was enought to set my nerves quivering.

"I kept gradually losing my health but I used to say 'nonsense' it don't hurt me. Slowly I was forced to admit the truth and the final result was that my whole nervous force was shattered.

"My heart became weak and uncertain in its action and that frightened me. Finally my physician told me, about a year ago, that I must stop drinking coffee or I could never expect to be well again.

"I was in despair for the very thought of the medicines I had tried so many times nauseated me. Of course I thought of Postum but could hardly bring myself to give up the coffee. Finally I concluded that I owed it to myself to give Postum a trial. So I got a package and carefully followed the directions, and what a delicious, nourishing, rich drink it was. Do you know I found it very easy to shift from the coffee to Postum and not mind the change at all. Almost immediately after I made the change I found myself better and as the days went by I kept on improving. My nerves grew sound and steady. I slept well and felt strong and well balanced all the time. Now I am completely cured, with the old nervousness and sickness all gone. In every way I am well once more." Name given by Postum Co., Battle Creek, Mich.

It pays to give up the drink that acts on some like a poison, for health is the greatest fortune one can have.

"There's a reason."

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gold, of Bowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, SEPTEMBER 27 1906

A BRITISH VIEW OF GERMANY

The London Spectator has some plain spoken comment on an article in the September number of the "Deutsche Revue," which shows very clearly the position of what may be called the moderate minds in Britain towards Germany. The article in the "Deutsche Revue" is said to have been inspired by Prince Bulow, and, amidst much diplomatic politeness of phrase, it puts before Britain the alternative of a purely Anglo-French alliance, "which might easily become disastrous," or of the inclusion of Germany in this circle of friendships.

"The menacing tone of the alternative," says The Spectator, "is enhanced" by other phrases in the article which assert that the object of French diplomacy is to hem in Germany with a view to "bringing about her defeat diplomatic and military," and which state that "a year ago the belief did exist in Germany that our relations with England were in a stage analogous to the relations of Prussia with Austria, before 1866, and that in all probability a cordial understanding would have to be preceded by a sharp encounter." The writer says that this feeling is now past; but The Spectator insists that "in spite of this curious assurance, we are bound to say that the reference to Austria is not a little alarming. Austria was undoubtedly forced into a German alliance by her defeat at Sadowa, and Prussia succeeded in actually carrying out the threat to be my brother, or I will slay you! In addition to these more open menaces, there runs throughout the article the warning that Germany will not tolerate our making friends with Russia unless 'our negotiations' are settled to the satisfaction of Germany."

To all this The Spectator's reply is clear and resolute. "We all desire intensely a better understanding with Germany," it says, "but if that understanding can only be purchased by a modification of our present relations with France, we must tell Germany, as politely as possible, that we do not propose to budge an inch." Nor is there anything unreasonable in this position. Britain has certainly a perfect right to choose her national friendships where she pleases, and she is not bound to accept dictation on this point from Berlin or any other capital. If it be objected that Berlin is not alarmed at friendship with France, but at hostility toard herself, the answer is that friendship with France is not intended to be a display of hostility toward Germany, and that the only possible reason for regarding it as such arises out of the Morocco incident, when Germany made a patent effort to drive a wedge between these two new friends.

The Spectator puts the position in a nutshell very neatly. It says that, in the last resort, Germany's claim amounts to this: "Antagonism between Britain and France was a most valuable asset in Germany's European policy. By putting an end to that antagonism France and Britain have deprived Germany of that asset, and thus done her a grievous injury. Accordingly, they must find some means of compensating Germany, and of restoring to her the privileged position which she formerly occupied. It is the special business of Britain, it is implied, to provide this compensation, and if she does not, the consequences to her may be disastrous. What is to be the exact form of the compensation is not specified, but it is, apparently, that our relations with France must in some way or other be made less cordial.

The truth of the matter is that Germany, like all other powers, must be satisfied with the existing national boundaries in Europe. If the friends of peace are to stand for anything, they should certainly take their stand on the position that the Continent which is the centre of civilization shall not again be torn by a war of conquest. France is in the position of the power which last suffered from mutilation; and yet it is not France today which is expected to endeavor to upset the nicely adjusted balance that now obtains. Certainly Germany is the last power which should be discontented—Germany which leaped into Imperial splendor only thirty-five years ago, and began with adding to itself two French provinces.

If Germany has no aggressive plans, what possible objection can she have to a close Anglo-French "entente?" France and Britain would never think of attacking Germany; if for no other reason, for the important reason that Britain has no army of the continental sort to send to the help of France. But if Germany contemplates the absorption of Austria and Holland, then Britain and France are bound to stand together in a defensive alliance if they hope to maintain their essential independence.

More Indignities at the American Border

Detroit, Mich., Sept. 26.—The new law which puts directly under Federal control the process of making citizens is a more toward consistent naturalization laws takes effect next Saturday, September 29th, at every port of entry in the United States.

Along the border of Canada and Mexico it will mean a lot of extra work for the immigration inspectors. Heretofore a Canadian, for instance, has never been subjected to an examination of any kind, unless his condition, physical or financial, was bad enough to attract attention. Under the new law it will be compulsory for him to undergo the examination, providing he ever expects to become a naturalized citizen of the United States. The questions asked relate to his place of birth, the date, his business and his personality. The examination does not in any way displace the declaration of intention, commonly referred to as "First papers," but it is essential to naturalized citizenship.

Attache May Be Appointed

Ottawa, September 27.—There is a probability that at next session of parliament an arrangement will be made for the appointment of a Canadian attache to the British embassy at Washington. President Roosevelt threw out the idea at a very opportune moment and the matter is favorably viewed in certain official quarters here. The press appears to be almost unanimous in favor of the proposition. It is learned on pretty good authority that the British government would not object to a Canadian representative at Washington.

The Signs of Heart Trouble

You can Surely Secure Heart Health and Strength through Dr. Shoop's Restorative.

Heart weakness which can be dealt with at all is nerve weakness. Just as your hand trembles when its nerves are weak, when your heart nerves are weak your heart flutters and palpitates. Other signs are shortness of breath after slight exercise; fainting spells; pain or tenderness about the heart caused by irregular heart action; shooting sensation as if the heart was in the throat; uneasy sensation in the chest, showing that the heart isn't working right; pain when you lie on one side—usually the left side, but frequently the right, painful and difficult breathing; smothered feeling. There is absolutely one way to strengthen a weak heart. That is to bring back natural and permanent strength to the nerves. Can you imagine how anything else can be done? Dr. Shoop's Restorative will bring back the strength to the heart nerves always. There is nothing in this remedy to stimulate; nothing that leads to reaction. The strength that it gives is natural and permanent. It is just the same strength as Nature gives to those who are well. Dr. Shoop's Restorative creates strength which extends over the whole inside nerve system—it overcomes the cause of the trouble as well as the result. For sale and recommended by

J. D. TULLY.

New Hair

Ayer's Hair Vigor makes the hair grow because it is a hair-food. Feed the hair-bulbs, and the hair grows. That's nature's way, and that is all there is to it. Strong and healthy hair stays in, keeps soft and smooth, and grows thick and heavy. Then aid nature with Ayer's Hair Vigor. A little of it often does great things. There's genuine comfort in a handsome head of hair!

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful cource of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 130 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,

Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

anxiously to say, when the butler gravely interrupted him.

"Mr. Cassinove, no physician can bring the dead to life, and my master, Sir Vincent Lester, is quite dead; but, for all that, I will send for one. James, you go at once, and rouse up Dr. Clark, and tell him what has happened, and ask him to please to come at once. He will know what is best to be done, and how to tell my lady. And then, James, when—when you have told the doctor, go to Bow street and bring a pair of policemen. And mind, James, that you do not say one word to any one else as to what has occurred in this house until you are required to do so."

James was about to start upon his errand, when Cassinove starting forward, said:

"Send the footman at once to Bow street. I will go myself for the family physician."

"No, you don't, though! no, you don't!" cried one of the servants, intercepting him.

"We should never see the sight of your face again if we were green enough to let you go!" exclaimed another, joining the opposition.

"What is the meaning of all this? Has horror deprived you of your senses?" inquired Cassinove, looking in amazement from one to another, and reading only abhorrence upon every face.

"I am afraid, Mr. Cassinove, that we must not let you leave the room," said the butler, gravely.

"Not let me leave the room! What do you mean, fellow?" questioned Cassinove, indignantly.

"I am afraid, sir, we dare not do it," persisted the butler.

"Explain yourself!" peremptorily demanded Cassinove.

"The circumstances, sir! the circumstances!"

"What circumstances, fellow?"

"The circumstances we found you in when we burst into the room at the cries of murder, sir; our master murdered, and dying, weltering in his blood; you standing over him with the dripping dagger in your hand," said the butler, shuddering with horror at the recollection.

Young Cassinove turned ghastly white, reeled, and dropped into the nearest seat, struck for the first time by the overwhelming force of the circumstantial evidence against himself. Then recovering, with a great effort, and wiping the drops of agony from his brow, he gasped forth the words:

"But I had rushed at the first cry for help to the assistance of Sir Vincent; I had been, as usual, reading late in the study, as is my custom, when I heard the cry of 'murder' from Sir Vincent's room. I sprang up, and rushed in at once; as I ran along the hall, I thought a figure rushed past me in the opposite direction, but I hurried on, and was the first to enter Sir Vincent's room. I found him in the first spasm of the wound; I raised him in my arms, and drew out the poniard; he clutched me in his dying agony, and cried, a little wildly and incoherently, 'Pursue him! pursue him!' and the next instant the room was filled with you all as it is now."

"Yes, Mr. Cassinove, that sounds fair and reasonable enough, and I hope it may be as you say, and may do you good with the magistrate, but the last words of my master, Mr. Cassinove—the last words of my master."

"Well—what were they? I was so overwhelmed with horror that I did not distinctly hear them."

"They accused you as his murderer, Mr. Cassinove."

"Never! never!" cried Ferdinand Cassinove.

"Yes, sir; I am sorry to say they did. Think of it. Oh, it was horrible, sir! It chills my very heart to think of it now. Recollect the circumstances, sir. You were standing over him with the reeking dagger in your hand. He had you by the collar in his dying grasp, and with his dying lips he said:

"'He has murdered me—he, he, the wretch!'"

"But I was there to save him. He clutched me only in his mortal death-throes. His wild words referred only to the wretch who really did assassinate him, and not to me," explained Cassinove, in consternation at the increasing force of the fatal circumstantial evidence.

"It all sounds quite reasonable, Mr. Cassinove, sir, and I hope it may prove true; but that will be for his worship, the magistrate, to judge of, and not for me. Meantime, it is our duty to keep you here until the police come," replied the butler, gravely.

Cassinove covered his face with his hands, and sank groaning into his seat.

Scarcely a moment had he sat thus with his face buried in his hands when he felt a light touch upon his shoulder, and heard a gentle voice at his ear, murmuring softly:

"Take courage; you are guiltless, and your innocence will be made clear."

He looked up, and saw Laura Elmer, pale but firm, standing by his side.

CHAPTER XXV.

Cassinove was about to reply, but was interrupted by the hasty and agitated arrival of the family physician, and the return of the footman accompanied by the Bow street officers.

The circumstances of the discovery of the dreadful tragedy were required and detailed. The butler being the spokesman of the assembled household, related that they had been roused from their sleep by cries of murder that were soon smothered and drowned; that they had hurried in alarm to Sir Vincent's chamber, whence the cries proceeded, and where they found their master wounded and dying, yet clutching with his dying hand the collar of Ferdinand Cassinove, who stood over him, reeking dagger in hand, and accusing with his dying lips the same Ferdinand Cassinove of his murder.

The coroner was then summoned, and, accompanied by two magistrates, he hastened to the scene of the tragedy. After the most careful investigation of the circumstances, and a thorough sifting of the evidence, they brought in their verdict:

"Sir Vincent Lester came to his death on the morning of the first of October, between two and three o'clock, by a wound inflicted with a dagger, in the left ventricle of the heart, by the hands of Ferdinand Cassinove."

And Ferdinand Cassinove was fully committed to Newgate upon the charge of willful murder.

A feeling of delicacy toward Laura Elmer, who had not been present at the coroner's inquest, restrained him from asking to see her before he was taken away.

But Laura, in her distant chamber, had heard from the excited talk of the servants the verdict of the coroner's inquest, and she went down and waited in the hall until Cassinove passed along in custody of the officers. Then she went and gave him her hand, saying:

"Be comforted, Mr. Cassinove; I know that you are guiltless of this charge, and at the day of trial the world shall know it, too. I will employ all the faculties that God has given me in your service; and perhaps the mental acumen of a deeply interested woman may be more than equal to the experience of a detective policeman. I have strong hope."

"Miss Elmer, your unshaken confidence in me is, at this hour, my greatest earthly comfort and support. May God bless you!" replied Cassinove, with deep emotion.

"I will be with you again in the course of the day. The poor bereaved children of this house must be comforted and soothed as soon as they awake to the bitter knowledge of their loss. As soon as that duty is performed, I will visit and consult further with you, Good-by."

Motor Boat Goes 50 Miles an Hour

Paris, September 27.—A new motor boat, which in its speed tests travelled from forty to fifty miles an hour, is described by The Journal today.

In shape it is more like a small whale than anything else, for its bows are blunt and it tapers gradually from bow to stern. Its rudder too, is horizontal, like the flukes of a whale.

The vessel is about twenty-eight feet long and has a motor of 80 horse-power.

—A present with every twenty-five cent. purchase of school books at Times Bookstore.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 20, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

800,000 Shares, Common

1,000,000 Shares, Par Value, $1.00

Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 3,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (600 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut veins at "the richest mines in" the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Lax-ets 5 c Sweet to Eat
A Candy Bowel Laxative

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims of 160 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 90 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—12 carloads or 1,200 tons—every ton of which went over 40.5 per cent copper, $5.00 in gold, and $100 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 250 Markham street, Toronto, Ontario.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Company

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS

We have men at work on our property now, and already have a large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00; $26,000.00 of Preferred Stock and $24,000.00 of Common Stock. Common Stock is pooled and can not be sold until the Association is on a dividend-paying basis, thus eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued:—"This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 30 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 30 to 50 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 30 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

A GOOD CANADIAN REPRESENTATIVE WANTED

Improve Your Complexion

Give Up Cosmetics and Seek the Cause of Your Bad Color.

When it's so easy to bring back the bloom of youth, to remove the blemishes and fill the hollows, isn't it foolish to plaster on cosmetics?

Sallowed skin and fallen in cheeks are produced by disorders of the alimentary canal.

Remove the cause—correct the condition that keeps you from looking as you ought. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of.

Just imagine how much happier you will feel when those pimples and murky look have gone.

Dainty looks came to Miss Vrooman, a well-known resident of Belfast, from using Dr. Hamilton's Pills. Read what she says:

"My friends all admit that I have a very delightful complexion. This I owe positively to Dr. Hamilton's Pills I used to look so yellow I thought it might be jaundice. There was simply no color in my cheeks at all. Today my skin is clear and never gets that murky, dull appearance it had before. Dr. Hamilton's Pills have also given me a good appetite and improved my general health also."

Not only the complexion, but every organ of the body is strengthened, cleansed and made healthy by Dr. Hamilton's Pills. Buoyancy, vim and a feeling of vigor invariably follow their use. Sold in yellow boxes by all dealers; 25c. per box or five boxes for $1.00, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

At once, two maids and one cook, at Nicholls Hospital.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

Things Lively at T. A. S. Rooms.

There is good live action at the T. A.S. rooms where preparations are being made for the fall and winter season. The billiard tables are being put in shape and will be ready in a few days. The membership of the society is now the largest in its history, and the outlook for a profitable and enjoyable fall and winter season, was never brighter.

A Plea For Rice Lake Rice.

Mr. Bonnycastle Dale, of Gore's Landing, makes a plea for the preservation of the wild rice and duck. He claims the high water has destroyed the rice crop and the wild duck will have to seek other abodes than Rice Lake. If the water in the lake is kept at the same level as it has been during the past two years, the rice will be destroyed.

East Ward Drug Store Sold.

Mr. J. S. Lang, proprietor of the East Ward drug store, has sold out his flourishing business to Mr. Albert J. Tovey, son of the worthy city father of that ilk. Mr. Tovey, the new proprietor is a thoroughly experienced and qualified druggist, who after working some time with Mr. H. Edmison on George street, has managed a large drug store in Cobourg.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
[342 Water Street
or P. O. Box 831, city.

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.
Call at the College or address

WM PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—An official statement of the fair's finances cannot be obtained until today.

—Regular meeting of The City Council will be held on Monday evening, Oct. 1st.

—The Finance Committee meet this evening to pass accounts before the council meeting.

—The Bobcaygeon Fair will be held today. A number from Peterborough will attend.

—The automobile was a rare combination with the street cars for Wednesday's Fair trade.

—The receipts at the Peterborough Fall Fair gate and grand stand amounted to nearly $1,000.

—The Quaker Oats exhibit at the Fall Fair, had some silverware, a knife, fork and spoon stolen.

—Service preparatory to communion will be held in St. Andrew's church this evening at 8 o'clock.

—Yesterday the various livery stables were served with copies of the new bylaw regarding such business.

—Mr. F. D. Moore, of Lindsay, has been appointed crown prosecutor at the Peterborough fall assizes which open on October 8th.

—Yesterday the fair grounds were deserted (Tents, horses, cattle, sheep, swine, poultry, fancy work, etc. have all been taken away.

—The street railway company on Wednesday carried 7,000 passengers to and from the exhibition. This is not up to last year's record.

—The Park street Baptist Committee of Arrangements are busily engaged these days getting ready for the coming swarm of delegates.

—Messrs. Pat. Cunan, A. Dunn and Chas. Nixon took in the Campbellford Fair yesterday. We understand they took a chance on Lady Gothard.

—The joint I.O.O.F. committee to make arrangements for the organization of a Rebekah Lodge, met in the I.O.O.F. Hall yesterday evening.

—The Fire, Water and Light Committee will meet tonight to prepare a report on the new system of street lighting, to present to the council on Monday night.

—A local contemporary, in large display type spells Lindsay—"Linsey." Has their staff been imbibing the exhilarating waters of the placid, sump bordered Scugog River?

—The next meeting of the Mothers' Guild of St. Luke's church will be held this afternoon at three o'clock. As this is the first meeting of the fall season, a large attendance is requested.

—Lindsay had eight drunk and disorderly cases during their fair. Peterborough with three times the population had one. That Scugog water must be strong. Possibly the stumps in that river "put a stick" into the water.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—Mr. M. C. Tooley and Mr. Harry Thompson, last night put on roller skates at the roller rink. When Harry got into a mix-up there were skaters four deep about, round, over and still piling on him. These feather-weight exponents of the art, gave a most graceful exhibition of roller skating.

Miss Daisy Mills Entertains.

Yesterday afternoon a very pleasing social function was held at Mrs. Joseph Mill's residence, Park street, when his daughter, Miss Daisy, entertained some sixty of her friends at an afternoon tea. Those assisting the fair young hostess, included three brides, viz., Mrs. R. Deane, Mrs. Dickson Hall, and Mrs. Thompson.

Minicolo's Loss Was Only $100.

Messrs. Minocolo's loss by the recent fire was not more than $100, fully insured. Mr. Minocolo, jr., yesterday told The Times that the loss would have been much heavier but for the fact that the morning previous to the fire they had rushed out many dollars worth of goods.

White Bread Starves Many People

A piece of bread that is dry, white and very light in weight seems to the thoughtful person like so much foam or other useless and non-nourishing product.

If one rolls a piece of moist, light bread or the interior of a biscuit between the fingers, a ball of dough is the result, with an appearance of solidity that makes one question how the gastric juices of the stomach can dissolve such a wad.

It is small wonder that such food creates havoc in the way of fermentation, gas, and consequent disorder.

Many persons will find great help by leaving off the ordinary bread entirely, and using in its place Grape-Nuts, in which the starchy and nitrogenous substances have been thoroughly and perfectly cooked at the factory before being sent out.

There is no possibility of this food assuming the form of wads of dough. On the contrary it is always predigested, the starch of the grains has been changed into sugar in the process of manufacture and passes quickly and directly into circulation.

Grape-Nuts furnish the elements needed by the system to rebuild, particularly the soft gray matter in the brain and throughout the nerve centres in the body. This statement will be verified by its use. It is delicious enough to recommend itself upon trial. Made in the pure food factories of Postum Co. at Battle Creek, Mich.

SOCIAL AND PERSONAL

—Mr. Obas. Forbes, well known in this city is dead.

—Miss Mary Bowers, of Toronto, is home on a visit to her parents.

—Miss Jennie Short, of Hastings, is visiting friends in this city.

—Dr. W. A. McFall leaves this morning for Lindsay, to play golf.

—Mr. and Mrs. J. P. Lynch, of Kearney, are guests at the National Hotel.

—Mrs. Third of Edmonton, Alta., and child, are guests at the National Hotel.

—Mr. G. H. Adams of Lindsay, was registered at the Snowden House yesterday.

—Mr. L. McFarlane, of Montreal, solicitor for the Bell Telephone Company, is registered at the Oriental.

—Mr. Harry Lindley, the well-known show manager was in the city yesterday, on his way to Stirling fair with his company.

—The funeral of the late Mr. Wm. Robertson, of South Monaghan, whose sudden and lamented death was noted in yesterday's Times, will take place today.

—Mr. W. Bamford, formerly C. P. R. agent, here, but now travelling freight agent of the same road, was in the city yesterday, booming the interests of his road.

—Miss Mabel Litle and Miss Florence Grimison went out to Peterborough this morning to attend the marriage of their cousin, Miss May Grimison.—Port Hope Guide.

—H. J. Bartlett, Harry Vigeon, Toronto. A. H. Hall, W. D. Lummis, Geo. F. Shipley, W. M. O'Connor, J. Hamilton, Toronto; F. Humphrey, New York. W. A. Van Tassel, Montreal, are guests at the Oriental.

A Pretty Gilmour Street Wedding

Miss Lulu Mae Grimmison and Mr. Norman Anderson the Contracting Parties.

A very pretty wedding was celebrated at the residence of Mr. Thos. Grimison, on Wednesday evening, at six o'clock, when Mr. Grimison's only daughter, Lulu Mae, was united in the holy bonds of matrimony to Mr. Norman Anderson Fowler, both of Peterborough, in the presence of about forty guests from Peterborough, Port Hope, Garden Hill and Havelock. Rev. J. C. Potter, of St. Andrew's Presbyterian church, performed the impressive ceremony. The orideamaid was Miss Florence Grimison, of Port Hope, cousin of the bride, whilst the groom was supported by Mr. J. Grimison, brother of the bride. The bride was given away by her father, and a wedding march was beautifully rendered by Miss Aileen Ferguson, of Garden Hill, a cousin of the bride.

The bride was charmingly attired in cream silk eolienne over cream taffeta, her maid being prettily gowned in cream voile over pale pink taffeta.

The residence in which this interesting ceremony took place was beautifully and artistically decorated with autumn leaves and pink and white asters, a combination specially in keeping with the happy occasion.

The groom's gift to his bride was a valuable set of sable furs, to the bridesmaid a pearl fleur-de-lis pin, and to his best man a wish-bone tie pin set with pearls. The other presents were costly and numerous, testifying in a substantial manner to the high estimation in which both bride and groom are held by a large circle of friends and acquaintances.

Lindsay May Have Dual Telephones

Tonight a public meeting will be held in Lindsay for the purpose of discussing the telephone question. The Bell Company now have a franchise and are installed and the Canadian Machine Telephone wants to get a franchise. Mr. F. D. MacKay, general manager of the Canadian Machine Company will be present on behalf of his system and possibly tell the time worn and seemingly plausible tale of advantages to be gained by competition in telephone matters. The Scugogvillians will however, do well to see both sides of the question, and decide whether the unmitigated nuisance of a dual system, when merchants will have to pay for and attend to two different phones is advisable.

Cobourg Rifle Matches Oct. 4th

The Cobourg Rifle Association have decided to hold their annual rifle match on Thursday, Oct. 4. A valuable list of prizes is being arranged and a good day's sport is expected at the ranges. Competition is open to all residents of Northumberland and Durham, who are members or who wish to become members of the association. Mr. J. A. Culverwell, managing director of the Northumberland-Durham Power Company, Ltd., has donated a handsome silver challenge cup, worth $20, to be competed for.

Rural Deanery's Havelock Meet

The Rural Deanery of Northumberland and Durham will meet at Havelock on Monday and Tuesday, Oct. 15 and 16. An interesting program has been prepared;

8 p.m., Monday, Evensong and sermon, the preacher being Rev. W. Burns.

Tuesday, 8 a.m. Holy Communion. 10.30 Matins. Report of Rural Dean and Secretary Treasurer. Discussion on state of the Church in the Rural Deanery. Paper by Rev. C. H. Bronsk, on "Lessons from Eastern Christianity."

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

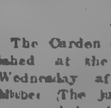
He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skilful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book free that is worthy of your attention if needing a good, safe, reliable remedy of known composition for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.



The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 50 stamps.

Boy Shot to Death on Victoria Road

Lindsay Post says:

"A sad shooting fatality, which resulted in the almost instantaneous death of a young lad, occurred in the near vicinity of Victoria Road on Sunday last. Full particulars are not to hand, but it seems that two youths, named LaRush and Fitzgerald, each almost sixteen years of age, were out walking on the road, previous to going on a short hunting trip. From what we hear a cartridge fell to the ground and Fitzgerald picked it up, when he was ordered by LaRush in a joking fashion to hand it over or he would shoot. LaRush at the same time began to recklessly flourish a revolver he held in his hand. The weapon accidentally exploded, the discharged bullet crashing into Fitzgerald's head on the side and slightly below the ear. The unfortunate boy expired almost instantly, much to the grief of his companion, who scarcely realized that he had killed his friend.

State of Ohio, City of Toledo, } ss.
Lucas County. }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December A.D. 1886.

[Seal.] A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

Dillon Adjudged to be Insane

The Carden murder case was finished at the Lindsay assizes here Wednesday afternoon, before Judge Mabee. The jury retired at three p.m. and handed the following verdict in:—"That having been given in evidence upon trial of William Dillon that he was insane at the time of commission of the office was committed by accused as charged, but acquit him on the score of insanity, finding him to have been insane at the time of committing the offence."

Judge Mabee thereupon ordered that the prisoner be confined in the county jail until the pleasure of the Governor-General be made known.

SUMMER CATARRH

Hot Weather Seems to Have Bad Effect Upon Some People.

It is generally recognized by physicians that many people suffer more with catarrh during the summer than in the winter. The hot, dry weather and the change from the hot days to cool nights seems to have a bad effect upon the disease.

Even after the usual methods of treating catarrh have been unsuccessful, Hyomei will cure the disease, and all catarrh sufferers should take the treatment.

In many instances Hyomei has cured catarrh when the patient has suffered since childhood. Quite a number of people in Peterborough who for years have been unable to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments of Hyomei and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated air through the pocket inhaler that comes in every outfit and all germs will be killed and the mucous membrance will be healed.

The complete outfit costs $1.00, extra bottles, 50c.

For sale by all dealers. The R. T. Booth Co., Buffalo, N. Y.

AMALGAMATED COPPER

Capital, - $155,000,000

Par Value of Shares, $100.

PRESIDENT.....HENRY H. ROGERS
VICE-PRESIDENT.....F. P. ADDICKS.
SECRETARY-TREASURER.....A. H. MELIN.

DIRECTORS—A. C. Burrage, Boston; Anson R. Flower, New York; William Rockefeller, New York; Henry H. Rogers, New York; Henry H. Rogers, Jr., New York; James Stillman, New York—many of whom have helped to make Standard Oil the most successful industrial corporation in America, and whose efforts are now concentrated on making Amalgamated

THE PREMIER COPPER COMPANY

in existence.

In point of daily transactions Amalgamated is only exceeded by Union Pacific, a stock which has recently had a most phenomenal enhancement in market value—the dividend rate having been increased to 10 per cent. per annum—an issue on which my advices have been uniformly bullish.

What has taken place in Union Pacific is not only easily possible in Amalgamated, but highly probable as the earnings applicable to distribution in the form of dividends are conservatively estimated at 15 per cent. on an 18c Copper market, a metal in tremendous demand and the price of which is

STILL MOVING UPWARD

The present dividend rate on Amalgamated is 7 per cent., netting the investor, at present market price, something over 6 per cent., so when bought on margin it yields a profit over carrying charges—or, in other words, it more than

PAYS ITS BOARD

My advice to Speculators, Investors and Students of Value at this time is to leave to the other fellow the slow, inactive, dormant issues, the only movement in which too frequently is contrary to expectations, and at once begin accumulating a line of what now ranks second, but which is destined to quickly become

THE MARKET LEADER

My information on this is based on

FACTS OF THE SUREST NATURE

and I am of the firm belief that a further advance in Amalgamated to

120

IS ON THE EVE OF MATERIALIZATION

Buy it and by placing your order with the house of NORRIS P. BRYANT I will undertake to keep you fully informed on

ALL THAT'S DOING

The Bears and those misguided people who are following the propaganda of evil and trying to make a killing by being short of this security, should cover their short commitments at once—thus a little later avoiding being counted among the number who only too frequently commit

FINANCIAL SUICIDE

by selling that which they do not possess.

The big fortunes are made by those who get into good stocks and stay with them. Disregard temporary fluctuations, as they are inconsequential compared with maximum movements which the really successful people have a faculty of reaping the full benefit of.

The optimists are getting all the money, and as we are in the midst of what promises to develop into the

GREATEST BULL MARKET EVER KNOWN

you will be acting wisely in arraying yourself on the side of the makers of value and begin operations at once.

Amalgamated Copper is the owner of 51 per cent. of Anaconda, the world's greatest Copper Mine, and is my selection for the next big fortune maker.

THE REBELS WEAKENED AT THE LAST MOMENT

All Parties in Cuba Agree to Stave Off United States Intervention---Their Agreement too Late

Havana, Sept. 29.—The leading Moderates, Liberals, and Nationalleaders conferred from late in the night until early yesterday morning, and decided to yield anything and everything in order to avoid intervention.

It now appears that there is no doubt that there will be a quorum at the meeting of Congress today.

Brigadier-General Funston boarded the United State flagship Louisiana yesterday and conferred with Capt. Cowden commander of the naval forces, and other naval officers. The general said he was ready for whatever occurred, and was simply awaiting orders.

LANDING THIS AFTERNOON.

Havana, Sept. 29.—Capt. Roosevelt of the Marines, quartermaster of the forces, says the marines have been ordered to stand by to make a landing from two o'clock this afternoon onward. But no further orders have been received.

DETERMINED TO STEP IN.

Havana, Sept. 29.—Prominent Moderates declare that they are willing to accept anybody, even Pino Guerra, as candidate for president, rather than incur intervention. Others, including Vice-President Mendez Capote, says they believe that the United States are determined on intervention in any case, whether President Palma's resignation is accepted or otherwise.

TO SUCCEED PALMA.

Havana, Sept. 29.—Senator Zayas, leader of the Liberal party, was received by Secretary Taft, in one room this morning, and Senor Montalvo, Acting-Secretary of the Interior, who immediately followed Zayas, was received by Assistant Secretary of State Bacon, in another room. When Zayas emerged from his confidence with the Secretary he said that there was hope of the success of his plan to have Senator Sanguily, Independent, elected to succeed President Palma, and that he would return to the legation soon. Senor Montalvo, who left later, refused to talk for publication.

The sentiments expressed in the public resorts here last night were almost unanimously in favor of intervention.

TROOPS ARE BUSY.

Havana, Sept. 29.—A detachment of marines has begun preparations to distribute the tents, ammunition, and miscellaneous supplies stored on the Caballaria wharf among the three battalions of marines ready to land here, orders having been received to have everything in readiness for debarkation at about two o'clock.

CAN'T TURN OTHER CHEEK.

Havana, Sept. 29.—President Palma is reported by friends who urged him to withdraw his resignation, put aside his personal pique, and disappointment, and be guided solely by patriotism, to have replied: "I have been smitten on the cheek, I cannot turn the other."

Will the Lakefield Case be Quashed

It was rumored yesterday that the appeal against the conviction of Messrs. Spellman & Lawless, for selling liquors in a local option section, to wit, Lakefield, made by Mr. Geo W. Hatton is to be withdrawn.

A leading local lawyer yesterday told a Times representative that Police Magistrate D. W. Dumble's jurisdiction over county as well as city cases, was only given under certain specified sections or section of the Canada Temperance Act, which dealt only with temperance legislation was in force (?) there, and that on the Scott Act being buried beneath the votes of a disgusted public, the city magistrate's jurisdiction, outside the city, terminated.

The grounds for appeal in Messrs. Spellman & Lawless' case is based, we understand, on the ground that the city police magistrate had no authority to try county cases. Here are two sides to the question and time alone can answer which is right.

Mr. and Mrs. Kempt Had Narrow Escape

Aged Douro Couple Nearly Burnt to Death—Their Home Destroyed.

Douro has had another fire. This time it was the residence of Mr. John Kemp, about a mile and a half from Curtis' brick yards. The fire was discovered by Mr. Moher, next door neighbor, who aroused Mr. Kemp and family. The brick house was totally destroyed, along with most of the contents. The loss is estimated at about $2,000. Mr. Kemp carried some insurance.

The aged couple, each over eighty years of age had a narrow escape from death. They and their granddaughter retired early in the evening to bed. Had it not been for Mr. Moher's timely warning the old couple would assuredly have been burnt to death.

Machinery For Rapid Tool Co.

The first carload of machinery for one of Peterborough's most promising industries, the Rapid Tool Co., has arrived from Adrian, O.

This machinery is being installed at once so as to make way for the rest of the machinery, which is expected to arrive at any time.

It is now up to the property owners to turn out on Tuesday next and vote for the bylaw, which is to give the Rapid Tool Company and the Peterborough Steel Rolling Mills a free site and a fixed assessment.

AWAKENING OF CHINESE EMPIRE

Greatest Advance During Past Five Years of Any Nation

ENGLISH IS BEING TAUGHT

Bible is Transisted in the Chinese Language and Taught in Government Schools.

Shanghai, China, September 28.—A competent authority on the far east declares that the Chinese have made more progress during the last five years than any other nation, not excepting Japan. He admits that China has not made such an advance in the iron and coal production as has the United States, but he contends that China has made a wider and more profound change in her whole attitude toward western civilization than has any other nation.

The latest proof that China's face is set toward progress is found in the imperial decree issued last Sunday, promising a change of laws. While this decree does not promise a constitution, as careless readers have inferred, nevertheless it points in that direction.

A more vital indication of progress is found in the recent imperial decree making some mastery of western learning a condition of future employment in the government service. This decree does not affect existing officeholders, and does not apply to candidates for offices who have already completed the prescribed course of Confucian learning, and have received the first and second degrees. But the significance of the decree is found in the fact that it prescribes the identical condition for future candidates for office, which the young emperor prescribed eight years ago, and which led to the Boxer uprising.

It is significant that the dowager empress, who then retired the young emperor for his radicalism, now issues in his name the identical decree which produced the revolution.

LEADING VICEROY OF CHINA.

A still more striking sign than this paper decree is found in the fact that Yuen Shi Kai, the leading viceroy of the empire, has already established more than five thousand primary and secondary schools in the Chi-li province for the new government courses. He is attempting to introduce western learning, and, indeed, the English language, into these schools as rapidly as possible. This creates a strong demand for English teachers, but the pay is too low to justify young people coming from England or America to accept these minor positions.

In lieu of American and English teachers the Japanese are being employed to teach western learning, and in some cases the English language the "pidgin" English which is taught by the Chinese, scholars would indeed be laughable were it not for the fact that the introduction of the English language may possibly become general and if so may carry with it the introduction of western civilization.

As Alexanders adoption of the Greek language enabled the conquered nations to transform the civilization of Western Asia; as the adoption of Roman law and the Latin language by the Northmen carried with it Latin Christianity throughout Europe, so the prevalence of the English speech in China, during the next few years, will carry with it western sciences and western civilization.

TRANSLATES NEW TESTAMENT.

A more striking indication of the adoption of not only western civilization, but of Christianity, is found in the decree just issued by Chang Chih-Tung, ordering the New Testament to be introduced into all the schools of the Hudpeh and Hunan provinces, over which he rules. The decree states that the permanence and high quality of Chinese civilization is due to the fact that the Confucian classics have been taught in China for over 2,000 years. The viceroy admits, however, that western nations have some power which the Chinese do not possess. He is sure that this is not due to any superiority of the westerners over the Chinese, but to the fact that the western nations have in their possession certain teachings which the Chinese have not yet mastered. He thinks this superiority is due to the Bible and in order to make the Chinese not only equal but superior to their western competitors, he orders the New Testament taught, alongside the Confucian classics, among the 58,000,000 people over whom he rules.

Perhaps the most striking indication of the Chinese desire for western progress is found in the recent imperial decree attempting to establish the Christian Sabbath. The decree makes the Sabbath day a legal holiday.

P. O. Clerks to Get Increased Wages

Employes of the local post office are wearing the smile that cannot be washed off, as they have received intimation that their salaries will be increased in the near future. It has been claimed that for a long time, this class of public servants were underpaid and no doubt the increase is well merited.

Regarding the matter an Ottawa despatch says: "In addition to increasing the salaries of country postmasters, the postmaster-general will also increase the salaries of clerks of city post offices and of clerks of inspectors' offices.

Mrs. Begley Receives Sundry Injuries

The many friends of Mrs. T. J. Begley, Victoria avenue, will regret to learn that at noon yesterday, this lady, while in pursuance of her household labors, met with a painful accident. She tripped and fell and received several severe bruises. One of her kneecaps was split open, and required several stitches. A doctor was called and dressed her injuries. She will be laid up for some days.

Costly War for Germany.

London, September 28.—Germany is still fighting the rebellious negroes in her South-West African possessions. Of the 15,000 soldiers sent there to subdue the negroes 3,120 have been killed, 1,500 have returned to Germany as invalids and 1,000 more are in the field hospital. The war has cost Germany to date $100,000,000. Perhaps this is why England, France, and Italy have decided to reduce their standing armies and relieve the taxpayers a bit. The kaiser is not half as fierce as his mustache.

THE MORMONS IN THE WEST

Instances of Their Plural Marriages

UNDER THE CANADIAN LAW

The Polygamy Practice Said to be Secretly in Vogue.

Cardston, Alberta, September 29.—There are many who believe the Mormons still practice polygamy in this province, despite the strong denials to the contrary. Rumors to this effect are current all around the settlements of the Latter Day Saints in this province and responsible men have stated plural marriages still exist.

The situations produced by the shipping of the Mormons to Canada are sometimes pathetic and often ludicrous. Not long ago a Utah Mormon of English extraction—nearly all Mormons are either English or Swedes—came to Alberta with one of his wives, leaving the other well provided for in Utah. Contrary to the general custom, however, he arrived with wife No. 2. Wife No 1 objected strongly to this, and at once made arrangements to secure a divorce, but as there was no recognized marriage no divorce marriage no divorce could be obtained. With nothing else left for her to do she followed her husband to Alberta and soon he found himself the possessor of two households very much against his will.

A child of his by wife No. 1 fell sick and he visited his other household, but the Royal North-West Mounted Police heard of it and the much married man was in danger of being arrested for bigamy. After hearing all the curious details the Mounted Police agreed to take no action provided the husband would live with wife No. 1, and never go near his second love, but this he refused to do, stating that should one of the children of wife No. 2 fall ill he would at once visit the sufferer, law or no law. This the police would not agree to, and the husband announced his intention of leaving Alberta, but the matter has since been referred to Ottawa, and up to the present time no reply has been received.

Other similar instances have been ferreted out by the Mounted Police and several Mormons who possessed more wives than the law allows have left the country in a hurry. It is claimed that although polygamy is not openly practiced by these people it still exists and the majority of the Mormons are in favor of it. Should a traveller attack the policy of plural marriages these people at once defend the doctrine.

The village of Taylorville, Alberta, is named after John I. Taylor, one of the chiefs of the Mormon church in Canada and until recently one of the apostles of the church in Utah. Mr. Taylor was deposed a short time ago and it is supposed to have been the result of the Smoot investigation, it being a well known fact that Mr. Taylor has five wives.

A PATERSON TRAGEDY

Elopement Ends in Attempted Murder and Suicide.

Paterson, N.J., Sept. 29.—Two pistol shots ringing out in quick succession in a fashionable boarding house on Summer street here yesterday revealed the tragedy of a man lying dead in a room with a bullet in his head, and a woman cowering in the corner screaming and wringing her hands, which were bleeding profusely. The woman said she was Nora Paige, that the man was Floyd Bingham, and they had eloped from Binghamton, N.Y. According to the story of the woman, who at first claimed that she was the dead man's wife, Bingham had killed himself while despondent over his lack of money, and after he had attacked her with a pair of shears. Bingham was unsuccessful in finding employment here, and the couple frequently quarreled. Yesterday after a dispute of unusual violence, Bingham tried to stab her with the shears, the woman declared, and she defended herself. In the struggle her hands were badly cut, as she was forced to grapple for the scissors to save herself from more serious wounds. Eventually the man gave up the struggle. He seized a revolver, pointed the weapon at his head, and fired. He missed his aim, but the second time he pulled the trigger, the ball entered his head and pierced his brain. He appeared to have died almost instantly.

The Paige woman admitted that she was married and that she had deserted her husband, the police say. She is about 30 years old, and of attractive appearance.

Where Murder Is No Crime

Life is Regarded as Worth Only a Pecuniary Consideration.

London, Sept. 29.—Murder is punished with a fine of about $5 in the land of the Mandayas, a Malay tribe living on the island of Mindinao in the Philippines. The highest penalty which can be imposed in the tribe is a fine of about $25, computing in American money. This is for publicly insulting an old man. This race has many peculiar customs, according to reports brought by men returning from service in the Philippines. All of them are carefully observed and constitute the law of the land. Any violation of them is punished. The old men constitute a legislative, judicial and executive body, and all matters in dispute are brought before them for settlement. Theft is punishable by the return of the stolen property, and if that is impossible the council appraises the property stolen, and the person who committed the crime must pay, in work, this amount to the one from whom the property was stolen. The greatest wrong that a Mandaya can do is to show disrespect to the old. To kill a stranger is the greatest ambition of the Mandayas. They attempt to kill all strangers who come among them, not as enemies, but merely because they are strangers. He who kills a stranger or an enemy is given an important standing in the tribe, and after he has killed thirty he is entitled to the highest honor, that of wearing scarlet clothing. Like the Moros, the Mandayas are a deceitful and treacherous people, always pretending to be friendly, but only awaiting a chance to take advantage of the unwary. They never forget a wrong done them by another tribe, and, if it be the killing of one of their number, they will, if possible, kill two in return. They will never attack openly or where their adversary has any chance to defend himself. In their raids upon other tribes they kill the men and make slaves of the women and children.

C. P. R. Will Now Insure Freight

So That Claims for Loss or Damage Can be Settled Without any Delay.

Toronto, Sept. 29.—The Canadian Pacific Railway's arrangement, whereby consignors and consignees will now suffer no loss by fire, either goods are in transit or in the railway freight sheds, has gone into effect, but all the details have not reached the Toronto offices. It is known, however, that the C. P. R. has entered into a blanket agreement with a company or companies for a year or a term of years, based on estimated traffic. In consequence, whether freight is destroyed or damaged on the road or in the shed, claims for damages will be settled without unnecessary delay.

Under the old conditions the C.P.R. did not hold itself liable to if freight was in a shed longer than 24 hours after the consignee had been notified of its arrival. Further, as in the case of the big Hull-Ottawa fire, the C.P.R. asserted and secured immunity on the ground that the conflagration did not start on the C.P.R. premises. Some of the shippers interested took the matter to the courts, and the C.P.R. won.

Under the new conditions it is officially announced no exception will be claimed by the railway, when the consignee has had his goods in the shed one day or four, or whether the railway or some one else is responsible for the blaze.

Only in one particular has an old regulation been retained. As in the past, the railway will not hold itself responsible for grain in a terminal elevator for a longer period than specified on the bill of lading.

"The C.P.R. is the first road to introduce this insurance feature," a Toronto official remarked, "and it is not likely to do us any harm with the public."

Will Visit U. S.

London, September 28.—By the advice of his physicians Lord Curzon will soon visit the United States. The shock resulting from the death of his wife has weakened Lord Curzon's previous condition, impaired by his long and arduous labors in India, and his physicians have urged that he should travel in order to obtain change of scene. After completing his business arrangements it is understood that he will go to Canada for a long stay. He also intends to visit the headquarters of the American missions that did so much good work during the plague and famine in India and Arabia.

King Greeted an Anarchist.

London, September 28.—The young King of Spain is fast earning a reputation for the inestimable quality which is so pronounced in King Edward. The other day Alfonso dropped across an anarchist whom he recognized as having been implicated in the Calle Mayor outrage. He addressed the anarchist smilingly, much to the latter's undoing, and completely won him over by presenting him with a rose from the queen's bouquet.

Reforms in Russian Poland.

Mannheim, September 28.—Herr Rotter, who is a delegate of the socialist party of Russian Poland, in the course of a speech before the national convention of German societies related several instances of the wonderful change which has come over his native land of late, especially since the declaration of martial law in August, 1905. The country, he says, is organized, freedom of the press, heretofore unknown, is being enjoyed, individuals may carry arms, the police have been purged, and many other reforms have been introduced which are much appreciated.

FIRE, WATER AND LIGHT COMMITTEE IN SESSION

Electric Call Bells and One Fire Alarm Box Need Putting in Working Condition.

The Fire, Water and Light Committee of the City Council met last night, when there were present, Chairman Ald. Frank Adams, and Aldermen Duncan, Ball, Elliott and Graham.

Chief Rutherford reported that six of the firemen's call bells and No. 4 alarm box are not working, and need to be renewed. The Bell Company's contract of $220 a year for maintaining and keeping in order the city's fire alarm system was considered by the committee sufficiently binding for the city to expect the company to put these call bells and alarm box in working order. It appears that these electric call bells are worn out.

Ald. Duncan moved, seconded by Ald. Graham,—That the Bell Telephone Company be notified that the No. 4 alarm box and six firemen's call bells are out of order, and that they be requested to put them in working order as soon as possible.—Carried.

ENLARGED HAY LOFT.

Architect Blackwell submitted a plan for raising the height of the hay mow in the new fire hall five feet six inches. This would give a loft 18x16 and 21 feet high, which is considered none too small to hold sufficient hay for six horses. The carrying out of this project would entail an additional expenditure of $250 over the contract price of this building. It was deplored that sufficient attention had not been paid to this important portion of the new hall when the plans were originally prepared.

Ald. Elliott moved that this matter be referred to the chairman, Ald. Graham, the architect, and chief of the brigade, to report to the council on Monday night.—Carried.

This committee will meet this morning and visit the fire hall with a view to arriving at a decision in the matter.

ELECTRIC WIRING.

Ald. Graham moved, seconded by Ald. Elliott,—That tenders be invited for electric wiring and fixtures in the new fire hall.—Carried.

ADDITIONAL LIGHTS.

Ald. Graham moved, seconded by Ald. Duncan,—That a 32-c.p. incandescent electric light be placed on Sherbrooke street at the creek; one on corner of Harvey and Dublin, and one at corner of Stewart and Charlotte streets.—Carried.

Ald Graham moved that an arc light be put at the corner of Rose and Hazlitt streets.—Carried.

Ald Ball moved that an arc light be furnished for Sophia street, where directed by Chairman Ald. Adams.—Carried.

An electric arc light will also on motion of Ald. Graham and Elliott, be placed on Concession street, south of Sophia street, at a spot to be indicated by the chairman of the committee.

NEW HYDRANTS

Ald. Duncan moved, seconded by Ald. Ball,—That the water commissioners be requested to place an hydrant at the corner of Murk and Sophia, instead of at corner of Mark and James street.—Carried.

STREET LIGHTING.

Ald. Elliott moved, seconded by Ald. Graham,—That Mr. Harrison be invited to meet the committee at Friday night re street lighting.—Carried.

The motion originated on a discussion as to the suggestion of the Peterborough Light and Power Co., that they install colored arc lamps in place of the present open ones for street lighting purposes.

The committee considered that the installation of the new style of lamps for street lighting would mean a saving to the company in operating; and Ald. Hick's suggestion that, in view of this fact, the council might, as a consideration for accepting the new system advocated by the company, secure from them an all night service the year round at present contract prices, engendered the above resolution.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday morning the Sons of Leisure lined up in good form in the police court to see the wind up of young Anglesey's trial.

This young man, our readers will remember, confessed, a few days ago, to stealing a number of articles including hats, braces, boots, trousers, vests, a brush and comb, a gold watch and chain and several other articles from the Cavanagh, Montreal and American hotels last week.

Our readers will also remember that Anglesey, when arrested by P. C. Newhall, and brought to the police station, was wearing a christie hat stolen from Mr. J. B. Laroque, proprietor of the Montreal Hotel, which he claimed to have bought in Toronto, although Messrs. Loch & Sons label was pasted inside the crown.

Yesterday morning Mr. O'Connell appeared in Anglesey's behalf and made a strong plea for leniency. He said the act of the young man appeared to be beyond explanation. He had been earning enough money to support himself and without any apparent reason walked into these places and stole the goods. He had been employed in a local bank and seems other places of trust and never tried to steal anything before. He is not a criminal in the sense of the word.

The magistrate said that he had ascertained that the prisoner had led a fast life, wasting fine clothes, a horse to drive and a girl. He deliberately went from place to place and stole the goods, and this can not be overlooked. The judgment of the court was that he be sentenced to three months in the county jail with hard labor.

All Saints' Harvest Festival a Success

The harvest festival of All Saints' church was well attended, the church was appropriately decorated with grain, fruits, flowers and other symbols of the harvest, just gathered. The special preacher was Rev. E. Daniel, rector of St. John's church, Port Hope, who delivered an appropriate address that was greatly appreciated. The hymns and anthems were well rendered by the choir. The decorations were as good as any seen at a harvest festival service in Peterborough this season.

The rector, Rev. Wm. Major, assisted by Rev. R. A. Langfeldt, rector of St. Luke's church, said Evening Prayer.

The offertory was in aid of the work of the Anglican Church in Western Canada, and a very gratifying response.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

RUGBY.

The local team that will contest the pigskinsphere with the Victorias of Toronto, this afternoon are as follows:

Mulhern,
McWilliams,
Gillespie,
Crowley,
Easton,
Dillon,
Ford,
Craig,
Regan,
Meagher,
Gilbert,
Crough,
Burtubias, capt.
Quinlan,
Carmichael.

They and their backers will leave by C.P.R. at 7.45 this morning.

* * *

ICE HOCKEY.

Referring to professional hockey playing, the Ottawa Free Press has the following:

"The Ontario Hockey Association for years has ruled hockey in Ontario with a firm hand, and has succeeded so far as it is possible in eliminating professionalism. This year there is to be the same supervision. In Brantford and Woodstock there are a number of splendid players, who, because of lucrative offers, cannot play in the O.H.A. They are barred because they are professionals. Now the two cities have decided to pay professional hockey. A good many players who have figured in the International Professional League, and who are either tired of it, or have been released, will be signed. The combination does not mean the finish of the O. H.A. however."

* * *

Regarding the prospects for the coming hockey season, the Lindsay Post says: "In Bill Sheddard's removing to Picton, Lindsay will lose a valuable hockey player. Bill was a daisy."

* * *

We are told that the chances of Belleville's admittance to the Federal League this coming winter are of the brightest, and that a crack-a-jack team is in prospect. The names of some of the coming players would make your eyes stick out like a couple of door-knobs—but wait. There'll be something doing this winter sure and the team which wallops Belleville's red and white boys will have to beat Dan Patch's time.—Belleville Intelligencer.

Abandoning North Western Spain.

Madrid, September 28.—The drain caused by the emigration from the north-west provinces of Spain is becoming serious. Three hundred persons are now leaving daily. The mayor of Orteguerira has informed the governor that that place has been denuded of its inhabitants. The fields are lying fallow because of the lack of laborers.

WE HAVE OUR
New Fall Goods
In now, and a Fine Selection They Are

New Fall OVERCOATS; New Fall SUITS, Ready-to-Wear; New Fall Tweed PANTS from $1.00 up; A most complete range of FALL AND WINTER UNDERWEAR from 50 cents up. A very fine line of HATS, CAPS and GENTS' FURNISHINGS.

ORDERED CLOTHING DEPARTMENT
This is our specialty. We carry a very fine line of Black and Blue Twill Worsteds, English and Scotch Tweeds and Worsteds, and we guarantee everything we make. COME AND SEE US.

WHY SO-WEARY?

Always Restless and Weak Isn't Natural—But It's Dangerous.

You have to work hard. This uses up lost of nerve force and tears down the body faster than it can build up.

The result is a half-dead feeling you can't shake off. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expects of it.

Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility, or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, of Orr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over-powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden.

"My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and good spirits. I have gained over ten pounds in weight, and as my age is 56, I consider Ferrozone is a marvel." (Signed) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate-coated tablets in a box for fifty cents, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

HEADACHE POWDERS

The many sufferers from headache should read Dr. Luther Gulick's article in a recent number of The World's Work. Dr. Gulick says the use of patent powders for headache, sleeplessness, nervousness and irritable, has increased enormously in the last few years. Taken in small doses and at rare intervals these much advertised remedies do not seem to be injurious. But a person who gets into the way of using them soon gets out of the way of sticking to rare intervals. This is almost inevitable. As long as the powder will produce the result he wants, he is really forced to keep on using it, for the actual cause of the trouble has never been reached, and it keeps making more trouble for him and demanding attention. But after the drug has been used long enough for the system to become habituated to it, the effect grows less and less in proportion to the size of the dose. So the doses have to be increased.

There is no drug that can be taken into the system regularly without working harm. Every drug has a secondary effect as well as a primary one. The immediate effect is all a man thinks of when he takes it; but the secondary effect follows just as inevitably. It is of an entirely different nature and it is always bad. For example, the secondary effect of most of the coal-tar headache powders is to reduce the number of red corpuscles in the blood, whose business it is to carry oxygen to all parts of the body.

THE OUTING MAGAZINE FOR OCTOBER

The Outing Magazine for October covers the better part of three continents, with sterling, human interest articles. Horace Annesley Vachell's "Stalking Scottish Moors," handsomely illustrated, is full of Scottish humor and Scottish charm. "The English Foxhound," by T. F. Dale, has much interesting comment on dogs, and is, as well, a mighily attractive human-interest article. More of Clifton Johnson's remarkable outdoor photographs illustrate his "Farm Life in Iowa." More important than any of these, because they are part of series, are Dillon Wallace's "The Long Labrador Trail," which leads deeper into the Northern wild to Lake Nipisiish; and John R. Spears' stories of "The Buccaneers," full of hidden treasure, fights with cutlass and pistol, sea battles of the old, romantic kind. Of the lighter, fascinating sort of article, Charles Belmont Davis' "The Rialto," with the aid of Mr. Watson's drawings, is one of the most attractive features of the number.

Among the practical articles are C. Elliot Flint's answer to the question, "Is Heart Weakness Due to Overwork?" F. M. Ware on "The Mental Limitations of the Horse," and an interesting muskalonge fishing paper by Joseph V. Quarles, Jr. "White Fang," Jack London's splendid serial, closes in this number; and among the sterling short fiction are "The Current of Fear," by Lawrence Mott, a really memorable story; Gouverneur Morrison's "The Post House," the latest Winkler story; and Maximilian Foster's "After Grouse with Hiram." Some of the most attractive paintings in color of the year appear in this number—paintings by N. C. Wyeth, J. G. Summer, Oliver Kemp, Lynn Bogue Hunt, and others. Altogether, it is a splendid autumn number.

SERVICE NEXT SPRING

Canadian-Mexican Line in Operation Before March, 1907.

Ottawa, Sept. 28.—The contract for a direct steamship service between Canada and Mexico on the Pacific coast was signed by the Minister of Trade and Commerce yesterday.

Under this contract, as has been explained, and English company, represented by Capt. Worsnop, will put two steamers of not less than 5,000 tons each on the route, thus giving a monthly service.

Vancouver and Victoria will be the terminal ports in Canada, and Acapulco, Mazatlan and Salina Cruz the ports of call in Mexico.

Canada and Mexico each contribute an annual subsidy of about $65,000.

It is expected to have the service in operation by March next.

PARIS TO OBSERVE SUNDAY

Movement is Gradually Gaining Ground.

Paris, September 27.—A strange metamorphosis seems to be coming over "gay Paris" in the way of Sunday observance. The papers, which up to the present time have ridiculed the possibility of Paris tolerating a Saxon Sunday, are gradually deviating in their opinions. Last Sunday many of the stores which have hitherto kept open on Sunday were closed and representatives of the working people made demonstrations before the stores remaining open. The entertainment committee trying to induce them to close used the cry of "Close in the name of the law."

SUSPECT AMERICAN YACHT

Thought it is Trying to Smuggl Chinese.

Halifax, N. S., September 27.—A St. John's, Nfld., despatch says: An American yacht, claiming to hail from New York, left Placentia Saturday, having aboard fourteen Chinamen, who it is supposed she is trying to smuggle into Canadian or American ports. The colonial cruiser Neptune has been despatched in quest of her and has been instructed to seize her for alleged violation of the colonial laws in embarking passengers without a permit. This is the third yacht in these waters during the present summer to be suspected of this practice.

New Born Child Found Dead.

Windsor, September 28.—The body of a new-born, fully developed female child was found near Grassy Island tied up in a pillow case. A post mortem showed the infant was alive when deposited where found.

Saving the Bavarian.

Quebec, September 28.—Captain Leslie, of Kingston, who is working on the wreck of the steamship Bavarian, expects to float the vessel about the 15th of October. If successfully taken off the rocks and kept afloat she will be brought to Quebec.

Engineer Thurlow Discharged.

North Bay, September 27.—Engineer Thurlow, of No. 2 express, which caused the collision in the Azilda train wreck, has been dismissed, in spite of the fact that the coroner's jury completely exonerated the engineer and the train crews.

If all dyspepsia sufferers knew what Dr. Shoop's Restorative would do for them, Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative. J. D. Tully.

THE BOHEMIAN FOR OCTOBER

Seldom, if ever, does there appear a wider range of fiction than in The Bohemian for October. Among the many clever stories in this number we can mention only a few. "Sha Sa: A Tale of 'The Hell-Born,'" by Adele Marie Shaw, is probably the leading one. It is a missionary story of love and adventure in which the lover seeks his bride among the barbaric tribes of Asia. W. Carey Wonderly contributes a theatrical story, "Miching Mallecho," "The Enterprise of Hanlons' Manager," by John Winter, is a circus story in which appears an account of a very realistic performance, in fact, a little too true in life to suit the spectators. There is a pathetic newspaper story, "The Grind," by Olin L. Lyman, which is in striking contrast to "Plympton's Chance," by Homer Bassford, which is a story of a successful beat. Bernard King has written an animal story "The Abrupt Reformation of Hiyu." It deals with the civilization of a wolfish dog. Eleanor M. Ingram is the author of a strong love story of life in Sicily when that island was under the rule France. George Allan England's "Two in a Zoo," may very properly be called a little comedy of errors. A story of the Canadian North-West full of love and adventure is Bertrand W. Sinclaire's "No Robbery."

Poems are contributed by such authors as Clinton Scollard, Edwin L. Sabin, William J. Lampton, Edwin Carlile Litsey, Curtis Hidden Page, Minna Irving, etc.

Church Crisis in France

Paris, September 28.—There is no let up in the editorial discussion of the church crisis, and no change in the multiplicity of antagonistic opinions. One says the associations law provides every means for its own enforcement and that the regulations will be carried out tranquilly, and another that the government will not dare to cause the upheaval which would be sure to follow its enforcement.

Men Wanted

Any number of Woodsmen wanted for Algoma Commercial Company Sault Ste Marie, Ont. Highest wages paid. Will ship men every Friday until Oct. 1st. Apply to

GEO. J. CHALMERS
542 Water Street
or P. O. Box 831, city.

MR. ALFRED PLEAU.

PE-RU-NA STRENGTHENS THE ENTIRE SYSTEM.

Mr. Alfred Pleau, an expert machinist, 178 St. John Street, Quebec City, Can., writes:

"Two years ago, an accident necessitated my confinement for several weeks. The good health I had enjoyed was slipping away and there developed a complication of diseases. My physician said my case was one of general debility.

"Among the many ailments which developed was a serious attack of catarrh, which annoyed me considerably and kept me awake whole nights.

"I decided to give Peruna a trial and soon found it acting as a wonderful tonic to my system. The catarrh grew less severe and shortly afterward disappeared, as did also the various other maladies.

"I attribute my prompt relief and ultimate cure entirely to the use of Peruna and gladly recommend it."

Tunnel to Begin at Windsor.

Windsor, September 28.—An application made by the Michigan Central Tunnel Company to the city council last night, asking for the use of current from the city for night work on shafts to be sunk on this side of the river, on which work is to be carried on day and night, indicate that the real work of construction of the tunnel will be begun on this side within a short time. A large amount of the preliminary work has already begun company's property.

The Coppers Burned.

A Church of England parson, who has recently come to Toronto from the West, where coppers are unknown, and the five cent piece is the smallest coin in circulation, daily laments the contact with cents which he encounters in the East. He will sympathize with a Western man who (according to The Innisfail Province), while visiting one of the Eastern cities, purchased a newspaper. "He gave the usual nickel, but was amazed to get four coppers in change. Not being used to the feel of copper he tried to dispose of the balance by buying a box of matches. Imagine his amazement when only one cent was taken, and the other three handed back. Still feeling perturbed at carrying such a common thing as copper around in his pocket, the Westerner turned in desperation to see what could be done with the balance of the money, when, to his joy, he saw a blind man, who was only too glad to relieve him of the burden. What a lot of fun a fellow can have down East for five cents!"

Wins Distinction Abroad.

The name of Stillman Foster Kneeland ranks well up in the list of Canadians who have won distinction in other lands. Mr. Kneeland was born at Quebec, May 17, 1845. He was educated at McGill University, and removed to New York in 1873. In the civil war he served as brigadier-general, and in 1886 framed and secured the passage of an act abolishing perpetual imprisonment for debt in New York State. He was a member of the State Legislature in 1894. As a member of the law firm of Kneeland, Le Fetra and Glaze he figured as counsel to the H. B. Claflin Co. and Union Surety & Guarantee Co. He is vice-president of the department of painting, Brooklyn Institute of Arts and Sciences. His publications include Treatise on Commercial Law, Kneeland on Mechanics' Liens, Kneeland on Attachments, and Seven Centuries in the Kneeland Family.

—Mr. W. Bamford, formerly C. P. R. agent, here, but now travelling freight agent of the same road, was in the city yesterday, booming the interests of his road.

TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

Conquering the Last Frontier

THE NEW METHOD PURSUED IN CANADIAN NORTHWEST.

Remarkable Tribute of a Writer in a New York Magazine—"Things Run Better Here," Say Americans in Canada—The Lure of the Wilderness—From Engineer to Grand Piano—Conquering the Last Frontier.

The leading article in "Success" Magazine of New York for August is one on the Canadian Northwest, called "Conquering the Last Frontier," by Samual Merwin, and gives a graphic description of how an empire is there being built. Part I. of the article, entitled "Our Lost Empire" follows in part:

Definition number seven, in Webster's unabridged, of the transitive verb, "to lose," reads. "To fail to obtain or enjoy; to fail to gain or win." Twenty-five years ago Canada was young and diffident. To-day she is strong, rich, and a little proud. Then, had we thought it worth while to make advances, it is difficult to say what might or might not have taken place. Now, there are half a million American settlers in Manitoba and Saskatchewan and Alberta, and, if you should ask them, you would find that they are not at all interested in the annexation question. "Things run rather better here," they say, "than in the States. The administration of justice is much more satisfactory. We see no advantage in changing."

If you have ever felt, as I rather fancy you have, that it is in you to explore strange, new countries for yourself, it is not you would not hesitate very long between going into something in the dry goods way and going into something in the empire-building way, you will do well to open the atlas to the map of North America and let loose your imagination in the splendidly romantic conquest of that Far Northwest which we know very little about, but which we shall, willy nilly, learn a good deal about before "Jim" Hill, and the new Grand Trunk Pacific and the Canadian Northern, and the Canadian Pacific, and the Dominion Government get through with it. They are building—while you wait,—an empire with which we, of these States, shall very shortly have to reckon.

New Method of Empire Building.

It is the first time an empire was ever built in just this way. The rifle has no place in the undertaking. Thanks to the century-long influence of the Hudson's Bay Co., the Indians and half-breeds are docile. Thanks to the Anglo-Saxon sense of order, and to the Royal Northwest Mounted Police, there are few or none of those "bad men" who have infested our frontiers. The conquering army is made up of farmers and cows and sheep and horses and ploughs and harvesting machines. The advance skirmishers, if you could see them at work, are hardy young men in rough clothes who carry transits and levels, and travel with pack horses or, in the depth of the winter, with pack dogs.

It is these hardy young men of the transit in whom we are most interested here. The farmer makes excellent foundation material, — the best there is, in fact; but like certain of the virtues of which he is neither very exciting nor very decorative. In small parties for reconnoissance work, in large parties for survey work, scattered over three thousand miles for construction work, the engineers are blazing the steel trails across the prairies and through the wilderness. Before many of them lies hardship, perhaps starvation. For the larger survey parties provisions are freighted out by Indians and cached where expert woodsmen can find them. But the small reconnoissance parties, plunging into the Northwestern mountains for six months at a time, can carry only a few staples. When gun and rod fail, they must eat dog. In winter—and winter is winter up there,—they must roll up in a blanket or two and sleep under the stars. A Canadian Pacific engineer, poor Vance, was frozen to death west of Battleford two winters ago. I know an engineer who has slept under canvas when the camp thermometer registered fifty-six below zero. I know another engineer who thinks little, at forty below, of rolling up in a single Hudson Bay blanket on the snow. In summer this same country is hot, and, in places, dusty, and along the river bottoms the insect pests are all but unbearable. The minute and tedious work of surveying and map-making is relieved only by intervals of pushing through rough country, of building rafts in order to ferry supplies, instruments, and records across rivers, of cutting a way for pack horses through tangled windfalls, or, in winter, of "breaking trail" for the dogs.

The Lure of the Wilderness.

By way of recompense for this work the engineer, equipped with technical training and with years of hard experience, shares with the college professor the distinction of being the most highly underpaid of brain workers. A fat travelling salesman with a grin, a good story or two, and a fund of questionable grammar, will draw from twice to ten times the salary.

And the curious thing is that they love the life, these lean, youngish men with the clear heads and the magnificent bodies. They will perhaps try to make you think they don't. They are a silent lot, as becomes men who pass their years in the wilderness or on the lonely, wind-swept prairies, and they are working for corporation directors whose business ears are not attuned to the call of the wild. But if you could drop into the Alberta Hotel at Edmonton, on some mild spring evening, and have a look at the assistant engineers and the instrument men who are booked to disappear toward the Rockies, within a day or two, for some six, eight, or ten months, you would see what I mean. The undying spirit of adventure is in their eyes; the half-conscious swagger of the soldier of fortune is in their stride. The same haunting desire that drove Stanley back to Africa, that drives the soldier to the wars, or the sailor to the sea, is sending these men back to the wilderness.

$100,000,000 or So.

The spending out of hand of a hundred millions or so for railroad building through a new land obviously means something. Three new trunk lines are already under construction in Western Canada. Before long we shall be hearing a good deal about the foresight and the unflinching courage of the men who are standing back of these huge undertakings. But when you see this sort of thing in the papers smile. A man would show about as much foresight in staking out a claim in the bullion room at the mint. In Manitoba, Saskatchewan, and Alberta Provinces there are more than two hundred thousand square miles of prairie land, most of it rich black loam, ready cleared for the plough. As much again awaits clearing. In the mountains are minerals and timber. Settlers are pouring in on every train to occupy this vast region. Towns and grain warehouses are springing up over night. Imagine the Mississippi and Missouri Valleys to settle over again under modern conditions. Imagine anything you like, and you will probably be within the facts.

It is nothing unusual for these prairies to yield a general average of 25 bushels of wheat to the acre, and 40 bushels of oats. Much of the wheat is of a higher grade than any now raised in our West, and it is frequently mixed with ours to bring ours up to standard. No, the wonder is that the pompous gentlemen in the tall hats didn't get their railroads through ten years ago. Add to this that all save the Hill undertaking are bolstered up with vast land grants, and, now and then, with cash subsidies, and the wonder grows.

No, the engineer is our man. Of the two types, the man who is risking other people's money is neither so picturesque nor so interesting as the man who is risking his life. It is the engineer who is conquering this last, and perhaps greatest, frontier.

Edmonton.

Edmonton is the jumping-off place for all North-Western Canada, the place where town and wilderness strike hands. Here in Washington Square the prosperous little city on the Upper Saskatchewan seems even farther away than its accredited 2,500 miles. It is 800 miles west of Winnipeg, and it is some little way north of that fifty-third parallel, beyond which, if one is to believe Mr. Rex Beach, the laws of God and man don't work very well. If one were to attempt the somewhat hazardous feat of walking due east from Edmonton, it would be found necessary to swim the upper waters of Hudson Bay before fetching up on the coast of Labrador. All this sounds very remote and inaccessible. It suggests rather the interior recesses of Greenland than the pastoral charms of an Iowa or an Illinois; and if carried away from New York, buttoned inside a prosaic waistcoat, what I took to be the emotions of the explorer, my ignorance was not, I prefer to think, unique.

A City of Contrasts.

Edmonton is a city of banks and a board of trade; of department stores a block long and a good many storeys high; of paved streets and brick and stone buildings; of well-to-do men in frock coats or in trim riding breeches and puttees; of prettily-gowned women; of the latest thing in automobiles, of clubs, churches, and polo grounds. All this speaks of the life of to-day. But jostling by the prosperous merchant or the English "younger son" is the half-breed in Stetson hat and silk-embroidered gauntlets, or the squaw with papoose bundled on her shoulders. The contrast, to one who has surrendered much of himself to the effete influence of our Atlantic States, is somewhat bewildering. One evening I strolled to the brink of the bluff and tried to straighten it out. Edmonton was the frontier; I knew that. But maps, with great "unexplored" patches on them, are not so convincing as they might be when one is in the living presence of clubs, and banks, and churches, and automobiles. Before me was the mile-wide valley, cut out square and deep from the yellow earth. The smoke from the lower town, thickened by a May mist, filled the valley to the brim, and in the moonlight it was luminous and faintly purple. Through this veil glistened the silver Saskatchewan, as it wound its leisurely way toward Hudson Bay. It was all very serene and very charming. At this moment it seemed, after all, as if I might be pretty close to those unexplored blank spaces. I should have liked to let my thoughts float off downstream through the mist to encounter the wild adventures of frontier times; but even if they could have slipped safely under the railroad bridge, they would have come up short against the very business-like log boom just below.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

GEORGE STREET. PETERBOROUGH

Lynching Is Inexcusable Anywhere

Montgomery, Ala., Sept. 28.—"The two races can never get along until there is an understanding on the part of both to make common cause with the law-abiding against criminals of any color," said Governor Jelks, discussing the Atlanta riot. He continued: "The lynching of any person for whatever crime is inexcusable anywhere; it is a defiance of orderly government; but the killing of innocent people under any provocation is infinitely more horrible; and yet innocent people are likely to die when a mob's terrible lust is once aroused."

OLD GLORY.

Story of the Stars and Stripes on the American Flag.

The design for the American flag, with thirteen stripes of alternate red and white and thirteen white stars in a blue field, representing the thirteen states struggling for independence, was adopted by the Continental congress on June 14, 1777, a little less than a year after the declaration of independence. The first flag of this design was made as a specimen for the congress by Betsy Ross, a dressmaker, of Philadelphia. It is supposed that this flag was first unfurled by Paul Jones on the Ranger, a vessel of the navy to which he had been assigned on the day that the resolution adopting the design was passed. The thirteen stars of the flag of 1777 were arranged in a circle, though no form was prescribed officially. This flag remained unchanged until 1794, and then, on motion of Senator Bradley of Vermont, which, with Kentucky, had been admitted to the Union, it was resolved that from and after May 1, 1795, "the flag of the United States be fifteen stripes, alternate red and white; that the union be fifteen stars, white in a blue field." This was the flag used in the war of 1812. The act made no provision for future alterations in the flag, and none was made until 1818. Upon the suggestion of Captain Samuel C. Reid of the navy a bill was passed on April 4, 1818, reducing the number of stripes in the flag to the original thirteen and making the number of stars equal to the number of states. The new star for a new state is not added to the flag until the Fourth of July following the admission of the new state.—St. Louis Republic.

CROSSING SAHARA.

The Costliness of Caravans and the Mortality of Camels.

The merchants who fit out a garfia (caravan) must stand all losses; consequently great care is given to the selection of both the camels which carry the valuable merchandise and the men who accompany them. The tall and swift riding camel known as the mehari is seldom met with in northern Tripoli. The finest male draft camels, the jamal, costing from $50 to $60 apiece, with a carrying capacity of about three hundredweight, are used for transport. From consumption or the effects of the long strain scores often die by the way and many others at the end of the "voyage." The wages of the men for conducting a return cargo are sometimes as high as $5,000. Not only must the garfia sheiks have great courage and endurance, but must be trustworthy traders and shrewd diplomats of no small caliber. Many of the sultans and chiefs, particularly the Touaregs, through whose territories lie the garfia routes, exact not only homage, but tribute, from the garfia sheiks. To bring this tribute within a reasonable sum and secure a safe conduct requires extraordinary skill and tact. The opportunities for dishonesty afforded the garfia men are many, and occasionally men and goods are never heard from again.—Charles Wellington Furlong in Harper's Magazine.

Dentists as Patients.

"Two of the most troublesome patients I have are members of my own profession," said a dentist in discussing the tortures of teeth. "Strange to say," he continued, "many dentists, whether from natural defects or early negligence, have exceedingly poor teeth, and as no practitioner can attend to his own we exchange services. If any of the patients of these two capable D. D. S.'s are revengeful of disposition it would do them good to see them in the chair. All men are much more difficult subjects for dentistry than women, according to my own experience, but the way the two in question wriggle, writhe, groan and cuss under the ordinary operations should be most gratifying to any one who has suffered at their hands."—New York Press.

Rain Insect Oil.

In certain parts of India the oil extracted from a species of mite is used in medicine as an external counterirritant. The creature is about half an inch long and on pressure exudes an oil of a deep red color. It is only found for a few weeks at the beginning of the rainy season and is, hence, known as the rain insect. E. G. Hill contributes a note on the chemical composition of this oil to the Journal and Proceedings of the Asiatic Society. He concludes that the supposed medical virtues of the oil are imaginary and due probably to its red color.

The Benefit of It.

Widow's Daughter—Mother, why do you tell people that I am only eighteen when you know I am twenty-four? Widow—Because eighteen's six years younger than twenty-four. Daughter—Yes, I know, but surely I do not need the benefit of those six years at my age, do I? Widow—Not at all, my child, but I do.—London Telegraph.

Talking on a High Level.

We once heard Mr. Morley in a linguistic pride delightful as it is rare say that when he and Mr. Gladstone sat down to talk both unconsciously stiffened their backs and looked to their periods.—London Outlook.

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many, thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN
148 SHELBY STREET, DETROIT, MICH.

Do You Want Gold? Do You Want Copper?

Both are being developed by the

Goldfield Tunnel and Mining Co.

on their properties in Nevada, southwest of GOLDFIELD.

THE JESSIE TUNNEL, A GOLD MINE is already in 375 feet and will penetrate the Gold and Silver bearing ledges of the adjacent mines.

THE CALUMET AND NEVADA, A COPPER MINE, has its shaft down 70 feet on a ledge which shows assays at the surface averaging $40.

Don't Overlook Nevada's Treasures Too Long

Good commission given LIVE AGENT.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 198 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

EL PASO PARRAL MINING COMPANY,
Commonwealth Trust Bldg, St Louis, Mo

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"Good-by! good-by! and may Heaven bless you for your goodness, Laura Elmer."

And thus they parted—Cassinove to Newgate, in custody of the officers, and Laura back to the house of mourning.

It was near noon when Lady Lester's bell rang; and it was two hours later that the family physician sought her presence and carefully broke to her the news of her bereavement. The shock was tremendous, and overwhelmed for the moment even her cold, hard, unloving nature. Her attendants were summoned in haste to put their mistress to bed; and the utmost skill of the physician was taxed to assuage her nervous sufferings.

Laura Elmer waited to be of service; but almost the first intelligible words that Lady Lester spoke were:

"Has Miss Elmer gone?"

She was answered that Miss Elmer remained to see if she could be of any use in the present extreme distress of the family.

"Tell her no; beg her to go at once. I could not bear the sight of her, I am sure. It was all her doing; all her unprincipled coquetry. She flirted with Cassinove, and encouraged Sir Vincent, and played them off, one against the other, in the most infamous manner, until she maddened both with jealousy, as every one in the house could swear," said her ladyship, breaking into a fresh paroxysm of emotion.

Laura Elmer had, meantime, gently and tenderly informed the children of the sudden death of their father, withholding for the present the manner of his death; she had borne all the burden of their wild grief until the storm exhausted itself for the time; she had then soothed and comforted them in the best manner she could, and left them quiet, in the care of their good nurse, Rachel.

Next, she went into the library, and wrote letters to Mr. Ruthven Lester, who was then at Bath, and to other dear friends of the family, telling them merely of the sudden death of the baronet, and suggesting the need of their immediate presence in the house. She had dispatched those letters to the post, and was engaged in writing a note, summoning the family solicitor, when the door opened, and Dr. Clark entered and made known to her the wish of Lady Lester.

Miss Elmer, now that she had done all that she was able to do for the assistance of the distressed family, and much also that others in the excitement of the day had forgotten or neglected to perform, was really not sorry to be set at liberty.

"Shall I go in and take leave of her ladyship?" inquired Laura.

"No, I think not, Miss Elmer; Lady Lester is sleeping under the influence of a powerful narcotic, and must not be disturbed for hours," said the doctor, who in no degree credited the charges of her ladyship against the noble-looking girl before him.

"Then I will leave with you my adieu to Lady Lester, and beg you to assure her of my deep sympathy," said Laura.

"I will not fail to do so, or to let her ladyship know how much we are all indebted to your self-possession, forethought and activity in the present distressing crisis. You have thought of everything that was forgotten, and done everything that was neglected by others."

"I have done only what I felt constrained to do under the circumstances, and if there is anything else in which I can be of use, I hope you will let me know."

"Certainly, Miss Elmer; you are exceedingly kind and disinterested in the assistance you have given this afflicted family, especially when your private griefs and anxieties must have pressed heavily upon your mind and heart," said the doctor, kindly.

At this first word of sympathy Laura's fine eyes filled with tears.

"You do not believe Ferdinand Cassinove to be guilty?" she said.

"No, no, on my soul and honor, no; I have observed the young man ever since he has been in the family; it is impossible he could have been guilty of such a crime."

"The Lord in heaven bless you for these words."

"But, oh! I fear it will be difficult to make a judge and jury believe as we do," said Laura, involuntarily wringing her hands over each other in the extremity of her distress.

"We must trust in God, employ the most cunning detective to trace out the real criminal, and engage the best counsel for the defense of the supposed one."

"You do you say we? Oh, Dr. Clark, am I to understand that your sympathies are entirely with us, and that you will assist us with your greater experience and advice?" asked Laura, clasping her hands and looking imploringly into the good physician's venerable face.

"Yes, my child, yes; not only with my advice, but with my purse and my active assistance. I consider it a duty, due not only to the cause of humanity, but to the cause of justice, and not only to the wrongfully-accused prisoner, but to my deceased friend, to try to discover the real murderer."

"Heaven bless you, Dr. Clark, for the comfort you have given me," exclaimed Laura Elmer, fervently.

"You are going, I heard you say, to visit the young man in prison?"

"Yes; he has neither mother nor sister in the world; he has no relative on earth that I know of; he has only me, his promised wife, and I must go to him, let the bad world say what it will," said Laura, firmly.

"You are quite right, my dear; but Newgate is not exactly the place to visit alone, especially for the first time. You must let me take you there, my dear, and make you known to the governor, after which you will be able to repeat your visit without the fear of rudeness from the officials. I shall be at liberty to attend you at four o'clock this afternoon. In the meantime, my dear, you had better, for your own comfort, see to your removal. Have you secured lodgings?"

"Yes, Dr. Clark, very good ones, with a friend of Mr. Cassinove's, at Chelsea."

"Then send your luggage on at once with a note to your landlady. Then, at four o'clock, I will take you to Newgate, where we can see and consult with this much injured young man, and afterward I can set you down at your lodgings," said the venerable physician, as, with an encouraging pressure of her hand, he left Laura Elmer.

Miss Elmer dispatched the note that she had been writing to the family solicitor, and then repaired to her chamber, packed up one of her boxes, with a brief note to Mrs. Rachel, saying only that she would be with her later in the afternoon.

Miss Elmer then prudently refrained from trying the spirits of the distressed children, by taking a formal leave of them, and contented herself by leaving with the nurse an affectionate message for the little girls.

Punctually at four o'clock the doctor's carriage was at the door, and Laura, accompanied by her kind old friend, departed for that old abode of sin and sorrow, Newgate.

A half-hour's ride brought them to the gloomy prison.

Dr. Clark took Miss Elmer first into the apartments of the governor, to whom he made some communication apart to secure his protege civility and attention in her future visits to the prison.

Then, attended by an officer, they went to the cell in which Ferdinand Cassinove was confined.

The young man received them calmly and even cheerfully; thanking Dr. Clark for his attention in escorting Laura Elmer to the prison, and silently blessing his betrothed with a most eloquent glance for the comfort she brought in coming to visit him. He had recovered from the first stunning effect of his arrest and imprisonment upon the heinous charge of murder, and was prepared to take a calm view of his position and prospects. He offered the only chair in his cell to Miss Elmer and invited Dr. Clark to sit beside him on the cot bedstead. Then the three entered into conversation upon the best course to be pursued for his defense. Cassinove again repeated to his friends all the circumstances of his presence in the bedchamber of Sir Vincent immediately after the murder. The doctor advised him to reduce that statement carefully to writing, and to put it into the hands of his counsel. He then informed the young man of the determination that Miss Elmer and himself had come to, namely, to employ the most cunning detectives in searching for the discovery of the murderer, and engaging the most eminent counsel in defending the case of the prisoner. And that he should take this course, not only in respect to humanity and justice endangered in the person of his young friend, but in regard to old friendships in that of his deceased patron.

Cassinove thanked him with deep emotion. They remained consulting with, encouraging and comforting the young man until the hour arrived at which the prison doors were to be closed for the night, and then, with the promise to send an eminent lawyer to see the prisoner in the morning, and to visit him every day, the good doctor took leave, and brought Miss Elmer away.

And in another hour he set her down at Daisy Cottage, Hay lane, Chelsea.

CHAPTER XXVI.

The sun was setting when Laura Elmer alighted from the doctor's carriage, bade him good-afternoon, and entered the little gate leading up a shaded walk to the door of Laburnum cottage, at the head of Hay lane, where Mrs. Russel kept her little shop, and let her neat lodgings.

Miss Elmer did not know whether Mrs. Russel had as yet heard of the tragedy at Lester House, and its calamitous consequences to their mutual friend, and she almost dreaded to meet her landlady.

But the moment Mrs. Russel opened the door in answer to her knock, Miss Elmer saw that she knew the worst. The poor little woman's eyes were red and swollen with tears, and her first words were:

"Oh, Miss Elmer! Oh, Miss Elmer, what shall I do?"

"Trust in God and do all that we can," replied Luara, in a low voice, as she pressed the hand that was held out to her.

"Oh, you say that, Miss Elmer, but you do not know all the poor young gentleman was to me and my children, or you could not speak so calmly. He was almost our only friend; he would, and, indeed, he did, divide his last sovereign with us. I loved him like a brother," exclaimed the poor woman, speaking of Cassinove in the past tense, as one already dead.

"But hope is left yet," said Laura. "I have a very slight clew that may bring to light something to clear Mr. Cassinove and convict the guilty."

And Laura related to Mrs. Russel the events at Lester House connected with the mysterious inmate, Helen Ravenscroft, and the stranger who dogged her carriage in the park, dwelling especially upon the extreme agitation and the inexplicable words of Sir Vincent, when he heard the circumstances from her own lips, and the subsequent midnight interview between Sir Vincent and the stranger, whom she had accidentally discovered through the open library door, while going down to the drawing-room to recover a forgotten book with which she wished to read herself to sleep, upon the night in question.

(To be continued)

A Facetious Convict.

"This confinement," said the long faced prison visitor, "must distress you greatly." "Yes," replied the facetious convict, "I find the prison bars grating." "Ah, life to you is a failure." "Yes. It's nothing but a cell."

No Chance to Grow.

Mrs. Newwed—Dear me, these eggs are very small. Grocer—They are indeed, mum, and I'm sure I don't know why. Mrs. Newwed—Oh, I dare say it's because you take them out of the nest too soon.

If your spirits are low, do something; and, if you have been doing something, do something different.—E. E. Hale.

Out of Sorts? It's your liver! In nearly every case it's the liver. That means constipation, biliousness, dyspepsia, poor blood, headaches. Your doctor will tell you that good health demands at least one good, free movement of the bowels each day. Ask him if he knows any laxative better than Ayer's Pills. We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

CHEAP ALCOHOL.

What It Is Expected Denatured Alcohol Would Do For the Dominion of Canada.

"What's all this talk we hear about denatured alcohol?" is a question that the members of the Dominion Parliament are likely to hear most frequently from their constituents until they are able to make their escape to Ottawa again. If they value their reputation for prescience, they had better post themselves on the subject, and if they wish to retain their popularity it would be well for them to give favorable answer to the further demand, "What's the matter with us having cheap alcohol in Canada?" Already the farmers and manufacturers are eagerly discussing the matter, and the topic is shaping itself into a political issue. As yet, the first protest against removing the prohibitive tax on alcohol that has been rendered unfit for drinking has to be heard.

Benefits to the Farmers.

The country papers are printing letters from leading farmers, who point out the benefits they would expect if alcohol could be sold at about 20 cents a gallon. One man makes the interesting statement that the cornstalks on a single acre, after the removal of the cobs, can be made to yield about 170 gallons of commercial alcohol. If this is a correct estimate, the day may be at hand when the products of the farm that are now practically useless will supply the owner with fuel, light and power, and leave him a balance of cash in hand. In Germany the process of making alcohol has become so simplified that farmers are their own manufacturers in many instance. There the cost is only about 15 cents a gallon.

The Importance of the Potato.

In Germany, it may be noted, farmers and manufacturers work in the greatest harmony. One stimulates the other. In the matter of alcohol, for example, the potato is largely used to produce it, and to supply the market the German farmers have become famous as potato growers, getting a greater and better yield per acre than the farmers of any other country. When it was found that after the alcohol had been extracted there was still a considerable residuum of potato, the Germans proceeded to utilise it in the manufacture of starch. From Germany the potato starch industry has come to this continent, and in one county of Maine there are more than 60 factories engaged in the business. Now plants are being erected for the manufacture of alcohol, in connection with the potato starch works.

The Uses of Alcohol.

Under the heading "Tax Free Alcohol," Industrial Canada publishes an article by Prof. Cohoe, of McMaster University. An interesting list of the different uses to which alcohol is now put is given. In the order of their importance they are as follows:—Making varnishes, paints, enamels, etc., soap manufacture, hat making, celluloid, ether and chloroform, smokeless powder, etc., medical extracts and chemicals, dissolving dyes and colors, photographic materials, etc. In all about fifty distinct manufacturing operations depending on alcohol are given, and many others indicated. For these purposes about 2,000,000 gallons of alcohol were used in Great Britain during the year ending March 1, 1901. No account is taken of the industries in which alcohol might be used if its price were reduced about 90 per cent.

How an Industry Was Lost.

Prof. Cohoe divides the uses of denatured alcohol into three parts—as a solvent, a re-agent, and as a source of heat, light and power. Its uses under the third head have been pretty thoroughly discussed already, and it is interesting to glance at the other purposes it serves. It appears that, as a solvent, alcohol is the very foundation of the smokeless powder industry, and that it constitutes a very important element in the cost of the product. To a less extent, it is important in the manufacture of paints and varnishes, which might be made more cheaply if denatured alcohol were duty free. To the coal tar group of industries cheap alcohol is essential, and it is said that these industries were captured from England by Germany because at the time the former country placed restrictions upon the use of alcohol. Prof. Cohoe speaks emphatically of the artificial silk industry and its dependence upon cheap alcohol.

Germany Leads the Way.

Alcohol is the principal constituent in ether, a commodity that has become one of the very necessities of life. Vinegar in large quantities is almost made from alcohol, and there are scores of other instances of its use as raw material. It is interesting to compare the enormous consumption of alcohol in Germany, where it is untaxed, with its limited use in Great Britain. In the latter country, as noted, a year's consumption was about 2,000,000 gallons. For 1903 Germany used 14,000,000 gallons for industrial purposes, about 1,000,000 gallons for motor and other engines, and 34,000,000 gallons for light and heat. It is probable that its use for internal combustion engines will have doubled by this time, on account of the remarkable increase in motor boats and automobiles. It would seem to be an essential to a country's prosperity in many lines of manufacture that no artificial restrictions should be placed upon the use of alcohol.

Mrs. Burns Her Own Housekeeper.

Mrs. John Burns, wife of the Labor member of the English Cabinet, is her own housekeeper, and when she was presented at the recent drawing-room of the King and Queen was probably the only woman present who could cook her husband's dinner. A story is told of Lady Haversham, who wrote to Mrs. Burns, asking her to come to her "at home," the lady wishing to pose as one of the Liberals. Lady Haversham excused herself for not calling first, as she explained that "Battersea was so far from Grosvenor square." Mrs. Burns replied that upon consulting a map she found that "Grosvenor Square was just the same distance from Battersea."

Its Part.

In the English "Cap and Gown" is told the following story of Oxford life. It is called "Hauled by the Dean." The dean, who had rebuked Mr. Brown for having assisted at the ducking of a fellow student, asks the offender, "What part did you take in this disgraceful affair?" and Mr. Brown replies meekly, "The left leg, sir."

ADV. RESPONSIBILITY.

Toronto Paper Discusses Rider of Verdict of Coroner's Jury in the Brindant Murder Case.

The coroner's jury in the Brindant case added this rider to their verdict: "We deprecate the publicity of certain advertisements in certain daily and other papers, which lead to these results." The responsibility of the newspapers might have been expressed in stronger language, says The Toronto Star. A newspaper ought to be held responsible for an advertisement which is an invitation to the commission of a crime, or which is published with fraudulent intent, if that intent is clear from the language, or is otherwise conveyed to the managers of the paper.

Further, there is no reason why a newspaper which knowingly assists in the commission of a crime, should be exempt from the law that punishes the criminal; and if the law does not already cover this case, legislation of that kind should be placed on the statute book.

Some of the magazines published in the United States adopt the policy of guaranteeing the good faith of their advertisements. It is commonly said that this could not be done in the case of a newspaper, which receives every day hundreds of small advertisements over the counter. An examination of the purpose of all these, it is contended, would be impossible. It is true that in the rapid handling of a great mass of business some advertisement of an improper or fraudulent kind might slip in unawares.

But if perfection is not attainable, that is no reason why a great deal should not be done. Many newspaper advertisements are similar to those appearing in the magazines. They are so extensive that they cannot escape notice and supervision; and in the negotiations which precede the contract there are opportunities for becoming acquainted with the character and standing of the advertiser. Many advertisements also appear repeatedly and regularly, and an impropriety which escapes the eye the first time may be detected afterwards. Facts showing fraud may be brought to the notice of the newspaper. In such cases the proprietors and managers of newspapers cannot divest themselves of responsibility.

Even without such a guarantee as is given by the American magazines to which we have referred the newspaper owes to its readers the duty of not lending itself to any plan for deceiving them, and this duty applies as well to advertisements as to any other part of the contents of the paper. It owes also to the community at large the duty of not furthering any crime or criminal practice, and this duty applies as well to the advertising columns as to any other part of the paper.

—A present with every twenty-five cent purchase of school books at Times Bookstore.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even-numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorised publication of this advertisement will not be paid for.

BIG G CURES in 1 to 5 days Guaranteed not to stricture. Prevents Contagion. Evans Chemical Co. CINCINNATI, O. U.S.A.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

8% PREFERRED STOCK AT PAR MEANS 16% ON THE PRICE GIVEN BELOW

50,000 SHARES OF PREFERRED STOCK

Cumulative from Date of Issue

of the BI-METALLIC TUNNEL AND MINING CO., of Silver Plume, Col., are now offered at 50 cents per share (par value, $1.00) for the purpose of developing the property. This will give an income of 16 per cent. on the amount invested from the date of purchase out of the first dividends declared and before the owner of the property can receive any income from his common stock. Work is now being done and it is expected to strike pay ore soon.

CAPITAL STOCK, $1,900,000
200,000 Shares, Preferred (Treasury Stock)
800,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 3,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property, is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $3.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet into the mountain will cut veins of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $35,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

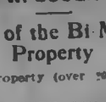
Silver Plume, Col.

FREE—THE INVESTMENT HERALD

Leading mining and financial paper. News from all mining districts. Most reliable information regarding mining, oil industries, principal companies, etc. No investor should be without it. Will send six months free. Branch A. L. Wiener & Co., 61 and 63 Confederation Life Building, Toronto, Ont. Owen J. B. Yearsley, Manager for Canada



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Arthur Breakwater," will be received at this office until Friday, October 11, 1906, inclusively, for the construction of a Breakwater at Port Arthur, Ontario, according to a plan and specification to be seen at the offices of E. B. Temple, Esq., Resident Engineer, Port Arthur, Ont., J. G. Sing, Esq., Resident Engineer, Confederation Life Building, Toronto, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for forty-five thousand dollars ($45,000.00), must accompany each tender. The cheque will be forfeited if the person tendering decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, September 15, 1906.

Mines are located for the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims of 160 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company have worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $5.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 20 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made a shipment of high grade ore ever made in the [illegible] or 1,200 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 250 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.
United States Internal Revenue Collector, CAPT. GEO. H. WHEELOCH, Vice President.
United States Deputy Marshal H. S. PAGE, Secretary.
United States Marshal of Utah R. B. HEYWOOD, Treasurer
United States Deputy Revenue Collector, ARCHIBALD STUART, Manager.
Mining Expert J. E. MEYER, Assistant General Manager.
Main Office of the Company, Salt Lake City, Utah.
Address all communications to Assistant General Manager.

J. E. MEYER
Agent Wanted. P. O. Box 621, Salt Lake City, Utah.

OUR ZINC COMPANY IS DIFFERENT

Investors Are Considered First in our Camp.

PROPERTIES LOCATED IN LAWRENCE AND SHARP COUNTIES, ARKANSAS.

We have men at work on our property now, and already have large amount of rich ore on the dump ready for milling.

Our Superintendent is a practical mining engineer and geologist of 25 years experience, and has directed the building of most of the mills in the Northern Arkansas mineral region.

Capitalization is low, only $50,000.00 of Preferred and $14,950.00 of Common Stock Common Stock is placed and be sold until the Association is on a dividend-paying basis, eliminating all processes of "Stock Jobbing."

This clause is found in every certificate of Preferred Stock issued: "This Stock shall entitle the holder to preferential dividends of the net earnings of the Company to the complete exclusion of the Common Stock, until par value (ten cents per share) has been repaid in dividends to the holder of each and every share of Preferred Stock issued. Then this Preferred Stock shall become Common Stock, and shall share alike in dividends with the Common Stock."

Sworn financial statements will be sent to each stockholder every 90 days.

An allotment of 110,000 shares have been offered for sale at par value (ten cents per share). Money to be used in erecting mill, clearing up the property and placing the business of the Association upon a dividend-paying basis.

Write for preliminary prospectus and full particulars.

Lincoln Mining and Milling Association,
Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.
STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $15 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $3.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

Empire Security Company
20 BROAD STREET NEW YORK

INDUSTRIAL AND MINING STOCKS AND BONDS

A GOOD CANADIAN REPRESENTATIVE WANTED

100 PER CENT. IMMEDIATE PROFIT!

LAST CHANCE

The Great Western Oil Refinery and Pipe Line Company, of Erie, Kans.

Courts investigation, and we are anxious to get in touch with investors who are willing to be convinced, but owing to the fact that our option expires October 1st, it is necessary that you send us your order immediately if you wish any of this 50 Cent stock at 25 Cents per share. Investigate 30 days and if not satisfied we will return your money in full. The thing to do now is to act, and act quickly.

The Company owns 53 acres of proven oil and gas land at the junction of two railroads with side tracks to both. The company owns without debt, a 1,000 barrel per day capacity plant, running night and day, which is the largest, most complete modern Refinery west of the Mississippi River. The Company owns its own gas wells (3 in number, which furnishes fuel for the entire plant and is sufficient for a 5,000 barrel capacity which the Great Western proposes to have (in fact they are now increasing the capacity to 2,000 barrels per day) which is the reason that some of the capital stock is now offered the public for subscription.

We advise that you wire or mail your order today NOW!

The Company owns leases on hundreds of acres of oil lands with a number of wells on same, and the supply of crude oil is unlimited. The present stand taken by the different states and the laws passed to protect the independent refineries against unfair competition makes an investment in this company, one which is sure to bring large returns. In proof of this statement, will say that one day recently the Company shipped 21 car load lots of refined oil and by-products and on another day, received orders for 42 car load lots.

The Company is now selling this stock at 50 cents per share, but owing to the fact that we hold an option on a block of this stock, we can fill orders

At 25 Cents per Share

cash or installment of One-fifth Cash and One-fifth Monthly for four months, providing your letter bears the postmark of OCTOBER 1st or prior thereto We positively cannot fill your order unless it shows this postmark. Remember this and act accordingly.

Stock in the GREAT WESTERN OIL REFINERY AND PIPE LINE COMPANY, will soon be selling for $1.00 per share and paying dividends. You will NEVER again (no matter how long you live) have an opportunity to make a safer, surer investment.

Condemn Canadian Chickens and Meat

Chicago, Sept. 28.—Two cars of cold storage chickens and over ten carloads of meat were condemned yesterday by Chief Food Inspector Murray and his assistants, to say nothing of fifteen carcasses of diseased cattle and four calves.

The condemnation of the chickens was due to private advices received Murray from Canada.

When he learned that the lot had escaped him and was on the way to New York, he notified the authorities there so they can catch the shipment at its destination.

A FAMOUS NEWSPAPER MAN

William E. Curtis, the famous correspondent of the Chicago Record-Herald writes a two-column letter for his paper every day in the year without intermission. His powers of sustained work are as great a marvel as his faculty of always making his matter interesting.

Possibly no other newspaper correspondent in the country is read so regularly and eagerly by so many thousands of men and women as Mr. Curtis. Mr. Curtis has travelled several times around the world, visited every country under the sun, and written a larger number of brilliant and interesting letters of travel than were ever before produced by a single hand. Many of these have later been reprinted in book form. One of his latest expeditions for the Record-Herald was through Mexico, resulting in a series of letters as entertaining as those he wrote a few years ago from India, Turkey and the Holy Land. His forthcoming letters from Ireland, Russia and Germany will rival in importance and interesting of his previous contributions.

Beginning his career in Chicago, as a reporter in 1872, Mr. Curtis rapidly rose to be managing editor. He resigned that position to accept a government appointment as secretary of the South American commission. So brilliantly did he perform the duties of this office that James G. Blaine, Secretary of State, placed him at the head of the Bureau of American Republics. At the world's fair in Chicago he distinguished himself as the executive head of the Latin-American department. He is a member of almost every learned society in Washington, and of many in Europe. It is said strange that the Record-Herald prints Mr. Curtis' letter every day on the first column of the front page, and that nothing but a California earthquake can displace it from that station of honor.

Attache May Be Appointed

Ottawa, September 27.—There is a probability that at next session of parliament an arrangement will be made for the appointment of a Canadian attache to the British embassy at Washington. President Roosevelt threw out the idea at a very opportune moment and the matter is favorably viewed in certain official quarters here. The press appears to be almost unanimous in favor of the proposition. It is learned on pretty good authority that the British government would not object to a Canadian representative at Washington.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

More Indignities at the American Border

Detroit, Mich., Sept. 26.—The new law which puts directly under Federal control the process of making citizens as a move toward consistent naturalization laws takes effect next Saturday, September 24th, at every port of entry in the United States.

Along the border of Canada and Mexico it will mean a lot of extra work for the immigration inspectors. Heretofore a Canadian, for instance, has never been subjected to an examination of any kind, unless his condition, physical or financial, was bad enough to attract attention. Under the new law it will be compulsory for him to undergo the examination, providing he ever expects to become a naturalized citizen of the United States. The questions asked relate to his place of birth, the date, his business, and his personality. The examination does not in any way displace the declaration of intention, commonly referred to as "First papers," but it is essential to naturalized citizenship.

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish. It contains Oil. of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike petrolatum. It soothes heals, purifies, controls. Call at our store for free trial box. J.D. Tully

Turkey Moves Forces.

Salonica, September 27.—Forty thousand troops will be stationed along the Bulgarian frontier in the direction of Palanka, with headquarters at Istib, ostensibly for manoeuvres. Another army corps will concentrate at Damumalbala, and three battalions of artillery will be sent to Serres.

Policeman Shot by Drunken Man.

Fort William, September 26.—Policeman Miller was shot by a drunken man whom he was arresting at Westport, the bullet going through his right side and inflicting a painful but not dangerous wound. The would-be murderer is now locked up awaiting trial.

Czar Being Well Protected.

London, September 27.—A despatch from Copenhagen says that information has been received from Helsingfors, Finland, that a Russian squadron is escorting the yacht Standart, on which the Czar and his family are making a cruise, giving the excursion a war-like appearance. The newspapers compare the squadron with Admiral Rojestvensky's armada. The Standart is surrounded day and night by torpedo boats. At night every passing vessel is closely investigated with searchlights.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

Stop That Headache!

Foolish to Suffer When a Simple Remedy will Prevent and Cure

Ever stop to think what caused your headaches?

Probably not. Then look to the bowels and stomach, and you'll find plenty of cause. Chances are you'll find constipation, liver is sluggish, stomach overburdened with half-digested food.

No wonder you are dull, tired, restless day and night.

You need the cleansing influence of Dr. Hamilton's Pills which cure your condition in short order.

Being composed of natural vegetable remedies Dr. Hamilton's Pills possess great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease.

Headaches never come to those who use Dr. Hamilton's Pills, and this fact is vouched for by the Assistant Manager of the Poultry Success Magazine, of Springfield, O., Mr. J. H. Callander, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resisted everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, help the stomach, and make you feel strong and well. For headaches, indigestion, and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills."

You can rely on Dr. Hamilton's Pills with implicit confidence; their effect is wonderful. Sold by all dealers. Price 25c. per box, five boxes for $1.00, or by mail from N. C. Polson & Co. Kingston, Ont., and Hartford, Conn. U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

At once, two maids and one cook, at Nicholls Hospital.

Bears are Plentiful This Year.

On Wednesday Mr. Geo. Bennett, the road commissioner, whilst in pursuit of his business near Long Lake, some 20 miles north of Havelock, met a party of farmers on their way home. He was told that the bears this year are thicker and more in evidence than any year during the past 20 years. This will be good news for our local nimrods.

A Hard House Moving.

Mr. Allen McCarthy, a well-known local contractor, has succeeded in moving Mr. A. E. Davis' summer cottage at Stony Lake, over one hundred yards, over the rocky land of that district. The ground or rather rock where this job was done was so uneven that, at times, the house would be partly on the solid rock whilst other parts were supported on timbers ten feet high.

More Granolithic Pavement Laid.

Street Commissioner Harry Evans has his men working on the new granolithic sidewalk on the north end of George street, and has been able to lay over 2,000 feet of six-foot walk. This is only the third time this summer he has been able to do such a long stretch.

Big Bend Co. Shipping Men.

The Big Bend Lumber Co. whose camps are at Arrow Head, B.C., are shipping a number of men to work there. The company is purchasing eight teams of heavy horses to send into their camps. The wages being paid by the British Columbia lumber companies for bush men are from $2.50 to $2.75 per day, with fair price for board.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

LOCAL INCIDENTS

By The Times Man on the Street

—Fire Water and Light Committee and Finance Committee met last night.

—Dr. Coughlin has been appointed on the new provincial board of health.

—Quite a number of local citizens took in the Lakefield fair yesterday.

—Roseneath exhibition was held yesterday. A number went down from this city.

—Dr. Russell, of Millbrook, has purchased the business of Dr. Montgomery of Baliboro.

—An important meeting of the Brotherhood of St. Andrew of St. Luke's church was held last night.

—Several members of the Peterborough Golf Club left yesterday to play a match with Lindsay.

—This city, to grow and expand, must rely on its manufacturies. Remember this on Tuesday.

—Preparatory services was held in St. Andrew's church last night. Tomorrow is communion Sunday.

—The business of the St. Lawrence hotel, Port Hope, has been sold to Messrs. A. E. Haskill and N.Y. Fleeton.

—Three cases of scarlet fever have appeared in the village this week, but all have been promptly isolated.—Havelock Standard.

—The Mission Band of Knox church gave a concert in the church yesterday evening, at which a good musical program was provided.

—The Ladies' Aid Society of St. Andrew's congregation will tender a reception to the members of the congregation on Tuesday night of next week.

—Mr. Pat Cluman is today mourning the loss of a gold locket with his initials, "P. J. C." inscribed thereon. Mr. Cluman is offering a good reward for its return.

—The Peterborough Light and Power Company are busy putting those large gas mains that have become pretty nearly a nuisance on Simcoe street, underground.

—It was rumored yesterday that a race, at the Roller Skating rink, is on the tapis, between Messrs. M. C. Tooley and Harry Thompson. This would be a good drawing card for the rink.

—Roller skating seems the rage in this city. The local hotelmen do not smile (physically) when this rink is mentioned, as it takes many a nickle tha might otherwise be spent over the mahogany.

Piles positively cured with Dr. Shoop's Magic Ointment. It's made to perfection. Itching, painful, protruding or blind piles, disappear like magic. Sold by J. D. Tully.

—Mr. M. L. Henry is busy these trying to ascertain how qualified voters intend to cast their respective ballots at Tuesday's election. Mr. Henry whilst acting strictly impartially, is "feeling" public opinion.

—It is now up to our citizens to decide and vote accordingly, on Tuesday next, whether a few cents on a thousand dollars is good value paid for getting the Rolling Mills and the Rapid Tool Co. in either judgment turn out and vote.

—The Ladies' Aid Society of Charlotte street church will hold a reception in the Sunday school room, at which all members of the congregation will be afforded an opportunity of meeting the wife and family of the pastor, Rev. H. M. Manning.

Rheumatism is not incurable, stubborn? Yes! But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives rheumatism from the blood and then Rheumatism dies. We recommend and sell it. J. D. Tully.

The Galway Assault Case is Dropped

It now seems as though the Galway assault case would pass into what the late president of the United States, McKinley, called "Innocuous desuetude."

It will be remembered that Oliver Barr, who was charged with the crime, was discharged by the county magistrate because the plaintiff, Mrs. Florence Peters, was no present to give evidence. Mrs. Peters was given permission to bring a new charge against her alleged assailant. She has not done so, and those who should know, are of the opinion that nothing more will be heard of the case. The county will be put to considerable expense by the action.

Steam Boats Laid Off for Season

The Lake Ontario and Bay of Quinte Steamboat Co., limited, with headquarters in Kingston, Ont., have important news to convey as to their service.

Last trip between Rochester, N.Y. and Port Hope and Cobourg, Ont., will be on Saturday, September 29th.

Last trip from Rochester, N.Y., to Bay of Quinte ports and Kingston, Ont., Saturday, Sept. 29th.

Last trip from Kingston and Bay of Quinte ports to Rochester, N.Y., Sunday, September 30th.

SOCIAL AND PERSONAL

—Ald Mason went to Hastings yesterday.

—Mr. and Mrs. J. J. McBain went up the lakes yesterday.

—Miss Huston left yesterday morning to visit in Kingston.

—Mr. S. S. Redmond attended the Roseneath Fair yesterday.

—Mr. L. F. Clarry, of Hastings, was in the city yesterday.

—Mr. E. A. Peck, is spending a couple of days up the lakes.

—Miss Alison Hamilton left yesterday to resume her course in Arts at Toronto University.

—Miss Ella Andrews has returned to Norwood, after visiting friends in Lakefield and Peterborough.

—Miss Bernice Fallon of Peterborough, was the guest of Mrs. Geo. Waymark this week.—Havelock Standard.

—Messrs. Herbert L. Wood and Basil D. Hall leave in a day or two for Toronto to pursue their studies in law.

—Mr. Russell Wood leaves on Monday to resume his course in electrical engineering at McGill University, Montreal.

—Mr. Melville Moore of Peterborough, was in town on Monday and Tuesday the guest of Mr. Jas. E. Fowler.—Havelock Standard.

—Messrs. Hamilton Hall and Robert Hall leave early next week to resume their studies in electrical engineering in the Toronto School of Science.

Mr. Sidney Rush Is Honored

Prominent Member of All Saints' Congregation Given Token of Respect on Eve of His Departure.

An interesting feature of the All Saints' harvest festival was that in evidence at its close, when at a meeting of the Men's Guild, a handsome prayer book was presented to Mr. Sidney Rush.

Mr. Rush who has been a valued member of All Saints' Men's Guild, is about to leave the city to accept a responsible position in the C.P.R. offices, Toronto.

The following address was read by the president of the Guild, Mr. Frank Wise;

Mr. Sidney Rush,

Peterborough, Ont.

Dear Sir and Brother,—Your fellow members of All Saints' Guild learn with regret of your intended departure from Ree city, which will deprive us of your companionship and your services as a member of our Guild.

To our best wishes for your future success we would cheerfully add our testimony to faithful and diligent services which, as a member of the Guild, you have given with such good results, practical evidence of an interest in the welfare of All Saints' which has been exhibited by you since the parish was established.

While we, as a Guild, and a part of the congregation of All Saints', regret your loss, we are sure your absence will be no loss to the interests of the Church, for, with a zeal we know you possess you will find occasion to carry on in some other parish as fruitful and faithful work as you have done here.

Kindly accept this Book of Common Prayer as the best reminder we could present for we know that it will be often used by you, and will serve to remind you of the many friends you leave behind in Peterborough, whose good wishes and prayers follow you wherever you may go.

Signed on behalf of All Saints' Men's Guild.

FRANK WISE,
President.
F. ARNSBY,
Secretary.

Mr. Rush made a suitable reply thanking his friends for their kind words and thoughtful gift.

Rebekah Degree of I. O. F. Assured

The Rebekah Lodge, I.O.O.F., is now almost "an fait accompli." The Oddfellows' committee have about completed arrangements for inauguration of this "side line" of Oddfellowship.

The institution will probably take place on Friday evening, Oct. 12th, if all concerned can attend on that date, but definite announcement will be made later. It was decided that the new lodge should be known as Lift Lock Rebekah Lodge.

Several names have been handed in for membership, and the members of the committee will continue to receive applications until further notice. It is probable that the degree team of Kawartha Lodge, Lindsay, will confer the degree here on the opening night. Grand Master Johnston, Toronto; Miss Ida Rollins, president of the Rebekah Assembly, Hamilton; Mrs. A. M. Pearce, of Toronto, Assembly secretary, and other prominent members of the Order are expected to be present at the institution.

Kennedy to Lower Meat Prices.

Mr. H. P. Kennedy, the well-known local meat market man, if not having wings sprouting under his nearest garment will be placed in the angelic band in the minds of thrifty housewives. Mr. Kennedy, as he did last fall, has decided, we understand, to lower the price of beef. Such a godsend to Peterborough meat consumers will be greatly appreciated.

Changes in Brock Street Rink.

The directors of the Brock Street rink have discussed plans for the season. It was decided to make some interior changes to the rink which will facilitate the patrons being seated with greater celerity and ease.

A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address as above.

The Local Track Well Spoken of

Although there is an undoubtable friction between various cliques of the Peterborough Turf Club, a most regrettable condition of affairs, there is unanimity of opinion as to the excellent condition of the local track.

The Lindsay Post has the following to say,

The Peterborough Fair is reported to have been a success, but it can't touch the big Central, said a Lindsay citizen who attended. There is not the crowd and enthusiasm taken as that at the big Lindsay Central. But they have got a dandy track."

State of Ohio, City of Toledo, } ss.
Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Take Hall's Family Pills for constipation.

Plans for Normal School Accepted

A Toronto dispatch of yesterday says;

The Government has approved of the plans for the new Normal schools at Stratford, Peterborough and North Bay, and tenders for the erection of the buildings will be called for at once. The plans for the Hamilton school will be dealt with later. All the schools will be of brick, and uniform in size and plan, the outside measurements being 78 by 110 feet.

AMALGAMATED COPPER

Capital, - $155,000,000

Par Value of Shares, $100.

PRESIDENT.....HENRY H. ROGERS.
VICE-PRESIDENT.....F. P. ADDICKS.
SECRETARY-TREASURER.....A. H. MELIN.

DIRECTORS—A. C. Burrage, Boston; Anson R. Flower, New York; William Rockefeller, New York; Henry H. Rogers, New York; Henry H. Rogers, Jr., New York; James Stillman, New York—many of whom have helped to make Standard Oil the most successful industrial corporation in America, and whose efforts are now concentrated on making Amalgamated

THE PREMIER COPPER COMPANY

in existence.

In point of daily transactions Amalgamated is only exceeded by Union Pacific, a stock which has recently had a most phenomenal enhancement in market value—the dividend rate having been increased to 10 per cent. per annum — an issue on which my advices have been uniformly bullish.

What has taken place in Union Pacific is not only easily possible in Amalgamated, but highly probable as the earnings applicable to distribution in the form of dividends are conservatively estimated at 15 per cent. on an 18c Copper market, a metal in tremendous demand and the price of which is

STILL MOVING UPWARD

The present dividend rate on Amalgamated is 7 per cent., netting the investor, at present market price, something over 6 per cent., so when bought on margin it yields a profit over carrying charges—or, in other words, it more than

PAYS ITS BOARD

My advice to Speculators, Investors and Students of Value at this time is to leave to the other fellow the slow, inactive, dormant issues, the only movement in which too frequently is contrary to expectations, and at once begin accumulating a line of what now ranks second, but which is destined to quickly become

THE MARKET LEADER

My information on this is based on

FACTS OF THE SUREST NATURE

and I am of the firm belief that a further advance in Amalgamated to

120

IS ON THE EVE OF MATERIALIZATION

Buy it and by placing your order with the house of NORRIS P. BRYANT I will undertake to keep you fully informed on

ALL THAT'S DOING

The Bears and those misguided people who are following the prophets of evil and trying to make a killing by being short of this security should cover their short commitments at once—thus a little later avoiding being counted among the number who only too frequently commit

FINANCIAL SUICIDE

by selling that which they do not possess.

The big fortunes are made by those who get into good stocks and stay with them. Disregard temporary fluctuations, as they are inconsequential compared with maximum movements which the really successful people have a faculty of reaping the full benefit of.

There is no optimists are getting all the money, and as we are in the midst of what promises to develop into the

GREATEST BULL MARKET EVER KNOWN

you will be acting wisely in arraying yourself on the side of the makers of value and begin operations at once.

Amalgamated Copper is the owner of 51 per cent. of Anaconda, the world's greatest Copper Mine, and is my selection for the next big fortune maker.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 231 PETERBOROUGH, ONTARIO, MONDAY, OCTOBER 1, 1906. PRICE TWO CENTS

PETERBORO'S VAST NEW INDUSTRY NOW ASSURED

Messrs. Coates Bros., Paisley and Perth, Scotland, and Willesden Lithographing Co., London, England, to Locate Here.

Our readers will remember that in last Monday's issue of The Times, we noted, exclusively, that on the preceding Saturday, Senator Geo. A. Cox was in the city, in company with the representatives of a vast English and Scotch concern, who were seeking location for a very large industry about to be opened up in Canada.

The Senator having previously ascertained that those in charge of a location for the industry, were thinking of going to Western Ontario, at once telegraphed and persuaded these gentlemen to come to Peterborough and spy out the land and chances in this city. Senator Cox, spent Saturday, a week ago in showing these English capitalists about the city and the result was they were favorably impressed with Peterborough and its opportunities and attractions.

By request, for obvious reasons then, we omitted the names of the English and Scotch firms interested. We might, however, now note that arrangements have practically been completed by Henry Coates of Coates Bros.' Limited, of carpet manufacturers of Paisley and Perth, Scotland, and Joseph Dunmoodie, the managing director of the Willesden Lithographing Company, Limited, with offices in London, to form an Ontario joint stock company, under the name of the Coates Manufacturing Company Limited, with head offices in Toronto, and works at Peterborough.

The authorized capital will be one million dollars, and in addition to the Scotch directors, a number of Canadians prominent in financial affairs will be on the board.

The company proposes to manufacture carpets and will also conduct business as a lithographing company. The management of the two departments will be under Mr. Dunmoodie, who will reside in Peterborough.

As is well known not only to those interested in both the wholesale and retail dry goods trade, Messrs. Coates Bros., of Paisley and Perth, are the largest manufacturers of sewing and other cotons in the world, and readers of magazines all over the globe are familiar with Messrs. Coates well known advertisements.

The new factory, which will require twenty acres of land, will employ many hundred hands, most of them skilled mechanics, it is thought by those best acquainted with this subject that the new factories will begin operations, as soon as their buildings are ready, and machinery installed, with from 600 to 1000 men. This means an addition to Peterborough's population of from 2,000 to 3,000 new citizens. This will boom both property and greatly assist our local merchants, as well as providing work for many of our townsmen and women. Let us hope this deal will go through satisfactorily, and become an fait accompli, as the location of such a vast concern in our midst will attract the attention of others in Great Britain and the United States.

The scheme is one by which telephonic communication with any station can be established on a train by connecting an apparatus with the telegraphic wires and at the same time not in any way interfere with the lines as telegraph lines.

A special car with the apparatus on board took the party out near St. Constant, where the train was stopped and the work of connecting the apparatus took only a few seconds. In one minute members of the party were talking to Montreal and then to Farnham.

It was the general opinion among those present that the invention is a valuable one and that it will be adopted by many railways.

POLICE NEWS

Daily Happenings in Court Room and Station.

Much interest was taken in Saturday's session of the police court. John McCoy, well known in the police court interior, who the other day tried to commit suicide by drinking gas, killed again occupied a seat on the prisoners' bench Saturday morning. He was charged with vagrancy. He was accommodated with an order for six months board in the Central Prison.

Thomas McDonald, a former Cobourg resident pleaded guilty to being drunk in a public place on Friday, and was fined two dollars or fifteen days in jail.

A well-to-do resident was charged with the non-support of his family. Mr. D. O'Connell appeared for the defendant and Mr. F. D. Kerr for the plaintiff. Fortunately an understanding and reconciliation had been affected and everything turned out lovely.

Commits Suicide by Taking Carbolic Acid

Toronto, Oct. 1.—Carbolic acid killed James F. Grindall at 184 Harbord street on Saturday. He was a young man with a wife and two children. Lately he has been worrying about things, but although despondent, no such tragic termination as that of Saturday was anticipated. It appears that Grindall made his wife an affectionate good bye on Saturday morning and then went upstairs, where he consumed a considerable quantity of carbolic acid, which he had procured from a neighboring drug store.

One of his children went to Dr. Canfield and said "My dear daddy is dying." When Dr. Canfield could get to the house his services were of no avail. He sent for Dr. Harring on the family physician, but it wasn't any use Grindall was dead and when the chief coroner was notified by Dr. Harrington of the circumstances it was called a case of suicide, with no inquest necessary.

Orders are Issued for 5,500 Men to Sail

Washington, Sept. 30.—Secretary Taft has cabled from Havana to Acting Secretary Oliver at the war department to send the American troops to Cuba in accordance with the program already arranged. Secretary Oliver is trying to communicate this despatch by wireless telegraphy to President Roosevelt, who is on board the Missouri off Barnstable, Mass. observing the naval target practice. In order to secure the necessary authorization of the movement.

While waiting to hear from the president, acting Secretary Oliver has issued orders for the first expedition of 5500 soldiers to prepare to sail for Newport News as soon as possible. This is subject to approval by the president, but it is believed at the war department that as the president and Secretary Taft probably had a thorough understanding of what should be done in the present emergency, there will be no delay in securing the formality of the president's approval.

Therefore the second program is being put into execution. Quartermaster General Humphrey has been ordered immediately to contract for the necessary transports to convey troops to Cuba, and the traffic managers of the railroads centering at Newport News have been instructed to prepare to contrain immediately the troops at the various army posts which have been selected by the general staff for Cuban service.

2,000 Take in the Lakefield Fair

Lakefield has every reason to be proud of their unusual fall fair, by the way, the first fair of the Smith, Ennismore & Lakefield Agricultural Society which was held in the village on Friday, and surpassed all previous meetings there in every respect.

The fair was held on the new grounds, which are admirably located, and are provided with excellent buildings. The grounds cover some nine acres, and a fine track has been laid out. The society has a property of which it may well feel proud. Nearly 2,000 people were in attendance.

Great credit is due to Mr. R. Q. Dench, the energetic president of the society has held the office for several years. Mr. W. Sherin, the obliging secretary-treasurer, was the busiest man on the grounds. County Councillor H. C. Garbutt is the energetic vice-president, and the other officers are:—

Honorary Directors—T. E. Bell, G. J. Galvin, and C. Quinn.

Directors—John Fairbairn, Ed. Fitzgerald, G. W. Adams, R. Garbutt, Thos. Fitzgerald, S. Wallace, A. Johnson, J. W. Cornish and R. Duff.

Auditors—W. M. Graham, and A. Fairbairn.

Said He Was Teddy's Son

Boston, Oct. 1.—Police Commissioner Stephen O'Meara issued a statement last night that the police would apply for warrants for the arrest today of two men supposed to be Harvard students, who assaulted Reserve Officer Fraher and an unknown man on Boston Common Thursday night.

One of the assailants who was questioned by the police at the station last night said he was a son of President Roosevelt. He was allowed to go.

Officer Fraher was stripped up on the Common while attempting to apprehend two young men who were tearing a sign on its side. In falling the officer sustained a fracture of the nose and was taken to a hospital.

Negroes Hate All White Men

London, Oct. 1.—Hart Kennedy, continuing the articles on America, which are appearing in the Daily Mail, deals with the negro question, apropos of the Atlanta lynchings and race war;

"The people of the east and north," he writes, "says that the white man of the south is wrong, because he endeavors to keep himself and his home in the midst of a sullen and hostile race of blacks. I know there are instances of blacks who like and are faithful to the whites, but these instances occur only where the blacks are content to be subservient. The negroes hate the whites and have good reason. They have an little love for the white hypocrites who deplore the negro's wrongs as they have for the whites who are more honest and frank in the matter.

"I worked with negroes at cutting sugar cane in the fields of Louisiana. There I had practically a first-hand proof of their feeling against the whites. There was a sullen, smouldering, terrible resentment that flamed up when a chance occurred. This feeling was directed not only against the Americans in the south, but was directed against all white men. That there is a strong reason for this is not the point. The point is only that it exists and is not placated. The negro means to fight when he can.

"On my present visit to America, I again note this feeling, which has grown since I was there last. The negro is beginning to be openly hostile to the whites. The people in Washington are stopping rolling bodies are. The situation can end in only one way."

Tecumsehs and Capitals Win.

The Tecumsehs had no trouble in taking Saturday's game from the Toronto on the Toronto Island, being in the better condition and the more conversant with the grounds. The Tecumsehs winning by a score of 6—1. At Ottawa, the Ottawa's lost by 7—6, and the return game in the Factory town should be lively for the Capitals to hold the lead.

Another Plot Against the Czar.

London, October 1.—Another plot has been discovered at Peterhof against the life of the czar. A mysterious lady was conveyed by a strong escort to the fortress of St. Peter and St. Paul on Wednesday night, says a St. Petersburg despatch.

NO VOTE TOMORROW ON ROLLING MILLS BYLAW

This Promising Factory, to Have Employed Fifty Hands Will go to Either St. Catharines or Welland on Account of Power Prices.

Notwithstanding the agitation that has been stirring this city for some weeks, over the vote to have been held tomorrow on the bonus of some $6,000 to the Peterborough Steel Rolling Mills, at the eleventh hour, The Times has it on indisputable authority, the company has definitely decided not to locate here. It is not yet known absolutely where the company will locate, but there is every reason for believing that they will go either to St. Catharines or Welland, Ont.

The ostensible reason for this change of base is that the prices charged for electric power in Peterborough is considered too high. Whilst this alleged reason is not yet definitely confirmed it will be a left-handed advertisement for this city, whose great boast for new factories, among her other advantages, is cheap power, and may have a tendency to impel the ratepayers to think their taxes for bonuses is going indirectly into the pockets of the power companies.

As is well known there were to have been two separate votes tomorrow, one to the Steel Rolling Mills, now practically cancelled, and one on a bonus of $1200 to the Rapid Tool Company.

The fact of the Rolling Mills question being out of the race at Tuesday's vote, will probably result in the Rapid Tool Co. bonus being carried by a large majority.

In partial corroboration of the statements as to the Rolling Mills going to St. Catharines, it might be noted that a St. Catharines' despatch says;

"Daniel O'Connor and W. A. Mara representing the newly-formed company of Peterborough capitalists, were in the city today conferring with a committee of the city council, relative to locating a steel rolling plate factory here.

"They were met by Mayor Riddell and Ald. Kingstone and Leonardorf, and showed several available sites, on a portion of the old fair grounds, and another a portion of land near the Jenckes' new factory, close to the Grand Trunk and Niagara, St. Catharines & Toronto railways and close to the new Welland canal.

"The visitors expressed themselves as delighted with the opportunities of the city, and will likely make a proposition to the city council at its next meeting."

The officers of the Peterborough Steel Rolling Mills are as follows.

President—W. G. Ferguson.
Vice-Pres.—W. H. Hall.
Sec.-Treas.—D. O'Connell.
Directors—W. Ruddick, Alex. Elliott, James Davidson and W. H. Denham.

It might be noted that the Rolling Mills Company paid several canvassers out last week with voters' lists, with a view to ascertaining the feeling of the voters. The Times in conversation with two of these gentlemen last Saturday was assured that in the replies voters had given them, it looked as though the bylaw would carry.

Fire Hall Hay Loft Enlarged

Saturday morning Aldermen Graham and Adams, Architect Bleckwell and Chief Rutherford went as a committee to investigate and settle the matter of increased accommodation for hay storage facilities in the new fire hall.

It will be remembered that this matter was brought up by the aldermen at Friday night's meeting when it was proposed that $250 more be spent on this building as the "hay loft" was not capacious enough either to store a reasonable amount of fodder, nor would the ceiling be high enough for a man to use a pitchfork.

The result of Saturday's visit as above noted is that the committee decided to offer the contractor in charge $125 to increase the size of the loft from five feet six inches in height to approximately 12 feet. This would enable a man to work comfortably, increase the capacity from about 21-2 tons to five tons of hay, and thus enable the city when purchasing hay to get it cheaper owing to the larger quantities bought.

Largest Chicken Farm in World.

Easton, Pa., October 1.—The largest chicken farm in the world is soon to be started in Palmer township, three and one-half miles from here. The farm, which consists of 107 1-2 acres, has been purchased from Wilson Bros., of Easton, by William Talmage, of Toronto, Canada, and John Haupt, of this city. The land was purchased for $15,000. The new owners will take possession today. This fall 1,000 laying hens will be placed upon it, and the number will be increased to 10,000. The largest chicken farm at present is said to contain 8,400.

To equip and stock the new farm will mean an outlay estimated at from $10,000 to $50,000. Mr. Talmage is a retired wholesale druggist of Toronto.

Mr. R. J. Devey Brings Good Show

Westminster Abbey Glee and Concert Co. Here on Oct. 15th.

Mr. R. J. Devey, the talented organist of St. John's church, with commendable display of his love for high class music is personally bringing to Peterborough, the Westminster Abbey Glee and Concert Company. The last tour of this grand musical organization through the various portions of the British Empire, and their reception has each year been greater and more appreciative than the one before.

This splendid company of all star artists comprises such world-wide known artists as Mlle. Marie Hootel, contralto; Hayden Fraser, male alto; Edmund Standale Bennett, bass; F. Pittman, baritone; E. Brancombe Tenor, and Harry Grimes in his celebrated musical sketches.

This grand company will appear in the local opera house on Friday evening, October 5th, and is undoubtedly the best value for the money that has appeared this season in Peterborough.

Mr. J. Jeffries to Go to Toronto

The management committee of the Board of Education, Toronto, has accepted the report of Dr. Embree, senior principal of the Toronto Collegiate Institute, who recommends the several specialists' positions be filled. Mr. J. Jeffries, B.A., English Master of the Peterborough Collegiate Institute for the past seventeen years, is recommended by Dr. Embree for the position of English specialist in the Jarvis street Collegiate Institute, Toronto, the appointment now being vacant. It is likely that the report will be adopted by the Toronto Board of Education at its next meeting, in which case Mr. Jeffries will receive the appointment. Should he decide to accept the position in Toronto, many friends in Peterborough will regret his departure from this city.

New Japanese Customs.

Tokio, October 1.—The new customs tariff, which went into effect today, shows that the articles essential to Europeans are the most heavily taxed. All articles of European wearing apparel are taxed 40 to 50 per cent. It is quite etiquette for a Japanese gentleman to go anywhere in kimona and clogs while such commodities as table cloths and curtains are never seen in a house furnished in Japanese style.

TESTED THE TELEGRAPHONE

Canadian Pacific Railway Officials Found It to Work Well.

Montreal, October 1.—Canadian Pacific Railway officials made a test of the Telegraphone, the new instrument which is to be introduced on a number of railways. The party consisted of Mr. D. McNicoll, Mr. J. McCormack, Mr. James Kent, Mr. W. J. Camp, Mr. O. W. Pease and Mr. J. B. Gaughn and Mr. F. C. Hirsch, of the Canadian Telegraphone Company.

The London Bribery Case

Toronto, Sept. 30.—The case charging conspiracy to bribe in connection with the East Dominion by-election in which Hon. Hyman was elected came up again in the police court here Saturday morning. Geo Reid, of London, came to Toronto on Friday night and surrendered himself to Crown Attorney Corley. Saturday morning the following charge was read to him:

"That John O'Gorman, a present resident in the City of Toronto, with Jos. Hardy, Wm. J. Service, George Ardy, Wm. J. Milloy, Daniel Wiley, Geo. Reid, E. J. Sifton, of the City of London, and Geo. Pearson, of the City of Toronto, during and about the years 1904 and 1905, at the City of Toronto, and at the City of London, unlawfully and wilfully did conspire to give to and promise to procure money for certain and divers voters, in order to induce such voters to vote, to advance and pay and to cause to be advanced and paid money for the use of divers persons, with the intent that such money should be expended in bribery and corrupt practices, or pay and cause to be paid money to divers persons in discharge and repayment of money expended in bribery and corrupt practices, to attempt to obtain at polling places information as to the candidates for whom voters voted, or communicate to divers persons information obtained at polling places at the election of members of the Dominion Parliament and Ontario Legislature holden in the said years, contrary to the forms of the statutes in such cases made and provided."

Mr. Robinette put in a plea of not guilty, and deed was remanded till Monday on $1,000 of his own bail, and $1,000 furnished by Geo. Wrixon, Toronto. Mr. Robinette objected to the cases being tried in Toronto. Magistrate Denison declared that he would investigate the cases, and if he had not jurisdiction, he would send them on to London.

No Russians Need Apply.

Geneva, Switzerland, October 1.—Notices have been posted at most of the hotels and private houses here that Russians are refused accommodation. This arises from the recent discovery of a Russian bomb depot in Switzerland.

PETERBORO' DEFEATS THE VICTORIAS AT RUGBY

First Game of the O. R. F. U. Championship Series Won by the Locals on Saturday by a Score of 16-7.

The Rugby season opened in Toronto on Saturday, when Peterborough downed the Victorias 16 to 7 in the first game of the O.R.F.U. senior series, before a small crowd. The half-time score was 5 to 1 in favor of the Toronto team, but a fumbled punt, which allowed the locals to score a try early in the second half, served to disheartten the Vics, who were thereafter on the defensive. Victorias' back division, was inclined to go up in the air at times, and the Peterborough wings seemed to freshen, following up in good style, and making things decidedly interesting. A muffed punt behind the line gave another touch, and a succession of rouges made up a total of 16 points.

Peterborough won the toss and took the choice of ends. At the kick-off the Vics started out like winners. The pigskin traveled persistently into Peterborough territory, and the initial tally was soon made on McWilliams being tackled behind the line by McWhirter. Gillespie was similarly nailed by Killaly soon after, and then Ford was compelled to rouge, making the score 3—0. Capt. Gowans of the Vics dropped a goal from about the quarter mark, but the whistle had blown for an off-side, and the score wasn't allowed. However, a place kick by him soon after netted two points. Score 5—0.

The play continued at the Peterborough end till close to half-time. Holden, the American college player; Barber and Muther were especially conspicuous on the wing line. Peterborough's goal line was often threatened, but the backs were playing a great game, and the attacks were staved off, till finally Bill Crowley worked in a splendid 25-yard run up the field, carrying the ball almost for the first time into Vics' territory. It was lost on downs about 20 yards out, but on a punt a little later Gowans was brought down behind the line for the whistle blew with the score 6—1 for the Toronto team, in a pouring rain.

The rain continued to pour, in the second half stanzas. Gillespie was forced to rouge on a punt, and followed up, and the locals had five points to make up. Crowley, who played a great game all through, swooped up a pass to McWhirter from loose and was over for the first try of the game, carrying the ball toward the posts. Williams kicked an easy goal and Peterborough was in the lead 11—6.

It was the Toronto team's turn to be on the defensive now. Doane tried a punt, nearing the goal line, and was blocked. McWhirter being forced to kick into safety. Doane was sent off a few minutes later for passing Referee Barr, and for the rest of the game Vics played in man short. Killaly couldn't handle a pass from McWhirter cleanly and had to rouge. Soon after Crough bounced on a ball fumbled also by Killaly, and the score was 14—6.

The goal was not converted. Vics added a tally, when Mulhern rougued and pressed, letting full back get away for a 50-yard run, the one individual dash of the day. Gillespie worked in another for 25 yards and McWhirter was tackled by Crough for another point. The scoring ended when Killaly kicked into safety, and the game ended in midfield, with the score 16—7.

The game was a clean one, and apart from Toone the penalties were slight.

For Peterborough while all the team worked well, special mention must be made of the star playing done by Mulhern, Crowley, Crough, McWilliams and Hortubise.

The teams were:

Peterborough (16)—Back, Mulhern-Hortubise; McWilliams, Gillespie, Ford; scrap, Hortubise; inside wings, Craig and Regan; middle, Barber and Crowley; outside, Gibbs and Crough.

Victorias (7)—Back, Toone; halves, Killaly, Gowans, McWhirter; quarter, Hewitson; inside wings, Palmer, Mark; middle, Holden, Chamberlain; outside, Munns and Harper.

Referee—A. F. Barr, Toronto.

America's Most Important Paper

Wonderful Growth of the Los Angeles, Cal. Times.

The United States, always noted for the enterprise, circulation and influence exercised by its wonderful system of news-gathering and dissemination by the newspapers of that country, does not issue a brighter, more readable and reliable paper than the Los Angeles Times.

This paper, although published within sound of the Pacific Ocean's surf, by its complete and comprehensive system of news-gathering, contains as correct and detailed reports of every matter of interest, happening all over the United States and the whole world, as does the New York, Chicago, or London great dailies.

The Los Angeles Times has, more than any paper on the continent, always waged fierce and uncompromising war against monopoly and trusts of every nature, whether the monopoly of millions, as exercised by the beef and other trusts, but against the domination and dictation of organized labor. For those desirous of obtaining the brightest news, correctly and fearlessly told, we would strongly recommend the Los Angeles Times, a paper that the trusts in vain have tried to down, but which today has the largest circulation and greatest number of advertisements of any daily or weekly in the United States and probably the whole world.

Legislature of Saskatchewan.

Regina, Sask., October 1.—The winter session of the provincial legislature will commence immediately after the Christmas holidays. It is not likely that a redistribution bill will be introduced.

How to Make a Successful Exhibition

Messrs. J. J. Turner & Sons Favor Civic Action.

(To the Editor of The Times.)

Dear Sir—We read Mr. Hughes-Charles' letter in your paper and we certainly think that its remarks are all true and to the point. The merchants and citizens of Peterborough do not take the interest that they should in our exhibition, and until they do we will not have a successful exhibition.

We think some one should endorse Mr. Hughes-Charles' suggestion that the city buy the grounds and put up first-class buildings a good one, and we hope that the mayor and city council will take the matter up at once and get the matter in shape for next year.

We should have one of the best exhibitions here outside of Toronto, and we believe that it could be run one week if the city will take a hold of it and appoint one first-class man to look after it as they do in Toronto, and we feel sure that it would be a success. We have good grounds and the street cars running to the gates of the exhibition. We also agree with Mr. Hughes-Charles that it was a great mistake to change our exhibition to two days, as it is not of any benefit to the city, as the people from outside places do not come to the city till the second morning of the exhibition and they are away again the same night. If the exhibition had been held for three days the majority of the people attending the exhibition would have stayed for one night at least in the city and our merchants, hotelkeepers, butchers, bakers, grocers and liverymen and others would have reaped some benefit.

We hope that this exhibition matter will be taken up at once by the city and let us have an exhibition that will be a credit to the City of Peterborough.

We remain, respectfully yours,

J. J. TURNER & SONS.

Coffee vs. Brains

A London physician commenting on the increase of "coffee drunkards" in Great Britain, says:

"Coffee is a cerebral (brain) stimulant ranking with alcohol." He condemns the after-dinner black coffee, (vaunted by the coffee defenders as "harmless"), saying it is responsible for many cases of insomnia.

The poisonous drug in tea and coffee is very much

Like Whisky or Brandy

It overworks the Heart and Brain and, whether immediately realized or not, is followed by a depressing, weakening reaction.

Frequently it establishes a

Drug Habit

Thousands of coffee slaves have found relief from coffee ails by the easy change from coffee to

POSTUM

"There's a Reason"

PALE AND ANXIOUS

Your Countenance Indicates the Body's Awful Struggle for Health.

Impossible to work or think clearly when there is no reserve of vigor, no nourishment in the blood, no supply of nerve energy.

The life of the half-sick man is pitiful, in fact, almost criminal, when bounding strength is so quickly derived from Ferrozone.

This nutritive tonic is guaranteed to strengthen all men, women and children. Weak organs get new force, vital energy is generated. Muscle and fat are added, healthy color is restored, and the blood fairly tingles with new-found life.

Read the evidence of Jno. Carter, of 194 King St. East, Toronto, who says:

"After a severe attack of Grippe my health was almost shattered. I suffered constantly from nervousness and dyspepsia. At night I would waken with terrible palpitation and heart pains. Work became a great effort. At ten in the morning I was so tired and weak I could hardly work another minute.

"Then came a bad attack of rheumatism, which laid me up in bed. I could scarcely lift the weight of a pound, and to stoop or bend was impossible. My druggist recommended Ferrozone, and he knew what he was talking about, for it rebuilt my strength, gave me abundant appetite, better blood, and new nerve energy. The rheumatism has disappeared. I weigh more, feel refreshed and vigorous, and am able to work ten hours a day. Ferrozone did it all."

You will be steadied, toned and strengthened for all time to come with Ferrozone. Get the genuine in 50c. boxes or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, OCTOBER 1 1906

A SENSIBLE MOVE

The C. P. R. has done a sensible thing in agreeing to stand the expense of freight destroyed by fire while in its custody. It probably doesn't mean a terrible lot in money to the railway, and unless other railways follow suit quickly there will doubtless be enough coming in by way of earnings and additional business to make up for what loss there is. The main point is that all orders and conditions of people ship freight, and only a small percentage of them know enough to take all necessary precautions against loss on the way to the destination. The ordinary man assumes that if he confides his goods to a railway, the railway can be trusted to deliver those goods. The C. P. R. says the ordinary man is right, so far as the C. P. R. is concerned. It is a big way of looking at the thing, but then that is the C. P. R.'s way anyhow.

A NOTABLE CASE

The case of Albert T. Patrick, under sentence of death for the murder of William Marsh Rice, of New York, is a remarkable one, and attention is called to it at the moment by the presentation of large petitions in his behalf. Governor Higgins is asked to appoint a commission of physicians to examine the expert medical testimony, and report thereon whether the adverse finding was in its opinion correct. The idea is that if this body of physicians on reading the record concludes that the medical testimony did not warrant the verdict of the jury, the governor will exercise the prerogative of pardon.

Patrick's arrest in the first instance was not for the murder of Rice, but for forging the dead man's will which he produced. The revelations in that trial led to the murder charge, on which he was arrested on October 4, 1900, nearly six years ago. The trial began on January 30, 1905, and Patrick was convicted of first degree murder on March 26, 1902. Appeal was taken on February 10, 1902. Petition for new trial denied by trial court on March 9, 1902; argument for new trial before Court of Appeals on March 15, 1905; appeal refused and conviction affirmed on June 9, 1905; execution set for August 7, 1905; motion for reargument and stay of execution granted on July 30, 1905; appeal denied by Court of Appeals, October 27, 1905; governor granted a reprieve on January 16, 1906.

Partick has been in the death house at Sing Sing since April 7, 1902. His trials and the subsequent proceedings have cost New York State little short of a quarter of a million. The evidence on which he was convicted was largely technical and by medical experts, and many think that in view of its contradictory character Patrick should not be executed, hence the present action.

—Three cases of scarlet fever have appeared in the village this week, but all have been promptly isolated.—Havelock Standard.

KING OPENS ANNEX

Building at Aberdeen University is a Granite Structure

London, Sept. 29.—The King, accompanied by the Queen, opened the new college yesterday.

The King said it gave him much pleasure to open the new buildings for the promotion of scientific and higher education.

Lord Strathcona then presented a gold key to His Majesty, who declared the buildings open, amid intense enthusiasm.

Accompanied by Lord Strathcona, the Lord Rector, the principal and architect, their Majesties inspected the buildings and afterwards received an address from the corporation and Knighted Lord Provost Lyons.

The corporation lunched the Queen, Lord Strathcona and Lady Strathcona were among the guests while the King chatted.

In the evening a grand banquet was given by the Chancellor. There were 2,500 guests housed in the specially built wooden pavilion, in which temporary gas gradually leading citizens and delegated scientists from abroad assembled.

The poor of the city were also entertained through Lord Strathcona's generosity, and the day concluded with a display of fireworks.

The annex is a splendid granite structure erected at a cost of $1,250,000.

BATTLE TO THE DEATH

New York, Sept. 29.—There was a battle to the death on the Bronx Park range the other night, and the zoological collection is poorer by one European red buck. When John Quinn, keeper of the range, made a visit yesterday morning to that part of the park where the deer are kept, he saw there had been trouble during the night. Patches of turf had been torn up, and many of the small bushes were trampled down.

After a search over the eight acres which comprise the range Quinn found in the far northwestern corner of the reservation the carcass of the buck. Its sides were gored, and there was every evidence that the animal had died only after a long fight.

Quinn found the victor practically without a scratch. The bucks were given to the city by John D. Rockefeller two years ago. They had been known as "John D." and "Junior." It was "John D." who succumbed to the onslaught of his range companion.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Uplifting the Fallen

London, Sept. 29.—"As regards the servants we are sending abroad," said Commissioner Nichol, when interviewed by a London newspaper representative, "we reach a class of women who do not usually become domestics in this country. There is the woman who has been betrayed, but who is not guilty inclined; we remove her from the atmosphere of shame which surrounds her, from the pointed finger of scorn, from further temptation which may come of mere desperation. Then there are the semi-incorrigible girls who are subject to discipline in their surroundings. Nearly all of these girls make industrious servants, and often become good wives and devoted mothers."

Priest Eloped with Nun.

Paris, Sept. 29.—Abbe Delarue, cure of Chauney, who disappeared about two months ago, and who was though to have been assassinated, was yesterday accidentally found to be alive and well, living in Brussels with a teacher, formerly a nun of the same town, with whom, it appears, he eloped. The Paris newspapers made great efforts to discover his body, four of them employing a liveried footman for the purpose.

In Womanly Ailments and Weaknesses

Dr. Shoop's Night Cure Soothes, Heals and Cures while the Patient Sleeps.

The best remedy which physicians know for Female Weaknesses is composed of parts of a certain white lily. To this are added other remedies which draw out the poisons and heal the inflamed membranes. This soothing antiseptic local application is known by druggists and physicians everywhere as Dr. Shoop's Night Cure—because it cures while the patient sleeps and the morning finds the pain, the inflammation, the discharges, abated. The lives of many women are proverbs of martyrdom. They suffer, they are sick, they never know a well day—yet all this suffering and sickness is unnecessary. Every ailing woman made strong—may be made to ex[illegible] portioned the vigor and vi[illegible]lthy of rosebuds and perfec[illegible]by healthy womanhood. It is to [illegible] this ever-increasing number of suffering women that Dr. Shoop sends his message of hope and life and good cheer. It is to these sick and ailing women that Dr. Shoop's Night Cure will come for a Balm of Gilead. You may not know your trouble by the name physicians give it, but remember Dr. Shoop's Night Cure may be relied upon in all cases of womb ulceration, falling of the womb, pains in the womb or ovaries, leucorrhoea, (whites), inflammation, congestion, irregular or painful menstruation. Ask for Dr. Shoop's Night Cure. Recommended and sold by

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

Par Value of Shares, $100.

PRESIDENT.....HENRY H. ROGERS.
VICE-PRESIDENT.....F. P. ADDICKS.
SECRETARY-TREASURER.....A. H. MELIN.

DIRECTORS—A. C. Burrage, Boston; Anson R. Flower, New York; William Rockefeller, New York; Henry H. Rogers, New York; Henry H. Rogers, Jr., New York; James Stillman, New York—many of whom have helped to make Standard Oil the most successful industrial corporation in America, and whose efforts are now concentrated on making Amalgamated.

THE PREMIER COPPER COMPANY

in existence.

In point of daily transactions Amalgamated is only exceeded by Union Pacific, a stock which has recently had a most phenomenal enhancement in market value—the dividend rate having been increased to 10 per cent. per annum — an issue on which my advices have been uniformly bullish.

What has taken place in Union Pacific is not only easily possible in Amalgamated, but highly probable as the earnings applicable to distribution in the form of dividends are conservatively estimated at 15 per cent. on an 18c Copper market, a metal in tremendous demand and the price of which is

STILL MOVING UPWARD

The present dividend rate on Amalgamated is 7 per cent., netting the investor, at present market price, something over 6 per cent., so when bought on margin it yields a profit over carrying charges—or, in other words, it more than

PAYS ITS BOARD

My advice to Speculators, Investors and Students of Value at this time is to leave to the other fellow the slow, inactive, dormant issues, the only movement in which too frequently is contrary to expectations, and at once begin accumulating a line of what now ranks second, but which is destined to quickly become

THE MARKET LEADE

My information on this is based on

FACTS OF THE SUREST NATURE

and I am of the firm belief that a further advance in Amalgamated to

120

IS ON THE EVE OF MATERIALIZATION

Buy it and by placing your order with the house of NORRIS P. BRYANT I will undertake to keep you fully informed on

ALL THAT'S DOING

The Bears and those misguided people who are following the prophets of evil and trying to make a killing by being short of this security should cover their short commitments at once—thus a little later avoiding being counted among the number who only too frequently commit

FINANCIAL SUICIDE

by selling that which they do not possess.

The big fortunes are made by those who get into good stocks and stay with them. Disregard temporary fluctuations, as they are inconsequential compared with maximum movements which the really successful people have a faculty of reaping the full benefit of.

The optimists are getting all the money, and as we are in the midst of what promises to develop into the

GREATEST BULL MARKET EVER KNOWN

you will be acting wisely in arraying yourself on the side of the makers of value and begin operations at once.

Amalgamated Copper is the owner of 51 per cent. of Anaconda, the world's greatest Copper Mine, and is my selection for the next big fortune maker.

STRICTURE AND KIDNEY DISEASE CURED.

G. R. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. R. WRIGHT, Lansing.

COLD OR COPPER?

Become interested at once in the

Goldfield Tunnel and Mining Co.

and get both

It has well under way the development of two fine properties,

A Gold Mine and a Copper Mine

THE GOLD MINE—A tunnel proposition, the tunnel being run between mines of proven value to cross-cut their ledges at great depth. It is already in 375 feet and cutting stringers assaying gold.

THE COPPER MINE—A shaft on ledge, all is ore and down 70 feet. A says average $40 in copper along ledge at the surface.

A limited amount of this Company's stock can yet be bought at 25c., par value 6l.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 9 1-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. A careful investigation will show you beyond all question that this is the best opportunity for large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life interests. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

A GOOD CANADIAN REPRESENTATIVE WANTED

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH — A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"Now," concluded Miss Elmer, "I have nothing but my own instincts to guide me in my judgment that this unknown man is the murderer of Sir Vincent. I shall therefore instruct Mr. Cassinove's counsel to subpoena this Helen Ravenscroft as a witness for the defense, and have her examined if she can be found. She has disappeared from the house for the last few weeks."

Laura Elmer spoke with an earnestness and an absorption in her subject that rendered her unobservant to its effects upon Mrs. Russel. Now, however, she looked up to see the eyes of the poor woman wide open with astonishment, and her cheeks white with fear. Laura Elmer noted these signs of emotion, and proceeded:

"Now, Mrs. Russel, this man must be found, his peculiar relations with the family of Sir Vincent must be explained; and by these means I have strong hopes that the truth may be discovered, and Mr. Cassinove's innocence made manifest."

The landlady replied not one word, but her eyes seemed to grow larger and larger in amazement.

"Mrs. Russel, you can materially aid us in the discovery of this strange man," said Laura Elmer, fixing her eyes upon the face of the other.

"Me! me! how ever could I help you?" exclaimed the landlady, in consternation, clasping and wringing her pale fingers.

"I will explain. Upon the very first meeting of Mrs. Ravenscroft and this unknown, your children, who were near at hand, recognized the man, and called your own attention to him. You can tell us who he is."

"Oh, it would avail you little to know! He is one with whom I was intimate long ago. I had not seen him for years when I saw him for an instant that day in the park. I have not seen him since. I do not know where he is. I have not even the least knowledge whether he is in or out of England. I know no more of him, so help me Heaven."

"Mrs. Russel," continued Laura, without for an instant withdrawing her controlling gaze, "you are believed to be a widow—are you such?"

"In fate; but not in fact!"

"This man, then, was your husband?"

"Yes, yes!"

"He left you?"

"He was obliged to do it."

"He was a fugitive from justice?"

"Yes, yes! Oh, it is very cruel to say so!"

"No, it is only just. His name, then, is Russel?"

"Oh, no!"

"What! Then you do not go by his name?"

"No, no! I would not, after—after he fled!"

"Why not?"

"It would have ruined me! I took my neighborhood where I was not known. I dressed in widow's weeds because it seemed more quiet and respectable for a lone young mother struggling through the world! God forgive me, I did not mean to act a falsehood!"

"What was the nature of this crime which was so heinous as to compel the innocent wife of the criminal to change her name and place of residence to escape reflected ruin?"

"Oh, do not ask me! Do not! do not!" cried poor Mrs. Russel, while shudders of horror convulsed her fragile form.

"It could have been no ordinary crime! The unfortunate wives of homicides are not obliged to change their names and neighborhoods. Well, I will not insist upon the nature of the man's offence against society. But in the name and for the sake of stern justice I must have his real name!"

"Oh! to tell you that will be to tell you all!" cried the poor woman, in an agony of distress.

"I abjure you, Mrs. Russel, in the sacred cause of justice, tell me the name of that man!"

"Oh! oh! stoop, then! Stoop close then! I cannot bear to speak it aloud—looking in your face, with your eyes upon me!"

Laura Elmer stooped her ear close to the woman's lips, saying:

"Courage! it is but a word!"

Mrs. Russel shivered through all her frame, as she whispered:

"It was——"

The last word, the fatal name, was audible only to Laura Elmer, who suddenly dropped the hands of the woman, and, appalled by horror, sank into the nearest seat.

And no word was spoken between them for some minutes. At last:

"Heaven have mercy on you, most miserable of women!" said Miss Elmer.

And rising, she went and took and pressed her hands, saying:

"Forgive me if I have deeply probed your sorely wounded heart, and believe me I will deal as tenderly by your feelings as I can in justice to another."

"I know it, Miss Elmer! I know it! You are perfectly right. Do not consider me in the slightest degree. Go on, and 'let justice be done, though the heavens fall.'"

And longer the friends talked; but the dreaded name was not again mentioned between them. The two children, who had been sent out into the garden to play, now came in, and the confidential conversation was interrupted.

Mrs. Russel showed her lodger up into her private apartments, where fires had been lighted, and her luggage conveyed, and bade her good-night at the bedroom door.

Laura entered the neat and quiet chamber, where the snow-white curtains of the windows and the bed, and the clean hearth and bright fire, diffused an air of purity and cheerfulness through the scene.

She could not sleep; but drawing an easy-chair beside the little table before the fire, she fell into deep and severe thought upon the subject of the probable assassin of the baronet.

Painfully and intensely as she thought, she was still, as it were, extremely conscious of the sounds without. She heard Ruth Russel and her children moving about; she heard the murmuring of their evening prayers at their mother's knee; she heard that poor mother take them into the little chamber adjoining the back parlor below; and the muffled shuffling with which the little ones got to bed; next she heard Mrs. Russel return to the back parlor, and settle herself in her seat, probably to sew for hours—for every sound was audible all over that small house. At last all was perfectly quiet, nothing breaking the silence except the hourly striking of the old-fashioned clock in the passage below. Laura sat intently thinking as the hours slowly passed. The clock struck twelve, and still she sat and thought; one, and still she never changed her attitude; two, and she had not even once looked up, or remembered that it was at that witching hour on the preceding night that the awful cry of murder had rung through Lester House, appalling the inmates, arousing the sleepers. She was still buried in thought between two and three o'clock, when she was startled by the sound of a step heard in the deep silence, coming up the walk from the little gate to the cottage door. Everything alarmed her now; she listened and heard a light, cautious tapping at the cottage door, and heard the landlady go to the door, and ask in a low, trembling voice:

"Who's there? What do you want?"

"It is I, Ruth, and I want to come in," answered a low voice without.

"Oh, my Lord in heaven, have pity on us! Oh! why do you come here?" inquired the poor woman, in a low, suffocating voice.

"Because I am dying to see you and the children, Ruth. Think what a long exile I have had from you both, my dear."

"Oh, where do you come from, and why do you come, knowing the danger.

(To be continued)

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold for five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Missouri Bullfrog Mining Co., is developing its properties which consists of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141.50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

800,000 Shares, Common
1,000,000 Shares, Par Value, $1.00
Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 2,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several hundred feet further will undoubtedly cut some of the richest mines in the State at great depth, besides those belonging to the Company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $35,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims of 180 acres in the heart of the great mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollars worth of indebtedness against the property in any way, shape or form. The company has worked is to 30 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which aveays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines: The famous Horn Silver, a producer of over 20 millions, and which has paid its shareholders over 6 millions, the great Cactus, which adjoins us, is estimated at 100 millions, the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—15 carloads or 1,200 tons—every ton of which went over 40.5 per cent copper, $6.00 in gold, and $7.00 in silver, and comes out above the 1000 foot level. Can make no estimate on this property that have 1 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the end of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr J. A. Modell, 250 Markham street, Toronto, Ontario.

United States Deputy Revenue Collector, ARCHIBALD STUART, Manager.
Mining Expert J. E. MEYER, Assistant General Manager
Main Office of the Company, Salt Lake City, Utah.
Address all communications to Assistant General Manager.

J. E. MEYER

Agent Wanted. P. O. Box 621, Salt Lake City, Utah

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00: 250,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 250 per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and backed by experts, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. Were it not that we consider it plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills. NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,
Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent, and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold, all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

St. Paul Building, CINCINNATI, OHIO, U. S. A

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

YOU NEED STRENGTH

Vitality is Lacking and You Must Have a Bracing Tonic at Once

You're sick and need medicine.

Not an emulsion to sicken the stomach, not a "dope" cure, nor bitters,—but a nourishing tonic that will increase weight, strength and spirits.

Try Ferrozone and watch the result. Because it gives instant effect and steadily builds up new flesh, it is used by thousands in ill-health.

No other medicine contains more nutriment, supplies better building material, makes you feel well and strong as quickly as it did Mrs. Charles Benny, of Cloyne, Ont.

HER STATEMENT.

"I was sick.

"I was broken down, had no strength, couldn't eat, I was sleepless.

"My nerves were irritable. I was thin-blooded and continually unhappy.

"I tried Ferrozone.

"It gave me new energy, force, vim. It brought me comfort, strength—it made me well."

"It's by making the appetite good, by instilling iron and ozone in the blood, by fortifying the system with reserve strength, that Ferrozone accomplishes so much.

You'll have new life in a week, in a month you'll be a new being. Try Ferrozone. It always justifies itself. 50c. per box or six for $2.50, at all dealers.

Roller Rink Was Crowded.

On Saturday many hundred skaters enjoyed the exhilarating exercise of sailing round the Charlotte street rink on ball-bearing skates. On Saturday evening every pair of the full complement of the rink were in use, and eagerly sought for by scores of those who came too late and had to wait their turn. A detachment of the 57th Regiment filled and enlivened the proceedings with several well rendered selections.

Str. Stony Lake's Last Trip

The popular steamer Stony Lake made its last trip for the season on Saturday. Capt. Scollard states that the past summer has been the busiest on record and the boat has carried more passengers during the season than in any previous one. There is no boat service to Stony Lake after Saturday and the evening train on the Lakefield branch has been cancelled.

Telephone Man in Trouble.

Towards the end of last week two local Bell Telephone Co. employes had quite a mix-up on Charlotte street. Fists were the order of the day. The trouble started by one of them learning of a conversation between the other and still a third man, jumped to the conclusion that the other telephone man and the third party had been talking about him, and thought they had been saying things of an uncomplimentary nature. The "other" telephone man assured the party of the first part that their talk had been of matters having nothing to do with the would-be belligerent. The die passed and after the fight began. Cut faces, eyes in mourning and swelled proboscis were the resultant.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.
Call at the College or address

WM PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—The City Council will sit in regular session tonight.

—Tomorrow is the day to turn out and vote on the bonus bylaws.

—A special meeting of the Ladies' Auxiliary will be held tonight at 7.30 at the Y.M.C.A.

—A special service was held in St. Andrew's S.S. yesterday afternoon for the young people.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—The city clerk has completed all preparations for taking the vote on the bylaws of tomorrow.

—The Rev. J. F. Chapman, Pontypool, preached in Mark street church yesterday morning and evening.

—Miss Jamieson, a returned missionary from Central India, spoke in St. Paul's church yesterday afternoon.

—If this issue appears the ad. of a local man who will repair and look after furnaces during the winter.

—A Sunday school rally of George street and Grace church Sunday school was held on George street Sunday school.

—The regular Sunday afternoon meeting at the Y.W.C.A. was held yesterday afternoon. Mrs. Morrow gave the address.

—Mr. F. J. A. Hall, the secretary treasurer of the Peterborough Industrial Fair, asks that anyone holding accounts against the Fair, forward them to him at once.

—A large excursion, under the auspices of the Ladies' Aid of Midland, passed through the city on Saturday, en route for Port Hope. There were 300 aboard of whom a few got off here.

—Rebekah lodge has been postponed until Friday evening, October 26, to suit the convenience of the members of the Kawartha Rebekah team of Lindsay, who will do the degree work.

—On Saturday afternoon a lady by mistake took a pocket book, containing a small sum of money from the newspaper counter in the Times Book Store. Will she kindly return the same and save further trouble.

—At the evening service at St. Luke's church, several young men were admitted into membership in the Brotherhood of St. Andrew and the rector preached a special sermon to young men on "St. Andrew bringing his brother to Christ."

—And now members of the various local hunt clubs spend their days, and keep their wives awake at night, thinking and talking of canoes, rifles, buttermilk, cork screws, stories of sport by lake and field to tell on return home, and other matters appertaining to the fall sport.

Who Knows Mr. Alfred Woodhead?

Chief Rossel is in receipt of the following letter from Kilner Woodhead, who resides in Birch House Lodge, W. O. Calham, Lancashire, England, and who is anxious to find out the whereabouts of his brother Alfred, who is at present residing in this vicinity.

Birch House Lodge, Lees W. O.
Calham, Lancashire, England.

Chief Rossel,

Peterborough, Canada.

Dear Sir,—I would be much obliged if you could get the address of Alfred Woodhead, residing somewhere in Peterborough. I want to get him to know about my father, and not knowing his address, though it would be best to wrote to you, as your men would be able to find him without much difficulty. Hoping that you will be able to oblige.

Yours faithfully,

KILNER WOODHEAD.

Mr. Williamson at Mark St. Church

Mr. Geo. H. Williamson, the secretary of the Y.M.C.A. gave an address yesterday afternoon at 2.45 at the annual rally of Mark street Methodist Sunday school. There was special music, under the direction of Mr. John C. Miller. The members of the school met in the basement 15 minutes earlier than usual, to mark the class books, etc. The service was very interesting and the attendance was large.

HOT WEATHER DEBILITY

How to Protect Oneself Against Heat Fatigue, and Summer Disease.

Many people are so easily affected by the hot weather as to be capable of but little work during the summer months. Inquiry among this class will show that in nearly every instance there is a weak stomach and more or less indigestion. Put the digestive organs right by using Mi-o-na stomach tablets and the summer time will prove the pleasantest, most desirable and enjoyable season of the year.

One little Mi-o-na tablet before each meal will give you life, vitality, energy and physical endurance during the heated term and ward off the ordinary diseases of summer. Mi-o-na is not an ordinary summer tonic or digestive, it is a true strengthener of the digestive system, building up the organs to perfect health and vitality by curing the indigestion and absolutely removing all pains and distress in the stomach, specks before the eyes, sick and nervous headache, and other symptoms that come from a weakened stomach.

Mi-o-na makes positive and lasting cures and is sold under an absolute guarantee that it will cure all diseases of the stomach, except cancer, or the money—50c. per box—will be refunded.

For sale by all dealers. The E. T. Booth Co., Buffalo, N. Y.

SOCIAL AND PERSONAL

—Mr. J. L. Wood, Toronto, spent Sunday in the city.

—Mr. Ross Graham attended the funeral of his uncle in Lindsay.

—Mr. and Mrs. John Davidson of Norwood, were in the city Saturday.

Roseneath Fair a Great Success

On Friday the Roseneath Fair was a great success. It was attended by some twenty local citizens. Mr. Sam Redmond of Otonabee, was judge of heavy horses and Mr. Martin Connors judged the lighter harness horses. The display of horses was better than generally seen at county fairs. The races were well contested. They were as follows;

Free for all, $50—

Queen's Barn	1	1	2	4
Lady Mack	2	2	1	2
Kellie G.	3	3	3	3
Little Mack	4	4	4	1

Green race, $30—

Black Dick and				
Black Dick	2	2	2	
Bay Horse	3	3	3	

Capt. McAmmond Is Transferred

Staff Capt. McAmmond of the local Salvation Army corps has received word from the provincial officer, Brigadier Hargrave, apprising him to make ready to be transferred to another district within the next few days. This is the regular transfer of officers, and affects the whole province. The officers in charge of corps are changed about every fifteen months.

Staff-Capt. and Mrs. McAmmond will farewell at the local barracks on Sunday, October 7.—It is not yet known who will be their successors here, or to what district they will go.

This will not be known for a few days yet.

Manufacturers to Meet Tuesday

A meeting of the Manufacturers Association of Peterborough will be held in Mr. R. M. Denistoun's office on Tuesday evening, October 2, when a number of matters will be brought up for discussion, including the question of memorialising the City Council in reference to the establishment of a new fire alarm system in the city and the placing of alarm boxes on the premises of each manufacturer.

Mr. and Mrs. Hickey's China Wedding

A very interesting "china wedding" was celebrated at the residence of Mr. J. W. Hickey, 133 Gilmour street, on Friday night last. Over sixty invited guests were present. The event celebrated was the 20th anniversary of the wedding of Mr. and Mrs. Hickey. The guests, who had a most delightful evening, showered with hearty congratulations, music, speeches, and toothsome refreshments, presented their host and hostess with many valuable and artistic tokens of the esteem. One feature of the evening, as a reminder of the happy day of a fifth of a century previous, was a large and delicious four-story wedding cake.

Guests were present from Toronto, Lindsay and Port Hope.

The house had been most tastefully and artistically decorated for this auspicious occasion.

DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the United States Dispensatory, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonia (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and is fearfully warned the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Dr. Pierce's Pellets cure Constipation.

"Rod and Gun" Hunting Number.

"A hunting we will go!" is now the thought, if not the cry, of every sportsman longing for experiences and adventures in the cool woods. Just in the nick of time comes the fine October number, devoted primarily to hunting, of "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, at Woodstock, Ont., which gives the sportsman just the reading matter he wants, and increases his desires to be far afield. This number ought to be the companion and friend of every hunter this fall. "Scientific Deer Hunting" by Dr. Franklin Hawley, and "In the Woods with Indian Guides" by Mr. C. C. Farr, would alone render any number notable, but there are a dozen hunting stories, in addition, several fishing stories, and papers concerning all parts of Canada. The fine illustrated accounts of the qualification climb for the membership of the Alpine Club of Canada; and of the convention of the Ontario Fish and Game Protective Association add interest to an excellent number, and give a variety calculated to meet all tastes. Boating, automobile, sporting items, and trap shooting, are dealt with at generous length, and show how thoroughly this magazine fills the field as the representative Canadian magazine of sport and outdoor life. No sportsman should be without it, and its work in making the sporting advantages of Canada known to the world courageous and help of every Canadian deserving the sympathy, en-

WEDDING STATIONERY

WEDDING ANNCUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV, NO 232 PETERBOROUGH, ONTARIO, TUESDAY, OCTOBER 2, 1906. PRICE TWO CENTS

MORE SEWER WORK BY DAY LABOR

So Decided the City Council Last Night in Respect to Sewer Connection With New School ---City Council in Regular Session.

The Board of Works met last night, immediately preceding the City Council's regular meeting.

The following tenders were received for sewer work on Aylmer street and Romaine street:

J. Robson—$1.23 1-2c. a ft.; street connection each $20.

J. E. Hayes—93c ft.; street connections $17.00.

R. Sheehy—$1.23 ft.; street connections $16.50.

City Engineer—82c. ft.; street connections $11.25.

Ald. Adams moved, seconded by Ald. Elliott,—That the city engineer be authorized to construct the sewer by day labor.—Carried.

The above is to afford sewer connection with the new South Ward school.

CHARLOTTE STREET BRIDGE.

The engineer reported and advised that as Messrs. Hill & Co. are not in a position to fill their contract for the steel superstructure of the new Charlotte street bridge, the concrete abutments be built this fall, and the flooring replanked, to meet present needs. Next spring the steel superstructure will be added.

Ald. Johnston moved, seconded by Ald. Elliott,—That the city engineer's advice be accepted and the concrete abutment work be proceeded with at once.—Carried.

These measures were subsequently endorsed by the council.

COUNCIL IN SESSION.

Following the Board of Works' meeting, the City Council met in regular session, when there were present: Mayor Beck and Aldermen Mason, Johnston, Hicks, Elliott, Graham, Ball, Duncan, Wilson, McIntyre and Adams.

The minutes were confirmed.

COMMUNICATIONS.

Tax Collector W. G. Green submitted his monthly statement as follows:

To Total amount on roll	$125,742.68
By total deposited to date	92,614.00
Balance	33,128.86

Amount taken in and deposited ... ... $ 311.10

From a number of ratepayers asking for an iron lamp at the corner of Rose and Hunter streets.—Fire, Water and Light Committee.

From W. G. Morrow, secretary of School Board, enclosing the following resolution passed by the Board; —That the City Council be requested to provide the additional sum of $21,000 for the erection of a Collegiate Institute, either by a direct vote of the council or by submitting the question to a vote of the qualified ratepayers.—Referred to a Committee of the Whole Council.

From E. G. Patterson, general superintendent C.G.E. Co., asking that no definite arrangement be made for locating the fire alarm boxes be taken for a week, to allow the Manufacturers' Association an opportunity to interview the council on this matter.—Received.

From Board of Health, asking the council to construct a sewer on King from Stewart street to Bethune for purpose of draining the locality in the interest of the public health.—Board of Works.

From Thos. Kinnear & Co., submitting signed documents for a sidewalk opposite their building, and also asking for a crossing. They also petitioned for the levelling of Dalhousie street, which is somewhat lower than George street.—Board of Works.

From Jas. Long, complaining that he has been assessed double the amount of the assessment of other confectioners, and asking for a refund of the additional assessment.—Court of Revision.

From R. R. Hall, M.P., enclosing draft form of petition to the Hon. H. R. Emmerson, Minister Railways and Canals, pointing out the importance in the interests of navigation that the highest possible level of waters should be maintained in the lakes, even should compensation have to be offered for the flooding of certain lands by reason of such action. Mr. Hall contended that it would be cheaper to compensate for the flooding of certain lands than to spend a far larger amount for dredging.—The council endorsed this policy.

From ratepayers petitioning for an electric light at the intersection of McDonnel and Dickson streets.—Fire, Water and Light Com.

From one who is interested, asking that the condition of Stewart street, south of Perry, be improved to allow of public travel.—Board of Works.

From ratepayers asking that Aylmer street, from Mayor Best's property south to the boundary line and Prince street, be graded.—Board of Works.

From City Treasurer Felix Brownscombe, stating that he had notified each of the ratepayers having connection with any of the city outfall sewers of the necessity under bylaw of their paying $25 for each connection, but up to the present date none of them who had connections before the date of passing the bylaw have called to pay their dues. As the time in which they were to make payment has expired, the city treasurer is awaiting further instructions. The city solicitor will be instructed to take proceedings to collect these accounts.

From the local Board of Health, enclosing the following resolution passed by that body,—That this Board recommend the City Council to appoint a man fully capable of attending to all matters pertaining to the health of the community and that the council be asked to meet this Board to confer on this matter.—Referred to the Committee of the Whole to once the Board.

From ratepayers asking for the construction of a granolithic walk on east side of George, from Dalhousie to a point 30 feet south of Dalhousie street. On the south side of Hunter street from a point 379 feet east of Queen street. On the east side of George street from the north side of No. 25, plan 42, 204 feet, to south side of Argyle st.

From qualified ratepayers petitioning for a pipe sewer on Aylmer street from Park lot 14, con. 12 to Romaine street, and on Romaine St. from Aylmer to Hook streets.—Board of Works.

LOSS OF STEEL ROLLING MILLS.

A communication was received from the Peterborough Steel Rolling Mills Co., notifying council but amongst other reasons, owing to no having been able to make satisfactory arrangements for freight rates and electric power, they have decided not to locate in Peterborough. The company offered to pay any cost to the city of submitting their bylaw over the head of the Rapid Tool Company's bylaw.

Ald. Adams offered that this matter is no use of costs, no costs will compensate for the black eye given Peterborough as a result of its efforts to secure industries by the attitude of the Steel Rolling Mills Co. According to the press, this action of the company has been engendered in some degree by the strong opposition aired privately by two members of the council. Ald. Adams also contended that had the council used decent expedition in putting the bylaw to the people, the company would have been secured to Peterborough. That bylaw could, had it not met with unwarranted opposition, have been readily voted on a month ago. The mayor had been accused of displaying strong opposition to the measure. His Worship replied that the company did not in the first place come to the council with a definite proposition; this in itself caused considerable delay.

Ald. Hall replied that he supposed he was regarded as one of the two members of the council who had opposed this measure. He went on to make it definitely clear that he considered the principle of bonusing wrong in the strictest sense of the word, and further added that the arguments used by his company's representatives in canvassing the bylaw were beneath the common reason of modern men. "I'm here," concluded Mr. Hall, "to fight against bonuses, publicly and privately, and I don't care who knows it."

Ald. Mason.—"We all admit that the principle is wrong; but as long as the Government countenances and encourages it, we must fall into line with other municipalities that are competing with us on the race for industries."

Ald. McWilliams here went over the ground travelled by the council and the Steel Rolling Mills Company in negotiating the inducements to locate here. After several meetings between the Manufacturers' Committee and the company's representatives, the proposition was discussed in Committee of the Whole, and approved of by every member present excepting one. Ald. Hall's policy is a reasonable and intelligent one, but unfortunately is contrary to that of every Canadian municipality. He also stands alone in the council, said, he believed, in this city. Continuing, Ald. McWilliams contended that when the representatives of the Steel Rolling Mills Company, met the council, His Worship blocked all proceedings for an hour and a half, when he made objections that might have been reasonable were his private interests affected. At that meeting, however, the company's proposition was approved of by council, and as it was definitely understood that the company were particularly anxious to commence building operations without any unnecessary delay, the city solicitor was instructed to prepare a bylaw at once for immediate action by council thereon. On the Wednesday and Thursday of the week, the solicitor was out of town, but on his return on Friday he drew up the bylaw. Ald. McWilliams then saw the mayor, remembered him of the arrangement with the Rolling Mills Company, and asked him to call a council meeting for Monday, which he would not do; and in spite of almost daily requests for a meeting his Worship delayed calling the council for three weeks. When at last the measure came up before council it was endorsed almost unanimously; and had the proposition been handled in a business-like manner with no delays, the Steel Rolling Mills Company's buildings would have been by this time under way. In conclusion Ald. McWilliams contended that we need not worry over losing this industry, for while other municipalities may be in a position to offer better advantages than Peterborough, for the location of a steel industry (one calling for exceptionally heavy freight facilities), we still are in a position to excell over many localities in regard and created advantages for location there of very many other industries than steel. In order to secure industries demanding heavy freight facilities at reasonable rates, and having large quantities of coal, it is absolutely necessary the Trent Valley canal be completed. Coal is one dollar cheaper at Ottawa by reason of the Rideau canal, than in Peterborough, while in the Niagara peninsula it is cheaper still.

After further controversy between His Worship and Ald. McWilliams, Ald. McWilliams added that the whole Steel Company and all concerned are exceedingly sore at the treatment received by them at the hands of the mayor.

No action was taken in this matter.

BYLAWS.

A bylaw to authorize the construction of granolithic walks on certain streets and to authorize the making of arrangements to meet the cost thereof, passed its several readings.

A bylaw to authorize the construction of sewers passed its several readings.

A bylaw to regulate the sale of milk, and to provide for the inspection of the same, passed its several readings. This bylaw will come into force December 1st next, when all dealers will be licensed at $1 a year.

MILK INSPECTOR.

Ald. McIntyre moved, seconded by Ald. Wilson.—That the committee which prepared the bylaw regulating the sale of milk, be a committee to have prepared a bylaw to appoint an inspector of milk.—Carried.

SMITH STREET BRIDGE.

Ald. Johnston offered that the time is not far distant when a new bridge at Smith street will have to be erected. He moved, seconded by Ald. Graham, that a bylaw providing for a new bridge at Smith street, and also for an trunk sewer from Smith street to Aylmer street, along the railway track be prepared, and submitted to the people January first.—Carried.

STATE OF SIMCOE ST.

Ald. Johnston drew attention to the condition in which Simcoe St. has been left all summer, with iron gas pipes along the street to the inconvenience of the public, and now the street is torn up. He wanted to know if the city officials responsible for the job are doing their duty.

His Worship remarked that the Light and Power Company are allowed to do as they pleased with the streets, and Ald. Johnston evidently is suggesting that the city engineer is not doing his duty. He should see that the streets are not blocked in the way they have been of late.

Ald. Mason offered that the engineer, or whoever is responsible, should be instructed to do his duty in this respect, and should he not respond, then the city should employ some one who will.

Ald. McIntyre also contended that our streets have been left, and are in, a disgraceful condition, and something should be done to remedy the grievance.

The council adjourned.

Banquetted by the Citizens of Calgary

Calgary, Oct. 1.—Hamar Greenwood, M.P., was tendered a luncheon by the citizens of Calgary Saturday afternoon. Eighty people were present.

In response to a toast to his health, which was proposed by C. A. Stewart, the newly appointed judge of Alberta, he expressed the opinion that the progress of the west, since he saw it three years ago, was the greatest any country has made in all time. He expressed the opinion that Calgary would some day become the greatest metropolis of the empire.

In speaking of the solid appearance of the city, with its grey limestone, he compared it to Aberdeen and expected that Calgary would outrun Aberdeen, but thought Calgary should be proud if it turned out the good men that Aberdeen did.

He expressed himself again as an imperialist, but reserved to himself the definition of the word imperialist. His course, wherever it might be, would be for Canada.

OTTAWA MOTHERS ARE ENRAGED

Man Carries Off Twenty Girls to Join New Opera Troupe

ARE SEEKING POLICE AID

Theatrical Organization is to Play in Eastern Canada and New York State.

Ottawa, October 2.—Chief De La Ronde, of the Ottawa police force, has been applied to by a number of Ottawa mothers to aid them in securing the return to the city of their daughters, who have been persuaded to forsake their homes by the alluring inducements of a theatrical agent. The representative of a troupe which was being organized to play in light operas in Ontario, Quebec, and Northern New York State towns, came to Ottawa a few weeks ago, and induced about twenty girls to join the company.

The mothers of about half the girls objected, and they promptly skipped out. There may be interesting developments in the case before long, as the mothers are determined to have their daughters back, while the managers of the company, which was billed to open its season at Alexandria, are equally determined that it shall not be broken up. A few of the girls have been induced to return to the city. Chief De La Ronde says that the managers of the company certainly used good judgment in selecting their troupe, as all the girls are fine looking.

Searching For Hopkins Body

A Late Despatch Says That the Remains of Mr. R. H. Hopkins are Located.

Lindsay Post says:

"Notwithstanding that a number of expert river men in the employ of Messrs Carew and Baker & Bryans, and parties in steam yachts, launches, spent the greater part of yesterday down the river searching for the body of Mr. R. H. Hopkins, who has been missing since Wednesday night last, their quest was unsuccessful. In the opinion of parties who know the river the body is caught in the weeds at the bottom, and it may be days before it is recovered.

"It seems a deplorable thing that the crew of the Muskie and the passengers did not unite in a determined effort to induce Mr. Hopkins to abandon his yacht and go on board along with Dickson, his rescued companion. Even then the elements were massing for a conflict, and to leave him was to expose him to unknown dangers. Again, we understand, but when the incident became known at Sturgeon Point, it was discussed by half-a-dozen about at the store, but no person seemed to consider it his duty to go to the rescue or notify Mr. Hopkins' Lindsay friends by 'phone of his unpleasant predicament and the risk of a night's exposure in fall weather. Every resident of Sturgeon Point was his debtor for many kindnesses in the past.

"The search will be resumed tomorrow if the body is not found this afternoon, and will be joined in by many of our citizens. Capt. Elliott, of the St. Kathleen, has kindly consented to convey such parties with boats to the scene, and will leave the own wharf at ten a.m. on the first trip."

THE BODY IS FOUND.

A later despatch from Lindsay says:—"The body of R. H. Hopkins, who has been missing since Wednesday night last, was found floating this morning, about four miles north of Lindsay, on the west shore of the Scugog river. Searching parties have been at work night and day since the finding of this empty launch about half a mile from where his body was found, but were unsuccessful. During last night scores of logs were towed up the river, and it is supposed the body followed in the wake do where it was found.

A Trip on the Severn River

Hon Mr. Emmerson and Party Visit Entrance to Canal.

The Globe, of Saturday last, published a brief account of the trip of Hon. H. R. Emmerson, Minister of Railways and Canals, and party on the Severn River, which we give below. Our contemporary says:

The Hon. H. R. Emmerson's trip down the Severn River from Lake Couchiching to the Georgian Bay a fortnight ago was in many respects unique. The Minister and his party made the trip at the invitation of the Orillia Town Council and Board of Trade. Twenty members of those bodies accompanied him, acting as boat crew. Six steamers and gasoline launches were made use of on various sections of the route. Where larger craft were not available the party travelled in canoes. The Minister and three of his party were transported in one of Orillia's war canoes, manned by eight of a crew, led by Mayor Millet and President Gibson of the Board of Trade. There was also a flotilla of five 14-foot canoes. Rapids were run, portages made, and all the exciting experiences of canoe tripping indulged in. A night was spent at Ragged Rapids, where is situated Orillia's power and light plant. There a repast approaching the dignity of a banquet was served, amid wild and picturesque surroundings, in a large marquee, lighted by electricity. Altogether, it was a most enjoyable outing, and something new in the way of entertaining a Minister of the Crown.

No river in Ontario offers greater attractions for a canoe trip than the Severn; but it is likely before long to lose the charm that comes from seclusion and partial inaccessibility, as at the close of the outing Mr. Emmerson intimated that it was more than likely that within two years the river would be rendered navigable for steamers as part of the Trent Valley waterway. This was, of course, welcome news to the Orillians, as the object of the trip was to convince the Minister of the suitability of the Severn for the northern outlet of the canal. In this they were thoroughly successful, as Mr. Emmerson acknowledged that he was surprised to find such a magnificent waterway. The Minister was accompanied by his deputy, Mr. M. J. Butler; Mr. S. Stewart, a friend from Dorchester, N. B.; Mr. A. J. Grant, Chief Engineer, and Mr. J. H. McClelland, Superintendent of the Trent Valley Canal, and by Messrs. Chris. B. Robinson and F. McCourt, private secretaries.

Silver Ore in Peterboro' County

Peterborough citizens will be glad to learn that in the township of Galway, in this county a discovery has been made of what has all the appearances of rich mineral. It is understood that the discovery was brought to the attention of some Lindsay capitalists who secured samples of the ore, which assayed rich.

These gentlemen are now forming a company to secure control of considerable of the property in the vicinity of the find, and if prospects warrant it, operations will in all probability be proceeded with in developing the property.

This looks like a pretty good proposition for Galway township which, while it is gradually rich in timber resources, has not as yet been developed agriculturally, and if it turns out that the township has minerals as rich as is promised, it will mean that the township will develop rapidly and become one of the wealthy in the country.

A WALKING TOUR

A Writer to The Times Says It Takes an Ideal Holiday.

The Times has received the following letter, which speaks for itself:

"Would you know how to get the greatest amount of healthful fun out of your vacation this summer? Of course you would. So here's the formula. Take a walking tour. In fourteen days any person of average city physique can cover 300 miles, going leisurely, gain an acreage of the most desirable sunburn, several pounds of muscle, a normal appetite, perfect digestion, an even pulse, a clear eye and a laugh that rings true. Of course I know you have read the prospectus of a mineral spring resort or a seaside hotel which promised to bestow all these things while you were merely lounging on a verandah and listening to the band. But don't let that mislead you. The author of that prospectus has an ax to grind, and he will charge you from $3 to $5 a day for doing the job, while I make you grind your own ax (thereby adding to your capital of self-reliance), and return you a liberal rebate in the shape of health, knowledge, good nature and adventure. Ennui can never catch up with you on the road, and selfishness, jealousy and sour-eyed disdain, those three well-worshipped goddesses of the spa and the seaside resort, have builded themselves no altars along the trail.

"Yes take a walking tour. It doesn't matter about your age or sex. If you dress right and know just what to carry, you will agree with me, at the end of your two weeks in gypsyland, that you have felt better, eaten better, slept better, and have had more solid tangible enjoyment than in any previous fortnight of your life. You'll find your mental horizon has widened, too, and that healthy open-air standards have taken the place of your former high-collared, kid-gloved, drawing-room ideas. Indoor complaints and querulous criticism will have ceased to trouble you, and your pale office complexion will be superseded by one of the sun wind's own make. I say, you will thought of taking to the open road," wonder why on earth you never

Alfred Woodhead Now Located

Man Wanted by Friends in England is Living Near Keene Village.

Our readers will remember that a few days ago The Times noted that the chief of police had received a communication for Kilner Woodhead, of Lancashire, Eng.

In regard to the letter received from Kilner Woodhead, of Lancashire, England, inquiring the whereabouts of his uncle Alfred Woodhead, who is supposed to reside in or near Peterborough, Chief Rozel has received information to the effect that Mr. Alfred Woodhead is residing on a farm near Keene. He was communicated with and the address sent to his nephew.

HUMAN SKELETON DUG UP IN BACK YARD

Ghastly Human Remains Unearthed in the Back Yard of 29 Union Street, City, Whilst J. C. Clark Was Digging Weeds.

Last night some excitement was caused in, and about police headquarters, when it became known that the bones, and badly decayed flesh hanging thereon, of a former living man or woman, was dug up, at a depth of some two feet in the back yard of Mr. J. C. Clark, 29 Union street, in this city.

It might be noted that Mr. Clarke, whilst weeding his back yard, thinking it easier to dig than to pull the weeds up, got busy with his spade. Whilst turning up the soil, Mr. Clarke was somewhat startled when his spade brought to light the perfect lower half of an adult human skull. Further digging disclosed the presence of the other bones of a human being. These sad memorials of a man or woman's by-gone life were not laid in regular order and position as would be the case had they been unearthed in a regular cemetery, but were somewhat scattered. Still nearly the whole frame work of a human being have already been found.

Mr. Clarke has only recently moved into this house, which until three or four weeks ago was occupied by Prof. Milner, former organist of the Methodist church, and now organist and choir master of the Roman Catholic Cathedral at Kingston.

It is no known that any crime has been committed within the past few years, in the neighborhood of the ghastly find.

A possibly significant fact in connection with this find is that previous to Prof. Milner's tenancy of the house at 29 Union street, a medical student by the name of George Rockerby lived there. This fact is regarded as more significant when it is noted that the skull has been nearly, evidently by some one posted in anatomy, sawed through horizontally at about where the tips of the ears would have been. This is a common procedure in cases either of post-mortem, or by medical students desirous of studying the convolutions and structure of the brain.

The skull in now in the police station, and is in almost perfect state of preservation, particles of flesh still being visible. Judging by the lower half of the sawed brough skull, one would take it for that of an elderly man or woman. Only three back teeth remain in the upper jaw, the back teeth or grinders. Two of these are well preserved and are some what decayed. It is of course possible that the process of decay in the damp ground may have loosened one front and other teeth, which may still be buried where the remains were found. Taken as a whole, this discovery points more towards a "stiff" or "subject" of a medical student than a clew for some Sherlock Holmes looking for crime.

New Zealand Exhibition, Low Rates

To the many attractions of New Zealand as a tourist and pleasure resort is this year added that of the International exhibition, to be held at Christchurch, the second city of the colony, from November, 1906, to April, 1907.

Canadian products will be much in evidence, and it is expected that a large number of Canadians will take this opportunity of visiting "Maoriland," that interesting country of which most people have heard so much, and in reality know so little. Mark Twain's opinion that New Zealand "was somewhere near Australia, and you get over to it by a bridge," is shared by the great majority, who have never experienced the steady steaming across the wide Pacific necessary to "bridge" New Zealand and her big neighbor. The democratic government, unique and progressive legislation, state controlled industries, from railroads to coal mines, have made New Zealand so well known as its natural beauty, its hot lakes and geysers, outrivaling the Yellowstone, its lovely semi-tropical bush, with graceful palms, and tree ferns and gorgeous wild orchids everywhere, its majestic fiord scenery and its lofty snow-clad Alps, all of which truly need to be seen to be appreciated. The climate is certainly the best found south of the line, and as the exhibition, from November to April, covers the best of the summer months, visitors need not fear bad weather. If you have ever contemplated a trip to the Southern Seas—"do it now"—this is a good opportunity.

Special reduced rates for the exhibition are offered by the Canadian Pacific Railway, with its ocean connection, the Canadian-Australian line of royal mail steamships. Through rates from Toronto right to Port Lyttelton, N. Z., and return are $418.50 first-class throughout, and $348.90 first class rail and second on steamer, tickets good sailing from Vancouver on October 12th, November 9th, December 7th, 1906; January 4th and February 1st, 1907, good to return to Vancouver within six months. These steamers call at Honolulu, and passengers can transship at Suva, Fiji, if they wish, instead of reaching New Zealand by way of Sydney, N. S. W. Splendid accommodation is provided, with a fine table and attendance, and at this time of the year a smooth passage is a certainty. Further particulars and literature gladly furnished upon application to C. B. Foster, District Passenger Agent, C. P. R., Toronto.

Plans to be Opened Wednesday

Plans for the new huge factories to be, in all probability, erected in this city by Messrs. Cottes Bros., of Paisley and Perth, Scotland, and the large London, Eng., lithographic concern, described in yesterday's issue, the plans as noted will be opened for competition as to respective merit on Wednesday in Toronto. Mr. Sanford Smith, the well-known Toronto architect is among the competitors for this large job. The Times' first report of yesterday's issue relative to this industry coming here, created much excitement throughout the city.

If all dyspeptic sufferers knew why Dr. Shoop's Restorative would do for them. Dyspepsia would practically be a disease of the past. Dr. Shoop's Restorative reaches stomach troubles by its direct tonic action upon the inside nerves—the true stomach nerves. Stomach distress or weakness, fullness, bloating, belching, etc. Call for the Restorative. We recommend and sell Dr. Shoop's Restorative. J. D. Tully.

Local Bell Tel. Co. Ships Conduits

As is generally known, the west and north sides of the Charlotte street curling rink have been for some months occupied by cords of earthenware conduits for underground wiring of the Bell Telephone Company, as well as many rolls of cable yesterday, owing to pressing demands in Ottawa for underground wiring, a car load of conduit pipes was shipped to that city and two car loads to Toronto where the demand is equally great.

The fact of these conduit pipes being shipped from Peterborough does not however mean, in the least, that the Bell Company has given up any idea of placing their wires underground. Notwithstanding the puerile action of our City Council in apparently trying to block the proposals made by the Bell Company to get rid of their forest of poles by underground work, at the company's expense, they will either, by concurrence of the city or by powers conveyed by their charter, proceed with this sadly wanted improvements to the city. A very strong opinion exists throughout Peterborough that the city fathers are way behind the rulers of other towns and cities in the matter of getting rid of overhead wires and poles. Other towns and cities are only too keen to get wires out of sight and danger, even though, as has been done in many places, such towns offered the company tangible benefits for doing what they offered to do here gratis.

Toronto Engineer on Day Labor

In view of the recent diverse opinions expressed throughout this city as to the Council's considering, and action on, the matter of day labor versus contract work for city jobs, it is interesting to learn that the Toronto city engineer, in his official report says;

"By doing civic work by day labor the city engineer saved considerable money last year. The following paragraph from his annual report, gives the particulars.

"In estimating the gain or loss resulting from the day labor system, if we take the lowest local contractor's tender as a basis of comparison on the walks for which tenders were invited, we find an actual gain of $5,356.85 on the actual expenditure of $34,099.03. The total cost of sidewalks constructed under the day labor system during 1906, exclusive of interest on money, was $42,874.91, as compared with $12,322.96 in 1904."

Assessors Hand in Their Returns

Peterboro' Shows Large Increases Both in Population and Wealth.

Yesterday afternoon Messrs. McGrath and Kincaid, handed in the assessment rolls for the City of Peterborough to the city clerk. The population of the city is shown by the rolls to be 14,982 and the assessment $7,968,482.

The increase in population over 1905 is 571, the assessment returns last year giving the population of the city as 14,391. The assessment last year was $7,541,353.

The increase in assessment including exemptions over last year is $447,009.

Peterborough is growing rapidly. The increase the year before was only 216.

HOW CONSUMPTION STARTS

Tired When You Waken—Languid All Day—Nerves Worn Out—Snap All Gone.

Your limbs feel "draggy" and excessively weak. A night's sleep seldom brings satisfying rest. Continuous headaches, exhaustion and nervous sensations destroy your health. Soon every spark of vitality is used up. Then you catch tuberculosis.

Start today. Build up, get new nerve force, and overcome this process of decay. Use Ferrozone, which physicians consider the most vitalizing, uplifting tonic ever made.

Ferrozone cures because it can furnish the body with sufficient nutriment and building material.

Think of the instant effect—at once the appetite increases, delightful color in the cheeks proves that rich, red blood is being circulated. Tired muscles are invigorated, flesh and weight are added. Nerve force develops, and bounding, joyous health is firmly established.

This is certain—Ferrozone restores failing strength from any cause. The experience of Mr. Thos. Dowd, of Schreiber, Ont., proves this.

"Household worries and cares had about exhausted my strength. I was weak and miserable. My cheeks lacked the color of health, and occasionally I had spells of rheumatism. Then my appetite fell off, and nothing could tempt me to eat. Worn-out feelings, chills and despondency filled my very being. I became anaemic and dwindled down to a shadow. Consumption was very near. Ferrozone put strength in my body with a rush. It built me up, strong, virile and happy, and I have been well ever since."

Ferrozone cures sickness by curing the real cause—lack of blood and nerve tone. It keeps people at their best—fit, ready and anxious for work. In 50c. boxes only, six for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, OCTOBER 2 1906

A SAMPLE OF RUSSIAN "ORDER"

Premier Stolypin cannot understand why honest liberals who abhor terrorism and believe in the gradual reconstruction of Russia on constitutional lines cannot support from him, and why leaders like Shipoff, the Moscow zemstvoist, are leaving the "moderate" Octoberist party and joining the constitutional democrats, whom the premier has branded as revolutionists in respectable disguise. All he asks, he says, is law and order, and all he fights is crime. Should not the right-thinking elements give their heartiest approval to such a policy of "strong-handed reform?"

If the "liberal" premier really wants an explanation of the "paradox" he will find it in such an attitude as that just taken by his subordinate, the governor-general of Odessa, with regard to the daily assaults on Jews and intellectuals and the constant threats of massacre and riot in the great city in his charge. These crimes and threats come from the "loyal" people, the black hundreds and the frenzied upholders of autocracy, and the peaceful, innocent population appeals to the governor-general to check the violence of the counter-revolutionary terrorists.

What is his response? He "doubts" the wisdom of repression of the loyal elements, he regrets, but cannot attempt to prevent, the punishing of "the population" for "tolerating revolutionists instead of delivering them to justice," and he is prepared to see Odessa inundated in blood should even one of the loyal terrorists be assassinated by the revolutionists.

This is Kaulbars' idea of law and order, of proper performance of his duty. Is this also the premier's idea of the proper warfare against "enemies of society?" He insists on drum-head court-martial trials for political offenders in the name of order. How about the political crimes and the wholesale butcheries of the black hundred loyalists and the counter-revolutionists.

Nothing was done to punish the organizers of massacre at Bialystok; nothing has been done at Siedlce. Will anything be done at Odessa, where the population is terror-stricken and the governor-general says he doubts the wisdom of interfering with the activity of loyal mobs.

If not, co-operation of decent liberals with the ministry is of course impossible. This, precisely, is the position of the strongest party, the constitutional democrats.

MANY WAYS OF FIGHTING LIQUOR EVILS

Last spring, by an almost unanimous vote, the Belgian parliament approved a law forbidding the manufacture and sale of absinthe in Belgium. In France, a movement is gathering force that may lead to the same result. In the canton of Vaud in Switzerland a referendum has just been held which has adopted a law classifying absinthe with dangerous poisons and forbidding its sale, while in other cantons similar votes are probable.

This is one of the methods for putting an end to the evils, or at least the worst evils, of the abuse of alcoholic drinks. If one takes a wide view of present-day legislation he will find almost as many varieties of measures as there are cities or provinces in which the evils are felt. The backset which prohibition has recently received in certain of the New England states, culminating in Maine in the probability of resubmission of the prohibitory laws, does not indicate any relaxation in the fight against the evils. Indeed, as far as prohibition itself is concerned, there has been more activity in adopting prohibitory laws in the South than there has been in returning to local option in the north-east.

France is making a special fight against spirituous liquors, first by public proclamations and by educative measures pointing out the dangers, and secondly by encouraging the use of pure wines as the best antidote to the strong beverages. England is strictly regulating the public houses in an attempt, however feeble, to cut off the supply to habitual drinkers and somewhat reduce the temptation for all drinkers. The number of American cities which have recently passed to stricter enforcement of the midnight closing and Sunday closing ordinances and to the suppression of disorderly saloons is very large. Every increase in the evils means an increase in the concerted efforts to find a cure.

MORE G. T. R. CONTRACTS

Tenders Will Be Called for the Construction of 500 Additional Miles

Ottawa, Oct. 1.—The latter part of November or the beginning of December will witness the calling for tenders for the construction of additional sections of the National Transcontinental Railway.

These will run from Lake Superior Junction eastward and westward from a point near head of Lake Abitibi, westward from Lac Tinque on the St. Maurice river, eastward from Quebec, and westward from Moncton.

In all five hundred additional miles are expected to be under contract before the close of the year.

DUTY ON WOOD PULP

New York, Oct. 1.—In a decision handed down Thursday by Appraiser Sommerville, of the Board of General Appraisers, the protest of W. J. Allison, of Detroit, Mich., was sustained against the assessment of duty at the rate of 15 per cent. ad valorem as a manufacturer of wood under the provision of paragraph 322 of the said Act.

The question raised involved the addition of the countervailing duty on certain wood pulp exported from the the Dominion of Canada. Additional duty was assessed under the provision of paragraph 383 of the present tariff Act.

Rheumatism is not incurable, sufferers. Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. Its the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives rheumatism from the blood and then Rheumatism dies. We recommend and sell it. J. D. Tully.

Two "Wives" Claim Legacy.

Belleville, Oct. 1.—James A. Howell, formerly of this city, was killed at Longford Mills the last an insurance of $500 on the Chosen Friends, to his wife.

Howell was living with a woman at the time who was said to be his wife. She planned the money and the claim is now contested by another woman, who lives in Picton, and who claims that she married him 25 years ago, and has never been divorced. A lawsuit is in prospect.

Leaves Fortune to His Valet.

New York, October 1.—Patrick Culbert, a valet, received a fortune under the will of his employer, Dr. Frank J. Freel.—Culbert is the sole beneficiary, as the testator cut off his mother, sister and other blood relatives. Under a trust agreement the valet will receive about $60,000.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Dowton Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

HARRIS & McALLISTER

AMALGAMATED COPPER

Capital, - $155,000,000

Par Value of Shares, $100.

PRESIDENT.....HENRY H. ROGERS.
VICE-PRESIDENT.....F. P. ADDICKS.
SECRETARY-TREASURER.....A. H. MELIN.

DIRECTORS—A. C. Barrage, Boston; Anson R. Flower, New York; William Rockefeller, New York; Henry H. Rogers, New York; Henry H. Rogers, Jr., New York; James Stillman, New York—many of whom have helped to make Standard Oil the most successful industrial corporation in America, and whose efforts are now concentrated on making Amalgamated

THE PREMIER COPPER COMPANY

in existence.

In point of daily transactions Amalgamated is only exceeded by Union Pacific, a stock which has recently had a most phenomenal enhancement in market value—the dividend rate having been increased to 10 per cent. per annum—an issue on which my advices have been uniformly bullish.

What has taken place in Union Pacific is not only easily possible in Amalgamated, but highly probable as the earnings applicable to distribution in the form of dividends are conservatively estimated at 15 per cent. on an 18c Copper market, a metal in tremendous demand and the price of which is

STILL MOVING UPWARD

The present dividend rate on Amalgamated is 7 per cent., netting the investor, at present market price, something over 6 per cent., so when bought on margin it yields a profit over carrying charges—or, in other words, it more than

PAYS ITS BOARD

My advice to Speculators, Investors and Students of Value at this time is to leave to the other fellow the slow, inactive, dormant issues, the only movement in which, too frequently, is contrary to expectations, and at once begin accumulating a line of what now ranks second, but which is destined to quickly become

THE MARKET LEADE

My information on this is based on

FACTS OF THE SUREST NATURE

and I am of the firm belief that a further advance in Amalgamated to

120

IS ON THE EVE OF MATERIALIZATION

Buy it and by placing your order with the house of NORRIS P. BRYANT I will undertake to keep you fully informed on

ALL THAT'S DOING

The Bears and those misguided people who are following the prophets of evil and trying to make a killing by being short of this security should cover their short commitments at once—thus a little later avoiding being counted among the number who only too frequently commit

FINANCIAL SUICIDE

by selling that which they do not possess.

The big fortunes are made by those who get into good stocks and stay with them. Disregard temporary fluctuations, as they are inconsequential compared with maximum movements which the really successful people have a faculty of reaping the full benefit of.

The optimists are getting all the money, and as we are in the midst of what promises to develop into the

GREATEST BULL MARKET EVER KNOWN

you will be acting wisely in arraying yourself on the side of the makers of value and begin operations at once.

Amalgamated Copper is the owner of 51 per cent. of Anaconda, the world's greatest Copper Mine, and is my selection for the next big fortune maker.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 15 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

COLD OR COPPER?

Become interested at once in the

Goldfield Tunnel and Mining Co.

and get both

It has well under way the development of two fine properties,

A Gold Mine and a Copper Mine

THE GOLD MINE—A tunnel proposition, the tunnel being run between mines of proven value to cross-cut their ledges at great depth. It is already in 375 feet and cutting stringers assaying gold.

THE COPPER MINE—A shaft on ledge, all in ore and down 70 feet. A says average $43 in copper along ledge at the surface.

A limited amount of this Company's stock can yet be bought at 25c., par value $1.

Good commission given LIVE FISCAL AGENT.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner,

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 198 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

INTERESTING FACTS FOR INVESTORS

The place to mine is where good mines are found. Investigate before investing. THE EL PASO-PARRAL MINING COMPANY, owning three-quarters of a mile of one of the historic veins of Mexico, as well as one of the rich veins of the famous bonanza mine of Pedro Alvarado, offers a limited number of its Treasury Shares at 15 cents each—par value one dollar. Secured by large and quick returns ever brought to your notice. The district of Parral is not one-half the size of the smallest county in Colorado, yet each year it produces more than one-third of the amount produced by that entire State, making it the richest mining camp in the world for its size. It has more paying mines for the number located than any district in America. New and rich discoveries are being made each year. Here Alvarado and scores of others found their bonanzas. From this district many are receiving life incomes. Here bankers and conservative business men invest. Why not you? Buy these shares, and buy them while they are cheap! But buy only after you have investigated the men interested. WE ARE MINING FOR COMMERCIAL RESULTS, NOT SPECULATION. There is not a dollar of "promotion" in the enterprise—every member of the Board of Directors invested his own money. No expensive machinery for reduction of ores required. The property is near the railroad, and the ores will be sold for spot cash to the smelters. No salaried officers except the Superintendent. This proposition is open to the strictest investigation. Highest references furnished; correspondence solicited.

A GOOD CANADIAN REPRESENTATIVE WANTED

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"I come from abroad, because I could not longer live away from you, Ruth. I have been but a few hours in London, and have only within the last hour discovered your residence."

"But the danger! the danger of returning!"

"Bah! my dear, I am forgotten; besides the 'danger' is very much modified by an event that has occurred within the last twenty-four hours. But all this time you are keeping me out in the cold. Come, let me in, there's a duck."

"Oh, heaven of heavens, to what straits I am reduced!" again complained the poor woman.

"Come, come, Ruth, this is a very cold reception. Unbar the door, there's a darling."

Sobbing bitterly, Mrs. Russel unbarred the door, and admitted the nocturnal visitor.

Still sobbing bitterly she said something about a "lodger," and from that moment the conversation was carried on in so low a whisper that, although Laura Elmer heard the murmuring, she could not distinguish the words. This low, muttering conversation went on all night—went on till day was dawning in the east, when Laura Elmer, worn out by two nights' watching, dropped asleep in her chair, and slept heavily for many hours.

When she awoke it was broad day; the sun was high in the heavens. She opened her eyes and looked around in astonishment at finding herself in a strange place, and it was some seconds before she could remember how she came there. Then full consciousness of her misfortunes returned; the murder of Sir Vincent Lester; the imprisonment of Ferdinand Cassinove; her own change of residence; the discovery in regard to Mrs. Russel's husband; and, lastly, the strange nocturnal visit, all recurred clearly to her memory.

Her resolution was soon taken. She arose and bathed her feverish face, and arranged her disordered hair, and then rang her bell.

Mrs. Russel, pale and haggard, as with fatigue and care, entered the room, saying:

"I hope you rested well, Miss Elmer."

"No; I have not been in bed all night. I have something to say to you this morning, Mrs. Russel; but first sit down; you look, indeed, quite unable to stand."

Mrs. Russel dropped into the nearest seat.

Miss Elmer resumed her easy chair, saying:

"I am exceedingly sorry for you, Mrs. Russel, but that does not alter the course of my duty. I must tell you that I heard the arrival of your visitor last night, and overheard much of your conversation, by which I was enabled to identify the individual. This morning I must lay before the police all the particulars with which I have become acquainted, as well as my own private suspicions. As I cannot consistently continue in your house while engaged in this ungracious work, I must leave you to-day. But you will permit me to pay you for the whole term for which my lodgings were engaged; and I wish you, besides, to rest assured of my esteem and friendship, and willing services in everything in which I can aid you without injuring the cause of justice."

"Miss Elmer, I cannot complain cruelly as I suffer in this affair; I know that you are perfectly right in all that you do. But poor as I am, I cannot and will not receive payment for the lodgings that you have occupied only a day, and that you leave this morning, not from caprice, but from a sort of necessity," said Mrs. Russel, weeping piteously.

"I am glad you perceive I cannot do otherwise than I am about to do. But for your children's sake, I wish you would permit me to pay for the whole term for which I took the lodgings; it is usual to do so when one leaves before the term is up."

"Yes; but not when they have been occupied but for a day, and are left from necessity, so let us say no more about it," Miss Elmer."

Laura perceived that to press this point would only wound the sensitive self-respect of the poor woman, and she ceased.

"You forbear making any inquiries about my visitor of last night, Miss Elmer; yet this piece of information I will volunteer. He is off again, and I know not where he has gone, or when he will come back, or if he ever will return," said Mrs. Russel.

"And after the manner of such villains, he has taken away all your funds with him!" said Laura, indignantly.

Mrs. Russel evidently could not deny this fact.

"Then I will tell you when he will return—as soon as that money is exhausted. Mrs. Russel, I should think you would be glad of any law that would free you entirely from such a beast of prey."

"Ah! but my children."

"Even for their sake it were well that such a moral leper were swept from the face of the earth, lest the very relationship should contaminate them. Were I in your place I should deliver that monster up to justice with less compunction than ever I killed a venomous serpent. I should do it to save my children from the fatal infection of his presence and example. I should consider my mother duty the most sacred on earth. Oh! it is a lamentable weakness in any woman to shield a worthless and depraved man, at the risk of perpetuating an evil example to her innocent children. And, Mrs. Russel, I think that I shall be doing you and them a good service in bringing this incorrigible villain to justice," said this severe young Nemesis, who was beginning to lose patience at the maudlin weakness of the flesh betrayed by poor Ruth Russel.

"Ah! but you don't know. You haven't been tried in such a way. Besides, if ever you were to talk with him, you would not think so ill of him," said the meek little woman.

"I am very sorry for you. I do not willingly wound you, only I would be glad to see you with a clearer moral vision, and a greater moral strength," replied Laura, gently.

"I do not complain. And now, Miss Elmer, you will at least breakfast before you go."

"Yes, thank you."

"And when shall I order a cab?"

"Immediately after breakfast, if you please, Mrs. Russel."

The landlady left the room to fulfill these directions, and immediately after breakfast Miss Elmer went out in a cab to procure new lodgings. Her circumstances did not permit her to be at all nice. She secured the most respectable lodgings to be found nearest to Newgate, and into them she removed in the course of the same forenoon.

She sent her new address to Dr. Clark, with a request that he would call upon her at his earliest convenience.

And the doctor, astonished at the change of quarters, for which he could not account, called on her in the afternoon.

He found Miss Elmer busily writing at the centre table of her gloomy new parlor. She arose to meet him, saying:

"This is very kind, Dr. Clark. You find me making minutes of a chain of evidence, or rather of probabilities which I wish to submit to you. I feel convinced that I have got the clew to the real murderer of Sir Vincent."

"Indeed!" exclaimed the doctor, in amazement; "let me hear."

(To be continued)

Think of Dr. Shoop's Catarrh Cure if your nose and throat discharges—if your breath is foul or feverish—it contains Oil of Eucalyptus, Thymol, Menthol, etc., incorporated into an imported creamlike preparation. It soothes heals, purifies, controls. Call at your store for free trial box. J.D. Tully

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Full Paid and Non-Assessable

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 1,000 feet square and all bond value cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

—SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.50 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel, when completed, several thousand feet into the mountain will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $35,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

309-310 Beals Building. Kansas City, Mo.

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the great mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ores body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over $6 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—17 carloads or 1,200 tons—every ton of which went over 40.5 per cent copper, $5.00 in gold, and $1.00 in silver, and comes out above the 12th foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr J. A. Modell, 350 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.

United States Internal Revenue Collector, CAPT. GEO H. WHEELOCH, Vice President.

United States Deputy Marshal H. S. PAGE, Secretary.

United States Marshal of Utah H. B. HEYWOOD, Treasurer.

United States Deputy Revenue Collector, ARCHIBALD STUART, Manager.

Mining Expert J. E. MEYER, Assistant General Manager.

Main Office of the Company, Salt Lake City, Utah.

Address all communications to Assistant General Manager,

J. E. MEYER

Agent Wanted. P. O. Box 621, Salt Lake City, Utah

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 250,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 250 per cent, and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come and see us. We must not delay. For we are of the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Now it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once that, to wait and have our ore treated by custom mills. NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,

Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, is proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $1 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

HENRY J. MITCHELL,

Fiscal Agent Little Salmon Gold Mining Co.

St. Paul Building, CINCINNATI, OHIO, U.S.A.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

EVERY PALE WOMAN

Read This and Learn the Way to Good Color and Better Health

Pale people have pale blood.

In other words the blood is watery and lacks red corpuscles.

The stomach is wrong.

Assimilation is poor and food is not changed into blood. Naturally the system is robbed of vitality, lacks strength and reconstructive power.

Don't slip from vigor into weakness.

Don't allow the appetite to fail, but instead use Ferrozone.

You're bound to feel rejuvenated and strengthened at once.

Appetite is braced up, digestion is stimulated, vigor imparted to the stomach. Every thing you eat is transformed into nutriment that supplies what your weak system needs.

Vital, life-giving blood that makes rosy cheeks and dancing eyes—that's the kind that Ferrozone makes.

The strength and buoyancy that defies depression and tiredness, that's the sort you get with Ferrozone.

Every pale woman can transform her bleached out appearance with Ferrozone.

Not only will it improve looks and spirits, but by rebuilding all weak tired organs, Ferrozone establishes a soundness of health that's surprising.

For women and girls who want to feel well, to look well, to be well and stay well, nothing known in the annals of medicine is so certain as Ferrozone.

Won't you try Ferrozone?

Concentrated cure in tablet form, that's Ferrozone. 50c. per box or six for $2.50, at all dealers.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Furnaces Looked After.

A local citizen is prepared to take charge of furnaces during the coming winter and will make any needed repairs. Apply at The Times office.

Bishop O'Connor in Toronto.

His Lordship Bishop O'Connor spent Sunday in Toronto in attendance at the golden jubilee services of St. Basil's church, which is closely connected with St. Michael's College. His Lordship returned home last night.

Rev. R. E. Welsh to Lecture.

The annual meeting of the Peterborough branch, of the Bible Society, will be held next Monday evening in the George street Methodist church. Rev. R. E. Welsh, M.A., Toronto, representative of the British and Foreign Bible Society, will deliver a most interesting address.

Damage by Frost Sunday Night.

There was a heavy frost Sunday night. Farmers calling at The Times office yesterday noted that in some parts the corn has been affected. Much damage was caused throughout the city, to tender, and in some cases valuable, plants in many gardens. The mercury fell quite three degrees below freezing.

New Restaurant Opens This Week.

Messrs. Demetri Bros., the George street confectioners who have a staff of men busting their fine new restaurant ready, and expect to have the latter ready for business by Thursday or Friday. They have already got their splendid new steel range in place and connected up. This range is one of the largest and most modern in the Province.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.

Call at the College or address

WM FRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—City Council met last night.

—The Elks will meet on Wednesday night.

—A census of St. Peter's Cathedral parish will be taken during October.

—The Harvey fall fair will be held today and Wednesday at Lakehurst.

—Tenders were put in last night for the Romaine street sewer, to the new South Ward school.

—The Y.M.C.A. Boosting Club will reorganize on Wednesday evening at eight o'clock in the club room.

—The Ladies' Auxiliary of the Y.M.C.A. held a special meeting in the Y.M.C.A. parlors yesterday evening.

—After today the Weary Willies and Sons of Rest can sleep one hour longer as the police court will not open until 10 o'clock.

—The next Chapter of the Rural Deanery of Northumberland will be held at Riverdale on Monday and Tuesday of next week.

—Lindsay is to have a dual system of phones. When their business men get two lots of telephone accounts to pay instead of one!!!

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—His Lordship the Bishop of Toronto will administer the rite of confirmation in All Saints' church on Thursday evening, Oct. 18th.

—Mr. W. B. Bamford, formerly travelling freight agent for the Canadian Pacific Railway, has been appointed district freight agent at London.

—The case of Kidd vs. Kidd, which has caused some local interest, has again been adjourned. Mr. E. B. Stone, solicitor for the plaintiff, is in the west.

—The Roller Skating Rink Co. have placed an order for 50 new pairs of men-sized skates which will arrive in a few days. This will accommodate a great many more patrons.

—Get on and vote for the Rapid Tool Company's bonus. It is only a bagatelle as compared with the benefits conferred on the city by securing new and up-to-date manufacturing industries.

—On Saturday afternoon a lady by mistake took a pocket book, containing a small sum of money from the newspaper counter in the Times Book Store. Will she kindly return the same and save further trouble.

Methuen Mine to be Operated

The Lakefield News says: Mr. John Selkirk, of Blythswood, Essex, accompanied by Messrs. Jas. and Wm. Selkirk, passed through the village on their way to Methuen township. Mr. Selkirk, who prospected around Cobalt and the British Columbia and Colorado mining districts, has a valuable property in the township, about fourteen miles east of Apsley. A few days ago he refused a big offer for it from an American syndicate, who are anxious to secure the property.

Customs Receipts Greatly Increased

By courtesy of the local customs House staff, we are pleased to note that the customs receipts continue to rapidly increase. The returns for the month of September reached the splendid sum of $35,810.19, as compared with $25,669.04 for the corresponding month last year, or an increase of $10,141.15.

Peterborough Well Spoken of.

Ald. W. Stewart, who was at the Queen's Hotel over Sunday, yesterday looked over the new South Ward school. The alderman who carries on a very large roofing contract business in the Queen City, in conversation with a Times' representative, expressed great faith in Peterborough's future. He said emphatically that Peterborough is the best, most flourishing, most thoroughly well established and certain future of any city double its size in Canada.

The Forty Pound Lunge is Mounted

The splendid 40 1-2 pound lunge, caught as mentioned in a previous issue during last July, in the St. Lawrence river near Cornwall, by Mr. J. P. Corbett, and which is one of the largest fish of its kind ever captured by hook and line, has been mounted and is now ready for shipment by Mr. E. Elcome. The local taxidermist, Mr. Elcome has made a most artistic and naturalistic job in mounting this fish.

NOW IS THE TIME

Summer is Best Season to Cure Catarrh Hyomei Sold Under Guarantee

Summer is the best time in the year for the treatment of catarrhal troubles, and we urge every reader of the Times to use Hyomei now and be permanently cured.

Unlike the ordinary treatment for catarrh, there is no stomach dosing when using Hyomei. The remedy is breathed through a neat pocket inhaler that comes in every outfit, and its balsamic healing air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills the catarrh germs, in all parts of the respiratory organs and soothes and heals any irritation there may be in the mucous membrane.

Hyomei is not alone the only natural treatment for catarrh, but it is the only one sold under an absolute guarantee to refund the money unless it gives satisfaction. It kills all disease germs and restores the mucous membrane of the throat, nose and lungs to perfectly healthy condition.

The complete Hyomei outfit costs but $1.00, extra bottles, 50c.

For sale by all dealers. The R. T. Booth Co., Buffalo, N. Y.

SOCIAL AND PERSONAL

—Mr. G. F. Strickland, Lakefield, is registered at the Snowden House.

—Mr. Torrance Jack, the well-known piano man, is a guest at the Snowden House.

—Mr. R. Olsen Stoddard of the 'Big 3' Lumber Co., is in the city a guest at the Snowden House.

—Rev. E. A. Langfeldt is in Toronto this week attending the alumni meetings of Wycliffe College.

—Lindsay Post says: Mr. C. F. Gibson, of Peterborough, was in town yesterday transacting business.

—The many friends of Mrs. Henry, matron of the Children's Shelter, will regret to learn that she is laid up with blood poisoning.

—Mr. Jas. Allen left on the noon C.P.R. train for Ottawa on a business trip. Mr. Allen will return towards the end of the week.

—Mr. J. D. Baptie, an old Peterborough boy, but now holding a responsible position with the Massey-Harris Co., Toronto, is spending a few days in the city.

—Senator G. A. Cox was in the city yesterday, and among other business attended to the inspection of the alterations being made in the former Canada Life Assurance Company's offices in the Canadian Bank of Commerce Building.

—Mr. G. H. Hamilton, Galt, is in the city, spending a few days with his sister-in-law, Mrs. Goodfellow, London street. Mr. Hamilton, who is accompanied there by his wife, is a large manufacturer of soda waters and real estate agent in Galt.

Seriously Hurt While Coasting

What looked for some time as going to be a fatal accident, occured Sunday on a hill on the Gravel road about two miles outside of the city in North Monaghan, when Clint Deyell, a son of the late Mr. Joseph Deyell, fell from his bicycle.

It seems the lad was coasting with his feet up on the handle bars, when he ran against a small boulder, which threw him heavily to the ground.

Shortly afterward he was found by a number of other young men, in a half dazed condition. They secured a horse and rig and had Deyell conveyed to Dr. Bradd's office where he doctor had to insert 12 or 14 stitches to close the gaping scalp wound, which was about five inches in length. Fortunately the young man's skull was not fractured. He was taken to the residence of his sister, Mrs. Kerr.

New Roller Rink by Street Car Co.

Now the Peterborough Street Railway Company, with their untiring energy are proposing to branch out to another line of public amusement. It is rumored that the company will, next season open up a finely equipped roller skating rink inside the loop formed by the car tracks. It would be an open air one with a covering of canvas so that wet weather would not interfere with the pastime.

If the rink is inaugurated it will be by the Radial Railway Company, who in the past have displayed such a go-ahead spirit.

Mr. and Mrs. Hummel Lose Infant Child

Yesterday morning, Mary Ellen, the seven months' old daughter of Mr. and Mrs. David Hummel, 376 Burnham street, east ward, passed away. The funeral took place to the Roman Catholic cemetery yesterday afternoon.

Mr. and Mrs. Hummel will have the sympathy of many friends in their sad bereavement.

Gentleman Bows to Lay-Figure.

A funny scene was enacted last night in front of Messrs. T. Burrie & Company's furniture store, on the corner of George and Simcoe streets. A somewhat belated, and evidently contentally befogged gentleman passing the shop, happened to notice one of the lay-figures within, on which furs, etc., are displayed. With quite a flourish, he raised his hat and made a most profound bow. His chum, recognizing the error of his ways, said: "Say ——— what are you bowing to that wax figure for?" In reply, the interpolite citizen replied, "Well, to tell you the truth Bruce, I could have sworn that was Miss ———."

Citizens Backed up the Fair.

In conversation with a leading director of the Peterborough Industrial Exhibition, yesterday, he assured a Times representative that the Fair's financial statement will show about an equal balance. In reply to a question, suggested by recent correspondence in the local press as to how the fair had been backed this year by the citizens, said that the local merchants and citizens had "done nobly." It seems that each director took a block of tickets and called upon the merchants. The latter with only two or three exceptions, all bought from one to two or three tickets.

Presbytery Meets Today at Hastings.

An important meeting of the Presbytery of Peterborough will be held in the Presbyterian church at Hastings today. It is understood that Rev. A. Bright, assistant pastor of St. Paul's and Knox churches will be given ordination. The ceremony will likely take place in St. Paul's church.

It is also said that Knox church will apply for recognition as a separate church, it having been always identified with St. Paul's.

Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol *and* Does not in large quantities. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed *in plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic.

POLICE NEWS

Daily Happenings in Court Room and Station.

At yesterday's session of the police court, James Clancy, agent for the Queen City Oil Company, was charged with obstructing the approach to the market building with barrels.

Mr. Clancy explained that there were only two barrels, and that they were there for sale purposes, adding that they were only there temporarily. After a little pointed advice by the P.M., he was allowed to go.

Piles positively cured with Dr. Hoop's Magic Ointment. It's made for piles alone, and it does the work to perfection. Itching, painful, protruding or blind piles, disappear like magic. Sold by J. D. Tully.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

The Morning Times

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 233 PETERBOROUGH, ONTARIO, WEDNESDAY, OCTOBER 3, 1906. PRICE TWO CENTS

BOTH VOTES YESTERDAY HAD LARGE MAJORITIES

The Rapid Tool Company Vote Carried by 272 Majority Out of 432 Votes Cast but Invalid for Lack of Two-Thirds Majority.

Yesterday two somewhat important bonus by-laws were voted upon by the property owners of the city; these were a bonus of $6000 towards the Peterborough Steel Rolling Mills, and one for $1200 towards the Rapid Tool Company.

Owing to the action of the Peterborough Rolling Mills deciding on Saturday that whether the vote was in their favor or otherwise, they, the company, had definitely decided not to locate here, but to go to Welland, Ont., the vote was very light, only about one-fifth of those qualified to vote exercising their franchise; some of the voters learning of the Rolling Mills vote being dead, either erroneously decided that both votes were off, or did not take the trouble to go to the polls to vote on the Rapid Tool Company bylaw alone.

The opinion, as expressed by yesterday's vote was overwhelmingly in favor of both bylaws, especially that in favor of the Rapid Tool Co., which carried by a majority of 272 on: of a total vote of only 432; the Rolling Mills bylaw, notwithstanding the futility of such vote was carried by a majority of 233 out of a total of 381 ballots cast.

Unfortunately for the Rapid Tool Company's bylaw, there were not enough votes cast of those entitled to vote to make the bylaw valid.

The Act regulating bonus bylaws, is as follows:

Consolidated Municipal Act, sec. 700 says, regarding "iron and smelting works," to grant a bonus by municipalities it shall require a one-third majority as well as a majority of the qualified voters to validate such bonuses. In regard to bonuses to other factories, sec. 360, cap. 19, says that a two-thirds majority of the qualified voters shall be required.

The votes by subdivisions, was as follows.

RAPID TOOL CO. BYLAW.

	For	Against
No 1	34	8
No 2	25	6
No 3	25	6
No 4	28	6
No 5	37	8
No 6	45	9
No 7	21	15
No 8	36	9
No 9	27	5
No 10	29	4
No 11	45	4
	352	80

Majority $272.

ROLLING MILLS BYLAW.

	For	Against
No 1	23	8
No 2	23	6
No 3	27	6
No 4	35	10
No 5	42	9
No 6	21	14
No 7	36	8
No 8	37	8
No 9	26	5
No 10	29	5
No 11	44	5
	307	74

Majority in favor 233.

As there are 2,250 voters in the city qualified to cast their ballots on matters affecting the granting of bonuses, to manufacturers, it will be seen, that by a very simple calculation that in neither bylaw were there enough votes cast to make either bylaw valid.

As the Rapid Tool Company has spent a considerable sum already on their premises in the East Ward, and have their buildings in a forward state of erection, the company will in all probability go ahead with this industry. This company has a $5,000 already described in a former issue of The Times, that will doubtless have a wide demand throughout the Dominion, the mere loss of this $1200 will not, it is hoped materially affect the already assured success of the Rapid Tool Co.

Searching for Buried Treasure

Mysterious Movements of Four Men Recalls Tradition of Murder and Hidden Gold.

Brockville, October 3.—A party of four men recently surveying the inlets and Chippewa Bay, a tributary of the St. Lawrence, a short distance above Brockville, have left for parts unknown. Where they came from is as equally mysterious as their departure and according to the inhabitants near the point, their actions and movements while in that vicinity created lively interest and widespread comment. Many believe that they were treasure hunters and were trying to locate the alleged hidden treasure which tradition credits with being buried somewhere around Chippewa. Anyway the old story of the English paymaster, who was murdered near there during the war of 1812, has been revived and many believe that was the object of the searchers, who made two visits and went through the same precise movements each time.

That the treasure is hidden somewhere among the numerous creeks and inlets bordering Chippewa Bay is borne out by several of the oldest inhabitants.

They state that a paymaster in the English army having a chest of gold in his possession was murdered on the river and his slayers being detected, dumped the booty into the water in making their escape.

Since 1890 no effort has been made to discover the whereabouts of the English guineas.

Joseph Senecal, the most widely known fisher guide on the river, declares that the treasure really exists, and he has made futile attempts himself to locate it.

Turk Swallows Stolen Pearls

An Emetic Administered by the Authority of the Magistrate Proves His Guilt.

Paris, October 3.—A Turkish gentleman with a nice taste in pearls, was arrested yesterday afternoon in a jeweller's shop in the Boulevard St. Martin.

He walked into the shop and told the jeweller that he was engaged to be married and wanted to buy his fiancee a $2,800 pearl necklace. While he was examining two or three necklaces, one of the shop assistants noticed that he was apparently licking the pearls.

The assistant took up one of the necklaces which the Turkish gentleman had just laid down, and noticing that the cord was bitten through, gave the alarm. The police came in and arrested the Turk, who protested angrily, and demanded to be searched.

He was searched and no pearls were found on him, but the jeweller insisted on his being taken to the police station.

The Turk was there given a strong emetic on the authority of a magistrate, and was found to have swallowed two pearl worth $40 and $300.

Freeholder Thinks City Badly Used

(To the Editor of The Times.)

Dear Sir,—It seems to me that this city has been very unfairly and unjustly treated by the Peterborough Rollin Mills, and the civic legislation should be passed to effectually prevent a repetition of such action.

The Rolling Mills, composed mainly of local men, not too many of them capitalists at that, working upon the local patriotism and bon-comaraderie of their fellow citizens, make certain proposals to accomplish certain results, provided the property owners grant them certain concessions out of their private funds, as represented by the citizens' hard-earned homes and properties. The council relying upon the good faith of the Rolling Mills Company go to great expensive advertising the vote on a certain bylaw to grant the mills a large sum of money. The councillors at considerable loss of time and energy do all in their power, in the interests of the city to have this bylaw so advocated that property owners will turn out and vote for the bonus. What are the thanks give to either city or aldermen?

At the last hour, those for whom the councillors and many private citizens have worked hard for, and the city thus spent much money for, blandly turn round and say, in effect: 'Well, gentlemen we have got a better offer somewhere else. We don't want your old bylaw voted on. Pay your printing bill and look pleasant over the time and trouble you have expended. Peterborough pays the piper but Welland or St Catharines does the dancing!"

Now it was generally said throughout the city yesterday that Mayor Best and certain councillors, acting in the interests of the city, were to blame for this concern going abroad. This seems to me a puerile argument. Why did this company, a week before the election pay men to canvas the different wards of the city to try and ascertain the intentions of the voters? It looks to me very much as though an underhanded deal was on between the company and other towns, and that if the result of the canvassers' work had shown an overwhelming probability of success, the company would have located here. No company sends out six or eight men, a large pay amount a mission for fun.

It is now, in my very humble opinion, up to the council to pass such legislation as will compel any company asking in bonus or fixed assessment, to put up a tangible deposit to ensure good faith and compliance with such agreements as such companies may make, before the city goes to the expense of a farcical election.

Yours truly,
FREEHOLDER.

Manufacturers Met Last Night

Last night the manufacturers of Peterborough, met in session in Mr. R. M. Denniston's office, in the law offices of Denniston, Peck, Kerr & Stevenson.

Owing to various reasons he attendance was small. The main matter to be considered was location of the fire alarm boxes and a better system of fire calls.

There were present, Messrs. E. G. Patterson, manager of the C.G.E. Co., R. M. Denniston, Jas. English, Canmouth, manager T.R.R. Co., Adam Hall, president of the Peterborough Cordage Co.

As this was practically a private meeting, there was nothing of general interest to the public for publication as yet.

PRESBYTERY OF PETERBOROUGH

Met in Hastings Yesterday—Rev. Mr. Bright Gets License to Preach.

The Presbytery of Peterborough, met in Hastings yesterday. Dr. Duncan, of Colborne, the Moderator, was in the chair. There was a good attendance, Peterborough being represented by Rev. Dr. Torrance, Rev. Mr. Bright and Elders Robert Harrison and Sheriff Hall.

The scheme of the Church in relation to the Presbytery were discussed, including the matter of Rev. Mr. Bright's ordination, which was laid over until the meeting of the Presbytery, which takes place in Port Hope on December 2nd. The opinion of the Presbytery was that Mr. Bright could only be ordained when he assumes a charge of his own, and it was therefore thought wise to bring about the separation of St. Paul's and Knox churches.

Will the Water's-Allen Case Go on?

A Toronto despatch of yesterday referring to the suit of one H. G. Waters, formerly employed in some not too clearly defined position by Mr. Jas Allen, ex-mayor, proprietor of the Q.H.R. Hotel, and who is suing Allen for $10,000 damages for alleged slanderings of the former's wife's affections, says.

"An appeal was heard before Chief Justice Falconbridge this morning against the decision of the Local Master at Peterborough, refusing to allow an application of the plaintiff for further particulars in the action of H. G. Waters against James Allen. No decision was given today."

RIGHT HOME

Doctor Recommends Postum From Personal Test.

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A Mo. physician prescribes Postum for many of his patients because he was benefited by it. He says:

"I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional or nervous heart trouble for over 15 years, and part of the time was unable to attend to my business.

"I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart got all right, and I ascribe it to the change from coffee to Postum.

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach.

"When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

POLICE NEWS

Daily Happenings in Court Room and Station.

Much interest was taken at yesterday's session of the police court. Several members of the Never-work Club actually kept awake and did not unload a single schooner of beer for over an hour.

The case of Milburn Morrison, the Brockville youth, arrested last Wednesday by P. C. Newhall at the Peterborough Exhibition on a charge of pocket-picking was tried. Several witnesses of the Crown gave evidence pointing directly to the guilt of the prisoner. Morrison was seen to mix up with crowds at various times and walk quietly away behind the vehicles, seemingly to collect his money from several pockets, put it together and replace it in an inside pocket.

Letters were read from influential men of Brockville, by his counsel to substantiate his good character, but these were offset by one from the chief of police of that town stating he had been arrested on a charge of larceny at one time, which was proved against him, he had been allowed to go on suspended sentence.

Crown Attorney Wood was present on behalf of the Crown, while the interests of the prisoner were looked after by Mr. D. O'Connell.

P. C. Newhall, who displayed great detective ability and made the arrest, was the first witness against the prisoner. The officer said that on Wednesday, while outside the grounds the prisoner accompanied by two other young men of dark complexion, pushing among the crowd at the ticket wicket, but making no attempt to purchase any, although they had plenty of opportunities. He was in uniform at the time and the two suspected pals of Morrison, getting "leary" took to a car for the city. The officer asked the conductor to keep an eye on them while he watched the prisoner, and when he turned around to look for the prisoner he had disappeared. A man he heard, had lost some money. He then went home and returned shortly in civilian clothes, and soon caught sight of Morrison again watching his chances, when boys were throwing balls at a nigger. The prisoner was standing behind an elderly man, pushing him and shouting "Hit the nigger, boys." His right hand was on the old man's hip, and he was making no effort to get between the crowd.

Morrison soon moved on to the next crowd where some similar manoeuvres were noted by the officer, left with his hand in his hip pocket with the palm turned outwards visible to all. His next visit was to the display building where the officer followed him. He dusted among several ladies who were in the building, but becoming seemingly suspicious, left by the south door. The Conroy Island show again attracted his attentions, and this time prisoner placed his chin on a young man's shoulder. He next walked back to where a number of buggies were located, drawing whip from several pockets, counted them and put them together in his inside coat pocket. The buildings was entered again, but catching sight of the officer watching him, he went on a half run around the clothing tent of Lang & Maher. The witness sent the other way and arrested him while sitting in the window sill, telling him he was arrested for picking pockets.

"Picking pockets!—Oh, my God!" he exclaimed. "I admit my conduct was suspicious, and I was with the gang. I ought to get a good swift kick. I am a respectable medicine man, and you will find out later."

On arriving at the police station the prisoner was searched, and $16 in bills, besides $1.95 in silver, were found on his person.

Earl Downey and Robert Howland also gave evidence as to the movements of the prisoner in the fair grounds.

The magistrate said the conduct of this young man was that of a desperate pocket-picker. He committed him for trial and fixed the bail at $1,000.

The prisoner's father was present in court.

Duke is After Buried Treasure

Argyll Will Search for Sunken Spanish Ships.

London, October 2.—An extraordinary amount of interest is being taken just now in a couple of expeditions organized by prominent Englishmen. One of these, and the first to get under way, has as its object the quest of gold and jewels which went down with the treasure ship of the Spanish armada. In the latter part of the sixteen century; the other has even more of an Arabian Night savor to it, consisting of an island with diamond-strewn shores, which a number of Englishmen, forming the so-called Collis diamond syndicate, are bent on discovering. The former is not only interesting from a historical point of view, but also from the fact that the principal promoter is King Edward's brother-in-law, the Duke of Argyll. It is whispered in court circles that the duke has agreed to put up a seventh of the expense providing he shares a seventh of the profits. In 1588 the Florencia, the treasure ship of the Spanish armada, went down in the harbor of Tobermory, Mull. The first Duke of Argyll instituted a search for the treasure, but only managed to get up a few of the guns, when the crown interfered, claiming that any gold found should belong to it. What the Duke of Argyll intends to unearth is the contents of the ship's treasure room. Documentary evidence shows that this contained in addition to silver plate, altar ornaments, sacramental vessels and jewels, a gold crown set with hundreds of the most costly pearls as well as several millions' worth of bullion.

COAL MINERS ON STRIKE

Serious Results are Feared—Mitchell Anxiously Awaited.

Fernie, B. C., October 2.—The strike of coal miners in the Crow's Nest Coal Company mines and at Michel has reached a stage when serious results are feared. Eight hundred men are on strike, and are eagerly awaiting the arrival of President Mitchell and Vice-President, or Secretary Wilson, of the United Mine Workers, when an effort will be made to straighten out the difficulty between the company and the men. That the company proposes to beat out the men is indicated by a notice given to the consumers, that the company will no longer take the responsibility of furnishing electric light when coal necessary for the producing of it has been exhausted. The union voted unanimously on Saturday night to go on strike, and the mines are now practically closed. The company has notified the striking miners at Coal Creek to vacate the houses owned by it. Or that account the union miners who have continued work to keep fans and pumps going, quit work.

CLAN STRUGGLE IN JAPAN

Viscount Hayashi, Minister of Foreign Affairs, Suffers for Sins of His Father.

London, October 3.—The Manchester Guardian reports that Viscount Hayashi has met with great difficulty in retaining his position as minister of foreign affairs in Japan, not so much from any political troubles as because of intrigues which date back to the old struggle with the Shogun. The great Tokugawa clan have never forgiven the Hayashi family for having surrendered to the imperial forces the last fortress which held out for the Shogun. It is expected that sooner or later his personal enemies will make his position untenable.

FORTY-FOUR LIGHTHOUSES WERE SWEPT INTO SEA

Hurricane Between Mouth of the Mississippi River and Mobile Also Drowned Four People.

New Orleans, Oct. 3.—Forty-four lighthouses either swept into the sea and lost or so badly damaged that no lights can be shown, and four lighthousekeepers drowned during last week's hurricane, is the summary of the report made by United States Lighthouse Inspector Sears, of New Orleans.

These lights were located on the coast and adjacent islands between the mouth of the Mississippi River and Mobile.

Mr. Sears did not investigate the light houses located between Mobile and Pensacola.

NO FURTHER STORMS.

Washington, Oct. 3.—The Weather Bureau today reports that the Gulf disturbance is practically as it was Monday, except that the region of the low pressure has extended eastward to the south Atlantic coast.

General rains are reported throughout the southeastern part of the country, but there is no present indication of further storm violence.

RELIEF WORK SYSTEMATIZED.

Mobile, Ala., Oct. 3.—No storm appeared during the night and there is none immediately at hand this morning. The barometer is still low, but the decline is gradual, and although some wind may strike this city, no storm of great severity is expected.

Telegraphic facilities are gradually being restored, all of the railways except the Louisville and Nashville, are running on a reduced time, heavy stress have been cleared of debris, and, save for the battered conditions of so many buildings Mobile is cotwardly, at least, as good as ever.

Relief work in the stricken communities down the bay is now systematized and working admirably. Food, clothing and bedding is being furnished, and although there is still much suffering, it is not as acute as at first.

There is still need, however, for all the supplies that can be sent in from outside points.

FORTUNE FOUND AMONG RAGS AND SACKING

Jars of Old Coins and Other Treasures Discovered on Homestead---Relatives to Contest Will.

New York, Oct. 3.—A Hudson, N. Y., despatch to the Herald says that pots of gold filled with coins dating back to the reign of George III., bearing the date of 1770, and bills tied in knots and tuffed into vases and cups, were found yesterday in less expected places at the Robinson homestead at Hudson, where four weeks ago Frances Caroline Robinson. Until the hidden money was found it was supposed that Miss Robinson left not more than $6,000, but with the finding of the concealed treasure the estate is brought up to more than $50,000.

The finding of the hidden treasure will, it is thought, cause a contest of the will that Miss Robinson left. The next-of-kin will probably take the matter into the Surrogate Court, on the ground that Miss Robinson was of unsound mind, although she was always regarded as alert in business transactions. The will divides the estate into four equal parts one to the American Seaman's Friend Society, one to the American Bible Society, a third to the American Tract Society, and the fourth portion to the Hudson Home for the aged. Already lawyers have been engaged by both sides for the will contest.

AN ODD CHARACTER.

Miss Robinson was an odd character, sixty years old, and a recluse, known to everyone of prominence in the city. Her father was one of the old-time clipper ship captains, whose boast was the number of trips he had made around the world. The curios the Captain Robinson picked up in his cruises were many. Among these were the George III. coins that formed part of the treasure found yesterday. No one supposed that Miss Robinson had any money to speak of, so but when she was found dead there was no especial activity among the next-of-kin, outside of having an inventory taken. It was while this inventory was being made that the first jar of coins was discovered under a back staircase. These coins were all at the bottom of the jar, and the rest of the space was filled with spools and loose thread. A gymnastic search of the house was then made. Fathers filled with coins were found behind doors covered with rags and sacking. Under carpets were found bills tied up and more coins. More money was found over the copings and in the garret. There was hardly a room in the house that did not conceal money. All the property has been turned over to the public administrator.

Department's Net Making Big Catches

Toronto, Oct. 3.—A very unique and praiseworthy case has just been reported to the Provincial License Department. A lady residing in one of the towns in an Ontario village vowed that any crossed her hotel bar on the days of the annual fair for the reason that in former years some of the young men at sending the export had become boisterous. As the fair days are probably the most profitable of the year, the decision was one of financial sacrifice and entirely voluntary.

"If hotelmen throughout the Province would adopt some thing of this spirit much of the trouble that is met with would be done away with," was the comment of Mr. Dude Saunders, the chief officer.

The drag-net cast by the department as a result of the resolution passed by the Carruthers District Methodists Conference has yielded startling results. Six cases in Halton, seven in Welland town, an equal number in Welland county, and eighteen at Niagara Falls are the results to date. The special officers now report that extra precautions are being taken by other hotelmen in the district as a result of these convictions.

"The law is being enforced all over the Province as never before," said Mr. Saunders. "The Minister has given the department an untrammelled hand, with instructions to see that the law is everywhere and unconditionally observed."

HONORED RAILWAY MAN

Toronto Newspaper Men Extend Congratulations to Mr. J. J. Brignall.

Mr. Joseph J. Brignall, chief clerk in the district passenger office of the Canadian Pacific Railway, Toronto, well known in Peterborough district, was invited on Saturday afternoon to meet a number of city newspaper men at luncheon in the King Edward Hotel. Mr. J. A. McNeill of The Mail and Empire presided, and read an address expressing the felicitations of the newspaper fraternity to Mr. and Mrs. Brignall. He also presented to Mr. Brignall a beautifully wrought silver tea service of unique and chaste design, and asked him to accept it upon behalf of Mrs. Brignall as a token of appreciation from the Toronto Press.

In addition to representatives of every city daily there were present a number of prominent railroad men, including Mr. Burton H. Bennett, of the Chicago & Northwestern Railway; Messrs. John J. Rose, William Cosgrove and W. McIlroy, of the Canadian Pacific Railway; Andrew J. Taylor, of the Chicago, Milwaukee & St. Paul Railway, and J. O. Goodsell, of the Union Pacific Railway, all of whom made congratulatory addresses.

DOMESTIC CONFESSES

Threw Her Child in Ash Barrel—Investigation is Proceeding.

London, Oct. 3.—Rebecca Bale, a domestic at the City Hotel, confessed to the police yesterday that she had thrown her illegitimate child into a refuse barrel at the rear of the hotel.

The child was discovered by a young farmer and was badly decomposed when found. He did not report the matter immediately to the police, but had the body removed to an undertaker's.

The girl's confession followed close upon the discovery.

It has not been established whether or not life was expelled or if it was by what means when the child was placed in the refuse barrel.

Are Prosecuting Grocers' Guild.

Hamilton, October 3.—E. F. A. Duvernet, K. C., of Toronto, has been instructed by the Attorney-General's department to conduct the prosecution for the crown in the charge of conspiracy against the Dominion Wholesale Grocers guild, which will be tried at the assizes beginning here on October 8th.

Sugar With a Yellowish Tinge

New York, Oct. 3.—The Tribune says: Unless the United States Pure Food Commission changes its mind the people of the United States will soon be using granulated and other sugars that have a distinctly yellowish tinge.

The Commission has decreed that no mineral bluing substance be used in bleaching sugar and the refiners and their chemists are much disturbed. Sugar chemists say that they use four pounds of a mineral bluing substance to every one million pounds of sugar, for bleaching purposes.

This the sugar chemists say, is not adulteration, that it is merely purification by a thoroughly healthful process. The Pure Food Commission cannot see it in that light, and insists that whitening process be abandoned forthwith. The result will be that all sugar refined under the commission's new directions will be of a distinctly yellowish shade.

DESERTED BY FATHER

Ten-Year-Old Boy Stranded 2,000 Miles From Home.

Sault Ste. Marie, Ont., Oct. 3.—Lewis Ferguson, 10 years old, is stranded in the Soo because his father mysteriously deserted him at Saxon, a station on the South Shore in Wisconsin. The boy and his father were travelling from the Canadian North-West to Collingwood, when the father gave him two dollars and got off the train after telling the boy to come to the Soo and wait for him. The father go off the train at midnight. All efforts to locate him have proved unavailing. A strange character is reported to have alighted from the train at Saxon, he then disappeared. It is believed this man was Ferguson. Whether he is wandering in the woods, cannot be learned. The boy is being cared for in a hotel here, nearly two thousand miles from home.

Canadian Girl Faints For Lack of Food

Detroit, Mich., Oct. 3.—An 18-year-old girl who says she her name is Lizzie Allen, and that she recently came from Windsor in search of employment in Detroit, was picked up in a fainting condition near the Belle Isle bridge approach last night. She was removed to a near-by physician's office, who said she had collapsed from lack of nourishment. Later she was removed to St. Mary's Hospital. She was so weak to give any details, but said she had been walking the streets two days.

SCOTIA'S ANCIENT GLORIES

Lord Leven Leaves Much Money to Restore Holyrood Palace Chapel.

London, October 3.—Lord Leven has proved that a romantic strain is frequent in the Caledonian blood by leaving in his will forty thousand pounds for the restoration of the chapel in Holyrood Palace, and has aroused the controversy which is inevitable and perennial between those who cherish the traces of time's decay and others who would attempt to renew the actuality of the past. His plans aim also to provide in Holyrood a chapel for the Knights of the Thistle, Scotland's national order of chivalry.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

—On Saturday afternoon a lady left the newspaper office in the Times Block, took a pocket book, containing a small sum of money from the counter. Will the kindly person who has the same please leave it at this office.

THE SCOURGE OF CONSUMPTION

Thousands Are Dying—If Tired, Languid or Run Down Get Protection Before Too Late.

No child, man or woman is safe from consumption unless their blood is pure, rich and nourishing.

Allow the blood to become thin, and immediately the whole system grows weak. The lungs are deprived of resisting power and the ever-present tubercular bacilli develops.

The most positive protection against consumption is Ferrozone, which restores the blood to full strength. Weak organs are instantly strengthened. Worn-out tissues are rebuilt. New life is given to the lungs and all danger of consumption is destroyed.

Mrs. E. J. Richardson, Manotick, Ont., tells as follows of her enormous gain in health from Ferrozone: "For two years I was not well. I was thin and anaemic. Towards spring I fell into a condition of nervous exhaustion. A dead tiredness hung over me like a load of lead. Housework of any kind I simply couldn't do. A bad cough developed that worried me greatly for I thought it might be tubercular. When I first read of Ferrozone I was convinced it was good. I took it regularly for eight weeks and the change in my condition was wonderful. My cheeks filled out and became clear and rosy. I gained eight pounds and now am strong and vigorous as possible."

Ferrozone feeds, nourishes and tones up the body—it sends the thrill and vim of robust health from head to foot—makes you feel better at once. Won't you use Ferrozone? Price 50c. per box, or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

TWENTY-FOUR TONS OF PENNIES

"It may be of interest to note," says the Boston News Bureau, "the progress of the 'penny-in-the-slot' method of supplying gas in London, especially in the south side, among the poorer population, where hundreds of thousands of these meters are daily in use. The South Metropolitan Company, the largest gas concern on the south side of London, remove nearly twenty-five tons of pennies every week from these slot machines." How much do twenty-five tons of pennies amount to? An English penny—value about two cents—weighs just under 146 grains or, say, forty-eight to the pound avoirdupois. A long ton would be 107,520 pennies and twenty-five tons 2,688,000 pennies, or $53,760. Not so very much after all. If twenty-eight cubic feet of gas is given for a penny, the penny-in-the-slot machines account for less than 4,000,000,000 cubic feet per year, not one-third of the amount of the gas sold by the South Metropolitan, which is the second largest of the three London companies. When our correspondent visited the headquarters of the South Metropolitan in June, 1905, that company had about 180,000 penny-in-the-slot meters outstanding. By this time the total must be far beyond 200,000, for the demand for these prepayment meters was much greater than that for the old style. Gas is the universal household fuel throughout a large proportion of London, and the companies are allowed to furnish gas of a low candle power, which is better for cooking and better for use with mantles.

CHINA'S AWAKENING

Within the last year a book was published by T. R. Jernigan under the title "China in Law and Commerce," which gives the westerner a splendid insight into the peculiar laws and customs of an ancient empire, enabling him to understand the obstacles in the way of progress, and yet, in special chapters, telling a remarkable story of the advances which are being made everywhere, advances which another writer declares are more notable during the last five years than those made by any other nation on earth, not excepting Japan.

Some of the changes which are being made are almost beyond belief. They affect such long established customs as foot binding, and invade the temples of religion with their innovations. They are startling in their way and have deep significance from the standpoint of world civilization. An imperial decree that some mastery of western learning must be a condition of future employment in the government service, for instance, is as interesting as is the establishment of thousands of preparatory and secondary schools in which the young people may get ready for the new government courses. The English language is to be taught, and with it will certainly come the knowledge of western civilization and western science, and the adoption of many of their elements in the life of the people.

Even more surprising is the reported attitude toward the Bible and the religion it represents. It is said that one official whose jurisdiction covers nearly sixty millions of subjects has ordered the New Testament introduced into the schools, because he is convinced that that something which western nations possess which is not given to China under Confucianism comes from Christianity. It is highly improbable that such radical changes will find acceptance without fierce opposition from the conservatives who represent the influences dominant in China for hundreds of years. Indeed, it is declared that American and English officials, and some of the missionaries, fear a reaction which may turn back the wheels of progress for years.

It is simply impossible to forcast the effect upon the world if China were to take its place among the powers, determined to equal the best, ready to spend money freely for the finest equipment, and quick to seize upon everything that promised advantage. But there certainly is food for thought in the paragraph in a recent communication from Shanghai, which reads:

"In a word, China today is where Japan was thirty years ago. And if Americans and foreigners respond to one of the greatest opportunities which ever confronted them and guide this empire into modern liberty, modern education, and modern inventions, 457,000,000 human beings may come under western civilization within a generation."

New Zealand Exhibition, Low Rates

To the many attractions of New Zealand as a tourist and pleasure resort is this year added that of the international exhibition, to be held at Christchurch, the second city of the colony, from November, 1906, to April, 1907.

Canadian products will be much in evidence, and it is expected that a large number of Canadians will take this opportunity of visiting "Maoriland," that interesting country of which most people have heard so much, and in reality know so little. Mark Twain's opinion that New Zealand "was somewhere near Australia, and you get over to it by a bridge," is shared by the great majority, who have never experienced the steady steaming across the wide Pacific necessary to "bridge" New Zealand and her big neighbor. The democratic government, unique and progressive legislation, state controlled industries, from railroads to coal mines, have made New Zealand so well known as its natural beauty, its hot lakes and geysers, outrivaling the Yellowstone, its lovely semi-tropical bush, with graceful palms, and tree ferns and gorgeous wild orchids everywhere, its majestic fiord scenery and its lofty snow-clad Alps, all of which truly need to be seen to be appreciated. The climate is certainly the best found south of the line, and as the exhibition, from November to April, covers the best of the summer months, visitors need not fear bad weather. If you have ever contemplated a trip to the Southern Seas—"do it now"—this is a good opportunity.

Special reduced rates for the exhibition are offered by the Canadian Pacific Railway, with its ocean connection, the Canadian-Australian line of royal mail steamships. Through rates from Toronto right to Port Lyttelton, N. Z., and return are $418.90 first-class throughout, and $348.90 first class rail and second on steamer. Tickets good sailing from Vancouver on October 12th, November 9th, December 7th, 1906; January 4th and February 1st, 1907, good to return to Vancouver within six months. These steamers call at Honolulu, and passengers can tranship at Suva, Fiji, if they wish, instead of reaching New Zealand by way of Sydney, N. S. W. Splendid accommodation is provided, with a fine table and attendance, and at this time of the year a smooth passage is a certainty. Further particulars and literature gladly furnished upon application to C. B. Foster, District Passenger Agent, C. P. R., Toronto.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

The Engineering Magazine.

The Engineering Magazine for October opens with a very interesting paper by Alfred Sang, pointing out the great practical value which would lie in a good industrial museum. This sort of "perpetual exposition" would present a graphic and easily read history of industrial progress, and would save much of the time and effort now wasted, through ignorance, in worthless inventions and in freak revivals of long-discarded ideas. Another most important contribution is by Edwin J. Prindle, showing clearly what protection a patent affords its owners, and especially the astonishing extent to which trade and manufacturing combinations are legalized in the United States b ythe monopolies conferred by patent rights.

The pictorial features of the number are many and striking, including articles by Frank L. Hess, of the U. S. Geological Survey, on the tin deposits of the Carolinas; by A. E. Dixon, on the power plant; by Charles V. Allen, on electric machinery in Mexican mines; by H. W. Jacobs, on the railway machine shop; and by H. S. Knowlton, on a cost-stores system for a boiler shop. The magazine contains also, as usual, the complete Review of the Engineering Press of the world, and the Engineering Index. The Engineering Magazine, New York.

WEDDING STATIONERY

WEDDING ANNCUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

HAVERGAL COLLEGE

TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Mascot Bullfrog Mining Co., is developing its properties which consist of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141 50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

A GOOD CANADIAN REPRESENTATIVE WANTED

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

Miss Elmer commenced and related all the circumstances of her fragmentary acquaintance with Sir Vincent Lester's protegee, Helen Ravenscroft; the mysterious stranger that waylaid and followed her carriage; the midnight interview and angry words that passed between this stranger and the baronet upon the occasion when she accidentally discovered them together; and finally the conversation that had recently passed between herself and Ruth Russel, in which she was enabled to put certain disjointed incidents together, and identify the mysterious "light-haired man" with a certain notorious criminal who had fled from justice years before.

"Now deep in my heart is the conviction that this man and no other was the assassin of this unfortunate baronet," concluded Laura.

"Good heaven! and yet you do not know the circumstance that makes that the most probable thing in the world?" exclaimed the doctor.

Laura looked up, full of interest.

"That criminal fled from trial and Sir Vincent Lester was the principal witness against him; indeed, without the testimony of Sir Vincent Lester, I doubt if it would have been possible to convict him," said the doctor.

"And there is the motive established at once for the assassination!" exclaimed Laura, with increasing excitement.

"Yes, the very strongest motive that can possibly actuate human nature—that of self-preservation."

"Oh, then, let us go at once to some magistrate and lodge this information, procure a warrant for the arrest of this man, and, if possible, an order for the liberation of Mr. Cassinove."

The doctor smiled compassionately, saying:

"Ladies know but little of the formulas of law, my dear Miss Elmer, else you would be aware that though we may procure a warrant for the arrest of this man, we cannot possibly procure the liberation of young Cassinove. Having been duly committed to prison to answer the charge of murder, he must remain a prisoner until his trial shall have ended in his acquittal or ——"

The doctor left the other words unspoken.

"Oh! but that is very hard!" said Laura.

"It is; and I must remind you of another set of circumstances—namely, that the evidence against Ferdinand Cassinove, whom we believe to be innocent, is much stronger than that against the man whom we believe to be the assassin of Sir Vincent. Indeed, I doubt whether you have any evidence to give that would justify any magistrate in issuing a warrant for arresting the man upon the charge of having murdered Sir Vincent Lester. If a warrant should be issued for his arrest at all, it will probably be upon the old charge, that we can soon satisfy ourselves. We will repair at once to a magistrate and lodge the information we possess. I will wait while you put on your bonnet."

Laura Elmer did not keep the good doctor waiting five minutes, but went into her adjoining chamber, and in a few seconds returned, shawled, bonneted and gloved for the expedition. The doctor handed her into his carriage, and they set out for Bow street.

Arrived there, they had to wait some time before the magistrate was at leisure to attend to them; and when at length he was disengaged, the doctor requested that the office might be cleared, as the information he had to give had best be given in private. The character and position of Dr. Clark insured a prompt attention to his request. When the office was cleared of all except the magistrate, his clerk, the doctor and Miss Elmer, the latter advanced, and being sworn, made her statement. Now everything, even remotely connected with the tragedy of Lester House, was of the utmost interest to the authorities. Miss Elmer's statement received a candid and attentive hearing, and the magistrate thought the information sufficient importance to justify him in issuing a warrant for the apprehension of the accused.

Miss Elmer and Dr. Clark had the satisfaction of seeing this warrant placed in the hands of an experienced officer before leaving the magistrate's office.

From Bow street they repaired to Newgate to comfort the prisoner there with the intelligence of the clew they had obtained to the real assassin.

Meantime the officer with the warrant sought the accused first of all at the cottage of his wife in Chelsea; but Ruth Russel and her children had flitted with all their luggage, nor could any one tell whither they had gone.

CHAPTER XXVII.

From gloom to glare; from the prisoner's cell at Newgate to the drawing-room at Beresleigh House.

Beresleigh House was one blaze of light. Crowds of carriages blocked up the way for some distance up and down the street before the front of the house. The occasion was this: The young Duke and Duchess of Beresleigh had returned from their bridal tour, and were receiving their "dear five hundred friends" at home.

The drawing-rooms, superbly furnished, beautifully adorned, and brilliantly lighted, were filled with the beauty, fashion and celebrity of society.

At one end the young duchess, the beautiful and happy bride, stood to receive her guests; the loveliest where many were lovely.

Her dress was arranged with her usual artistic taste. It consisted of a full lace robe, light as a gossamer, worn over rose-colored silk, delicate blush roses in her hair, and pearl ornaments on her neck and arms. Never had Rose been happier than upon this evening, though even now she was not perfectly happy. We are never any of us at any moment of our lives. The shadow of Rose's light was the thought of Ferdinand Cassinove pining in his prison cell, and of Laura Elmer sorrowing in her gloomy lodgings. But the heart of Rose was full of hope; she had great confidence in the innocence of Cassinove, and great faith in Providence; she was doing, and she meant to do, all in her power to serve Cassinove; and she had in her own heart not a single doubt either of the perfect rectitude of young Cassinove or of his final acquittal and full exoneration from suspicion. Therefore she cast away all pensiveness; turned her back upon the shadow and faced the sunshine, dispensed her smiles with equal sincerity and affability; and soon, at length, joined the dance. It was while she was still dancing that she noticed her own especial footman lingering near the door, as if anxious to be noticed, to enter.

Seeing this, and surmising that he might be the bearer of some note from Laura Elmer, she took the earliest opportunity, when the dance was over, to move near the door, and beckon the man to her side.

He came in, and drawing near, said:

"I beg pardon, your grace, but there is a person below who is very urgent to see you upon the most important business."

"Well, show him into the library, Miller, and say that I will see him in a few minutes. And do you yourself be there in attendance."

"Yes, your grace," said the servant, bowing and retiring.

Rose entered the library, which was lighted but by one chandelier hanging from the ceiling over the central table. At this table stood a rather "shabby-genteel" looking man, with his back turned, and his hands in his pockets.

Rose, kindly wishing to put this impoverished-looking gentleman at his ease, advanced toward him, speaking pleasantly, and saying:

"You have come to me from Miss Elmer or Mr. Cassinove? Pray take a seat, sir."

"No, madam, I have not come from Mr. Cassinove or Miss Elmer," said the visitor, in a singularly sweet and clear voice, as he turned around and bowed deeply to the young duchess.

Rose then saw before her a fine-looking man, with a tall and graceful figure, a stately head, well covered with glossy, light yellow hair, that waved around a forehead broad, white and open as that of boyhood; delicately-arched eyebrows, clear, gentle, blue eyes, straight nose, full, finely-curved lips, all blended into a charming expression of kindliness and gay good-humor.

[To be continued]

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter-section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral place, may locate a claim 15 0x1500 feet. The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

JOHN W. BOUGHTON, Pres.

Merits of the Bi-Metallic Property

A large property (over 200 acres) and no debts.

A TUNNEL SITE 3,000 feet square and all blind veins cut in its extension.

EIGHTEEN GOVERNMENT CLAIMS, one of which has produced SEVERAL THOUSAND DOLLARS' worth of very rich SILVER ore (640 oz. per ton), and most of it very high grade.

TEN CLAIMS have produced samples of ore—some very rich—and some shipments of SILVER, GOLD and LEAD.

SEVEN CLAIMS have large quartz veins that will probably produce ore when further developed, and many of them are covered by large quantities of TIMBER, which will be needed in the mines.

There is a ranch in the valley for dumping grounds, miners' cabins and other buildings necessary for the development of the property, also plenty of water for power and concentrating mills.

ALL of these CLAIMS can be developed through the tunnel, and ore can be shipped to market all the year without interruption.

Labor is cheap and reliable.

A good wagon road to the railroad depot—two miles—and an extension of the railroad now graded across the property is within 500 feet of the entrance of the tunnel, and it will cost but $1.00 to $2.00 per ton to market the ores.

It will not cost over $2,000 for the necessary electric drill plant to push the work at the most rapid rate, as power can now be had from the electric wires that run to the Stevens mines above and across our property within 500 feet of the tunnel.

This tunnel when extended several thousand feet [illegible] will cut some of the richest mines in the State at great depth, besides those belonging to the company.

When mines of SILVER, GOLD, LEAD, COPPER and ZINC are once developed they are not affected by dull times or seasons, and the market is never overstocked.

Over $500,000,000 have been taken from Clear Creek and the four adjacent counties, being one-half the production of the whole State, of which Clear Creek county has furnished about $85,000,000.

The stock of the COMPANY is now being sold at a VERY LOW price in order to develop the property, but as soon as PAY ORE is struck it will bring several times as much as the present price, and can be readily sold at a large profit.

No better investment now offered. For particulars address

Times Printing Company

A Bonifide and Gilt Edge Investment In a MATURED MINE

NOT A PRO PEC T

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 15 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 5 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 60 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—18 carloads or 1,200 tons—every ton of which went over 40.5 per cent. copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now in taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. See what he will tell you about the Federal Company's mines. Mr J. A. Modell, 50 Markham street, Toronto, Ontario.

WHO ARE THE COMPANY

United States District Attorney JOSEPH LIPPMAN, President.

United States Internal Revenue Collector, CAPT. GEO H. WHEELOCK, Vice President.

United States Deputy Marshal H. S. PAGE, Secretary.

United States Marshal of Utah B. B. HEYWOOD, Treasurer.

United States Deputy Revenue Collector, ARCHIBALD STUART, Manager.

Mining Expert J. E. MEYER, Assistant General Manager.

Main Office of the Company, Salt Lake City, Utah.

Address all communications to Assistant General Manager,

J. E. MEYER

Agent Wanted. P. O. Box 621, Salt Lake City, Utah

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 250,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 250 per cent. The Enterprise Lead and Zinc Mine has paid 250 per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion and belief of experts and miners that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,

Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, is proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $3.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $40,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

St. Paul Building, CINCINNATI, OHIO, U. S. A

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

WHY STAY RHEUMATIC?

Nothing Short of Folly When Cure Is Guaranteed with Ferrozone

Rheumatism can't be cured so long as your system is weak and run down.

You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well today. Ferrozone cured me completely. I can jump and run like I did forty years ago."

Be sensible about your case. If your present medicine is useless give it up.

Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply today. The sooner you begin Ferrozone the quicker you'll get well. Price 50c per box or six for $2.50, at all dealers.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Furnaces Looked After.

A local citizen is prepared to take charge of furnaces during the coming winter and will make any needed repairs. Apply at The Times office.

Repairs to Burleigh Locks.

The gates and locks at Burleigh Falls, owing to needed repairs, will be closed to navigation on October 15. The repairs have been ordered by Mr. A. J. Grant, superintending engineer. Mr. McClellan, the superintendent of the canal, will order that the locks be closed on the day mentioned.

Rev. H. M. Manning's Sermons

The Lindsay Post gives considerable space to the interesting sermons which Rev. H. M. Manning, pastor of Charlotte street church, preached at the harvest home services in the Queen street Methodist church, of that town on Sunday, at both morning and evening services.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

Work Begun on Bowling Alley.

Mr. J. T. Smyth, proprietor of the Majestic Billiard Room and Bowling Alley, on Water street, yesterday began work on the large bowling alley he is putting in the former Gospel Hall, above his present quarters.

In this large hall, once used as a roller skating rink, Mr. Smyth is putting in six up-to-date alleys, i.e., three sets. This hall, which extends entirely throughout the building is especially adapted to the purpose intended. The proprietor, who is about to decorate, repaper and entirely renovate the hall, claims he will have the second best bowling alley in the Dominion.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.

Call at the College or address

WM PRINGLE,

Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Quite a number of local citizens will take in the Keene fair today.

—A large assortment of games, toys and dollies at Times Bookstore.

—Millbrook fair on Friday will draw a big crowd from this city if the weather is good.

—Milk is now to be 6c a quart with threats of 7c soon. "How long O Lord, How long?"

—The Bowlers were out in good force at the Aylmer street green yesterday afternoon.

—It now seems that the large new industry for this city, Messrs. Coates Bros. was to have gone to Guelph.

—A number of capitalists looking for a site on which to locate a factory were in the city yesterday, and were shown around by the city officials.

—The Harvey fall fair will on bell at Lakehurst today. Mr. R. R. Hall, M.P., will formally open the exhibition.

—We have just issued a very attractive book cover, which will be given absolutely free to school children. Call at Times Bookstore for one.

—The Social Bible Club of the intermediates will organize this evening at 7.30, under the leadership of Mr. Joseph Middleton, L.D.S.

—The Y.M.C.A. gym. and apparatus are being put in shape this week, ready for the coming of Mr. Dingman, the new physical director.

—Yesterday's drop on the bonus for the Rapid Tool Co. was very slight. This was undoubtedly caused by the withdrawal of the Peterborough Rolling Mills.

—And now the price of milk has gone up. By a peculiar coincidence the price of city water has been lowered recently. Cannot a "saw-off" be arranged?

—Don't fail to see our new collection of souvenir post cards in comic views and scenery. Also a large assortment of burnt leather cards. Times Bookstore.

—A special teachers' training course is being taken up by several young people in connection with the Baptist Church Union of Murray street. Rev. F. J. Scott, the pastor, is leader of the course.

Coll. Institute Sports Friday Afternoon

The Collegiate Institute Sports Committee has completed arrangements for the annual field day sports to be held at Nicholls Oval on Friday afternoon.

The list of events is a good one. Four valuable medals have been given for competition.

Mr. Alexander Gibson has donated two. Mr. W. G. Ferguson, chairman of the Board of Education, and Mr. W. G. Morrow, secretary of the Board, each one.

Mr. Morrow's medal goes to Wallace Armstrong, winner of the junior cross country run, and Mr. Ferguson's medal to Archie Ingham, the winner of the senior cross country run.

The two premiums donated by Mr. Gibson will be handed respectively to the winners of the senior and junior championships.

The sports will begin at two o'clock on Friday afternoon next.

W. B. Bamford's Raise in C. P. R.

The Times congratulates Mr. W. B. Bamford, some years ago C.P.R. freight agent in this city, on his recent important raise in that company's service.

Mr. Bamford has been appointed district freight agent of the company with an office in London, Ont. This is a new office, which has just been created by the company as a consequence of the increase in freight business in Western Ontario.

Thinks Calgary's Future Assured

Mr. C. A. Stewart, M.P.P., of Calgary, Alta., a son-in-law of Mr. W. E. Roxburg, of Norwood, and incidentally a recently appointed judge of the Supreme Court of Alberta, left a banquet recently given in honor of Mr. H. Greenwood, M.P. of York, England, in Calgary, made a most optimistic speech in regard to the progress of the western country. He prophesied that Calgary would some day become the greatest metropolis of the empire.

Here's Just the Right Bowel Laxative

Gentle, Sure—Pleasant to Take—A Tried and True, Genuine, Nature's Remedy.

If you do not have free, easy and regular movements of the bowels you lack the prime and first essential of good health. There's more harm done than mere discomfortableness, sluggishness and biliousness—retention of food wastes in the bowels pollutes, irritates and poisons. You make the circulatory system—the blood—a scavenger instead of a fountain of purest life and sustained vitality. The ills of constipation are not trifling but nearly always are fraught with vital Genuine Seaman's Laxets Only 5c. Accept the gentle, natural aid of Lax-ets. Be sure not to force and exceed the delicate organs of the stomach. Avoid all the danger of powerful and unknown medicines! Your safety and good health are always secured—if you take Lax-ets. The formula is on every box—show it to your family physician. Lax-ets are put up in a flat metal case in handy tablet form—one tablet taken before meals or on retiring always brings relief. Pleasing to take—the most potent yet gentle of all remedies—a genuine help of Nature's own bowel laxative which cures constipation. Recommended and for sale by

J. D. TULLY.

SOCIAL AND PERSONAL

—Mr. A. Black, of Orillia, was in the city yesterday.

—Mr. J. F. Baker, of Kingston, is in the city on business.

—Mr. Fred Tully of Hamilton, is spending a few days in the city.

—Miss Alma Foote has returned from a visit to Kingston and Napanee.

—Mr. J. Irwin, Lindsay, was in the city yesterday, a guest at the Oriental.

—Geo. H. Crandell, Chicago, was in the city yesterday registered at the Oriental.

—Mr. Alf. Kempt, who has been visiting here, has returned home to Edmonton.

—Mr. F. W. Dean, of Peterborough, was in town last week on business.—Lindsay Post.

—Mr. Hilas Sullivan of Almonte, was registered at the Snowden House yesterday.

—Mr. Fred Hatch, the well-known hardware man of Whitby, was in the city yesterday on business.

—Rev. F. J. Scott left yesterday for Haliburton, where he will conduct special services for a few days.

—Mr. F. Porock, representing the Lay Whip Co. of Rock Island, Que., is in the city calling on the trade.

—Mrs. John Trotter of Villers P. O., visited Mr. and Mrs. Geo. W. Lawson 499 Bethune street, yesterday.

—Ald. C. B. Sheppard and wife, of Toronto, were in the city Monday evening the guests of Ald. and Mrs. R. F. McWilliams.

—Rev. Dr. Torrance, Rev. J. G. Potter, Rev. A. Bright, Sheriff Hall, Mr. Robert Harrison and others are attending the meeting of the Presbytery of Peterborough in Hastings.

Who Knows Mr. Benjamin Cathfield?

Yesterday, Mr. "Ned" Finney, the city night watchman, received a letter from Kinmons, near Kincardine, Ont., which reads in part as follows: "A stranger was drowned in our lake a week ago, Sept. 22, none of his relatives are known here, his name is Benjamin Cathfield, 50 years of age. We believe he had a brother in or near Peterborough. Any information can be sent to Mr. Ed. Harrison, constable at Kinloss.

Blackberries Are Grown in October

A "freak natural" in blackberries has occurred in Smith township. Mr. W. Ashing who resides in that flourishing township, a few miles from the city, yesterday brought to the town a bunch of blackberries which he picked off a bush in his garden. They were large and fully matured and there were a large number of them on the bush. This is the second crop taken off the bush this season, the former crop being picked in July.

Mrs. Newell is Doing Nicely

Mrs. Margaret Newell, of Norwood, was brought to St. Joseph's Hospital Sunday evening, suffering from a fractured leg, is doing as well as could be expected. She was brought up on the C.P.R. evening train and was conveyed from the station to the hospital in the van Speare ambulance.

She will be laid up at the hospital for several weeks.

Englishman on the Bridge.

Yesterday afternoon one of those recently imported English "immigrants, brought out to (in too many cases) the detriment of Canada and her workmen, sat on the rail of Charlotte street bridge, by actual and absolute count, from about 2.15 until after 6 p.m. watching the raging billows of the creek pass by on their journey to the sea, per Little Lake. This cloth capped, throat-be-decked-by-muffler Englishman, attracted some attention from persons in the Snowden House and surrounding buildings. It is not yet known whether he was contemplating suicide by jumping into the four-inch deep creek or whether the sight of this noble expanse of water reminded him of the surrounding hollow toned sea that makes what Hon. Geo. E. Foster calls "England's splendid isolation." He left the bridge about the time boarding house coffee was ready for him.

Campbellford Horseman in Town.

Mr. Fred Peake, the well-known horseman of Campbellford, was in the city yesterday handling a traction engine he had sold for his firm, Messrs. Geo. Whyte & Sons, London. Mr. Peake is owner of Seymour, and as all round sport, as well as business man, and is owner of the two fast stallions, Wrowsky 2.18 1-4, and Hermit 2.16 1-2. Mr. Peake is one of the most successful farmers in the Campbellford district and is a great exponent and patron of horse racing.

Local Man in R. R. Wreck.

Mr. John Swee who has returned home after a three weeks' absence in Western Canada, was in the terrible train wreck on Sept. 12th at Azeida, near Sudburg, when eleven persons were killed and forty wounded. He and Mr. Jos. Mitchell, also of this city, were in this disaster, seated in the fifth car.

Peterboro' Water Low in Price.

The only commodity in general use in this city that has not advanced in price of late years is the public water. This has been lowered, and although not of as good quality as might be desired, owing to lack of proper appliances, such lowering of price reflects great credit upon the water commissioners.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that those medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of disease, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherry bark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are the very best ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

Wild Ducks Rest Right in the City

We are used on the market square to hearing "quacks," but on Monday bona-fide (no reflection on the first-mentioned charmers of our citizens' dollars out of their pockets) quacks were heard on the Otonabee river. A gentleman, and he it noted not one who had indulged, while crossing the Hunter street bridge saw a large flock of wild ducks disposting themselves near that junction of the East Ward and the body of our city. These game birds, must while on migration, have become tired and rested right in the heart of the city where hundreds of citizens are polishing up shot guns and loading cartridges for the destruction of such visitors. Was this a sarcasm on thee shooting powers and hunting abilities of the local sports.

Mr. John Chalmers for Kinmount.

Yesterday morning, Mr. Geo. Chalmers, who has recently been engaged in employing men for the Sault Ste. Marie Lumber District Lumber camps, but who has recently been appointed as wood ranger, under Mr. Arthur Stevenson, left yesterday for Kinmount in furtherance of his duties for the Ontario Government.

NOTICE

Take notice that the Municipal Council of the Corporation of the City of Peterborough intends, after one month after the last publication of this notice, to undertake the construction of a sewer on Sherbrooke street, from Park street to the Monaghan road, and to assess upon the real property to be benefitted by such sewer, such proportion of the cost thereof as may be just, in accordance with the provisions of Sections 664 to 686 inclusive, of The Consolidated Municipal Act, 1903, or so much thereof as may be applicable thereto, and subject to the provisions of such By-law or By-laws of the said Corporation now or hereafter to be passed as shall be applicable to the same, and the number of annual special assessments therefor will be thirty.

Persons desiring to petition the said Council against undertaking the said proposed work must do so on or before the 11th day of November, 1906.

Dated the 25th day of September, 1906.

S. R. ARMSTRONG,
Clerk.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIV. NO. 234 PETERBOROUGH, ONTARIO, THURSDAY, OCTOBER 4, 1906. PRICE TWO CENTS

EXTRA DIVIDENDS TO BE PAID C.P.R. SHAREHOLDERS

Deferred Receipts From Land Sales to be Distributed---Equals One Per Cent. Payable Half Yearly.

Montreal, Oct. 4.—The annual meeting of the Canadian Pacific Railway, held at noon today, besides marking the close of the most successful year the company has ever had, was marked by some important announcements by Sir Thomas Shaughnessy, the president.

The most important news was that the shareholders of the company from now on will get extra dividends from the proceeds of the land department. This extra dividend will represent the amount collected annually in the form of deferred payments on land sales and the interest thereon, and this year this amount would be equal to one per cent. on the total share capital of the company. This amount would be distributed in half-yearly amounts of 1-2 of 1 per cent., and would be payable April 1st and Oct. 1st. The main proceeds of the land sales would be allowed to accumulate and be invested to the best interests of the company until such time as the directors might decide on a policy of general distribution.

FIVE MILLIONS UNTOUCHED.

Next in importance was the announcement that the $5,000,000 which had been appropriated from the surplus at the April meeting last year, to be used in improvements and extensions, had no been touched up to the end of the last fiscal year. The directors, however, had set aside the entire amount for use during the present year, and it would be used in such amounts and for such purposes as might be decided on from time to time.

Referring to the growth in the earnings of the company during the past year, Sir Thomas said there was very little that could be added to the statement. Looking out into the present fiscal year, the earnings towards the end would probably not show as marked increase as during the earlier part of the year, but there was every indication that there would be substantial progress right through the year.

DONATION TO WINNIPEG.

A resolution was submitted asking the shareholders to authorize a donation of $200,000 to be used in the improvement of the Winnipeg waterworks. By the improvements the company's numerous buildings in that city would receive better protection from fire. The resolution was unanimously adopted at the motion of Mr. Robert Reford, who remarked that the departure was a very good one for the company to make.

Resolutions were also submitted asking for authorization of the issue of four per cent. consolidated debenture stock for the purpose of providing requisite funds for the construction and equipment of a number of branch lines in the west, such as the Moosejaw branch, the West Selkirk branch, and the Arcola-Regina extension and were unanimously carried.

LEASING OF LINES.

Other resolutions adopted authorized the leasing of Berlin, Waterloo, Wellesley, and Lake Huron Railway; the Waterloo and Lucknow Railway, the Joliette and Brandon Railway, and the construction of the new short line from Victoria Harbor to Peterborough.

The four directors, Mr. Clarence MacKay, Lord Strathcona, Sir Thos. Shaughnessy, and Thomas Skinner, whose terms of office had expired, were re-elected.

The meeting was the most largely attended held in years.

Employes Uncover the Wrong Roof

A funny story is told concerning a local man very often seen in the fire hall. It seems that a few days' ago a prominent Conservative politician of the city employed this local man to do some shingling. The politician took the local man out to his residence and showed him where the repair was required. A bargain was struck. The local man sent two of his employes out to do the job. When the employes got to the politician's residence, and saw a ladder leaning against a certain out-house, they asked the servant girl, "Is this the shed to be reshingled?" The servant replied "Yes, I guess so." Thereupon the employes with shovels and other tools quickly ripped off the old shingles off the shed. When the politician arrived home at dinner time and saw the work accomplished, he quickly got hold of the man who took the job and remonstrated with him on his employes tearing shingles off the wrong roof.

It is said that when the man who had taken this contract discovered that he was about $60 out of pocket by having to reshingle a roof that did not require it, his language would have set fire to a match held one hundred yards away.

Preventics, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage." Preventics are toothsome candy tablets. Prevention dissipates all colds quickly, and taken early, when you first feel the a cold is coming, they check and prevent them. Preventics are thoroughly safe for children, and as effectual for adults. Sold and recommended in 5-cent and 25-cent boxes by J. D. Tully.

Cheese Board Met Yesterday

The price of cheese took a drop at yesterday's meeting of the Peterborough Cheese Board, the Board selling out at 12 3-4c. This represents a drop of 3-8 of a cent from the price offered two weeks ago, when most of the cheese sold at 13 1-8c.

Before the sale commenced a resolution of condolence was passed unanimously to the widow and family of Isaac Manning, the late salesman of the Selwyn factory, who was killed the day following the last meeting of the Board. The mover and seconder were Messrs. A. Fairbairn and A. Kennedy.

The buyers present were Messrs. Kerr, Cook, Wrighton, Whitton, Gillespie, Morton and Brenton.

There were 3,444 boxes boarded and sold.

Mr. Whitton opened the bidding at 12 1-4c. and Mr. Gillespie raised to 12 3-4c, getting the call.

At that figure he secured Buckhorn, Keene, Central Smith, Villiers, Westwood.

Mr. Cook, at the same price, secured Lang, Indian River, Shearer, East Emily, Mount Pleasant, South Burleigh.

Mr. Morton bid 12 3-4c, and took Fleetwood, Bensfort, Cavanville-Cedardale, Pine Grove, Lakefield, Warsaw, Wanmmster, and Young's Point.

Mr. Brenton, also at 12 3-4c, secured Myrtle, North Dummer, Selwyn, Oakdale, Trewern.

At the prevailing figure Mr. Kerr got Ormondey, Norwood, Shamrock, and Brickley.

Mr. Cook, at 12 3-4c, took Crown, and Mr. Gillespie, at the same price, Peterborough and Maple Leaf, clearing the Board.

The Board then adjourned to meet again in two weeks.

New Normal School Plans are Here

The blue print plans of the new Normal School about to be erected by the Ontario Government in Dixon Park are now in the hands of Mr. W. G. Ferguson, the efficient chairman of the local Board of Education.

The front view of the building is very attractive in appearance, with a large tower in addition. The cost of the building is $50,000. It will consist of three stories, and in dimensions will be 110 feet long by 78 feet in width. The foundation will consist of concrete up to the grade line, and the remainder will be constructed of stone and brick. The interior will be finished in clear white pine of the best quality.

In the basement are the manual training rooms, of which there are three, and the large gymnasium to the rear, 48x26 feet in dimensions. A main hall runs to the gymnasium and connecting this are the janitor's and boiler rooms, coal vault and men's lavatory.

At the main entrance to the ground floor are a large lobby and entrance hall opening to the large hall, 20 feet wide, running to the library in the rear. To the left of the entrance is the principal's room, 21x30 feet, and in the south-west corner the principal's room, 11x16 feet. Cupboard and lavatory intervene between these and the cloak room, 33x11 feet, 6 inches. A hall way comes next, leading to a porch and side entrance. The next apartment on the west side is a class room, 42x31 feet, and to the rear of this in the north-west corner, will be a large library and reading room, 24x47 feet.

In the south-east corner, to the right of the main entrance, will be another class room, 26x33 feet. A cloak room comes next, 13x33, and another hall, 10 1-2 feet wide, leads to a side entrance. In the north-east corner, and occupying the remainder of the rear of the building will be a class room, 26x33 feet.

On the first floor a large hall, 20 feet wide, runs within 28 feet of the rear. On the west side will be a teachers' room for men, 20x26 ft. A ladies' cloak room and a janitor's room, intervenes between this and a class room, 21x31 feet. A large lecture room, 27x47 feet, will occupy the north-west corner of the first floor. On the east side of this floor, the first apartment to the south will be the lady teachers' room. A laboratory, 26x33 feet, will be next or the east side, with an apparatus room attached, 13x23 feet. A conservatory projecting in a wing to the side, will also be a portion of this floor. Another class room 26x33 feet, will occupy the north-east corner.

An immense assembly hall will be the prominent apartment on the second floor. The dimensions of this will be 72x68 feet, covering most of the floor. In the north-west corner an art room, will be situated, and in the north-east, a domestic science room, 24x32 feet. Between these will be a domestic science dining room, making up the total of the second floor.

The plans were drawn up by Architect F. R. Heakes, of the Public Works Department, and now await inspection by contractors, who intend to figure on the building.

Rare Chance for Good Investment

Get in on Ground Floor in an Assured Lead, Silver and Zinc Mine.

There is no channel for investment that pays larger dividends and raises the value of the original outlay as quickly as stock in an assured mine, and the time to buy such stock is before such mine has been fully developed and producing ore.

The Boughton Tunnel & Mining Co., of Denver, Col., has secured one of the most valuable mining properties at Montezuma, Summit County, Colorado, which property is strongly endorsed by a U.S. mining engineer.

The property produces lead, zinc and iron. The lead ore carries a large quantity of both silver and gold, there being sufficient gold in most of the veins to pay cost of mining, thus leaving the lead, silver and zinc almost a clear profit. A 100-foot tunnel, to be constructed, will expose six veins, richer than those already in sight.

It is calculated with two shifts of men working night and day, 20 tons of ore can be mined daily at a cost of about $800 a week. With an average of 100 tons per week, valued at $30 per ton, as low estimate for this ore, there would be a profit of $3000 per week less cost of labor and freight.

The property owned by the Boughton Tunnel & Mining Co. is in close proximity to a mine from which $1,000,000 has been taken out of a single vein.

The above company are not promoters, but want to raise sufficient money for development, and are thus offering a small block of their one million shares, par value $1, for a limited time, on monthly payments if desired.

For full particulars write the Boughton Tunnel & Mining Co., P.O. Box 1343, Denver, Col.

ARRESTS AT FAIR

Ticket-Sellers and Takers at Halifax Suspected.

Halifax, N.S., Oct. 3.—The police arrested seven ticket-sellers and ticket-takers at the Dominion Exhibition here yesterday. The charge is stealing tickets and money from the Exhibition. The Exhibition management suspected that stealing had been done last year and at previous exhibitions, and they engaged detectives as ticket-takers to work on a case at this Exhibition. The turnstile men would, it is alleged, keep tickets given by visitors to the show, handing them over to ticket-sellers and others to be resold and pocketing the proceeds.

Colonials Absurd and Selfish.

London, October 4.—The Freeman's Journal, commenting on Goldwin Smith's letter to the Manchester Guardian, says it shows how utterly absurd and selfish are the views of some colonials on tariff reforms.

When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips mean feverishness, and are as well ill appearing. To have beautiful, pink, velvet-like lips, apply at bedtime a coating of Dr. Shoop's Green Salve. It will soften and heal any skin ailment. Get a free, trial box, at our store, and be convinced. Large nickel capped glass jars, 25 cents. J. D. Tully.

MONEY TO POUR INTO CANADA

Britain and Europe to Look to Canada as a Place for Investments

MAKE MILLIONAIRES HERE

More to be Turned Out in Canada in Next Twenty-five Years Than in Any Other Country.

Montreal, October 4.—Anything Canadian will receive attention and sympathetic hearing in England, France and Germany, and all other countries will in the near future send a large amount of additional capital into this country for investment.

This is the news brought home by Mr. Duncan M. Stewart, the vice-president and general manager of the Sovereign Bank of Canada, who reached the city from Berlin, where he concluded the deal for the purchase of the Penman Manufacturing Co.

When seen by a press representative, Mr. Stewart stated that the large investment made in Canada by the Dresden Bank had resulted in British bankers and capitalists taking an even greater interest in Canada.

German bankers, he stated, had always had a reputation for picking out the best fields for investment, and their actuon in placing such a large amount of money in Canada has made them keener to take a more active part in the development of the country. In Germany there was a feeling that now that German interests had invested such a large amount of capital the political relations between Canada and Germany should be made more friendly.

He felt certain that more men would become millionaires in Canada in the next 25 years than in any other country in the world.

Complaint re Duck Shooting

It is Alleged That a Man From Boston Has His Guide Shooting Ducks for Export.

Yesterday two gentlemen called at The Times office and complained that an American gentleman from Boston, now duck shooting at Rice Lake is, according to the opinion of the complainants' breaking the game law. Our informants stated that this man has paid the license required of American sportsmen shooting in Ontario, but that the guide he hires is also shooting ducks and sending the product of his marksmanship to the American for export. This our informants maintain is illegal under the game law. If such conditions as our informants claim, exist, it is up to the local game wardens and inspectors to have a stop put to this practice.

The gentlemen who called yesterday said that the man from the city of baked beans and catchaw, with his guide are slaughtering the ducks right and left and are doing more to injure duck shooting on Rice Lake than ten ordinary local sportsmen who go there for sport alone.

Wild Ducks Shot In the City

Yesterday morning a thing was done in Peterborough that is unique in its kind. Where in Canada is there a city of 15,000 inhabitants in which one can shoot wild ducks, and large black ducks at that within two blocks of its main thoroughfare? Yet this was done yesterday morning. Mr. Harold Snowden motoring in The Times the wild ducks had been seen on the Otonabee river near the Hunter street bridge, yesterday morning early got out his gun and whirled over the bridge to Riverside Park. He saw a small flock of fine black ducks disporting themselves in the river and by exercising a little sportsman's craft, managed to get within shooting distance. As the flock, hearing the approach, or getting a glimpse of the man behind the gun, rose in a circling flight, Mr. Snowden let drive and was successful in bringing down two, a splendid drake and a fat duck. This is going some to big ducks in the middle of a factory city!

MR. JAMES A. ELLIS PROMOTED

Former Peterborough Citizen is Achieving Success.

The many friends of Mr. James A. Ellis, formerly an employee of the C. P. R. in this city, will be pleased to hear of his continued success. Mr. Ellis is a brother-in-law of Mr. Wm. Butler, manager of the Peterborough Fuel and Cartage Company. He left Peterborough 18 years ago to take a position with the Chicago Great Western at Marshalltown, Iowa. The Register and Leader, of Des Moines, Iowa, has the following:

"J. A. Ellis, for the last two and a half years agent for the Chicago Great Western Railway in Des Moines, has just been promoted to the important position of general agent at Omaha, with jurisdiction over Omaha, South Omaha, and Council Bluffs. Mr. Ellis will be succeeded in this city by R. A. Belding, who comes from Denver to a field in which he is already well known, through his former connection with the Des Moines Short Line. In Des Moines Mr. Ellis has had charge of the freight business of the city, but in Omaha he will be in charge of both the freight and passenger business.

"Mr. Ellis has had a long service with the Great Western, beginning nearly eighteen years ago. His first important position was at Marshalltown, where he remained for twelve years, until March, 1901, when he was promoted to his position in Des Moines. Mr. Ellis entered into railroad work first in Montreal, his boyhood home, with the Canadian Pacific. In his long service with the Great Western Mr. Ellis has established himself in high favor and has acquired wide reputation as a railroad man of ability. In Des Moines his relations with patrons of the Great Western were especially happy.

"It has been twenty-one years since I was in Omaha, except to pass through it on the train," said Mr. Ellis yesterday. "Twenty-two years ago I was there enroute from the east to San Francisco. It was by mere chance that I did not go on to Australia, for as I stood on the wharf in San Francisco I tossed a coin to settle whether I should take the ship for the Island continent or return east. The coin came up heads and I headed for home again."

Galway Farmers Kill a Cub Bear

Messrs. Wm. and Charles Dudman and other Galway men had an exciting bear hunt two and a half miles south of Kinmount this week. Chas. Dudman saw a she bear and three cubs crossing their farm, and entering a swamp near by. Some neighbors were organized and in the evening, set out a hunting. The three cubs were been up a tree, and fired at will also guns and rifles. One of the cubs was killed by a shot, secured, and brought out of the swamp.

When the hunting party returned to search for the other two, they were unable to discover them.

Grand Trunk Admits It Was In the Wrong

Montreal, Oct. 3.—The bitter fight between the Construction Department of the Grand Trunk Railway and the Guelph and Goderich line of the C.P.R., was settled at the head offices here today, the G.T.R. admitting that the C.P.R. had full right to the property in which they had started excavation work. No more trouble is now looked for.

It was near Goderich that the lines of the two railways came together, and the G.T.R. with a big steam shovel, was endangering its rival's track. The latter tore up the track under the shovel, found fenced in, but later the G.T.R. freed it, and put it

Workmen Get a Bad Scare.

Quebec, October 4.—Some eighty men who are employed in the work of attempting to raise the wrecked steamer Bavarian, and who sleep at night on board the ship, had a bad scare on Saturday morning, when the ship gave a heavy lurch. Thinking that she was about to slide off the rock and sunk, most of the workmen rushed on deck. The rock still holds up the pierced hull, however, though many of those on board were too much afraid to go to bed again.

Tourists Perish in the Alps.

Geneva, October 4.—The mutilated bodies of four Alpine tourists have been found on the Plan Neva glacier, at the base of the precipitous mountain, Dent de Morcles, which is 9,800 feet high. The identity of those who perished is uncertain. All slid for 50 yards down an ice slope and then fell 2,100 feet sheer upon the glacier.

Missing Boy Found in River.

St. John, N. B., October 4.—George Paul, 11-year-old son of Peter Paul, of Milford, went from his house on Sunday afternoon. Later his friends, being uneasy, search was made. Grappling was carried on continually and the boy's body was found in the river by his brother. He had fallen off the ferry floats.

Increase in Kingston's Population.

Kingston, October 4.—From the figures just submitted by the city assessor, Kingston's population has increased by 215 during the year, standing now at 18,424. The total assessment is $7,267,833. The total values of all property exempt from taxation are given in the returns for the first time, and the aggregate is $3,380,475.

A WONDERFUL STRIKE.

Wabigoon, Ont., October 3.—The gold strike in Blum's Laurentian mine surpasses in richness all previous discoveries. The raise from the first level is now fifty feet up. Gold was encountered which the machine drills could not penetrate. A single blast broke down over $10,000 worth of gold. Three-fourths of the weight of the ore is native gold valued at over $200,000 per ton.

Piles quickly and positively cured with Dr. Shoop's Magic Ointment. It's made for Piles alone—and it does the work surely, good with satisfaction. Itching painful, protruding or blind piles disappear like magic by its use. Large, Nickel Capped glass jars, 50 cents. Sold and recommended by J. D. Tully.

HOTELS HAVE BECOME THE HOME OF VICE

Awful Indictment of Elgin Local Option Hotels Made by the Magistrate---Father Too Timid to Act.

Aylmer, Oct. 4.—After disposing of the Butler-Hepburn case yesterday, and suspending sentence till Tuesday next, Magistrate Hunt addressed the crowd in the court room as follows:

"I want to say, because I see a good many ratepayers here, but I consider it in the interests of the public, and especially of the young people, that these public houses, licensed or unlicensed, should be conducted in a moral way. We have had in parts of Elgin County, in Yarmouth and Southwold, for instance, local option elections. Women and temperance men have become very much excited in these elections. They have held public meetings and prayer meetings to ask the aid of the Almighty to carry local option acts, and what is the result? The result is that in the room of having licensed hotels we have in a good many cases, not in all, unlicensed bawdy houses. I know whereof I am talking. I am out through the county two or three times a week. Going by these places I see from ten to thirty rigs tied up by these unlicensed houses, and I know that in every one of these rigs there been a man and a woman, and often a girl under fourteen years of age. I thank it far better myself to have licensed houses than to have these unlicensed houses of prostitution if they cannot be wiped out.

"What is the attitude of the temperance people after they have carried these local option laws? I will give you an example: A man came to me the other day and he said, 'Squire, there is a local option hotel in my neighborhood and I am sorry to say that my boy is going there nights. I see many girls going there almost every night from the city (St. Thomas), and many young men, too. I want you to put a stop to it.'

"I said, 'How do you know this?'

"He answered, 'I have watched it with my own eyes.'

"I said to him, 'You lay the information and I will take care to look after the matter.'

"But, continued the magistrate, "he did not want to do this for fear, he said of creating bad feelings. Then I told him to lay the information anyway, and I would subpoena his boy. His answer was, 'Squire, I am afraid my boy would not tell the truth,' and he declined to lay the information.

"Two or three nights later there was a prayer meeting, and this same man asked Almighty God to close up that bawdy house. I am afraid that in the day of judgment the Almighty will want to rule him out of court for contempt. In place of asking the Almighty to shut up that house the man and his friends should have got a hustler on, secured the evidence necessary to convict the keeper of the house, laid an information, and I would have done the rest."

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

RUNNING.

Mr. J. G. Gautier, the well-known local wrestler and all-round athlete, has handed in his name as a coming contestant in the Examiner Cup road race from Lakefield to be Examiner office. This race which has already been noted in The Times, has already, including Gautier's entry, eight entries to date. Gautier claims to be in good trim.

• • • •

Another Peterborough young man has decided to enter the road race. Mr. Wm. Todd has sent in his name on the official form.

• • • •

CURLING.

At the semi-annual meeting of the Ontario Curling Association held in Toronto, the following groupings were arranged for the Tankard and District Cup Competition;—

Tankard,—

Group No. 5.—Oshawa, Brampton, Colborne, Peterborough, Bobcaygeon, East Toronto, Aberdeens, Toronto Caledonians, Toronto Parkdales, Toronto Queen City, Play at Toronto, Umpire, Mr. David Carlyle.

District Cup,—

District No. 2.—Oshawa, Peterborough, Keene, Cobourg, Lindsay, Fenelon Falls, Bobcaygeon, Port Hope, Lakefield, Play at Peterborough, Umpire, Dr. Boucher.

• • • •

FOOTBALL.

The Quakers held a practice last night with a fair attendance at the Nicholls Oval.

• • • •

RUGBY.

The Peterboroughs will hold their final practice before the game with the Tigers, at Riverside Park at four o'clock this afternoon. Every senior who can possibly turn out is requested to do so, as a practice in the field is worth two in the gym.

• • • •

Saturday's game at Riverside between the Hamilton Tigers and the locals promises to be the fastest and most scientific seen here for years.

• • • •

Many supporters of the local club look to see the Tigers defeated and every one is of the opinion that the Ambitious City team will be given the hardest game in their history. They will have their best team, Dumoulin, Moore, Simpson, Ballard and Tate will be on hand, and there will certainly be some doings.

Millionaires and Nobility Titles.

Rome, October 4.—The Americans and British here are laughing at a story printed in a Rome newspaper, asserting that J. Pierpont Morgan, Andrew Carnegie and William K. Vanderbilt are negotiating with the Republic of San Marino to buy titles of nobility at a high price.

Steamer Surrounded by Bodies.

Barcelona, Spain, October 4.—The captain of the steamer Liga, which arrived here yesterday, reports having observed off Oporto a big steamer which had foundered. She was surrounded by floating bodies. No details of the disaster were obtainable.

—We have just received a very large consignment of goods intended for the holiday trade, but will be on display to parties looking for new and handsome articles for wedding presents. Ask to see reserved stock. Times Bookstore.

City Fathers Were Busy Yesterday

Representatives of the Coates Factory and the Rapid Tool Co. Heard.

Yesterday afternoon a meeting of the Council in Committee of the Whole was held in the committee rooms back of the city clerk's office, Senator Cox (with Messrs. Coates and Dunwoodie, representing the vast carpet factory that is to be soon established here, consulted here, consulted with the council, as to their new industry. As the time is not yet ripe for publication of details of this meeting, we might simply say that the meeting was most harmonious, and that the location of this industry in Peterborough is practically assured.

Directors and officers of the Rapid Tool Company, whose bonus bylaw, although carried by a majority of those voting on Tuesday, but was annulled by want of a sufficient majority of the qualified voters, according to the law regulating such bonuses, met the members of the Manufacturers' Committee at five o'clock. The Rapid Tool Company's representatives, noted that owing to the uncertain result of Tuesday's vote, when the Rolling Mills bylaw was practically withdrawn, wired Buffalo, N.Y., to have a car load of machinery stopped until the result of the vote should be known. The company officials stated that the Pre-Payment Meter Co. wanted to purchase their building. It was reasonably decided that should, which is probable, the Rapid Tool Co. proceed with their present building and other operations, that a vote on the bonus will be taken when the regular municipal elections are held in January.

Coatesville Our Northern Suburb

The Toronto World of yesterday's date says:—

"Canada is soon to have another big factory and a village beautiful. The factory, 1100 feet long, is to be built and operated by the Coates Manufacturing Company of Canada Limited. The village is to be christened Coatesville.

"The company has a Dominion charter, and the president is Henry Coates of Perth, Scotland, and the vice-president and managing director is Joseph Dunwoodie of Glasgow. They leave Toronto this morning in company with Senator Cox to select a site of 100 acres near Peterborough.

"The company will manufacture tapestry and Axminster carpets. It will also operate a large lithographing plant for advertising purposes and other industries.

"Adjoining the works will be a model village for the operatives and their families. The main building is to be 1100 feet long, and two storeys high with an ornamental three-storey office building.

"Messrs Coates and Dunwoodie have been in Canada for about six weeks. They sail for Scotland on the Empress of Ireland, on Friday, but Mr. Dunwoodie will return in a few weeks. Mr. Coates, too, will soon return, and such gentlemen will take up their residence in Peterborough. Mr. Coates is the son of the late Andrew Coates, who founded the American branch of the great thread industry known as J. & W. Coates, Limited, whose chief works are in Paisley, Scotland, with branches all over the world."

TIREDNESS MEANS DANGER!

Indicates Faulty Blood and Worn-Out Nerves - Build Up, or Total Collapse will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there's something wrong.

You need bracing 'up, need more nourishment in the blood, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrozone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrozone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new life that is at once dispatched to all parts of the body. Ferrozone feeds the nerves and vital energies, supplies force, determination and joyous, buoyant spirits.

A case where there was lassitude and lack of strength is told by Mr. David Brown, of post-office box No. 90, Beeton, Ont.: "About a year ago my health commenced to fail. My hands and feet seemed always cold. I felt worn-out and exhausted, weak as a little child. My face twitched. My limbs and arms commenced to lose their sense of feeling and finally my left side was perfectly numb. All my color left. My appetite fan down. Ferrozone was the first to give me any help I improved with it very quickly. It toned up the blood and started circulation, so that the numbness gradually disappeared. My condition was perfectly cured by Ferrozone, and I have been well ever since. (Signed) David Brown."

SPECIAL NOTICE—To get satisfactory results be sure you get Ferrozone only. Fifty cents per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $4 per year, strictly in advance.

PETERBOROUGH, OCTOBER 2 1906

IRELAND'S POPULATION

According to the estimates of the registrar-general for Ireland the population of that island has, in the last decade, remained almost stationary in the vicinity of 4,400,000, which is less than that of London alone. There were there were recorded 27,761 more births than deaths in Ireland, while the emigration amounted to 30,676. This would appear to point to a decrease in the population of about 3,000, but there was some immigration that may offset the excess of emigrants over the net gain in the birth and death reports. In the last decade the emigrantion from Ireland has ranged from less than 30,000 in 1903 to almost 57,000 the following year. Last year's figures were the second lowest in the last ten years—30,676. Marriages appear to have moved in a wave. They declined steadily from 1895 to 1900 and then advanced as steadily up to 1906. The births have not been quite so uniform in their movement, though the lowest record was made in the year immediately following the smallest number of marriages. The births for the last six years have averaged much lower than the figures in the five years preceding that period. Last year was the best showing in point of deaths on record. Emigration has been a great drain on Ireland, the class going abroad being almost entirely those who should be wealth creators, for they are, as a rule, man and woman ready to begin life's work.

A PERPETUAL SEARCH-LIGHT ON INSURANCE FUNDS

Revelations before the insurance commission all along the line are making it evident that the state must take adequate steps to govern more effectively the investment of the trust funds, [illegible] are in the hands of the insurance companies and societies. The Ottawa Journal points out that it must never be lost sight of that they are not private funds. A man puts his money in the bank for the purpose of getting interest on it, and he expects the bank to circulate it in the business world in a business way with a view to earning that interest. But a man does not invest—primarily—in insurance to get interest on his money. He is chiefly conferned in joining a sort of mutual risk society, in which the survivors pledge themselves to pay a certain amount to the families dependent upon those who fail to survive.

If there ever was a trust fund in the world, it is moneys thus collected and collectable out of which the officers of the insurance companies and societies are pledged to meet the claims of the insured. That being so, those funds should be shut off absolutely from speculation. They should be invested—never flung into a gambling game. They should never be employed in the financial world to better the personal interests of the men who hold them in trust. They should never be used as a club to sandbag financial or commercial opponents of the men who have a legal right to select the field for their investment.

And the state should be in a position to see that these elementary rules of safe insurance financing are carried through. That the existing system of inspection is inadequate, was proven to the hilt last spring. It is inadequate to meet the requirements laid upon it by the amount of regulation which the people then thought to be in force; and it will be utterly inadequate to meet the conditions which the people now expect parliament to create. The state must go deeper into the business of these companies and societies, and should be always in a position to tell just where and how their funds are invested.

Scandals in the use of trust funds of this character ought to be practically impossible. The vigilance of the state ought to be so alert, so thorough and so unsleeping that there would not be opportunity for any playing with these funds in a questionable manner. If a group of gentleman saw an opportunity to use a large amount of money for their personal enrichment, they should feel that the very last place in the world to take such funds from would be the safes in the insurance companies; for the reason that these funds were so closely watched that nothing could be done with them without being found out. A burglar "in the know" will not touch valuables owned by certain allied jewellery companies because they have so well subsidized and manned a detective system that they are sure in the end to run them down. The state ought to surround the insurance funds with a system of protection equally prohibitive to any who would use them for speculative or personal purposes.

FATHER O'GORMAN DEAD

Gananoque, Oct. 3.—Rev. Father O'Gorman died yesterday. He will be the most missed man in Gananoque and surrounding country.

Deceased was born in Maple House, Roberbee, county Cork, Ireland, 46 years ago. He received his education at college in Maynooth, and was curate at Prescott and Belleville, being appointed parish priest at Gananoque in 1886.

While parish priest here he built St. John's church and presbytery, costing over sixty thousand dollars. On Howe Island he has built a new church and three separate school houses, also a new church at Lansdowne.

He was considered one of the best Irish orators in America, and had lectured on Ireland and the Irish people before many important societies of the United States and Canada.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

DESERTED BY FATHER

Ten-Year-Old Boy Stranded 2,000 Miles From Home.

Sault Ste. Marie, Ont., Oct. 3.—Leslie Ferguson, 10 years old, is stranded in the Soo because his father mysteriously deserted him at Saxon, a station on the South Shore in Wisconsin. The boy and his father were travelling from the Canadian North-West to Collingwood, when the father gave him two dollars and got off the train after telling the boy to come to the Soo and wait for him. The father got off the train at midnight. All efforts to locate him have proved unavailing. A strange character is reported to have alighted from the train at Saxon, he then disappeared. It is believed this man was Ferguson. Whether he is wandering in the woods cannot be learned. The boy is being cared for in a hotel here, nearly two thousand miles from home.

DOMESTIC CONFESSES

Threw Her Child in Ash Barrel—Investigation is Proceeding.

London, Oct. 3.—Rebecca Dale, a domestic at the City Hotel, confessed to the police yesterday that she had thrown her illegitimate child into a refuse barrel at the rear of the hotel.

The child was discovered by a young farmer and was badly decomposed when found. He did not report the matter immediately to the police, but had the body removed to an undertaker's.

The girl's confession followed close upon the discovery.

It has not been established whether or not life was extinct or if it was by what means when the child was placed in the refuse barrel.

Are Prosecuting Grocers' Guild.

Hamilton, October 3.—E. E. A. DuVernet, K. C., of Toronto, has been instructed by the Attorney-General's department to conduct the prosecution for the crown in the charge of conspiracy against the Dominion Wholesale Grocers guild, which will be tried at the assizes beginning here on October 8th.

—Don't fail to see our new collection of mourning post cards in comic views and scenery. Also a large assortment of burnt leather cards. Times Bookstore.

Your Cold

How will your cold be tonight? Worse, probably. How about tomorrow? The trouble is, colds always tend downward. Stop this downward tendency with Ayer's Cherry Pectoral. Your doctor will tell you why it can do this. Ask him all about it. Ask him if he has anything better for coughs and colds. Then follow his advice, whatever it is.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 9 1-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 150 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT HAS PROVEN A RICH STRIKE.

The Mascuri Bullfrog Mining Co., is developing its properties which consist of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141 50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

A GOOD CANADIAN REPRESENTATIVE WANTED

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

As the young duchess looked up at this face smiling sweetly down upon hers, her own countenance went through many rapid changes; first a vague surprise, then a fearful suspicion, lastly a horrified recognition, as, with that cry of anguish we all utter in our extremity:

"Oh, my God!"

She threw her hands up to her face, reeled back and sunk upon the sofa. The visitor deliberately crossed the room, folded his arms across his broad chest, and standing before her, said:

"My sudden appearance has startled you, madam, the duchess! Your grace scarcely expected to see me here!"

There are shocks so great that they kill the weak and stun the strong into a state resembling calmness. This was such a one to the young duchess. It did not crush—it calmed her. Though pale as death, she quietly motioned her strange visitor to a seat, and when he had taken it, said:

"In the name of Heaven, have you returned from the grave to ruin me?"

"No, mine own; I have returned only from the Continent. I am no ghost, but solid flesh and blood, as I can soon convince you," said the visitor, gayly, rising and holding out his arms, as if to embrace her.

"Stop! No nearer, on your life and soul!" said Rose, speaking in a deep, stern voice, that sounded strangely and fearfully from those bloodless lips, and extending her hand in a forbidding gesture.

He sank back in his chair, regarding her with wonder and curiosity.

"In the name of Heaven, I abjure you to tell me—why did you give out a report of your own death? Why have you absented yourself so many years? and why have you returned now?"

"Ha! ha! ha!" laughed the stranger, throwing himself back in his chair, "this is a pretty reception to give me, after a four years' absence."

"Once more I abjure you, by the righteous Judge of quick and dead, tell me why you have practised this long and fatal deception?"

"Sweet partner of all my joys and sorrows, I do not know that I have any right to keep the secret from you. I will tell you, then. I fled, as you know, from a criminal charge of a monstrous nature, and of which it would have been very difficult to prove my innocence if ingeniously spread the report of my own death to stop pursuit, and obtain—oblivion. After four years' absence, when I supposed myself to be forgotten, I returned to England—can you not guess why?—to see my beloved Rose. And where do you suppose I first saw her?" asked the stranger, pausing and looking fixedly in the pallid face of the young duchess.

"Go on," were the only words that escaped her bloodless lips.

"I found her at midnight on Hounslow Heath, in the hands of footpads."

"You were——" Rose gasped and stopped.

"I was the companion of the man calling himself Colonel McCarthy in your pretended rescue."

"Then, if you recognized me there, why did you not make yourself known to me? It would have prevented all this utter ruin."

"Because it did not suit my circumstances to do so. My return to England was an experiment. It remained yet to be tried whether I should be remembered and pursued. Besides, as soon as I recognized in our intended victim my own Rose, I wished to deliver you from the power of my colleague, McCarthy, a purpose that I could only effect by the utmost secrecy and caution."

"Explain yourself."

"You must have already surmised that the whole affair of the attack on your carriage, your rescue by Colonel McCarthy and myself, and your refuge at Howlet's Close, was all a preconcerted arrangement, planned by McCarthy, alias McSomebodyelse, to throw you into the power of a certain illustrious personage whose name was not to be mentioned in the affair; and who, I suppose, really never authorized it."

"Oh, Heaven, what a pandemonium is this town! What demons are in it!" muttered Rose, in terror.

"Very true, my love; but you are unwise to disturb yourself about them. To resume: You were taken to the country-house miscalled Howlet's Close. You were shown to your chamber, but fortunately did not retire to bed. A man in a mask came out from his concealment in a dark closet; his purpose was honest, and though he unwillingly gave you a desperate fright, he bore you away from a house of danger, and he would have borne you to one of safety, had not your own outcries and the untimely arrival of the Duke of Beresleigh prevented his laudable purpose, and made it necessary for him to beat a speedy retreat. You have already recognized in your deliverer from that house of danger—myself!"

"Go on! Why did you not claim me then and there, before I rushed, dragging down all I love, to this horrible pit of perdition?" exclaimed Rose, in despair.

"Because, my love, as I repeat, my circumstances did not permit me to do so. I dared not alienate my friend at court by letting him know that I had freed the bird I had engaged to help him to entrap. And I dared not let the authorities know of my return to England. I was forced to use caution and secrecy in all that I did. You were delivered from my honest custody by the hands of the Duke of Beresleigh. And the next news I heard of you was the announcement of your betrothal to his grace."

"Oh, man! man! why did you not then, at least come forward and prevent the consummation of such a horrible misfortune?"

"Because, my dear, the principle of self-sacrifice was never a considerable element in my character. The necessity of secrecy and caution had increased tenfold. It was while laying perdu after that night's adventure, I ascertained beyond all doubt that I had been recognized and that the police were in search of me. You see I durst not discover myself to one even so dear as you."

"Then, in the name of Heaven, why do you appear to blast me with your presence now?" cried Rose, in horror.

"Because the necessity of concealment no longer exists. Because my enemy—my persecutor—no longer lives, he is dead—dead and d—d!" exclaimed the stranger, in a tone of intense hatred, as a demoniac glare flashed like lurid lightning athwart the calmness of his countenance. "And because," he added, emphatically, "I want you for myself."

The young duchess, shuddering, hid her face in both her hands, without replying.

"Come, Rose," he continued, with his usual composure, "if you did not owe me fidelity and affection, you do owe me at least some gratitude for my deliverance of you from a house that you could scarcely have left without my aid. Even his grace, the duke, could not have discovered your retreat, or rescued you from that well-chosen hiding place. Come, Rose, you have given me a very cold reception; but when I assure you that I am willing to forgive this escapade of yours with the duke, and provide for your flight with me to the Continent—if you will consent to be mine——"

"Wretch! Cease your insults. I will hear no more!" cried Rose, shivering with disgust.

"Come, Rose, this is carry matters with rather too high a hand. You know that you are in my power—soul and body you are mine."

"No, by the blue heavens above us! Not so fallen as that; I am not yours, thank God!"

"What! Do you forget the little transaction at the village church at Swinburne four years ago? By that I claim you as my own."

"I forget nothing; least of all a later fact that I should ever remember, namely, that I am the most unworthy wife of one as high above you as heaven is above hades—so high above you that he should not even be named in your presence. To him, my noble husband, will I go—to him will I confess all, as I should have done before our marriage would he have consented to hear me—he only, my husband, shall be my judge. I will commit my cause to him, and receive my fate from his own just hands. And, whatever that fate may be, I shall know it to be righteous, coming from him; and, whatever it may be though the Duke of Beresleigh may banish this poor Rose forever from his sight—look you, sir! you, at least, I will never see again. The monstrous and unnatural

BOSTON, - - MASS

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 200,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 2½ per cent. The Enterprise Lead and Zinc Mine has paid 2½ per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,
Courier Block, LINCOLN, ILLINOIS

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give SIX MONTHS' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 or 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expendnd or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $3.00 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

SICK WOMEN MADE WELL

Thousands Find the Way Back to Health Through Ferrozone.

No need for so many sick girls and women.

Their ills are curable if they give them proper treatment.

Nutrition must be supplied, blood must be enriched, nerves strengthened, and additional power given to digestion.

Ferrozone does this and more; it cures such cases as Mrs. N. E. Peabody, of Trenton. She was a wreck—never thought medicine was made that could restore her, yet Ferrozone was successful.

Among her troubles were:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation,	Loss of flesh,
Dizzy spells,	Poor appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches make life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked Ferrozone restored me. Today I am vigorous and strong and well."

If you lack power of either mind or body it's an evidence you need Ferrozone.

If you have nervous spells, feeling of weakness in the limbs, tiredness in the morning, you are sure of cure with Ferrozone.

Think of it. Ferrozone gives back the energy of youth, restores vital stamina and creates a surplus of simply because it supplies the concentrated nourishment your system needs. 50c. per box or six for $2.50 at dealers.

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted at Once.

A good Laundress. Apply at Nicholls Hospital.

Mr. Thos. Borland to Live Here.

The King's Daughters wish to thank all those who so kindly sent donations and assisted them at the dinner held at the exhibition. In aid of the funds of the society.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Roseland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

Mr. Chas. Rubidge Leaves for Home.

Mr. Charles Rubidge, and old Peterborough boy, but who has for some years operated very successfully a farm in Michigan, and who has been visiting for some weeks with his sister Mrs. Archer, Rubidge street, left yesterday morning early per G.P.R. for his home. Mr. Rubidge intends shortly moving with his family from Michigan to California. He intends settling near Los Angeles and will possibly go into fruit raising on a large scale.

A Drop in Kitchen Stoves.

Yesterday morning about eleven o'clock as a load of stoves was being carted from the depot to the Best Hardware Co. there was a sudden drop in stoves or rather a stove. A cart belonging to the Peterborough Fuel & Carriage Co., loaded with some ten new kitchen stoves turned from Water street into the lane just to the north of the post office premises.

Just as the load entered the alley, one of the large kitchen ranges slewed off the cart and fell to the ground with a crash audible a block away. The stove was, it is unnecessary to state put out of business.

THE NEW TERM

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.

Call at the College or address

WM PRINGLE,
Principal.

Opposite Post Office.

LOCAL INCIDENTS

By The Times Man on the Street

—The Y.M.C.A. Debating Club was reorganized last night.

—It now looks as though this county is to have a County Dairymen's Association.

—The fall fairs at Lakehurst and Keene were held yesterday. A large number from the city were in attendance.

—The Ladies' Aid Society of Charlotte street church held a meeting last night at the close of the prayer service.

—The Coates Carpet Works that is about to locate here, yesterday secured an option on 100 acres of land in the north end of the city.

—Mr. R. W. Errett, inspector of weights and measures for this county began his annual inspection this week. He will visit Lakefield, Norwood, Warsaw and other villages in rotation.

—Mr. George Bishop, representing the Natural Food Company, of Niagara Falls, N.Y., manufacturers of Shredded Wheat Biscuit and Triscuit, is in the city, and will distribute samples of the produce of the company.

—Senator Cox is in the city and lunched yesterday at the Oriental with Messrs Henry Coates, Perth, Scotland, and Joseph Dunwoodie, Glasgow, Scotland, representing the large carpet factory to be erected in this city.

—It now seems that the Hamilton Tigers have not been able to make a satisfactory deal with the railway people and, consequently will not run a special excursion. This "cuts no ice" over Saturday's game however.

—What might have been a serious accident occurred on Thursday morning on the farm of Mr. Wm. Lane, Young's Point. Mr. Lane whilst engaged in ploughing stopped to speak to Mr. G. W. Stuart, when the horses ran away, dragging Mr. Lane onto a stone pile. He escaped with a severe cut on the upper lip and a number of painful bruises.—Lakefield News.

Mr. J. J. Lundy's House is Burglarized

It was known generally that a burglary had been committed on Monday night at the residence of Mr. Jas. J. Lundy, East Ward. The Times had knowledge of this robbery before, but by request for good and sufficient reasons did not give details previous to this issue.

Mr. Lundy thinks that the thieves entered the house between two and three o'clock in the morning. He had retired at about ten o'clock to his room, which the thief visited, leaving the front door unlocked for another member of the family who found it ajar shortly after two, when are not visible, and an open

Footprints on the south verandah, south window, explain the manner in which the midnight mechanic gained an entrance. The window was unfastened. The thief evidently had an exit on both sides of the house prepared beforehand.

It seems the fun passed through the sitting-room to the right, which leads to Mr. Lundy's bedroom on the west side. A gold watch was stolen, which was doubly valuable to the owner. It being the last gift from his mother. This, besides his chain and pocketbook, containing a considerable sum of money, was taken from his vest pocket, which was lying on a chair.

When Mr. Lundy awoke Tuesday morning he found his clothes all strewn over the floor. He felt for his watch and money, but both were gone. It would therefore seem that it was known that Mr. Lundy had money with him. On account of the banks being closed it was impossible to make a deposit.

Lakefield to Have R. M. E. Association

A well attended meeting of the business men of Lakefield was held on Monday night last when an address was given by Organizer Egan, of the Ontario Retail Merchants' Association, with reference to the proposal to form a branch of the Association here. The matter was pretty fully discussed, but it is not probable that a branch will be organized here in the near future. The proposed Board of Trade, however, seems to meet with more general favor, and a committee was appointed at the meeting to prepare a constitution and submit it at a meeting which will be held early next week, when it is expected the Board will be formed.

Broken Rail at Nassau Repaired

The Trent Canal and G.T.R. offices here were notified yesterday of an accident to the bridge which spans the canal at Nassau, and as a result a staff of men was despatched to repair the injury, which consisted of a broken rail on the bridge.

The trains yesterday morning were able to cross the bridge, but very slowly.

It was a very fortunate circumstance that the break was discovered in time.

SOCIAL AND PERSONAL

—Mr. T. Bowe, Cobourg, is in the city.

—Mr J. J. Lundy was in Lindsay yesterday on business.

—Mr. T. E. Bradburn, M.P.P., is in Kinmount, taking in the fair.

—Mr. H. W. Fralick, Napanee, was in the city yesterday, a guest at the Oriental.

—Mr. Geo. Grier, of Milwaukee, has been a guest for a couple of days of Mr. David Osborne.

—Dr. F. C. Neal has returned after recuperating from his recent illness and has resumed his practice.

—Mr. J. H. McClelland, superintendent of the Trent Canal, is at Kirkfield, inspecting the work on the lift lock there.

—Mr. Vickery of New York, who is interested in the Peterborough Cordage Co., accompanied by Mrs. Vickery was a guest at the Oriental yesterday.

—Mr Tony Antony, of Pennsylvania, who for the past week has been the guest of his brother, Mr. Louis Antony, 381 Dechene street, left for his home yesterday.

—Mrs. J. R. Stratton is in Toronto for a few days and will not receive on Thursday of this week, but will be at home on the afternoon of the third Wednesday of this month —the 17th inst.

—Mr. Lancelot Eardley-Wilmot, son of Prebendary Eardley-Wilmot, rector of St. Jude's church, South Kensington, London, England, is in the city, the guest of his cousin, Mr. K. Eardley-Wilmot. He will spend a week in the city and may remain in Canada.

Sudden Death in The Hogan House

Mr. William O'Brien, an Old Resident of the City Dies at the Dinner Hour.

A very sudden death occurred yesterday shortly after the noon hour in the Hogan House, east ward.

It seems that Mr. William O'Brien, an old man, who has resided in the city many years, went into dinner in the hotel, and whilst at the meal displayed symptoms of sudden and serious illness. He was brought from the dining room in an unconscious state and expired in a few minutes without regaining control of his faculties. Death is supposed to be due to heart failure.

Coroner Grey was notified, but after learning the particulars decided that an inquest was unnecessary, since death was undoubtedly due to natural causes.

The late Mr. O'Brien had been living with Mr. Hogan for the last ten years and has been very highly respected by all who knew him. He leaves seven sons, Maurice, John, William, Robert, Thomas, Joseph and Charles. He was married to Miss Johanna Walsh, of Douro, who died in 1885 at the age of 46 years.

Mrs. Patrick Kennedy, 10 Crescent street, is a niece who is the only relative the deceased had in the city.

At the time of going to press arrangements had not been made for the funeral.

Mr. T. H. Hutchinson Again in Harness

Mr. T. H. Hutchinson, who for some time was assistant secretary of the Y.M.C.A. here, has recently been appointed to a similar position in the Association at Vancouver, B.C., in which city he has been living since he left Peterborough.

The Association in Vancouver is in a very flourishing condition, and has a very large membership. It is in charge of Mr. Graham, a former Ontario man.

Mr. Hutchinson has many friends in this city who will learn with pleasure of his return to the work which he seemed so well qualified to perform.

The new Pure Food and Drug Law will mark it on the label of every Cough Cure containing Opium, Chloroform, or any other stupifying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has fiercely opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe ever for the youngest babe—and it cures. It does not simply suppress. Get a safe and reliable Cough cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. J. D. Tully.

An Important Notice.

Commencing on October 8th, a parlor car will be attached to the Canadian Pacific local train, leaving Peterborough at eight o'clock a.m., and also on the local leaving Toronto at five p.m. for Peterborough. A parlor car will also be placed on the local train leaving Toronto at 4.15 p.m. for Galt, Woodstock, Chatham and London. Also on the local leaving Chatham at seven a.m. for London, Woodstock, Galt and Toronto.

Uniforms at Roller Rink.

The Charlotte street roller rink is evidently in earnest in their promises to keep that place of amusement strictly up to date and of high class. They yesterday purchased four handsome suits of navy blue with brass buttons for the instructors. This uniform not only enables strangers to identify the rink officials but gives the men a natty and was invited on Saturday afternoon to business-like appearance.

King's Daughters Expresses Thanks.

Mr. Thos. Borland, Villiers, has sold his farm and intends moving to Peterborough next month. He will sell his farm implements, stock and household furniture by auction Wednesday, October 17th. Mr. J. H. Gardiner, Peterborough, will have charge of the sale.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

$50,000 GIVEN AWAY, in copies of Medical Adviser, a book that sold to the extent of 680,000 copies a few years ago, at $1.50 per copy. Last year we gave away $50,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

POLICE NEWS

Daily Happenings in Court Room and Station.

Yesterday's session of the police court was mainly given to the trial of drunks and rags.

Joseph Beavis and Robert Gibson, were charged before Magistrate Dumble with vagrancy. The former pleaded that he had asked an east ward resident for a pair of boots, but had never begged money from anyone. The other who was younger said little. Both stated that they intended leaving shortly for a lumber camp, and were given one full day to leave the city.

Work Progressing on House of Refuge

Lakefield News says: Mr. McPherson, contractor for the plumbing and heating for the House of Refuge, has got his men at work and now the interior work on the building is going rapidly ahead. Plumbers, lathers, plasterers and carpenters are all working and the place is beginning to take on an appearance of a completed structure.

IMP OF INDIGESTION

How to Get The Better of The Cause of Misery.

A scientific writer upon stomach troubles says: "If you have ever suffered from indigestion.—and who has not?—your imagination has probably pictured a ferocious little imp dancing in the pit of your stomach, causing that organ to neglect all of its duties, with a result that is not only painful but fills you with misery from day to day." This writer certainly had suffered with indigestion, for there is no more disagreeable, nerve-racking and sick-all-over disease than indigestion.

A great many people who have been treated for years for diseases of the heart, liver or kidneys, when they used Miona stomach tablets found that not only did Miona cure the stomach disorder, but it made them well all over and the other troubles were also cured.

If you suffer with nervousness, sleeplessness, indigestion, sick or nervous headache, pains in the back or sides, get a 50c. box of Mi-o-na and take one of the little tablets before each meal. It will do you a world of good and you will soon be well and free from indigestion, and its symptoms.

For sale by all dealers. The R. T. Booth Co., Buffalo, N. Y.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

ROCKEFELLER SAYS U.S. MUST NOT TEAR DOWN

Breaks the Silence by Objecting to Government Ownership—No Quarter to the Loser.

Cleveland, Ohio, Oct. 5—The Plain Dealer prints an interview with John D. Rockefeller, in which the latter comments on the demand for Government regulation of so-called private industries, and makes a strong plea for national development. Mr. Rockefeller is quoted, in part, as follows:

"If we limit opportunity we will have put the brakes on our national development. Will the individual strive for success if he knows the hard-won prize is to be snatched from his fingers at the last by his government? We are a bit too young a nation to begin tearing down. We must build up, build up, for years to come. The very children in the schools should be taught the need of our development."

THE FRENCH HATE U.S.

Speaking of his recent visit to France, Mr. Rockefeller said: "The French people hate us, and they will cruel us if they can. They want our money. They want the patronage of our tourists. But they hate us. They never let slip an opportunity to take quick advantage of our mistakes. This is a struggle for supremacy. We must win, or they will, and there will be no quarter for us if they win. And now there is Japan rising in the East to a power we cannot estimate. We cannot foretell what her competition will be, we do not know the resources of the new territory which she controls, nor can we guess their commercial and industrial possibilities.

"At this critical stage we are giving the enemy ammunition to fire at us. Take the attack we make upon our own packing business, for instance. I know none of the men in the beef trade. I never dealt with them, nor was I ever associated even indirectly with their business or themselves. But it is safe to assume from the proportions of their industry that they are sound business men, and that no business could have been built to such proportions on false principles, or by unsound methods.

BEEF DISCLOSURES DID HARM.

"I was in Europe when the attack was made at home upon these men and their industry, and I could watch the effect of it there at close range. These fellows abroad snatched at our charges against our own business with the greatest glee. They used them promptly as ammunition with which to attack American trade and everything of American produce and trade. I do not believe there was a line of American goods sold abroad that was not injured or an American agent doing business abroad whose work was not hampered by this."

NOTORIETY, NOT INFORMATION.

Referring to a subpoena recently issued, requiring him to appear in court in an action against the Standard Oil Company, Mr. Rockefeller said:

"While I was in active business I used always to respond. But now I am not in a position to give those enquiring people the information they want. They know that as well as I do. If they merely wanted information, it is other men whom they would summon, the men who have the information they want. They know that also, so I am, also reluctantly compelled to conclude, that it is notoriety they want rather than information. I yield to no man in respect for law, but I am unable to see where the little notoriety an inquisitor might get from putting me on the stand would serve the ends of justice. So I await the ordeal, with its exhaustion, when I can, and I preserve my strength and quiet."

Dr. Yoakum Is Heard From

Gentleman Well Known Here Mentioned in California Paper.

The Times was in receipt yesterday of a long and kindly expressed letter from Dr. F. E. Yoakum, written from Los Angeles, Cal. The doctor, who has many friends in this city, and who is known as an ardent and successful worker in the Lord's vineyard, is at present laboring in the cause of Christ among the many consumptives that flock to Los Angeles. Dr. Yoakum notes that he and those associated with him, are not only feeding and clothing the destitute, but are making many cures among those unfortunates.

His letter is accompanied by a copy of the Los Angeles "Christian," which devotes much space and praise to the doctor over the work he is performing and the cures he is effecting.

Dr. Yoakum is president of the Los Alamos Mining and Milling Company and reports that their mine is turning out most satisfactorily both in gold and copper. This will be good news to the many stockholders in this city, who invested in the doctor's mines.

Tigers May Still Have Special Train

There is still a possibility that the Hamilton "Tigers" will run a special train here on Saturday, according to the Spectator, which says:

"So many people have expressed a desire to go with the Tigers to Peterborough on Saturday that it has been decided, if enough names can be secured to run a special train leaving Hamilton via the C.P.R. at 11 o'clock sharp returning the same evening. A rate of $1.65 has been secured, but it will be necessary to get 400 names before the train will be secured. A list has been placed in the C.P.R. ticket office and all who desire to go should leave their names by 'phone or personally before tomorrow night."

English Lady Was Murdered in Park

Essen, Prussia, Oct. 4—A great sensation has been caused over the murder of Miss Madeleine Lake, daughter of an English army officer, whose body, terribly mutilated, was found Monday evening in the City Park. The police have been unable to throw any light on the mystery surrounding her death. Both temples were beaten in, her throat was lacerated by the hands of her murderer, who evidently strangled her in addition to beating her terribly about the head, and her arms and body were severely bruised.

The excitement caused by this horrible crime in a public park, almost in daylight, apparently, has been increased by the fact that the enquiries of the authorities have resulted in seemingly establishing the fact that Miss Lake was related distantly, to the British Royal Family, the brother of her grandmother, it is stated, having married a daughter of Caroline Amelia Elizabeth of Brunswick, the divorced wife of George IV. of England.

Local Preacher Is Appointed

Rev. J. G. Potter Is Made Interim Moderator.

Rev. J. G. Potter has been appointed by the Presbytery of Peterborough Interim Moderator of Session of Omemee Presbyterian church, the pastor, Rev. J. M. Whitejaw, having accepted the call to Fairbank church, Presbytery of Toronto. The pulpit at Omemee will be declared vacant on Oct. 21st.

Another Part of T. V. C. Completed

Work has been completed upon the northernmost section of the Trent canal—that from the steel lift lock at Kirkfield, to Lake Simcoe. The water was let in and the reach slowly filled. The lift lock at Kirkfield is now the only obstacle to thorough navigation and it is expected that this will be completed within a fortnight and available for use.

New Swing Bridge Over T. V. Canal

The Lindsay Post says:—Mr. J. H. McClellan, Superintendent of the Trent Canal, was in town yesterday for a few hours, on his way north with Engineer Clegg, of the Railways and Canals department. Accompanied by Mr. R. J. McLaughlin, they drove out to Ops swing bridge, and took measurements for a new swing, which will be proceeded with as soon as navigation closes. The material will be British Columbia fir warranted to last 30 years, and the bolts and pipes in the present structure will be utilized as far as possible. The two new piers and centre pivot pier will be built of cement.

Supt. McClellan was on his way to Victoria Road, where he will set a number of men at work clearing obstructions out of a small stream that runs close to the village and empties into the Talbot river. Owing to these obstructions there is no current during the dry season, and in places the water becomes stagnant and foul and consequently dangerous to health. The blasting out of some rocks and removal of flood drift wood will allow the pure water from Balsam Lake to flow through.

Extensive repairs will shortly be undertaken at Burleigh Falls locks, which will be closed to traffic on October 15th for that purpose. New gates of British Columbia fir will be made and hung, and leaks will be cemented, etc.

Lindsay tourists and citizens will be pleased to hear that next spring Mr. McClellan will have the new lighthouses at either end of the long cut covered with phosphorescent paint, which will shine out on the darkest night. It also is this intention to plant forty or fifty squared cedar spiles at the several dangerous points and turns, and the tops of these will also be dipped in phosphorescent paint. With these aids to navigation four boatmen will be well content—for a time.

Program of Coll. Institute Sports

Today is the great annual event of the local Collegiate Institute sports, held at 2 p.m. on the Nicholls Oval. The list of events is as follows:

1. 100 yards dash, senior.
2. 100 yards dash, junior.
3. Obstacle race, open.
4. 220 yards run, senior.
5. 220 Yards run, junior.
6. Throwing base ball, open.
7. High jump, senior.
8. High jump, junior.
9. Pick-a-stick contest, open.
10. 1-4 mile run, senior.
11. 1-4 mile run, junior.
12. Pole vaulting, senior.
13. Pole vaulting, junior.
14. Inter-Form Relay race.
15. Standing jump, senior.
16. Standing jump, junior.
17. Running jump, senior.
18. Running jump, junior.
19. Standing hop, step and jump, Senior.
20. Standing hop, step and jump, junior.
21. Running hop, step and jump, Senior.
22. Running hop, step and jump, junior.

Events 15 to 22 are being decided before the field day.

The sports committee is composed of H. Conroy, H. Maguire, E. Flynn, H. Hall, C. Leach, S. Wade, A. Brevender, K. Crabe, A. Cameron, N. Allison, E. Mein.

The judges are:

Track Events—E. Munn, C. Fessenden, O. Lech, E. C. Srigley.

Field Sports—H. Maguire, R. N. Merritt, A. Cameron.

Starters—Hall, H. Conroy, J. Jeffries.

Clerk of the Course—J. E. Hodgson.

Timer—A. Gibson.

Secretary—H. R. H. Kenner.

Wholesale Grocery Changes Hands

Mr. Chas. Richor Buys Out Mr. M. Carton the Local Wholesale Man.

An important local business deal has been consummated whereby Mr. M. Carton the Simcoe street wholesale grocer has sold out his good will and stock to Mr. Chas. Richor, the former energetic and up-to-date local representative of Messrs. John Kinnear & Co., Toronto.

Mr. Richor is popular throughout this district amongst the retail grocery trade and his success in the new venture is assured.

Mr. Carton, as is well known, commanded a large share of the retail grocery trade, not only in this city but this part of Ontario, and Mr. Richor will, undoubtedly, from his connection with the trade, hold and probably increase the volume of business done by the firm of which he is now head.

SUMMER CATARRH

Hot Weather Seems to Have Bad Effect Upon Some People.

It is generally recognized by physicians that many people suffer more with catarrh during the summer than in the winter. The hot, dry weather and the change from the hot days to cool nights seems to have a bad effect upon the disease.

Even after the usual methods of treating catarrh have been unsuccessful, Hyomei will cure the disease, and all catarrh sufferers should take the treatment.

In many instances Hyomei has cured catarrh when the patient has suffered since childhood. Quite a number of people in Peterborough who for years have been unable to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments of Hyomei and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated air through the pocket inhaler that comes in every outfit and all germs will be killed and the mucous membrance will be healed.

The complete outfit costs $1.00, extra bottles, 50c.

For sale by all dealers. The R. T. Booth Co., Buffalo, N.Y.

TITLED LADY HAS RANCH IN WEST

British Feminine Aristocrat Ships Horses From Montreal to Motherland

HAS ROMANTIC CAREER

Has Cruised the Seven Seas and Led a Roving Life Between Northern and Southern Oceans.

Montreal, October 5.—A titled lady of the British aristocracy shipping horses from the port of Montreal, and herself personally superintending the work, was a sight never before witnessed at this harbor, but such was the case when the S.S. Montcalm, of the C.P.R. line, left port on her recent trip to Avonmouth.

The young lady in question is Lady Ernestine Hunt, eldest daughter of the Marquis of Alesbury. This petite and charming young lady was the centre of attraction around the shipping district and offices before the boat sailed to the other side. She has started a ranch at Calgary, Alberta, on a stretch of land between 30,000 and 40,000 acres in extent, and came to Montreal dressed in real cowboy fashion. She is a dark complexioned young woman about 28 years of age; wore a sombrero hat, black waist, khaki colored skirt reaching to the knees, leather leggings and shoes. Her hair was cut short.

HORSES KNOW THEIR MISTRESS.

From Calgary, the horses, 17 in number, were conveyed by freight to Montreal, and loaded on the C.P.R. steamer. The horses were, of course, in a half wild state, but the lady, though she had made arrangements for little or no assistance in connection with their management, had the most absolute confidence in her ability to handle the animals in proper shape. Indeed, she had already succeeded in winning the confidence of the animals as evidenced by the fact that she could handle them just about as she pleased, although the deck hands found it necessary to keep at a safe and respectable distance.

Lady Ernestine was proud of the fact that she was the first woman to bring live stock across the Atlantic by herself, and paid a tribute to the cattlemen, whom she believed to be a much maligned class.

After the animals had been put on board and properly cared for, the young lady sat down beside the reporter, on the upper deck, and becoming reminiscent, told a story that marks her as a modern feminine Don Quixote.

A ROMANTIC LIFE.

"Since I was 16 years old," said she, "I have been fighting my way through the world. As long as I can remember I have had a roving disposition, and things," and the young lady's face beamed, "horses and the sea. Before I was 24 years of age I had been round the Horn, and was on the night staff of nurses at Krugersdorp during the time of the Jameson Raid. A few months after this I made the trip to Australia and return in a sailing vessel. I then went to Liverpool, where I applied for a master's certificate, but because I was a woman I was refused permission to sit for the examination. I went to Ireland, where I remained for two years, and then sailed with my husband who was a mate in the merchant service, to Nagasaki. We cruised in Japanese waters for a period of five months, and visited many places never before trodden by Europeans. After returning home I was again a nurse at Liverpool, and at the Dudley Cural Hospital, Worcestershire. For the last three or four years I have been living in Ireland, training privately a few steeplechasers. Four months ago I came to Canada, with the vague idea of starting a ranch. I have done so, but, of course, the whole affair is in its infancy, and I hope that I will be able to arrange matters on a much bigger scale before long."

And this romantic young woman, after bidding good-night to the interviewer, glided gracefully away to enjoy a well earned rest. She was a picture of health and beauty.

Canadian Women Drudges.

London, Oct. 4.—Miss Ella Marlington, in the Morning Leader, deplores that Canadian farming women have been taught to expect nothing from the position of wife but to be drudges of the money-earners and raisers of large families. The true Canadian farmer treats his wife as a thing to be used hard until its done, and she extends her sympathy to unmarried girls who go to Canada as helps.

Ormond & Walsh Have Sold Out

Peterboro's Oldest Drug Store Bought by McDermid & Jury.

Messrs McDairmid and Jury, who recently purchased the stock and good will of Mr. H. H. Edmison, who carried on a flourishing drug store on George street, have bought out Mr. Dickson Davidson, who operated the well known and highly successful, as well as the oldest established drug store, which was run under the name of the venerable firm of "Ormond & Walsh."

It is understood that the new firm will vacate their present premises somewhat further north on the same side of George street, shortly.

Mr. Davidson who is one of Peterborough's shrewdest and most progressive business men, will, it is understood, be in conjunction with our largest local lumber concern, The Dickson Lumber Co., its selling agent. Many of his old friends will miss "Dick" in his old stand, but he will however occupy a position of honor and trust.

The new firm of McDairmid & Jury will open in their new store, under particularly auspicious circumstances this coming drug store, being known as one of the oldest and most reliable in the city.

Gold Lake Hunt Club Has Left

The Gold Lake Hunting Club, with two wagon loads, conveying four canoes, including a large Klondike, and mountains of baggage, 30 spans, cases and a keg of "outtermilk," left the Snowden House yard at two p.m., for their lodge at Gold Lake.

In the party were Messrs. M. C. Tooley, proprietor of the Queens hotel; W. Snowden, proprietor of the hotel of that ilk; Chris Frances, fireman, and Hilton Allowich.

The party will devote the most of their time, for a few weeks to hunting bears, which are unusually thick this year. They will also endeavor the elusive mountain trout, and incidentally capture what may be found after a fully grown, lusty and able-bodied cork-screw may discover. All joking apart, his crowd of hunters is one of the most persistent and enthusiastic that goes to the back woods. They go out for fresh air and the ozone of the wilds but never fail to bring back a good haul of fish, ducks and partridge.

Objectionable Gas Smell on Simcoe St.

Last night a boarder at the Y.W.C.A., Simcoe street, called up The Times office and complained that the smell of gas in that neighborhood is overpowering.

The escape of gas in front of Mr. James Stevenson's residence is also most objectionable. It is a pity that the pipes only laid this week should already develop gas escapes in such objectionable quantities. It is up to the company to stop this alleged escape of this poisonous gas. While using the word "alleged," I might be added that not only the lady at the Y.W.C.A., as noted above, but exactly seven citizens have complained about this escape of gas. It is of course possible, that this (to use plain English), stink may come from the old pipes that have been dug up but no yet removed. Be either case, the smell should be eliminated.

ENGLAND IS SLIPPING INTO THE OCEAN

Royal Commission Is Appointed to Devise a Way to Save the Disappearing Isle.

London, Oct. 5—So serious has the gradual but sure disappearance of England's coast line become that a royal commission has been appointed to study the matter and devise some means to stop the ravages of the greedy sea. It is known that places that were beaches a few years ago now lie beneath the surface of the ocean and that towns that once were far inland are now lapped by the incoming tide.

Cases of erosion, or encroachment by the sea, have long been known in practically all portions of the English coast line, but the facts that the progress of the land-destroying ocean is going steadily on and that the island is being gradually eaten away by the hungry waves are now considered seriously.

It has been found that between 1867 and 1900 no less than 182,000 acres that once were English territory have been claimed by the ocean as a bad. Moreover, the amount of annual loss is increasing from year to year, and unless something is done to stop the encroachment of waters upon the land it can be almost calculated when England shall have ceased to exist, except as a little group of rocky islets.

Startling as this may seem, it is far from being a mere scientific speculation or the alarming cry of some theorist, but is rather he unpleasant and serious fact that will soon, it is believed, make the saving of England from the ocean, a national problem. That England might really disappear from the map of the world can be perhaps appreciated when it is realised that all the space that is now occupied by the North Sea and the English Channel was once dry land.

Great glaciers that slid down on this immense territory destroyed the land before them and dug a place for the sea. They divided the lands and made England, but their melting and processes of deposit gave her a soft and insecure coast. The cliffs that seem impregnable fortresses are as playthings to the incessant lapping of the waves.

Each tide indeed takes a bit of England away with it.

Some of the worst effects of this erosion are to be seen in Sussex, where Langney Fort, just beyond Eastbourne, is actually falling into the sea. The waves have eaten into the brick foundation of the fortifications to such an extent that this once valuable piece of coast defence has been recently abandoned.

It was no many years ago that the map of the Suffolk coast showed little bays and jutting points of land. Now for miles it is a straight almost as if cut with a knife. The site of Dunwich, that once was a prosperous market town, is now far out under fathoms of water, and Easton Bavent, the most easterly point in England, is far out beyond the general coast line.

In the southeastern portion of Yorkshire the greed of the sea seems now to be at its worst, for there the cliffs almost crumble as the waves lash them.

What is to be the solution of the subject is not known at this time. The commission has hardly entered into its work, but the members are determined to end the losses of territory that England is yearly sustaining in this way. Redemption of land will be undertaken as well and much of the destruction of recent years will be made up for.

A Press Story is Contradicted

It Is Said Mr. C. Carter Did Not Elope as Said in an Evening Contemporary.

In an evening contemporary of the night, appeared what now seems to be a most unfounded and unfair story, regarding a married man, Mr. Christopher Carter and what is a third and undeserved slur on a decent married woman, viz., his wife.

The evening contemporary in question noted, Wednesday night, that Chris. Carter had eloped with a young lady. Last night a lady intimately connected by blood with Mrs. Carter called at The Times office, and gave the other side of the story. The report as contained in the evening contemporary indirectly cast slurs on the wife of Mr. Carter, who is a respectable woman, the daughter of one of Peterborough's best known mechanics. She yesterday received a telephone message, from her husband who simply went to Toronto for the day to look for a better job. Mr. Carter expected to return last night to his wife, child and home and our informant assured us, did not elope, as the sensational story went, with a young lady, a middle-aged lady nor yet with a grandmother.

Board of Health Matters Discussed

In view of the recent recommendation of appointment of a local milk inspector, it will be of interest to learn that the Toronto Globe says:

"The important question before the Board of Health, was how to stop the sale of adulterated milk, and Dr. Sheard urged that the only way was to induce the legislature to change the law so that a dealer adulterating milk, which was sold in the city should be tried here for the offence, even though it were committed outside of the corporation.

"Dr. Noble thought that the city milkmen who sold the adulterated article to the citizens should be punished, but Dr. Sheard pointed out that there was a difficulty in proving that they were not the innocent victims of the wily farmer.

"It was decided to adopt the Health Officer's recommendation, and the city solicitor will be instructed to prepare a suitable amendment to the Act to be submitted to the next session of the legislature."

Unique Social Event Yesterday

Yesterday afternoon a unique social event was in evidence at the residence of Mrs. R. E. Wood, Gilmour street. This new social amusement was styled a "Liner-Shower," given in honor of Miss Alice Roger, who will, on Oct. 24th, become the bride of Mr. Alex. Collins, son of Mr. J. D. Collins.

The way this very pleasing event was accomplished was thusly; each of the thirty odd guests invited, brought some present made of linen. The presents were thrown into an umbrella suspended, in the dining room ceiling upside down. After those present had partaken of their hostess' refreshments, Mis Roger pulled a string and the contents, in a "shower" fell to the carpet, and were presented to the bride-to-be. Congratulations were in order.

CAN'T STOP TALKING

Farmer Talks Grape-Nuts to all His Friends.

The average farmer is nobody's fool. It takes a pretty level head to run a farm, and the more carefully he thinks the more successful he is. A Mo. farmer writes:

"I want to say something about Grape-Nuts as a food but as I am just a common old farmer, I can't put it as strong as I would like to.

"But I would love for all the world to know (that don't already know) about the merit of Grape-Nuts food. It has done me and my family more good in the way of bringing about good health, adjusting our systems, purifying our blood and keeping our stomachs in good order than all the medicines we have ever taken.

"My little boy was pale and slim, did not have much appetite until we began the use of Grape-Nuts about a year ago. Now he is robust and hearty, eats Grape-Nuts every day and enjoys perfect health.

"I have prevailed upon my neighbors to try Grape-Nuts and it is astonishing, the results. I would not be without it if I had to pay $1.00 a package.

"A year ago I read about it and had my grocer order some. I bought most of it and soon saw the benefits from it and then began to talk Grape-Nuts to everyone. Now I don't know how many packages the grocer sells each week, but he keeps nearly everybody around here supplied.

"Now you can publish this if you want to, or do as you please, but you can't keep me from talking about Grape-Nuts, for there is no equal to it anywhere." Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in pkgs. "There's a reason."

LORD ROSEBERY ON LUNACY CASES

Says That Perfect Sanity Characterizes Only Trifling Minority.

London, Oct. 5—Lord Rosebery, in a speech opposing the new insane asylum for Edinburgh, discussed remedies for the ever-growing number of cases of insanity.

He said he believed the "dotting" plan for checking hereditary insanity by preventing the marriage of members of families tainted with the malady would be excellent if it were practical. Unfortunately, it was not.

Perfect sanity, he declared, was a rare quality, and was the possession not of the majority, but of a trifling minority. It was useless, therefore, to think of suppressing the marriage of those mentally tainted.

HIGHER AND BETTER LIFE.

He believed the only remedy was the teaching of a higher and better system of life, and preventing incessant resistances, whether by the use of automobiles, which were the worst manifestation of restlessness, although he occasionally used one himself, or the use of railways.

People ought to be taught that their homes are better and worthier of cultivating and inhabiting than any strange places visited under unwholesome conditions. This would do much to relieve a strain on the nerves, which is one of the greatest causes of insanity.

CHANGE OF ENVIRONMENT.

Dr. Schofield, a well-known physician, in the second lecture of a series dealing with the science of life, uttered the dictum that there is great danger in any sudden change in environment of a certain age.

That is why, he said, business men who retire, and go to the seaside or live die so quickly after they make the change. He added that marriages between near kin by cousins have no drawbacks.

Clerks are the only men who live as long as they ought to. Clergymen 20 or 30 years longer than they ought, while doctors die before their time.

For Gold Lake by Balloon

Yesterday afternoon quite a passable practical joke was an outcome of the departure of the Gold Lake Hunt Club.

It seems that Messrs. N. McBride and Lou Brooks had been invited to accompany the hunt club, but exigencies of business forbade their going. A local man by name Bob Smith getting curious as to whether these two gentlemen were going or not asked them the question point-blank. "Mac" said "No we are not going to drive out over those rough roads. We have arranged to go by balloon." "For goodness sake don't risk your lives that way," remonstrated Bob. Mac assured him that Lou (was an expert aeronic) and could manage the valves and apparatus of the balloon. Bob and several of his friends waited round the supposed starting place of the balloon, the rear of the Queen's Hotel, from 11 p.m. until 3 p.m. The balloon did not start.

—Don't fail to see our new collection of souvenir post cards in comic views and scenery. Also a large assortment of burnt leather cards. Times Bookstore.

THE TURF.

Harry Direct, Mr. H. Nesbitt's fast horse from out at the Keene Fair in three straight heats. It was only a work out at that.

HEALTH FOR WOMEN

Mrs. Emma Daigle, of Moncton, N. B., Sends an Open Letter to All Sufferers.

Most women are tired when they wake up. Housework drags along with great difficulty. Nervousness is always present, headaches seldom depart, tears are ever ready to flow.

But there is a cure, a true specific for women's ills that restored a prominent lady in Moncton, Mrs. Daigle, who tells the following experience:

"About a year ago I had a serious sickness, sort of a general breakdown. My digestion failed entirely and I was able to eat but very little. I took violent stomach pains and suffered terribly from headaches. My doctor said it was "nerve exhaustion" and I might never be well. My troubles increased, for as I grew weaker I became subject to neuralgia and rheumatism. Sleep finally forsook me and I almost lost heart. Different medicines didn't help. Doctors couldn't do me any good. I was desperate when I heard of Ferrozone. The first box convinced me it was just what I needed. It toned up my stomach, gave me a splendid appetite and then my recovery seemed easier. Ferrozone increased my weight several pounds, has restored my nerves, gave me a good color and strength such as I never had before. For the weak and sickly I can truthfully recommend Ferrozone." (Signed) Emma Daigle.

REMEMBER: No mere stimulant or alcoholic concoction can take the place of the nerve and blood nourishment contained in Ferrozone. This true tonic always does what is claimed for it. Sold everywhere in 50c. boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, OCTOBER 5 1906

SITUATION IN RUSSIA

Outwardly matters appear to be rather quiet in Russia of late; but judging by the price of Russian securities in the home market the people are far from satisfied that the trouble is over. Entirely aside from the discontent among the people the industrial conditions are such in Russia as to be very discouraging. There are several provinces in which fully one-quarter of the population will have to be fed through the winter from the public purse. The local authorities have no funds for this purpose. Hard times have prevented the collection of taxes, and there was the drain of carrying the districts over the bad crops of last year. With two harvest failures in succession the condition is serious, affecting not only the Volga provinces, where the crop failure has been greatest, but indirectly the whole of Russia. These provinces instead of furnishing large quantities of grain for other sections of Russia now require shipments of food-stuffs to keep the peasants from starvation. All this costs money, and the funds must be drawn from the imperial treasury. How long that treasury can stand the strain is a question that has yet to be answered.

CANADA V. UNITED STATES IN BANKING

The contemplated establishment of a bank on the "Canadian plan" in the United States shows that American financiers are not content with imbibing certain currency lessons; but are beginning to put them into practice. With one or two such object-lessons in their midst of the superiority of an automatically regulating circulation, our neighbors will likely set their banking system on a more satisfactory foundation. As now, it presents the world almost every year with periodic pictures of financial insecurity scarcely to be matched in any other country even at times of greatest stress. A great nation, at the highest pinnacle of its prosperity, wildly calls for money to carry on the ordinary transactions of legitimate commerce, while a paternal secretary of state issues warnings against the enticing away of treasury funds for Wall street speculation. "If you have more money than your community can appropriately absorb," reads a circulatory letter of his to depository banks, "please return it to the treasury, for it can be placed where it will do much good."

Almost pathetic is such a request coming at this time. The arrangement suggested is so purely artificial, that perhaps exists in the contention that the treasury is a disturbing, rather than a strengthening influence in the market. Like a patent medicine, it finds its interferences with the natural movement of money have to become stronger in dose, more and more frequent in application. Those who enjoy and believe in the Canadian system of banking can not boast an entire absence of money stringency. They do say that this stringency is within reasonable limits. More than that, they can point to natural loosening and natural tightening of the monetary chain at the time when either such might naturally be expected under unrestrained economic laws. The prime need is elasticity; and that it has. For example, take the difference in Canadian bank note circulation at two different periods of the year. From January, when money as a rule is needed least, to August, when the crop movement is beginning in earnest, the expansion was 11.79 per cent. Last year, there was no very large increase in circulation until June; but from May to October it was something like 22 per cent. And the expansion and contraction are both self-acting; requiring no aid from government; and coincident with the natural needs of the country.

Across the line it is different. Often circulation increases when least needed; often reduction by the banks when the treasury badly wants increase. In recent years, the expansion in American bank notes secured by bonds, from spring to harvest, has varied from 3 to 7 per cent. But this, small as it is, has been due to more natural growth of the country than to any extra requirements on account of harvest, as shown by the absence of subsequent contraction.

The Canadian system is a true barometer; it does not need perpetual tinkering; it is an illustration of economic law working itself out in the only true way, the natural.

ARRESTS AT FAIR

Ticket-Sellers and Takers at Halifax Suspected.

Halifax, N.S., Oct. 3.—The police arrested seven ticket-sellers and ticket-takers at the Dominion Exhibition here yesterday. The charge is stealing tickets and money from the Exhibition. The Exhibition management suspected that stealing had been done last year and at previous exhibitions, and they engaged detectives as ticket-takers to work up a case at this Exhibition. The turnstile men would, it is alleged, keep tickets given by visitors to the show, handing them over to ticket-sellers and others to be resold and pocketing the proceeds.

Colonials Absurd and Selfish.

London, October 4.—The Freeman's Journal, commenting on Goldwin Smith's letter to the Manchester Guardian, says it shows how utterly absurd and selfish are the views of some colonials on tariff reforms.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

Workmen Get a Bad Scare.

Quebec, October 4.—Some eighty men who are employed in the work of attempting to raise the wrecked steamer Bavarian, and who sleep at night on board the ship, had a bad scare on Saturday morning, when the ship gave a heavy lurch. Thinking that she was about to slide off the rock and sunk, most of the workmen rushed on deck. The rock still holds up the pierced hull, however, though many of those on board were too much afraid to go to bed again.

Increase in Kingston's Population.

Kingston, October 4.—From the figures just submitted by the city assessor, Kingston's population has increased by 215 during the year, standing now at 18,424. The total assessment is $7,167,822. The total values of all property exempt from taxation are given in the returns for the first time, and the aggregate is $1,300,425.

Steamer Surrounded by Bodies.

Barcelona, Spain, October 4.—The captain of the steamer Liga, which arrived here yesterday, reports having observed off Oporto a big steamer which had foundered. She was surrounded by floating bodies. No details of the disaster were obtainable.

Does Your Stomach Bother You?

Dr. Shoop's Restorative Cures All Distressing Stomach Troubles Through the Inside Nerves.

As you value your health and happiness don't neglect to care for the slightest stomach pain—don't let it go. At the first sign of distress use Dr. Shoop's Restorative and end all these troubles. These aches are signals—they are symptoms of coming disease—is it wise to ignore them? You who never eat a hearty meal without a sense of fullness followed by a period of lassitude or [illegible]—beware. Neglect these [illegible] and you surely invite disease. [illegible] you'll become a sallow, [illegible] dyspeptic. Do you [illegible] experience any of these symptoms?—dizziness, nausea, sinking of food, sour stomach, belching, gnawing at the pit of stomach, rumbling of gas, headache, coating of tongue, bad taste in mouth, loss of appetite, heartburn, [illegible] headache, dizziness? If you [illegible] any of these ways, your [illegible] is clear—there is but one [illegible] open to you—strengthen the inside nerves. Dr. Shoop's special stomach nerves [illegible] take off forever this evidence of disease. Put the digestive nerves in condition to act as nature intended they should. Don't drug, don't force—just give the inside nerves natural force, gentle tonic, nature's help. Dr. Shoop's Restorative should be taken to do this—it is the only prescription which builds up, or even attempts to restore the inside stomach nerves. Tried and recommended by

J. D. TULLY.

Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anæmia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

HAVERGAL COLLEGE

TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary courses in Cookery, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

crime that has made you hateful to all mankind has made you loathsome to me."

"You take high ground, madam," but this one warning I would give your grace: Unless I hear from you to a different purpose to-morrow before noon, you, Rosamond Wardour and Etheridge, Duchess of Bereseleigh, and Baroness Etheridge of Swinburne—shall stand before the world a committed felon!"

For all answer the young duchess rang the bell.

The footman in waiting on the outside of the door immediately entered.

"Miller! Show this person to the street door, and if he does not go promptly and quietly, summon a police man," said the young duchess.

"Your grace shall hear from me before twelve to-morrow!" exclaimed the stranger, crimson with rage, as he followed the footman from the room.

"Oh, merciful Saviour of the world, that I could die this moment! But one short hour ago, so exalted, so confident and so happy! and now so wretched, so fallen, and so lost! And, oh, Heaven! how shall I tell the duke! What shall I say to my husband?"

The re-entrance of the footman who had attended the stranger to the street door, startled her.

"Well, Miller?" she asked, looking up.

"Please, your grace, the man has gone away quite peaceably," said the footman.

"Very well. Then go to the duke and say, with my respects, that I request the favor of his presence here in the library," said the duchess.

The footman bowed and withdrew to do his errand.

And the young duchess, pale, breathless, trembling, almost dying, awaited the entrance of the duke.

CHAPTER XXVIII.

The Duke of Beresleigh entered the library with a brisk step, humming a lively opera tune—the exuberant joy of his heart overflowing in this manner.

"Well, fairest and rosiest of Roses, what are your grace's commands? You have absented yourself long from our friends; there are many inquiries for you. Your untimely visitor has departed, I presume," he said, gayly approaching her.

She turned toward him with a face white and still as death.

"Rose! Good Heaven, Rose, what is the matter? What has happened?" he cried, springing toward her. She held out her hand with an adjuring gesture that suddenly arrested his steps. He stood still, gazing at her in astonishment for a moment, and then said:

"Oh, I see how it is! This messenger who, I am led to suppose comes from Miss Elmer of Cassinove, brings some distressing news of your young friend or the unhappy prisoner! My sweet Rose, you are much too sensitive to be exposed to the necessity of listening to these heartrending tales of distress. I really must interdict it! Come, tell me what it is, my dearest love, and let me know how I can alleviate the sorrows that touch your gentle heart as if they were your own," he said, again drawing near to her.

But again she waved her white hand to wave him back, as, in a voice so hollow that he never could have recognized it as her own, she said:

"Do not touch me, Duke of Beresleigh! A gulf has opened between us deeper and broader than that which divides heaven and hades!"

"In the name of Heaven, Rose, what do you mean?" he exclaimed, appalled at her manner.

"That man—oh, Heaven! how dare I tell you! Oh, George! Oh, Beresleigh! Beresleigh! did I not say to you three months ago that you knew not, upon whose brow you were to place the ducal coronet of your ancient house—did I not? did I not?"

"Yes, Rose, yes; but what mean you, in the name of Heaven?"

But so great was her anguish that she was incapable of speaking or breathing freely.

There was a waiter with decanters of port and sherry and glasses sitting on the table. The duke poured out and brought a glass of wine, which he forced her to drink. The stimulant had the desired effect. She breathed freely, and commenced her narrative:

"It was when I was but seventeen years old, and while I still believed myself to be the daughter of Magdalene Elmer, the village laundress, that the event I am about to relate to you occurred.

"My poor foster-mother, doubtless to assuage the pangs of remorse, always made my life as easy to me as possible. She worked hard to keep me from work, and to pay for my education. She was as careful of my poor beauty as though I had been some little princess entrusted to her charge. That I should be brought up like a lady, and marry a gentleman of fortune, seemed her one great purpose in life. Doubtless she wished to compensate me in this way for the birthright of which her treachery had deprived me. She threw me as much as possible in the way of gentlemen, but always privately cautioned me never to permit the slightest freedom from one of them. She used to tell me that if I was discreet my beauty would make my fortune; but if I were otherwise, it would prove my destruction. And thus forewarned, if not forearmed, she would send me, as it were, to seek my fortune amid scenes of social danger. I mean that she was in the habit of getting up all the fine linen for the transient visitors at the Etheridge Arms, and of sending me take it home."

"Oh, Rose! poor, poor girl! how cruelly you were exposed!" said the duke.

"It was the only service that my poor foster-mother requested of me; and, indeed, I always remembered her caution and deported myself in such a manner as to repel impertinence."

"I was scarcely seventeen years old, and we were living in an obscure old house in an unfrequented wood a mile out of the village, when one morning a traveler, in the dress and accoutrements of a sportsman, passed by our place. He looked at it, retraced his steps, and entered the gate. Mother and myself were both in the yard. I returned into the house, but my mother—"

"Your foster-mother, Rose," said the duke, with a fast-gloss shudder.

"My foster-mother, then, went forward to meet the stranger. From the open parlor window I heard all that passed.

"This stranger, he said, was Captain Ruthford; he was an officer of the Tenth Hussars. He was on leave, and had come down to the neighborhood for a few weeks' shooting. He did not like the village, and was in search of country lodgings. Failing by, he has seen and had been pleased with the house, and would pay liberally for the accommodation if she could lodge him for a few weeks.

"Now, there were several suspicious circumstances connected with the appearance and story of this person which did not strike me at the time, but which I had bitter cause to remember afterward. In the first place, Swinburne, with the exception of the chase, was not a sporting neighborhood. No one but the visitors at the castle ever came down to shoot or fish. In the second place, this was not the sporting season. But my poor foster-mother, no more than myself, noticed this discrepancy.

"Her one absorbing desire to find a wealthy husband for her poor Rose blinded her to every danger and all consequences, and decided her, I firmly believe, to receive this gentleman as a lodger. The bargain was soon struck. The stranger returned to the village for his portmanteau, and Mrs. Elmer came into the house to prepare the upper rooms for his reception.

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 250,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 24% per cent. The Enterprise Lead and Zinc Mine has paid 25% per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U.S.A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,
Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, is proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $12 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

HENRY J. MITCHELL,

Fiscal Agent Little Salmon Gold Mining Co.

St. Paul Building, CINCINNATI, OHIO, U. S. A

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 0x1500 feet.

The fee for recording a claim is $5

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

DEATH FROM HEART DISEASE

A Case of Neglecting a Weak Heart and Tired Nerves.

If your heart flutters, be careful.

An attack is liable to come on at any time. Excitement, over-exertion or emotion may cause it.

If blood rushes to the head, if palpitation and short breath are noticeable, there's cause for alarm.

If you want a good honest remedy try Ferrozone. We recommend Ferrozone because we know it's just right for heart trouble. It cured A. F. Beattie, who lives at Allen Hotel, Bay City, Mich. See if your symptoms resembles these:

SYMPTOMS OF WEAK HEART.

Nervousness,	Palpitation,
Trembling,	Dizziness,
Sinking Feeling,	Heart Pains,
Short Breath,	Weakness.

Mr. Beattie says:

"I was weak and miserable.

"I was subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great rebuilder."

By strengthening the muscles of the heart, giving proper circulation and causing a general rebuilding of the whole system, Ferrozone is bound to do grand work in heart trouble; try it, 50c. per box, or six for $2.50, at all dealers.

A good Laundress. Apply at Nicholls Hospital.

Roseneath's Fair Was a Success.

The Roseneath Fair was a great success one of the most interesting features was the horse races. In the free-for-all Johnston's horse of Harwood, took first money, and Fred Slade's second. In the green race, Kellegher won first place. Minnie second and Hatherly third.

New Barber Shop in East Ward.

A new barber shop has been opened in the east ward. Mr. W. McGregor, known to many of our local citizens, yesterday took possession of the premises in the 5th ward recently occupied by Won Lung, Ton Long, Wo Bess, or some such Oriental firm of laundrymen.

Australia After Local Goods.

Yesterday Messrs. J. J. Turner & Sons, the local enterprising tent, awning, and mail manufacturers, received a request from Melbourne, Australia, for a catalogue and price list of their goods. Another inquiry was also received today from Auckland, New Zealand. This is a good index of the popularity and world-wide reputation of Peterborough made goods.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

I. O. F. Reunion on Friday.

Invitation cards are now out for a re-union at Court Chemong No. 530, I.O.F., to be held in Sons of England Hall, on Friday, Oct. 5th. The re-union is in celebration of the consolidation of Court Queen No. 276 with the above court. A splendid musical program has been arranged for with refreshments to follow. The invitations are signed by D. Wallace chief ranger, and J. W. Buyers, secretary.

Opposite Post Office.

LOCAL INCIDENTS

By The Times Man on the Street

—Two weeks from yesterday will be Thanksgiving Day, a public holiday.

—A regular meeting of St. Paul's church Young Men's Guild will be held on Tuesday night next.

—Last night at seven o'clock a Jackson Park car ran off the rack at the Customs House, detaining traffic for some time.

—Yesterday fully thirty local citizens expressed to a Times representative their intention of taking in the Millbrook Fair.

—It is now said that a rich deposit of silver has been discovered on a property in Galway belonging to Mr. T. E. Bradburn, M.P.P.

—The monthly meeting of the Strangers' Fellowship Club of the Y.M.C.A. will be held on Saturday evening of this week at six o'clock.

—The Ladies' Aid Society of St. Andrew's church will hold their regular monthly meeting this afternoon at 3.30 o'clock in the church parlors.

—Mr. R. M. Roy, Peterborough's wedding photographer has taken several views of the property on which the Coates Mfg. Co. intend to locate.

—Last night the grand march was again practiced at the Charlotte street roller skating rink. This is a scene well worth the price of admission to see.

—Don't forget to remember not to forget to remember Saturday's great Rugby match at Riverside Park between the locals and the Hamilton Tigers. This will be the game of years.

—"Hobos," "Weary Willies," "Peripetatic Pete's," and "Side Door Pullman" travellers on Peterborough cut of their regular itinery. The law governing "rags" is too well observed to suit the fancy of these gentlemen of leisure.

—Last night the Sugar Beet Company matters were again argued before the Master in Chancery in his office. Tonight at eight o'clock the question of the liability of the directors will be argued.

—Quarterly audit of Administration of Justice accounts took place yesterday afternoon at 2.30 in the county treasurer's office. Messrs. E. A. Peck, City Clerk Armstrong and County Judge Weller officiated.

—Guy Bros. Minstrels' band yesterday noon played through our chief thoroughfares. Their band, whilst strung out at such length, as to make any concordance or symphony in sound an impossibility, attracted much attention.

The Coates Mfg. Co. Assured for Here

As noted in yesterday's issue of The Times, a special series of meetings was held Wednesday by various committees of the City Council.

It will be remembered that The Times had absolutely the first notice of the probable coming here of the large factory, now about to be located by Messrs. Coates of Perth and Paisley, Scotland. While the matter then was only conjectural, the result of Wednesday's deliberations, proves that our original notes were well founded.

The Coates Manufacturing Company of Canada, Limited, will locate in Peterborough in a very short time and will be the largest of its kind in the Dominion. It is expected that this concern will employ, not only as prophesied in our original notice 1,000 people, but possibly from 5,000 to 6,000 hands.

The matter has been left in the hands of Senator Geo. A. Cox, who is always a true upholder of Peterborough's progress.

HUNTERS' EXCURSION

The fact that the C. P. R. line runs for so many miles through ideal hunting lands, where moose and deer and smaller game galore wax fat, and await the advent of fall, and the accompanying guns and dogs, is, of course, the principal reason why about this time of year the enthusiastic sportsman turns to the well known yellow covered folder, and studies time-tables and maps so industriously. Hunters excursions are round again, and single fare will soon be the order of the day. The C. P. R. announces that from October 9th to November 6th, return tickets to all stations on their main line, Mattawa to Port Arthur, and Mattawa to Temiskaming and Kipawa, will be on sale at single fare, and from October 25th to November 6th, tickets at the same low rate to stations on the Lindsay branch, stations between Sudbury and the Soo and Havelock and Sharbot Lake. All tickets will be good to return until December 8th, with stop-overs allowed anywhere. Special steamship rates to the Soo and Port Arthur will also be in effect. Intending hunters should make a point of calling at the nearest C. P. R. ticket office for further information and for copies of "Fishing and Shooting," "Sportsman's Map," and "Open Seasons and Game Laws," all of which are of particular interest and use to sportsmen, and are free for the asking. C. B. Foster, District Passenger Agent, C. P. R., Toronto, will gladly mail them to any address, if difficulty is experienced getting copies.

SOCIAL AND PERSONAL

—Wm. Mitchell of Montreal, is in the city on business.

—Mr. Robt. S. Laird of Toronto, is a guest at the Oriental.

—Rev. Canon Davidson went to Toronto yesterday morning.

—Mr. G. H. Adams, Lindsay is registered at the Snowden House.

—F. Rooke of Peterborough, is visiting friends here.—Bowmanville News.

—Mr. Robt. Wright of Wright & Son's, Brockville, is in the city on business.

—Mr. Chas. D. Myers of Chicago, was in the city yesterday on important business.

—Mr. N. McBrine the telephone expert leaves today for Millbrook to take in the fair.

—Mr. T. H. Crowley, mining prospector, of Peterborough, was in town yesterday.—Lindsay Post.

—Mr. Patrick Hayes, sergeant on the Belleville police force, is in the city on a visit to his daughter.

—Miss Margaret Hurley, who has been visiting friends for the past two week in Lindsay, has returned to her home in Peterborough—Lindsay Post.

—Mrs. A. McNeil, of this city, has accepted a position on the staff of the Rockwood Asylum, Kingston, and leaves on Monday to assume her new duties.

—Mr. Jas. Logan, Huntsville, formerly engineer on the Water Lily was in the city yesterday shipping his household good to his new place of abode where he has secured a good position on the her line of steamers.

—The Lindsay Post says: "Mr. John Belcher, county engineer, Peterborough, was in town yesterday, accompanied by Mr. T. E. Bradburn. They visited the Victoria County House of Refuge and obtained some valuable hints on construction and management."

Y. M. C. A. Debating Club Officers

At the ninth annual meeting of the Y.M.C.A. Debating Club, at which there was a large and enthusiastic attendance, with President Reid in the chair, the following officers were elected (for the ensuing year.

President—W. Shiner.
1st Vice-Pres.—Chas. Reid.
2nd Vice Pres.—W. MacLaren.
Secretary—Frank Simpson.
Treasurer—Fred Ray.

The above constitute the executive. A general discussion took place in regard to the program and many helpful suggestions were made.

The next meeting will be on Oct. 17.

Harvey Fair Opened by R. R. Hall M.P.

The Harvey fall fair was as usual a great success. Over one thousand visitors paying admission. The live stock, especially cattle and sheep, exhibit was far above the average and worthy of recognition in any Ontario exhibition.

Mr. R. R. Hall, M.P., opened the fair in a well chosen and eloquent address.

He drew attention to the fact that the people of Harvey were participating in the great progress being made along the lines of agriculture in Canada.

Among those present from Peterborough were Messrs. R. R. Hall, M.P., W. H. Meldrum, Geo. Elliott, Fred McCluskey, representing Micks Stove Co, and Thos. Robison, representing Higgins' Stove Co.

Cattle Killed at Bennett's Crossing.

Five head of fine young cattle ran foul of a C.P.R. train at Bennett's Crossing in South Monaghan, with the result that the cattle are now in the sweet subsequently. The place where the cattle were killed is about two miles out of the city and the crossing in at Mr. Bennett's farm. The road crosses the C.P.R. track at an angle and the animals must have been in a bunch on the track when they were struck by the train. Several persons at Mr. Bennett's heard the animals groaning and on going to the crossing found five of them lying dead. Up to going to press it was impossible to ascertain to whom the animals belonged.

That $21,000 for the Coll. Inst.

It now seems that the Board of Education who were originally voted $50,000 towards a Collegiate institute, and who expended $10,000 on the ground, leaving them $40,000 on hand, are about, and anxious to have the property owners of this city to vote them $21,000 more, to complete an institute that will be a credit to the city and a standing monument to the local board. It seems that if the city, as it has done, has given them $50,000, it would be a pity to cut a pair of pants three inches too short in the legs for the sake of a few inches more cloth.

F. R. J. McPherson Getting Ready

Mr. F. R. J. McPherson the progressive and enterprising George street plumber and electrician, who, as noted in a former issue of The Times, recently secured the premises across from this office, lately vacated by Messrs. M. L. Henry & Co., grocers, and who has made many important improvements in that store, yesterday began to get in his new stock. Some twenty-five or thirty stoves and ranges of all kinds were unloaded in the store. Mr. McPherson expects to be open for business on Saturday.

Machine Tel. Co. in Edmonton.

The Canadian Machine Co. are about to invade Edmonton, Alta. The municipality, it is said, will erect a building for them 75 feet in length, at great expense. These easy going breezy westerners seem fond of spending money to get that which has, in other places, no "easy" put business men under obligation to pay for two telephone service, when one is enough and all that is required.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, *with alcohol*.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

POLICE NEWS

Daily Happenings in Court Room and Station.

At yesterday's session of the police court John O'Brien was charged with "non support."

Mr. Moore acted for the defendant, and Mr. O'Connel for the plaintiff.

It seems, from the evidence of Mrs. O'Brien that she and her husband were married about three years ago by an Anglican clergyman, and the marriage was afterwards blessed by the priest. This is the woman's second husband, she having five children by her first marriage. She said Mr. O'Brien knew this when he married her.

Mr. Moore asked, "Did you know your husband had been mentally deranged?"

Witness—"Yes, but I didn't believe it."

Magistrate—"Like all young girls."

Mr. Moore—"Anxious to get married."

Mr. Moore here explained that his client had been ill for some nine months. The magistrate, possibly with sarcasm interjected, "Oh its a case of two sick people."

Mr. Conroy, the man with whom Mr. O'Brien has lived for the last three years, said that the defendant was always delicate, and that on two different occasions he had been in the asylum. He could never do a man's work and should never have been married.

Witness said he never gave him any money except for his clothes and tobacco.

The magistrate thought it was a most unfortunate case, and dismissed the case.

Frank Smith who last week pleaded guilty to burglarizing Mrs. Dungford's place, was again remanded for a week.

—THE—
TORONTO GENERAL TRUSTS CORPORATION
Is authorized to act as
Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

VOL XXXIV, NO. 236 PETERBOROUGH, ONTARIO, SATURDAY, OCTOBER 6, 1906 PRICE TWO CENTS

COLLEGIATE INSTITUTE SPORTS A SUCCESS

A Good Attendance at Nicholls' Oval Saw Good Clean Sports Well Contested.

Yesterday some three hundred students of the Collegiate Institute, with their friends gathered at Nicholls Oval to witness the wind up of the Collegiate Institute sports left over from Wednesday.

Perhaps the most interesting event of the afternoon was the obstacle race. In this the contestants were each handed a pencil and pad of paper. They had to run about one hundred yards, stop, and divide 368,-648.75 by 847, the firm to reach "home" with a correct solution of the above problem won. A funny feature of this was that the teacher or teachers who had the problem solved for quick and ready reference to settle the race had himself or themselves made a mistake in this sum in long division. Much amusement was caused by this unfortunate contretemps; Conroy, however, had solved the problem correctly, although the "remainder" was not given by any of the contestants.

Much fun was caused by the pick-a-back contest in this there were only two entries. It was won by Clancy ridden pick-a-back on T. Kingan's back. The idea was that one boy would ride on another's back, then a similar pair would enter and he riders would try to pull his opposing rider from the boy's back that bore him.

In the 1-4 mile senior race there seemed to be an understanding that the pace should not be fast, as the juniors beat the seniors' time.

In the junior running high jump Armstrong displayed good form and nearly tied the senior high jump, being only one inch lower. Lit le Sheehy for his size, jumped the best of all on the grounds, either senior or junior jumping about his own height. Armstrong made a plucky attempt, after gaining the first prize at high jumping to beat the record, but the ground was slippery, and he did not succeed.

The rules were that boys under 15 years of age, on or before Sept. 1st, 1906 are classed as juniors.

The winner of the senior championship shall be the holder for one year of the gold cup presented by the Collegiate Institute Staff of 1902. He will also be given a medal presented by A. Gibson, Esq.

The winner of the junior championship shall be the holder for one year of the Macdonald Cup, presented by H. S. Macdonald, Esq. He will also be given a medal presented by A. Gibson, Esq.

The winner of the senior cross country race will be given a medal presented by W. G. Ferguson, Esq., chairman of the Board of Education.

The winner of the junior cross country race will be given a medal presented by W. G. Morrow, Esq., secretary of the Board of Education.

The result of yesterday's sports were as follows:

100 yards dash, Sr.—1st, Bravender; Conroy, Ingham. Time 12 1-3.

100 yards dash, Jr.—1st, Iceman; Armstrong, Sheehy. Time 13.

Obstacle race—Conroy, Thornton.

220 yards, Sr.—Conroy, Bravender Ingham, 28 1-5.

220 yards, Jr.—Armstrong, Iceman, Sheehy, 30 1-5.

Throwing base ball—Bravender, Lech. Lang, 94 yds, 0 ft 2.

High jump, Sr.—Bravender, Lech. Ingham, 4.4 3-4.

High jump, Jr.—Armstrong, Sheehy, Giroux, 4.3 3-4.

Pick-a-back contest.—Kingan and Clancy.

1-4 mile, Sr.—Bravender, Ingham Conroy, 1.26.

1-4 mile, Jr.—Armstrong, Sheehy Clancy, 1.10 4-5.

Pole vaulting, Sr.—Bravender, A Ingham, Lech, 6ft. 4in.

Pole vaulting, Jr.—Sheehy, Armstrong, Giroux, 5 ft 3-4.

Inter-form relay race—Third form, Second form, Upper First.

Another race was run off including the whole school, which was won by Conroy, with Kingham second.

WEDNESDAY'S SPORTS.

The sports run off in advance on Wednesday were as follows:

Standing jump, Sr.—A. Bavender; 2. Ingham.

Standing jump, Jr.—1. Armstrong; 2 Sheehy.

Running jump, Sr.—1, Ingham; 2. Bravender 1.

Running jump, Jr.—1. Armstrong; 2 Sheehy.

Standing hop, step and jump, Sr.—1, Bravender; 2. Ingham.

Standing hop, step and jump, Jr.—1. Armstrong; 2. Sheehy.

Running hop, step and jump, Sr.—1, Bravender; 2. Ingham.

Running hop, step and jump, Jr.—1, Armstrong; 2. Sheehy.

Cross country race, Sr.—1. Ingham; 2 Austin.

Cross country race, Jr.—Armstrong; 2, Wallis.

The sports committee were as follows: H. Conroy, H. Maguire, H. Hall, C. Lech, S. Wade, A. Bravender, K. Crane, A. Cameron, N. Allison, E. Mein.

The senior championship was awarded to Bravender, and the junior championship to Armstrong.

Peterborough is Highly Praised

American Gentleman Considers the Southern Portion Well Adapted for Factories.

(To the Editor of The Times.)

Sir—As a visitor to your beautiful city for the first time in many years, I was simply astonished at the strides Peterborough has made since I was here last. My business takes me to a great many cities and towns both in this country and throughout the United States, and I may say that no where do I see such a steady and sturdy business-like air as that every where throughout Peterborough. Your factories are flourishing, and seemingly increasing in number more rapidly than in any city of twice the population of this place.

With the grand water-power that supplies power to the local factories, and which, I am informed, is not yet one-half used, there is no reason why, within the next decade, Peterborough should not treble in population.

I was particularly struck, during a long drive I took yesterday, with the splendid facilities and inducements presented for future factories in the southern part of the city: here there are almost limitless opportunities for docks and dockage, which, with the completion on the Trent Valley Canal, will no doubt be required for shipping to and from the various points along the canal. This part of your city is well supplied also with means of transportation by the C. P. R. and G. T. R. systems. The land is level and admirably adapted to the requirements of such industries as will soon seek location here. Then, again, for residential purposes this part of the city is easy of access by street car service; should be healthy and easily supplied with a sewerage system at little cost. With such grand natural facilities as your city is supplied with for factories, especially that part of it lying to the south, I might perhaps be pardoned for my presumption in suggesting that your city council should follow suit of many of our progressive cities in the western states and advertise Peterborough and its splendid inducements.

Yours truly,

J. C. RENFREW.

T. V. Canal to be Open to Lake Simcoe

Mr J. H. McClellan has returned after spending a couple of days inspecting the work on the northern parts of the Trent canal. He reports that all the contracts let at the present time will be completed this fall, and the canal will be opened through to Lake Simcoe, and all that there is to be completed is to put a number of locks in the Severn river norder to open navigation to the Georgian Bay. Mr. McClellan says that 16 miles of canal from Kirkfield to Lake Simcoe, is as fine a piece of work as will be found on any canal in Canada. The lift lock at Kirkfield will soon be ready. The lock, will not be open for navigation until next spring.

The Westminster Glee and Concert Party

A Musical Entertainment Deserving the Most Unqualified Support.

The Westminster Glee and Concert party were greeted by a very small audience last night, and it is to be deplored that such scene of musical talent should have met with so discouraging a reception in a city whose residents pose as lovers of that which is high class in he matter of entertainment.

Nothing could have appealed to the musical senses to better advantage than the splendid program rendered last night by these touring members of old Westminster Choir, which includes vocal numbers that would have been absolutely spoiled by instrumental accompaniment. Every number was enthusiastically encored. It would be difficult indeed to select any particular singer for special mention. Madam Marie Hoonel, the lady contralto, has a beautiful voice her notes are charmingly round and smooth, while her enunciation is particularly clear and distinct.

Master Albert Hoo, a little chap, of probably 11 or 12 summers, took the house by storm with his clear bell-like voice, and Mr. Stenglie Burbet is wonderfully entrancing in his singing, compelled the artist to respond to two encores. Mr. Harry Tierney, the accompanist humorist is a very clever versatile musical mimic and his numbers were specimens of high class comedy that appealed to the most critical taste. The whole entertainment was one which will leave with its audience the most pleasant of memories.

Biggest Hotel in Canada to be Built

Montreal, October 5.—Montreal is to have the biggest hotel in Canada. The Alexandra at Winnipeg, and the King Edward at Toronto, are to be eclipsed in the new hotel, which is to be built on Dominion square, next to the Y.M.C.A.

The capitalists are nearly all Americans, but Montreal will be interested in the fact that it is Mr. James McShane, the present harbor master, who is securing the options on the property.

The promoter who has charge of the scheme is Mr. William H. Buckley, a wealthy Albany lawyer, who married Miss Kathleen McShane.

The property facing on Dominion square, and next the lane dividing it from the Y.M.C.A., has been secured, but the stumbling block at the present time seems to be the block of land on which stands McDonnell's livery stable, which is owned by W. J. Starr. The purchase of the property can be arranged with Mr. Starr, but Mr. McDonnell has a twelve years lease from the first of last May.

DOG BEGS FOR LIFE

Eloquent Appeal of "Jack" Moves Magistrate to Grant Respite.

Cincinnati, October 5.—"Jack," a yellow dog, the joy and pride of John Hetzler's lowly life, appeared in police court recently to plead for his own life. As he could not speak, he did the next best thing—made motions.

Frieda Overlaender, a neighbor to Hetzler, swore out a warrant, charging the man with harboring a vicious dog. Jack had fallen by her son, she asserted.

When Jack wagged his yellow tail and looked up at Magistrate Lueders in police court he seemed to realize that it was life and death with him. He favored life. He stood up on his hind feet. He shook hands with his master as though in last farewell and buried his head in uplifted paws.

The crowd in the courtroom became so interested that the judge had to call a halt. But apparently Jack carried the day for the case was postponed until October 19.

Local Man is Robbed in Toronto

It seems that a local man fell among thieves in Toronto one Wednesday. Invited to a room somewhere in the vicinity of York street by a stranger who gave him a drink, Orlando Humber, a Peterborough man, was robbed of $40 on Wednesday night. Humber reported his loss to the police, but he cannot remember where he was. The victim of the robbery is an expert millwright and was on his way to Peterborough from Collingwood. Fortunately before leaving on the train he sent $100 through the Ontario Bank by draft to his home town.

THIRTEEN YEARS

Unlucky Number for Dakota Woman.

The question whether the number "13" is really more unlucky than any other number has never been entirely settled in everyone's mind.

A So. Dak. woman, after thirteen years of misery from drinking coffee, found a way to break the "unlucky spell." She writes:

"For thirteen years I have been a nervous wreck from drinking coffee. My liver, stomach, heart—in fact, my whole system being actually poisoned by it.

"Last year I was confined to my bed for six months. Finally it dawned on me that coffee caused the trouble. Then I began using Postum instead of ordinary coffee, but with little faith, as my mind was in such a condition that I hardly knew what to do next.

"Extreme nervousness and failing eyesight caused me to lose all courage. In about two weeks after I quit coffee and began to use Postum, I was able to read and my head felt clear. I am improving all the time and I will be a strong, well woman yet.

"I have fooled more than one person with a delicious cup of Postum. Mrs. S. wanted to know where I bought my fine coffee. I told her my grocer had it and when she found out it was Postum she has used it ever since, and her nerves are building up fine.

"My brain is strong, my nerves steady, my appetite good, and best of all, I enjoy such sound pleasant sleep." Name given by Postum Co., Battle Creek, Mich. Get the little book in pkg., "The Road to Wellville." "There's a reason."

Splendid Races at Millbrook

Close Race Between Harry Nesbitt's, Harry Direct and Geo. Curtis' Minnie Keswick.

Yesterday the Millbrook Fair was simply a packed mass of humanity. Millbrook in the matter of a fall fair certainly can give cards and spades to this city and win hands down. The fair grounds at that village yesterday were well attended and the exhibits were fully equal to those that many a city of say 15,000 usually gets together. The management of his fair must feel jubilant over the success of their efforts.

The most interesting feature of the fair was the horse race, a free-for-all. The result of his race was as follows:

Minnie Keswick, G Curtis	1	1	1
Harry Direct, Harry Nesbitt	2	2	2
Little Johnnie	3	3	4
Haze Bell, Dr. Johnston	4	4	3

In this race several horses such as a whole, together for the first time, after their respective owners had been doing some tall talking as to the relative merits of the horses. In the first heat Minnie Keswick and Harry Direct ran so close that Keswick only won by an eye lash. In the second heat Harry Direct took the lead after the first turn and kept his place in the lead until the home stretch, when some one, whether through foolishness or by design threw some rubbing cloth strapped in paper onto the track, causing the horse to break and thus letting Keswick win by not enough to bridge over the difference between a professional athlete and a D.F.

Mrs. Geo. Dunsford Passed Away

The many friends in this city, of Mrs. George Dunsford, Simcoe street, will regret to learn that this lady has passed away at Llandudno, North Wales, on Sept. 23rd.

Clara Howard Gamble (Mrs. Geo. Dunsford), has been travelling since last June, for her health, accompanied by her sister, Mrs. Ellis, and was to have sailed for Canada on the 27th of September. She became seriously ill in Wales and grew steadily worse until her death occurred as noted. She had suffered from heart disease for some time.

The deceased was born and spent all her life in this city. She was a daughter of the late John Gamble well known to the older residents of Peterborough, and was fifty-seven years of age. Since the death of her husband, the late Mr. Geo. Dunsford, a well known attorney, some years ago, the deceased has lived in her residence on Simcoe street, near the Bank of Montreal. She was a member of St. John's church, among whose congregation she was well known.

There are no surviving relatives in this city. Two sisters and two brothers are left to mourn her loss. They are Mrs. Ellis, with whom she was travelling, Mrs. Roseborough, of Utica, N.Y.; David Gamble, of Bermuda, and Samuel, living in Illinois.

Interment will likely take place here and the remains are expected to arrive today.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

RUGBY.

The City League opens October 13th. A schedule has been drawn up and everything points towards a successful season.

• • • •

Following is the line-up of the local team for this afternoon's game at Riverside Park.

Full back—A. Mulhern.
Left half—A. Gillespie.
Centre half—Dr. McWilliams.
Right half—E. Ford.
Quarter—G. Bingham.
Snap—Capt. Humphries.
Inside wings—R. Craig and Lou Leclaire.
Middle wings—W. Meagher and A Regan.
Outside wings—W. Crowley and J. Crough.

• • • •

The Peterborough Rugby Club has had printed a handsome souvenir score card for the big Tigers vs. Peterborough game at Riverside Park this afternoon. This card has a diagram of the field and also the names of the players of both teams placed in the diagram in their respective positions.

• • • •

Referring to the Hamilton team that will dispute the locality of the pig skin sphere with the locals this afternoon, The Spectator of that city says:

"The Tigers will be in good shape when they meet Peterborough on the latter's grounds on Saturday. The boys have been training faithfully and are in mid-season condition. The team is as strong, if not stronger, than last year, and will make a bid for both the Ontario and Canadian championships.

"Last night the boys were given a chalk talk, and this afternoon they will have their final workout, for Saturday's game.

It is likely that the team will go to Peterborough by special C.P.R. train, leaving here about eleven o'clock Saturday morning.

EXPLOSION CAUSES DEATH OF SIX MEN

At Least Three Others are Buried Under Tons of Earth...Force of the Explosion Wrecked the Subway in Philadelphia Half a Block.

Philadelphia, Oct. 6.—A terrific explosion of illuminating gas in the subway of the Philadelphia Rapid Transit Company under construction at Sixth and Market streets yesterday resulted in the death of six men, the injuring of about a dozen others, and caused property damage of thousands of dollars.

Besides the six known to be dead it is said that at least three others are buried under tons of earth in the wrecked subway.

Extraordinary efforts are being to clear the excavation, but it will be late in the day before this can be accomplished.

The explosion occurred shortly before seven o'clock, and in consequence of the early hour, but a few workmen had gathered.

The explosion was caused by a leak in a city gas main that had been improperly repaired.

The escaping gas formed in a pocket in the subway, and it is believed that a workman with a lamp ignited the gas.

The force of the explosion wrecked the subway for half a block, and all the heavy timbering and other structural work, including tons of earth, fell into the excavation.

Just as the gas blew up a double-team dirt-cart was being driven directly across the covered subway. The vehicle, horses and man were blown high in the air, and the horses and cart fell into the hole.

The driver landed in the street, and was only slightly hurt.

Several workmen standing near a derrick were blown across the street and either killed or injured, and a number of pedestrians were hurt by falling glass and signs from the houses.

In addition to the damage done to the subway, to the gas and water mains, and the electric light and telephone conduits, all the windows from Fifth to Seventh streets on Market, and for half a square on each street, both north and south of Market street, were broken, and thousands of dollars' worth of goods in the show windows were damaged.

Northumberland-Durham Power Co.

Officers and Directors Elected to Protect Healy Falls Power.

News from Cobourg says that a meeting attended by some 25 leading citizens and members of the Northumberland—Durham Power Co., the main subject considered was that of opposing certain Peterborough and Lakefield persons who have been endeavoring to secure the Healy Falls for that district.

Twenty-one directors were elected from Cobourg, Port Hope, Colborne, Campbellford and Belleville. The requirements of Belleville were placed at 3,545 horse power.

The election resulted as follows:

President pro tem and permanent managing director, J. A. Culverwell.

Vice-Presidents, James Henderson, M.D., Cobourg, H. T. Bush, manufacturer, and Rob't. A. Mulholland, Port Hope; Frank M. Field, Cobourg, and ex-Mayor R. J. Graham, manufacturer, Belleville.

Treasurer, Bernard McAllister.

Secretary, pro tem, F. B. Lapp, Cobourg, and E. C. S. Huycke, K.C. Cobourg.

Hastings Telephone Co. is Progressing

An Independent Company Has Bell Telephone Connection at Belleville.

In contradiction of a somewhat general idea that the Bell Telephone Co., as an incorrectly judged monopoly, will not stand for competition in any sense, it might be noted that the Hastings Telephone Co., of which Mr. H. A. Fairman is general secretary and manager, and which is owned and controlled by three well known residents of Hastings county, Messrs. H. A. Fairman, Wm. Allison and James H. Bradden, have telephones installed in fifteen different residence throughout Thurlow and Tyendinaga, in which townships the business is confined and by the end of this fall they expect to have at least one hundred placed in the homes of these two townships. The central office is in the home of Mr. Fairman at Gilead, and there is connection with the Bell Telephone Co. at Belleville.

HOPE TO FINALLY OBTAIN JUDGMENT FOR $1,200,000

Volley of Stones Wrecked Hotel

Wild Scenes at New Toronto Reviewed Before Magistrate Ellis—Waites, Foster, Lynn.

Toronto, Oct. 6.—Ambrose O'Brien's hotel at New Toronto, presents a wrecked appearance, and as a result of this Alexander Waites, his wife and son, Robert Foster and H. Lynn appeared before Magistrate Ellis at Nurse's hotel yesterday afternoon on a charge of malicious injury to property. The accused were remanded till Monday.

The affair is apparently the outcome of bad feelings. It is said that Waites was put out of the hotel about three weeks ago by the bartender. Mrs. Waites is said to have appeared in front of the hotel soon afterwards and to have issued a challenge in these words, "I'm only 140 pounds, but I can lick any man in the place." It was on Wednesday evening of this week that the hotel came to grief. County Constable Simpson hurried out on that evening in answer to a call from O'Brien. The hotelman was in front of his hotel when the place was attacked. He retreated inside, protecting himself with a chair from a volley of stones. This was shortly before nine o'clock. Everything was quiet when the constable reached the hotel, but he found about a peck of stones in the hotel. Six large windows had been smashed, and many bottles of wine and whisky had met a similar fate, the whole effect being that of "an awful-looking wreck." The hotelman and his wife and children had gone upstairs, and he is said to have frightened off the stone throwers by firing twice in the air with a shotgun.

Constable Simpson went out yesterday with Constables Burns, Brown and Stewart, and the arrest of the five accused followed.

PROCESS OF DISARMING

It is All But Completed in the Various Provinces of Cuba.

Havana, Oct. 6.—Brigadier-General Funston said yesterday that the process of disarming the insurgents throughout the island would be completed in two or three days.

The cantonments are finished with the exception of Puerto Principe and almost finished in Santiago.

There is some delay in Havana Province because Gen. Asbert's followers are largely scattered.

It is expected that they will be concentrated today near Guines.

Twenty-five marines have been sent to Guines to keep order.

SHIPS WILL BE WITHDRAWN

Washington, Oct. 6.—It is expected this the largest ships of the United States fleet, if not all of them, will be withdrawn from Cuban waters as soon as there is a sufficient army force landed to afford security to the provisional Government and the protection of property interests.

The ships themselves do not afford any protection to Cuban interests except for use as barracks for the blue jackets and marines which have been landed on the Islands.

Therefore it is stated at the Department the ships will be ordered to resume the cruises which were interrupted when the orders to proceed to Cuba were issued.

East Elgin is for Marshall

Hepburn Scandal Probably Lost Riding for Liberals.

Aylmer, Ont. 6.—The Conservatives hold East Elgin by a slightly increased majority, and Mr. David Marshall takes the seat in Parliament vacated by Mr. A. B. Ingram when he became a member of the Ontario Railway Commission. The G. N. W. figures gives Marshall a majority of 119, with a division out in Yarmouth that would reduce the total considerably. The C.P.R. figures 77 majority for Marshall with everything in. Mr. Ingram's majority in the last election was 21, but the boundaries of the constituency have been changed since under the Redistribution Act.

Volley of Stones Wrecked Hotel

Action Begun in New York for $1,-600 is a Test—Recalls Collapse of International Mercantile.

New York, Oct. 6.—The World says: A suit an echo of the sensation upon the collapse of the International Mercantile Agency a year ago, was begun yesterday in the Supreme Court by the McClure Adjustment Company against sixteen prominent business men in the United States and Canada, and also against Thomas N. McCauley, the Canadian who organized the corporation.

Each of the defendants was a director of the agency, and it is alleged by the McClure Company that each conspired with McCauley, who disappeared soon after the failure, to sell to the investing public his stock, which they knew to be worthless.

The defendants are; Henry K. Pomeroy, President of the New York Stock Exchange; Milo M. Belding, the silk importer; Sir F. McKinnon, a merchant of Toronto; Robert MacKay, a capitalist of Montreal; John MacFarlane, a wholesale paper manufacturer of Montreal; George W. Sadler and James Robinson, of Montreal; W. K. George, of Toronto; Leroy W. Baldwin, M. M. Belding, Jr., Duncan D. Parmly and Charles A. Henderson, of New York; Edward L. Gould, of Brentford; John Platt, of Toronto, and Delos P. Phelps, of Chicago.

The McClure Adjustment Company, the plaintiff, was organized a little while ago to undertake such cases as that of the International Mercantile Agency. It holds now $1,200,000 worth of stock of the McCauley concern, which was purchased by the public, and which it alleges was sold for the interest of the defendants named. This stock has been assigned to it, and the complaint in the case sets forth in substance that each one of the defendants who were directors of the International Mercantile Agency became such at the solicitation of McCauley, and for the express consideration of allotments of stock ranging from 10,000 to 50,000 shares.

Further, the charge is set up that the reputation and prominence of these men were the means by which McCauley deluded the public, and especially the clients of the Clure Company.

In this action now $1,600 as sought to be recovered from the defendants, but it was explained yesterday by Duncan McClure, President of the McClure Company, and George B. Sidener, its general counsel, that the case was more of a test than anything else, although they felt sure of ultimately obtaining judgments for the entire $1,200,000.

Danny Simons is Heard From

Yesterday Mr. P. Simons, the George street tailor, father of Peterborough's successful comedian, Mr. Danny Simons, was in receipt of a lithographic picture of the latter. That Danny now holds a place in the center of the stage and under the lime light is proven by the fact that his lithographic portraits are used as a chief drawing card for the company he is connected with.

Danny is now with the Adam Good Company, and has been playing at Middleton, Conn. The Connecticut papers say that Mr. Simons has recently made a bigger hit than ever before this in saying a lot. Danny's character sketch, "Dusty Rhodes" has caught on well with his audiences.

Strange Tale of McKenna's Fate

Ottawa, October 4.—A portion of the journal of Inspector Howard, of the Mounted Police in the Arctic regions, arrived in Ottawa Saturday last, announcing a strange tragedy on Isle Herschell, on the 18th of April last. The fragment reads: "Encountered a man travelling with a troop of Huskies. He stated that he belonged to the crew of Captain McKenna's ship, imprisoned in the ice at Toha Point, and that he had abandoned his sole companion, who had been frozen to death, all the others having previously died in the same manner."

SERIOUS CHARGES BY SCHOOL TRUSTEES

Montreal, Oct. 6.—The newly-appointed civic school inspectors have prepared their first report, and it is a fearful indictment against the management of schools in the city of Montreal.

It shows that diseases have been spread broadcast through sick children being allowed to continue attending.

In one instance 93 pupils out of a class of 66 were attacked with measles, the result of one pupil with the disease attending the school.

Other schools are filled with stenches from the civic dumps, while fifteen per cent. of pupils in one school are suffering from defective eyesight.

In another school fifteen per cent. of the pupils are suffering from tumors, which are disclosed by a casual examination.

These tumorous afflictions are the cause of serious throat troubles, and predispose the pupils to diphtheria.

In another instance 45 pupils are crowded into one class room, where the cubic contents of air is barely sufficient for 15.

All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used-up Condition.

With women, ill-health is usually traceable to nerve exhaustion. Feeling run-down and tired most of the time is nature's warning that more nerve-force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased, renewed nerve force and better spirits came also. Ferrozone did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for $2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, OCTOBER 5 1906

SORROW IN THE SANCTUM

Some of the pains and perilous responsibilities of journalism have been illustrated by the experience of the editor who unwittingly published in the columns of his Tory newspaper the plate matter intended for the use of his Grit contemporary. The fact that the editor was away from home at the time and that the blunder was caused by the "oversight of the foreman" hardly palliates the enormity of the offense in the minds of the outraged subscribers. The editor could not even take refuge in the plea once made by a certain distinguished newspaper correspondent who excused his Tory contributions to a Grit paper on the ground that the paper had a certain Tory following entitled to "a little corner of its own."

A popular impression that an editor, through the strenuousness of his calling, is insensible to the delicate prickings that worry and annoy ordinary men is wholly unwarranted. Perhaps he is the more sensitive because of the didactic nature of his position, whether as guider of a great metropolitan daily or promoter of an authoritative country weekly. There is not an editor in the land who does not keenly appreciate the turbulent emotions of the brother excited when the gravity of the foreman's error was made known to him. Personally he was blameless, but it is much more difficult to explain a mistake than to commit it, and when the unfortunate editor realizes the terrible consequences that may follow the perusal of doctrine possibly hitherto unknown to his trusting subscribers, the charm that can soothe his melancholy is absent without leave. In remembering that "to err is human" and to blunder is sometimes unavoidable, the subscriber may temper the divinity of forgiveness with the appreciation of acute and unusual suffering.

BOOKS

The following list of books, nicely bound in cloth, will be sold at bargain at 18 cents each while they last. Also 100 25-cent books for 20 cents. Don't fail to take advantage of this snap to secure good reading at reduced prices:

Charlotte and Lucy Temple.
Romance of Two Worlds.
Joshua.
History of the Great Rebellion.
Crowquills Fairy Book.
Love Letters of a Worldly Woman.
Chiffon's Marriage.
Shelley's Poems.
The Song of Hiawatha.
Bitter Sweet.
Essays on the German Poets and Writers.
The House of the Wolf.
Thoughts of Antoninus.
Dr. Jekyll and Mr. Hyde.
Lucille.

BEST LOT OF SHEEP

Messrs. R. Vance & Son Object to Statement in the Times.

(To the Editor of The Times.)

Dear Sir,—We notice it stated in The Times of September 25th that Mr. Stillman, of Smith, had the best collection of sheep on Peterborough Fair grounds, and that he won several first prizes on them. Now we believe that The Times has been mislead or it would not have published such statements, therefore we will give you a list of the prizes won by us, which should prove who had the best collection of Cotswolds.

Shearling ram, 1st and 2nd.
Ram lamb, 2nd.
Aged ewe, 1st and 2nd.
Shearling ewe, 1st and 2nd.
Ewe lamb, 1st.

Mr. Stillman got 1st on ram lamb, and 2nd or 3rd on ewe lamb, and had one lamb thrown out as being only fit for the butcher.

Thanking you for your valuable space and for your favorable remarks about our Berkshires, we remain, yours truly,

R. VANCE & SONS
Pine Grove Farm, Ida, Ont.

TOO MUCH LEARNING.

Books of Reference Which Are Sources of Annoyance—A Few Very Telling Illustrations Are Given.

"I do wish," said Faber, "that the people who make the books of reference would have some regard for the plain people. You take up the most 'advanced' and 'up to date' book of reference and try to find anything. Why, you wander about in a maze of cross references until you finally run down the prey in some obscure corner under a caption which could only have occurred to a pedantic prig.

"The other day I wanted to find out something about the great Duke of Marlborough. I took from my library the best book of reference I know and turned, of course, to 'M.' I found lots of things under 'M.,' and among them 'Marlborough, dukes of — see 'Spencer-Churchill?'" There was only one Duke of Marlborough worth talking about, and his name happened to be plain Jack Churchill—I knew that. The other Dukes of Marlborough were ciphers, and nobody cares what their names were.

"The man who got up that book of reference knew as well as you do that when anybody wanted to consult his publication about the Duke of Marlborough—the only one worth looking up—he would turn to 'M.' Why did he not put the biography of the great duke under that letter? I will tell you. It was too easy. He wanted to show that he knew what the duke's family name was—to display his 'curious learning.' If I had the prig here I'd kick him.

"I turned to Wellington and found the same sort of an arrangement. 'See Wellesley.' Now, who cares whether the Dukes of Wellington and Marlborough were named Smith or Jones?

"I had the beast on one thing, however. I turned to 'X.' to see what cross reference he could rig up on Xenophon. The name of the first war correspondent was under 'X.' I know what Xenophon's family name was, but evidently he does not—and I won't tell him. If I did he'd get out a new edition of his blamed book just to put in that cross reference."

THE WOMAN IN THE CASE.

Mrs. Harry K. Thaw, Formerly Evelyn Florence Nesbit.

Very few women have ever been talked about as much or pictured as much as Mrs. Harry Kendall Thaw, formerly Evelyn Florence Nesbit, whose husband shot and killed Stanford White, the famous architect, on the Madison Square roof garden of New York. She was born about twenty-one years ago in Pittsburg and is the daughter of a lawyer, Winfield Scott Nesbit, who died when she was a young girl. After his

MRS. HARRY KENDALL THAW

death her mother for a time kept a lodging house. To help her mother Evelyn began posing in photographic studios when she was about fourteen. One day a photograph for which she had posed was sent to an exhibition and made a hit. People asked, "Who is this beauty?" A New York painter hunted her up, and soon she was noted as the model of such artists as Christy, Church, Irving Wiles and Wells Champney. Then came a short career on the stage. It was during this part of her history that she met Stanford White and also her future husband, Harry Thaw. Thaw spent thousands of dollars upon her and followed her hither and thither and finally, much against the wishes of his family, married her. It is supposed that he killed Mr. White because he thought that the latter had wronged his wife.

Wash Day at Panama.

The washerwomen of the canal zone use the waters of the Chagres and its tributaries, wading far out into the stream and beating the life out of the clothing on the rocks. They do not use any of the washing compounds which, according to the advertisements, lighten the housekeeper's burden and make a wash day a kind of festival. The cleansing process consists of a vigorous rubbing between the calloused hands of the dusky laundresses. The price paid for the mangling is $3 silver per dozen pieces, a handkerchief counting the same as a fancy waistcoat and a pair of socks counting for two pieces. —Engineering Magazine.

CHANDOS

WEDDING BELLS.

An interesting wedding ceremony was performed on September 26th at St. Stephen's church, Chandos, the contracting parties being Miss Ena Hawkes, of Chandos, and Mr. Albert Smith, of Apsley. The ceremony was performed by Rev. C. Lord, of St. George's church, Apsley. The bride was attired in a becoming gown of victoria lawn trimmed with valenciennes lace and insertion, with a wreath of orange blossoms and veil, and carried a bouquet of white asters. She was attended by her niece, Miss Kate Tucker, who was attired in white swiss muslin over pink. The groom was assisted by his brother, Mr. Harry Smith. Mr. and Mrs. Smith will reside in Chandos.

MURDERED IN THE PARK

Essen, Prussia, Oct. 4.—A great sensation has been caused here by the murder of Miss Madelaine Lake, daughter of an English army officer, whose body, terribly mutilated, was found Monday evening in the City Park. The police have been unable to throw any light on the mystery surrounding her death. Both temples were beaten in, her throat was lacerated by the hands of her murderer, who evidently strangled her in addition to beating her terribly about the head, and her arms and body were severely bruised.

The excitement caused by this horrible crime in a public park, almost in daylight, apparently, has been increased by the fact that the enquiries of the authorities have resulted in seemingly establishing the fact that Miss Lake was related distantly, to the British Royal Family, the brother of her grandmother, it is stated, having married a daughter of Caroline Amelia Elizabeth of Brunswick, the divorced wife of George IV. of England.

Cork Toys.

Curious toys may be made of cork. One of these is the well known little tumbler such as is generally constructed of pith. But cork, especially if it be hollowed, will answer the purpose quite as well. Make the puppet of three or four corks, shape and paint it as skillfully as you can and glue to the feet or under them little hemispheres of lead. When thrown into any position the figure of course rights itself and, like a cat, always falls on its feet. It is quite possible to make a cat of pith or of cork too.

The Careless Doll.

I took my dolly for a walk. Before we reached the gate
She kicked one little slipper off, and soon she lost the mate.

I took my dolly for a ride; it was a windy day.
She broke her pretty parasol; her bonnet flew away.

I took my dolly for a sail, and what did dolly do
But drop her necklace overboard—it was her best one too!

And then, the more I scolded her the more she smiled and smiled
Now, would you take her out again—she's

The new Pure Food and Drug law will mark it on the label of every Cough Cure containing Opium, Chloroform, or any other stupifying or poisonous drug. But a glance Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures it does not simply suppress. Get a safe and reliable Cough Cure by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. J. D. Tully.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Sold by Druggists, price 75c.

Take Hall's Family Pills for constipation.

The Coppers Burned.

A Church of England parson, who has recently come to Toronto from the West, where coppers are unknown, and the five cent piece is the smallest coin in circulation, daily laments the contact with cents which he encounters in the East. He will sympathize with a Western man who (according to The Innisfail Province), while visiting one of the Eastern cities, purchased a newspaper. "He gave the usual nickel, but was amazed to get four coppers in change. Not being used to the feel of copper he tried to dispose of the balance by buying a box of matches. Imagine his amazement when only one cent was taken, and the other three handed back. Still feeling perturbed at carrying such a common thing as copper around in his pocket, the Westerner turned in desperation to see what could be done with the balance of the money when, to his joy, he saw a blind man who was only too glad to relieve him of the burden. What a lot of fun a fellow can have down East for five cents!"

Perfectly Clear.

Rosebud—What nonsense to say that a woman never means what she says. She can always give a direct answer.

Fred—Of course she can! She means it either to mean yes or no when she says no or yes, or to mean neither when she doesn't mean it to mean what you think she means it to mean—it's perfectly clear.

Rosebud—Of course it is!

SUFFERED FOR YEARS WITH A COMPLICATION OF PELVIC DISEASES.

Robust Women Who Owe Their Restored Health and Usefulness to Pe-ru-na.

Read the Letters of Gratitude From Women Who Have Been Benefited By Dr. Hartman's Advice.

A Multitude of Such Letters Are Received Every Year.

A TYPICAL LETTER.

Mrs. Carry Peduzzi, Linstad, N. Dak., writes:

"I take pleasure in telling you that through your wonderful medicine I am entirely cured of catarrh of the stomach and pelvic organs.

"I was so rundown on account of my illness that I could no longer attend to my housework. I could not eat or sleep and had terrible pain in my back.

"I took Peruna and in five months I was well. I have not felt so well for a long time.

"I wish everyone who is sick would take Peruna and thus recover their health.

"I have Peruna in the house continually. I thank you for all that you have done for me."

A Medicine of Merit.

Miss Katie A. Washer, 1706 Prentice street, Louisville, Ky., writes:

"As my experience has been so favorable from the use of Peruna, I unhesitatingly state that I believe that it is a medicine of unquestioned merit for all the ills that we women suffer from.

"I find that it strengthens and infuses new life into the system, and whenever I feel rundown or over-tired, a few doses of Peruna will strengthen me again."

Found a Friend in Need—Pe-ru-na.

Mrs. Florence Aitkens, 1104 Front St., Toledo, Ohio, writes:

"Peruna cured me of catarrh of the uterus. I took about four bottles when I noticed an improvement and five bottles cured me.

"I do not know what I would have been like to-day had I not obtained Peruna, for I was in a terrible state.

"I had pains all over and was cross and irritable. I was losing hope of ever being well again.

"I am to-day a well woman after suffering for nine months. I cannot tell you how happy I feel, but you will know.

"Peruna is the best medicine on earth.

"My husband is now taking it and I will always keep Peruna in my house.

"Peruna is the best friend I ever had. It cured me."

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of pelvic catarrh.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will give their letters prompt attention, without charge.

Miss Anna McGinn, 161 Plain street, Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me.

"I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna.

"I got a bottle of your Peruna and after a week's use of it I began to feel better. I could not eat, sleep, or work, but I have at last found that the medicine that will cure me is Peruna."

Teacher Eloped as Wife Was Dying

St. John, N.B., Oct. 5.—H. S. Savery, of Plymouth, Mass., who came to St. Martin's, 30 miles from this city for his health, four months ago, and has been occupying the Presbyterian pulpit, eloped on Saturday with the daughter of a prominent politician. Going to Hampton, he procured a license and arranged for the wedding, but as the officiating clergyman suspected that everything was not right he sent for the girl's father and Sheriff Freeze. In their presence, Savery admitted having a wife in Plymouth. The girl was sent home.

Savery says that he expected his wife to die before his marriage to the young woman was discovered. He has now returned to St. Martin's.

WASHINGTON AS A FIREMAN.

He Was a Member of the Friendship Fire Company.

George Washington was a member of the Friendship Fire company, organized in 1774 in his home, Alexandria. At first the company consisted of citizens who, out of "mutual friendship," agreed to carry to every fire "two leathern buckets and one great bag of osnaburg or wider linnen." Washington was made an honorary member, and when he went as a delegate to the congress of 1774 at Philadelphia he examined the fire engines in use there. On his return to Philadelphia to the Continental congress in 1775 he bought from a man named Gibbs a small fourth class engine for the sum of £80 10s., and just before he set out for Boston Heights to become commander in chief he dispatched this little engine to the Friendship company.

During his younger days he always attended fires in Alexandria and helped to extinguish them. In the last year of his life a fire occurred near the market. He was riding down King street at the time, followed by his servant, who was also on horseback. Washington saw that the Friendship engine was insufficiently manned, and, riding up to a group of well dressed gentlemen standing near the scene of action, he called out authoritatively:

"Why are you idle there, gentlemen? It is your business to lead in these matters."

After which he leaped off his horse, and, seizing the brakes, was followed by a crowd that gave the engine such a shaking up as it had not had for many a day.

WOMAN AND THE LAW.

How Conditions Have Changed In the Last Half Century.

Truly the position of women before the law has suffered mighty changes. Fifty or sixty years ago the twain were indeed one, and that one the husband. He could collect all debts, such as wages that might be due her—though incidentally, he was liable for all she owed. She could not make a will of her real estate, nor of her personal property, without his permission, and he was entitled to the income from her lands. He could lock her up in his house and keep her there. Whether he could inflict chastisement was a moot point, though a judge of the North Carolina supreme court held in 1866 that he possessed this power, provided he used "a stick as large as his finger, but no larger than his thumb."

Over the children the husband had absolute control, and could even appoint a guardian by will who could take them away from the mother. They were to be brought up in the father's religion, without any consideration for her feelings. In fact, it was only about 1886 that the supreme court of judicature in England directed that the sons and daughters of the deceased nawab of Bengal by an English wife be reared as Mohammedans.—Everybody's Magazine.

Whims of Ibsen.

Like many another man great in his writings, Henrik Ibsen was not without his foibles. Scorning company as he professed to do and declaring always for solitude, he nevertheless delighted to be dined, and to invite him to a banquet in his own especial honor was to give the great man unalloyed pleasure. In his latter days, too, he developed a passion for decorations, of which he received a large number from his own and foreign monarchs, and on public occasions he would wear all his insignia as probably the most decorated author in the world. It was on public occasions that Ibsen would carry a small mirror and comb in the crown of his hat, and "coram populo" would proceed to arrange his bushy hair and whiskers.

He Had His Wish.

Carl Schurz had no consideration for hypocrites or pretenders. Upon literary pretenders he was particularly severe. At a dinner in New York one night a man of wealth who had written a volume of poems sneered at politics.

"I wouldn't give a picayune," he said, "for a senatorship or a cabinet office. To be even president wouldn't tempt me. I, for my part, would rather be known any day as a third rate poet than a first rate statesman."

"Well, aren't you?" said Mr. Schurz.

Minerals In Water.

Lead or zinc ore can be so finely pulverized that a tablespoonful may be mixed in a bucket of clear water without being visible to the naked eye. When thus powdered the particles are so minute that it often takes half an hour for them to settle to the bottom of a vessel full of water. This fact makes it evident that a stream may carry large quantities of minerals rich in metals.

Neatly Turned.

"Now, Pat," said a magistrate to an old offender, "what brought you here again?" "Two policemen, sor," was the laconic reply. "Drunk, I suppose?' queried the magistrate. "Yes, sor," said Pat; "both av thim."

The Worst.

"Doctor, I must positively insist upon knowing the worst."

"Well, I think my bill will be about $100."

Everybody exclaims against ingratitude. Are there so many benefactors?

CONSCIENTIOUS ROGUES.

The Big and Formidable Sinners Are Gray of Soul, Not Black.

No paradox is it, but a demonstrable fact, that in a highly articulate society the gravest harms are inflicted not by the worst men, but by those with virtues enough to boost them into some coign of vantage. The boss who sells out the town and delivers the poor over to filth, disease and the powers that prey owes his chance to his engaging good fellowship and big heartedness. Some of the most dazzling careers of fraud have behind them long and reassuring records of probity, which have served to bait the trap of villainy.

Not that these decoy virtues are counterfeit. They are, in fact, so genuine that often the stalwart sinner perseveres in the virtue that has lifted him into the high places he abuses. The legislator conscientiously returns the goodie when he finds he cannot "deliver the goods." The boss stands by his friends to his own hurt. The lobbying lawyer is faithful to his client. The corrupting corporation president is loyal to his stockholders. The boughten editor never quite overcomes his croft instinct to print "all the news that's fit."

In a word, the big and formidable sinners are gray of soul, but not black, so that chastisement according to their character rather than according to their deeds lets them off far too easily.—E. A. Ross in Atlantic.

Scientific Language.

"No wonder," said the poet, "that no one cares to read the works of Haeckel, Darwin, Spencer, Huxley and so on. These men have much to say, but they don't know how to say it. They have never taken the time to learn to write." He drew his notebook from his pocket. "When Professor Thompson," he resumed, "hit on a new variety of cathode rays, he announced his discovery in these terms: 'Of an orthocathodic character, a deflectable fluorescifient excitant; of a paracathodic character, a deflectable fluorescifient nonexcitant; of a diacathodic character, a nondeflectable fluorescifient nonexcitant; of an isocathodic character, a deflectable, nonfluorescifient nonexcitant'—and so on for forty or fifty pages."

Badly Placed.

Lawley (expert shorthand reporter)—I say, James, the boy from the newspaper office has called for the report of that lecture. Is it finished?

James (a novice)—All but a short sentence in the middle of it, and I can't for the life of me make out from my notes what it is.

Lawley—Oh, just put in "great applause" and let it go.

James acts on the suggestion, and the lecture is sent for publication with the doctored part reading, "Friends, I will detain you but a few moments longer." (Great applause.)—London Express.

Ignorance Might Have Been Bliss.

"A lady on a sultry summer afternoon called on some friends," said a lecturer. "The talk buzzed along briskly, fans waved and the daughter of the house kept twitching uncomfortably, frowning and making little smothered exclamations of annoyance. Finally with an impatient sigh she rose and left the room.

"'Your daughter,' said the visitor, 'seems to be suffering from the heat.'

"'No,' said the hostess. 'She is just back home from college, and she is suffering from the family grammar.'"—Milwaukee Sentinel.

Wise Man.

"I'll take that," said the man, indicating a silver mounted hand glass, "and I want you to engrave on it 'From J. J. B. to Phyllis.'"

"Very well," replied the salesman, "we'll put it on the back here"—

"Oh, no. Put it around the edge on the front. I want her to see it."—Philadelphia Ledger.

Pretty Near Right.

Markley—Wiseman told me today that I'd never get back that ten spot I loaned you. Grafton—He did? Markley—Yes. Grafton—Well, if it wasn't so expensive I'd make him out a liar right now.—Philadelphia Press.

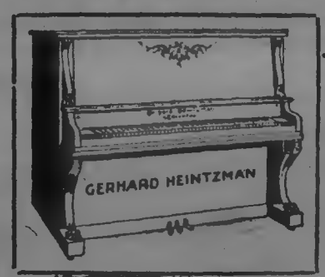
I know of nothing sublime which is not some modification of power.—Burke.

Wins Distinction Abroad.

The name of Stillman Foster Kneeland ranks well up in the list of Canadians who have won distinction in other lands. Mr. Kneeland was born at Quebec, May 17, 1845. He was educated at McGill University, and removed to New York in 1873. In the civil war he served as brigadier-general, and in 1886 framed and secured the passage of an act abolishing perpetual imprisonment for debt in New York State. He was a member of the State Legislature in 1894. As a member of the law firm of Kneeland, Le Fetra and Glasse he figured as counsel to the E. B. Claflin Co. and Union Surety & Guarantee Co. He is vice-president of the department of painting, Brooklyn Institute of Arts and Sciences. His publications include Treatise on Commercial Law, Kneeland on Mechanics' Liens, Kneeland on Attachments, and Seven Centuries in the Kneeland Family.

Car of Juggernaut.

The hideous tales of the car of Juggernaut and the hundreds of victims crushed beneath its wheels in the annual processions are lies. The car festivals in India attract each year 100,000 pilgrims, but no one was ever killed beneath the car except by accident.



Gerhard Heintzman PIANO

That beautiful mellow-resonant tone so like the cultured human voice is frequently referred to by piano experts as the **Gerhard Heintzman Tone.**

A sensitively responsive touch, substantial construction and durability are also characteristic of the celebrated Gerhard Heintzman Piano.

RONDEAU.

Beyond the sea shall we not steer
With lightening hearts and laughter clear
To lands wherein the nightingale
Makes music, and sweet odors fall,
Far from discordant voices here?

Sweet sigh the waters of the weir,
And forests in the summer's ear,
But sweeter blows the perfumed gale
Beyond the sea.

Beyond all sight of shore or hail,
Hearing the wind sing in the sail,
We shall forget that year—
And dream from golden year to year,
Wrapt round with slumber as a veil
Beyond the sea.
—J. F. Davidson, in Toronto World.

DAN NORMAN, MISSIONARY.

Learns Japanese Language and Gives Life to His Work.

Dan Norman is a missionary to the Japs. He has been eight years away from Canada, four of which he has spent in the Province of Shinshu, which headquarters at Nagano. He is home now on furlough, but spends his rest days telling good folk of the work yet to be done among the little islanders, says The Toronto World.

Dan is a graduate of Victoria University, of the class of 1896. He is young in years, but old in the cause to which he has given his life.

"Is there any money in it?" he was asked, rather impertinently, but kindly.

"No," was his reply, in a tone that indicated surprise that such a question should be asked. "There are many places in which I would prefer to live rather than in Japan. Toronto is a beautiful city, and I could be happy here, but my mission in life is in Japan, and I am content."

And he is all wrapped up in the Japs. The work of the Methodist Church in Japan has been going on for a quarter of a century. The Christians in Japan number 207,000, counting church members, Protestants and Catholics, and children in the Sunday schools. The native Methodist Church has a membership of 2,400, with fifty evangelists, pastors and missionaries.

The Christian churches are endeavoring to carry a new standard of conduct to the Japanese, and Dan Norman is hopeful of success. He sees many signs that the new idea is catching on, though not perhaps in the way one could wish. The Jap's life is ordered in obedience to his parents and loyalty to the Mikado. Nothing else counts. The teachings of Christianity appeal to the Jap as high principles of conduct, but he is a sceptic, and does not readily grasp the spiritual side of the matter. He is ready to order his life anew, perhaps, just to assume the Christian disguise, as it were, but the idea of spiritual grace is hard to engraft on his materialistic mind.

The older Japs pronounce Christian teachings good, but say that they are too old to learn. Yet they wish their sons to be brought up to the new standard, and entrust them to the care of the Christian teachers. Dan Norman has brought out with him five young Japs, who will go into business, or into college, in Canada, and eventually return to their native land. In their march of destiny, the Japs want to be thoroughly equipped, and there is something uncanny in their grasping the moral principles of Christianity to aid them on their way.

Dan Norman calls the Japs great organizers, and sees in them the builders of a mighty empire in the east that will embrace all China. He speculates the vagaries of the Japanese character, and does not disguise the fact that winning the Jap to the cause is a tremendous task. Yet he does not falter, does not look back, and is content to spend his days in the work to which he knows he has been called. To this end, he has learned the Japanese language, and speaks it like a native.

Steamer Surrounded by Bodies.

Barcelona, Spain, October 4.—The captain of the steamer Liga, which arrived here yesterday, reports having observed off Oporto a big steamer which had foundered. She was surrounded by floating bodies. No details of the disaster were obtainable.

HAVERGAL COLLEGE
TORONTO

PRINCIPAL—MISS KNOX.

First-class Honors University of Oxford, Cambridge University Diploma in Teaching.

Assisted by three heads of departments:—

House—Miss Edgar, B.A., University of Toronto.

Junior House and School—Miss Wood, B.A., London, England.

Day School—Miss Jones, LL.A., St. Andrews.

Pupils are prepared for Matriculation at the University of Toronto, for the Havergal Diploma and for the examinations in Music of the Conservatory and the Toronto College of Music, and in Art of "The Royal Drawing Society," London, England.

The College offers exceptional conversational advantages in French, under a resident French Mistress, assisted by six resident specialists in modern languages.

Particular attention is given to physical training by two graduates of the Boston Normal School of Physical Culture who reside in the College, and give individual care to the pupils. Instruction in swimming will be given in the new swimming bath.

Large grounds adjoin the College, and afford ample space for tennis, basket ball, cricket, etc., in Summer, and for hockey upon a full-sized rink in Winter.

A new Junior School is now being erected. The Curriculum includes, among other subjects, elementary science in Geology, Wood Carving and Basket Weaving.

A Domestic Science School, with six Departments, is now being fitted up.

Copies of the Calendar, containing full information as to entrance, fees, etc., may be obtained on application to the Bursar.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight." G. E. WRIGHT, Lansing.

ESTABLISHED 25 YEARS.

A Rare Chance

TO MAKE BIG MONEY

The undersigned has, after much effort, secured a block of stock of the

Chloride Gold Mining Co.

PUEBLO, COLORADO.

I believe, one of the best mining propositions ever placed on the Canadian market. The capital stock of the Company is $1,000,000, divided into one million shares par value of one dollar each. All stock fully paid and non-assessable, with no personal liability whatever. The Company is splendidly officered, the President and Manager being an experienced practical miner.

The property is situated on Shrum Shrum Mountain, 11-2 miles east of the Town of Chloride, Arizona, and the Jumbo Group, 25 miles distant, 120 acres in all.

I unhesitatingly recommend this stock to my clients, and will be pleased to furnish further information on application. In a few days a full description of the property will appear in these columns. Watch for it.

THE RICHEST MINING CAMP ON EARTH

is BULLFROG, NEVADA, which has more stocks selling above par, than any other mining district.

EVERY DEVELOPED CLAIM IN THIS DISTRIT

HAS PROVEN A RICH STRIKE.

The Missouri Bull Dog Mining Co., is developing its properties which consist of 5 full claims of 20 acres each, and at a depth of 60 feet struck ore which assays $141 50 value per ton.

This company owns this property, has no indebtedness, and has money in the treasury. THE STOCK OF THIS COMPANY IS SELLING FOR TWENTY CENTS PER SHARE.

The Stock of every Developed Property Around Them is Selling for $1 Per Share, up to $22 Per Share.

If your wish to reap the advantage of A GROUND FLOOR OFFER in the Bullfrog District, write today for prospectus, engineer's report and map of district, which will be sent free and binds you in no way to subscribe.

A GOOD CANADIAN REPRESENTATIVE WANTED

The Bridal Eve

MRS. E. D. E. N. SOUTHWORTH

A NOVEL

Author of "Self-Raised," "The Deserted Wife," "The Bride's Fate," "Retribution," "Ishmael," "The Wife's Victory," Etc., Etc.

"After her preparations were complete, she took me in hand, dressed me carefully, but very plainly, and cautioned me to be very discreet. But this sort of setting me up for sale was so repugnant to my feelings that, indeed, I could have found it in my heart to have hidden myself in the wilderness."

"I can well believe it, my poor Rose," said the duke, with a tone and look as though he were mourning over her dead.

She continued:

"Captain Rutherford came the same afternoon I suppose he would have been considered by any landlady as a model lodger. He was a handsome and prepossessing man, tall, fair-skinned, fair-haired, with eyes as blue, clear and gentle as those of childhood, and a smile full of frankness and benevolence. He fascinated my poor foster-mother; she believed in him, honored him, indeed, loved him. His life with us was very quiet and regular. He went out in the morning with his dog and gun, and returned in the afternoon with nothing to show for his day's 'sport.' He often condescended to pass his evenings in chatting with my mother and myself.

"He often invited me to go for a walk, but I never would accept the invitation, nor, indeed, would my mother ever have permitted it. We never had any visitors, and so our lodger remained with us for several weeks in total seclusion."

Rose paused, a sudden flush suffused her pale cheeks, she drew a deep breath, recovered herself, and proceeded in a lower tone:

"Oh, how I hate to speak of what soon followed! Rutherford loved me, sought every opportunity to tell me so; but my foster-mother, discreet as she was ambitious, took care that he was never for a moment alone with me. This course of conduct brought the man to the point toward which she had been drawing him all the time. He sought an interview with her; told her that he loved me, and wished to make me his wife. My poor mother! with ill-concealed triumph, she approved his suit, and sanctioned his addresses."

"And you, Rose, you?" exclaimed the duke, with the most painful interest.

"I hated the man! I say it now, and I said it then! But then I blamed myself for the instinctive hatred that seemed so unjust. I was a child in the hands of my foster-mother. She did not absolutely force me to accept Rutherford, but she urged me with tears, entreaties and reproaches, and won her cause and Rutherford's through my love for her."

The young duke could not repress the deep groan that burst from his bosom.

"I consented to become the wife of Captain Rutherford. But after our engagement, my poor nurse insisted upon the same reserve as before. We were never left alone together for a moment.

"This course effected that which Mrs Elmer had intended it should—the fixing of an early day for the wedding. The captain made liberal settlements, or brought us documents which he declared to be such. But he desired, upon account of his family, who, he said, wished him to marry an heiress, that the wedding should be a strictly private one, witnessed only by my mother. To this Mrs. Elmer consented and the captain undertook all the necessary preparations. The curate and the parish clerk of Swinburne were heavily fee'd, and bound to secrecy.

"It was arranged that the captain, my mother and myself should repair to Swinburne church at dawn, where the curate and the clerk would be in readiness to perform the ceremony, after which we were to take a post chaise to Bristol, where we were to embark for the continent.

"Everything was conducted as had been previously arranged. At dawn the captain had a post chaise before our door. We entered, and drove to the village, [illegible] We found the curate and the clerk awaiting us [illegible] ceremony proceeded.

"Rutherford had placed the ring upon my finger, and was holding my hand and repeating after the curate the words of the ritual, 'With this ring I wed; with all my worldly goods I thee endow,' when a slight noise at the door caused him to look around. He started suddenly, dropped my hand, rushed to the nearest window, dashed it open, and threw himself out of it.

"At the very same instant the church was filling with constables and the posse constabulus they had summoned to assist them. They were led on by a London police officer, who had slowly traced the criminal down to our obscure village, and who carried in his hand a warrant for the arrest of ——"

"Rutherford, of course."

"Thugsen, the criminal, at whose name all England shuddered! Thugsen, who had eluded the police, and hidden himself with us until he could secure his retreat to France! Thugsen, who, under the name of Rutherford, stood with me at the altar of the church at Swinburne!"

"My poor foster-mother was struck with consternation at the danger I had so narrowly escaped. The clerk and the curate were both appalled. I, in the midst of my great horror, felt an awful thankfulness at my deliverance. The officers, as soon as they found he had fled from the church, dispersed in search of him, but he managed to make his escape. Afterward, I heard that he had fled to the Continent; and long afterward there was a confident report of his death. He was said, by all the newspapers, to have been killed in an emeute at Paris.

"I believed him dead until this night. This night he suddenly appeared before me. He dared to claim me as his own; he dared to promise me forgiveness for what he called my inconstancy, if I would fly with him to the Continent; dared, further, to threaten me with a criminal prosecution if I refused to accompany him."

"And you, Rose—what said you?"

"I said that I would refer my cause to you, and take my fate from your hands. And I do, oh, my husband! oh, my judge! my sovereign! I am yours to dispose of as you list. I know that what you decide will be right, perfectly right; and if you banish me from your side forever, I know that it will be because you are obliged by honor to do so, and that even then you will give poor, exiled Rose a kind good-by!"

He looked at her sitting there so pale, so sorrowful, so resigned, and he opened his arms, saying:

"Rose, you are an honorable woman. Come to my bosom, my beloved wife; you are mine own, and my arm shall shield you against the world!"

And with a cry of irrepressible joy, Rose threw herself into his arms and swooned away.

He laid her gently on the sofa, and without venturing to call assistance, he applied such restoratives as were at hand, until his efforts were crowned with success, and with a deep sigh she recovered, and opened her eyes. Almost the first words of her returning consciousness were:

"Oh, what will your mother say?"

He knelt by her side, and speaking very gently, as he bent over her, said:

"Dear Rose, my mother and sister need know nothing as yet. Remember that to-morrow they set out for Paris, on their way to the south of France. They will be traveling over the Continent all the autumn and winter; before they return this threatened misfortune may be warded off. Compose yourself, dear Rose, and remember that you are my wedded wife, whom I will shelter and defend against the world."

And so, soothing, comforting and sustaining the delicate creature, whom he had vowed before Heaven to cherish until death, he led Rose to the door of her dressing-room, and gave her into the affectionate care of the little French dressing maid. He went to his own room, and passed a night of silent agony.

Very early in the morning a message came from the duchess downstairs to know how her beloved daughter-in-law had passed the night. Rose sent word that she was much better—in fact, quite well.

And, with a superhuman effort at self-command, she left her bed, and after a careful morning toilet, repaired to the breakfast-room, where, with a heavy heart, but a cheerful countenance, she met the family.

The traveling carriages were at the door, and as soon as breakfast was over, the duchess and her daughter took leave, and departed.

"Thank Heaven, they are gone! Oh that I should have lived to see the day upon which I thank Heaven my mother and sisters have left me!" thought the Duke of Beresleigh, as he watched the two carriages roll off and disappear, and then he turned into the breakfast-room, where Rose stood pale and frightened.

"Well, love!" he said, going to her side.

"That dreadful man threatened I should hear from him before noon-to-day. And the clock is on the stroke of twelve!" she said, trembling.

They were interrupted by a knock at the street door.

Rose shuddered and clung to the duke.

The next moment a stranger was announced. He was a civil officer, bearing a warrant for the arrest of Rosamond Wardour and Etheridge, Duchess of Beresleigh and Baroness Etheridge of Swinburne.

CHAPTER XXIX.

Happily, the Dowager Duchess of Beresleigh and the Ladies Wardour had quitted the kingdom before the fall of the thunderbolt upon their ancient and noble house.

More happily, the unaffected humility, the simple kindness, and the innocent gayety of the young duchess, had made as many sincere friends as her surpassing beauty, exalted rank, and distinguished success had made secret enemies; and thus, though society was shocked to its foundation by the news of her arrest upon so grave a charge, yet she was not left without warm advocates among the most eminent men and women of the world. And, most happily, Rose was as innocent as a child, not only of the crime imputed to her, but of every thought connected with such sin. With the most diabolical exasperation of malignity on the part of her enemies, the indictment of bigamy had been preferred at the Old Bailey, where, among the lowest and worst criminals of Newgate, Rose shuddered at the thought of appearing.

Willingly would Rose have fled alone to some remote region, whence she never more might have been heard of, could she have borne away with her into the wilderness the sorrow of her husband, leaving him happy. But this could not be. Rose was greatly beloved, not only by her husband, but by many devoted friends who remained faithful to her in her deep distress, and like a child in her humility, gratitude and trust, she placed herself in their hands to be guided by their united counsels.

The proceedings instituted against her, and based upon so slight a foundation as an unfinished marriage ceremony, might possibly have been quashed, but the arrest and the charge having been made public, it was deemed, by the duke and his friends, essential to the fair fame of the young duchess, that she should be vindicated by an open trial, but not at the Old Bailey.

For, though her legal right to the title of the Duchess of Beresleigh, and the honors and immunities belonging to the rank, was now questioned, yet,

(To be continued)

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

BOSTON, - - MASS

OUR ZINC COMPANY IS DIFFERENT

Holders of Preferred Stock have a priority lien upon all property until they have received in dividends the par value of their holdings.

Combines the safety of a government bond with the speculative element of a gold mine.

Capitalization is low, only $50,000.00; 200,000 shares are made preferred stock, and placed in the treasury by charter provision. This stock is protected to the complete exclusion of the common stock, until it has earned in dividends an amount equal to its par value.

Zinc mining is the safest, the cheapest, and the most profitable in the realm of mining.

The great Southwestern Lead and Zinc District is the greatest in the world. More than 500 paying mines are located in this district. The Empire Zinc Mine has paid dividends of 180 per cent. The Enterprise Lead and Zinc Mine has paid 250 per cent. and its stock is worth seven times its par value. The Northern Arkansas mineral region is a part of this famous District. The ores from Lawrence and adjoining Counties, Ark., were awarded the Bronze Medal at the late World's Fair, at St. Louis, Mo., U. S. A. Some of these ores were taken from the land where is now located the group of New Era Mines belonging to our Association.

If you want to get in with a live company where things are moving, come with us. Write today. You must act quickly. It is the opinion, and believed by experts and miners, that within a few months our company will be paying large dividends. Development work now done has brought our miners into a zone which is yielding rich ore, and every indication points to an immense deposit of zinc.

We have the mines. We have the ore. We need a concentrating plant for the treatment of this ore. Were it not that we consider it better business policy to sell a block of preferred stock and purchase an equipment of machinery at once than to wait and have our ore treated by custom mills, NOT ONE DOLLARS WORTH OF THIS STOCK WOULD BE OFFERED FOR SALE.

Write to us today for full information.

Lincoln Mining and Milling Association,

Courier Block, LINCOLN, ILLINOIS

I Strongly Recommend

LITTLE SALMON GOLD MINING CO.

STOCK at Present Prices for a Quick Advance

The Little Salmon Gold Mine is well developed, in proved rich ground; has all the essentials, water, timber, good transportation and has now in sight over 500,000 tons of free milling gold ore averaging $13 to $16 per ton that can be mined, milled and reduced into solid gold bullion for $2.50 per ton.

Its Officers and Directors are all successful and substantial Cincinnati business men who are giving to its management that sound business "horse sense" that means

BIG SUCCESS

in record time; that means dividends of 20 to 30 per cent. and stock selling at $3 to $5 per share in the near future.

STOCK ADVANCING

Treasury Stock for development of mine only is being sold; all other stock is locked up in trust. No salaries paid. Proceeds from sales of stock go into labor and machinery at mine, ensuring quick results. Par value of shares $1.00. Selling rapidly now for 40 cents, but worth 60 cents today on present development, and will shortly be advanced. Will be selling for $1.00 or over by Christmas.

OVER 3 MILLIONS YEARLY

The Little Salmon Mine is in the Green Horn district of the Blue Mountains, Grant County, Oregon, where over $60,000,000 gold has been produced during last 40 years. It is surrounded by over 20 mines that are now paying out over 3 millions yearly in dividends.

GET THE FACTS

Whether you have $100 or $10,000 to invest, send for prospectus, which gives the straight, clean facts. This is your opportunity to make good, quick money safely or a big income for your own life and your children's lives. Prospectus at once on application.

Price advances to 50 cents on September 1st. Buy now.

St. Paul Building, CINCINNATI, OHIO, U. S. A

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table.

St. Lawrence Extra Granulated Sugar

Is the whitest and best looking Sugar to be had and besides it has the advantage of being the best quality and greatest strength.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the Northwest Provinces excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5.00 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 15 or 1500 feet. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent. on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The leases shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,

Deputy of the Minister of the Interior.

Your Liver You cannot possibly enjoy good health when the liver is inactive and the bowels constipated. You must keep the liver active. You must have daily action of the bowels. Ask your doctor if this is not true. Ask him at the same time if he knows a better laxative than Ayer's Pills. All vegetable, sugar-coated. Dose, only one pill, at bedtime. We have no secrets! We publish the formulas of all our medicines! J. C. Ayer Co., Lowell, Mass.

—THE—

TORONTO GENERAL TRUSTS CORPORATION

Is authorized to act as

Administrator, Executor, Trustee, Etc., Etc.

An eminent writer has said: "It is difficult, indeed, to see how any private individual would willingly accept the position of executor, unless it be the family solicitor, who makes his living out of such work. A man once an executor finds himself always a prisoner, because he is obliged to give much more time and attention to his trust work than to his own business, and the anxiety is unceasing. The danger of mistakes occurring owing to inexperience is considerable, the responsibilities are enormous, and the personal liability never ends. He may perform his duties conscientiously, but he will never be given any thanks for his trouble. On the other hand, he may find himself at loggerheads with the members of his family, and perhaps be involved in law suits and other worries. There is no more fruitful source of discord between relations and friends than is brought about over the administration of wills and trusts." Write for Manual.

HEAD OFFICE: 59 YONGE STREET, TORONTO

ARTIFICIAL SNOW.

A Simple Experiment With Sulphuret of Carbon.

A very beautiful and interesting effect may be obtained by a simple experiment with sulphuret of carbon. This is a colorless liquid formed by the union of sulphur and carbon. It should be handled with extreme caution, as it is highly inflammable. To produce the effect shown in the illustration, you have but to fill a small flask with sulphuret of carbon. Pierce a hole through the center of the cork stopper. Roll up finely a piece of white paper and pass it through the hole in the cork until the lower end touches the bottom of the flask. The upper end should pro-

ARTIFICIAL SNOW FORMATION.

ject somewhat above the cork and be cut into narrow strips like a fringe, each strip being made to stand out well from the rest. Let the apparatus stand, and at the end of fifteen minutes you will find the cut paper covered with little particles of snow.

The liquid has mounted in the paper by capillary action. Coming in contact with the air, its rapid evaporation causes such a sudden drop in the temperature of the air immediately surrounding it that the moisture contained in the atmosphere congeals and appears in the form of snow. This experiment may be successfully tried in midsummer and in full sunshine. It is advisable, however, owing to the powerful and disagreeable odor of the liquid employed, to conduct the operation out of doors or on a window sill.

THE FLOWERS.

A Message the Wind, Blowing Over the Garden, Brought Them.

The flowers got into a debate one morning as to which of them was the flower of God, and the rose said, "I am the flower of God, for I am the fairest and the most perfect in beauty and variety of form and delicacy of fragrance of all flowers."

And the crocus said: "No, you are not the flower of God. Why, I was blooming long before you bloomed. I am the primitive flower. I am the first one."

And the lily of the valley said modestly: "I am small, but I am white. Perhaps I am the flower of God."

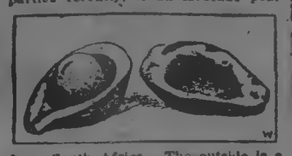
And the trailing arbutus said: "Before any of you came forth I was blooming under the leaves and under the snow. Am I not the flower of God?"

But all the flowers cried out: "No, you are no flower at all. You are a come outer."

Then God's wind, blowing over the garden, brought this message to them: "Little flowers, do you not know that every flower that answers God's sweet spring call and comes out of the cold, dark earth and lifts its head above the sod and blooms forth, catching the sunlight and flinging it back to men, taking the sweet south wind from God and giving it back to others in sweet and blessed and health giving fragrance, do you know they are all God's flowers?"—Lyman Abbot.

A Vegetable Pear.

This strange fruit, which has been served as a novelty at a few dinner parties recently, is an Avocado pear

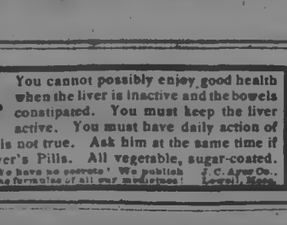


from South Africa. The outside is a hard shell, but on splitting it open a kernel is found inside. The portion between the shell and the kernel only is eaten, with pepper and salt.

WHAT TO EAT.

A Melon Salad the Latest Gastronomic Novelty.

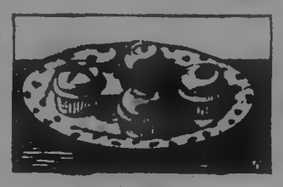
A melon salad is not often seen, though regarded by those who have tried it as a highly satisfactory way of serving this delicious fruit, especially when, as sometimes happens, it is not as full flavored as one could wish. Cut the fruit in cubes, being careful to exclude all hard rind. Make a dressing of olive oil, which for this purpose should be specially good, and white wine or not too strong vinegar, in the



MELON SALAD.

proportion of at least three tablespoonfuls of oil to one of vinegar, a quarter of a saltspoonful of pepper and half a saltspoonful of salt. Mix these well together and pour over the melon. Serve very cold in a salad bowl, or, for a novelty, it may be served from the shell of the melon from which the soft part of the fruit has been cut. Sprinkle this salad with a little chopped green tarragon, the delicate flavor of which blends particularly well with that of the melon. Garnish with lettuce hearts or any greenery at hand.

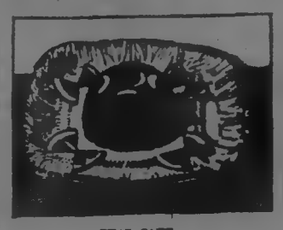
Salmon souffles are wonderfully good. Take one-half pound of cooked salmon, two hard boiled eggs, anchovy essence, a gill of fish stock, one-quarter ounce of gelatin, half a pint of whipped cream, salt and a tiny pinch of cayenne. Pound the fish to a paste, then add the yolks of the eggs and the whites after chopping and rubbing through a sieve. Now add the anchovy paste and seasoning, moistening it with the stock in which the gelatin has been dissolved; sieve all these things together and when cold mix in the whipped cream. Pin narrow strips of paper round the top of small souffle cases, fill these an



SALMON SOUFFLES.

inch or so above the edge with a mixture, smoothing the top neatly with a knife; decorate with hard boiled egg and chopped water cress or with tiny sprigs of water cress or chervil; set on ice till serving time, then carefully remove the papers and use.

Veal cake is a useful dish for picnics. There are various ways of making it, according to whether a rich, substantial dish is required for some special occasion or whether the purpose is merely to utilize a few slices of veal. One of the simplest modes is to cut the roast veal into slices, lay these in a mold alternately with a few slices of ham or tongue and between the layers, which should be well seasoned with pepper, intersperse thin slices of hard boiled egg. When the mold is full, pour in a little rich stock or good gravy. Bake for half an hour and turn out when cold. Another way is to mince a pound of lean veal and half a pound of streaky bacon; add to them a tablespoonful of mushroom



VEAL CAKE.

catchup, a gill of veal stock, the grated rind of half a lemon, parsley, a seasoning of salt and paprika; press the mixture into a well buttered mold or basin, the inside of which may be decorated with slices of hard boiled egg, etc., cover with buttered paper and bake in a moderate oven for an hour and a half; turn out when quite cold and garnish with some butterfly slices of lemon.

VANITY'S VISIONS.

The Art of Adjusting a Hat—Dressmaking Hints—Pompadour Silks.

In putting on a hat or taking one off it should never be grasped by the front or back brim so that all the weight is suspended from a single point, for this is likely to make the brim sag. Instead the headgear should be lifted with the finger tips placed on either side of a hat and as lightly as possible to hold it firmly.

When making a coat and skirt of a whole dress the bodice should not be cut out first. The skirt takes the long lengths and there is usually more or less left from the widths to help in cutting out the fronts of the bodice and even sometimes the whole back may be secured out of the waste widths.

Paris is sending over quantities of pompadour silks and is insisting upon their being used for Louis coats and slips under mousseline and chiffon evening frocks.

Neatness of coiffure is an essential of good dressing. The way to do the hair is to wave it by rollers overnight or marcel on a hot iron. After this is done the whole hair is drawn tightly

EMPIRE DRESSING JACKET.

to the top of the head, where it is caught in a flat figure 8, which is pinned down close to the head.

Empire styles have invaded the realm of the dressing jacket. The picture depicts a charming matinee in this style. A modish note is struck in the exceptionally long skirt which reaches almost to the knees.

JUDIC CHOLLET.

ODDS AND ENDS.

Fall Hats Set Flat on the Head—The Torpedo Toque a Favorite Shape.

Fall millinery is less freakish than the spring headgear, and the new models sit flatly on the head and do not rise to such towering heights in the back.

The torpedo toque is a favorite new shape, very suitable for wear with tailor made suits. As usual, feather turbans in white and shaded gray appear on the heads of modish women. These hats are particularly good for motoring, as the feathers shed the dust and when draped with a gray veil they are smart and comfortable.

Black picture hats for dressy wear are the approved of Dame Fashion.

BLACK FELT TOQUE.

They are elaborately trimmed with jet and handsome black ostrich plumes and ospreys.

White felts hats are made up with brown velvet and wings, and another stunning combination is a stiff white felt simply swathed with plaid silk.

Black materials are especially attractive this season. In the thin fabrics stripes figure as a smart design. In crape or chiffon they show alternate lines of satin and velvet.

The newest thing in separate coats are the woolen plaid ulsters made with full capuchin hoods. This hood is lined with satin matching the ground work of the plaid. The fronts are loose and double breasted, fastened with large metal buttons. The back has a center bias seam so curved as to suggest an empire waist line. The skirt is full and of three-quarter length. The sleeves are full leg o' mutton affairs.

The toque illustrated is of black felt. A smart jet buckle holds the folds in place, and an elegant green ostrich plume is the only other trimming.

JUDIC CHOLLET.

Preventics, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage." Preventics are toothsome candy tablets. Preventics dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventics are thoroughly safe for children, and is effectual for infants also and recommended in 5-cent and 25-cent boxes by J. D Tully.

POPE PLEASED WITH SBARRETI'S REPORT

Rome, Oct. 5.—The Pope today received in private audience Monsignor Donato Sbarretti, the Apostolic Delegate in Canada, who arrived here yesterday.

The Pope was much pleased at the delegate's report of the condition of the Church in Canada.

London, Oct. 5.—The Pope today received in audience Monseigneur Sbarretti, the Canadian delegate. After hearing the Canadian representative, who gave an account of the great progress of Catholicism in England, the Pope remarked that the time was approaching when the whole of North America would be mainly Catholic in religion.

Workmen Get a Bad Scare.

Quebec, October 4.—Some eighty men who are employed in the work of attempting to raise the steamer Bavarian, and who were at work on board the ship, had a bad scare on Saturday morning, when the ship gave a heavy lurch. The time that she is about to slide off the rock and land most of the workmen would be dead. The rock still holds up the plucked hull, however, though many of those on board were too much afraid to go to bed again.

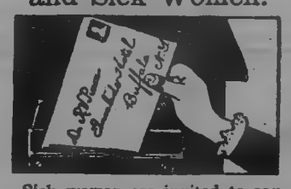
Canadian Women Drudges.

London, Oct. 4.—Miss Ellis Barrington, in the Morning Leader, declares that Canadian farming women have been taught to expect nothing from the position of wife but to be drudges of the money-earners and raisers of large families. The true Canadian farmer treats his wife as a thing to be used hard until she is done, and she expends her sympathy on unmarried girls who go to Canada as helps.

Colonials Absurd and Selfish.

London, October 4.—The Financial Journal, commenting on Goldwin Smith's letter to the Manchester Guardian, says it shows how utterly absurd and selfish are the views of some colonials on tariff reforms.

A Letter to Dr. Pierce is the First Step to Health for Weak and Sick Women.



Sick women are invited to consult Dr. Pierce, by letter, free, and under seal of the strictest privacy. In a little over thirty years of practice as chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., Dr. Pierce, assisted by his staff of nearly a score of physicians, has treated and cured over half a million women. Address Dr. R. V. Pierce, Buffalo, N. Y.

Offers of "free medical advice" made in imitation of Dr. Pierce's offer of *free consultation by letter* are advertised by persons who are not physicians, and are not qualified to give medical advice. Every woman should consult her own safety by careful inquiry into the genuineness of such offers.

There is no offer similar to Dr. Pierce's, which has behind it an institution of national note, such as the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., with its staff of nearly a score of physicians, presided over by a specialist of Dr. Pierce's experience and success, in the treatment and cure of diseases peculiar to women.

How Other Women Have Been Cured.

"I suffered untold misery for many years with uterine trouble," writes Mrs. Mary R. Wilcox, of Emo (Rainy River), Algoma Co., Ont., "until I commenced taking Dr. Pierce's good medicine and used the local treatment as advised. I took two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' I also sent for one box of your 'Antiseptic and Healing Suppositories.' I have only used two and that was two months ago. I would advise every woman who suffers from ulceration of the uterus and piles to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' They are the best medicines in the world. Also write to Dr. Pierce for his fatherly advice. I have felt better in these past seven months than I have for years. Every month I used to have to go to bed and have hot poultices and take laudanum to ease the pain. I don't go to bed now nor do I take laudanum."

"I have used your medicine as you directed," writes Mrs. Caroline Hammec, of Hammec, Escambia Co., Ala. "I have only used one bottle of Dr. Pierce's Favorite Prescription and in connection I used one bottle of 'Golden Medical Discovery.' Six doses a day, three of each, and sometimes I used the tablets as you directed. I feel well. I am hard at work and have been for some time. I had been under a good doctor five years for this same disease and you see how quick your medicine cured me."

"About a year ago I had a mishap which left me in very poor health for some time afterward," writes Mrs. Cene Johnson, of Gordon, Sheridan Co., Nebr. "I employed a local doctor but got only temporary relief, until I commenced using Dr. Pierce's medicine, which I did after consulting you. I am now as well as ever. I took five bottles of the 'Favorite Prescription' and one of the 'Golden Medical Discovery.' I would recommend these medicines to all who suffer as I did."

If you are sick or ailing take advantage of Dr. Pierce's offer of free consultation by letter and write today to Dr. R. V. Pierce, Buffalo, N. Y.

WEDDING STATIONERY

WEDDING ANNOUNCEMENTS are always in order. The season for the final result of being a disciple of Cupid finds expression in the Hymeneal ceremony at the altar—that occasion when "two hearts that beat as one" are joined together—pronounced one.

For this auspicious occasion the printing must be chastely dignified—must be appropriate in appearance to this one time of life when everything "best" is donned—when happiness reigns supremely.

Marriage Announcements
Marriage Invitations
Marriage Reception Cards
Post Nuptial Reception Cards

All of these we are able to supply in a proper form and printed artistically. Our work is conducted under the supervision of skilled typographical mechanics and may be unhesitatingly presented to the most fastidious critic.

Our charges for such work are moderate—yet good printing is ever valuable. However, we give quality for our figures, and an order entrusted to our care will be speedily, carefully and satisfactorily executed.

No work can be well done which has to be done hurriedly. Time is necessary for the accomplishment of faultless printing. We will fulfil all expectations if given ample time for completion.

In a MATURED MINE

NOT A PROSPECT

Mines are located in the greatest producing and dividend paying camp in the United States. This district leads the world's increase in the copper out-put today.

THE FEDERAL GOLD & COPPER MINING COMPANY

Owns nine full claims or 180 acres in the heart of the greatest mineral zone in Beaver County in Beaver Lake Mining District. There is not a dollar's worth of indebtedness against the property in any way, shape or form. The company has worked 10 to 25 men constantly for eighteen months. Mines are equipped with best of machinery. We have one vein of copper 12 feet wide, do not know how deep, which assays from 8 to 15 per cent. copper, $6.00 in gold, and from $1.00 to $2.00 in silver. Still another ore body of unlimited size. The following noted mines adjoin the Federal Company's mines. The famous Horn Silver, a producer of over 80 millions, and which has paid its shareholders over 6 millions; the great Cactus, which adjoins us, is estimated at 100 millions; the wonderful O. K. mine, which adjoins us, which made the largest shipment of high grade ore ever made in the world—18 carloads or 1,200 tons—every ton of which went over 45.5 per cent. copper, $5.00 in gold, and $1.00 in silver, and comes out above the 100 foot level. Can make no estimate on this property: they have 2 million tons ready for shipment. Taking all into consideration, from what our neighbors have produced and from what we have actually in sight, the investor now is taking no chance in any way, shape or form, only that he will more than double his investment ten times in the next six months. We are only offering a limited amount of shares. We need probably twenty to twenty-five thousand dollars more to complete our plant, and without a shadow of doubt will place ourselves in the dividend list before the close of 1906.

One of your worthy citizens of Toronto, Ontario, is a stockholder in our company. His friends were out and saw our mines. Ask what he will tell you about the Federal Company's mines. Mr. J. A. Modell, 250 Markham street, Toronto, Ontario.

MOTHERS MUST HAVE ABUNDANT STRENGTH

No Mother Can Bear a Healthy Child Unless She is Strong Herself.

A woman's anxieties multiply tenfold about the time the new baby is expected.

If her strength is exhausted and her blood weak, it goes hard in the hour of trial.

Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story—of her own case—told that other woman may profit by her experience:

"Before baby was born I was in a weak, miserable, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers."

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll be benefited in a thousand ways.

Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six for $2.50, at all dealers.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted at Once.

A Good Laundress. Apply at Nicholls Hospital.

Deer Hounds For Sale.

The undersigned has four experienced deer hounds for sale. For full particulars and prices write to W. H. McCallum, Fenelon Falls.

Ald. Stewart on a Hunting Trip.

Ald. W. T. Stewart, Toronto, who has the contract for roofing the new north ward school, leaves next week in his schooner, Maple Leaf, for the Long Point shooting grounds on Lake Erie. He will take a party and make his headquarters at Gravelly Bay.

Capt. McAmmond to Attend Congress

Capt. McAmmond will attend the large meeting of Salvation Army officers to be held in Toronto from Oct. 10 to 15.

The congress will be attended by about 300 officers from the Province of Ontario. Big mass meetings will be held in Massey Hall on Sunday, Oct. 14th.

Cases at Monday's Assizes.

Only two criminal cases will be tried at the fall assizes which opens on Monday. M. Morrison will be tried for picking pockets at the Peterborough exhibition. He was sent up for trial by Police Magistrate Dumble a few days ago. D. O'Connell is looking after interests of prisoner. The other case is that of Crown vs. Thorp. He is charged with having broken into the premises of the Port Hope Knitting Works, and stealing some money last July.

Low Rates to the West via Great Northern Railway.

Effective daily until October 31st, inclusive, cheap one-way Colonist rates will be in effect from all stations in Ontario to all points on the line of the Great Northern Railway in the States of Montana, Idaho, Oregon, and Washington, also Vancouver, Victoria, Nelson, Rossland, and other points in British Columbia. Full particulars on application to H. E. Watkins, General Eastern Canadian Agent, 10 King street east, Toronto.

THE NEW TERM

at the

PETERBOROUGH BUSINESS COLLEGE

opens on

TUESDAY SEP. 4, 1906

Intending students should make application as soon as possible.
Call at the College or address

WM PRINGLE,
Opposite Post Office. Principal.

LOCAL INCIDENTS

By The Times Man on the Street

—Fully 800 went down to Millbrook fair yesterday from this city.

—The fall assizes open on Monday with Mr. Justice Britton presiding.

—Mr. W. H. O'Flynn's summer residence at Moira Lake, has been destroyed by fire.

—Harry Direct, Mr. H. Nesbitt's fast horse raced at the Millbrook Fair yesterday.

—The Collegiate Institute sports held yesterday were well attended and well run off.

—Yesterday afternoon the largest collection of local horsemen seen together for some time, went to Millbrook.

—Yesterday the G.T.R. platform was absolutely crowded with many hundreds of local citizens who took in the Millbrook Fair.

—The T.V.C. lift lock at Kirkfield is about ready and a trip will be taken over it this fall by the Minister of Railways and Canals.

—Rev. J. C. Davidson, rector of St. John's church has been re-elected president of the local ministerial association at their meeting held yesterday.

—It is rumored that a Chinese restaurant is to be opened up on George street. Dog owners take notice and also those who tie a silver bell or tabby had better keep their pets within gates.

—King of hard to ask six boys to own one hundred yards, stop and divide a few figures, run another hundred yards with their replies to find on arrival their "grave and reverend seignors," the teachers had still a lesson to learn in long division.

—Yesterday at noon Mr. H. P. Kennedy's team of greys attached to his delivery wagon, taking the kits in their teeth left the corner of Aylmer and Charlotte streets and started off at a 2.17 1-4 gait, which they kept until the Little Lake cemetery was reached. The wagon was slightly damaged.

English Farm Laborer Complains

Yesterday a well dressed and sturdy young Englishman, who has for over six months been working with a farmer in North Monaghan, and a township councillor at that, complained to a Times representative of the, alleged mean treatment accorded him.

This young man, who desired his name withheld, stated that a little over six months ago he had engaged with this councillor at $15 a month on the understanding that during harvest time he was to get harvesters wages viz., say $40 a month. During the whole six months, he only got $5 in cash and was only able to get a settlement with his employer by quitting the job, thus necessitating a settlement. This settlement resulted in his getting wages at only $15 per month for the whole time he worked. He said that his hours of work were from daylight or about four a.m., until about nine p.m.

If the foregoing of this station cat as is alleged by this Englishman, they will kill the goose that lays the golden eggs, as far as English labor is concerned.

Mr. Wm. O'Brien Is Laid at Rest

Yesterday morning the last mortal remains of the late Mr. W. O'Brien, whose sudden death at Hogan's Hotel, east ward, was noted in a former issue, were laid to rest yesterday morning. The funeral was held from the residence of Mr. Patrick Kennealty, Crescent street, to St. Peter's cathedral, and thence to the Roman Catholic cemetery. Rev. Father Kelly officiated at the cathedral and Rev. Dr. O'Brien at the grave.

The pall bearers were Messrs. M. Kennealty, Keane, John Condon, Wm. Collins, Con. Halpin, Patrick Hogan and John Stewart.

When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips mean feverishness, and are as well all appearing. To have beautiful, pink, velvet-like lips, apply at bedtime a covering of Dr. Shoop's Green Salve. It will soften and heal any skin ailment. Get a free, trial box, at our store, and be convinced. Large tucks' capped glass jars, 25 cents. J. D. Tully.

Parlor Cars on Local C.P.R. Trains

After Monday next, October 8, the Canadian Pacific Railway attach luxuriously appointed parlors cars to their trains leaving at 4.15 p.m. daily for London and intermediate stations, and at 5.00 p.m. daily for Peterborough. These cars will return from London at 8.43 a.m. and from Peterborough at 8.00 a.m. daily. Reservations should be made at the C.P.R. city and depot ticket offices.

There's a Reason For

Grape-Nuts

Read "The Road to Wellville," in pkg

SOCIAL AND PERSONAL

—Mrs. W. F. Stubbs of Galt, is visiting friends in the city.

—Mr. H. Seabrook of Havelock, is visiting friends in the city.

—Miss Sarah Laurenceson, of Port Hope, is visiting friends here.

—Mr. N. McBrine, the local telephone "trouble" expert, took in the Millbrook Fair yesterday.

—Mr. Jordan, florist, was in Millbrook yesterday officiating as judge of flowers at the fall fair.

—Edward Barton, Basso, soloist at Carlton street Methodist church, Toronto, will sing at St. Andrew's church tomorrow.

—County Councillor Garbutt of Lakefield, passed through the city yesterday on his way to the Millbrook Fair.

—Mr. and Mrs. E. C. Howson, of Peterborough, spent Sunday with their daughter, Mrs. G. W. Buck.—Norwood Register.

—Mr. C. Gordon, overseer of the Trent Canal, and Engineer Clegg, both of Peterborough, were in town yesterday.—Lindsay Post.

—Mr. W. J. Morgan, who disposed of his barbering business some time ago, is now in Winnipeg, where he is employed in a large shop.

—Miss Maud Porter returned home on Friday, after a pleasant visit with her aunt, Mrs. W. H. Mitchell, Peterborough.—Millbrook Mirror.

—Miss K. E. McCarthy, of Peterborough, and Dr. Kimmit, of Chicago, Ill., were the guests of Mr. W. Shea, on Sunday.—Norwood Register.

—Messrs. H. Winch, Dr. Johnston, Martin Connors, R. J. Munro, H. Nesbitt, and several other local horsemen took in the Millbrook Fair yesterday.

—Mr. and Miss Hatton, Charlotte street, yesterday afternoon held an "afternoon tea," in honor of Mrs. (Dr.) Ed. Hatton, of Grenada, St. George's Island, W.I.

—Ted Burnham left on Monday to take up his new position on the staff of the Ontario Bank, Peterborough. We all wish Ted every success.—Millbrook Reporter.

—On Monday Mr. Peppas, the George street cigar man, with Mrs. Peppas, leaves for Toronto, London and Brantford. He is arranging to open a large branch store and billiard room in Brantford, where he has already leased a handsome store.

Demetre's New Restaurant Opened

Today another restaurant will open in the city and one that will doubtless attract much patronage, especially among those who like well cooked meals, served in perfect style, amidst pretty surroundings.

Messrs. Demetrie Bros., some months in addition to their high grade confectionery stores at Montreal, Toronto and Kingston, opened their splendid confectionery store at the corner of George and Charlotte streets. This enterprising firm today open a fine new restaurant adjoining the confectionery store, and to the rear. This is entered either from Charlotte street or from the back of the confectionery store.

This new dining room has been entirely refitted and refurnished. The walls are finished in panelled handsome hardwood to about five feet in height, the panelling is surmounted by heavy bevelled plate glass, above which to the ceiling a very handsome paper makes the room bright and cheerful in appearance. A heavy expensive linoleum covers the floor. There will be eight tables for diners which will be covered by high grade linen and the best of silver, glass and cutlery. A long shelf along the west wall will enable the waiters to hasten orders. A swing door between kitchen and dining room will enable diners to get their meals in quick time, not from the stove. Messrs. Demetrie have engaged the services of one of the best chefs in the country and will supply their tables with only the best the market provides. This new addition to Peterborough's public dining rooms will be just the place for curlers and others to drop in and get a luncheon steak, well served oysters in every style or what ever they desire.

A Delightful Winter Resort.

It is announced that this year the Canadian Pacific Railway Company's fine hotel at Caledonia Springs, Ont., will be kept open for accommodation of visitors all winter. The company has great faith in Caledonia Springs as an all-year-round resort, something better than a mere summering place, and this action will without doubt be appreciated by many people to whom the Springs have been hitherto closed more than half the year owing to lack of accommodation.

Piles quickly and positively cured with Dr. Shoop's Magic Ointment. It's made for Piles alone—and it does the work surely, and with satisfaction. Itching painful, protruding or blind piles disappear like magic by its use. Large, Nickel Capped glass jars 50 cents. Sold and recommended by J. D. Tully.

Local Clergy at Wycliffe College.

Rev. E. A. Langfeldt, of St. Luke's east ward, has been elected treasurer for the coming year of Wycliffe College alumni. Rev. Canon Davidson read a paper before the alumni which was greatly appreciated. Canon Cody and Prof. Norman Andrews, of Brantford Conservatory of Music, also contributed brilliant papers. Premier Whitney gave an address before the alumni.

New Magistrate for East Durham.

Mr. R. H. Holland, of Port Hope, has been appointed as police magistrate for the east riding of Durham. Heretofore Mr. Holland only had the power of a justice of the peace outside of Port Hope, and had to send all criminal cases to Cobourg for trial.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherry bark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, with alcohol.

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

Coal Dealers are Under Discussion

In view of what is considered by more than one local citizen as a coal combine in Peterborough, it is interesting to note that the Port Hope High School Board this week, when examining coal accounts, gave the coal dealers of that town a raking over. It seems that some of the dealers had charged for weighing while others had not. The bills were passed with the charge for weighing deducted in each case. Some members of the board thought that in future it might be well to advertise for tenders for coal as dealers in Cobourg might supply it cheaper than the Port Hope dealers. They said that the public buildings in Port Hope obtained coal cheaper than the High School Board could buy it. One of the members of the board said that he had bought coal from some one who had imported a car load and it only cost him $6.10 a ton.

Why does not some local citizen take up the subject of the seemingly extortionate prices charged here?

HUNTERS' EXCURSION

The fact that the C. P. R. line runs for so many miles through ideal hunting lands, where moose and deer and smaller game galore, man's size, await the advent of fall, and the accompanying guns and dogs, is, of course, the principal reason why about this time of year the enthusiastic sportsman turns to the well known yellow covered folder, and studies time-tables and maps so industriously. Hunters excursions are round again, and single fare will soon be the order of the day. The C. P. R. announces that from October 9th to November 6th, return tickets to all stations on their main line, Mattawa to Port Arthur, and Mattawa to Temiskaming and Kipawa, will be on sale at single fare, and from October 25th to November 6th, tickets at the same low rate to stations on the Lindsay branch, stations between Sudbury and the Soo and Havelock and Sharbot Lake. All tickets will be good to return until December 8th, with stop-overs allowed anywhere. Special steamship rates to the Soo and Port Arthur will also be in effect. Intending hunters should make a point of calling at the nearest C.P.R. ticket office for further information and for copies of "Fishing and Shooting," "Sportsman's Map," and "Open Seasons and Game Laws," all of which are of particular interest and use to sportsmen, and are free for the asking. C. B. Foster, District Passenger Agent, C. P. R., Toronto, will gladly mail them to any address, if difficulty is experienced getting copies.

COAL

A Second Crow's Nest

Coal is actually today the greatest commodity of the world. With coal we run our mills and factories and our great railroads; with coal we propel our ships, provide our navies, and warm our homes, with coal we generate and produce electricity, with a few exceptions, where water power is available, but there are not very many Niagara Falls, however, with coal we produce iron, copper, lead, silver, gold, and all other metals that we need, and must have, because all of those metals are to be found mixed in with the rock and in the ore.

Without coal we could not make coke, and coke made from a certain kind of high-class bituminous coal is the only fuel yet known to man that produces a heat intense enough to melt ore and hard rock into a liquid, by which process we are enabled to extract the metals we need.

England would not be the great world-power she is today if it was not for her inexhaustible supply of coal.

Coal is the basis of all industrial and commercial wealth.

Coal mining in British Columbia has always been a great success. It is a great deal like diamond mining in South Africa—a bonanza of the first magnitude.

The great mountain barrier of the Rockies shuts out the eastern coal, leaving the great Pacific coast to be supplied by the British Columbia fields, excepting a small tonnage from the State of Washington of a very inferior quality; in fact, so poor that the United States navy of the Pacific division get all of their supply from the Dunsmuir Coal Mines on Vancouver Island, and pay the duty on it, but neither the Washington nor the Vancouver Island coal is of any use for furnace and smelters coke, because the coal from both of these places contains a great deal of sulphur, and does not make good smelters coke.

Nevertheless, Dunsmuir made millions after millions every year from mining coal, and died a few years ago the richest man in Canada. He made it all from coal, and his mines will be productive for generations to come, and are worth more today than thirty-five years ago, when first opened up.

OPPORTUNITY.

To see it, and grasp it in time, makes a man the master of his destiny. DO YOU WANT TO MAKE MONEY HONESTLY, AND LOTS OF IT? Would you like to become interested in a coal proposition in British Columbia, and make $10,000 in three to four years from now on an investment of $250.00? We offer you the opportunity to do this.

You have $200.00, $500.00 or $1,000.00 or whatever the case may be, in bank, drawing 3 per cent. interest yearly. Does this satisfy you, when you can many times double your money in one year in an investment like this we offer you?

PUT YOUR SAVINGS IN COAL. It is safe, and as good as Government bonds. There are no "ifs" about coal mining. There never was known a failure in coal in British Columbia, if quantity and quality and shipping facilities were assured, and the business was managed right and honestly.

The price of coal and its commercial value is always advancing from year to year, whereas the demand is increasing enormously every year.

Millions and millions of dollars have been made in coal mining year after year by all those engaged in the business, and to prove this we refer to the statistics on hand for the year 1905, where it is shown that nine of the leading bituminous coal mines in the United States and Canada made the enormous profits of $87,180,067 (one year's earnings).

There is no field of investment more absolutely safe and profitable than coal mining.

We now offer to the public 100,000 shares of the British Columbia Amalgamated Coal Company's treasury stock at the low rate of

TWENTY-FIVE CENTS PER SHARE.

The par value of this stock is one dollar, and is fully paid and non-assessable, and shareholders are exempt from personal liability. Once paid and secured it is settled for ever.

This Amalgamated Coal Company controls 17,500 ACRES OF COAL LAND in Nicola Valley, B. C., and, according to coal experts' reports, this great area is underlaid with inexhaustible quantities of high-class bituminous coal, the best for steam, blacksmithing and cooking purposes, estimated to contain approximately 1,400,000,000 TONS OF COAL.

TWO RAILROADS.

are now building into the Nicola Valley, the Canadian Pacific and the V., V. and E. (Great Northern), and the C. P. R. has already constructed and completed a line from Spence's Bridge, on Thompson River, to Nicola Lake, a distance of about fifty miles, whereas the V., V. and E. are rushing the work as fast as money and labor can do it, and it is expected to reach Nicola by Christmas.

This is certainly a rare opportunity for the small investors. For $250.00 you can now buy 1,000 shares of Amalgamated Coal Stock, which in a few years may pay you a yearly revenue or income of $10,000 figuring the dividend at $10.00 a share (the Crow's Nest Pass Coal Co. paid a dividend last year of $10.00 a share). This is an illustration to show what a few hundred dollars invested in coal stock means to investors. The Crow's Nest stock was offered to the people in the year 1896 at ten cents a share, and is today worth over $300.00, or $300,000 for 1,000 shares. You can get 1,000 shares of our stock today for $250.00, which may be worth as much as the Crow's Nest is today if you hold it long enough. Do you realize what this means for you? That the British Columbia Amalgamated Coal Company's stock will reach the $100.00 mark in from six to seven years from now is the belief of those who have seen and examined the properties and are familiar with the local condition in that country. Get in on the ground floor. Act quickly, and do it now. Do not ask your neighbor for his advice. Use and act on your own judgment. It will soon be taken. Call early or write, and we will give you any further information that you may desire.

BETTER THAN LIFE INSURANCE.

A source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a wife? A dear child, a sister, brother, or friend, whose welfare you have at heart? If so, why not invest $50, $100 or $200, or any sum you can afford, in this coal stock, and get a certificate issued in their names; that will give them an income for life.

TWO YEARS FROM NOW

the stock should begin to pay handsome dividends, and in another year or two may have a cash valuation on the market from the dividends it then will pay of at least $10.00 per share. This calculation is based on sound and conservative business judgment, and on well-tried laws of natural growth. It is quite safe to say that when the Amalgamated Coal Company shall have fully equipped its four properties on Cold Water River, in Nicola Valley, B. C., and has built up a market for its product, and can produce coal and coke on a large scale, which may require six to seven years to accomplish (taking the Crow's Nest Coal Company, as an example), this stock should then be worth on its own merit, from the dividend it then will pay, $100.00 per share.

Opportunity knocks once at every man's door. To see it and grasp it in time is the keynote to success and wealth. This is meant for you. This is your greatest opportunity.

Fathers, mothers and guardians, who have the welfare of your children at heart, and want to provide for their future needs, write us for information, and investigate our proposition carefully. You will thank us later for the advice given. Ask or write for printed prospectus and reports, etc. We will show you samples of the coal and of the coke, and the assays of the coal from Government officials and other authorities.

RECOMMENDED BY BANKERS AND MERCHANTS.

as the safest and best investment on the market today which is being offered to the public at large. We want men and women of moderate means to get interested in this great enterprise, and get in now, on its first inception.

Remember, for $250.00 you will get one thousand shares of Amalgamated Coal, which will secure for you and your family a source of income, and may make you independently rich. Remember, 1,000 shares of Crow's Nest Pass Coal is today worth $300,000, and brings a yearly revenue of over $10,000.00.

We cordially invite you to call at our office, No. 61-62 Confederation Life Building, Toronto. If you cannot call, please write us, and we will mail you prospectus, reports, maps, etc., that will state facts and will give you all the information you may desire.

HAMILTON TIGERS EAT UP THE LOCAL TEAM

A Splendid Exhibition of Rugby, Watched by Record Crowd—Locals Defeated by 38-0

Saturday brought in a more or less continuous drizzle of rain, a packed grandstand and hundreds of excited patrons of the great fall game watched the Tigers devour the local football team on Riverside Park.

Whilst it was feared that the rain would spoil the great game the attendence was the largest ever seen on Riverside Park.

The ground was thoroughly saturated and many falls were in evidence owing to the slippery state of the grass. From the first kick off until the final whistle blew the game was strictly Hamilton's, the ball being very seldom out of Peterborough territory. The Tigers are a heavier lot of men than the locals and displayed much better knowledge of the scientific points of the game, more perfect tackling, more trained team play, in short they showed every token of perfect training and less desire for individual play than the white and blues. The locals however, considering this was their first big game in the senior class and the short time they have had in team practice, put up a noble game. The tackling of the home team was very effective, many a "Tiger" being quickly checked and brought to ground by a local man, often much lighter to build. Hurtubise did some effective tackling, using a strangle-hold that effectually stopped his man when grabbed. Taken as a whole, Gillespie did the star work of the day for the home team, and was always on hand when and where wanted. Crowley also put up a great game.

The game although played as for blood, was a splendid display of gentlemanly athletics, little or no dispute arising from start to finish. In the first half as Marriott, of Hamilton, was rushing to make a touchdown, he unfortunately ran into one of the Peterborough goal posts and was knocked senseless, his upper lip being badly split and his face otherwise marked, he was compelled to quit the game, a substitute taking his place. Gillespie was also somewhat hurt, but not seriously.

The officials of the game were Messrs. Beaudry, Capitte, McArthur referee, and J. B. Hay, time keeper.

Only three players were sent to the fence, one Hamilton man and two of the locals.

The splendid work done by the local wing line evidently prevented the tigers from running up a much larger score. In the second and third quarters the locals got in the game and played much better, holding the visitors safe nearly all the time and their scores in this period resulted from a fumble inside the line, which gave the visitors a touch, which they converted and three kicks over the dead ball line and a rouge. The visitors' scores were made up of 5 touches, 5 converts, one drop kick, two rouges and three kicks over the dead ball line. The stars of the visitors were Ben Simpson and DuMoulin of the back division, Lyon and Marriott of the line, while the shining lights of the locals were Mulhern, Gillespie, Orsig, MacWilliams, Meagher and Crowley.

The teams were:

Peterborough — Mulhern, full-back; Ford, left half; MacWilliams, rouge half; Gillespie, right half; Easson, quarter, Hartubise, snap; Craig, Lecleire, inside wings; Meagher, Regan, middle wings, Crowley, Crough, outside wings.

Hamilton — Pope, full-back; Simpson, left half; DuMoulin, rouge half; Moore left half; Ballard, quarter; Farron, snap; Murray, Craig; Inside wings; Burkholder, Inwater, middle wings, Lyon, Marriott, Kirkpatrick, outside wings.

The scores were 25—0 in favor of Hamilton at half time and 28—0 against the locals when the last whistle sounded.

Utah's Wonderful Mineral Wealth

Rare Opportunity to Secure Stock in Good Mine on Ground Floor.

As is generally known Utah, within the past few years has come rapidly to the front among the rich mineral producing States. Whilst gold, silver, lead, copper and antimony are found all over the State, the great mountain ranges of the Wasatch that divide the State from north to south has been the chief field of successful mining operations.

In this rich mineral district the Santa Maria mine, consisting of 16 claims of 20 acres each, along with a 40-acre town and mill site, situated on the west slope of the Sierra Madre mountains, and within two miles of the Southern Pacific and Oregon short line stations at Hot Springs, has been acquired and partly developed by the Santa Maria Gold and Copper Mining and Reduction Company of Ogden, Utah, incorporated under the laws of the State.

There are eight mineral lodes on the property, which show rich ores in gold, silver and copper. A tunnel has already been driven in 600 feet to the contact from which point work will be driven to the right and left of the contact vein. The Eldorado (Extension), of this group is rich in silver and lead, the lead values running from five to forty per cent., and its silver from five to forty ounces per ton with gold from one to two dollar per ton. The other veins are even richer than this noted.

The company is incorporated for $500,000, with 500,000 shares of a par value of $1 each, non-assessible, with 200,000 shares in the treasury at time of organization. It is possible for a limited time only to secure some of the stock at 40 cents per share, which will undoubtedly soon raise in value to par or over.

For full particulars in o the Sierra Madre Gold and Copper Mining and Reduction Co., Ogden, Utah.

Mr. and Mrs. McAmmond's Farewell

Yesterday in an ereating but sad ceremony was held in the local barracks, when Capt. and Mrs. McAmmond made their farewell to the local corps, with whom both were popular.

During their fifteen months in this city, Staff-Capt. and Mrs. McAmmond have made themselves much beloved by not only the members of the Army, but by the citizens with whom they have come in contact. With his wife he will leave here on Wednesday for Toronto, to attend the Officers' Congress in that city. Ensign Comstock, who has been assisting the officer in charge for the last five months, also bid farewell yesterday. As yet the Staff-Capt. has received no orders as to his future movements, nor has he been advised as to who this successor is to be. On Sunday the was furnished with a list of the important corps in which changes are being made at the present time, and they are Monorail, Peterborough, London, Brantford and Kingston, and the Staff-Capt. has been stationed at all these cities.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

RUGBY.

Mr. J. B. Hay of the Toronto News, secretary of the O.R.F.U., was an interested spectator at Saturday's game.

• • • •

In conversation with Mr. Seymour, president of the Hamilton Rugby team, that gentleman informed a Times' representative of his high opinion of the Peterborough team. He said the whilst the score was so very one-sided, that Peterborough has good material and some splendid players. He was particularly enthusiastic over Gillespie's playing. He said that Peterborough could hardly, at this stage of the season hope to play with Hamilton, as the members of that team are continuously in practice, both individually and in team work, he expressed the opinion that Peterborough will beat the Argonauts.

• • • •

RUNNING.

Still another has sent in his application to be a candidate for the Examiner Road race. This is Mr. A. Latimer, and now makes the sixth competitor already entered.

Must Preserve National Probity

London Paper Thinks Our Position With United States is Dangerous.

London, Eng., October 1.—What an unpleasant taste the Canadian administration scandals have left in English mouths is evidenced by a significant editorial in The Standard.

It cordially supports the Canadian plea that, leaving England to undertake the charge of the general defence, Canada will better fulfill her duty towards the empire by digging deep the foundations of true national prosperity than by any cash contributions towards Imperial defence, and concludes in words which may well be inspired by Ramsay Macdonald's comment on the fateful struggle quietly proceeding in Canada between British and American ideals of public life.

The Standard says:

"Here is no matter for bargaining. We are to take a generous people at their word. We need not fear that in time of stress Canada will be found lacking.

"In the meantime we, on our part, have this to demand from Canada. It is an essential condition upon which the whole future depends. It is that Canada preserve rigid probity in public administration. While it is true that, owing to extraordinary apathy in successive governments in this country, we neglect to use our unexampled opportunity of emigration, we cannot view without certain apprehension the influx of Americans into Canada. The American ideal of government is perfection. Its practice is notorious. Hence it is that American immigration even American continuity contains constants fruitious peril."

Belleville Train Was Delayed

The G.T.R. Belleville train that connects here for Toronto, was delayed on Saturday morning owing to an accident, a mile and a half this side of Campbellford. The trouble was caused by a broken truck of a freight train, jumping the track, thus dragging other cars with it.

About six o'clock Saturday morning the Lakefield train, which was in the city at the time, was sent to the scene of the accident, and the passengers were transferred, arriving in Peterborough, about an hour late.

This delay necessitated a matinee that was to have been given in the local opera house cancelled, as the company that was to have played had their baggage aboard the delayed train, and could not be transferred in time.

Italian Women Storm School

Wanted to Investigate Medical Examination of Children.

New York, October 6.—Believing that the "murder doctors," as they called the board of health physicians, were cutting the throats of their children in a public school in the Williamsburg section of Brooklyn, 1,500 women, nearly all of them Italians, stormed the school building today in a mad effort to reach the little ones. Before the riot had been quelled, several policemen had been seriously injured by the women, and one of the rioters had been arrested.

For several days physicians of the board of health have been examining the eyes and throats of the pupils. A contagious affection of the eyes had spread from the homes of the Italians in the vicinity of the school, and the doctors were directed to make an investigation to learn the cause and to exterminate the disease. The schools were locked on the arrival of the women, and the police called.

The examination by the health officers in the public schools will be temporarily discontinued.

Americanization of the North-West

Englishmen Fear That British Subjects Will Be Closed Out.

London, Eng., October 8.—The London Globe shows the state of nerves in which, despite Strathcona's comforting assurances, many Englishmen still are, over fears of the "Americanization" of the North-West, and devotes an editorial to the action of the Canadian Government in allowing American farmers to acquire lands in the North-West without taking the oath of allegiance and without becoming British subjects. It admits that emigrants from the States are good farmers, and says:

"It is absurd and unjust that while men are clamoring in England for a chance of getting back to the land, that aliens, however desirable, should be allowed to take up property while still subjects of another State. It is a matter which needs to be enquired into."

Clergymen Live Too Long.

London, October 8.—Dr. Scofield, a well-known physician, in the second lecture of a series dealing with the science of life, uttered the dictum that there is great danger in any sudden change of environment after a certain age. That is why, he said, business men, who retire and go to the seaside to live die so quickly after they make the change. He added that marriages between healthy cousins have no drawbacks. Clerks are the only men who live as long as they ought to. Clergymen live twenty or thirty years longer than they ought, while doctors die before their time.

Six are Sentenced to Death.

St. Petersburg, October 6.—An unreported mutiny of the Twenty-first East Siberian regiment, which distinguished itself in several battles in Manchuria, has been disclosed by the verdict of a court martial held at Blagoveshtchensk, Asiatic Russia, which has sentenced six of the ringleaders to death, three others to hard labor and nineteen to serve various terms in disciplinary battalions.

POLICE NEWS

Daily Happenings in Court Room and Station.

On Saturday three drunks were lodged in the Hotel des Cops, viz., John McManus, arrested by P. C. Adams; Hugh Gibbs, by P.C. McGinty, and Sheehan, an old loan man, arrested by P. C. Meharry, who, seemingly from the effects of alcoholism was very sick, and who declared he was going to die, was sent to St. Joseph's hospital last night. The other two men were allowed on an order of the police magistrate to go on their promise to appear at this morning's police court.

Have to Land Strong Force

Owing to the Refusal of Cubans to Lay Down Arms.

New York, October 6.—Sixteen ships under charter by the United States government are moored at docks in Brooklyn, waiting orders, which are expected at any moment, to sail to Cuba or a southern point to take supplies or serve as transports for soldiers.

There are twenty ships in Brooklyn awaiting orders to sail. Work is being rushed—day and night—on the receiving ship Hancock at the navy yard, under orders to have her ready to sail as soon as possible.

Despatches from Havana state that while the Cuban insurgents express confidence in the good faith of the United States, the rank and file under Generals Pino Guerra and Del Castillo are unwilling to lay down their arms.

It is considered certain that the United States will have to land a strong force in Cuba to preserve order.

Dickson Co. Buy Mill at Lakefield

Hull's Mill to be Enlarged and Operated to Fullest Capacity.

An important business deal was put through last week in Lakefield, whereby Mr. John Hull's mill in that village has been purchased by Mr. J. C. Shook, for the Dickson Company. The mill will be operated on a larger scale than formerly. The purchase included Mr. Hull's privileges on the Lakefield dam, and it is understood the Dickson Company are now the owners of all the water power there. The mill will be equipped with a roller process and will be run on its fullest capacity—125 barrels per day.

WHEAT SHIPPED TO EAST

Claimed That One-Fifth of Crop Has Already Been Shipped.

Winnipeg, October 8.—Assuming the western wheat crop this year to be ninety million bushels, one-fifth has already been shipped to the east over the C.P.R. lines. The total grain receipts up to date this season are: Wheat, 14,472,000 bushels; other grains, 865,000 bushels.

On Wednesday 615,000 bushels of wheat and 41,000 bushels of other grain were marketed, the receipts on the corresponding day last year being 526,000 bushels of wheat and 36,000 bushels of other grains.

The total amount of grain marketed up to October 3 last year was 9,000,000 bushels, all of which, with the exception of 961,000 bushels, was wheat.

CREW MAY BE LOST

Another Vessel Added to Those Wrecked by the Tropical Hurricane.

Pensacola, Fla., Oct. 8. — Another vessel has been added to the many wrecks, now scattered along the Gulf coast as a result of the tropical hurricane.

The vessel is the schooner Jennie Hurlburt, from Moss Point, loaded with a cargo of lumber, and if the captain and crew did no escape in small boats and ride through the storm safely they have been lost.

The dismasted and abandoned schooner was sighted by the Norwegian bark Nagpore, which arrived yesterday, about 200 miles south of Pensacola, floating aimlessly about and very dangerous to navigation.

There were no signs of life aboard, and she was half full of water.

Alleged Pickpocket is Arrested

On Saturday as Louis Delorimey was about to take the noon G.T.R. train for Montreal, his trip was somewhat postponed, he being arrested on a charge of pocket-picking by P. C. Newhall. Another man on his company was also arrested, the latter being Jack Burns, the man Delorimey is said to have "touched."

Burn, who had just returned from a lumber camp, had been drinking somewhat, and when he arrived at the station, lay down in the waiting room. It is alleged that Delorimey, robbed him of his money while he lay half asleep. A number of persons standing by positively declare that they saw the prisoner put his hand in Burn's pocket, and he latter says he lost over five dollars.

Burns accused the other of the theft at the station, and gave him an opportunity to return the $5. But the Montrealer refused, emphatically stating he did not steal it. The police were 'phoned, and in a few minutes P. C. Newhall took from Delorimey's side pocket a five and one dollar bill.

The alleged thief was thoroughly searched at the police station, in his right hip pocket were found $22 in bills of one, five and ten dollar denomination. In his inside coat pocket was a sealed bottle of rye whisky. A few other little trinkets were also discovered, and he had about a dozen cigars in his vest pocket, which he said, he purchased in a local hotel.

The prisoner, in broken English, denied the accusation that he had stolen any money, declaring that it was all his own.

The evidence appears to be very strong against him from the statements made by bystanders, and when he came up before the magistrate in the afternoon he was remanded for

Protestantism Not Dying in Quebec

Montreal, Oct. 8.—Geo. G. Foster, a well-known King's counsel of Montreal, and a resident of the Eastern Townships, has sent the following telegram to the Chairman of the Presbyterian Synod at Moncton:

"It is reported here that Dr. Mowat told your Synod that English Protestantism is dying out in Quebec, and that within twenty years there will be no English-speaking Protestant Church in Quebec east of Montreal. This fear is absolutely without foundation. I know every country case of the Richelieu river, and, speaking with that knowledge I tell you that there is no more chance of Protestant churches being closed in the townships in twenty years than here is of their being closed in Montreal. Who could bring such a calamity about would be for bodies like yours to abet such a fact of this kind, and have it believed by homeseeking there or intending newcomers. The Methodist church in Sutton expended six cent hundred dollars renovating during the past year. Protestant churches in Brome county, almost without exception, have been materially improved during the past year. Help us to get English Protestant settlers instead of frightening them away.

Canada Winning in German Trade War

London, Oct. 7.—The resolution recently adopted by the Australian House of Representatives in favor of a 10 per cent. preference on imports from the Mother Country has already aroused the ire of the German press.

One of the papers declares that Germany is after Great Britain. Australia's best customer, she must claim the right to be treated as regards fair trade conditions of equality with every other country." The Journal ends by calling upon the government to retaliate on Australia, as they did on Canada.

The allusion to Canada is somewhat unfortunate one at this moment for according to statistics just published by the imperial authorities, the tariff war which is still proceeding between Germany and the Dominion has developed in a manner highly unfavorable to Germany. Imports from Germany to Canada have decreased from 38.7 million marks in 1902 to 35.8 million marks in 1903, to 23.2 millions in 1904, and to 21.8 millions in 1905. Exports from Canada to Germany have, on the other hand, despite the autonomous tariff, increased from 5.9 in 1898 to 9.7 million marks in 1905.

MORMON CONVERTS

Sixty People Leave Lancashire For Salt Lake City.

London, Oct. 8.—Sixty Lancashire converts to Mormonism have just left Liverpool for Salt Lake City. They have been won over to the faith of Brigham Young and Elder Smith by the party of propagandists who have been touring Great Britain for some time.

Half of the converts are women, and many of them are comparatively young, and come from the cotton centers of Lancashire. Among the male converts here are six men over sixty years of age, and a number of them are possessed of considerable fortunes.

HOT WEATHER DEBILITY

How to Protect Oneself Against Heat Fatigue, and Summer Disease.

Many people are so easily affected by the hot weather as to be capable of but little work during the summer months. Inquiry among this class will show that in nearly every instance there is a weak stomach and more or less indigestion. Put the digestive organs right by using Mi-o-na stomach tablets and the summer time will prove the pleasantest, most desirable and enjoyable season of the year.

One little Mi-o-na tablet before each meal will give you the vitality energy and physical endurance during the heated term and ward off the ordinary diseases of summer. Mi-o-na is not an ordinary summer tonic or digestive, it is a true strengthener of the digestive system, building up the organs to perfect health and vitality by curing the indigestion and absolutely removing all pains and distress in the stomach, specks before the eyes, sick and nervous headache, and other symptoms that come from a weakened stomach.

Mi-o-na makes positive and lasting cures and is sold under an absolute guarantee that it will cure all diseases of the stomach, except cancer, or the money—50c. per box—will be refunded.

For sale by all dealers. The R. T. Booth Co., Buffalo, N. Y.

MARINES DISARM AND ARREST REBEL CROWD

PATRICIA OF CONNAUGHT TO WED

St. Petersburg, Oct. 8. — A marriage which is of the greatest significance in binding the new and friendly relations between Great Britain and Russia has been arranged between the Grand Duke Michael, only brother of Emperor Nicholas, and Princess Patricia of Connaught, daughter of the Duke of Connaught, brother of King Edward. The betrothal occurred during the grand duke's recent trip to Copenhagen and Scotland, from which he has just returned.

The Grand Duke Michael Alexandrovitch was born in St. Petersburg, Nov. 22, 1878.

The Princess Victoria Patricia of Connaught was born in London, March 17, 1886.

Two Hundred Miles Swept by Forest Fire

Los Angeles, Cal., Oct. 8.—Extensive mountain fires in the San Fernando district have been raging since yesterday.

Reports from special correspondents state that the fire has already burned 200 square miles of watershed and swept it clean, destroying the stations of Lang and Humphrey, on the Southern Pacific Railroad, and caused a loss of $40,000 to the Standard Oil Company by the destruction of boiler-houses, oil tanks and derricks.

THREE FIREMEN HURT.

Warren, Pa., Oct. 8.—Fire broke out about daylight yesterday in the large four-storey warehouse of the Parker Hardware Company, Limited, and for a time threatened the business section of the city.

The flames were finally controlled with a property loss of $100,000.

Three firemen were seriously injured by the falling of a ladder.

WOOLEN MILLS BURN.

Louisville, Ky., Oct. 8.—Fire in the warehouse of the Mayfield Woolen Mills yesterday did damage estimated at $350,000, covered by insurance.

Remedy for Hereditary Insanity.

London, October 6.—Lord Rosebery, in a speech opening a new insane asylum for Edinburgh, discussed remedies for the ever growing number of cases of insanity. He said he believed the idealistic plan for checking hereditary insanity by preventing the marriage of members of families tainted with the malady would be excellent if it were practical.

Bank Robbers Get Good Haul.

San Francisco, October 6.—Two robbers entered the Kimmon Ginko, a Japanese bank, also known as the Golden Gate bank, in O'Farrell street yesterday, and after fatally beating S. Urakata, the manager, and seriously injuring A. Sasaki, a clerk, escaped with $5,000 in gold. Manager Urakata died two hours later from his injuries.

Building of Panama Canal.

Washington, October 6.—A tentative decision has been reached by Chairman Shonts, of the Isthmian Canal commission, that the Panama canal be built by contract. An announcement of the final determination of the canal officials respecting the method of construction is predicted in a few days.

LACROSSE.

The second of the home and home games, Tecumsehs v. Torontos, and Capitals v. Cornwall, the winners of the first games held sufficient of a lead to land them in the finals. Thus Tecumsehs and Capitals will clash for the championship, also in home and home games. The Torontos made such a stand Saturday at Rosedale that their supporters expected to see the lead surmounted. But the Indians finished full of running, and when the whistle blew it was 3 to 6 all. At Cornwall the homesters had made a bright start, but the Leonores on both sides were so strong that the finish Cornwall only won by 2 to 1, and the margin was only a goal.

An Exciting Incident is Reported—Taft Wants all the Troops He Has Asked for.

Havana, Oct. 7.—Gov. Taft said today that he had no intention of turning back any portion of the expedition of 5500 regular troops ordered to Cuba. He feels that this number is needed as a precaution against future trouble. He does not pay serious attention to the rumors of opposition to the disarmament of the insurgents. He says he troops to be sent there will be sufficient to garrison the towns and will establish confidence among the disbanded insurgents that they will not be imposed upon by the municipal police or rural guards.

The meeting of the insurgents home and breaking up their organization is believed by Mr. Taft to be of far more importance than inducing them to lay down their arms, although this does not mean that the disarmament commission is not vigorously pressing the demand for their disarmament.

A detachment of 200 American troops today rode into the Cuban town of the City of Puerto Principe, causing much better and threatening people. Twent American marines from the detachment on duty at Puerto Principe went to Ciniael, dispersed the insurgents and arrested 20 of them. Gen. Castillero, the insurgent leader with 100 men, thereupon proceeded to the headquarters of the commander of the marines and demanded the release of the captured insurgents.

Instead of releasing them, the Americans disarmed Castillero and all of his followers who could be caught. Thereupon Castillero promised that all the insurgents under his command would disarm.

MAGOON SEES ROOSEVELT.

Washington, Oct. 7.—Secretary of State Root and Gov. Magoon were in conference with the president at the White House yesterday for some time, the purpose being to instruct the governor relative to the treatment of the Cuban question when he assumes office at Havana. Gen. Bell, chief of staff, who [illegible] Washington this afternoon with Gov. Magoon for Havana, by way of Tampa, also called on the president.

MAY DELAY TOO LONG

If Turks Do Not Hurry Bulgarians May Re-occupy Sujuk.

Constantinople, October 6.—The delay on the part of the Turkish commissioners to sign the report resulting from the enquiry into the frontier dispute regarding the delimitation of a portion of the vilayet of Adrianople, which led to a somewhat sharp fight recently between the soldiers guarding the Bulgarian post at Sujuk, and the guard on duty at the Turkish post of Dervish Mamila, has brought out practically an ultimatum from Bulgaria, in which that country declares that unless it is signed by October 14, the Bulgarian troops will be ordered immediately to re-occupy Sujuk. The enquiry was concluded three weeks ago.

YOUTHS SHOOTS SWEETHEART

Turns Revolver on Policeman and Then Attempts Suicide.

New York, October 6.—Wm. F. Kieley, a youth of 20 years, shot twice, and it is said mortally wounded Margaret Lynch, aged 23 years, as she stepped from a street car in Williamsburg, last night. Kieley later fired on an officer, and missing his mark, attempted to kill himself. Jealousy is said to have caused the shooting.

Damages for Death of Husband.

Sandwich, Ont., October 8.—Mrs. James Hanly, of Maidstone, obtained a verdict of $5,750 damages against the Michigan Central Railway at the assizes here. Mrs. Manly's husband was killed while returning home, as were his horses.

NEGROES HUNG AND BODIES BURNT

MOB IS SUCCESSFUL

Mobile, Ala., Oct. 7.—A committee of sixty men left here on the Southern Railroad at five o'clock this morning to meet Sheriff Powers of Mobile County, who is returning from Birmingham with two Mobile negroes charged with criminal assault.

The feeling here is that the prisoners will be taken from the sheriff and lynched or burned outside of Mobile.

Two thousand men met the Louisville & Nashville train this morning, but were disappointed at the non-arrival of the sheriff and prisoners, who had gone by the other route.

Sheriff Powers and his prisoners were scheduled to arrive here at 11.30. There is no militia aboard the train, which excitement prevails.

When Run-Down, "Draggy," Used-up

You Lack the Vigor, Courage and Staying Power that "Ferrozone" Can Supply.

Night comes and it's hard to sleep. Morning dawns and the anxious, tired feeling is still there. Don't neglect this gradual decline; it can't cure itself. But by forming rich, pure blood, Ferrozone will quickly supply the nutriment and building material your system craves.

Instantly you are aware that some powerful force is building up your depleted energies. At once you feel braced, toned, strengthened. Search the world over and you won't find anything to tone up a weak system like Ferrozone. Physicians claim it is the most strengthening, uplifting medicine ever discovered.

No more spells of tiredness, but bounding, joyful health when you take Ferrozone, of which Mrs. H. S. Gould, of Rowsman, Man., speaks in the following words of praise:

"I state my case because I think it may assist other women to health. A year ago I was almost a wreck. I was pale and emaciated, suffering from nervousness and hysteria. Little things going wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone."

Why not cast aside the chains of sickness and enter the bright, happy life of robust health. Let Ferrozone help you—let it cure you once and forever. Price 50c. per box or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterboro are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, OCTOBER 5 1906

MEDICAL SCIENCE OF THE FUTURE

President Eliot, in his address at the dedication of the new Harvard Medical school upon the curriculum of medical science, pointed out the direction in which progress must be made. The cure of disease will continue to be made the object of search, but more attention will be paid to seeking its hidden causes. Prevention rather than cure will be the aim of the physicians of the future. This will be an expensive matter for a long time to come. What are now elementary ideas on the subject of sanitation and prophylaxis are so recent that the errors of centuries will have to be corrected before the older cities of the world will be free from the lurking specter of disease. The death rate is slowly diminishingm but at a great cost. It is cheaper to be filthy than to be clean, if one thinks human life of little value. Pure water, drainage, rigid inspection of all possible sources of disease, and the other means by which modern science is attacking the enemy instead of waiting on the defensive, are all costly.
